

New national side of euro coins intended for circulation

(2015/C 327/08)

National side of the new commemorative 2-euro coin intended for circulation and issued by Latvia

Euro coins intended for circulation have legal tender status throughout the euro area. For the purpose of informing the public and all parties who handle the coins, the Commission publishes a description of the designs of all new coins ⁽¹⁾. In accordance with the Council conclusions of 10 February 2009 ⁽²⁾, euro-area Member States and countries that have concluded a monetary agreement with the European Union providing for the issuing of euro coins are allowed to issue commemorative euro coins intended for circulation, provided that certain conditions are met, particularly that only the 2-euro denomination is used. These coins have the same technical characteristics as other 2-euro coins, but their national face features a commemorative design that is highly symbolic in national or European terms.

Issuing country: Latvia

Subject of commemoration: Endangered nature – the Black Stork

Description of the design: The design shows a black stork (*Ciconia nigra*) which is considered to be one of the nature conservation flagship species in Europe. In 2005 the Black Stork Protection Plan was adopted in Latvia. At the bottom of the design is the name of the issuing country 'LATVIJA' and underneath the year of issuance '2015'.

The coin's outer ring depicts the 12 stars of the European flag.
