COMMUNICATION FROM THE COMMISSION TO THE COUNCIL

Financial information on the European Development Fund

European Development Fund (EDF): forecasts of commitments, payments and contributions from the parties to the European Development Fund for 2023, 2024, 2025 and non binding forecasts for the years 2026-2027

1. FOREWORD¹

In accordance with Article 19(2) of the Council Regulation (EU) 2018/1877² on the Financial Regulation applicable to the 11th European Development Fund (hereinafter referred to as "11th EDF Financial Regulation"), the Commission presents in this document the estimates of the commitments³, payments and contributions for the period 2023-2025, taking into account the forecasts of the European Investment Bank (EIB).

This document sets out the financial implementation of the EDFs (Ninth to 11th) for 2023 until 2025. In addition, this document makes non-binding estimates for the EDF contributions from the parties to the European Development Fund for the years 2026-2027.

The parties to the European Development Fund contribute funds directly to the EIB for the instruments, which it manages under the Ninth, 10th, and 11th EDFs (the Investment Facility and interest rate subsidies).

2. INTRODUCTION

The Commission and the EIB have updated their forecasts for 2023, 2024 and 2025 for each of the African, Caribbean and Pacific (ACP) countries and the Overseas Countries and Territories (OCTs). The payment forecasts in particular have been compiled with the aim of helping the parties to the European Development Fund to assess as accurately as possible the amounts they need to earmark in their national budgets while ensuring that sufficient financial resources are available for the EDF to avoid liquidity problems.

In accordance with Article 19(2) of the 11th EDF Financial Regulation, the estimates of commitments and payments have been updated following the latest forecasts.

The graph below shows the general evolution in gross commitments and payments since 1999 until 2022 and projections for the period 2023-2025 (Commission and EIB cumulated amounts).

¹ This document takes into account Articles 152 and 153 of the withdrawal agreement of the United Kingdom of Great Britain and Northern Ireland from the European Union and the European Atomic Energy Community, which stipulate that the United Kingdom shall remain party to the EDF until the closure of the 11th EDF and all previous unclosed EDFs; however the United Kingdom's share in decommitted funds from projects under the 11th EDF or previous EDFs shall not be reused.

² Council Regulation (EU) 2018/1877 of 26 November 2018 on the financial regulation applicable to the 11th European Development Fund, and repealing Regulation (EU) 2015/323 (OJ L 307, 3.12.2018, p. 1–21).

³ Commitments of the funds stemming from the reuse of the 10th & 11th EDF according to the COUNCIL DECISION (EU) 2022/1223 of 12 July 2022 concerning the allocation of funds de-committed from projects under the 10th and 11th European Development Funds for the purpose of financing actions addressing the food security crisis and economic shock in African, Caribbean and Pacific (ACP) countries following Russia's war of aggression against Ukraine.

Gross commitments and payments: trend 1999-2025 (EUR million)

Note: Figures from implementation of the European Development Funds until 31 December 2022 (commitments and payments) and forecasts for 2023-2025. Since the sunset clause of the 11th EDF elapsed on 31.12.2020, there are no new commitments with the exception of:

- (1) the funds stemming from reflows under the ACP Investment Facility from operations under the 9th 10th and 11th EDFs (ref prolongation of the IF into 2021, by the Council Decision 2020/2233 of the Council), and
- (2) commitments of the funds stemming from the reuse of the 10th & 11th EDF reserve under the Council Decision 2022/1223, regarding the special measures for the EU response to the food security crisis and economic shock in African, Caribbean and Pacific (ACP) countries following Russia's war of aggression against Ukraine.

3. FINANCIAL FORECASTS FOR 2023 - 2025 (EUR MILLION)

The following table provides an update of the commitments, the payments and of the contributions, based on the Commission's latest forecasts.

** On the basis of the current forecasts, the EIB will have called all its share of the 11th EDF by the end of 2025.

4. NON-BINDING ESTIMATES OF CONTRIBUTIONS FOR 2026 – 2027 (EUR MILLION)

** On the basis of the current forecasts, the EIB will have called all its share of the 11th EDF by the end of 2025.

5. FINANCIAL IMPLEMENTATION FORECASTS FOR 2023-2025⁴

For 2023 and 2024, the estimates for payments and Member State contributions (Commission) remain unchanged compared to the June 2023 Communication. Our estimations for the year 2025 confirm the decreasing trend of payments.

With respect to the non-committed and decommitted funds from the Ninth EDF, the Commission proposes to refund to the “EU-15 MS” the amount of EUR 7.8 million currently available in the Ninth reserve⁵. This refund will be done by reducing the amount to be paid by the “EU-15 MS” for the first instalment 2024 (i.e the same approach as in the previous years). Any remaining balances in the Ninth EDF reserve will continue, in principle, to be refunded once a year until the complete restitution of non-committed or decommitted funds.

Regarding the 10th and the 11th EDF reserve, the UK formally requested in March 2023 that the Commission refunds this year their outstanding share of the reserves by netting-out their outstanding contribution to the EDF for 2023 (€154,12 million). As of 2024 (for the funds that will still be de-committed) the UK asked that we continue with a regular “netting-out”. This request is in line with the Article 153 of the Withdrawal Agreement, which stipulates that the UK share of the EDF reserves cannot be reused. The refund already started with the 2nd instalment of 2023.

Attachments 1, 2 and 3 show respectively the forecasts of commitments, forecasts of payments and the financial situation compared with previous forecasts for the period 2023-2027.

Attachments 4 and 5 show respectively the contributions for 2024 and for 2025 per instalment and per EDF party. Attachment 6 shows the yearly contributions for the period 2024-2027 per EDF party.

⁴ The figures presented in this narrative concern the European Commission only; the figures for EIB are included in the table 3.

⁵ With this refund, the total amount refunded to the “EU-15 MS” from the Ninth reserve, since 2015, will reach EUR 1.9 billion
