

New national side of euro coins intended for circulation

(2021/C 473/05)

National side of the new commemorative 2-euro coin intended for circulation and issued by Lithuania

Euro coins intended for circulation have legal tender status throughout the euro area. For the purpose of informing the public and all parties who handle the coins, the Commission publishes a description of the designs of all new coins ⁽¹⁾. In accordance with the Council conclusions of 10 February 2009 ⁽²⁾, euro-area Member States and countries that have concluded a monetary agreement with the European Union providing for the issuing of euro coins are allowed to issue commemorative euro coins intended for circulation, provided that certain conditions are met, particularly that only the 2-euro denomination is used. These coins have the same technical characteristics as other 2-euro coins, but their national face features a commemorative design that is highly symbolic in national or European terms.

Issuing country: Lithuania

Subject of commemoration: Dzūkija (from the series 'Lithuanian Ethnographic Regions')

Description of the design: The design features a coat of arms with an armoured-clad soldier holding a halberd in his right hand and leaning with his left arm against a silver Baltic shield. The coat of arms placed on a beam is held by two lynxes. Below hangs a ribbon with a Latin inscription EX GENTE BELICOSISSIMA POPULUS LABORIOSUS (HARD-WORKING PEOPLE FROM A FIERCE TRIBE).

The composition is surrounded by inscriptions LIETUVA (LITHUANIA) and DZŪKIJA, the year of issue (2021) and the mintmark of the Lithuanian Mint. The design is realised by Rolandas Rimkūnas.

The coin's outer ring depicts the 12 stars of the European flag.
