**▼B***Article 10***Allocation coefficient and suspension of the submission of licence applications**

1. Except for import tariff quotas managed with documents issued by third countries and export tariff quotas managed by third countries, the Commission shall calculate an allocation coefficient for each tariff quota. Member States shall apply the coefficient to the quantities covered by each licence application notified to the Commission. The allocation coefficient shall be calculated on the basis of the information notified by the Member States and using the method set out in paragraph 3.

2. The Commission shall make public the allocation coefficient for each tariff quota by appropriate web-publication no later than on the 22nd day of the month in which the Member States notified the quantities applied for to the Commission. Where the application was lodged between 23 and 30 November, the allocation coefficient shall be made public no later than on 14 December.

3. Unless provided otherwise in Title III, the allocation coefficient for licences shall not exceed 100 %, and shall be calculated as follows:  $[(\text{available quantity} / \text{requested quantity}) \times 100] \%$ . The allocation coefficient shall be rounded to six digits. The Commission shall adjust the allocation coefficient in order to ensure that the quantities available for the import or export tariff quota period or sub-period are not exceeded.

4. If the quota quantity for a sub-period or under the system of monthly application is exhausted, the Commission shall suspend the submission of further applications until the end of the tariff quota period or sub-period. The suspension shall be lifted when quantities become available within the same tariff quota period following notification of unused quantities. The Commission shall notify to licence issuing authorities of Member States the suspension, the lifting of it and the available quantity within a tariff quota by appropriate web-publication.

5. Import and export licences shall be issued for the quantities calculated multiplying the quantities in import or export licence applications by the allocation coefficient. The quantity resulting from the application of the allocation coefficient shall be rounded down to the nearest unit.

**▼B**

6. Quantities not allocated or not used during a sub-period shall be determined on the basis of the information notified by Member States to the Commission. Such quantities shall be added to the quantities available for redistribution within the same import or export tariff quota period.

7. Before calculating the allocation coefficient for tariff quotas for which prior compulsory registration of operators pursuant to Article 11 of Delegated Regulation (EU) 2020/760 is required, the Commission may request the competent licence issuing authority to verify the LORI record of the applicants. Such request shall be made by the 15th day, 13.00 Brussels time, of the month in which the Member States notified the quantities applied for. However, for quantities notified by 6 December, such request shall be made by 8 December, 13.00 Brussels time. Licence issuing authorities shall provide the Commission with an email address to which the requests should be addressed.

8. Licence issuing authorities shall reply to Commission requests referred to in paragraph 7 before the 21st day, 13.00 Brussels time, of the month following the request.

9. For requests submitted by 8 December, the licence issuing authority shall reply before 7 January, 13.00 Brussels time.

10. Where the licence issuing authority does not reply to the Commission within the time limits set out in paragraphs 8 and 9, the licence issuing authority shall not accept any further licence application submitted by the operator concerned.

4. Licences that are valid from 1 January shall be issued in the period between 15 and 31 December of the preceding year.

An IMA 1 certificate shall cover butter manufactured according to one product-purchasing specification in one plant.

The IMA 1 certificate shall be considered to be duly completed and authenticated by an issuing body listed in Part A6, only if it contains all the following information:

- (a) in box 1, the name and address of the seller;
- (b) in box 2, the serial number of issue identifying the country of origin, the import arrangements, the product, the quota year and the individual certificate number, starting again from one each year;
- (c) in box 4, the number and date of the invoice;
- (d) in box 8, the gross weight in kilograms;

- (h) in box 17, signature and stamp of the issuing body;
- (i) in box 18, exact address and contact details of the issuing body.

**A5 – DEFINITIONS AND CIRCUMSTANCES UNDER WHICH AN IMA 1 CERTIFICATE OR PART THEREOF MAY BE CANCELLED, AMENDED, REPLACED OR CORRECTED – FOR ALL IMA-1 CERTIFICATES****Definition**

For the purposes of this Part A, 'lot' means a quantity of dairy products covered by an IMA 1 certificate presented to the competent customs authority for entry for free circulation.

**Cancellation of the IMA 1 certificate when full duty is due and paid for non-compliance with compositional requirements**

Where full duty is paid on a lot because the maximum fat content requirement is not complied with, the corresponding IMA 1 certificate may be cancelled and the IMA 1 issuing body may add the quantities concerned to those for which IMA 1 certificates may be issued for the same quota year.

**▼ M17****Product destroyed or rendered unfit for sale**

IMA 1 issuing bodies may cancel an IMA 1 certificate or part thereof for a quantity covered by it which is destroyed or rendered unfit for sale in circumstances beyond the control of the exporter. Where part of the quantity covered by an IMA 1 certificate is destroyed or rendered unfit for sale, a replacement certificate may be issued for the remaining quantity. The replacement certificate shall be valid only up to the same date as the original. In this case, box 17 of the replacement IMA 1 certificate shall contain the words ‘valid up to 00.00.0000’.

Where all or part of the quantity covered by an IMA 1 certificate is destroyed or rendered unfit for sale due to circumstances beyond the exporters’ control, the IMA 1 issuing body may add these quantities to those for which IMA 1 certificates may be issued for the same quota year.

**Change of Member State of destination**

When the exporter is obliged to change the Member State of destination indicated on an IMA 1 certificate before a corresponding import licence is issued, the original IMA 1 certificate may be amended by the IMA 1 issuing body. Such an amended original IMA 1 certificate, duly authenticated and appropriately identified by the issuing body, may be presented to the licensing authority and to the customs authorities.

**Clerical or technical error**

When a clerical or technical error is discovered on an IMA 1 certificate before a corresponding import licence is issued, the original certificate may be corrected by the issuing body. Such a corrected original IMA 1 certificate may be presented to the licensing authority and to the customs authorities.

**Exceptional circumstances when a product intended for import in a given year becomes unavailable**

When, in exceptional circumstances beyond the control of the exporter, a product intended for import in a given year becomes unavailable and the only means of filling the quota, in the light of normal shipping time from the country of origin, is to replace it with a product originally intended for import the following year, the issuing body may issue a new IMA 1 certificate for the replacement quantity, between the sixth and the tenth calendar day after giving due notification to the Commission of the details of the IMA 1 certificate or part thereof to be cancelled for the year concerned and of the first IMA 1 certificate or part thereof issued for the following year to be cancelled.

If the Commission considers that this provision does not apply to the circumstances of the case concerned, it may object within seven calendar days, stating the reason for its objection. Where the quantity to be replaced is greater than that covered by the first IMA 1 certificate issued for the following year, the required quantity may be obtained by cancelling additional IMA 1 certificates, in sequence, or part thereof as necessary.

All quantities in respect of which IMA 1 certificates or part thereof have been cancelled for the year concerned shall be added to the quantities for which IMA 1 certificates may be issued for that quota year.

**▼M17**

All quantities brought forward from the following quota year for which an IMA 1 certificate or certificates have been cancelled shall be added back to the quantities for which IMA 1 certificates may be issued for that quota year.

**A6 – RULES FOR COMPLETING IMA 1 CERTIFICATES**

In addition to boxes 1, 2, 4, 5, 9, 17 and 18 of the IMA 1 certificate, the following boxes shall be completed:
