Rolling out common European data spaces in crucial sectors, including the financial sector, would serve that purpose. The financial world is expected to undergo a digital transformation in the coming years, and the Union should support this, in particular by promoting <u>a</u> data-driven finance. Furthermore, putting sustainable</p>

	Commission Proposal	EP Mandate	Council Mandate
	<p>finance at the heart of the financial system is a key means to achieving a green transition of the Union economy. For the green transition to succeed through sustainable finance, it is essential that information related to the sustainability of businesses is easily accessible to investors so that they are better informed when making decisions about investments. For those purposes, public access to financial and non-financial information on natural or legal persons required to make information public, or submitting financial and sustainability-related information about their economic activities to a collection body on a voluntary basis ('entities') needs to be improved. An efficient means to do so at Union level is to establish a centralised platform, ESAP, giving electronic access to all relevant information.</p> <p>1. [OP: Please insert corresponding footnote: full title and OJ reference].</p>	<p><u>easier access to public information is also crucial in order to increase opportunities for the growth of small and medium-sized businesses and for visibility and innovation, including easier access to information provided on a voluntary basis.</u> Furthermore, putting sustainable finance at the heart of the financial system is a key means to achieving a green transition of the Union economy. For the green transition to succeed through sustainable finance, it is essential that information related to the sustainability <u>and social governance</u> of businesses is easily accessible to investors so that they are better informed when making decisions about investments. For those purposes, public access to financial <u>, non-financial and ESG-related</u> and non-financial information on natural or legal persons <u>('entities')</u> required to make information public, or submitting financial and sustainability-related <u>publicly disclosing such</u> information about their economic activities to a collection body on a voluntary basis <u>('entities')</u> needs to be improved. An efficient means to do so at Union level is to establish a centralised platform, ESAP, giving electronic access to all relevant information.</p> <p>1. [OP: Please insert corresponding footnote: full title and OJ reference].</p>	<p>finance at the heart of the financial system is a key means to achieving a green transition of the Union economy. 	Commission Proposal	EP Mandate	Council Mandate
14a			<i><u>(5a) Where a European Supervisory Authority or a competent authority is required under Union law to draw-up and publish on its website information on the relevant entities and their financial products in relation to financial services, capital markets and sustainability, that authority should act as a collection body as defined in Article 2, point (2) of Regulation (EU) XXXX/XXX [ESAP Regulation]. That authority should publish information in a data extractable format, include the metadata as regards the names and, where available, the legal entity identifier of the entity, the reference to the Union acts in relation to which the information is submitted and whether the information contains personal data.</u></i>
15	(6) To ensure that ESAP provides timely access to information that is relevant for financial services, capital markets and sustainability as set out in Regulation (EU) XXXX/XXX [ESAP Regulation], entities should submit their information to a collection body at the same time as they make that information public.	(6) To ensure that ESAP provides timely access to information that is relevant for financial services, capital markets and sustainability as set out in Regulation (EU) XXXX/XXX [ESAP Regulation], entities should submit their information to a collection body at the same time as they make that information public. <i><u>In turn, collection bodies should make the information available to ESAP in automated ways and without undue delay, drawing to the extent possible upon the existing collection procedures and infrastructures in place, at Union and national level, for the transmission of information from collection bodies to ESMA.</u></i>	(6) To ensure that ESAP provides timely access to information that is relevant for financial services, capital markets and sustainability as set out in Regulation (EU) XXXX/XXX [ESAP Regulation], entities should submit their information to a collection body at the same time as they make that information public <i><u>in application of the sectorial regulations listed in the Annex of Regulation (EU) XXX/XXX [ESAP Regulation]. With a view to ensure an efficient collection process and to limit the administrative burden for entities, the collection of information to be made available in ESAP should, to the extent possible, allow the entites to submit information only once to</u></i>

	Commission Proposal	EP Mandate	Council Mandate
			<p><u>either one of the relevant collection bodies to the extent that it does not contradict the requirements existing under the corresponding sectoral acts for the submission of this information. Where subsequent submissions are necessary, the re-submission of the modified information and accompanying metadata should be submitted to the same collection body and the modified information shall clearly specify the changes or supplementary information made in comparison to the first version submitted.-</u></p>
16	<p>(7) In order for the information to be digitally usable, the entities should submit to the collection bodies the information in a data extractable format or, where required under Union law, in a machine-readable format. The entities should also accompany the information they submit to the collection bodies with the metadata requested by those collection bodies. The Commission should be empowered to adopt implementing technical standards developed by the relevant European Supervisory Authority specifying the metadata for each piece of information, the data structuring of the information, and the information for which the machine-readable format is required and which machine-readable format is to be used in that case.</p>	<p>(7) In order for the information to be digitally usable, the entities should submit to the collection bodies the information in <u>at least</u> a data extractable format or, where required under Union law, in a machine-readable format. The entities should also accompany the information they submit to the collection bodies with the metadata requested by those collection bodies. The Commission should be empowered to adopt implementing technical standards developed by the relevant European Supervisory Authority specifying the metadata for each piece of information, the data structuring of the information, and the information for which the machine-readable format is required and which machine-readable format is to be used in that case. <u>As regards implementing technical standards concerning sustainability information, the Joint Committee of the European Supervisory Authorities should consult the European Financial Reporting Advisory Group</u></p>	<p>(7) In order for the information to be digitally usable, the entities should submit to the collection bodies the information <u>at least</u> in a data extractable format or, where required under Union law, in a machine-readable format. The Entities should also accompany the information they submit to the collection bodies with the <u>relevant</u> metadata requested <u>for the purpose of ensuring an efficient collection and administration of the information</u> by those collection bodies <u>and ESAP. Collection bodies shall perform automated validations on the information submitted in application of article 5(1) point (b) of Regulation (EU) XXXX/XXX [ESAP Regulation] and reject the information where the automated validations reveal that the information does not comply with the requirements laid down in the ESAP Regulation.</u></p> <p><u>These automated validations should not concern the content of the information.</u></p>

	Commission Proposal	EP Mandate	Council Mandate
		<p><u><i>(EFRAG) on the development of those draft standards. All such standards should seek to make ESAP future-proof and allow for the possibility of potential global interoperability in the future, and therefore should draw upon global standards and best practices, where relevant.</i></u></p>	<p><u><i>Collection body shall also reject the information in case the automated validation performed at ESAP level reveal that the information does not comply with such requirements. In case the submitted information is rejected by the collection body, the entity shall correct and resubmit the information, where relevant. In addition to automated validations, collection bodies should have the power to reject information if it is identified, for example after receiving information from any stakeholder, that it falls outside the scope of ESAP, or that it includes manifestly inappropriate or abusive content in the sense that it is clear for any reasonable person. Collection bodies are not required to manually or automatically check whether information falls outside of the scope of ESAP or is manifestly inappropriate or abusive.</i></u></p> <p><i>–</i>The Commission should be empowered to adopt implementing technical standards developed by the relevant European Supervisory Authority specifying the metadata for each piece of information, the data structuring of the information, and the <u>and</u> information for which the <u>a</u> machine-readable format is required and which machine-readable format is to be used in that case. <u>The introduction of a machine-readable format should be justified by a cost-benefit analysis taking into account costs and benefits for preparers and users of the information but also for any other involved parties, in particular collection bodies, national competent authorities and ESAs. Metadata and structuring of data already defined in relation to the sectorial regulations listed in the Annex</u></p>

	Commission Proposal	EP Mandate	Council Mandate
			<u><i>of Regulation (EU) XXX/XXX [ESAP Regulation], should, to the extent possible, be taken into consideration for the purpose of ESAP.</i></u>
16a		<u><i>(7a) Collection bodies should not be responsible for verifying the accuracy of the content of the information, unless mandated to do so in accordance with the applicable Union legislative acts listed in the Annex to ESAP Regulation. Entities subject to mandatory reporting should be responsible for ensuring the accuracy of the information submitted pursuant to their legal obligations under the applicable Union legislative acts listed in the Annex to ESAP Regulation or under national law.</i></u>	
17	(8) Entities should be held responsible for the information they submit to the collection bodies. Ensuring data integrity and credibility of the source would enable to protect the entities from undue alteration of their information, and build public trust in ESAP. To that purpose, documents submitted by entities to the collection bodies should be accompanied by a qualified electronic seal included by the reporting entity on the information submitted to the collection bodies where such seal is required, in accordance with the specifications set out in Regulation (EU) XXXX/XXX [ESAP Regulation].	(8) Entities should be held responsible for the information <u><i>and accompanying metadata</i></u> they submit to the collection bodies. Ensuring data integrity and credibility of the source would <i>enable to</i> protect the entities from undue alteration of their information, and build public trust in ESAP. To that purpose, documents submitted by entities to the collection bodies should <u><i>be allowed to</i></u> be accompanied by a qualified electronic seal included by the reporting entity on the information submitted to the collection bodies where such seal is required, in accordance with the specifications set out in Regulation (EU) XXXX/XXX [ESAP Regulation].	(8) Entities should be held responsible for the information <u><i>and the metadata</i></u> they submit to the collection bodies. <i>Ensuring data integrity and credibility</i> <u><i>Pursuant to the principle of data minimisation, entities should ensure that no personal data are included, except where those data constitute a necessary element</i></u> of the <i>source would enable to protect the entities from undue alteration of their</i> <u><i>information about their economic activities, including where the name of the entity coincides with the name of the owner. Where such</i></u> information <u><i>contains personal data, the entities should ensure they can rely for such disclosure on one of the lawful grounds of processing laid down in</i></u>

	Commission Proposal	EP Mandate	Council Mandate
			<p><u>Article 6 of Regulation (EU) 2016/679 of the European Parliament and of the Council¹. Entities, and build public trust in ESAP. To that purpose, documents submitted by entities to the collection bodies should be accompanied by a qualified electronic seal included by the reporting entity on the responsible to identify the presence of personal data in the information they submit through a specific metadata. If an information is identified by a metadata as containing personal information, this information submitted to will not be retained by the collection bodies where such seal is required, in accordance with the specifications set out in body and made available to ESAP longer than necessary and in any event for no longer than 5 years unless stated otherwise in the sectorial regulations listed in the Annex of Regulation (EU) XXXX/XXX XXX/XXX [ESAP Regulation].</u></p> <p><u>1. Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation) (OJ L 119, 4.5.2016, p.1)</u></p>
17a			<p><u>(8a) Ensuring data integrity and credibility of the source would enable to protect entities from undue alteration of their information, and build public trust in ESAP. To that purpose, ESMA and collection bodies should put in place effective and proportionate IT security policies for ESAP and ensure appropriate levels of authenticity, availability, integrity and</u></p>
