

## NOTICES FROM MEMBER STATES

**Annotated presentation of regulated markets and national provisions implementing relevant requirements of MIFID (Directive 2004/39/EC of the European Parliament and of the Council)**

(2010/C 348/09)

Article 47 of the Markets in Financial Instruments Directive (Directive 2004/39/EC, OJ L 145, 30.4.2004) authorises each Member State to confer the status of 'regulated market' on those markets constituted on its territory and which comply with its regulations.

Article 4, paragraph 1, point 14 of Directive 2004/39/EC defines a 'regulated market' as a multilateral system operated and/or managed by a market operator, which brings together or facilitates the bringing together of multiple third-party buying and selling interests in financial instruments — in the system and in accordance with its non-discretionary rules — in a way that results in a contract, in respect of the financial instruments admitted to trading under its rules and/or systems, and which is authorized and functions regularly and in accordance with the provisions of Title III of Directive 2004/39/EC.

Article 47 of Directive 2004/39/EC requires that each Member State maintains an updated list of regulated markets authorised by it. This information should be communicated to other Member States and the European Commission. Under the same article (article 47 of Directive 2004/39/EC), the Commission is required to publish a list of regulated markets, notified to it, on a yearly basis in the *Official Journal of the European Union*. The present list has been compiled pursuant to this requirement.

The attached list indicates the title of the individual markets which are recognised by national competent authorities as complying with the definition of 'regulated market'. In addition, it indicates the entity responsible for managing these markets and the competent authority responsible for issuing or approving the rules of the market.

As a result of reduced entry barriers and specialisation in trading segments, the list of 'regulated markets' is subject to greater turnover than under the Investment Services Directive 93/22/EEC. Article 47 of the Markets in Financial Instruments Directive also requires the European Commission to publish the list of regulated markets on its website and to update it regularly. Consequently, the European Commission will, in addition to yearly publication of a list in the OJ, maintain an updated version of this list on its official website ([http://ec.europa.eu/internal\\_market/securities/isd/mifid\\_en.htm](http://ec.europa.eu/internal_market/securities/isd/mifid_en.htm)). This list will be updated regularly on the basis of information communicated by national authorities. The latter are called upon to continue to advise the Commission of any additions to or deletions from the list of regulated markets for which it is the home Member State.

Country	Title of Reg. Market	Operating entity	Competent authority for designation and oversight of market
Austria	1. Amtlicher Handel (official market) 2. Geregelter Freiverkehr (semi-official market)	1.-2. Wiener Börse AG	1.-2. Finanzmarktaufsichtsbehörde (FMA — Financial Markets Authority)
Belgium	1. (a) Le marché «Euronext Brussels»/De «Euronext Brussels» markt, (b) Le marché des instruments dérivés d'Euronext Brussels/De markt voor afgeleide producten van Euronext Brussels.	1.
