**COUNCIL REGULATION (EEC) No 2075/92****of 30 June 1992****on the common organization of the market in raw tobacco**

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Articles 42 and 43 thereof,

Having regard to the proposal from the Commission⁽¹⁾,

Having regard to the opinion of the European Parliament⁽²⁾,

Having regard to the opinion of the Economic and Social Committee⁽³⁾,

Whereas the operation and development of the common market for agricultural products must be accompanied by the establishment of a common agricultural policy to include in particular a common organization of markets which may take various forms depending on the product;

Whereas it is the purpose of the common agricultural policy to achieve the objectives of Article 39 of the Treaty, and, in particular in the raw tobacco sector, the stabilization of markets and a fair standard of living for the agricultural population concerned; whereas these objectives may be achieved by adapting resources to requirements, in particular by means of a quality policy;

Whereas the present situation on the tobacco market, on which supply does not correspond to demand, calls for a substantial overhaul of the Community arrangements which have governed the market hitherto, while ensuring the continuation of tobacco growing by the traditional producers; whereas such an overhaul requires simplification of the market management mechanisms, limitation of production in line with the requirements of the market and the demands of the budget, and stronger means of control to ensure that the management mechanisms fully achieve the objectives of the common market organization;

Whereas tobacco varieties can be classified in groups according to cultivation technique and production costs, taking account of the descriptions used in international trade;

Whereas competition on the tobacco market calls for some support of traditional tobacco producers; whereas such support should be based on a premium system allowing the disposal of tobacco in the Community;

Whereas the premium system can be managed efficiently by means of cultivation contracts between growers and first processors which guarantee stable outlets to the growers and regular supplies to the processor; whereas payment of a sum equivalent to the premium by the processor to the producer at the time of delivery of the tobacco covered by the contract, subject to compliance with the quality requirements, provides support for the growers while facilitating management of the premium system;

Whereas, in order to limit Community tobacco production and to discourage the production of varieties which are not readily disposed of, a maximum global guarantee threshold should be laid down for the Community and divided annually into specific guarantee thresholds for the respective groups of varieties;

Whereas, to ensure that the guarantee thresholds are observed, a processing quota system must be instituted for a limited period; whereas for a transitional period the Member States must allocate, within the guarantee thresholds, processing quotas to the firms concerned, the Community rules laid down for the purpose being applied to ensure fair allocation on the basis of quantities processed in the past, but

⁽¹⁾ OJ No C 295, 14. 11. 1991, p. 10.

⁽²⁾ OJ No C 94, 13. 4. 1992.

⁽³⁾ OJ No C 98, 21. 4. 1992, p. 18.

▼B

disregarding any abnormal production levels; whereas the necessary measures will be taken to permit the quotas to be allocated to the producers subsequently, under satisfactory conditions; whereas Member States possessing the necessary data to allocate quotas to producers on the basis of past performance, should be authorized to do so;

Whereas first processors must not conclude cultivation contracts for quantities exceeding the quotas allocated; whereas reimbursement of the premium must be limited to an amount corresponding to the quota;

Whereas provision should be made initially for the premium and production limitation systems to run until 1997 so that they can be reviewed in the light of experience and possibly adapted for the subsequent period;

Whereas measures to orientate production can help to stabilize the tobacco market and improve the quality of production; whereas specific aid will enable producer groups to contribute towards the improvement of the organization and orientation of production; whereas a research programme financed with the proceeds of a deduction from the premium will enable tobacco growing to be brought more closely into line with Community requirements as regards public health; whereas, lastly, a conversion programme for growers of Mavra, Tsebelia, Forchheimer Havanna Ilc and hybrids of Geudertheimer tobacco is necessary because of the importance of these varieties for the economy of certain Community regions;

Whereas the establishment of a single market requires a single system of trade at the external frontiers;

Whereas quantitative restrictions at the Community's external frontiers can be dispensed with; whereas, however, should exceptional circumstances arise, in order not to leave the Community market without protection against any disturbance, the Community should be able to take all the necessary measures without delay;

Whereas unforeseen market circumstances may necessitate the adoption by the Commission of exceptional market support measures;

Whereas the achievement of a single market would be jeopardized by the grant of certain aids; whereas the Treaty provisions governing the appraisal of aids granted by Member States and the prohibition of aids incompatible with the common market should be applied to the tobacco sector;

Whereas, in accordance with Council Regulation (EEC) No 729/70 of 21 April 1970 on the financing of the common agricultural policy⁽¹⁾, the Community should bear financial responsibility for expenditure incurred by Member States pursuant to this Regulation;

Whereas experience shows that more stringent controls in the tobacco sector are essential, whereas in appropriate cases certain powers of control could be assigned to an independent supervisory agency to deal with the specific requirements of the tobacco market;

Whereas the common organization of the tobacco market must take account, simultaneously and appropriately, of the objectives laid down in Article 39 and 110 of the Treaty;

Whereas the transition from the arrangements instituted by Council Regulation (EEC) No 727/70 of 21 April 1970 on the common organization of the market in raw tobacco⁽²⁾, to the arrangements provided for herein must take place in the best possible conditions; whereas transitional measures may prove necessary to ensure this; whereas the new arrangements should not become fully applicable until the 1993 harvest,

⁽¹⁾ OJ No L 94, 28. 4. 1970, p. 13. Regulation as last amended by Regulation (EEC) No 2048/88 (OJ No L 185, 15. 7. 1988, p. 1).

⁽²⁾ OJ No L 94, 28. 4. 1970, p. 1. Regulation as last amended by Regulation (EEC) No 860/92 (OJ No L 91, 7. 4. 1992, p. 1).

▼B

HAS ADOPTED THIS REGULATION:

Article 1

The common organization of the market in raw tobacco shall comprise rules on:

- a premium system,
- measures to orientate and limit production,
- arrangements for trade with third countries.

The common organization shall cover raw or unmanufactured tobacco and tobacco refuse falling within CN heading 2401.

Article 2

Raw tobacco varieties shall be classified in the following groups:

- (a) flue-cured:
 - tobacco dried in ovens with controlled air circulation, temperature and humidity;
- (b) light air-cured:
 - tobacco dried in the air under cover, not left to ferment;
- (c) dark air-cured:
 - tobacco dried in the air under cover, left to ferment naturally before being marketed;
- (d) sun-cured:
 - tobacco dried in the sun;
- (e) fire-cured:
 - tobacco dried by fire;
- (f) Basma (sun-cured);
- (g) Katerini (sun-cured);
- (h) Kaba-Koulak (classic) and similar (sun-cured).

The varieties in each group are listed in the Annex.

TITLE I

Premium system*Article 3*

1. From the 1993 harvest until the 1997 harvest a premium system shall be applied. The amount of the premium shall be the same for the tobacco varieties in each of the various groups.

2. However, for flue-cured, light air-cured and dark air-cured tobaccos grown in Belgium, Germany and France, a supplementary amount shall be granted. This amount shall be equal to 50 % of the difference between the premium granted for these tobaccos in accordance with paragraph 1 and the premium applicable for the 1992 harvest. ►M4 The supplementary amount granted for tobaccos grown in Germany shall also be granted for tobaccos grown in Austria from the 1996 harvest onwards. ◄

3. The purpose of the premium shall be to supplement the incomes of producers whose products correspond to market requirements and to facilitate the disposal of tobacco produced in the Community.

Article 4

1. In accordance with the procedure laid down in Article 43 (2) of the Treaty, the Council shall fix the amount of the premium and the supplementary amounts for each tobacco harvest, taking particular account of past and foreseeable possibilities for the disposal of the various types of tobacco, under normal conditions of competition, on the Community and world markets.

▼B

2. The amount of the premium shall be fixed:
 - (a) per kilogram of leaf tobacco not having undergone first processing and market preparation;
 - (b) for each group of raw tobacco.

Article 5

Granting of the premium shall be subject in particular to the following conditions:

- (a) the tobacco must come from a production area specified for the variety concerned;
- (b) quality requirements must be fulfilled;
- (c) the leaf tobacco must be delivered by the producer to the premises of the first processor under a cultivation contract.

▼M1*Article 6*

1. Cultivation contracts shall include:
 - an undertaking by the first processor to pay the grower the purchase price and, where the competent body of the Member State does not pay the premium to the grower directly, a sum equal to the premium for the quantity under contract and actually delivered,
 - an undertaking by the grower to deliver raw tobacco meeting the quality requirements laid down in the contract to the premises of the first processor.
2. The competent body of the Member State shall pay the premium to the grower against submission of proof of delivery of the tobacco or shall reimburse the premium to the first processor where the latter has paid the producer a sum equal to the premium, against submission of proof of delivery of the tobacco by the grower and payment of the sum referred to in paragraph 1.

▼B*Article 7*

Detailed rules for the application of this Title shall be adopted in accordance with the procedure laid down in Article 23.

They shall comprise:

- delimitation of the production areas for each variety,
- quality requirements for delivered tobacco,
- additional points to be included in the cultivation contract and the final date for its conclusion,

▼M1

- the possible obligation on first processors or growers to provide a security and the conditions governing the lodging and release of the security in the event of an application for an advance,

▼B

- specific conditions for the grant of the premium in cases where the cultivation contract is concluded with a group of producers,
- measures to be taken in the event of failure of the grower or first processor to fulfil his statutory obligations.

TITLE II

System of production limitation*Article 8*

A maximum global guarantee threshold for the Community is hereby fixed at ►**A1** 350 600 ◀ tonnes of raw leaf tobacco per harvest. However, for 1993, this threshold is fixed at 370 000 tonnes.

Every year, within this limit the Council shall fix, in accordance with the procedure laid down in Article 43 (2) of the Treaty, a specific guarantee

▼B

threshold for each group of varieties, taking particular account of market conditions and socio-economic and agronomic conditions in the production areas concerned.

▼M1*Article 9*

1. To ensure observance of the guarantee thresholds, a system of production quotas shall apply for the 1995, 1996 and 1997 harvests.

2. Pursuant to the procedure laid down in Article 43 (2) of the Treaty, the Council shall allocate the quantities available in each group of varieties for each harvest among the producer Member States.

►M3 3. On the basis of the quantities fixed pursuant to paragraph 2 and without prejudice to the application of paragraphs 4 and 5, Member States shall distribute production quotas to producers in proportion to the average quantities delivered for processing during the three years preceding the year of the last harvest, broken down by group of varieties. ◀ However, production in 1992 and deliveries from that harvest shall not be taken into account; they shall be replaced by those of the fourth year preceding the year of the last harvest. The procedure for allocating production quotas for subsequent harvests shall not be affected by this distribution.

4. When quotas are divided up as provided for in paragraph 3, no account shall be taken, in particular, when calculating the reference production, of quantities of raw tobacco produced in excess of the maximum guaranteed quantities applicable pursuant to Regulation (EEC) No 727/70.

Where appropriate, only production within the quotas allocated during the years taken into consideration shall be taken into account.

▼M3

5. Before the deadline laid down for the conclusion of cultivation contracts, Member States may be authorized to transfer guarantee threshold quantities remaining available after the distribution of quotas in accordance with paragraph 3 to another group of varieties.

Subject to the application of the third subparagraph, a reduction of one tonne in the threshold quantity for one group of varieties shall give rise to a maximum increase of one tonne in the other group of varieties.

Transfers of guarantee threshold quantities from one group of varieties to another may not give rise to additional expenditure for the EAGGF.

Detailed rules for the application of this Title shall be adopted in accordance with the procedure laid down in Article 23. They shall include the definition of the quantities referred to in the first subparagraph.

▼M1*Article 10*

1. No premium may be granted in respect of quantities produced in excess of the quota allocated to the grower.

2. Notwithstanding paragraph 1, growers may deliver surplus production corresponding to up to 10 % of their quotas for each group of varieties, that surplus being eligible for the premium granted in respect of the following harvest on condition that, during the latter harvest, the party concerned reduces his production by a corresponding amount so that the combined quotas for the two harvests in question are not exceeded.

Article 11

Detailed rules for the application of this Title shall be adopted in accordance with the procedure laid down in Article 23. They shall include in particular the adjustments to the method for dividing up the quotas provided for Article 9 (4).

▼B

TITLE III

Measures to convert production*Article 12*

1. In order to concentrate supply and adapt it to the qualitative requirements of the market, specific aid equivalent to 10 % of the premium shall be granted where cultivation contracts are concluded between a first processor and a recognized group of producers and where the deliveries covered by such contracts account for the entire output of the members of the group.
2. Specific aid shall be paid to the producers' group for the purpose of improving the organization and orientation of production.
3. Detailed rules for the application of this Article shall be adopted by the Commission in accordance with the procedure laid down in Article 23. They shall include:
 - the definition of producers' groups eligible for specific aid,
 - the conditions for recognizing producers' groups,
 - the use to which specific aid may be put.

Article 13

1. A Community fund for tobacco research and information shall be set up. It shall be financed from the proceeds of a deduction not exceeding 1 % from the premium at the time of payment.
2. The fund shall finance and coordinate programmes of research and information to promote greater knowledge of the harmful effects of tobacco and the appropriate preventive and curative measures relevant to such effects and to orientate Community tobacco production towards the least harmful varieties and qualities.
3. Detailed rules for the application of this Article shall be adopted in accordance with the procedure laid down in Article 23.

Article 14

A three-year programme for the conversion of plantations of Mavra, Tsebelia, Forchheimer Havanna Ilc and hybrids of Geudertheimer tobacco to varieties more in line with market requirements or to other agricultural crops shall be adopted by the Commission in accordance with the procedure laid down in Article 23. The programme shall be launched beginning with the 1993 harvest. It may comprise specific measures to compensate growers for any loss of income due to the conversion.

▼M2

TITLE IV

Trade with third countries*Article 15*

Unless this Regulation provides otherwise, the rates of duty in the Common Customs Tariff shall apply to the products listed in Article 1.

Article 16

1. The general rules for the interpretation of the combined nomenclature and the special rules for its application shall apply to the classification of products covered by this Regulation.
2. Save as otherwise provided for in this Regulation or in provisions adopted pursuant thereto, the following shall be prohibited in trade with third countries:
 - (a) the levying of any charge having equivalent effect to a customs duty;

▼ **M2**

- (b) the application of any quantitative restriction or measure having equivalent effect.

Article 16a

1. If, by reason of imports or exports, the Community market in one or more of the products listed in Article 1 is affected by, or is threatened with, serious disturbance likely to jeopardize the achievement of the objective set out in Article 39 of the Treaty, appropriate measures may be applied in trade with third countries until such disturbance or threat of disturbance has ceased.

The Council, acting on a proposal from the Commission in accordance with the voting procedure laid down in Article 43 (2) of the Treaty, shall adopt the general rules for the application of this paragraph and shall define in what cases and within what limits Member States may take protective measures.

2. If the situation referred to in paragraph 1 arises, the Commission shall, at the request of a Member State or on its own initiative, decide upon the necessary measures; the Member States shall be notified of such measures, which shall be immediately applicable. If the Commission receives a request from a Member State, it shall take a decision thereon within three working days following receipt of the request.

3. Measures decided upon by the Commission may be referred to the Council by any Member State within three working days of the day on which they were notified. The Council shall meet without delay. It may, acting by a qualified majority, amend or annul the measure in question.

4. This Article shall be applied having regard to the obligations arising from agreements concluded in accordance with Article 228 (2) of the Treaty.

▼ **B**

TITLE V

General and transitional provisions*Article 17*

In order to deal with unforeseen market circumstances, exceptional support measures may be taken in accordance with the procedure laid down in Article 23. The scope and duration of such measures may not exceed that which is strictly necessary to support the market.

Article 18

Except where this Regulation provides otherwise, Articles 92, 93 and 94 of the Treaty shall apply to production of and trade in the products referred to in Article 1.

Article 19

Expenditure incurred pursuant to Title I and III shall be regarded as expenditure within the meaning of Article 1 (2) of Regulation (EEC) No 729/70.

Article 20

1. Member States shall take all the necessary measures to ensure compliance with the Community provisions concerning raw tobacco. To this end they shall notify to the Commission, within six months after the adoption of this Regulation, the arrangements they intend to make for the purposes of management and control. Within three months after such notification the Commission shall approve the arrangements or ask for adjustments. Where adjustments are required the Member State shall make them at the earliest opportunity. Any modification of national arrangements shall be notified without delay by the Member States to the Commission and examined by it in accordance with the same procedure.

▼B

2. Each producer Member State shall set up, in accordance with its legal order, a specific agency to carry out certain checks in connection with the Community arrangements for tobacco. However, Member States who have a threshold quantity of less than 45 000 tonnes pursuant to Article (9) 2, may choose not to set up such an agency.

3. The agency shall be given complete administrative autonomy. It shall be given full powers by the Member States concerned to carry out the tasks assigned to it.

Its staff shall be sufficient in number and level of training to accomplish the tasks specified above.

4. Before the beginning of each marketing year, the Member State concerned shall, acting on a proposal from the agency, draw up and send to the Commission a budget estimate and work schedule to ensure correct application of the premium system. The Commission may ask the Member State, without prejudice to the responsibilities of the latter, to make any change in the budget estimate or work schedule that it deems appropriate.

Persons designated by the Commission may at any time monitor any of the work carried out by the agency.

The agency shall submit to the Member State and the Commission regular reports on the work which it has carried out. Such reports must mention any problems encountered and, where appropriate, suggestions as to how to improve the checking arrangements.

5. 50 % of actual expenditure by the agency shall be chargeable to the general budget of the European Communities, the remainder being covered by the Member State concerned.

6. The annual amount representing the actual expenditure referred to in paragraph 5 shall be decided upon by the Commission on the basis of the particulars provided by the Member States concerned. The amount shall be granted when the Commission is satisfied that the agency has been set up and is performing the work assigned to it. In order to facilitate the setting-up and operation of the agency, the amount in question may be paid in advance in the form of instalments during the year in question, in accordance with the agency's annual budget, the latter being drawn up with the agreement of the Member State and the Commission before the end of October of each following year.

7. Member States shall take the necessary measures to ensure that the inspection officers designated pursuant to paragraphs 2 to 4:

- have access to the premises of production, processing and marketing,
- can examine accounting data and other documents relevant to the checking procedure, and make copies or take extracts from them,
- can ask for any relevant information.

8. Detailed rules for the application of this Article shall be adopted by the Commission in accordance with the procedure laid down in Article 23.

Article 21

Member States and the Commission shall send each other any information necessary for the application of this Regulation. Detailed rules for the sending and dissemination of such information shall be adopted in accordance with the procedure laid down in Article 23.

Article 22

A Management Committee for Tobacco (hereinafter called 'the Committee') shall be established, consisting of representatives of Member States and presided over by a representative of the Commission.

▼B*Article 23*

1. The representative of the Commission shall submit to the Committee a draft of the measures to be taken. The Committee shall deliver its opinion on the draft within a time limit which the chairman may lay down according to the urgency of the matter. The opinion shall be delivered by the majority laid down in Article 148 (2) of the Treaty in the case of decisions which the Council is required to adopt on a proposal from the Commission. The votes of the representatives of the Member States within the Committee shall be weighted in the manner set out in that Article. The chairman shall not vote.

2. The Commission shall adopt measures which shall apply immediately. However, if these measures are not in accordance with the opinion of the Committee, they shall be communicated by the Commission to the Council. In that event the Commission may defer application of the measures which it has decided for a period of not more than one month from the date of such communication.

3. The Council, acting by a qualified majority, may take a different decision within the time limit referred to in the previous paragraph.

Article 24

The Committee may consider any other matter raised by its chairman, either on his initiative or at the request of the representative of a Member State.

Article 25

This Regulation must be applied in such a way that account is taken, simultaneously and appropriately, of the objectives laid down in Articles 39 and 110 of the Treaty.

Article 26

Before 1 April 1996 the Commission shall submit a proposal to the Council concerning the arrangements provided for in Titles I and II for application from the 1998 harvest onwards. The Council shall act on this proposal in accordance with the procedure laid down in Article 43 (2) of the Treaty.

Article 27

Where transitional measures prove necessary to facilitate the transition from the arrangements set up by Regulation (EEC) No 727/70 to those laid down in this Regulation, such measures shall be adopted in accordance with the procedure laid down in Article 23.

Article 28

Regulation (EEC) No 727/70 is repealed with effect from the 1993 harvest.

Article 29

This Regulation shall apply from the 1993 harvest.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

ANNEX

CLASSIFICATION OF TOBACCO VARIETIES

- I. FLUE-CURED
 - Virginia
 - Virginia D and hybrids thereof
 - Bright
- II. LIGHT AIR-CURED
 - Burley
 - Badischer Burley and hybrids thereof
 - Maryland
- III. DARK AIR-CURED
 - Badischer Geudertheimer, Pereg, Korso
 - Paraguay and hybrids thereof
 - Dragon Vert and hybrids thereof
 - Philippin
 - Petit Grammont (Flobecq)
 - Semois
 - Appelterre
 - Nijkerk
 - Misionero and hybrids thereof
 - Rio Grande and hybrids thereof
 - Forchheimer Havanna Ilc
 - Nostrano del Brenta
 - Resistente 142
 - Goyano
 - Hybrids of Geudertheimer
 - Beneventano
 - Brasile Selvaggio and similar varieties
 - Fermented Burley
 - Havanna
- IV. FIRE-CURED
 - Kentucky and hybrids
 - Moro di Cori
 - Salento
- V. SUN-CURED
 - Xanthi-Yaka
 - Perustitza
 - Samsun
 - Erzegovina and similar varieties
 - Myrodata Smyrnis, Trapezous and Phi I
 - Kaba Koulak (non-classic)
 - Tsebelia
 - Mavra
