TITLE I

GENERAL PROVISIONS

Article 1

Subject matter

This Regulation establishes the Neighbourhood, Development and International Cooperation Instrument – Global Europe (the ‘Instrument’), including the European Fund for Sustainable Development Plus (the ‘EFSD+’) and the External Action Guarantee, for the period of the 2021-2027 MFF.

It lays down the objectives of the Instrument, the budget for the period from 2021 to 2027, the forms of Union funding and the rules for providing such funding.

Article 2

Definitions

For the purposes of this Regulation, the following definitions apply:

- (1) ‘country indicative programme’ means an indicative programme covering one country;
- (2) ‘multi-country indicative programme’ means an indicative programme covering more than one country;
- (3) ‘regional indicative programme’ means a multi-country indicative programme covering more than one third country within the same geographic area as established in Article 4(2);
- (4) ‘trans-regional indicative programme’ means a multi-country indicative programme covering more than one third country from different geographic areas as established in Article 4(2);
- (5) ‘cross-border cooperation’ means cooperation between one or more Member States, and one or more third countries and territories along the external adjacent land and maritime borders of the Union and shall be understood to cover also transnational cooperation over larger transnational territories or around sea basins and interregional cooperation as laid down in a Regulation of the European Parliament and of the Council on specific provisions for the European territorial cooperation goal (Interreg) supported by the European Regional Development Fund and external financing instruments (the ‘Interreg Regulation’);

▼B

- (6) ‘legal entity’ means a natural person, or a legal person created and recognised as such under Union, national or international law, which has legal personality and the capacity to act in its own name, exercise rights and be subject to obligations, or an entity which does not have legal personality as referred to in point (c) of Article 197(2) of the Financial Regulation;

- (7) ‘civil society organisation’ means a wide range of actors with multiple roles and mandates, which may vary over time and across institutions and countries, and includes all non-State, not-for-profit independent and non-violent structures, through which people organise the pursuit of shared objectives and ideals, including political, cultural, religious, environmental, social or economic, and which operate at local, national, regional or international levels, and which comprise urban and rural, formal and informal organisations;

- (8) ‘local authority’ encompasses public institutions with legal personality, which are components of the State structure, below the level of central government, such as villages, municipalities, districts, counties, provinces or regions, which are accountable to citizens and usually composed of a deliberative or policy-making body, such as a council or assembly, and an executive body, such as a mayor or other executive officer, which are directly or indirectly elected or selected at local level;

- (9) ‘investment window’ means a targeted area for support by the External Action Guarantee under the EFSD+ to portfolios of investments in specific regions, countries or sectors;

- (10) ‘additionality’ means the principle based on Article 209(2) of the Financial Regulation, according to which, in the context of this Regulation and the IPA III Regulation, the External Action Guarantee support under the EFSD+ contributes to sustainable development by operations which could not have been carried out without that Guarantee, or which achieve positive results above and beyond what could have been achieved without it. The principle of additionality also means that the operations supported by the External Action Guarantee crowd in private sector funding and address market failures or sub-optimal investment situations as well as improve the quality, sustainability, impact or scale of an investment. The principle also ensures that External Action Guarantee operations do not replace the support of a Member State, private funding or another Union or international financial intervention, and avoid crowding out other public or private investments unless duly justified in accordance with the objectives and principles of the Instrument. Projects supported by the External Action Guarantee typically have a higher risk profile than the portfolio of investments supported by the eligible counterparts under their normal investment policies without the External Action Guarantee;

- (11) ‘operation with sovereign counterparts and non-commercial sub-sovereign counterparts’ means any operation where the counterpart is either directly a State or a public entity fully backed by an explicit guarantee of the State because it does not have the legal capacity or the financial autonomy or ability to benefit from necessary direct financing;

▼B

- (12) ‘operation with commercial sub-sovereign counterparts’ means any operation where the counterpart is a public entity which is not backed by an explicit guarantee of a State and that is financially able to borrow at its own risk and has the legal capacity to do so;
- (13) ‘contributor’ means an international finance institution, a Member State or a public institution of a Member State, a public agency or other public or private entity contributing to the common provisioning fund;
- (14) ‘partner country’ means a country or territory that may benefit from Union support under the Instrument pursuant to Article 4.

For the purposes of this Regulation, where reference is made to human rights, it shall be understood to include fundamental freedoms.

*Article 3***Objectives of the Instrument**

1. The general objectives of the Instrument are to:
 - (a) uphold and promote the Union’s values, principles and fundamental interests worldwide, in order to pursue the objectives and principles of the Union’s external action, as laid down in Article 3(5) and Articles 8 and 21 TEU, thus contributing to the reduction and, in the long term, the eradication of poverty, to consolidating, supporting and promoting democracy, the rule of law and respect for human rights, sustainable development and the fight against climate change and addressing irregular migration and forced displacement, including their root causes;

Consistency, coherence, synergies and complementarity

1. In implementing the Instrument, consistency, coherence, synergies and complementarity with all areas of Union external action, including other external financing instruments, and with other relevant Union policies and programmes, as well as policy coherence for development shall be ensured.

For that purpose, the Union shall take into account the impact of all internal and external policies on sustainable development and shall seek to promote increased synergies and complementarities in particular with trade policy, economic cooperation and other sectorial cooperation.

2. Actions falling within the scope of Regulation (EC) No 1257/96 shall not be funded under the Instrument.

▼B

3. Where appropriate, an action that has received a contribution under the Instrument may also receive a contribution from another Union programme, provided that the contributions do not cover the same costs. The Instrument may also contribute to measures established under other Union programmes, provided that the contributions do not cover the same costs. The rules of the relevant Union programme shall apply to the corresponding contribution to the action. The cumulative financing shall not exceed the total eligible costs of the action. The support from the different Union programmes may be calculated on a pro-rata basis in accordance with the documents setting out the conditions for support.

*Article 8***General principles**

1. The Union shall seek to promote, develop and consolidate the principles of democracy, good governance, the rule of law, respect for human rights, including their universality and indivisibility, and fundamental freedoms and respect for human dignity, the principles of equality and solidarity on which it is founded, through dialogue and cooperation with partner countries, regions and civil society, including through action in multilateral fora.

2. The Instrument shall apply a rights-based approach encompassing all human rights, whether civil and political or economic, social and cultural in order to integrate human rights principles, to support the right holders in claiming their rights, with a focus on poorer, marginalised and vulnerable people and groups, including persons with disabilities, and to assist partner countries in implementing their international human rights obligations. That approach shall be guided by the principles of ‘leaving no one behind’, equality and non-discrimination on any grounds.

3. The Instrument shall promote gender equality, women’s and girls’ rights and empowerment and non-discrimination on any grounds, through targeted and mainstreamed actions. It shall also give particular attention to the rights of the child and empowerment of youth.

4. The Instrument shall be implemented in full accordance with the Union commitment to the promotion, protection and fulfilment of all human rights and to the full and effective implementation of the Beijing Platform for Action and the Programme of Action of the ICPD and the outcomes of their review conferences and remains committed to sexual and reproductive health and rights, in this context. Having that in mind, the Instrument shall support the Union commitment to the promotion, protection and fulfilment of the right of every individual to have full control over, and decide freely and responsibly on matters related to their sexuality and sexual and reproductive health, free from discrimination, coercion and violence. It shall also support the need for universal access to quality and affordable comprehensive sexual and reproductive health information, education, including comprehensive sexuality education, and health-care services.

▼B

5. The Union shall support, as appropriate, the implementation of bilateral, regional and multilateral cooperation and dialogue, association and trade agreements, partnership agreements and triangular cooperation.

The Union shall promote a multilateral and rules-based and values-based approach to global goods and challenges and shall cooperate with Member States, partner countries, international organisations and other donors in that respect.

The Union shall promote effective multilateralism in fostering cooperation with international organisations and other donors.

The Union shall take into account and take up in the regular political dialogue with partner countries their track record in implementing obligations and commitments, including the 2030 Agenda, international human rights conventions, and other conventions, including those on nuclear safety standards, international agreements, in particular the Paris Agreement, and contractual relations with the Union, in particular association agreements, partnership and cooperation agreements and trade agreements.

6. Cooperation between the Union and the Member States, on the one hand, and partner countries, on the other, shall be based on and shall promote the development effectiveness principles, where applicable, across all modalities, namely: ownership of development priorities by partner countries, a focus on results, inclusive development partnerships, transparency and mutual accountability. The Union shall promote effective and efficient resource mobilisation and use.

In line with the principle of inclusive partnership and transparency, where appropriate, the Commission shall ensure that relevant stakeholders of partner countries, including civil society organisations and local authorities, are duly consulted and have timely access to relevant information allowing them to be adequately involved and play a meaningful role in the design, implementation and associated monitoring processes of programmes. Where appropriate, the Commission shall also ensure that an enhanced dialogue is pursued with the private sector.

In line with the principle of ownership, the Commission, where appropriate, shall favour the use of partner countries' institutions and systems for the implementation of programmes.

7. In order to promote the complementarity and efficiency of their action and initiatives, the Union and the Member States shall ensure the coordination of their policies and shall regularly consult each other on their assistance programmes, including in international organisations and during international conferences.

The Union and the Member States shall coordinate their respective support programmes with the aim of increasing effectiveness and efficiency.

8. Programmes and actions under the Instrument shall mainstream the fight against climate change, environmental protection, human rights, democracy, gender equality and, where relevant, disaster risk reduction, and shall address interlinkages between the SDGs, to promote integrated actions that can create co-benefits and meet multiple objectives in a coherent way. Those programmes and actions shall be based on a comprehensive multi-disciplinary analysis of context, capacities, risks and vulnerabilities, integrate a resilience approach and be conflict sensitive, taking into account conflict prevention and peacebuilding. They shall be guided by the principles of ‘do no harm’ and of ‘leaving no one behind’.

9. The Instrument shall promote the use of digitalisation as a powerful enabler for sustainable development and inclusive growth.

10. A more coordinated, holistic and structured approach to migration shall be pursued with partners, taking into account the importance of addressing the root causes of irregular migration and forced displacement. It shall maximise synergies and build comprehensive partnerships, while paying specific attention to countries of origin and transit. That approach shall combine all appropriate tools and the necessary leverage through a flexible incitative approach with, as appropriate within this context, possible changes in allocation of funding related to migration in accordance with the programming principles of the Instrument. It shall take into account effective cooperation and implementation of Union agreements and dialogues on migration. Those actions shall be implemented in full respect of international law, including international human rights and refugee law, Union and national competences. The effectiveness of that approach shall be assessed annually or as necessary. Migration-related actions pursuant to the Instrument shall be implemented in support of Union migration policy objectives through a flexible funding mechanism.

11. The Commission shall ensure that actions adopted under the Instrument in relation to the fight against terrorism and organised crime, cyber security and the fight against cybercrime, and capacity building of military actors in support of development and security for development are implemented in accordance with international law, including international human rights and humanitarian law. To that end, the Commission shall establish an appropriate risk assessment and monitoring framework. In that framework, the Commission shall develop operational guidance to ensure that human rights are taken into consideration in the design and implementation of those actions.

Such actions shall be based on regular and robust conflict analysis to ensure conflict sensitivity and to implement a security sector reform approach that contributes to democratic governance, accountability and human security, including benefits for the local population. Those measures shall be embedded, where relevant, in the context of longer term assistance aimed at reforming the security sector.

▼B

12. The Commission shall regularly inform the European Parliament and the Council and, at the initiative of any of those three institutions, have exchanges of views with them, including on the incentive-based approach responding to performance in key areas, referred to in Article 20. The European Parliament may hold regular exchanges of views with the Commission regarding its own assistance programmes, on matters such as capacity building, including related mediation and dialogue, and election observation.

13. The Commission shall exchange information on a regular basis with civil society.

14. Where appropriate, the Commission shall develop and follow risk management frameworks, including assessment and mitigation measures.

15. Union funding under the Instrument shall not be used to finance the procurement of arms or ammunition, or operations having military or defence implications.

Article 9

Capacity building of military actors in support of development and security for development

1. In order to contribute to sustainable development, which requires the achievement of stable, peaceful and inclusive societies, Union assistance under the Instrument may be used in the context of a wider security sector reform or to build the capacity of military actors in partner countries, under the exceptional circumstances set out in paragraph 3, to deliver development activities and security for development activities.

2. Assistance pursuant to this Article may cover in particular the provision of capacity building programmes in support of development and security for development, including training, mentoring and advice, as well as the provision of equipment, infrastructure improvements and services directly related to that assistance.

3. Assistance pursuant to this Article shall be provided only:

- (a) where requirements cannot be met by recourse to non-military actors to adequately reach Union objectives under the Instrument and there is a threat to the existence of functioning State institutions or to the protection of human rights and fundamental freedoms and State institutions cannot cope with that threat; and
- (b) where a consensus exists between the partner country concerned and the Union that military actors are key for preserving, establishing or re-establishing the conditions essential for sustainable development, including in crises and fragile or destabilised contexts and situations.

4. Union assistance pursuant to this Article shall not be used to finance capacity building of military actors for purposes other than the delivery of development activities and security for development activities. In particular, it shall not be used to finance any of the following:

▼B

- (a) recurrent military expenditure;
- (b) the procurement of arms and ammunition, or any other equipment designed to deliver lethal force;
- (c) training which is designed to contribute specifically to the fighting capacity of the armed forces.

5. When designing and implementing measures pursuant to this Article, the Commission shall promote ownership by the partner country. 6. In the case of joint co-financing, the total cost of an action shall be shared between the partners providing the co-financing and the resources are pooled in such a way that it is no longer possible to identify the source of financing for any given activity undertaken as part of the action.

7. Cooperation between the Union and its partners may take the form of, for example:

- (a) triangular arrangements whereby the Union coordinates with third countries its assistance funding to a partner country or region;
- (b) administrative and technical cooperation measures, as well as building capacity, including to share transitional or reform implementation experiences of Member States, such as decentralised cooperation through partnerships or twinning, between public institutions, including local authorities, public law bodies or private law entities entrusted with public service tasks of a Member State and those of a partner country or region, as well as cooperation measures involving public sector experts dispatched from the Member States and their regional and local authorities;

11. In order to promote local capacities, markets and purchases, where the Financial Regulation provides for an award on the basis of a single tender, priority shall be given to local and regional contractors. In all other cases, participation of local and regional contractors shall be promoted in accordance with the relevant provisions of that Regulation.
