THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EEC) No 2771/75 of 29 October 1975 on the common organization of the market in eggs<sup>(1)</sup>, as last amended by the Act of Accession of Austria, Finland and Sweden and by Regulation (EC) No 3290/94<sup>(2)</sup>, and in particular Articles 3 (2), 6 (1) and 15 thereof,

Whereas the Community has negotiated, in the framework of the Multilateral Trade negotiations of the Uruguay Round, various agreements and in particular the agreement on agriculture; whereas this agreement provides, amongst others, for the access to the Community markets of certain products in the egg sector and of egg albumin coming from third countries for a period of six years; whereas therefore detailed rules for the application of the import system in the egg and for egg albumin should be laid down for the period 1 July 1995 to 30 June 1996;

Whereas the administration of the arrangements should be based on import licences; whereas, to that end, the detailed rules for submission of the applications and the information which must appear on the applications and licences, by way of derogation from Article 8 of Commission Regulation (EEC) No 3719/88 of 16 November 1988 laying down common detailed rules for the application of the system of import and export licences and advance fixing certificates for agricultural products<sup>(4)</sup>, as last amended by Regulation (EC) No 1199/95<sup>(5)</sup>, should be laid down; whereas, in addition, provision should be made for the licences to be issued after a period of consideration, applying, where necessary, a single percentage of acceptance; whereas it is in the interest of importers and exporters to allow the licence application to be withdrawn after the coefficient of acceptance has been fixed;

Whereas, in order to ensure the regularity of imports, the quantity referred to in Annex I should be staggered over one year;

Whereas, in order to ensure proper administration of the system, the security for import licences under the said system the security should be fixed at ECU 20 per 100 kg (shell egg equivalent);

Whereas in order to ensure that the system is working properly and in particular to eliminate the risk of speculation inherent in the system in the egg and albumin sector, precise conditions governing access by traders to the said system should be laid down aiming at ensuring the seriousness of their activities in this sector;

Whereas the attention of the operators should be drawn to the fact that licences may only be used for products which comply with all veterinary provisions in force in the Community;

Whereas the Management Committee for Poultrymeat and Eggs has not delivered an opinion within the time limit set by its chairman,

*Article 5***▼M13**

1. Licence applications shall be lodged during the first seven days of the month preceding each period as specified in Article 2.

**▼B**

2. ►**M9** Licence applications must be submitted to the competent authority of the Member State in which the applicant is established or has set up his registered office. Applications shall be admissible only where the applicant declares in writing that he has not submitted and undertakes not to submit any other applications, in respect of the same period, concerning products in the same group. ◀

**▼M9**

Where the same applicant submits more than one application relating to products in the same group, all applications from that person shall be inadmissible.

**▼B**

However, each applicant may lodge more than one application for import licences for products in one group, where such products originate in more than one country. Separate applications for each country of origin must be submitted simultaneously to the competent authority of a Member State. They shall be considered, as regards the maximum referred to in Article 4 (b) as well as application of the rules in the previous subparagraph, as single applications.

3. A security of ECU 20 per 100 kilograms shell egg equivalent shall be lodged for import licence applications for all products referred to in Article 1.

**▼B**

4. Member States shall notify the Commission, on the fifth working day following the end of the application submission period, of applications lodged for each of the products in the group in question. Such notification shall include a list of applicants and a statement of the quantities applied for in the group.

All notifications, including 'nil' notifications, shall be made by telex or fax on the working day stipulated, drawn up on the model shown in Annex II in cases where no application is made, and the models shown in Annexes II and III in cases where applications have been made.

5. The Commission shall decide as quickly as possible to what extent quantities may be awarded in respect of applications as referred to in Article 4.

If quantities in respect of which licences have been applied for exceed the quantities available, the Commission shall fix a single percentage of acceptance for the quantities applied for. Where this percentage is less than 5 %, it is possible that the Commission will not award the quantities applied for; the securities shall be released immediately.

Operators may withdraw their licence applications within 10 working days following publication of the single percentage of acceptance in the *Official Journal of the European Communities* if application of the percentage results in the fixing of a quantity less than 20 tonnes shell egg equivalent. The Member States shall inform the Commission thereof within five days following the withdrawal of the licence application and shall release the security immediately.

The Commission shall calculate the quantity remaining, which shall be added to the quantity available in respect of the following period of the quota period referred to in Article 1.

6. Licences shall be issued as quickly as possible after the Commission has taken its decision.

7. Licences may only be used for products which comply with all veterinary provisions in force in the Community.

**▼M13**

8. Member States shall notify the Commission, before the end of the fourth month following each annual period specified in Annex I, of the total volume of products imported for each of the groups under this Regulation during that period.

All notifications, including 'nil' ones, shall be made using the model in Annex IV to this Regulation.

**▼M8***Article 6*

For the purposes of applying Article 21 (2) of Regulation (EEC) No 3719/88, import licences shall be valid for 150 days from the date of actual issue, but not beyond the end of the period specified in Article 1.

Import licences issued pursuant to this Regulation shall not be transferable.

**▼B***Article 7*

Without prejudice to the provisions of this Regulation, Regulation (EEC) No 3719/88 shall apply.

However, Article 8 (4) of that Regulation notwithstanding, the quantity imported under this Regulation may not exceed that shown in sections 17 and 18 of the import licence. The figure 0 shall accordingly be entered in section 19 of the licence.

*Article 8*

This Regulation shall enter into force on 1 July 1995.

**▼B**

This Regulation shall be binding in its entirety and directly applicable in all Member States.
