opening, allocating and providing for the administration of a Community tariff quota for silver hake (*Merluccius bilinearis*) falling within subheading ex 03.01 B I t) of the Common Customs Tariff (1987)

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 113 thereof,

Having regard to the proposal from the Commission,

Whereas the Community has undertaken to open an annual Community tariff quota at 8 % duty for 2 000 tonnes of silver hake (*Merluccius bilinearis*) falling within subheading ex 03.01 B I t) of the Common Customs Tariff; whereas the tariff quota concerned should be opened on 1 January 1987 and allocated among the Member States;

Whereas equal and continuous access to the quota should be ensured for all Community importers and the rate of levy for the tariff quota should be applied consistently to all imports until the quota is used up; whereas, in the light of the principles outlined above, a Community tariff arrangement based on an allocation between the Member States would seem to preserve the Community nature of the quota; whereas, to represent as closely as possible the actual development of the market in the said goods, the allocation should follow proportionately the requirements of the Member States calculated both from statistics of imports from third countries during a representative reference period and according to the economic outlook for the tariff year in question;

Whereas, since the fish concerned are not separately specified in the statistical nomenclatures of the Member States, the available import figures provided by them cannot be regarded as sufficiently exact or representative for use as a basis for the allocation referred to above; whereas the incomplete figures available together with the estimates made by the Member States allow the following percentage estimates to be made as to the import needs of each of them from third countries for the quota period envisaged:

Benelux	0,76
Denmark	23,11
Germany	41,82
Greece	0,07
Spain	0,38
France	14,70
Ireland	0,38
Italy	0,68
Portugal	0,38
United Kingdom	17,72

Whereas to take account of the possible import trends for these fish, the quota volume should be divided into two instalments, the first being allocated between the Member States and the second held as a reserve to cover any subsequent requirements of Member States which have used up their initial share; whereas, to afford importers some degree of certainty, the first instalment of the tariff quota should be fixed at a high level, which in this case could be 66 % of the amount of the quota;

Whereas initial shares may be used up at different rates; whereas, to avoid disruption of supplies on this account, it should be provided that any Member State which has almost used up its initial share should draw an additional share from the reserve; whereas each time its additional share is almost used up, a Member State should draw a further share and so on as many times as the reserve allows; whereas the initial and additional shares should be valid until the end of the quota period; whereas this form of administration requires close collaboration between the Member States and the Commission, and the Commission must be in a position to keep account of the extent to which the quotas have been used up and to inform the Member States accordingly;

Whereas if, at a given date in the quota period, a considerable quantity of a Member State's initial share remains unused it is essential that such State should return a significant proportion thereof to the reserve, in order to prevent a part of the Community tariff quota

from remaining unused in one Member State while it could be used in others;

HAS ADOPTED THIS REGULATION:

Whereas, since the Kingdom of Belgium, the Kingdom of the Netherlands and the Grand Duchy of Luxembourg are united within and jointly represented by the Benelux Economic Union, any measure concerning the administration of the shares allocated to that economic union may be carried out by any one of its members,

Article 1

From 1 January to 31 December 1987, the Common Customs Tariff duty on the following products shall be suspended at the level and within the limit of a Community tariff quota as shown below:

Order No	CCT heading No	Description	Amount of tariff quota (tonnes)	Rate of duty (%)
09.0009	ex 03.01 B I t)	Silver hake (<i>Merluccius bilinearis</i>)	2 000	8

Within the limit of this tariff quota, the Kingdom of Spain and the Portuguese Republic shall apply customs duties calculated in accordance with the relevant provisions laid down by the 1985 Act of Accession.

Article 2

1. The Community tariff quota referred to in Article 1 shall be divided into two instalments.

2. A first instalment of 1 320 tonnes shall be allocated among the Member States; the shares, which subject to Article 5, shall be valid from 1 January to 31 December 1987, shall be as follows:

	(tonnes)
Benelux	71
Denmark	305
Germany	552
Greece	1
Spain	5
France	194
Ireland	5
Italy	9
Portugal	5
United Kingdom	170

3. The second instalment of 680 tonnes shall constitute the reserve.

Article 3

1. If a Member State has used 90 % or more of its initial share as fixed in Article 2 (2), or of that share minus any portion returned to the reserve pursuant to Article 5, it shall forthwith, by notifying the Commission, draw a second share, to the extent that the reserve so permits, equal to 10 % of its initial share, rounded up as necessary to the next whole number.

2. If a Member State, after exhausting its initial share, has used 90 % or more of the second share drawn by it, that Member State shall forthwith, in the manner and to the extent provided in paragraph 1, draw a third share

equal to 5 % of its initial share, rounded up as necessary to the whole number.

3. If a Member State, after exhausting its second share, has used 90 % or more of the third share drawn by it, that Member State shall, in the manner and to the extent provided in paragraph 1, draw a fourth share equal to the third.

This process shall apply until the reserve is used up.

4. By way of derogation from paragraphs 1, 2 and 3, a Member State may draw shares lower than those specified in those paragraphs if there are grounds for believing that those specified may not be used in full. Any Member State applying this paragraph shall inform the Commission of its grounds for so doing.

Article 4

Additional shares drawn pursuant to Article 3 shall be valid until 31 December 1987.

Article 5

Member States shall, not later than 1 October 1987, return to the reserve the unused portion of their initial share which, on 15 September 1987, is in excess of 20 % of the initial volume. They may return a greater portion if there are grounds for believing that it may not be used in full.

Member States shall, not later than 1 October 1987, notify the Commission of the total quantities of the product in question imported up to and including 15 September 1987, and charged against the Community quota and of any portion of their initial shares returned to the reserve.

Article 6

The Commission shall keep an account of the shares opened by the Member States pursuant to Articles 2 and 3 and shall, as soon as the information reaches it, inform each State of the extent to which the reserve has been used up.

It shall, not later than 5 October 1987, inform the Member States of the amount still in reserve, following any return of shares pursuant to Article 5.

It shall ensure that the drawing which exhausts the reserve does not exceed the balance available, and to this end shall notify the amount of that balance to the Member State making the last drawing.

Article 7

1. The Member States shall take all appropriate measures to ensure that additional shares drawn pursuant to Article 3 are opened in such a way that importations may be charged without interruption against their accumulated shares of the Community quota.
2. The Member States shall ensure that importers of the product in question have free access to the shares allocated to them.
3. The Member States shall charge imports of the product in question against their shares as and when the product is entered with the customs authorities for free circulation.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 17 November 1986.

4. The extent to which a Member State has used up its share shall be determined on the basis of the imports charged in accordance with paragraph 3.

Article 8

At the request of the Commission, the Member States shall inform it of imports actually charged against their shares.

Article 9

The Member States and the Commission shall cooperate closely to ensure that this Regulation is complied with.

Article 10

This Regulation shall enter into force on 1 January 1987.

COUNCIL REGULATION (EEC) No 3551/86

of 17 November 1986

opening, allocating and providing for the administration of a Community tariff quota for frozen cod (*Gadus morhua*) fillets falling within subheading ex 03.01 B II b) 1 of the Common Customs Tariff (1987)

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 113 thereof,

Having regard to the proposal from the Commission,

Whereas the Community has undertaken to open an annual Community tariff quota at 8 % duty for 10 000 tonnes of frozen cod (*Gadus morhua*) fillets falling within subheading ex 03.01 B II b) 1 of the Common Customs Tariff; whereas the tariff quota concerned should be opened on 1 January 1987 and allocated among the Member States;

Whereas equal and continuous access to the quota should be ensured for all Community importers and the rate of levy for the tariff quota should be applied consistently to all imports until the quota is used up; whereas, in the light of the principles outlined above, a Community tariff arrangement based on an allocation between the Member States would seem to preserve the Community nature of the quota; whereas, to represent as closely as possible the actual development of the market in the said goods, the allocation should follow proportionately the requirements of the Member States calculated both from statistics of imports from third countries during a representative reference period and according to the economic outlook for the tariff year in question;

Whereas, during the last three years for which complete statistics are available, the corresponding imports into each of the Member States represented the following percentages of total imports of the product in question:

Member States	1983	1984	1985
Benelux	4,45	1,29	0,85
Denmark	2,23	2,35	2,24
Germany	6,57	9,23	16,35
Greece	1,10	0,41	0,77
Spain	0,01	0	0
France	20,55	17,34	13,16
Ireland	0	0	0
Italy	1,55	6,88	5,93
Portugal	0,01	0,01	0
United Kingdom	63,53	62,49	60,70

Whereas, in view of these factors and of market forecasts for this product for 1987, the initial percentage shares in the quota volume can be expressed approximately as follows:

Benelux	0,48
Denmark	3,35
Germany	23,90
Greece	0,08
Spain	0,08
France	23,90
Ireland	0,08
Italy	7,97
Portugal	0,32
United Kingdom	39,84

Whereas, to take account of future import trends for the products in question in the various Member States, the quota should be divided into two instalments, the first being allocated among Member States and the second held as a reserve to cover subsequently the requirements of Member States which have exhausted their initial share; whereas, to give importers in each Member State some degree of certainty, the first instalment of the Community quota should be fixed at a relatively high level, in this case approximately 63 % of the full quota;

Whereas Member States may exhaust their initial shares for the products in question at different rates; whereas, to avoid disruption of supplies on this account, it should be provided that any Member State which has almost used up its initial share should draw an additional share from the reserve; whereas this must be done by each Member State as and when each of its additional shares is almost entirely used up, and repeated as many times as the reserve allows; whereas the initial and additional shares must be available for use until the end of the quota period; whereas this method of administration calls for close cooperation between Member States and the Commission, which latter must in particular be able to observe the extent to which the quota amount is used and inform Member States thereof;

Whereas if, at a specified date in the quota period, a considerable balance remains in one or other Member State it is essential that that Member State pay a large amount of it back into the reserve, in order to avoid a part

of the Community quota remaining unused in one Member State when it could be used in others;

HAS ADOPTED THIS REGULATION:

Whereas, since the Kingdom of Belgium, the Kingdom of the Netherlands and the Grand Duchy of Luxembourg are united within and jointly represented by the Benelux Economic Union, all transactions concerning the administration of the shares allocated to that economic union may be carried out by any one of its members,

Article 1

From 1 January to 31 December 1987, the Common Customs Tariff duty on the following products shall be suspended at the level and within the limit of a Community tariff quota as shown below:

Order No	CCT heading No	Description	Amount of tariff quota (tonnes)	Rate of duty (%)
09.0011	ex 03.01 B II b) 1	Frozen cod fillets (<i>Gadus morhua</i>)	10 000	8

Within the limit of this tariff quota, the Kingdom of Spain and the Portuguese Republic shall apply customs duties calculated in accordance with the relevant provisions laid down by the 1985 Act of Accession.

Article 2

1. The Community tariff quota referred to in Article 1 shall be divided into two instalments.

2. A first instalment of 6 275 tonnes shall be allocated among the Member States; the shares which, subject to Article 5, shall be valid from 1 January to 31 December 1987 shall be as follows:

	(tonnes)
Benelux	30
Denmark	210
Germany	1 500
Greece	5
Spain	5
France	1 500
Ireland	5
Italy	500
Portugal	20
United Kingdom	2 500

3. The second instalment of 3 725 tonnes shall constitute the reserve.

Article 3

1. If a Member State has used 90 % or more of its initial share as fixed in Article 2 (2), or of that share minus any portion returned to the reserve pursuant to Article 5, it shall forthwith, by notifying the Commission, draw a second share, to the extent that the reserve so permits, equal to 10 % of its initial share rounded up, should the occasion arise, to the nearest unit above.

2. If a Member State, after exhausting its initial share, has used 90 % or more of the second share drawn by it, that Member State shall forthwith, in the manner and to

the extent provided in paragraph 1, draw a third share, equal to 5 % of its initial share rounded up, should the occasion arise, to the nearest unit above.

3. If a Member State, after exhausting its second share, has used 90 % or more of the third share drawn by it, that Member State shall, under the same conditions, draw a fourth share equal to the third. This process shall continue until the reserve has been exhausted.

4. By way of derogation from paragraphs 1, 2 and 3, a Member State may draw shares lower than those specified in those paragraphs if there are grounds for believing that those specified may not be used in full. Any Member State applying this paragraph shall inform the Commission of its grounds for so doing.

Article 4

Additional shares drawn pursuant to Article 3 shall be valid until 31 December 1987.

Article 5

Member States shall, not later than 1 October 1987, return to the reserve the unused portion of their initial share which, on 15 September 1987, is in excess of 20 % of the initial volume. They may return a greater portion if there are grounds for believing that it may not be used in full.

Member States shall, not later than 1 October 1987, notify the Commission of the total quantities of the product in question imported up to and including 15 September 1987, and charged against the Community quotas and of any portion of their initial shares returned to the reserve.

Article 6

The Commission shall keep an account of the shares opened by the Member States pursuant to Articles 2 and 3 and shall, as soon as the information reaches it, inform each State of the extent to which the reserve has been used up.

It shall, not later than 5 October 1987, inform the Member State of the amount still in reserve following any return of shares pursuant to Article 5.

It shall ensure that when an amount exhausting the reserve is drawn the amount so drawn does not exceed the balance available, and to this end shall notify the amount of that balance to the Member State making the last drawing.

Article 7

1. Member States shall take all appropriate measures to ensure that additional shares drawn pursuant to Article 3 are opened in such a way that importations may be charged without interruption against their accumulated shares of the Community quota.

2. Member States shall ensure that importers of the products in question have free access to the shares allocated to them.

3. Member States shall charge imports of the products in question against their shares as and when the products are entered with the customs authorities for free circulation.

4. The extent to which a Member State has used up its share shall be determined on the basis of the imports charged in accordance with paragraph 3.

Article 8

At the request of the Commission, the Member States shall inform it of imports actually charged against their shares.

Article 9

The Member States and the Commission shall cooperate closely to ensure that this Regulation is complied with.

Article 10

This Regulation shall enter into force on 1 January 1987.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

COMMISSION REGULATION (EEC) No 3560/86
of 21 November 1986
concerning the quantities of sheepmeat and goatmeat products which may be
imported from Romania during 1986

THE COMMISSION OF THE EUROPEAN COMMUNITIES,
Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Decision 84/633/EEC of 11 December 1984 authorizing the Commission, within the context of the voluntary restraint agreements on trade in the sheepmeat and goatmeat sector between the Community and 12 non-member States, to convert, for the purposes of the smooth operation of trade and within the limits agreed, live animal quantities into fresh or chilled meat quantities or such latter quantities into the former⁽¹⁾, and in particular Article 1 (1) thereof;

Whereas, under an Agreement concluded with the Community, Romania has undertaken to restrict its exports of sheepmeat and goatmeat to the Community to annual quantities of 475 tonnes of live animals, expressed as carcase weight bone-in, and of 75 tonnes of fresh and chilled meat;

Whereas Romania has asked the Community to convert the 75 tonnes of fresh and chilled meat that may be exported to the Community in 1986 into 75 tonnes of live animals expressed as carcase weight bone-in; whereas the extremely limited quantity covered by the request will not disturb the Community market; whereas the market situation is such that the application can be granted;

Whereas the Management Committee for Sheepmeat and Goatmeat has not delivered an opinion within the time limit set by its chairman,

HAS ADOPTED THIS REGULATION:

Article 1

The quantity of live sheep and goats other than pure-bred breeding animals falling within subheading 01.04 B of the Common Customs Tariff that may be imported from Romania in 1986, under the Agreement concluded with that country, shall be 550 tonnes expressed as carcase weight bone-in.

The quantity of fresh and chilled sheepmeat and goatmeat falling within subheading 02.01 A IV a) of the Common Customs Tariff that may be imported from Romania in 1986 under the Agreement concluded with that country, shall be nil.

COMMISSION REGULATION (EEC) No 3561/86
of 21 November 1986
fixing the export refunds on baled tobacco from the 1986 harvest

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 727/70 of 21 April 1970 on the common organization of the market in raw tobacco ⁽¹⁾, as last amended by Regulation (EEC) No 1576/86 ⁽²⁾, and in particular the second subparagraph of Article 9 (1) and the first sentence of the third subparagraph of Article 9 (2) thereof,

Whereas under Article 9 of Regulation (EEC) No 727/70 the difference between world prices and Community prices for the products referred to in Article 1 of the said Regulation may be covered by an export refund;

Whereas under Council Regulation (EEC) No 326/71 of 15 February 1971 laying down general rules for granting export refunds on raw tobacco and fixing the amount of such refunds ⁽³⁾ the granting of refunds must be limited to baled tobacco produced from leaf tobacco harvested in the Community; whereas the refunds must be fixed for each variety produced in the Community in the light of the factors referred to in Article 2 (1) of Regulation (EEC) No 326/71;

Whereas for some varieties the outlets are very limited or involve high transport costs; whereas, moreover, some third countries exporting tobacco charge prices which have a marked effect on the competitive position of Community tobacco; whereas Article 4 of Regulation (EEC) No 326/71 foresees criteria to be taken into account in the assessment of the exceptional cases referred to in the second subparagraph of Article 9 (1) of Regulation (EEC) No 727/70; whereas in view of the abovementioned situation it may be concluded that these circumstances constitute exceptional cases which therefore justify the refund being fixed outside the limits specified in the second subparagraph of Article 9 (1) of Regulation (EEC) No 727/70;

Whereas, as a result of progress in processing and market preparation, an increasingly large part of Community production of certain varieties of tobacco is being exported in the form of threshed (stripped) tobacco; whereas, consequently, the amount of the refund should

be differentiated according to the form in which the baled tobacco is presented; whereas for exports of entirely threshed (stripped) tobacco it should be specified that the refund is to be granted only on the strips, not scraps, and the amount should be increased accordingly to take account of the results of threshing; whereas, to avoid any risk of confusion, the strips must measure at least 0,5 centimetres;

Whereas the trade in threshed (stripped) tobacco involves only a few tobacco varieties; whereas some oriental varieties in particular are not threshed on account of their small leaf size; whereas the refund should therefore be differentiated only for strips from varieties which are actually threshed and the differentiated amount worked out by applying to the basic amount set for unthreshed tobacco of the particular variety the coefficient set in the Annex to Commission Regulation (EEC) No 410/76 of 23 February 1976, fixing the maximum permissible weight losses in connection with the supervision of the first processing and market preparation of tobacco ⁽⁴⁾, as last amended by Regulation (EEC) No 2131/86 ⁽⁵⁾;

Whereas, to apply the rules and criteria referred to above in the present situation on the market in tobacco, and in particular in the light of Community and world prices, a refund should be fixed for the products listed in the Annex, at the levels and for the countries specified therein;

Whereas the measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Tobacco,

HAS ADOPTED THIS REGULATION:

Article 1

The list of varieties of baled tobacco from the 1986 harvest on which the export refund referred to in Article 9 of Regulation (EEC) No 727/70 is to be granted, the amount of the refund and the countries of destination shall be as specified in the Annex.

The refund shall be granted on baled tobacco presented in one of the following two forms:

COMMISSION REGULATION (EEC) No 3563/86

of 21 November 1986

on the sale at prices fixed at a standard rate in advance of certain beef from intervention stocks for processing in the Community and repealing Regulation (EEC) No 2908/86

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 805/68 of 27 June 1968 on the common organization of the market in beef and veal ⁽¹⁾, as last amended by Regulation (EEC) No 3768/85 ⁽²⁾, and in particular Article 7 (3) thereof,

Whereas the application of intervention measures in respect of beef has created large stocks in certain Member States;

Whereas, in the present market situation, there are outlets for such meat for processing in the Community;

Whereas such sales should be made subject to the rules laid down by Commission Regulation (EEC) No 2173/79 ⁽³⁾, should also be governed by the rules laid down by Commission Regulation (EEC) No 1687/76 ⁽⁴⁾, as last amended by Regulation (EEC) No 3522/86 ⁽⁵⁾, and by those laid down by Commission Regulation (EEC) No 2182/77 ⁽⁶⁾, as last amended by Regulation (EEC) No 632/85 ⁽⁷⁾, subject to certain special exceptions on account of the particular use to which the products in question are to be put;

Whereas Council Regulation (EEC) No 1055/77 ⁽⁸⁾ provides that, in the case of products stored by an intervention agency outside the territory of the Member State within whose jurisdiction it falls, a different selling price from that for products stored on that territory may be fixed; whereas Commission Regulation (EEC) No 1805/77 ⁽⁹⁾ fixed the method for calculating the selling prices for such products; whereas, to avoid all confusion, it should be expressly stated that the prices fixed by this Regulation are subject to adjustment in the case of those products;

Whereas it seems appropriate to waive the second subparagraph of Article 2 (2) of Regulation (EEC) No

2173/79, taking into account the administrative difficulties which the application of this rule raises in certain Member States;

Whereas Commission Regulation (EEC) No 2908/86 ⁽¹⁰⁾ should be repealed;

Whereas the measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Beef and Veal,

HAS ADOPTED THIS REGULATION:

Whereas the possibility of permanent intervention in beef and veal has led to the build-up of considerable stocks in the Community; whereas some of the intervention purchases have been stored in the form of boned meat in order to improve the intervention system in accordance with Commission Regulation (EEC) No 2226/78⁽³⁾, as last amended by Regulation (EEC) No 3485/86⁽⁴⁾;

Whereas Article 2(1) of Council Regulation (EEC) No 98/69⁽⁵⁾, as amended by Regulation (EEC) No 429/77⁽⁶⁾, provides that the selling prices of frozen beef and veal bought in by the intervention agencies may be fixed in advance; whereas it is appropriate to make use of this system of selling;

(86/561/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular the first subparagraph of Article 93 (2) thereof,

Having regard to Council Regulation (EEC) No 3796/81 of 29 December 1981 on the common organization of the markets in fishery products⁽¹⁾, as last amended by the Act of Accession of Spain and Portugal, and in particular Article 28 thereof,

Having given notice, pursuant to the provisions of the first subparagraph of Article 93 (2) of the Treaty, to those concerned to submit their comments⁽²⁾,

Whereas :

I

Notification and description of the aid

In letters from its Permanent Representative to the European Communities dated 8 July and 22 October 1982, the German Government notified the Commission, in accordance with Article 93 (3) of the EEC Treaty, of its intention to convert into subsidies the market stabiliza-

tion loans made to organizations of producers engaged in inshore and cutter fishing in 1975 and 1976.

This is an aid scheme coming under the area of the market organization for fishery products. Article 6 (2) of Council Regulation (EEC) No 100/76, on the common organization of the markets in fishery products⁽³⁾, and Article 6 (4) of Regulation (EEC) No 3796/81, which succeeded the former Regulation, stipulate that the Member States may make aid available to producers' organizations, either directly or through credit institutions, in the form of loans on special terms to cover part of the anticipated cost of market intervention within the meaning of Article 8 or 9 of these Regulations, i.e. market withdrawal measures. In 1975/76, four German cutter fishing organizations obtained, under this article, loans totalling DM 4 500 000. These were to be reimbursed from 1979 onwards in ten equal annual instalments, the interest rate being between 2 % and 4 %. However, several of these organizations were forced to cease repayments because of economic problems besetting the industry.

The German Government was prepared to forego reimbursement of the amounts of these loans outstanding (DM 3 150 000) provided that all the organizations of cutter fishermen agreed to market their output jointly and to set up a single marketing organization for this purpose. The draft contracts on the conversion into subsidies of the amounts of the loans outstanding stipulated that any producers' organizations withdrawing from joint marketing would be required to reimburse the balance

outstanding by 1989. The balance is calculated on the basis of one-seventh per remaining year of the amount of the debt when the contracts entered into force.

Under Article 28 of Regulation (EEC) No 3796/81, this aid comes under Articles 92, 93 and 94 of the EEC Treaty.

Review by the Commission

After a tentative review, the Commission took the view that the principle of joint marketing of fishery products is compatible with Regulation (EEC) No 3796/81, but that the methods proposed to achieve such marketing, the conversion into subsidies of loans on special terms, are not provided for in the abovementioned Regulation on the market organization; the organization is a comprehensive system and any aid not provided for is liable to interfere with its proper operation; the entry into force of the aid scheme therefore constitutes an infringement of the provision set out in that Regulation.

Accordingly, the Commission decided to initiate, in respect of this aid, the review procedure provided for in Article 93 (2) of the EEC Treaty, and, in a letter dated 23 December 1982, it gave notice to the German Government to submit its comments.

II

Comments of the parties concerned

Several Member States, and one producers' organization, sent comments to the Commission. All these comments endorse the Commission's assessment.

Comments of the German Government

In its reply, sent to the Commission on 25 January 1983, the German Government made the following comments:

1. The purpose is not to grant additional funds to the producers' organizations concerned, but only to cancel the redemption of loans granted in the past, one-third of which had in fact already been reimbursed. Dispensation from reimbursement of annual payments against loans granted is authorized under very strict conditions set by the budgetary legislation of the German Federation. Article 59 (1), Section 3, of the Organic Law on the Federal budget confers on the competent authorities the right to remit claims where recovery in the specific case would entail particular hardship for the debtor.

2. The Commission has acknowledged that the aim of the scheme, i.e. the joint marketing of the products of the organizations concerned, is in line with the objectives of the common organization of the market.

3. The loans on special terms provided for in Article 6 (4) of Regulation (EEC) No 3796/81 are defined only in a very general way and remission of the reimbursement obligation made to avoid jeopardizing the very existence of the debtor could be included in the special terms of these loans. Also, this provision sets no absolute limit to the level of the aid, as the anticipated intervention costs which the aid will cover at least in part have only to be estimated. Nor does it make any restriction with regard to the rate of the interest subsidy, or the number of years for which the reimbursement can be deferred or even for the reimbursement deadlines. It would therefore be possible to grant loans which would provide equal cover of intervention costs and identical terms of reimbursement but would represent a subsidy equivalent exceeding the amount concerned in this case.

4. The scheme has a structural character because of its long-lasting impact on the improvement of the facilities for marketing fishery products, since the remission of the debt is linked with an obligation on producers' organizations to market their products jointly without limitation as to time. Failure to comply with this obligation entails a requirement to repay the loan, that is, cancellation of the remission. The structural objective of the scheme, which requires the beneficiary organization to adopt an attitude in line with the market organization for fishery products, is therefore achieved with limited means and underpinned by a strict obligation. These structural effects of the scheme are such as to qualify it under Article 92 (3) (c) of the EEC Treaty. Rulings of the Court of Justice of the European Communities to the effect that national aid not provided for under existing market organizations is automatically incompatible with the Treaty, refer to aid concerning products and not aid designed to ensure improvement of production or marketing structure.

5. According to the guidelines concerning aid for the purchase of fuel for heating glasshouses, the Commission would not be opposed to such aid in view of the structural aspect, although it is operating aid coming under Council Regulation (EEC) No 1035/72⁽¹⁾ on the common organization of the market in the fruit and vegetables sector.

6. Articles 8 and 9 of Council Regulation (EEC) No 101/76, on the establishment of a common policy on structures in the fisheries sector⁽²⁾, authorize Member States to grant financial aid which contributes to the

⁽²⁾ OJ No L 20, 28. 1. 1976, p. 19.

adaptation of production and marketing conditions in relation with market requirements. This would cover not only investment aid but also other aid in line with the same objectives.

The German Government's conclusion is that the aid scheme concerned can be considered compatible with the common market by virtue of Article 92 (3) (c) of the EEC Treaty.

In a supplementary communication dated 14 May 1984, replying to letters from the Commission dated 17 November 1983 and 26 April 1984, the German authorities provided further information on the financial situation of the producers' organizations concerned, showing that reimbursement of the loan would prevent these organizations from continuing their work and indicating the legal consequences for the cooperatives (legal status of the producers' organizations), which would no longer be in a position to settle their debts. The balance sheets of the producers' organizations show that they would no longer be in a position to ensure pursuit of their operations if they had to reimburse the loans. Also, under German legislation on cooperatives, the bankruptcy procedure is activated at the time of excess debt, a situation faced by all the beneficiaries concerned.

III

Legal assessment

On the initiation of the Article 93 (2) procedure in respect of this aid scheme the Commission stated that the aim of the scheme seemed favourable to the development of the market, as sought by the common market organization, but that the method chosen by the German Government for this purpose was not in line with Article 6 of Regulation (EEC) No 3796/81. Meetings between German officials and Commission staff, and an exchange of letters between the German Government and the Commission, failed to yield a solution other than that proposed in the notification. In these circumstances, the German Government decided to grant the aid provisionally; in the contracts with the producers' organizations there is a clause providing for cancellation of the commitment of the German Government to forego reimbursement of the loans should there be a Commission decision to the effect that the aid is incompatible.

Article 6 (4) of Regulation (EEC) No 3796/81 stipulates that, during the five years immediately following the crea-

tion of the intervention funds referred to in Article 9 of the same Regulation (financing of withdrawal), Member States may make aid available to producers' organizations, i.e. either directly or through credit institutions, in the form of loans on special terms to cover part of the anticipated cost of market intervention within the meaning of Article 9. However, the purpose of the German aid in question is the conversion into outright grants of such loans made to organizations of cutter fishermen in 1975 and 1976.

A broad interpretation of the expression 'special terms' for the loans mentioned above, going so far as to cover actual remission of the repayment requirement, cannot be accepted since an outright grant is not a 'loan' at all. Community Regulations provide for the grant of loans, even on favourable redemption terms, only '... to cover part of the anticipated cost of market intervention within the meaning of Article 9' (of Regulation (EEC) No 3796/81). It follows that a comparison of the amount of the aid, in subsidy equivalent, in the form of direct subsidy is ruled out, since to forego completely reimbursement of a loan is tantamount to the granting of a new non-repayable subsidy. It would thus constitute a direct aid to producers' organizations in conflict with the restrictive provisions of Article 6 (4) of the abovementioned Regulation. Also, the original loans were granted under either Article 6 (2) of Council Regulation (EEC) No 2142/70⁽¹⁾ or Article 6 (2) of Regulation (EEC) No 100/76 (since superseded by Article 6 (4) of Regulation (EEC) No 3796/81), which provide for this measure a time limit of five years following the constitution of the intervention funds referred to in Articles 7 and 8, respectively. The subsequent conversion of these loans must be deemed to be a new aid having in principle the same objective, i.e. to cover part of the anticipated cost of intervention on the market for withdrawals, but the granting of which in 1983 came after the time limit set and was, for this reason, in conflict with the Regulations.

The aid cannot be considered as aid benefiting structures which would have a lasting effect on the improvement of marketing facilities. The objective sought was the joint marketing of the products of the beneficiary producers' organizations. This aim, though desirable under the market organization, is not covered by the types of measure referred to in the second indent of Article 9 of Regulation (EEC) No 101/76 concerning the adaptation of marketing conditions, in particular through the development of conservation and treatment facilities necessary to strengthen the effectiveness of the work of the producers' organizations.

⁽¹⁾ OJ No L 236, 27. 10. 1970, p. 5.

The joint marketing referred to here is one of the normal marketing measures, which may require the constitution of a new organization structure, which may therefore be stimulated by the aids provided for in Article 6 of the abovementioned Regulation on the common organization of the market. The aid concerned has no direct link with this joint marketing, but is designed to restore the producers' organizations to a sound financial footing, thus facilitating for them the creation of new organizational structures, e.g. joint marketing. The link between the aid and such joint marketing is relied upon by the German authorities to justify the 'structural' nature of the measure, but neither the grant itself nor the amount of the aid have a comparative basis with any costs that may be involved in instituting joint marketing.

The reference to the guidelines on aid for the purchase of fuel for heating glasshouses is immaterial; the fuel aid enjoyed an authorization restricted in time on severe terms to enable horticulturists to adapt to the sharp increases in oil prices. Such a temporary authorization was also agreed for fisheries. This operating aid concerned and its purpose was to cushion the impact of a sharp increase in a production cost which cannot be recuperated by necessary structural measures, the effect of which can only be achieved in the longer term. There is no direct link with the marketing of the products concerned and the aid concerned therefore cannot be considered as a marketing aid, interfering directly in the common organization of the market.

The conversion of loans into subsidies cannot therefore qualify under the strict terms governing the grant of certain aids to producers' organizations, laid down in Article 6 of Regulation (EEC) No 3796/81. It has a direct impact on the financial situation of the cutter fishermen's organizations in Germany, especially with regard to possibilities for support of autonomous withdrawal prices, as the intervention funds available to each organization are increased indirectly by the amounts of the loans which are not repaid. These intervention funds, normally provided by levies based on quantities sold, cannot qualify for financial compensation from public funds. The difficult financial situation of these organizations when the relevant aid was granted cannot justify the grant of an aid conflicting with the Regulations on the common organization of the markets.

It should also be recalled that the producers' organizations receiving the aid also benefited from the financial compensation arrangements for withdrawals provided for in Community Regulations. This strengthening of their competitive situation may have a negative influence on their readiness to adapt towards the objectives set under the common organization of the markets, i.e. an incentive

to tailor supply more closely to market needs; there is also discrimination against competing producers' organizations, which had not enjoyed the same financial advantages.

A stronger competitive situation for these organizations weakens that of producers in the other Member States, since only about a quarter of the German market is covered by its own landings and about half the supplies are imports from the other Member States; Germany exports about half of its production and, of this, three-quarters goes to other Member States (1984).

IV

Aid in the form of release from the obligation to repay loans made to producers' organizations jeopardizes the proper operation of the EEC market organization and runs counter to the objectives of the organization. It therefore constitutes an infringement of Community law.

The scheme in question, being a support measure financed from State resources and strengthening the competitive position of German producers vis-à-vis that of producers in the other Member States, is a state aid incompatible with the common market within the meaning of Article 92 (1) of the EEC Treaty. None of the derogations laid down in Article 92 (2) of the EEC Treaty is applicable in this case.

As for the derogations laid down in Article 92 (3) of the EEC Treaty, the Court of Justice of the European Communities has consistently held that, wherever the Community has adopted regulations establishing market organizations, Member States must refrain from any action liable to entail exceptions to the organization or to hamper its operation, having due regard not only to express provisions but also to the objectives of the regulations. It follows from the foregoing that the scheme in question is harmful to the market organization in the relevant sector and is thus a measure infringing Community law. Consequently, this measure may in no circumstances qualify for the derogations laid down in Article 92 (3) of the EEC Treaty (1).

To ensure compliance with Community law, the scheme in question, if it has not yet been discontinued by the German Government, must be brought to an end without delay.

This Decision is without prejudice to the consequences which, as appropriate, the Commission may draw with regard to the recovery of the abovementioned aid from beneficiaires and with regard to the financing of the common fisheries policy by the EAGGF,

HAS ADOPTED THIS DECISION :

COMMISSION DIRECTIVE

of 6 November 1986

adapting to technical progress Council Directive 71/127/EEC on the approximation of the laws of the Member States relating to the rear-view mirrors of motor vehicles

(86/562/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Directive 70/156/EEC of 6 February 1970 on the approximation of the laws of Member States relating to the type-approval of motor vehicles and their trailers ⁽¹⁾, as last amended by Directive 80/1267/EEC ⁽²⁾, and in particular Article 11 thereof,

Having regard to Council Directive 71/127/EEC of 1 March 1971 on the approximation of the laws of the Member States relating to the rear-view mirrors of motor vehicles ⁽³⁾, as last amended by Commission Directive 85/205/EEC ⁽⁴⁾;

Whereas all rear-view mirrors EEC component type-approved after 1 October 1986 must bear the EEC component type-approval mark with the sequence number 02; whereas sequence number 01 may still be used for Class I, II and III mirrors for so long as the requirements for those three classes of rear-view mirrors remain unchanged;

Whereas a great many rear-view mirrors incorporate protective plastic casings and whereas a change to a single digit of the component type-approval mark would involve a major, if not complete modification of the moulding equipment used; whereas the cost of these modifications would be unjustifiably out of proportion to the intended aim;

Whereas the measures provided for in this Directive are in accordance with the opinion of the Committee for the Adaptation to Technical Progress of Directives on the removal of technical barriers to trade in the motor vehicles sector,

HAS ADOPTED THIS DIRECTIVE:

Article 1

Directive 71/127/EEC is hereby amended as follows:

1. The following is added to the end of item 4.2 of Appendix 2 in Annex II:

'Sequence number 01 may, however, be retained for Class I, II and III rear-view mirrors if the requirements relating to these three classes of mirror remain unchanged.'

2. A new item 1.3 as follows is added to Annex III:

'1.3. Vehicles having received EEC type-approval in respect of the fitting of their rear-view mirrors in pursuance of this Directive may, either fully or in part, be fitted with Class I, II or III rear-view mirrors bearing within their EEC component type-approval number sequence number 01, on condition that the requirements relating to these three classes of rear-view mirror remain unchanged.'

Article 2

Member States shall bring into force the provisions necessary to comply with this Directive by 31 December 1986. They forthwith inform the Commission thereof.

COMMISSION DECISION

of 12 November 1986

amending Decision 81/675/EEC establishing that particular sealing systems are 'non-reusable systems' within the meaning of, *inter-alia*, Council Directives 66/401/EEC and 69/208/EEC

(86/563/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

HAS ADOPTED THIS DECISION:

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Directive 66/401/EEC of 14 June 1966 on the marketing of fodder plant seed⁽¹⁾, as last amended by Directive 86/155/EEC⁽²⁾, and in particular Article 9 (1) thereof,

Having regard to Council Directive 69/208/EEC of 30 June 1969 on the marketing of seed of oil and fibre plants⁽³⁾, as last amended by Directive 86/155/EEC, and in particular Article 9 (1) thereof,

Whereas Commission Decision 81/675/EEC⁽⁴⁾, established that particular sealing systems were 'non-reusable systems' within the meaning of certain Council Directives on the market of seed and propagating material, including Directive 66/401/EEC and Directive 69/208/EEC;

Whereas it was understood at the time that the use of one of the systems concerned, which was then specified exclusively for cereal seed, should show a tendency to decrease in favour of new systems and should be reconsidered after five years;

Whereas experience has shown that the said system provides a sufficient guarantee of effectiveness and should furthermore also be considered to be a 'non-reusable system' within the meaning of Directive 66/401/EEC and Directive 69/208/EEC for the seed of certain species of fodder plants and oil and fibre plants;

Whereas the measures provided for in this Decision are in accordance with the opinion of the Standing Committee on Seeds and Propagating Material for Agriculture, Horticulture and Forestry,

Article 1

In Article 1 (2) of Decision 81/675/EEC the words 'within the meaning of Article 9 (1) of Directive 66/402/EEC' are hereby replaced by the following words:

'within the meaning of:
