Notice of initiation of an expiry review of the antidumping measures applicable to imports of polyethylene terephthalate (PET) film originating in India

(2006/C 197/02)

Following the publication of a notice of impending expiry ⁽¹⁾ of the anti-dumping measures in force on imports of polyethylene terephthalate (PET) film originating in India, ('country concerned'), the Commission has received a request for review pursuant to Article 11 (2) of Council Regulation (EC) No 384/96 on protection against dumped imports from countries not members of the European Community ('the basic Regulation') ⁽²⁾, as last amended by Council Regulation (EC) No 2117/2005 ⁽³⁾.

1. Request for review

The request was lodged on 23 May 2006 on behalf of producers representing a major proportion, in this case more than 50 %, of the total Community production of polyethylene terephthalate (PET) film.

2. Product

The product under review is polyethylene terephthalate (PET) film originating in India ('the product concerned'), currently classifiable within CN codes ex 3920 62 19 and ex 3920 62 90. These CN codes are given only for information.

3. Existing measures

The measures currently in force are a definitive anti-dumping duty imposed by Council Regulation (EC) No 1676/2001, as last amended by Council Regulation (EC) No 366/2006 ⁽⁴⁾.

4. Grounds for the review

The request is based on the grounds that the expiry of the measures would be likely to result in a continuation of dumping and injury to the Community industry.

The applicants allege continuation/likelihood of continuation of dumping and have established dumping for India on the comparison of a constructed normal value with the export prices of the product concerned to the Community.

On this basis, the dumping margin calculated is significant.

The applicants have provided evidence that imports of the product concerned from India have increased overall in absolute terms and in terms of market share.

It is also alleged that the volumes and the prices of the imported product concerned have continued, among other consequences, to have a negative impact on the market share held, the quantities sold and the level of prices charged by the Community industry, resulting in substantial adverse effects on the overall performance, the financial and the employment situation of the Community industry.

In addition, the applicants allege that any increase of imports at dumped prices from the country concerned would likely lead to further injury of the Community industry should measures be allowed to lapse.

5. Procedure

Having determined, after consulting the Advisory Committee, that sufficient evidence exists to justify the initiation of an expiry review, the Commission hereby initiates a review in accordance with Article 11 (2) of the basic Regulation.

5.1. Procedure for the determination of likelihood of dumping and injury

The investigation will determine whether the expiry of the measures would be likely, or unlikely, to lead to a continuation or recurrence of dumping and injury.

(a) Sampling

In view of the apparent number of parties involved in this proceeding, the Commission may decide to apply sampling, in accordance with Article 17 of the basic Regulation.

(i) Sampling for exporters/producers in India

In order to obtain the information it deems necessary for the selection of the sample of importers, the Commission will, in addition, contact any known associations of importers.

(iii) Sampling for Community producers

In order to enable the Commission to select a sample, all Community producers are hereby requested to provide the following information on their company or companies within the time limit set in point 6 (b)(i):

- name, address, e-mail address, telephone, and fax, and/or telex numbers and contact person,

The consequences of non-cooperation are set out in point 8 below.

(iv) Final selection of the samples

All interested parties wishing to submit any relevant information regarding the selection of the sample must do so within the time limit set in point 6(b)(ii).

The Commission intends to make the final selection of the samples after having consulted the parties concerned that have expressed their willingness to be included in the sample.

Companies included in the samples must reply to a questionnaire within the time limit set in point 6(b)(iii) and must co-operate within the framework of the investigation.

If sufficient co-operation is not forthcoming, the Commission may base its findings, in accordance with Articles 17(4) and 18 of the basic Regulation, on the facts available. A finding based on facts available may be less advantageous to the party concerned, as explained in point 8.

(b) Questionnaires

In order to obtain the information it deems necessary for its investigation, the Commission will send questionnaires to the sampled Community industry and to any association of producers in the Community, to the sampled exporters/producers in India to any association of exporters/producers, to the sampled importers, to any association of impor-

ters named in the request or which co-operated in the investigation leading to the measures subject to the present review, and to the authorities of the exporting country concerned.

5.2. *Procedure for the assessment of Community interest*

In accordance with Article 21 of the basic Regulation and in the event that the likelihood of a continuation or recurrence of dumping and injury is confirmed, a determination will be made as to whether to maintain, or repeal the anti-dumping measures would not be against the Community interest. For this reason the Community industry, importers, their representative associations, representative users and representative consumer organisations, provided that they prove that there is an objective link between their activity and the product concerned, may, within the general time limits set in point 6(a)(ii), make themselves known and provide the Commission with information. The parties which have acted in conformity with the previous sentence may request a hearing, setting the particular reasons why they should be heard, within the time limit set in point 6(a)(iii). It should be noted that any information submitted pursuant to Article 21 will only be taken into account if supported by factual evidence at the time of submission.

6. Time limits

(a) *General time limits*

(i) For parties to request a questionnaire

All interested parties who did not co-operate in the investigation leading to the measures subject to the present review should request a questionnaire as soon as possible, but not later than 15 days after the publication of this notice in the *Official Journal of the European Union*.

(ii) For parties to make themselves known, to submit questionnaire replies and any other information

All interested parties, if their representations are to be taken into account during the investigation, must make themselves known by contacting the Commission, present their views and submit questionnaire replies or any other information within 40 days of the date of publication of this notice in the *Official Journal of the European Union*, unless otherwise specified. Attention is drawn to the fact that the exercise of most procedural rights set out in the basic Regulation depends on the party's making itself known within the aforementioned period.

⁽¹⁾ For guidance on the meaning of related companies, please refer to Article 143 of Commission Regulation (EEC) No 2454/93 laying down provisions for the implementation of Council Regulation (EEC) No 2913/92 establishing the Community Customs Code (OJ L 253, 11.10.1993, p. 1).

Companies selected in a sample must submit questionnaire replies within the time limit specified in point 6(b)(iii).

(iii) Hearings

All interested parties may also apply to be heard by the Commission within the same 40-day time limit.

(b) *Specific time limit in respect of sampling*

- (i) The information specified in paragraph 5.1(a)(i), 5.1(a)(ii) and 5.1(a)(iii) should reach the Commission within 15 days of the date of publication of this notice in the *Official Journal of the European Union*, given that the Commission intends to consult parties concerned that have expressed their willingness to be included in the sample on its final selection within a period of 21 days of the publication of this notice in the *Official Journal of the European Union*.
- (ii) All other information relevant for the selection of the sample as referred to in 5.1(a)(iv) must reach the Commission within a period of 21 days of the publication of this notice in the *Official Journal of the European Union*.
- (iii) The questionnaire replies from sampled parties must reach the Commission within 37 days from the date of the notification of their inclusion in the sample.

7. Written submissions, questionnaire replies and correspondence

All submissions and requests made by interested parties must be made in writing (not in electronic format, unless otherwise specified) and must indicate the name, address, e-mail address, telephone and fax numbers of the interested party. All written submissions, including the information requested in this notice, questionnaire replies and correspondence provided by interested parties on a confidential basis shall be labelled as 'Limited (1)' and, in accordance with Article 19(2) of the basic Regulation, shall be accompanied by a non-confidential version, which will be labelled 'FOR INSPECTION BY INTERESTED PARTIES'.

8. Non-co-operation

In cases in which any interested party refuses access to or does not provide the necessary information within the time limits, or significantly impedes the investigation, findings, affirmative or negative, may be made in accordance with Article 18 of the basic Regulation, on the basis of the facts available.

Where it is found that any interested party has supplied false or misleading information, the information shall be disregarded and use may be made, in accordance with Article 18 of the basic Regulation, of the facts available. If an interested party does not cooperate or cooperates only partially, and use of facts available is made, the result may be less favourable to that party than if it had cooperated.

9. Schedule of the investigation

The investigation will be concluded, according to Article 11(5) of the basic Regulation within 15 months of the date of the publication of this notice in the *Official Journal of the European Union*.

10. Possibility to request a review under Article 11(3) of the basic Regulation

As this expiry review is initiated in accordance with the provisions of Article 11(2) of the basic Regulation, the findings thereof will not lead to the level of the existing measures being amended but will lead to those measures being repealed or maintained in accordance with Article 11(6) of the basic Regulation.

If any party to the proceeding considers that a review of the level of the measures is warranted so as to allow for the possibility to amend (i.e. increase or decrease) the level of the measures, that party may request a review in accordance with Article 11(3) of the basic Regulation.

Parties wishing to request such a review, which would be carried out independently of the expiry review mentioned in this notice, may contact the Commission at the address given above.
