

## Notice of initiation of an expiry review of the anti-dumping measures applicable to imports of oxalic acid originating in India and the People's Republic of China

(2017/C 117/12)

Following the publication of a Notice of impending expiry<sup>(1)</sup> of the anti-dumping measures in force on the imports of oxalic acid originating in India and in the People's Republic of China ('countries concerned'), the European Commission ('the Commission') has received a request for a review pursuant to Article 11(2) of Regulation (EU) 2016/1036 of the European Parliament and of the Council of 8 June 2016 on protection against dumped imports from countries not members of the European Union<sup>(2)</sup> ('the basic Regulation').

### 1. Request for review

The request was lodged on 18 January 2017 by Oxaquim S.A. ('the applicant'), representing more than 50 % of the total Union production of oxalic acid.

### 2. Product under review

The product subject to this review is oxalic acid, whether in dihydrate (CUS number 0028635-1 and CAS number 6153-56-6) or anhydrous form (CUS number 0021238-4 and CAS number 144-62-7) and whether or not in aqueous solution, currently falling within CN code ex 2917 11 00 (TARIC code 2917 11 00 91) and originating in India and the People's Republic of China ('product under review').

### 3. Existing measures

The measures currently in force are a definitive anti-dumping duty imposed by Council Regulation (EU) No 325/2012<sup>(3)</sup>. Following a judgment of the General Court of 20 May 2015<sup>(4)</sup>, measures were reimposed<sup>(5)</sup> against imports of one Chinese exporting producer.

### 4. Grounds for the review

The request is based on the grounds that the expiry of the measures would be likely to result in continuation of dumping and recurrence of injury to the Union industry.

#### 4.1. Allegation of likelihood of continuation of dumping

The allegation of likelihood of continuation of dumping for India is based on a comparison of the domestic price with the export price (at ex-works level) of the product under review when sold for export to the Union.

Since, in view of the provisions of Article 2(7) of the basic Regulation, the People's Republic of China is considered to be a non-market economy country, the applicant established normal value for the imports from the People's Republic of China on the basis of the price in a market economy third country, namely India. The allegation of likelihood of continuation of dumping is based on a comparison of the normal value thus established with the export price (at ex-works level) of the product under review when sold for export to the Union. The applicant has also submitted information on prices in the People's Republic of China, which confirms the allegation of continuation of dumping.

On this basis the dumping margins calculated are significant for both countries concerned.

#### 4.2. Allegation of likelihood of recurrence of injury

The applicant alleges the likelihood of recurrence of injury. In this respect the applicant has provided *prima facie* evidence that, should measures be allowed to lapse, the current import level of the product under review from the countries concerned to the Union is likely to increase due to the continued interest of the exporting producers in the countries concerned in the Union market and the existence of unused capacity in the countries concerned.

<sup>(1)</sup> OJ C 329, 7.9.2016, p. 4.

<sup>(2)</sup> OJ L 176, 30.6.2016, p. 21.

<sup>(3)</sup> Council Implementing Regulation (EU) No 325/2012 of 12 April 2012 imposing a definitive anti-dumping duty and collecting definitively the provisional duty imposed on imports of oxalic acid originating in India and the People's Republic of China (OJ L 106, 18.4.2012, p. 1).

<sup>(4)</sup> Case T-310/12 *Yuanping Changyuan Chemicals Co. Ltd v Council of the European Union*.

<sup>(5)</sup> Commission Implementing Regulation (EU) 2016/2081 of 28 November 2016 reimposing a definitive anti-dumping duty on imports of oxalic acid originating in the People's Republic of China and produced by Yuanping Changyuan Chemicals Co. Ltd (OJ L 321, 29.11.2016, p. 48).

The applicant finally alleges that the removal of injury has been mainly due to the existence of measures and that any recurrence of substantial imports at dumped prices from the countries concerned would likely lead to a recurrence of injury to the Union industry should measures be allowed to lapse.

## 5. Procedure

Having determined, after consulting the Committee established by Article 15(1) of the basic Regulation, that sufficient evidence exists to justify the initiation of an expiry review, the Commission hereby initiates a review in accordance with Article 11(2) of the basic Regulation.

The expiry review will determine whether the expiry of the measures would be likely to lead to a continuation or recurrence of dumping of the product under review originating in the countries concerned and a continuation or recurrence of injury to the Union industry.

### 5.1. Review investigation period and period considered

The investigation of a continuation or recurrence of dumping will cover the period from 1 April 2016 to 31 March 2017 (the review investigation period). The examination of trends relevant for the assessment of the likelihood of a continuation or recurrence of injury will cover the period from 1 January 2013 to the end of the investigation period (the period considered).

### 5.2. Procedure for the determination of likelihood of continuation or recurrence of dumping

Exporting producers <sup>(1)</sup> of the product under review from the countries concerned, including those that did not cooperate in the investigation leading to the measures in force, are invited to participate in the Commission investigation.

#### 5.2.1. Investigating exporting producers

Procedure for selecting exporting producers to be investigated in India and the People's Republic of China

##### Sampling

In view of the potentially large number of exporting producers in India and the People's Republic of China involved in this expiry review and in order to complete the investigation within the statutory time limits, the Commission may limit the exporting producers to be investigated to a reasonable number by selecting a sample (this process is also referred to as 'sampling'). The sampling will be carried out in accordance with Article 17 of the basic Regulation.

In order to enable the Commission to decide whether sampling is necessary, and if so, to select a sample, all exporting producers, or representatives acting on their behalf, including the ones who did not cooperate in the investigation leading to the measures subject to the present review, are hereby requested to make themselves known to the Commission. These parties have to do so within 15 days of the date of publication of this Notice in the *Official Journal of the European Union*, unless otherwise specified, by providing the Commission with the information on their company(ies) requested in Annex I to this Notice.

In order to obtain the information it deems necessary for the selection of the sample of exporting producers, the Commission will also contact the authorities of India and the People's Republic of China and may contact any known associations of exporting producers.

All interested parties wishing to submit any other relevant information regarding the selection of the sample, excluding the information requested above, must do so within 21 days of the publication of this Notice in the *Official Journal of the European Union*, unless otherwise specified.

If a sample is necessary, the exporting producers will be selected based on the largest representative volume of production, sales or exports which can reasonably be investigated within the time available. All known exporting producers, the authorities of the countries concerned and associations of exporting producers will be notified by the Commission, via the authorities of the countries concerned if appropriate, of the companies selected to be in the sample.

In order to obtain the information it deems necessary for its investigation with regard to exporting producers, the Commission will send questionnaires to the exporting producers selected to be in the sample, to any known association of exporting producers and to the authorities in India and the People's Republic of China.

---

<sup>(1)</sup> An exporting producer is any company in the country(ies) concerned which produces and exports the product under review to the Union market, either directly or via third party, including any of its related companies involved in the production, domestic sales or exports of the product under review.

All exporting producers selected to be in the sample, will have to submit a completed questionnaire within 37 days from the date of notification of the sample selection, unless otherwise specified.

Without prejudice to the possible application of Article 18 of the basic Regulation, companies that have agreed to their possible inclusion in the sample but are not selected to be in the sample will be considered to be cooperating ('non-sampled cooperating exporting producers').

#### 5.2.2. *Additional procedure with regard to exporting producers in the non-market economy country concerned*

##### Selection of a market economy third country

In accordance with Article 2(7)(a) of the basic Regulation, for imports from the People's Republic of China, the normal value will be determined on the basis of the price or constructed normal value in a market economy third country.

In the previous investigation India was used as a market economy third country for the purpose of establishing normal value in respect of the People's Republic of China. For the purpose of the current investigation, the Commission envisages using again India. According to the information available to the Commission, other market economy producers may be located, inter alia, in Japan. With the aim of finally selecting the market economy third country, the Commission will examine whether there is production and sales of the product under review in those market economy third countries for which there are indications that production of the product under review is taking place. Interested parties are hereby invited to comment on the choice of the analogue country within 10 days of the date of publication of this Notice in the *Official Journal of the European Union*.

#### 5.2.3. *Investigating unrelated importers* <sup>(1)</sup> <sup>(2)</sup>

Unrelated importers of the product under review from India and the People's Republic of China to the Union, including those that did not cooperate in the investigation leading to the measures in force, are invited to participate in this investigation.

In view of the potentially large number of unrelated importers involved in this expiry review and in order to complete the investigation within the statutory time limits, the Commission may limit to a reasonable number the unrelated importers that will be investigated by selecting a sample (this process is also referred to as 'sampling'). The sampling will be carried out in accordance with Article 17 of the basic Regulation.

In order to enable the Commission to decide whether sampling is necessary and, if so, to select a sample, all unrelated importers, or representatives acting on their behalf, including the ones who did not cooperate in the investigation leading to the measures subject to the present review, are hereby requested to make themselves known to the Commission. These parties must do so within 15 days of the date of publication of this Notice in the *Official Journal of the European Union*, unless otherwise specified, by providing the Commission with the information on their company(ies) requested in Annex II to this Notice.

In order to obtain information it deems necessary for the selection of the sample of unrelated importers, the Commission may also contact any known associations of importers.

All interested parties wishing to submit any other relevant information regarding the selection of the sample, excluding the information requested above, must do so within 21 days of the publication of this Notice in the *Official Journal of the European Union*, unless otherwise specified.

(1) Only importers not related to exporting producers can be sampled. Importers that are related to exporting producers have to fill in Annex I to the questionnaire for these exporting producers. In accordance with Article 127 of Commission Implementing Regulation (EU) 2015/2447 of 24 November 2015 laying down detailed rules for implementing certain provisions of Regulation (EU) No 952/2013 of the European Parliament and of the Council laying down the Union Customs Code, two persons shall be deemed to be related if: (a) they are officers or directors of the other person's business; (b) they are legally recognised partners in business; (c) they are employer and employee; (d) a third party directly or indirectly owns, controls or holds 5 % or more of the outstanding voting stock or shares of both of them; (e) one of them directly or indirectly controls the other; (f) both of them are directly or indirectly controlled by a third person; (g) together they control a third person directly or indirectly; or (h) they are members of the same family (OJ L 343, 29.12.2015, p. 558). Persons shall be deemed to be members of the same family only if they stand in any of the following relationships to one another: (i) husband and wife; (ii) parent and child; (iii) brother and sister (whether by whole or half blood); (iv) grandparent and grandchild; (v) uncle or aunt and nephew or niece; (vi) parent-in-law and son-in-law or daughter-in-law; (vii) brother-in-law and sister-in-law. In accordance with Article 5(4) of Regulation (EU) No 952/2013 of the European Parliament and of the Council laying down the Union Customs Code, 'person' means a natural person, a legal person, and any association of persons which is not a legal person but which is recognised under Union or national law as having the capacity to perform legal acts (OJ L 269, 10.10.2013, p. 1).

(2) The data provided by unrelated importers may also be used in relation to aspects of this investigation other than the determination of dumping.

If a sample is necessary, the importers may be selected based on the largest representative volume of sales of the product under review in the Union which can reasonably be investigated within the time available. All known unrelated importers and associations of importers will be notified by the Commission of the companies selected to be in the sample.

In order to obtain the information it deems necessary for its investigation, the Commission will send questionnaires to the sampled unrelated importers and to any known association of importers. These parties must submit a completed questionnaire within 37 days from the date of the notification of the sample selection, unless otherwise specified.

### **5.3. Procedure for the determination of a likelihood of continuation or recurrence of injury**

In order to establish whether there is a likelihood of continuation or recurrence of injury to the Union industry, Union producers of the product under review are invited to participate in the Commission investigation.

#### **5.3.1. Investigating Union producers**

In order to obtain the information it deems necessary for its investigation with regard to Union producers, the Commission will send questionnaires to known Union producers or representative Union producers and to any known association of Union producers, including the ones who did not cooperate in the investigation leading to the measures subject to the present review, namely to: Oxaquim S.A. and Clariant.

The aforementioned Union producers and the associations of Union producers must submit the completed questionnaire within 37 days of the date of publication of this Notice in the *Official Journal of the European Union*, unless otherwise specified.

Any Union producer and association of Union producers not listed above is invited to contact the Commission, preferably by email, as soon as possible but no later than 15 days after the publication of this Notice in the *Official Journal of the European Union*, unless otherwise specified, in order to make itself known and request a questionnaire.

### **5.4. Procedure for the assessment of Union interest**

Should the likelihood of continuation or recurrence of dumping and injury be confirmed, a decision will be reached, pursuant to Article 21 of the basic Regulation, as to whether maintaining the anti-dumping measures would not be against the Union interest. Union producers and their representative associations, importers and their representative associations, users and their representative associations, and representative consumer organisations are invited to make themselves known within 15 days of the date of publication of this Notice in the *Official Journal of the European Union*, unless otherwise specified. In order to participate in the investigation, the representative consumer organisations have to demonstrate, within the same deadline, that there is an objective link between their activities and the product under review.

Parties that make themselves known within the above deadline may provide the Commission with information on the Union interest within 37 days of the date of publication of this Notice in the *Official Journal of the European Union*, unless otherwise specified. This information may be provided either in a free format or by completing a questionnaire prepared by the Commission. In any case, information submitted pursuant to Article 21 will only be taken into account if supported by factual evidence at the time of submission.

### **5.5. Other written submissions**

Subject to the provisions of this Notice, all interested parties are hereby invited to make their views known, submit information and provide supporting evidence. Unless otherwise specified, this information and supporting evidence must reach the Commission within 37 days of the date of publication of this Notice in the *Official Journal of the European Union*.

### **5.6. Possibility to be heard by the Commission investigation services**

All interested parties may request to be heard by the Commission investigation services. Any request to be heard must be made in writing and must specify the reasons for the request. For hearings on issues pertaining to the initial stage of the investigation, the request must be submitted within 15 days of the date of publication of this Notice in the *Official Journal of the European Union*. Thereafter, a request to be heard must be submitted within the specific deadlines set by the Commission in its communication with the parties.

Where it is found that any interested party has supplied false or misleading information, the information may be disregarded and use may be made of facts available.

If an interested party does not cooperate or cooperates only partially and findings are therefore based on facts available in accordance with Article 18 of the basic Regulation, the result may be less favourable to that party than if it had cooperated.

Failure to give a computerised response shall not be deemed to constitute non-cooperation, provided that the interested party shows that presenting the response as requested would result in an unreasonable extra burden or unreasonable additional cost. The interested party should immediately contact the Commission.

## 7. Hearing Officer

The Hearing Officer may organise a hearing with an individual interested party and mediate to ensure that the interested parties' rights of defence are being fully exercised.

<sup>(1)</sup> A 'Limited' document is a document which is considered confidential pursuant to Article 19 of the basic Regulation and Article 6 of the WTO Agreement on Implementation of Article VI of the GATT 1994 (Anti-Dumping Agreement). It is also a document protected pursuant to Article 4 of Regulation (EC) No 1049/2001 of the European Parliament and of the Council (OJ L 145, 31.5.2001, p. 43).

A request for a hearing with the Hearing Officer should be made in writing and should specify the reasons for the request. For hearings on issues pertaining to the initial stage of the investigation the request must be submitted within 15 days of the date of publication of this Notice in the *Official Journal of the European Union*. Thereafter, a request to be heard must be submitted within specific deadlines set by the Commission in its communication with the parties.

The Hearing Officer will also provide opportunities for a hearing involving parties to take place which would allow different views to be presented and rebuttal arguments offered on issues pertaining, among other things, to the likelihood of a continuation or recurrence of dumping and injury, and Union interest.

For further information and contact details interested parties may consult the Hearing Officer's web pages on DG Trade's website: <http://ec.europa.eu/trade/trade-policy-and-you/contacts/hearing-officer/>

#### **8. Schedule of the investigation**

The investigation will be concluded, pursuant to Article 11(5) of the basic Regulation within 15 months of the date of the publication of this Notice in the *Official Journal of the European Union*.

#### **9. Possibility to request a review under Article 11(3) of the basic Regulation**

As this expiry review is initiated in accordance with the provisions of Article 11(2) of the basic Regulation, the findings thereof will not lead to the existing measures being amended but will lead to those measures being repealed or maintained in accordance with Article 11(6) of the basic Regulation.

If any interested party considers that a review of the measures is warranted so as to allow for the possibility to amend the measures, that party may request a review pursuant to Article 11(3) of the basic Regulation.

Parties wishing to request such a review, which would be carried out independently of the expiry review mentioned in this Notice, may contact the Commission at the address given above.

#### **10. Processing of personal data**

If the company is selected to be part of the sample, this will involve completing a questionnaire and accepting a visit at its premises in order to verify its response. If the company indicates that it does not agree to its possible inclusion in the sample, it will be deemed not to have cooperated in the investigation. The Commission's findings for non-cooperating importers are based on the facts available and the result may be less favourable to that company than if it had cooperated.
