

New national side of euro coins intended for circulation

(2019/C 351/09)

*National side of the new commemorative 2-euro coin intended for circulation and issued by Finland*

Euro coins intended for circulation have legal tender status throughout the euro area. For the purpose of informing the public and all parties who handle the coins, the Commission publishes a description of the designs of all new coins ⁽¹⁾. In accordance with the Council conclusions of 10 February 2009 ⁽²⁾, euro-area Member States and countries that have concluded a monetary agreement with the European Union providing for the issuance of euro coins are authorised to issue commemorative euro coins intended for circulation, provided that certain conditions are met, one of these being that only the 2-euro denomination is used. These coins have the same technical characteristics as other 2-euro coins, but their national side features a commemorative design that is highly symbolic in national or European terms.

Issuing country: Finland

Subject of commemoration: The Constitution Act of Finland

Description of the design: The design shows three circular fields that are joined together at the centre. The coin's outer ring depicts the 12 stars of the European flag.
