3. For the purposes of determining personnel costs linked to the implementation of an operation by the permanent personnel of the beneficiary, the hourly rate applicable may be calculated by dividing the last documented annual gross employment costs of the specific employees that have worked in the implementation of the operation by 1 720 hours.

*Article 47***Eligibility of administrative costs**

1. Administrative costs incurred by the beneficiary of the support referred to in Article 45 of Regulation (EU) No 1308/2013 or by the beneficiary of the support referred to in Article 51 of that Regulation shall be considered eligible for support if they are incurred in relation to the preparation, implementation or follow-up of the particular supported operation or underlying action.

**▼B**

For the purposes of Article 45 of Regulation (EU) No 1308/2013, the costs of external audits shall be considered eligible for support where such audits are performed by an independent and qualified external body.

2. The administrative costs referred to in paragraph 1 shall be considered eligible if they do not exceed 4 % of the total eligible costs of implementing the operation.

3. Member States may decide whether the administrative costs referred to in paragraph 1 are eligible on the basis of a flat-rate amount or of actual costs established on the basis of supporting documents to be submitted by the beneficiaries. In the latter case, the calculation of those costs shall be based on accounting principles, rules and methods used in the Member State where the beneficiary is established.

*Article 48***Eligibility of value added tax**

1. Value added tax shall not be eligible for support, except where it is not recoverable under the applicable national VAT legislation when it is genuinely and definitively borne by beneficiaries other than the non-taxable persons referred to in the first subparagraph of Article 13(1) of Council Directive 2006/112/EC <sup>(1)</sup>.

2. In order for non-recoverable VAT to be eligible, a certified accountant or statutory auditor of the beneficiary shall show that the amount paid has not been recovered and is entered as a charge in the beneficiary's accounts.

*Article 49***Advance payments**

Member States may provide for support for a given operation or for any single action covered by the support application under Articles 45, 46, 50, 51 and 52 of Regulation (EU) No 1308/2013 to be advanced to beneficiaries, provided that the beneficiary has lodged an appropriate security.

*Article 50***Exclusion**

No support shall be granted to producers farming unlawful plantings and areas planted with vines without authorisation referred to in Articles 85a and 85b of Regulation (EC) No 1234/2007 and Article 71 of Regulation (EU) No 1308/2013 respectively.

*Article 51***Notifications**

Member States shall notify the Commission of the implementation of their support programmes, the State aid granted and the support advanced to beneficiaries under the detailed conditions laid down in Chapter III of Implementing Regulation (EU) 2016/1150.

<sup>(1)</sup> Council Directive 2006/112/EC of 28 November 2006 on the common system of value added tax (OJ L 347, 11.12.2006, p. 1).

**▼B**

If a Member State fails to make a notification as required under this Regulation or if the notification appears to be incorrect in the light of objective facts in the Commission's possession, the Commission may suspend part or all of the monthly payments referred to in Article 17 of Regulation (EU) No 1306/2013 as regards the wine sector until the notification is correctly made.

#### CHAPTER IV FINANCIAL MANAGEMENT

##### *Article 52*

##### **Payment to beneficiaries**

1. Payments under Section 4 of Chapter II of Title I of Part II of Regulation (EU) No 1308/2013 shall be made in full to beneficiaries, without prejudice to Article 28 of this Regulation.
2. Notwithstanding Article 49, the payments referred to in paragraph 1 shall be subject to prior checks as provided by Article 54(1).

##### *Article 53*

##### **Changes to beneficiaries' operations**

1. Member States may lay down rules regarding changes to the operations submitted by beneficiaries and approved by the competent authorities.

Before the submission of the final payment claim, and in any case before the on-the-spot check prior to the final payment, a beneficiary should be allowed to submit changes to the initially approved operation provided that they do not undermine the objectives of the overall operation, are duly justified, communicated within the time limits set by the national authorities and approved by them.

2. Member States may allow that minor changes within the initially approved amount of eligible support can be implemented without prior approval, provided that they do not affect the eligibility of any part of the operation and its overall objectives.

In particular, Member States may allow financial transfers between the actions covered by an operation already approved up to a maximum of 20 % of the amounts initially approved for each action, provided that the total amount of approved support for the operation is not exceeded.

In their support programmes Member States may provide for other minor changes that can be implemented without prior approval.

**▼B***Article 54***General principles**

1. Notwithstanding Article 49, support shall be paid once it is ascertained that either an overall operation or all the individual actions which are part of the overall operation covered by the support application, according to the choice made by the Member State for the management of the support measure concerned, have been fully implemented and subjected to administrative and, where applicable, on-the-spot checks in accordance with Section 1 of Chapter IV of Implementing Regulation (EU) 2016/1150.

**▼M1**

2. Where support is normally payable after implementation of the overall operation, support shall nevertheless be paid for the individual actions implemented if checks show that the remaining actions could not be carried out due to *force majeure* or exceptional circumstances within the meaning of Article 2(2) of Regulation (EU) No 1306/2013 or if checks show that, even if the remaining actions were not carried out, the overall objective of the operation has nevertheless been achieved.

2a. If checks show that an overall operation covered by the support application has not been fully implemented but the overall objective of the operation has nevertheless been achieved, Member States shall pay support for the individual actions which have been implemented in accordance with paragraph 2 and apply a penalty amounting to 100 % of the amount initially allocated to those actions in the support application which have not been fully implemented.

In cases where the amount of support which has been paid after implementation of individual actions is higher than the amount determined as due after checks have been carried out, Member States shall recover the support paid unduly.

In such cases, if an advance has been paid, Member States may decide to apply a penalty.

3. If checks show that an overall operation covered by the support application has not been fully implemented in cases other than the ones laid down in paragraph 2, and where support has been paid after individual actions which are part of the overall operation covered by the support application, Member States shall recover the support paid.

**▼B**

In such cases, if an advance has been paid, Member States may decide to apply a penalty.

4. Paragraphs 1 and 3 shall not apply where operations supported under Articles 46 and 47 of Regulation (EU) No 1308/2013 respectively are not implemented on the total surface for which support was requested.

In such cases, Member States shall pay the amount corresponding to the part of the operation that has been implemented or, in case of advanced payments, recover the amount paid in relation to the part that has not been implemented.

The amount of support shall be calculated on the basis of the difference between the area approved following administrative checks on the support application or modified in accordance with Article 53 of this Regulation and the area where the operation has been actually implemented, determined by the on-the-spot checks following implementation.

**▼B**

Where the difference does not exceed 20 %, the support shall be calculated on the basis of the area determined by the on-the-spot checks following implementation.

Where the difference is more than 20 % but no more than 50 %, the support shall be calculated on the basis of the area determined by the on-the-spot checks following implementation and reduced by twice the difference found.

Where the difference exceeds 50 %, no support shall be granted for the operation concerned.

*Article 55***Standard scales of unit costs and control methods**

For the purposes of Articles 46 and 47 of Regulation (EU) No 1308/2013, the following rules shall apply:

- (a) if the amount of the support is calculated on the basis of standard scales of unit costs based on a surface measurement unit, the amount shall correspond to the actual surface measured in accordance with Article 44 of Implementing Regulation (EU) 2016/1150;
- (b) if Member States decide to calculate the amount of the support on the basis of standard scales of unit costs based on other measurement units or on the basis of the actual costs resulting from the supporting documents to be submitted by the beneficiaries in accordance with Article 44(1) of this Regulation, they shall lay down rules on appropriate control methods to establish the actual extent of implementation of the operation.

*Article 56***Force majeure and exceptional circumstances**

Where, under Section 4 of Chapter II of Title I of Part II of Regulation (EU) No 1308/2013 or this Regulation, a sanction is to be imposed, it shall not be imposed in cases of *force majeure* or exceptional circumstances and other cases laid down in Article 64(2) of Regulation (EU) No 1306/2013.
