WRITTEN QUESTION E-0673/99**by José García-Margallo y Marfil (PPE) to the Commission**

(26 March 1999)

Subject: Structural Funds

Regions whose per capita income is less than 75 % of the average Community per capita income are described as 'Objective 1 regions' and they receive significant amounts of Community aid.

To determine whether or not this threshold has been exceeded, the draft Council Regulation COM(98) 131 final ⁽¹⁾ laying down general provisions on the Structural Funds states that the figures corresponding to the last three years for which Eurostat has data available will be used.

At the moment the only figures available are those for the 1994, 1995 and 1996 financial years.

What are the figures for those years for the Basque Country?
