

New national side of euro coins intended for circulation

(2015/C 150/03)

National side of the new commemorative 2-euro coin intended for circulation and issued by Malta

Euro coins intended for circulation have legal tender status throughout the euro area. For the purpose of informing the public and all parties who handle the coins, the Commission publishes a description of the designs of all new coins ⁽¹⁾. In accordance with the Council conclusions of 10 February 2009 ⁽²⁾, euro-area Member States and countries that have concluded a monetary agreement with the European Union providing for the issuing of euro coins are allowed to issue commemorative euro coins intended for circulation, provided that certain conditions are met, particularly that only the 2-euro denomination is used. These coins have the same technical characteristics as other 2-euro coins, but their national face features a commemorative design that is highly symbolic in national or European terms.

Issuing country: Malta

Subject of commemoration: Republic of Malta 1974

Description of the design: The coin is the last in a series of five commemorating Maltese constitutional milestones. Malta was declared a republic on 13 December 1974 following constitutional changes which were agreed upon by a great majority in Malta's Parliament. The design reproduces a marble tablet affixed to the façade of the Presidential Palace in Valletta to mark Malta's change from a monarchy to a republic. At the top right, in semi-circle, the inscription 'MALTA — Republic 1974'. At the bottom, the year '2015'.

The coin's outer ring depicts the 12 stars of the European flag.

Number of coins to be issued: 400 000

Date of issue: September 2015
