## COMMISSION

**COM/R/8011/01****Directorate-General for Research****Notice of vacancy for an A 2 post: Director of the Directorate for Life Sciences: Health Research  
(Article 29(2))**

(2001/C 176 A/01)

The Commission is seeking to fill the post of Director in charge of the Directorate for Life Sciences: Health Research, within its Directorate-General for Research.

The Directorate is helping to establish the European Research Area by designing and implementing health research activities. To this end it directs and coordinates work in progress and prepares future actions in various fields including infectious diseases, genome sequencing, population ageing and the control of transmissible diseases (within the framework of poverty reduction activities).

Applicants must have:

- a solid scientific background,
- experience in the field of health research policy,
- a proven aptitude to manage a large civil-service department (about 100 staff) responsible for managing a large number of contracts,
- the ability to represent the Commission in political and scientific bodies at European and international level.

The post is at Director level (A 2).

The Commission invites applications from both internal and outside applicants.

Applicants must be nationals of a Member State of the European Union and hold a university degree or equivalent national qualification entitling them to undertake postgraduate studies (any equivalent professional experience will be taken into account).

Applicants must have at least 15 years' professional experience in the field of scientific research, at least five years of which must have been spent in a management capacity.

Applicants must have a good knowledge of English or French and one other Community language; knowledge of French **and** English as well as other Community languages would be an additional advantage.

The successful candidate will be chosen in accordance with the Commission's selection procedure. Shortlisted applicants will be invited to attend an interview organised by the Commission's Advisory Committee on Appointments, which will be assisted by three international experts in the field of research.

Pay and conditions of employment will be those laid down for A 2 officials of the European Communities.

Applications in the form of a curriculum vitae should be sent to:

European Commission  
Directorate-General for Personnel and Administration  
Organisation chart and management staff Unit  
MO34 5/113  
Rue de la Loi/Wetstraat 200  
B-1049 Brussels.

**Deadline for applications: 5 July 2001** (date as postmark or express courier service stamp).

**COM/R/8012/01****Directorate-General for Research****Notice of vacancy for an A 2 post: Director of the Directorate for Competitive and Sustainable Growth: Transport Research (Article 29(2))**

(2001/C 176 A/02)

The Commission is seeking to fill the post of Director in charge of the Directorate for Competitive and Sustainable Growth: Transport Research, within the Directorate-General for Research.

The Directorate is helping to establish the European Research Area by drawing up and implementing projects in the field of transport technology, in particular air transport. To this end it carries out and coordinates work in progress and prepares future Community action. The Director will also have responsibility for coordinating Community research activities in the field of space and for designing and implementing a European strategy for space in cooperation with the European Space Agency and the Joint Research Centre.

Candidates must have:

- a solid scientific background,
- experience in the field of transport technology, in particular in the area of aerospace technology,
- a proven aptitude to manage a large civil-service department (about 100 staff) responsible for managing a large number of contracts,
- the ability to represent the Commission in political, industrial and scientific bodies at European and international level.

The post is at Director level (A 2).

The Commission invites applications from both internal and outside candidates.

Applicants must be nationals of one of the Member States of the European Union and hold a university degree or equivalent national qualification giving access to postgraduate studies (any equivalent professional experience will be taken into account).

Applicants must have at least 15 years' professional experience in the field of scientific research, of which at least five years must have been spent in a management capacity.

Applicants must have a good knowledge of English or French and one other Community language; knowledge of French **and** English as well as other Community languages would be an additional advantage.

The successful candidate will be chosen in accordance with the Commission's selection procedure. Shortlisted applicants will be invited to attend an interview organised by the Commission's Advisory Committee on Appointments, which will be assisted by three international experts in the field of research.

Pay and conditions of employment will be those laid down for A 2 officials of the European Communities.

Applications, in the form of a curriculum vitae, should be sent to:

European Commission  
Directorate-General for Personnel and Administration  
Organisation chart and management staff Unit  
MO34 5/113  
Rue de la Loi/Wetstraat 200  
B-1049 Brussels.

**Deadline for applications: 5 July 2001** (shown by postmark or date stamp of express courier service).

---

**COM/R/8013/01****Directorate-General for Research****Notice of vacancy for an A 2 post: Director of the Directorate for Preserving the Ecosystem:  
Research into Energy Efficiency (Article 29(2))**

(2001/C 176 A/03)

The Commission is seeking to fill the post of Director in charge of the Directorate for Preserving the Ecosystem: Research into Energy Efficiency, within the Directorate-General for Research.

The Directorate is helping to establish the European Research Area by designing and implementing actions in the field of energy research. To this end, it directs and coordinates work in progress and prepares future Community action in areas such as the use of hydrogen as an energy source, fuel cells, renewable energy, and, in particular, photovoltaic solar energy, nuclear waste and thermonuclear fusion.

Applicants must have:

- a solid scientific background,
- experience in the field of nuclear and non-nuclear energy technology,
- a proven aptitude to manage a large civil-service department (about 100 staff) responsible for handling a large number of contracts,
- the ability to represent the Commission in political, industrial and scientific bodies at European and international level.

The post is at Director level (A 2).

The Commission invites applications from both internal and outside applicants.

Applicants must be nationals of a Member State of the European Union and hold a university degree or equivalent national qualification entitling them to undertake postgraduate studies (any equivalent professional experience will be taken into account).

They must have at least 15 years' professional experience in the field of scientific research, at least five of which must have been spent in a management capacity.

Applicants must have a good knowledge of English or French and one other Community language; knowledge of French **and** English as well as other Community languages would be an additional advantage.

The successful candidate will be chosen in accordance with the Commission's selection procedure. Shortlisted applicants will be invited to attend an interview organised by the Commission's Advisory Committee on Appointments, which will be assisted by three international experts in the field of research.

Pay and conditions of employment will be those laid down for A 2 officials of the European Communities.

Applications, in the form of a curriculum vitae, should be sent to:

European Commission  
Directorate-General for Personnel and Administration  
Organisation chart and management staff Unit  
MO34 5/113  
Rue de la Loi/Wetstraat 200  
B-1049 Brussels.

**Deadline for applications: 5 July 2001** (date as postmark or express courier service stamp).

---

**COM/R/8022/01****Directorate-General Joint Research Centre****Notice of vacancy for an A 2 post: Director of the Institute for Health and Consumer Protection (IHCP) (Article 29(2))**

(2001/C 176 A/04)

The Commission is seeking to recruit a Director for its Institute for Health and Consumer Protection, within the Joint Research Centre Directorate-General.

The Institute for Health and Consumer Protection, established in 1989, is the newest of the eight scientific institutions of the Joint Research Centre. Its main task is to provide advice on the health impact of food, chemicals/chemical products and medical implants. It operates the European Chemical Bureau and the European Centre for Validation of Alternative Methods. It is composed of 160 statutory staff as well as 30 non-statutory staff (PhD students, post-doctorate fellows and visiting scientists).

Its biotechnology laboratory, together with its role in the management of its European network of GMO laboratories places it in a central position with regard to the provision of GMO related advice.

The institute generates its scientific knowledge in association with its 200 laboratory collaborative partners and has state-of-the-art laboratories and very active research staff located in Ispra, Italy, on the shores of Lago Maggiore, 30 minutes from Milan's Malpensa airport.

The IHCP, along with the other institutes of the JRC, will play a key role in the European Research Area and in the provision of training to young researchers, particularly those from candidate countries for the enlargement of the European Union.

The post is at Director level (A 2).

Applicants must be nationals of a European Union Member State and hold a university degree or equivalent national qualification entitling them to undertake postgraduate studies (any equivalent professional experience will be taken into account).

Applicants must have at least 15 years' professional experience at a level to which these qualifications give admission. At least five years of that professional experience must have been gained at senior level in the same fields as this vacancy.

Applicants must have a good knowledge of English or French and one other Community language; knowledge of English **and** French as well as other Community languages would be an additional advantage.

The successful applicant will be chosen in accordance with the Commission's selection procedure.

Pay and conditions of employment will be those laid down for A 2 officials of the European Communities.

Applications should be sent, in the form of a curriculum vitae, to:

European Commission  
Directorate-General for Personnel and Administration  
Organisation chart and management staff Unit  
MO34 5/134  
Rue de la Loi/Wetstraat 200  
B-1049 Brussels.

**Applications must be received by 5 July 2001** (date as postmark or express courier service stamp).
