(87/C 37/01)

Annexes I and II to Regulation (EEC) No 288/82⁽¹⁾, as last amended by Regulation (EEC) No 1243/86⁽²⁾, are hereby corrected as indicated below in accordance with Article 23 of the said Regulation.

⁽²⁾ OJ No L 113, 30. 4. 1986, p. 1.

ANNEX

ANNEX I

LIST OF PRODUCTS SUBJECT TO NATIONAL QUANTITATIVE RESTRICTION ON THEIR ENTRY INTO FREE CIRCULATION

Explanation of signs, letters or figures

Practical scope of the restriction

+ = completely restricted;

— = partially restricted. For an exact description of the restriction, see the list at the end of this Annex which concerns the description of the products.

Geographical scope

Where there are no special indications the restriction applies to all the countries covered by the Regulation.

Where the restriction applies to a geographical zone or to one or more countries, a marginal note describes the country or countries or the zone or zones to which the restriction applies. These geographical zones are described at the end of the Annex to Regulation (EEC) No 288/82.

The geographical scope of the quantitative import restrictions will not exceed that of the quantitative restrictions existing in the Member States on 31 December 1985, unless otherwise indicated in the Annex for the following tariff headings:

— in Spain: 69.11, 73.02, 85.23, 85.25, 90.28,

— in Portugal: 64.01, 85.25, 87.02, 87.04, 87.05.

In any event, the application of these restrictions is subject to the specific common rules referred to in Article 1 (1), first indent, of Regulation (EEC) No 288/82.

This list covers only national restrictions. The import regime set out in this Annex is drawn up without prejudice to the rules applicable to State enterprises to which Member States grant, formally or in effect, exclusive or special privileges in trade with third countries. At present there are no Community restrictions which come within the scope of this Regulation; any such measures which may be taken pursuant to Title V will be listed in an *ad hoc* publication.

EUROPEAN CENTRE FOR THE DEVELOPMENT OF VOCATIONAL TRAINING (CEDEFOP)

EQUALITY OF OPPORTUNITY AND VOCATIONAL TRAINING

Five years on . . . Vocational training measures for women in the European Community

The most distinct axis in the Community's social policy in the field of equal opportunity for men and women in working life is undoubtedly the establishment of a relevant body of legislation. A number of legal norms and directives with legal force together make up a framework which guarantees women equal treatment in the fields of employment, training and social security.

However, it is common knowledge that legal provisions are never sufficient in themselves to eliminate all forms of inequality *de facto*. Consequently, the Commission of the European Communities is pursuing a programme parallel to its work on the relevant legislation, whereby it has developed and submitted to the Member States the concept of positive action. What is called for is specific action designed to eliminate the disadvantages suffered by women in working life.

It is in pursuit of the same objective that each year from its inception, CEDEFOP has reserved a privileged position in its work programme for activities to support the Commission in realizing the guidance and training aspects of this concept.
