Provided further that, for resolution entities that are subject to regulation 45C(5), where the application of this sub-regulation leads to a requirement greater than 27 per cent of the total risk exposure amount, for the resolution entity concerned, the Resolution Committee shall limit the part of the requirement referred to in regulation 45E which is to be met using own funds, subordinated eligible instruments, or liabilities as referred to in sub-regulation (3), to an amount equal to 27 per cent of the total risk exposure amount, if the Resolution Committee has assessed that:

(a) access to the resolution financing arrangement is not considered to be an option for resolving that resolution entity in the resolution plan; and

(b) where paragraph (a) does not apply, the requirement referred to in regulation 45E allows that resolution entity to meet the requirements referred to in regulation 44(5) or 44(8) as applicable:

Provided further that, in carrying out the assessment referred to in the first proviso, the Resolution Committee shall also take into account the risk of disproportionate impact on the business model of the resolution entity concerned. For resolution entities that are subject to regulation 45C(6), the first proviso does not apply.

(5) Where the resolution entities are neither G-SIIs nor resolution entities that are subject to regulation 45C(5) or (6), the Resolution Committee may decide that a part of the requirement referred to in regulation 45E up to the greater of eight per cent of the total liabilities, including own funds, of the entity and the formula referred to in sub-regulation (7), shall be met using own funds, subordinated eligible instruments, or liabilities as referred to in sub-regulation (3), provided that the following conditions are met:

(a) non-subordinated liabilities referred to in sub-regulations (1) and (2) have the same priority ranking in the insolvency hierarchy under article 29A of the Banking Act as certain liabilities that are excluded from the application of write down and conversion powers in accordance with regulation 44(2) or (3);
(b) there is a risk that, as a result of a planned application of write-down and conversion powers to non-subordinated liabilities that are not excluded from the application of write down and conversion powers in accordance with regulation 44(2) or (3), creditors whose claims arise from those liabilities incur greater losses than they would incur in a winding-up under normal insolvency proceedings; and

(c) the amount of own funds and other subordinated liabilities does not exceed the amount necessary to ensure that the creditors referred to paragraph (b) do not incur losses above the level of losses that they would otherwise have incurred in the winding-up under normal insolvency proceedings:

Provided that, where the Resolution Committee determines that, within a class of liabilities which includes eligible liabilities, the amount of the liabilities that are excluded or reasonably likely to be excluded from the application of write down and conversion powers in accordance with regulation 44(2) or (3) totals more than ten per cent of that class, the Resolution Committee shall assess the risk referred to in paragraph (b).

(6) For the purposes of sub-regulations (4), (5) and (7), derivative liabilities shall be included in total liabilities on the basis that full recognition is given to counterparty netting rights:

Provided that, the own funds of a resolution entity that are used to comply with the combined buffer requirement shall be eligible to comply with the requirements referred to in sub-regulations (4), (5) and (7).
(7) By derogation from sub-regulation (4), the Resolution Committee may decide that the requirement referred to in regulation 45E shall be met by resolution entities that are G-SIIs or resolution entities that are subject to regulation 45C(5) or (6) using own funds, subordinated eligible instruments, or liabilities as referred to in sub-regulation (3), to the extent that, due to the obligation of the resolution entity to comply with the combined buffer requirement and the requirements referred to in Article 92a of the CRR, regulations 45C(5) and 45E, the sum of those own funds, instruments and liabilities does not exceed the greater of:

(a) 8 per cent of the total liabilities, including own funds, of the entity; or

(b) the amount resulting from the application of the formula $A x^2 + B x^2 + C$:

Where: $A = $ the amount resulting from the requirement referred to in point (c) of Article 92(1) of the CRR;

Where: $B = $ the amount resulting from the requirement referred to in Article 104a of the CRD;

Where: $C = $ the amount resulting from the combined buffer requirement.

(8) The Resolution Committee may exercise the power referred to in sub-regulation (7), with respect to resolution entities that are G-SIIs or that are subject to regulation 45C(5) or (6), and that meet one of the conditions set out in the first proviso, up to a limit of hundred per cent of the total number of all resolution entities that are G-SIIs or that are subject to regulation 45C(5) or (6) for which the Resolution Committee determines the requirement referred to in regulation 45E:

Provided that, the conditions shall be considered by the Resolution Committee as follows:

(a) substantive impediments to resolvability have been identified in the preceding resolvability assessment and either:

(i) no remedial action has been taken following the application of the measures referred to in regulation 17(5) in the timeline required by the Resolution Committee,
(ii) the identified substantive impediments cannot be addressed using any of the measures referred to in regulation 17(5), and the exercise of the power referred to in sub-regulation (7) of this regulation would partially or fully compensate for the negative impact of the substantive impediments on resolvability;

(b) the Resolution Committee considers that the feasibility and credibility of the resolution entity's preferred resolution strategy is limited, taking into account the entity's size, its interconnectedness, the nature, scope, risk and complexity of its activities, its legal status and its shareholding structure; or

(c) the requirement referred to in Article 104a of the CRD reflects the fact that the resolution entity that is a G-SII or that is subject to regulation 45C(5) or (6) is, in terms of riskiness, among the top twenty per cent of institutions for which the Resolution Committee determines the requirement referred to in regulation 45(1):

Provided further that, for the purposes of the percentages referred to in this sub-regulation, the Resolution Committee shall round the number resulting from the calculation up to the closest whole number.

(9) The Resolution Committee shall take the decisions referred to in sub-regulations (5) or (7) after consulting the Authority:

Provided that, when taking those decisions, the Resolution Committee shall take into account:

(a) the depth of the market for the resolution entity’s own funds instruments and subordinated eligible instruments, the pricing of such instruments, where they exist, and the time needed to execute any transactions necessary for the purpose of complying with the decision;

(b) the amount of eligible liabilities instruments that meet all of the conditions referred to in Article 72a of CRR that have a residual maturity below one year as of the date of the decision, with a view to making quantitative adjustments to the requirements referred to in sub-regulations (5) and (7);
c) the availability and the amount of instruments that meet all of the conditions referred to in Article 72a of the CRR with the exception of point (d) of Article 72b(2) of the said Regulation;

d) whether the amount of liabilities that are excluded from the application of write down and conversion powers in accordance with regulation 44(2) or (3) and that, in normal insolvency proceedings, rank equally with or below the highest ranking eligible liabilities is significant in comparison to the own funds and eligible liabilities of the resolution entity. Where the amount of excluded liabilities does not exceed five per cent of the amount of the own funds and eligible liabilities of the resolution entity, the excluded amount shall be considered as not being significant. Above that threshold, the significance of the excluded liabilities shall be assessed by the Resolution Committee;

e) the resolution entity’s business model, funding model, and risk profile, as well as its stability and ability to contribute to the economy; and

f) the impact of possible restructuring costs on the resolution entity’s recapitalisation.".

21. Immediately after regulation 45B of the principal regulations there shall be added the following new regulation:

45C. (1) The Resolution Committee shall, after consulting the Authority, determine the requirement referred to in regulation 45(1) on the basis of the following criteria:

(a) the need to ensure that the resolution group can be resolved by the application of the resolution tools to the resolution entity, including, where appropriate, the bail-in tool, in a way that meets the resolution objectives;
(b) the need to ensure, where appropriate, that the resolution entity and its subsidiaries that are institutions or entities referred to in paragraphs (b), (c) or (d) of the definition "entity" in regulation 2(1) but are not resolution entities have sufficient own funds and eligible liabilities to ensure that, if the bail-in tool or write down and conversion powers, were to be applied to the resolution entity and its subsidiaries, losses could be absorbed and that it is possible to restore the total capital ratio and, as applicable, the leverage ratio, of the relevant entities to a level necessary to enable them to continue to comply with the conditions for authorisation and to carry on the activities for which they are authorised under the CRD or Directive 2014/65/EU;

(c) the need to ensure, if the resolution plan anticipates the possibility for certain classes of eligible liabilities to be excluded from bail-in pursuant to regulation 44(3) or to be transferred in full to a recipient under a partial transfer, that the resolution entity has sufficient own funds and other eligible liabilities to absorb losses and to restore its total capital ratio and, as applicable, its leverage ratio, to the level necessary to enable it to continue to comply with the conditions for authorisation and to carry on the activities for which it is authorised under the CRD or Directive 2014/65/EU;

(d) the size, the business model, the funding model and the risk profile of the entity; and

(e) the extent to which the failure of the entity would have adverse effect of the financial stability, including through contagion to other institutions or entities, due to the interconnectedness of the entity with those other institutions or entities or with the rest of the financial system.

(2) Where the resolution plan provides that resolution action is to be taken or that the power to write down and convert relevant capital instruments and eligible liabilities, in accordance with regulation 59, is to be exercised in accordance with the relevant scenario referred to in regulation 10(3), the requirement referred to in regulation 45(1) shall equal an amount sufficient to ensure that:

(a) the losses that are expected to be incurred by the entity are fully absorbed; and
(b) the resolution entity and its subsidiaries that are institutions or entities referred to in paragraphs (b), (c) or (d) of the definition "entity" in regulation 2(1) but are not resolution entities, are recapitalised to a level necessary to enable them to continue to comply with the conditions for authorisation and to carry on the activities for which they are authorised under the CRD, Directive 2014/65/EU or an equivalent legislative act for an appropriate period not longer than one year:

Provided that, where the resolution plan provides that the entity is to be wound up under normal insolvency proceedings, the Resolution Committee shall assess whether it is justified to limit the requirement referred to in regulation 45(1) for that entity, so that it does not exceed an amount sufficient to absorb losses in accordance with paragraph (a):

Provided further that, the assessment by the Resolution Committee shall, in particular, evaluate the limit referred to in paragraph (b) as regards any possible impact on financial stability and on the risk of contagion to the financial system.

(3) For resolution entities, the amount referred to in paragraph (a) of regulation 45C(2) shall be the following:

(a) for the purpose of calculating the requirement referred to in regulation 45(1), in accordance with paragraph (a) of regulation 45(2), the sum of:

(i) the amount of losses to be absorbed in resolution that corresponds to the requirements referred to in point (c) of Article 92(1) of the CRR and Article 104a of the CRD Directive 2013/36/EU at the consolidated resolution group level; and
(ii) a recapitalisation amount that allows the resolution group resulting from resolution to restore compliance with its total capital ratio requirement referred to in point (c) of Article 92(1) of Regulation (EU) No 575/2013 and its requirement referred to in Article 104a of Directive 2013/36/EU at the consolidated resolution group level, after the implementation of the preferred resolution strategy; and

(b) for the purpose of calculating the requirement referred to in regulation 45(1), in accordance with paragraph (b) of regulation 45(2), the sum of:

(i) the amount of the losses to be absorbed in resolution that corresponds to the resolution entity’s leverage ratio requirement referred to in point (d) of Article 92(1) of the CRR at the consolidated resolution group level; and

(ii) a recapitalisation amount that allows the resolution group resulting from resolution to restore compliance with the leverage ratio requirement referred to in point (d) of Article 92(1) of the CRR at the consolidated resolution group level, after the implementation of the preferred resolution strategy:

Provided that, for the purposes of paragraph (a) of regulation 45(2), the requirement referred to in regulation 45(1) shall be expressed in percentage terms as the amount calculated in accordance with paragraph (a), divided by the total risk exposure amount:

Provided further that, for the purposes of paragraph (b) of regulation 45(2), the requirement referred to in regulation 45(1) shall be expressed in percentage terms as the amount calculated in accordance with paragraph (b) of this sub-regulation, divided by the total exposure measure.

Provided further that, when setting the individual requirement provided for in paragraph (b), the Resolution Committee shall take into account the requirements referred to in regulations 37(10), 44(5) and (8).
(4) (a) When setting the recapitalisation amounts referred to in sub-regulation (3), the Resolution Committee shall:

   (i) use the most recently reported values for the relevant total risk exposure amount or total exposure measure, adjusted for any changes resulting from resolution actions set out in the resolution plan; and

   (ii) after consulting the Authority, adjust the amount corresponding to the current requirement referred to in Article 104a of the CRD downwards or upwards to determine the requirement that is to apply to the resolution entity after the implementation of the referred resolution strategy.

(b) The Resolution Committee shall be able to increase the requirement provided in paragraph (a)(ii) of sub-regulation (3) by an appropriate amount necessary to ensure that, following resolution, the entity is able to sustain sufficient market confidence for an appropriate period, which shall not exceed one year.

(c) Where paragraph (a) of this sub-regulation applies, the amount referred therein shall be equal to the combined buffer requirement that is to apply after the application of the resolution tools, less the amount referred to in paragraph (a) of point (6) of Article 128 of the CRD.

(d) The amount referred to in paragraph (a) of this sub-regulation shall be adjusted downwards if, after consulting the Authority, the Resolution Committee determines that it would be feasible and credible for a lower amount to be sufficient to sustain market confidence and to ensure both the continued provision of critical economic functions by the institution or entity referred to in paragraphs (b), (c) or (d) of the definition "entity" in regulation 2(1), and its access to funding without recourse to extraordinary public financial support, with the exception of contributions from resolution financing arrangements, in accordance with regulation 44(5) and (8) and regulation 101(2), following the implementation of the resolution strategy:
Provided that, the said amount shall be adjusted upwards if, after consulting the Authority, the Resolution Committee determines that a higher amount is necessary to sustain sufficient market confidence and to ensure both the continued provision of critical economic functions by the institution or entity referred to in paragraphs (b), (c) or (d) of the definition "entity" in regulation 2(1), and its access to funding without recourse to extraordinary public financial support, with the exception of contributions from resolution financing arrangements, in accordance with regulations 44(5) and (8) and regulation 101(2), for an appropriate period which shall not exceed one year.

(5) For resolution entities that are not subject to Article 92a of the CRR and that are part of a resolution group, the total assets of which exceed EUR 100 billion, the level of the requirement referred to in sub-regulation (3) shall be at least equal to:

(a) 13.5 per cent when calculated in accordance with paragraph (a) of regulation 45(2); and

(b) 5 per cent when calculated in accordance with paragraph (b) of regulation 45(2).

Provided that, by way of derogation from regulation 45B, the resolution entities referred to in this sub-regulation shall meet a level of the requirement referred to in this sub-regulation that is equal to 13.5 per cent when calculated in accordance with paragraph (a) of regulation 45(2) and to 5 per cent when calculated in accordance with paragraph (b) of regulation 45(2) using own funds, subordinated eligible instruments, or liabilities as referred to in regulation 45B(3).

(6) The Resolution Committee may, after consulting the Authority, decide to apply the requirements laid down in sub-regulation (5), to a resolution entity which is not subject to Article 92a of the CRR and which is part of a resolution group, the total assets of which are lower than EUR 100 billion and which the Resolution Committee has assessed as reasonably likely to pose a systemic risk in the event of its failure:

Provided that, when taking a decision as referred to in this sub-regulation, the Resolution Committee shall take into account:

(a) the prevalence of deposits, and the absence of debt instruments, in the funding model;
(b) the extent to which access to the capital markets for eligible liabilities is limited;

(c) the extent to which the resolution entity relies on Common Equity Tier 1 capital to meet the requirement referred to in regulation 45E:

Provided further that, the absence of a decision pursuant to this sub-regulation is without prejudice to any decision under regulation 45B(5).

(7) For entities that are not themselves resolution entities, the amount referred to in sub-regulation (2) shall be the following:

(a) for the purpose of calculating the requirement referred to in regulation 45(1), in accordance with paragraph (a) of regulation 45(2), the sum of:

(i) the amount of the losses to be absorbed that corresponds to the requirements referred to in point (c) of Article 92(1) of the CRR and Article 104a of the CRD of the entity; and

(ii) a recapitalisation amount that allows the entity to restore compliance with its total capital ratio requirement referred in point (c) of Article 92(1) of the CRR and its requirement referred to in Article 104a of the CRD, after the exercise of the power to write down or convert relevant capital instruments and eligible liabilities in accordance with regulation 59, or after the resolution of the resolution group; and

(b) for the purpose of calculating the requirement referred to in regulation 45(1), in accordance with paragraph (b) of regulation 45(2), the sum of:

(i) the amount of the losses to be absorbed that corresponds to the entity’s leverage ratio requirement referred to in point (d) of Article 92(1) of the CRR; and
(ii) a recapitalisation amount that allows the entity to restore compliance with its leverage ratio requirement referred to in point (d) of Article 92(1) of the CRR after the exercise of the power to write down or convert relevant capital instruments and eligible liabilities in accordance with regulation 59, or after the resolution of the resolution group:

Provided that, for the purposes of paragraph (a) of regulation 45(2), the requirement referred to in regulation 45(1) shall be expressed in percentage terms as the amount calculated in accordance with paragraph (a) divided by the total risk exposure amount:

Provided further that, for the purposes of paragraph (b) of regulation 45(2), the requirement referred to in regulation 45(1) shall be expressed in percentage terms as the amount calculated in accordance with paragraph (b) divided by the total exposure measure.

(8) (a) The Resolution Committee shall, when setting the individual requirement provided in paragraph (b) of sub-regulation (7) take into account the requirements referred to in regulations 37(10), 44(5) and 44(8).

(b) For the purpose of setting the recapitalisation amounts referred to in sub-regulation (7), the Resolution Committee shall:

(i) use the most recently reported values for the relevant total risk exposure amount or total exposure measure, adjusted for any changes resulting from actions set out in the resolution plan; and

(ii) after consulting the Authority, adjust the amount corresponding to the current requirement referred to in Article 104a of the CRD downwards or upwards to determine the requirement that is to apply to the relevant entity, after the exercise of the power to write down or convert relevant capital instruments and eligible liabilities, in accordance with regulation 59, or after the resolution of the resolution group.
(c) The Resolution Committee may increase the requirement provided in paragraph (a)(i) of sub-regulation (7) by an appropriate amount necessary to ensure that, following the exercise of the power to write down or convert relevant capital instruments and eligible liabilities in accordance with regulation 59, the entity is able to sustain sufficient market confidence for an appropriate period which shall not exceed one year.

(d) Where paragraph (c) of this sub-regulation applies, the amount referred to in the said paragraph (c) shall be equal to the combined buffer requirement that is to apply after the exercise of the power referred to in regulation 59, or after the resolution of the resolution group, less the amount referred to in paragraph (a) of point (6) of Article 128 of the CRD.

(e) The amount referred to in paragraph (c) shall be adjusted downwards if, after consulting the Authority, the Resolution Committee determines that it would be feasible and credible for a lower amount to be sufficient to ensure market confidence, and to ensure both the continuous provision of critical economic functions by the institution or entity referred to in paragraphs (b), (c) or (d) of the definition "entity" in regulation 2(1), and its access to funding without recourse to extraordinary public financial support, with the exception of contributions from resolution financing arrangements, in accordance with regulations 44(5) and 44(8) and regulation 101(2), after the exercise of the power referred to in regulation 59, or after the resolution of the resolution group:

Provided that, the amount shall be adjusted upwards if, after consulting the Authority, the Resolution Committee determines that a higher amount is necessary to sustain sufficient market confidence and to ensure both continued provision of critical economic functions by the institution or entity referred to in paragraphs (b), (c) or (d) of the definition "entity" in regulation 2(1), and its access to funding without recourse to extraordinary public financial support, with the exception of contributions from resolution financing arrangements, in accordance with regulations 44(5) and 44(8) and regulation 101(2) for an appropriate period which shall not exceed one year.
(9) Where the Resolution Committee expects that certain classes of eligible liabilities are reasonably likely to be fully or partially excluded from bail-in pursuant to regulation 44(3), or might be transferred in full to a recipient under a partial transfer, the requirement referred to in regulation 45(1) shall be met using own funds or other eligible liabilities that are sufficient to:

(a) cover the amount of excluded liabilities identified in accordance with regulation 44(3); and

(b) ensure that the conditions referred to in sub-regulation (2) are fulfilled.

(10) Any decision by the Resolution Committee to impose a minimum requirement of own funds and eligible liabilities under this regulation shall contain the reasons for that decision, including a full assessment of the elements referred to in sub-regulations (2) to (9), and shall be reviewed by the Resolution Committee without undue delay to reflect any changes in the level of the requirement referred to in Article 104a of the CRD.

(11) For the purposes of sub-regulation (3) and (7), capital requirements shall be interpreted in accordance with the Authority’s application of the transitional provisions laid down in Chapters 1, 2 and 4 of Title 1 of Part Ten of the CRR and in the provisions laid down in Maltese law exercising the options granted to the Authority by the said Regulation.

(a) where the requirement referred to in paragraph (a) of sub-regulation (1) or paragraph (a) of sub-regulation (2) is not sufficient to fulfil the conditions set out in regulation 45C; and

(b) to an extent that ensures that the conditions set out in regulation 45C are fulfilled.

(4) For the purposes of regulation 45H(2), where more than one G-SII entity belonging to the same G-SII are resolution entities, the relevant European resolution authorities shall calculate the amount referred to in sub-regulation (3):

(a) for each resolution entity;

(b) for the Union parent entity as if it was the only resolution entity of the G-SII.

(a) the amount of the requirement applied at the consolidated resolution group level for each resolution entity; and

Provided that, the joint decision shall ensure compliance with regulations 45E and 45F and it shall be fully reasoned and provided to:

(a) the resolution entity by the Resolution Committee or its European resolution authority;

(b) the entities of a resolution group which are not a resolution entity by the Resolution Committee or the relevant European resolution authorities of those entities;

Provided that, the adjustment mentioned above may be applied on condition that:

(a) the adjustment may be applied in respect of differences in the calculation of the total risk exposure amounts between the relevant Member States by adjusting the level of the requirement; and

Provided further that, the sum of the amounts referred to in paragraph (a) of regulation 45D(4) and Article 12 of the CRR for individual resolution entities shall not be lower than the sum of the amounts referred to in paragraph (b) of regulation 45D(4) and Article 12 of the said CRR.

(4) (a) Where a joint decision is not taken within four months because of a disagreement concerning a consolidated resolution group requirement referred to in regulation 45E, a decision shall be taken on that requirement by the Resolution Committee or the European resolution authority responsible for the resolution entity after having duly taken into account:

Provided that, the decision of the EBA shall take into account paragraphs (a) and (b) of this sub-regulation. The four-month period shall be deemed to be the conciliation period within the meaning of Regulation (EU) No 1093/2010:

Provided further that, the matter shall not be referred to the EBA after the end of the four-month period or after a joint decision has been reached, and that in the absence of an EBA decision within one month of the referral of the matter, the decision of the Resolution Committee or of the relevant European resolution authority of the resolution entity shall apply.

(5) (a) Where a joint decision is not taken within four months because of a disagreement concerning the level of the requirement referred to in regulation 45F to be applied to any entity of a resolution group on an individual basis, the decision shall be taken by the Resolution Committee or the relevant European resolution authority of the said entity, where all of the following conditions are fulfilled:
