COMMISSION

Projects that may benefit from a Eurostat grant during the years 2002 and 2003

(2002/C 43/16)

The public is hereby informed of projects that may benefit from a Eurostat grant during the years 2002 and 2003.

The electronic file, which compiles the actions concerned (classified by statistical theme, unit and accompanied by a description, more detailed information as well as the name and details of the project officer) is to be found on the **EUROPA server** (<http://europa.eu.int>).

In concrete terms, you can reach the page concerned via 'Institutions', 'Commission', 'Directorates-General and services', 'Eurostat', 'Eurostat, "Other information"', 'Calls for tenders and grants' and then enter the file '**Eurostat Grants 2002-2003**'.

Please read the information accompanying this file carefully, as the difference between the category of actions reserved for the 'European Statistical System (ESS)' (*for information*) and the category of actions open for competition (*for action*) is explained.

For the latter category only, you are kindly requested to inform us of your interest in carrying out these (or some of these) actions by contacting the address below, referring to the relevant topic (s) and giving a description of your experience:

European Commission
Eurostat
Unit R-3
BECH B4/405
5, rue Alphonse Weicker
L-2920 Luxembourg (Kirchberg).

Your letter of interest will automatically be taken into account and additional and more detailed information will be sent to you on preparation of the file, allowing you, if desired, to introduce a more detailed proposal to carry out the project.

At that moment, the standard grant application form should be completed so that the usual checks can be made of the selection and award criteria defined by the Commission.

It should be noted that co-financing of the project is always required. The rate for such co-financing will be determined per project and in relation to the credits available in the units but with a minimum of 10 % of the eligible costs. This rate will be announced beforehand when sending out the application forms.

Deadline for sending in proposals of interest to participate: up until 15 march 2002 inclusive.
Non-respect of this delay will automatically result in refusal of your application.
