## ANNEX

Description of the goods	Classification (CN code)	Reasons
(1)	(2)	(3)
<p>An article in the form of an empty cylindrical cartridge made of clear plastic approximately 44 mm long and sealed with a removable plastic stopper at the lower end as a protective cap. The upper part of the cartridge is shaped like a mouthpiece and has a small hole through which vapour can be inhaled.</p> <p>The user fills the empty cartridge with a special liquid called 'e-liquid' and the cartridge is then inserted into the e-cigarette. The same cartridge can be refilled and reused for smoking between 10 and 20 times before being disposed of as waste.</p> <p>The mouthpiece plays the role of the filter on conventional tobacco cigarettes. When the cartridge is inserted in the e-cigarette, the user places the mouthpiece end in the mouth and inhales. This causes the atomiser in the e-cigarette to convert the liquid into a gentle stream of mist which is then released through the mouthpiece into the user's mouth.</p> <p>See images (*)</p>	8543 90 00	<p>Classification is determined by general rules 1 and 6 for the interpretation of the Combined Nomenclature, note 2(s) to Chapter 39, note 2(b) to Section XVI, and by the wording of CN codes 8543, and 8543 90 00.</p> <p>The user would not put an e-cigarette into the mouth without the presence of the mouthpiece and the stream of mist would not be released without activating the atomiser via the mouthpiece. Therefore, the cartridge with the specially shaped upper part is an essential part to the operation of the e-cigarette and not a simple container made of plastics. Classification under heading 3926 as an article of plastics is therefore excluded.</p> <p>According to the Harmonized System Classification Opinion 8543 70/5, a complete e-cigarette is to be classified as another electrical machine or apparatus under subheading 8543 70.</p> <p>Consequently, the cartridge is to be classified under CN code 8543 90 00 as parts of electrical machines and apparatus, having individual functions, not specified or included elsewhere in that chapter.</p>
