REGULATIONS

REGULATION (EU) 2020/1783 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL**of 25 November 2020****on cooperation between the courts of the Member States in the taking of evidence in civil or commercial matters (taking of evidence)****(recast)**

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 81(2) thereof,

Having regard to the proposal from the European Commission,

After transmission of the draft legislative act to the national parliaments,

Having regard to the opinion of the European Economic and Social Committee ⁽¹⁾,

After consulting the Committee of the Regions,

Acting in accordance with the ordinary legislative procedure ⁽²⁾,

Whereas:

- (1) Council Regulation (EC) No 1206/2001 ⁽³⁾ has been amended before. Since further substantial amendments are to be made, that Regulation should be recast in the interests of clarity.
- (2) The Union has set itself the objective of maintaining and developing the Union as an area of freedom, security and justice in which the free movement of persons is ensured. To establish such an area, the Union is to adopt, among other measures, measures relating to judicial cooperation in civil matters needed for the proper functioning of the internal market.
- (3) For the purposes of the proper functioning of the internal market and the development of an area of civil justice in the Union, it is necessary to further improve and expedite cooperation between the courts of the different Member States in relation to the taking of evidence. This Regulation seeks to improve the effectiveness and speed of judicial proceedings by simplifying and streamlining the mechanisms for cooperation in the taking of evidence in cross-border proceedings, while at the same time helping to reduce delays and costs for individuals and businesses. Providing greater legal certainty and simpler, streamlined and digitalised procedures will encourage individuals and businesses to engage in cross-border transactions, thereby boosting trade within the Union and thus the functioning of the internal market.
- (4) This Regulation lays down rules on cooperation between the courts of the different Member States in relation to the taking of evidence in civil or commercial matters.

⁽¹⁾ OJ C 62, 15.2.2019, p. 56.

⁽²⁾ Position of the European Parliament of 13 February 2019 (not yet published in the Official Journal) and position of the Council at first reading of 4 November 2020 (not yet published in the Official Journal). Position of the European Parliament of 23 November 2020 (not yet published in the Official Journal).

⁽³⁾ Council Regulation (EC) No 1206/2001 of 28 May 2001 on cooperation between the courts of the Member States in the taking of evidence in civil or commercial matters (OJ L 174, 27.6.2001, p. 1).

- (5) For the purposes of this Regulation, the term 'court' should also be understood to mean authorities that exercise judicial functions, that act pursuant to a delegation of power by a judicial authority or that act under the control of a judicial authority, and that are competent under national law to take evidence for the purposes of judicial proceedings in civil or commercial matters. This includes in particular authorities that qualify as courts under other Union legal acts, such as Council Regulation (EU) 2019/1111 ⁽⁴⁾ and Regulations (EU) No 1215/2012 ⁽⁵⁾ and (EU) No 650/2012 ⁽⁶⁾ of the European Parliament and of the Council.
- (6) To ensure the utmost clarity and legal certainty, the request for the taking of evidence should be transmitted on a form completed in the language of the Member State of the requested court or in another language accepted by that Member State. For the same reasons, forms should also be used as much as possible for further communication between the relevant courts.
- (7) In order to ensure speedy transmission of requests and communications between Member States for the purposes of taking of evidence, any appropriate modern communications technology should be used. Therefore, as a rule, all communication and exchange of documents should be carried out through a secure and reliable decentralised IT system comprising national IT systems that are interconnected and technically interoperable, for example, and without prejudice to further technological progress, based on e-CODEX. Accordingly, a decentralised IT system should be established for data exchanges under this Regulation. The decentralised nature of that IT system would enable data exchanges exclusively between one Member State and another, without any of the Union institutions being involved in those exchanges.
- (8) Without prejudice to possible future technological progress, the secure decentralised IT system and its components should not be understood to necessarily constitute a qualified electronic registered delivery service as defined by Regulation (EU) No 910/2014 of the European Parliament and of the Council ⁽⁷⁾.
- (9) The Commission should be responsible for the creation, maintenance and future development of reference implementation software which Member States should be able to use instead of a national IT system, in accordance with the principles of data protection by design and by default. The Commission should design, develop and maintain the reference implementation software in compliance with the data protection requirements and principles laid down in Regulations (EU) 2018/1725 ⁽⁸⁾ and (EU) 2016/679 ⁽⁹⁾ of the European Parliament and of the Council, in particular the principles of data protection by design and by default. The reference implementation software should also include appropriate technical measures and enable the organisational measures necessary for ensuring a level of security and interoperability which is appropriate for the exchange of information in the context of the taking of evidence.
- (10) In relation to the components of the decentralised IT system which are under the responsibility of the Union, the managing entity should have sufficient resources in order to ensure the proper functioning of that system.
- (11) The competent authority or authorities under national law should be responsible as controllers within the meaning of Regulation (EU) 2016/679 in relation to the processing of personal data that they carry out under this Regulation for the transmission of requests and other communications between Member States.

⁽⁴⁾ Council Regulation (EU) 2019/1111 of 25 June 2019 on jurisdiction, the recognition and enforcement of decisions in matrimonial matters and the matters of parental responsibility, and on international child abduction (OJ L 178, 2.7.2019, p. 1).

⁽⁵⁾ Regulation (EU) No 1215/2012 of the European Parliament and of the Council of 12 December 2012 on jurisdiction and the recognition and enforcement of judgments in civil and commercial matters (OJ L 351, 20.12.2012, p. 1).

⁽⁶⁾ Regulation (EU) No 650/2012 of the European Parliament and of the Council of 4 July 2012 on jurisdiction, applicable law, recognition and enforcement of decisions and acceptance and enforcement of authentic instruments in matters of succession and on the creation of a European Certificate of Succession (OJ L 201, 27.7.2012, p. 107).

⁽⁷⁾ Regulation (EU) No 910/2014 of the European Parliament and of the Council of 23 July 2014 on electronic identification and trust services for electronic transactions in the internal market and repealing Directive 1999/93/EC (OJ L 257, 28.8.2014, p. 73).

⁽⁸⁾ Regulation (EU) 2018/1725 of the European Parliament and of the Council of 23 October 2018 on the protection of natural persons with regard to the processing of personal data by the Union institutions, bodies, offices and agencies and on the free movement of such data, and repealing Regulation (EC) No 45/2001 and Decision No 1247/2002/EC (OJ L 295, 21.11.2018, p. 39).

⁽⁹⁾ Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation) (OJ L 119, 4.5.2016, p. 1).

- (12) Transmission through the decentralised IT system could become impossible due to a disruption of the system or the nature of the evidence, for example when transmitting DNA or blood samples. Other means of communication could be more appropriate also in exceptional circumstances, which could include situations in which converting voluminous documentation into electronic form would impose a disproportionate administrative burden on the competent authorities or whereby the original document is needed in paper format to assess its authenticity. Where the decentralised IT system is not used, transmission should be carried out by the most appropriate alternative means. Such alternative means should entail, inter alia, transmission being performed as swiftly as possible and in a secure manner by other secure electronic means or by postal service.
- (13) In order to enhance electronic cross-border transmission of documents through the decentralised IT system, such documents should not be denied legal effect and should not be considered inadmissible as evidence in the proceedings solely on the grounds that they are in electronic form. However, that principle should be without prejudice to the assessment of the legal effects or the admissibility of such documents as evidence in accordance with national law. It should also be without prejudice to national law regarding the conversion of documents.
- (14) This Regulation should be without prejudice to the ability of authorities to exchange information under systems established under other Union instruments, such as Regulation (EU) 2019/1111 or Council Regulation (EC) No 4/2009⁽¹⁰⁾, even where that information has evidentiary value, thus leaving the choice of the most appropriate method to the requesting authority.
- (15) Requests for the taking of evidence should be executed expeditiously. If it is not possible for a request to be executed within 90 days of its receipt by the requested court, the requested court should inform the requesting court accordingly, stating the reasons which prevent it from executing the request swiftly.
- (16) To ensure that this Regulation is effective, the circumstances in which it is possible to refuse to execute a request for the taking of evidence should be confined to strictly limited exceptional situations.
- (17) The requested court should execute a request for the taking of evidence in accordance with its national law.
- (18) The parties to the proceedings and their representatives, if any, should be able to be present at the taking of evidence, if that is provided for by the law of the Member State of the requesting court, in order to be able to follow the proceedings in a comparable way as if evidence were taken in the Member State of the requesting court. They should also have the right to request to participate in the taking of evidence in order to have a more active role in the taking of evidence. However, the conditions under which they may participate should be determined by the requested court in accordance with its national law.
- (19) The representatives of the requesting court should be able to be present at the taking of evidence, if that is compatible with the law of the Member State of the requesting court, in order to be in a better position to evaluate the evidence. They should also have the right to request to participate in the taking of evidence, under the conditions laid down by the requested court in accordance with its national law, in order to have a more active role in the taking of evidence.
- (20) In order to facilitate the taking of evidence, it should be possible for a court of a Member State, in accordance with its national law, to take evidence directly in another Member State, if the request for direct taking of evidence is accepted by the latter, and under the conditions determined by the central body or competent authority of the requested Member State.
- (21) Modern communications technology, for example videoconferencing, which is an important means of simplifying and accelerating the taking of evidence, is currently not used to its full potential. Where evidence is to be taken by examining a person such as a witness, a party to the proceedings or an expert present in another Member State, the requesting court should take that evidence directly using videoconferencing or other distance communications technology, where that technology is available to the court and the court considers the use of such technology to be appropriate with regard to the specific circumstances of the case and the fair conduct of the proceedings. Videoconferencing could also be used to hear a child as provided for in Regulation (EU) 2019/1111. However, where the central body or competent authority of the requested Member State deems certain conditions to be necessary, direct taking of evidence should be done under those conditions in accordance with the law of that Member State. The central body or competent authority of the requested Member State should be able to refuse the direct taking of evidence wholly or partially, if such direct taking of evidence would be contrary to fundamental principles of the law of that Member State.

⁽¹⁰⁾ Council Regulation (EC) No 4/2009 of 18 December 2008 on jurisdiction, applicable law, recognition and enforcement of decisions and cooperation in matters relating to maintenance obligations (OJ L 7, 10.1.2009, p. 1).

- (22) Where evidence is to be taken by examining a person using videoconferencing or other distance communications technology, the requesting court, upon its request, should be provided with assistance in finding an interpreter, including in finding a certified interpreter where specifically requested.
- (23) The court seised of the proceedings should provide the parties and their legal representatives with instructions as to the procedure for presenting documents or other material when the examinations are conducted using videoconferencing or other appropriate distance communications technology.
- (24) In order to facilitate the taking of evidence by diplomatic agents or consular officers, such persons should be able to, in the territory of another Member State and within the area in which they are accredited, take evidence without the need for a prior request, by hearing, without the use of coercive measures, nationals of the Member State which they represent, in the context of proceedings pending in the courts of the Member State which they represent. However, it should be left to the discretion of the Member State whether its diplomatic agents or consular officers have the power to take evidence as part of their functions.
- (25) The taking of evidence by diplomatic agents or consular officers should take place at the premises of the diplomatic mission or consulate except in exceptional circumstances. Such circumstances could include the fact that the person to be heard is unable to come to the premises because of a serious illness.
- (26) The execution of a request for evidence to be taken in accordance with this Regulation should not give rise to a claim for reimbursement of taxes or costs. Nevertheless, if the requested court requires reimbursement, the fees paid to experts and interpreters, as well as the costs occasioned by execution in accordance with a special procedure provided for by national law or by the use of distance communications technology, should not be borne by that court. In such a case, the requesting court should take the necessary measures to ensure reimbursement without delay. Where the opinion of an expert is required, the requested court should be able, before executing the request, to ask the requesting court for an adequate deposit or advance towards the costs.
- (27) In order to update the forms in Annex I to this Regulation or to make technical changes to those forms, the power to adopt acts in accordance with Article 290 of the Treaty on the Functioning of the European Union should be delegated to the Commission in respect of amendments to that Annex. It is of particular importance that the Commission carry out appropriate consultations during its preparatory work, including at expert level, and that those consultations be conducted in accordance with the principles laid down in the Interinstitutional Agreement of 13 April 2016 on Better Law-Making ⁽¹⁾. In particular, to ensure equal participation in the preparation of delegated acts, the European Parliament and the Council receive all documents at the same time as Member States' experts, and their experts systematically have access to meetings of Commission expert groups dealing with the preparation of delegated acts.
- (28) In order to ensure uniform conditions for the implementation of this Regulation, implementing powers should be conferred on the Commission. Those powers should be exercised in accordance with Regulation (EU) No 182/2011 of the European Parliament and of the Council ⁽²⁾.
- (29) This Regulation should prevail over the provisions contained in bilateral or multilateral agreements or arrangements concluded by the Member States that have the same scope of application as this Regulation. This Regulation does not preclude Member States from maintaining or concluding agreements or arrangements to further facilitate cooperation in the taking of evidence, provided that those agreements or arrangements are compatible with this Regulation.
- (30) It is essential that effective means of obtaining, preserving and presenting evidence are available and that rights of defence are respected and confidential information is protected. In this context, it is important to encourage the use of modern technology.
- (31) The procedures for taking, preserving and presenting evidence should ensure that procedural rights, as well as privacy and the integrity and confidentiality of personal data, are protected in accordance with Union and national law.

⁽¹⁾ OJ L 123, 12.5.2016, p. 1.

⁽²⁾ Regulation (EU) No 182/2011 of the European Parliament and of the Council of 16 February 2011 laying down the rules and general principles concerning mechanisms for control by Member States of the Commission's exercise of implementing powers (OJ L 55, 28.2.2011, p. 13).

- (32) It is important to ensure that this Regulation is applied in compliance with Union data protection law and that the application of this Regulation respects the protection of privacy as enshrined in the Charter of Fundamental Rights of the European Union. It is also important to ensure that any processing of personal data under this Regulation is undertaken in accordance with Regulation (EU) 2016/679, Directive 2002/58/EC of the European Parliament and of the Council ⁽¹³⁾, as well as Regulation (EU) 2018/1725. Personal data should be processed under this Regulation only for the specific purposes set out herein.
- (33) In accordance with paragraphs 22 and 23 of the Interinstitutional Agreement of 13 April 2016 on Better Law-Making, the Commission should evaluate this Regulation on the basis of information collected through specific monitoring arrangements in order to assess the actual effects of this Regulation and the need for any further action. Where Member States collect data on the numbers of requests transmitted and requests executed, as well as the number of cases in which transmission was performed by means other than through the decentralised IT system, they should provide the Commission with such data for monitoring purposes. The reference implementation software developed by the Commission as a back-end system should programmatically collect the data necessary for monitoring purposes and such data should be transmitted to the Commission. Where Member States choose to use a national IT system instead of the reference implementation software developed by the Commission that system may be equipped to programmatically collect those data and in that case those data should be transmitted to the Commission.
- (34) Since the objectives of this Regulation cannot be sufficiently achieved by the Member States but can rather, by reason of the creation of a simplified legal framework ensuring the direct, effective and speedy transmission of requests and communications concerning the taking of evidence, be better achieved at Union level, the Union may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 of the Treaty on European Union. In accordance with the principle of proportionality as set out in that Article, this Regulation does not go beyond what is necessary in order to achieve those objectives.
- (35) The European Data Protection Supervisor was consulted in accordance with Article 42(1) of Regulation (EU) 2018/1725 and delivered an opinion on 13 September 2019 ⁽¹⁴⁾.
- (36) In order to make its provisions more easily accessible and readable, Regulation (EC) No 1206/2001 should be repealed and replaced by this Regulation.
- (37) In accordance with Article 3 and Article 4a(1) of Protocol No 21 on the position of the United Kingdom and Ireland in respect of the area of freedom, security and justice, annexed to the Treaty on European Union and to the Treaty on the Functioning of the European Union, Ireland has notified its wish to take part in the adoption and application of this Regulation.
- (38) In accordance with Articles 1 and 2 of Protocol No 22 on the position of Denmark, annexed to the Treaty on European Union and to the Treaty on the Functioning of the European Union, Denmark is not taking part in the adoption of this Regulation and is not bound by it or subject to its application,

HAVE ADOPTED THIS REGULATION:

3. Where requests and communications referred to in paragraph 1 of this Article require or feature a seal or handwritten signature, qualified electronic seals or qualified electronic signatures as defined in Regulation (EU) No 910/2014 may be used instead.
4. Where transmission in accordance with paragraph 1 is not possible due to the disruption of the decentralised IT system or to the nature of the evidence concerned, or due to exceptional circumstances, the transmission shall be carried out by the swiftest, most appropriate alternative means, taking into account the need to ensure reliability and security.

*Article 8***Legal effects of electronic documents**

3. The requesting court may call for the request to be executed in accordance with a special procedure provided for in its national law, using form A in Annex I. The requested court shall execute the request in accordance with the special procedure unless doing so would be incompatible with its national law or it is unable to do so because of major practical difficulties. If the requested court does not comply with the call for the request to be executed in accordance with a special procedure for one of those reasons, it shall inform the requesting court using form H in Annex I.
4. The requesting court may ask the requested court to use specific communications technology in the taking of evidence, in particular by using videoconferencing or teleconferencing.

The requested court shall use the communications technology specified pursuant to the first subparagraph unless doing so would be incompatible with its national law or the requested court is unable to do so because of major practical difficulties.

If the requested court does not use the specified communications technology for one of those reasons, it shall inform the requesting court using form H in Annex I.

2. In its request, the requesting court shall inform the requested court, using form A in Annex I, that the parties and their representatives, if any, will be present and, where appropriate, that their participation in the taking of evidence is requested. 5. Paragraphs 1 to 4 are without prejudice to the ability of the requested court to request the parties and their representatives, if any, to be present at or to participate in the taking of evidence if provided for by the law of its Member State.

*Article 14***Taking of evidence with the presence and participation of representatives of the requesting court**

1. Where compatible with the law of the Member State of the requesting court, representatives of the requesting court shall have the right to be present in the taking of evidence by the requested court.

Article 16

 - (a) under the law of the Member State of the requested court; or
 - (b) under the law of the Member State of the requesting court, and such right or prohibition has been specified in the request, or, if necessary, at the instance of the requested court, has been confirmed by the requesting court.
2. The execution of a request may only be refused on grounds other than those referred to in paragraph 1, where one or more of the following grounds applies:
 - (a) the request does not fall within the scope of this Regulation;
 - (b) the execution of the request does not fall within the functions of the judiciary under the law of the Member State of the requested court;
 - (c) the requesting court does not comply with the request of the requested court to complete the request for the taking of evidence pursuant to Article 10 within 30 days of the requested court asking it to do so; or
 - (d) a deposit or advance asked for in accordance with Article 22(3) is not made within 60 days of the requested court asking for such a deposit or advance.
3.
