

COMMISSION DELEGATED REGULATION (EU) 2018/66**of 29 September 2017****supplementing Regulation (EU) 2016/1011 of the European Parliament and of the Council specifying how the nominal amount of financial instruments other than derivatives, the notional amount of derivatives and the net asset value of investment funds are to be assessed****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No 596/2014 ⁽¹⁾, and in particular Article 20(6)(a) thereof,

Whereas:

- (1) The total value of financial instruments, financial contracts or investment funds referencing a benchmark is a key criterion for the categorisation of that benchmark, in accordance with Regulation (EU) 2016/1011, as critical, significant or non-significant. It is therefore necessary that the nominal amount of financial instruments other than derivatives, the notional amount of derivatives and the net asset value of investment funds are calculated in the same manner across the Union, so that a consistent categorisation of benchmarks in the Member States and a uniform application of Regulation (EU) 2016/1011 is ensured.
- (2) To ensure reliability of benchmarks, the nominal amount of financial instruments, the notional amount of derivatives and the net asset value of investment funds should therefore be calculated using regulatory data where available.
- (3) The total value of financial instruments, financial contracts or investment funds should be calculated by taking into account both direct references to those financial instruments, financial contracts or investment funds and indirect references to a benchmark within a combination of benchmarks. Where a financial instrument, a financial contract or an investment fund references a number of benchmarks, it is appropriate to take this multiple referencing into account in the calculation of the total value of the financial instruments, financial contracts and investment funds referencing a benchmark as these financial products are not solely depending on that benchmark. The calculation of the total value in the case of indirect references therefore needs to be specified in order to be directly applicable and measured consistently across the Union,

HAS ADOPTED THIS REGULATION:

*Article 1***Nominal amount of financial instruments other than derivatives and units in collective investment undertakings**

The nominal amount of financial instruments other than derivatives and units in collective investment undertakings shall be the total issued nominal amount in monetary value referred to in Table 3, Field 14, of the Annex to Commission Delegated Regulation (EU) 2017/585 ⁽²⁾.

*Article 4***Use of alternative amounts and values**
