REGULATIONS

REGULATION (EC) No 713/2009 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL

of 13 July 2009

establishing an Agency for the Cooperation of Energy Regulators

(Text with EEA relevance)

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 95 thereof,

Having regard to the proposal from the Commission,

Having regard to the Opinion of the European Economic and Social Committee ⁽¹⁾,

Having regard to the Opinion of the Committee of the Regions ⁽²⁾,

Acting in accordance with the procedure laid down in Article 251 of the Treaty ⁽³⁾,

Whereas:

- (1) The Communication of the Commission of 10 January 2007 entitled 'An Energy Policy for Europe' highlighted the importance of completing the internal markets in electricity and natural gas. Improving the regulatory framework at Community level was identified as a key measure to achieve that objective.
- (2) An independent advisory group on electricity and gas, called the European Regulators Group for Electricity and Gas (EREGG) was established by Commission Decision 2003/796/EC ⁽⁴⁾ to facilitate consultation, coordination

and cooperation between the regulatory bodies in Member States, and between those bodies and the Commission, with a view to consolidating the internal markets in electricity and natural gas. That group is composed of representatives of the national regulatory authorities established pursuant to Directive 2003/54/EC of the European Parliament and of the Council of 26 June 2003 concerning common rules for the internal market in electricity ⁽⁵⁾ and Directive 2003/55/EC of the European Parliament and of the Council of 26 June 2003 concerning common rules for the internal market in natural gas ⁽⁶⁾.

- (3) The work undertaken by the ERGEG since its establishment has made a positive contribution to the internal markets in electricity and natural gas. However, it is widely recognised by the sector, and has been proposed by the ERGEG itself, that voluntary cooperation between national regulatory authorities should now take place within a Community structure with clear competences and with the power to adopt individual regulatory decisions in a number of specific cases.
- (4) The European Council of 8 and 9 March 2007 invited the Commission to propose measures to set up an independent mechanism for national regulators to cooperate.
- (5) The Member States should cooperate closely, eliminating obstacles to cross-border exchanges of electricity and natural gas with a view to achieving the objectives of Community energy policy. On the basis of the impact assessment of the resource requirements for a central entity, it was concluded that an independent central entity offered a number of long-term advantages over other options. An Agency for the Cooperation of Energy Regulators (the

- Agency) should be established in order to fill the regulatory gap at Community level and to contribute towards the effective functioning of the internal markets in electricity and natural gas. The Agency should also enable national regulatory authorities to enhance their cooperation at Community level and participate, on a mutual basis, in the exercise of Community-related functions.
- (6) The Agency should ensure that regulatory functions performed by the national regulatory authorities in accordance with Directive 2009/72/EC of the European Parliament and of the Council of 13 July 2009 concerning common rules for the internal market in electricity ⁽¹⁾ and Directive 2009/73/EC of the European Parliament and of the Council of 13 July 2009 concerning common rules for the internal market in natural gas ⁽²⁾ are properly coordinated and, where necessary, completed at the Community level. To that end, it is necessary to guarantee the independence of the Agency from electricity and gas producers, transmission and distribution system operators, whether public or private, and consumers and to ensure the conformity of its actions with Community law, its technical and regulatory capacities and its transparency, amenability to democratic control and efficiency.
- (7) The Agency should monitor regional cooperation between transmission system operators in the electricity and gas sectors as well as the execution of the tasks of the European Network of Transmission System Operators for Electricity (ENTSO for Electricity), and the European Network of Transmission System Operators for Gas (ENTSO for Gas). The involvement of the Agency is essential in order to ensure that the cooperation between transmission system operators proceeds in an efficient and transparent way for the benefit of the internal markets in electricity and natural gas.
- (8) The Agency should monitor, in cooperation with the Commission, the Member States and relevant national authorities, the internal markets in electricity and natural gas and inform the European Parliament, the Commission and national authorities of its findings where appropriate. Those monitoring tasks of the Agency should not duplicate or hamper monitoring by the Commission or national authorities, in particular national competition authorities.
- (9) The Agency has an important role in developing framework guidelines which are non-binding by nature (framework guidelines) with which network codes must be in line. It is also considered appropriate for the Agency, and consistent with its purpose, to have a role in reviewing network codes (both when created and upon modification) to ensure that they are in line with the framework guidelines, before it may recommend them to the Commission for adoption.
- (10) It is appropriate to provide an integrated framework within which national regulatory authorities are able to participate and cooperate. That framework should facilitate the uniform application of the legislation on the internal markets in electricity and natural gas throughout the Community. As regards situations concerning more than one Member State, the Agency should be granted the power to adopt individual decisions. That power should under certain conditions cover technical issues, the regulatory regime for electricity and natural gas infrastructure that connects or that might connect at least two Member States and, as a last resort, exemptions from the internal market rules for new electricity interconnectors and new gas infrastructure located in more than one Member State.
- (11) Since the Agency has an overview of the national regulatory authorities, it should have an advisory role towards the Commission, other Community institutions and national regulatory authorities as regards the issues relating to the purpose for which it was established. It should also be required to inform the Commission where it finds that the cooperation between transmission system operators does not produce the results which are needed or that a national regulatory authority whose decision is not in compliance with the Guidelines does not implement the opinion, recommendation or decision of the Agency appropriately.
- (12) The Agency should also be able to make recommendations to assist regulatory authorities and market players in sharing good practices.
- (13) The Agency should consult interested parties, where appropriate, and provide them with a reasonable opportunity to comment on proposed measures, such as network codes and rules.
- (14) The Agency should contribute to the implementation of the guidelines on trans-European energy networks as laid down in Decision No 1364/2006/EC of the European Parliament and of the Council of 6 September 2006 laying down guidelines for trans-European energy networks ⁽³⁾, in particular when providing its opinion on the non-binding Community-wide ten-year network development plans (Community-wide network development plans) in accordance with Article 6(3) of this Regulation.
- (15) The Agency should contribute to the efforts of enhancing energy security.
- (16) The structure of the Agency should be adapted to meet the specific needs of energy regulation. In particular, the specific role of the national regulatory authorities needs to be taken fully into account and their independence guaranteed.

⁽¹⁾ See page 55 of this Official Journal.

⁽²⁾ See page 94 of this Official Journal.

⁽³⁾ OJ L 262, 22.9.2006, p. 1.

- (17) The Administrative Board should have the necessary powers to establish the budget, check its implementation, draw up internal rules, adopt financial regulations and appoint a Director. A rotation system should be used for the renewal of the members of the Administrative Board who are appointed by the Council so as to ensure a balanced participation of Member States over time. The Administrative Board should act independently and objectively in the public interest and should not seek or follow political instructions.
- (18) The Agency should have the necessary powers to perform its regulatory functions in an efficient, transparent, reasoned and, above all, independent manner. The independence of the Agency from electricity and gas producers and transmission and distribution system operators is not only a key principle of good governance but also a fundamental condition to ensure market confidence. Without prejudice to its members' acting on behalf of their respective national authorities, the Board of Regulators should therefore act independently from any market interest, should avoid conflicts of interests and should not seek or follow instructions or accept recommendations from a government of a Member State, from the Commission or another public or private entity. The decisions of the Board of Regulators should, at the same time, comply with Community law concerning energy, such as the internal energy market, the environment and competition. The Board of Regulators should report its opinions, recommendations and decisions to the Community institutions.
- (19) Where the Agency has decision-making powers, interested parties should, for reasons of procedural economy, be granted a right of appeal to a Board of Appeal, which should be part of the Agency, but independent from its administrative and regulatory structure. In the interest of continuity, the appointment or renewal of the members of the Board of Appeal should allow for partial replacement of the members of the Board of Appeal. The decisions of the Board of Appeal may be subject to appeal before the Court of Justice of the European Communities.
- (20) The Agency should be mainly financed from the general budget of the European Union, by fees and by voluntary contributions. In particular, the resources currently pooled by regulatory authorities for their cooperation at Community level should continue to be available to the Agency. The Community budgetary procedure should remain applicable as far as any subsidies chargeable to the general budget of the European Union are concerned. Moreover, the auditing of accounts should be undertaken by the Court of Auditors in accordance with Article 91 of Commission Regulation (EC, Euratom) No 2343/2002 of 19 November 2002 on the framework Financial Regulation for the bodies referred to in Article 185 of Council Regulation (EC, Euratom) No 1605/2002 on the Financial Regulation applicable to the general budget of the European Communities ⁽¹⁾.
- (21) After the establishment of the Agency, its budget should be assessed by the budgetary authority on an ongoing basis, with reference to the Agency's workload and performance. The budgetary authority should ensure that the best standards of efficiency are met.
- (22) The Agency should have highly professional staff. In particular, it should benefit from the competence and experience of staff seconded by the national regulatory authorities, the Commission and the Member States. The Staff Regulations of Officials of the European Communities (the Staff Regulations) and the Conditions of employment of other servants of the European Communities (the Conditions of Employment), laid down in Regulation (EEC, Euratom, ECSC) No 259/68 ⁽²⁾ and the rules adopted jointly by the European Community institutions for the purpose of applying those regulations should apply to the staff of the Agency. The Administrative Board, in agreement with the Commission, should adopt appropriate implementing rules.
- (23) The Agency should apply the general rules regarding public access to documents held by Community bodies. The Administrative Board should establish the practical measures to protect commercially sensitive data and personal data.
- (24) The Agency should be accountable to the European Parliament, the Council and the Commission, where appropriate.
- (25) Countries which are not members of the Community should be able to participate in the work of the Agency in accordance with appropriate agreements to be concluded by the Community.
- (26) The measures necessary for the implementation of this Regulation should be adopted in accordance with Council Decision 1999/468/EC of 28 June 1999 laying down the procedures for the exercise of implementing powers conferred on the Commission ⁽³⁾.
- (27) In particular, the Commission should be empowered to adopt the Guidelines necessary in situations in which the Agency becomes competent to decide upon the terms and conditions for access to and operational security of cross-border infrastructure. Since those measures are of general scope and are designed to amend non-essential elements of this Regulation, by supplementing it with new non-essential elements, they must be adopted in accordance with the regulatory procedure with scrutiny provided for in Article 5a of Decision 1999/468/EC.

⁽²⁾ OJ L 56, 4.3.1968, p. 1.

⁽³⁾ OJ L 184, 17.7.1999, p. 23.

- (28) The Commission should submit to the European Parliament and to the Council by three years after the first director has taken up his duties, and every four years thereafter, a report on the Agency's specific tasks and the results achieved, accompanied by any appropriate proposals. In that report, the Commission should make suggestions on additional tasks for the Agency.
- (29) Since the objectives of this Regulation, namely the participation and cooperation of national regulatory authorities at Community level, cannot be sufficiently achieved by the Member States and can therefore be better achieved at Community level, the Community may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 of the Treaty. In accordance with the principle of proportionality, as set out in that Article, this Regulation does not go beyond what is necessary in order to achieve those objectives,

2. The Agency may, in accordance with its work programme or at the request of the Commission, make recommendations to assist regulatory authorities and market players in sharing good practices.

3. The Agency shall provide a framework within which national regulatory authorities can cooperate. It shall promote cooperation between the national regulatory authorities and between regulatory authorities at regional and Community level, and shall take due account of the outcome of such cooperation when formulating its opinions, recommendations and decisions. Where the Agency considers that binding rules on such cooperation are required, it shall make the appropriate recommendations to the Commission.

4. The Agency shall provide an opinion, based on matters of fact, at the request of a regulatory authority or of the Commission, on whether a decision taken by a regulatory authority complies with the Guidelines referred to in Directive 2009/72/EC, Directive 2009/73/EC, Regulation (EC) No 714/2009 or Regulation (EC) No 715/2009 or with other relevant provisions of those Directives or Regulations.

5. Where a national regulatory authority does not comply with the opinion of the Agency as referred to in paragraph 4 within four months from the day of receipt, the Agency shall inform the Commission and the Member State concerned accordingly.

6. When a national regulatory authority encounters, in a specific case, difficulties with the application of Guidelines referred to in Directive 2009/72/EC, Directive 2009/73/EC Regulation (EC) No 714/2009 or Regulation (EC) No 715/2009, it may request the Agency for an opinion. The Agency shall deliver its opinion, after consulting the Commission, within three months of receiving such request.

7. The Agency shall decide on the terms and conditions for access to and operational security of electricity and gas infrastructure connecting or that might connect at least two Member States (cross-border infrastructure), in accordance with Article 8.

Article 8

Tasks as regards terms and conditions for access to and operational security of cross-border infrastructure

1. For cross-border infrastructure, the Agency shall decide upon those regulatory issues that fall within the competence of national regulatory authorities, which may include the terms and conditions for access and operational security, only:

- (a) where the competent national regulatory authorities have not been able to reach an agreement within a period of six months from when the case was referred to the last of those regulatory authorities; or
- (b) upon a joint request from the competent national regulatory authorities.

The competent national regulatory authorities may jointly request that the period referred to in point (a) is extended by a period of up to six months.

When preparing its decision, the Agency shall consult the national regulatory authorities and the transmission system operators concerned and shall be informed of the proposals and observations of all the transmission system operators concerned.

2. The terms and conditions for access to cross-border infrastructure shall include:

- (a) a procedure for capacity allocation;
- (b) a time frame for allocation;

3. Where a case has been referred to the Agency under paragraph 1, the Agency:

- (a) shall provide its decision within a period of 6 months from the day of referral; and
- (b) may, if necessary, provide an interim decision to ensure that security of supply or operational security of the infrastructure in question is protected.

4. The Commission may adopt Guidelines on the situations in which the Agency becomes competent to decide upon the terms and conditions for access to and operational security of cross-border infrastructure. Those measures, designed to amend non-essential elements of this Regulation by supplementing it, shall be adopted in accordance with the regulatory procedure with scrutiny referred to in Article 32(2) of this Regulation.

5. Where the regulatory issues referred to in paragraph 1 include exemptions within the meaning of Article 17 of Regulation (EC) No 714/2009 or Article 36 of Directive 2009/73/EC, the deadlines provided for in this Regulation shall not be cumulated with the deadlines provided for in those provisions.

Article 9

2. The Agency shall provide an opinion, upon request by the Commission in accordance with the second subparagraph of Article 3(1) of Regulation (EC) No 714/2009 or the second subparagraph of Article 3(1) of Regulation (EC) No 715/2009, on decisions of national regulatory authorities on certification.

The Agency may, in circumstances clearly defined by the Commission in Guidelines adopted pursuant to Article 18 of Regulation (EC) No 714/2009 or Article 23 of Regulation (EC) No 715/2009 and on issues related to the purpose for which it has been established, be commissioned with additional tasks which do not involve decision-making powers.

Article 10

Consultations and transparency

1. In carrying out its tasks, in particular in the process of developing framework guidelines in accordance with Article 6 of Regulation (EC) No 714/2009 or Article 6 of Regulation (EC) No 715/2009 and in the process of proposing amendments of network codes under Article 7 of either of those Regulations, the Agency shall consult extensively and at an early stage with market participants, transmission system operators, consumers, end-users and, where relevant, competition authorities, without prejudice to their respective competence, in an open and transparent manner, in particular when its tasks concern transmission system operators.

2. The Agency shall ensure that the public and any interested parties are, where appropriate, given objective, reliable and easily accessible information, in particular with regard to the results of its work.

All documents and minutes of consultation meetings conducted during the development of framework guidelines in accordance with Article 6 of Regulation (EC) No 714/2009 or Article 6 of Regulation (EC) No 715/2009, or during the amendment of network codes under Article 7 of either of those Regulations shall be made public.

3. Before adopting framework guidelines in accordance with Article 6 of Regulation (EC) No 714/2009 or Article 6 of Regulation (EC) No 715/2009, or proposing amendments to network codes under Article 7 of either of those Regulations, the Agency shall indicate how the observations received during the consultation have been taken into account and shall provide reasons where those observations have not been followed.

4. The Agency shall make public, on its own website, at least the agenda, the background documents and, where appropriate, the minutes of the meetings of the Administrative Board, of the Board of Regulators and of the Board of Appeal.

Article 11

Monitoring and reporting on the electricity and natural gas sectors

1. The Agency, in close cooperation with the Commission, the Member States and the relevant national authorities including the national regulatory authorities and without prejudice to the competences of competition authorities, shall monitor the internal markets in electricity and natural gas, in particular the retail prices of electricity and natural gas, access to the network including access of electricity produced from renewable energy sources, and compliance with the consumer rights laid down in Directive 2009/72/EC and Directive 2009/73/EC.

2. The Agency shall make public an annual report on the results of the monitoring provided for in paragraph 1. In that report, it shall identify any barriers to the completion of the internal markets in electricity and natural gas.

3. When making public its annual report, the Agency may submit to the European Parliament and to the Commission an opinion on the measures that could be taken to remove the barriers referred to in paragraph 2.

CHAPTER III

ORGANISATION

Article 12

Administrative Board

1. The Administrative Board shall comprise nine members. Each member shall have an alternate. Two members and their alternates shall be appointed by the Commission, two members and their alternates shall be appointed by the European Parliament and five members and their alternates shall be appointed by the Council. No Member of the European Parliament shall be a member of the Administrative Board. The term of office of the members of the Administrative Board and their alternates shall be four years, renewable once. For the first mandate, the term of office of half of the members of the Administrative Board and their alternates shall be six years.

2. The Administrative Board shall appoint its Chairman and its Vice-Chairman from among its members. The Vice-Chairman shall automatically replace the Chairman if the latter is not in a position to perform his duties. The term of office of the Chairman and of the Vice-Chairman shall be two years, renewable once. The term of office of the Chairman and that of the Vice-Chairman shall expire when they cease to be members of the Administrative Board.

3. The meetings of the Administrative Board shall be convened by its Chairman. The Chairman of the Board of Regulators, or the nominee of the Board of Regulators, and the Director shall participate, without the right to vote, in the deliberations unless the Administrative Board decides otherwise as regards the Director. The Administrative Board shall meet at least twice a year in ordinary session. It shall also meet at the initiative of its Chairman, at the request of the Commission or at the request of at least a third of its members. The Administrative Board may invite any person who may have a relevant opinion to attend its meetings in the capacity of an observer. The members of the Administrative Board may, subject to its rules of procedure, be assisted by advisers or experts. The Administrative Board's secretarial services shall be provided by the Agency.

4. Decisions of the Administrative Board shall be adopted on the basis of a two-thirds majority of the members present, unless provided otherwise in this Regulation. Each member of the Administrative Board or alternate shall have one vote.
