PPE:
amendment 24

First part: 'The increased sustainable use of harvested wood products can substantially limit emissions by the substitution effect (considering the energy and CO₂ intensity of other sectors, e.g. cement production accounts for roughly 8% of global CO₂ emissions),'

Second part: 'and enhance removals of greenhouse gases from the atmosphere. The accounting rules should ensure that Member States accurately reflect in accounts the changes in the harvested wood products pool when they take place, in order to recognise and incentivise the enhanced use of harvested wood products with long life cycles'

Third part: 'rather than the use of harvested wood products for energy purposes.'

Fourth part: 'In order to further promote and include the positive substitution effect the Commission should, by means of a delegated act, include more products under the harvested wood product calculations. First part: 'The national forestry accounting plan shall contain all the elements listed in Annex IV, section B and include a new forest reference level based on the continuation of current forest management practice in accordance with the best available data, as documented between 2000-2012 per forest type and per age class in national forests, expressed in tonnes of CO₂ equivalent per year.'

Wednesday 13 September 2017

Second part: 'An increase in harvest by a Member State, based on sustainable forest management practices and on national policies adopted up to the date of submission of the forest reference level, shall respect the following conditions: (a) that managed forest land remains a sink of GHGs; and (b) that ways of maintaining or enhancing the sink and reservoirs of GHGs by 2050, with a view to fulfilling the objective set out in Article 4.1 of the Paris Agreement, namely that of achieving a balance between anthropogenic emissions by sources and removals by sinks of greenhouse gases in the second half of this century, are outlined in a long-term low-emission strategy.'

Third part: 'The Commission may grant a derogation from the base period 2000-2012 upon submission of a reasoned request by a Member State, justifying that such a derogation is absolutely necessary for reasons of data availability, such as the timing of forest inventories.'
