COMMERCIAL POLICY

EUROPEAN COMMISSION

**Notice of initiation of an anti-subsidy proceeding concerning imports of aluminium converter foil
originating in the People's Republic of China**

(2020/C 419/11)

The European Commission ('the Commission') has received a complaint pursuant to Article 10 of Regulation (EU) 2016/1037 of the European Parliament and of the Council of 8 June 2016 on protection against subsidised imports from countries not members of the European Union ⁽¹⁾ ('the basic Regulation'), alleging that imports of aluminium converter foil, originating in the People's Republic of China are being subsidised and are thereby causing injury ⁽²⁾ to the Union industry.

1. Complaint

The complaint was lodged on 21 October 2020 by six Union producers ('the complainants'), representing more than 50 % of the total Union production of aluminium converter foil.

An open version of the complaint and the analysis of the degree of support by Union producers for the complaint are available in the file for inspection by interested parties. Section 5.6 of this Notice provides information about access to the file for interested parties.

2. Product under investigation

The product subject to this investigation is aluminium converter foil of a thickness of less than 0,021 mm, not backed, not further worked than rolled, in rolls of a weight exceeding 10 kg ('the product under investigation').

The following products are excluded:

- Aluminium household foil of a thickness of not less than 0,008 mm and not more than 0,018 mm, not backed, not further worked than rolled, in rolls of a width not exceeding 650 mm and of a weight exceeding 10 kg.
- Aluminium household foil of a thickness of not less than 0,007 mm and less than 0,008 mm, regardless of the width of the rolls, whether or not annealed.
- Aluminium household foil of a thickness of not less than 0,008 mm and not more than 0,018 mm and in rolls of a width exceeding 650 mm, whether or not annealed.
- Aluminium household foil of a thickness of more than 0,018 mm and less than 0,021 mm, regardless of the width of the rolls, whether or not annealed.

⁽¹⁾ OJ L 176, 30.6.2016, p. 55.

⁽²⁾ The general term 'injury' refers to material injury as well as to threat of material injury or material retardation of the establishment of an industry as set out in Article 2(d) of the basic Regulation.

All interested parties wishing to submit information on the product scope must do so within 10 days of the date of publication of this Notice ^(?).

3. Allegation of subsidisation

The product allegedly being subsidised is the product under investigation, originating in the People's Republic of China ('the PRC' or 'the country concerned') currently classified under CN code ex 7607 11 19 (TARIC codes 7607 11 19 60 and 7606 11 19 91).

The complaint includes sufficient evidence that the producers of the product under investigation from the country concerned have benefitted from a number of subsidies granted by the Government of the People's Republic of China.

The alleged subsidy practices consist, *inter alia*, of (1) direct transfer of funds and potential direct transfers of funds or liabilities; (2) government revenue forgone or not collected; and (3) government provision of goods or services for less than adequate remuneration. The complaint contained evidence, for example, of various grants, provision of loans and credit lines provided by State-owned banks and other financial institutions at preferential terms, and provision of export credits by State-owned banks and other financial institutions; income tax reductions and exemptions, import tariff rebates and VAT exemptions and rebates; and government provision of goods for less than adequate remuneration.

The complainants allege that the above measures are subsidies since they involve a financial contribution from the Government of the People's Republic of China or other regional governments (including public bodies) and confer a benefit to the exporting producers of the product under investigation. They are alleged to be limited to certain enterprises or industry or group of enterprises and are therefore specific and countervailable. On this basis the alleged subsidy amounts appear to be significant for the country concerned.

In view of Articles 10(2) and 10(3) of the basic Regulation, the Commission prepared a memorandum on sufficiency of evidence containing the Commission's assessment on all the evidence at the disposal of the Commission concerning the PRC and on the basis of which the Commission initiates the investigation. That memorandum can be found in the file for inspection by interested parties.

The Commission reserves the right to investigate other relevant subsidies that may be revealed during the course of the investigation.

4. Allegations of injury and causation

The complainants have provided evidence that imports of the product under investigation from the country concerned have increased overall in absolute terms.

The evidence provided by the complainants shows that the volume and the prices of the imported product under investigation have had, among other consequences, a negative impact on level of prices charged by the Union industry, resulting in substantial adverse effects on the overall performance, financial situation and employment situation of the Union industry.

Furthermore, the complainants provide evidence that there is sufficient freely disposable capacity in the PRC indicating the likelihood of substantially increased imports.

It is also alleged that the flow of subsidised imports is likely to further increase substantially due to the recent imposition of tariffs and measures against the product under investigation in third markets such as United States, Turkey, India, Mexico and Indonesia. That indicates a likelihood of a redirection of exports to the Union leading to a substantial increase of subsidised imports. The complainants allege that those changes in circumstances are clearly expected and imminent.

The complainants also allege that the increase of unfair imports is the main cause of injury and there are no other factors that appear to attenuate the causal link.

The Commission considers that there is sufficient evidence showing that the volume and the prices of the imported product under investigation have had, among other consequences, a negative impact on the quantities sold and the level of prices charged, resulting in substantial adverse effects on the overall performance of the Union industry.

5. Procedure

Having determined, after informing the Member States, that the complaint has been lodged by or on behalf of the Union industry and that there is sufficient evidence to justify the initiation of a proceeding, the Commission hereby initiates an investigation pursuant to Article 10 of the basic Regulation.

^(?) References to the publication of this Notice mean publication in the *Official Journal of the European Union*.

The investigation will determine whether the product under investigation originating in the country concerned is being subsidised and whether the subsidised imports have caused injury to the Union industry.

If the conclusions are affirmative, the investigation will examine whether the imposition of measures would not be against the Union interest.

The Government of the country concerned has been invited for consultations in accordance with Article 10(7) of the basic Regulation.

Regulation (EU) 2018/825 of the European Parliament and of the Council (TDI Modernisation package), ⁽⁴⁾ which entered into force on 8 June 2018, introduced a number of changes to the timetable and deadlines previously applicable in anti-subsidy proceedings. In particular, the Commission needs to provide information on the planned imposition of provisional duties 3 weeks before the imposition of provisional measures. The time-limits for interested parties to come forward, in particular at the early stage of investigations, are shortened. Therefore, the Commission invites interested parties to respect the procedural steps and deadlines provided in this Notice as well as in further communications from the Commission.

The Commission also draws the attention of the parties that further to the COVID-19 outbreak, a Notice ⁽⁵⁾ was published on the potential consequences of the COVID-19 outbreak on anti-dumping and anti-subsidy investigations.

5.1. *Investigation period and period considered*

The investigation of subsidisation and injury will cover the period from 1 July 2019 to 30 June 2020 ('the investigation period'). The examination of trends relevant for the assessment of injury will cover the period from 1 January 2017 to the end of the investigation period ('the period considered').

5.2. *Comments on the complaint and the initiation of the investigation*

All interested parties wishing to comment on the complaint (including matters pertaining to injury and causality) or any aspects regarding the initiation of the investigation (including the degree of support for the complaint) must do so within 37 days of the date of publication of this Notice.

Any request for a hearing with regard to the initiation of the investigation must be submitted within 15 days of the date of publication of this Notice.

5.3. *Procedure for the determination of subsidisation*

Exporting producers ⁽⁶⁾ of the product under investigation are invited to participate in the Commission investigation. Other parties from which the Commission will seek relevant information to determine the existence and amount of countervailable subsidies conferred upon the product under investigation are also invited to cooperate with the Commission to the fullest extent possible.

5.3.1. *Investigating producers in the country concerned*

(a) *Sampling*

In view of the potentially large number of exporting producers in the country concerned involved in this proceeding and in order to complete the investigation within the statutory time limits, the Commission may limit the exporting producers to be investigated to a reasonable number by selecting a sample (this process is also referred to as 'sampling'). The sampling will be carried out in accordance with Article 27 of the basic Regulation.

In order to enable the Commission to decide whether sampling is necessary, and if so, to select a sample, all exporting producers, or representatives acting on their behalf, are hereby requested to provide the Commission with information on their company(ies) within 7 days of the date of publication of this Notice. This information must be provided via TRON.tdi at the following address: <https://tron.trade.ec.europa.eu/tron/tdi/form/b4e93881-94c5-6b55-1a58-907cc74e7173> Tron access information can be found in Sections 5.6 and 5.8.

⁽⁴⁾ Regulation (EU) 2018/825 of the European Parliament and of the Council of 30 May 2018 amending Regulation (EU) 2016/1036 on protection against dumped imports from countries not members of the European Union and Regulation (EU) 2016/1037 on protection against subsidised imports from countries not members of the European Union (OJ L 143, 7.6.2018, p. 1).

⁽⁵⁾ On the consequences of the COVID-19 outbreak on anti-dumping and anti-subsidy investigations (OJ C 86, 16.3.2020, p. 6).

⁽⁶⁾ An exporting producer is any company in the country concerned which produces and exports the product under investigation to the Union market, either directly or via a third party, including any of its related companies involved in the production, domestic sales or exports of the product under investigation.

In order to obtain information it deems necessary for the selection of the sample of exporting producers, the Commission has also contacted the authorities of the PRC and may contact any known associations of producers in the country concerned.

If a sample is necessary, the producers will be selected based on the largest representative volume of production, sales or exports that can reasonably be investigated within the time available. All known producers, the authorities of the country concerned and associations of producers will be notified by the Commission, via the authorities of the country concerned, if appropriate, of the companies selected to be in the sample.

In order to obtain information it deems necessary for its investigation with regard to producers in the country concerned, the Commission will make questionnaires available to the producers selected to be in the sample, to any known associations of producers, and to the authorities of the country concerned.

Once the Commission has received the necessary information to select a sample of exporting producers, it will inform the parties concerned of its decision whether they are included in the sample. The sampled exporting producers will have to submit a completed questionnaire within 30 days from the date of notification of the decision of their inclusion in the sample, unless otherwise specified.

The Commission will add a note to the file for inspection by interested parties reflecting the sample selection. Any comment on the sample selection must be received within 3 days of the date of notification of the sample decision.

A copy of the questionnaire for exporting producers is available in the file for inspection by interested parties and on DG Trade's website https://trade.ec.europa.eu/tdi/case_details.cfm?id=2501. The questionnaire will also be made available to any known association of exporting producers, and to the authorities of the People's Republic of China.

Without prejudice to the possible application of Article 28 of the basic Regulation, companies that have agreed to their possible inclusion in the sample but are not selected to be in the sample will be considered to be cooperating ('non-sampled exporting cooperating producers').

(b) Individual amount of countervailable subsidisation for companies not included in the sample

Pursuant to Article 27(3) of the basic Regulation, non-sampled cooperating exporting producers may request the Commission to establish their individual amount of countervailable subsidisation. Exporting producers wishing to claim an individual amount of countervailable subsidisation must fill in the questionnaire and return it duly completed within 30 days of the date of notification of the sample selection, unless otherwise specified. A copy of the questionnaire for exporting producers is available in the file for inspection by interested parties and on DG Trade's website https://trade.ec.europa.eu/tdi/case_details.cfm?id=2501.

The Commission will examine whether non-sampled cooperating exporting producers can be granted an individual duty in accordance with Article 27(3) of the basic Regulation.

However, non-sampled cooperating exporting producers claiming an individual amount of countervailable subsidisation should be aware that the Commission may nonetheless decide not to determine their individual amount of countervailable subsidisation if, for instance, the number of non-sampled cooperating exporting producers is so large that such determination would be unduly burdensome and would prevent the timely completion of the investigation.

5.3.2. Investigating unrelated importers ⁽⁷⁾ ⁽⁸⁾

Unrelated importers of the product under investigation from the PRC to the Union are invited to participate in this investigation.

In view of the potentially large number of unrelated importers involved in this proceeding and in order to complete the investigation within the statutory time limits, the Commission may limit to a reasonable number the unrelated importers that will be investigated by selecting a sample (this process is also referred to as 'sampling'). The sampling will be carried out in accordance with Article 27 of the basic Regulation.

In order to enable the Commission to decide whether sampling is necessary and, if so, to select a sample, all unrelated importers, or representatives acting on their behalf, are hereby requested to provide the Commission with the information on their company(ies) requested in the Annex to this Notice within 7 days of the date of publication of this Notice.

In order to obtain information it deems necessary for the selection of the sample of unrelated importers, the Commission may also contact any known associations of importers.

If a sample is necessary, the importers may be selected based on the largest representative volume of sales of the product under investigation in the Union which can reasonably be investigated within the time available. All known unrelated importers and associations of importers will be notified by the Commission of the companies selected to be in the sample.

The Commission will also add a note to the file for inspection by interested parties reflecting the sample selection. Any comment on the sample selection must be received within 3 days of the date of notification of the sample decision.

In order to obtain information it deems necessary for its investigation, the Commission will make available questionnaires to the sampled unrelated importers. Those parties must submit a completed questionnaire within 30 days from the date of the notification of the decision about the sample, unless otherwise specified.

A copy of the questionnaire for importers is available in the file for inspection by interested parties and on DG Trade's website https://trade.ec.europa.eu/tdi/case_details.cfm?id=2501

5.4. Procedure for the determination of injury and investigating Union producers

A determination of injury is based on positive evidence and involves an objective examination of the volume of the subsidised imports, their effect on prices on the Union market and the consequent impact of those imports on the Union industry. In order to establish whether the Union industry is injured, Union producers of the product under investigation are invited to participate in the Commission investigation.

In view of the large number of Union producers concerned and in order to complete the investigation within the statutory time limits, the Commission has decided to limit to a reasonable number the Union producers that will be investigated by selecting a sample (this process is also referred to as 'sampling'). The sampling is carried out in accordance with Article 27 of the basic Regulation.

⁽⁷⁾ This section covers only importers not related to exporting producers. Importers that are related to exporting producers have to fill in the questionnaire for exporting producers that is available in the file for inspection by interested parties and on DG Trade's website https://trade.ec.europa.eu/tdi/case_details.cfm?id=2501 In accordance with Article 127 of Commission Implementing Regulation (EU) 2015/2447 of 24 November 2015 laying down detailed rules for implementing certain provisions of Regulation (EU) No 952/2013 of the European Parliament and of the Council laying down the Union Customs Code, two persons shall be deemed to be related if: (a) they are officers or directors of the other person's business; (b) they are legally recognised partners in business; (c) they are employer and employee; (d) a third party directly or indirectly owns, controls or holds 5 % or more of the outstanding voting stock or shares of both of them; (e) one of them directly or indirectly controls the other; (f) both of them are directly or indirectly controlled by a third person; (g) together they control a third person directly or indirectly; or (h) they are members of the same family (OJ L 343, 29.12.2015, p. 558). Persons shall be deemed to be members of the same family only if they stand in any of the following relationships to one another: (i) husband and wife, (ii) parent and child, (iii) brother and sister (whether by whole or half blood), (iv) grandparent and grandchild, (v) uncle or aunt and nephew or niece, (vi) parent-in-law and son-in-law or daughter-in-law, (vii) brother-in-law and sister-in-law. In accordance with Article 5(4) of Regulation (EU) No 952/2013 of the European Parliament and of the Council laying down the Union Customs Code, 'person' means a natural person, a legal person, and any association of persons which is not a legal person but which is recognised under Union or national law as having the capacity to perform legal acts (OJ L 269, 10.10.2013, p. 1).

⁽⁸⁾ The data provided by unrelated importers may also be used in relation to aspects of this investigation other than the determination of injury.

The Commission has provisionally selected a sample of Union producers. Details can be found in the file for inspection by interested parties. Interested parties are hereby invited to comment on the provisional sample. In addition, other Union producers, or representatives acting on their behalf, that consider that there are reasons why they should be included in the sample must contact the Commission within 7 days of the date of publication of this Notice. All comments regarding the provisional sample must be received within 7 days of the date of publication of this Notice, unless otherwise specified.

All known Union producers and/or associations of Union producers will be notified by the Commission of the companies finally selected to be in the sample.

The sampled Union producers will have to submit a completed questionnaire within 30 days from the date of notification of the decision of their inclusion in the sample, unless otherwise specified.

A copy of the questionnaire for Union producers is available in the file for inspection by interested parties and on DG Trade's website https://trade.ec.europa.eu/tdi/case_details.cfm?id=2501

5.5. **Procedure for the assessment of Union interest**

Should the existence of subsidisation and injury caused thereby be established, a decision will be reached, pursuant to Article 31 of the basic Regulation, as to whether the adoption of anti-subsidy measures would not be against the Union interest.

Union producers, importers and their representative associations, users and their representative associations, trade unions and representative consumer organisations are invited to provide the Commission with information on the Union interest.

Information concerning the assessment of Union interest must be provided within 37 days of the date of publication of this Notice, unless otherwise specified. This information may be provided either in a free format or by completing a questionnaire prepared by the Commission.

A copy of the questionnaires, including the questionnaire for users of the product under investigation, is available in the file for inspection by interested parties and on DG Trade's website https://trade.ec.europa.eu/tdi/case_details.cfm?id=2501 In any case, information submitted pursuant to Article 31 will only be taken into account if supported by factual evidence at the time of submission which substantiates its validity.

5.6. **Interested parties**

In order to participate in the investigation interested parties, such as exporting producers, Union producers, importers and their representative associations, users and their representative associations, trade unions and representative consumer organisations first have to demonstrate that there is an objective link between their activities and the product under investigation.

Exporting producers in the country concerned, Union producers, importers and representative associations who made information available in accordance to the procedures described in Sections 5.3.1, 5.3.2 and 5.4 above will be considered as interested parties if there is an objective link between their activities and the product under investigation.

Other parties will only be able to participate in the investigation as interested party from the moment they make themselves known, and provided that there is an objective link between their activities and the product under investigation. Being considered as an interested party is without prejudice to the application of Article 28 of the basic Regulation.

Access to the file available for inspection for interested parties is made via TRON.tdi at the following address: <https://tron.trade.ec.europa.eu/tron/TDI> Please follow the instructions on that page to get access.

5.7. **Possibility to be heard by the Commission investigation services**

All interested parties may request to be heard by the Commission's investigation services.

Any request to be heard must be made in writing and must specify the reasons for the request as well as a summary of what the interested party wishes to discuss during the hearing. The hearing will be limited to the issues set out by the interested parties in writing beforehand.

The timeframe for hearings is as follows:

- For any hearings to take place before the imposition of provisional measures, a request should be made within 15 days from the date of publication of this Notice and the hearing will normally take place within 60 days of the date of publication of this Notice.

- After the provisional stage, a request should be made within 5 days from the date of the provisional disclosure or of the information document, and the hearing will normally take place within 15 days from the date of notification of the disclosure or the date of the information document.
- At definitive stage, a request should be made within 3 days from the date of the final disclosure, and the hearing will normally take place within the period granted to comment on the final disclosure. If there is an additional final disclosure, a request should be made immediately upon receipt of this additional final disclosure, and the hearing will normally take place within the deadline to provide comments on this disclosure.

The outlined timeframe is without prejudice to the right of the Commission services to accept hearings outside the timeframe in duly justified cases and to the right of the Commission to deny hearings in duly justified cases. Where the Commission services refuse a hearing request, the party concerned will be informed of the reasons for such refusal.

In principle, hearings will not be used to present factual information which is not yet on file. Nevertheless, in the interest of good administration and to enable Commission services to progress with the investigation, interested parties may be directed to provide new factual information after a hearing.

5.8. *Instructions for making written submissions and sending completed questionnaires and correspondence*

Information submitted to the Commission for the purpose of trade defence investigations shall be free from copyrights. Interested parties, before submitting to the Commission information and/or data which is subject to third party copyrights, must request specific permission to the copyright holder explicitly allowing the Commission a) to use the information and data for the purpose of this trade defence proceeding and b) to provide the information and/or data to interested parties to this investigation in a form that allows them to exercise their rights of defence.

All written submissions, including the information requested in this Notice, completed questionnaires and correspondence provided by interested parties for which confidential treatment is requested shall be labelled 'Sensitive' ⁽⁹⁾. Parties submitting information in the course of this investigation are invited to reason their request for confidential treatment.

Parties providing 'Sensitive' information are required to furnish non-confidential summaries of it pursuant to Article 29(2) of the basic Regulation, which will be labelled 'For inspection by interested parties'. These summaries should be sufficiently detailed to permit a reasonable understanding of the substance of the information submitted in confidence. If a party providing confidential information fails to show good cause for a confidential treatment request or does not furnish a non-confidential summary of it in the requested format and quality, the Commission may disregard such information unless it can be satisfactorily demonstrated from appropriate sources that the information is correct.

Interested parties are invited to make all submissions and requests via TRON.tdi (<https://tron.trade.ec.europa.eu/tron/TDI>) including scanned powers of attorney and certification sheets. By using TRON.tdi or email, interested parties express their agreement with the rules applicable to electronic submissions contained in the document 'CORRESPONDENCE WITH THE EUROPEAN COMMISSION IN TRADE DEFENCE CASES' published on the website of the Directorate-General for Trade: http://trade.ec.europa.eu/doclib/docs/2011/june/tradoc_148003.pdf The interested parties must indicate their name, address, telephone and a valid email address and they should ensure that the provided email address is a functioning official business email which is checked on a daily basis. Once contact details are provided, the Commission will communicate with interested parties by TRON.tdi or email only, unless they explicitly request to receive all documents from the Commission by another means of communication or unless the nature of the document to be sent requires the use of a registered mail. For further rules and information concerning correspondence with the Commission including principles that apply to submissions via TRON.tdi and by email, interested parties should consult the communication instructions with interested parties referred to above.

6. Schedule of the investigation

Pursuant to Article 11(9) of the basic Regulation, the investigation shall, whenever possible, be concluded within 12 months and in any event no later than 13 months from the date of the publication of this Notice. In accordance with Article 12(1) of the basic Regulation, provisional measures may be imposed not later than 9 months from the publication of this Notice.

In accordance with Article 29a of the basic Regulation, the Commission will provide information on the planned imposition of provisional duties 4 weeks before the imposition of provisional measures. Interested parties may request this information in writing within 4 months of the publication of this notice. Interested parties will be given 3 working days to comment in writing on the accuracy of the calculations.

In cases where the Commission intends not to impose provisional duties but to continue the investigation, interested parties will be informed in writing of the non-imposition of duties 4 weeks before the expiry of the deadline under Article 12(1) of the basic Regulation.

Interested parties will be given in principle 15 days to comment in writing on the provisional findings or on the information document, and 10 days to comment in writing on the definitive findings, unless otherwise specified. Where applicable, additional final disclosures will specify the deadline for interested parties to comment in writing.

7. Submission of information

As a rule, interested parties may only submit information in the timeframes specified in Sections 5 and 6 of this Notice. The submission of any other information not covered by those sections should respect the following timetable:

- Any information for the stage of provisional findings should be submitted within 70 days from the date of publication of this Notice, unless otherwise specified.
- Unless otherwise specified, interested parties should not submit new factual information after the deadline to comment on the provisional disclosure or the information document at provisional stage. Beyond such deadline, interested parties may only submit new factual information provided that such parties can demonstrate that such new factual information is necessary to rebut factual allegations made by other interested parties and provided that such new factual information can be verified within the time available to complete the investigation in a timely manner.
- In order to complete the investigation within the mandatory deadlines, the Commission will not accept submissions from interested parties after the deadline to provide comments on the final disclosure or, if applicable, after the deadline to provide comments on the additional final disclosure.

8. Possibility to comment on other parties' submissions

In order to guarantee the rights of defence, interested parties should have the possibility to comment on information submitted by other interested parties. When doing so, interested parties may only address issues raised in the other interested parties' submissions and may not raise new issues.

Such comments should be made according to the following timeframe:

- Any comment on information submitted by other interested parties before the imposition of provisional measures should be made at the latest within 75 days from the date of publication of this Notice, unless otherwise specified.
- Comments on the information provided by other interested parties in reaction to the disclosure of the provisional findings or of the information document should be submitted within 7 days from the deadline to comment on the provisional findings or on the information document, unless otherwise specified.

- Comments on the information provided by other interested parties in reaction to the disclosure of the definitive findings should be submitted within 3 days from the deadline to comment on the definitive findings, unless otherwise specified. If there is an additional final disclosure, comments on the information provided by other interested parties in reaction to this further disclosure should be made within 1 day from the deadline to comment on this further disclosure, unless otherwise specified.

The outlined timeframe is without prejudice to the Commission's right to request additional information from interested parties in duly justified cases.

9. Extension to time limits specified in this Notice

Extensions to time-limits provided for in this Notice may be granted upon request of interested parties showing due cause.

Any extension to the time-limits provided for in this Notice should only be requested in exceptional circumstances and will only be granted if duly justified.

In any event, any extension to the deadline to reply to questionnaires will be limited normally to 3 days, and as a rule will not exceed 7 days.

Regarding time limits for the submission of other information specified in the Notice of Initiation, extensions will be limited to 3 days unless exceptional circumstances are demonstrated.

10. Non-cooperation

In cases where any interested party refuses access to or does not provide the necessary information within the time limits, or significantly impedes the investigation, provisional or final findings, affirmative or negative, may be made on the basis of facts available, in accordance with Article 28 of the basic Regulation.

Where it is found that any interested party has supplied false or misleading information, the information may be disregarded and use may be made of facts available.

If an interested party does not cooperate or cooperates only partially and findings are therefore based on facts available in accordance with Article 28 of the basic Regulation, the result may be less favourable to that party than if it had cooperated.

Failure to give a computerised response shall not be deemed to constitute non-cooperation, provided that the interested party shows that presenting the response as requested would result in an unreasonable extra burden or unreasonable additional cost. The interested party should immediately contact the Commission.

11. Hearing Officer

Interested parties may request the intervention of the Hearing Officer for trade proceedings. The Hearing Officer reviews requests for access to the file, disputes regarding the confidentiality of documents, requests for extension of time limits and any other request concerning the rights of defence of interested parties and third parties as may arise during the proceeding.

The Hearing Officer may organise hearings and mediate between the interested party/-ies and Commissions services to ensure that the interested parties' rights of defence are being fully exercised. A request for a hearing with the Hearing Officer should be made in writing and should specify the reasons for the request. The Hearing Officer will examine the reasons for the requests. These hearings should only take place if the issues have not been settled with the Commission services in the due course.

Any request must be submitted in good time and expeditiously so as not to jeopardise the orderly conduct of proceedings. To that effect, interested parties should request the intervention of the Hearing Officer at the earliest possible time following the occurrence of the event justifying such intervention. Where hearing requests are submitted outside the relevant timeframes, the Hearing Officer will also examine the reasons for such late requests, the nature of the issues raised and the impact of those issues on the rights of defence, having due regard to the interests of good administration and the timely completion of the investigation.

For further information and contact details interested parties may consult the Hearing Officer's web pages on DG Trade's website: <http://ec.europa.eu/trade/trade-policy-and-you/contacts/hearing-officer/>

12. Processing of personal data

Any personal data collected in this investigation will be treated in accordance with Regulation (EU) 2018/1725 of the European Parliament and of the Council ⁽¹⁰⁾.

A data protection notice that informs all individuals of the processing of personal data in the framework of Commission's trade defence activities is available on DG TRADE's website: <http://ec.europa.eu/trade/policy/accessing-markets/trade-defence/>

4. OTHER INFORMATION

Please provide any other relevant information that you consider useful to assist the Commission in the selection of the sample.

5. CERTIFICATION

By providing the above information, your company agrees to its possible inclusion in the sample. If your company is selected to be part of the sample, this will involve completing a questionnaire and accepting a visit at its premises in order to verify its response. If your company indicates that it does not agree to its possible inclusion in the sample, it will be deemed not to have cooperated in the investigation. The Commission's findings for non-cooperating importers are based on the facts available and the result may be less favourable to that company than if it had cooperated.
