— Code Rural, partie législative, articles L 621-1 à L 621-11.

— Code rural, partie réglementaire, article D 551-51

— Projet de décision du directeur de FranceAgriMer relative à une mesure de soutien en faveur de l'organisation économique dans le secteur des fruits et légumes, après avis du conseil de direction spécialisé « filière fruits et légumes » de FranceAgriMer du 26 mai 2009

Date of implementation: following receipt of the acknowledgement of receipt showing the identification number of the measure and publication of the summary of the measure on the Commission website.

Objective of aid:

This aid scheme comes under Article 15 of Commission Regulation (EC) No 1857/2006 of 15 December 2006.

This measure is intended to help associations of producer organisations operating at national level to define technical assistance programmes for producers in the fruit and vegetable sector.

— guiding and coordinating their research and experimentation work in priority areas at national level for a product or group of products (the National Programme for Nutritional Health, reduction of the use of pesticides and the development of alternative techniques, sustainable agriculture and energy saving, etc.),

— defining guidelines for quality standards, in particular taking account of changes in Community legislation — Commission Regulation (EC) No 1221/2008 — and varieties to focus on in order to respond to both customer demand and to the requirements of the regulatory framework,

— providing innovative information, communication and technical assistance tools adapted to the needs of an evolving sector, including during crisis situations, by guiding the development of their measures to improve production and their strategic guidelines (specifications, economic studies, etc.).

This aid scheme will enable the financing of the technical assistance provided within this framework in the form of subsidised services, being confined to the provision of these services. No aid will be granted directly to producers or to companies which are not SMEs. This assistance will be available to all producers, regardless of whether they belong to a producers' organisation or another structure.

— Articles L 1511-1 et suivants, article L 4211-1 du code général des collectivités territoriales;

— Délibération du Conseil général du Gers du 29 juillet 2009.

Annual expenditure planned under the aid scheme:
EUR 25 000 per year

Maximum aid intensity:

35 %

The rate of aid will be 35 % of the daily cost of replacement for young farmers and 25 % of the daily cost of replacement for all other farmers, limited to 24 days per year per farm.

Date of implementation: following receipt of the acknowledgement of receipt showing the identification number of the measure and publication of the summary of the measure on the Commission website, if possible in 2009.

Duration of scheme: 2009-2013, subject to prior registration of the form by the Commission

Objective and type of aid:

This aid scheme falls under Article 15 of Regulation (EC) No 1857/2006.

Replacement is a solution that allows farmers whose activity requires on-farm presence every day of the year to have a work and life pattern comparable to other economic sectors. Except in cases (maternity, accidents or illness) where these costs are covered by public social insurance schemes or by

private insurance, the cost of this replacement service is a disincentive.

Aid will be made available to producers to cover the actual costs of replacing farmers on holiday. The aid will be granted in kind by means of subsidised services and will not involve direct payments of money to producers.

In accordance with Article 15(4) of the agricultural exemption Regulation, aid will not be restricted to members of specific producer groups or other organisations. When aid is granted to a group or organisation for a service provided to a farmer who is not a member of that group or organisation, it will be strictly limited to the costs of providing the replacement service.

Sector(s) concerned: All SME farms, when the farmer (exercising his/her main activity) is required to be present on the farm every day of the year.
