THE EUROPEAN ECONOMIC COMMUNITY,

THE REPUBLIC OF CYPRUS,

of the other part,

HAVING REGARD to the Agreement establishing an Association between the European Economic Community and the Republic of Cyprus signed at Brussels on 19 December 1972, hereinafter referred to as the Agreement,

CONSIDERING that, under the terms of Article 2 (2) of the Agreement, the first stage was due to expire on 30 June 1977, but this stage has, however, been extended by the Additional Protocol to the Agreement, signed on 15 September 1977, until 31 December 1979 and subsequently, by the Transitional Protocol to the Agreement, signed on 7 February 1980, until 31 December 1980;

CONSIDERING that, at its meeting of 24 November 1980, the Association Council decided that the two Parties would enter the process into the second stage of the Agreement;

1. The rates of Cypriot tariff dismantling set out in Articles 5 and 6 may, in the first phase of 10 years, be adapted as necessary by the Association Council to take account of the economic development of Cyprus and the priorities laid down in the Cypriot development plan.

2. Following an application by Cyprus to the Community, the Association Council may, in order to meet the requirements of industrialization and development in

Cyprus, authorize Cyprus to reintroduce, increase or establish customs duties on products originating in the Community by up to 20 % *ad valorem* and in exceptional cases by up to 25 % *ad valorem*.

3. Cyprus may take appropriate measures, in accordance with the provisions of paragraphs 1 and 2 after informing the Association Council, where an increase in imports of a given product is or is likely to be seriously detrimental to the requirements of industrialization and development in Cyprus and where this increase is due to:

- the partial or total reduction by Cyprus, as provided for in Articles 5 and 6, of customs duties and charges having equivalent effect levied on the product in question, and
- the fact that the duties or charges having equivalent effect levied by the Community, on imports of raw materials or intermediate products used in the manufacture of the product in question are significantly lower than the corresponding duties or charges levied by Cyprus.

4. The measures referred to in paragraph 3 shall be examined within the Association Council. This examination shall take place within 30 working days of the notification of such measures by Cyprus. If the Association Council has not approved, within 30 working days, the measures taken by Cyprus, these measures shall be abolished.

6. In the event of Cyprus applying tariff measures referred to in paragraphs 1, 2, 3 and 4, preference in favour of products originating in the Community shall be maintained by an adaptation of the duties applied by Cyprus in respect of imports from third countries.

7. The measures referred to in paragraphs 1, 2, 3 and 4 shall be progressively eliminated according to a timetable agreed by the two contracting parties and abolished at the latest by the end of the first phase of the second stage of the Agreement.

The Association Council in exceptional cases may approve the extension of certain measures beyond the first phase.

Article 8

The Cypriot Customs Tariff apart from that applied on products listed in Annex 1 to this Protocol and in Annex I,

1. In the cases of products on which the duties actually applied by Cyprus at the date indicated above do not differ from the Common Customs Tariff by more than 15 % either way, the latter shall be applied by Cyprus from the entry into force of this Protocol.
2. In other cases, Cyprus shall apply, two months after the entry into force of this Protocol, duties reducing by 9 % the difference between the rate actually applied and the duty in the Common Customs Tariff.

Nine further reductions, each of 9 % shall be made at the beginning of the second, third, fourth, fifth, sixth, seventh, eighth, ninth and tenth years respectively after the entry into force of this Protocol.

The Common Customs Tariff shall be applied in its entirety at the beginning of the eleventh year following the entry into force of this Protocol, subject to the provisions of Article 7 (6) and (7).

3. In the event of the Common Customs Tariff being modified during the above period of 10 years, the rate of alignment shall be adjusted to ensure that the difference between the Cypriot Customs Tariff and the CCT is eliminated in equal steps between the date of modification of the CCT and the beginning of the eleventh year.

Article 9

Notwithstanding Article 8, Cyprus shall, for the products listed in Annex 2, align its customs tariff on the Common Customs Tariff in accordance with the following rules:

1. Cyprus shall apply, two months after the entry into force of this Protocol, duties reducing by 4 % the difference between the rate applied on 1 January 1986 and the duty in the Common Customs Tariff.
2. Two further reductions, each of 4 % shall be made at the beginning of the second and third years.

This difference shall be further reduced by three reductions, each of 6 % at the beginning of the fourth, fifth and sixth years and by four reductions each of 15 % at the beginning of the seventh, eighth, ninth and tenth years.

The Common Customs Tariff shall be applied in its entirety at the beginning of the eleventh year following the entry into force of this Protocol.

7. The Association Council may, in the context of the Decision to pass from the first phase to the second phase of the second stage, approve the extension of the provisions of paragraph 1 for products in Annex 3 beyond the first phase.

For the products set out in Annex 6 destined for home consumption originating in the Community, Cyprus shall for the quantities indicated in Annex 6 automatically issue import licences within a period of five working days from the submission of the request. Should they not be issued within this period, the goods in question may be freely imported.
2. The quantities for certain products listed in Annex 6 shall be increased by 30 % during the first phase of the second stage in 10 annual equal steps of 3 % of the initial quantity applicable upon the entry into force of this Protocol.

The first increase shall be made to the initial quantity on 1 January of the year following the entry into force of this Protocol.

3. Annex 7 shall define the rules which shall be applied by Cyprus for the administration of the quantities laid down in Annex 6.

4. Either the Community or Cyprus may propose, during the first phase, within the Association Council, to change the list of products in Annex 6 if such a change would be to the benefit of the contracting parties.

Section VI

Mechanisms of the common agricultural policy

Article 25

The application of the frontier mechanisms of the common agricultural policy shall not be affected during the first phase of the second stage, subject to special arrangements applied to certain products falling under Annex II of the Treaty establishing the European Economic Community in Articles 20 and 21 of this Protocol.

Article 26

1. The free movement of agricultural products, covered in the Agreement and the present Protocol by reciprocal concessions, shall be conditional on an agreement being made in the framework of the decision taken by the Association Council for the passage to the second phase of the second stage, on the following principles:
 - (i) the introduction by Cyprus of Community quality standards for these products;
 - (ii) the application by Cyprus internally of domestic price constraints for these products similar to those in force in the Community, with a view to ensuring the stability of the domestic market and avoiding market crises. In this connection and with a view to preventing recourse to safeguard measures, procedures shall be set up for the identification of a state of crisis on the market and provision for measures which Cyprus should apply on its domestic market in relation to the degree of disturbance or risk of disturbance;
 - (iii) the application by Cyprus of Community measures for these products at the Cyprus frontier.
2. With a view to implementing the principles referred to in paragraph 1, Cyprus shall submit suggestions to the Community during the first phase of the second stage as to the effective measures Cyprus will adopt under its own responsibility on both its domestic market and at its frontiers

which will enable free movement of the products referred to in paragraph 1 to be established.

3. The Community shall define its position on the suggestions of Cyprus referred to in paragraph 2, in the light, notably, of the policy debate within the bodies of the Association Council.

The Association Council shall decide on this subject before the end of the first phase of the second stage.

CHAPTER IV

HARMONIZATION OF ACCOMPANYING POLICIES

Article 27

1. The Contracting Parties recognize that the principles laid down in Articles 85 (agreements between undertakings), 86 (dominant position of an undertaking), 90 (public undertakings), 92 (State aid), 95 (taxation of products), 96 (repayments on exportation), 97 (turnover taxes), 98 (remissions and repayments in respect of exports) and 100 (approximation of laws) of the Treaty establishing the European Economic Community shall be applied in their relations within the Association.

2. The conditions and detailed rules for the application of these principles and the guarantees relating to their proper application shall be examined by the Contracting Parties during the first phase of the second stage within the Association Council.

3. The measures referred to in paragraph 2 that are essential to ensure the smooth functioning of the Customs Union shall be agreed between the Contracting Parties and laid down in a Protocol which shall enter into force at the beginning of the second phase at the latest.

Article 28

1. From the entry into force of the second stage in accordance with the principles set out in Article 27 concerning Articles 85, 86 and 92 of the Treaty establishing the European Economic Community, the following are incompatible with the proper functioning of the Agreement insofar as they may affect trade between the Community and Cyprus:

- (a) all agreements between undertakings, decisions by associations of undertakings and concerted practices between undertakings which have as their object or effect the prevention, restriction or distortion of competition as regards the production of or trade in goods;
- (b) abuse by one or more undertakings of a dominant position in the territories of the Contracting Parties as a whole or in a substantial part thereof;

(c) any public aid which distorts or threatens to distort competition by favouring certain undertakings or the production of certain goods.

2. Should a Contracting Party note that any such practice as is referred to in paragraph 1 is being applied by its partner, it may take appropriate measures after consultations within the Association Council.

TITLE II

SECOND PHASE

Article 29

1. The second phase of the second stage shall enter into force by a Decision of the Association Council.

2. The second phase of the second stage shall have a duration of five years that could be reduced to four years by a Decision of the Association Council.

3. The provisions of the first phase of the second stage shall continue to apply until the entry into force of the second phase.

Article 30

1. For the passage to the second phase of the second stage, as referred to in Article 29, the Association Council shall take a Decision on:

- (a) the regime that will apply to the movement of goods;
- (b) any measures concerning accompanying policies referred to in Article 27, not adopted during the first phase of the second stage;
- (c) measures concerning the free movement of certain agricultural goods covered in the Agreement by reciprocal concessions;
- (d) the provisions referred to in Title I, Chapters II and III of this Protocol.

2. In the second phase of the second stage of the Agreement the measures decided by the Association Council, referred to in paragraph 1, that are necessary to ensure the transition to the customs union shall be applied.

3. Trade in products falling under Annex II of the Treaty establishing the European Economic Community and trade in products subject to specific measures of Community trade policy shall, without prejudice to the Decision of the Association Council foreseen in paragraph 1 concerning products other than those referred to above, continue to be

based on the system of rules of origin referred to in Article 2 for as long as the conditions of free circulation of these products shall not be completely fulfilled.

4. The measures agreed by the Association Council to ensure the free movement of certain agricultural products as laid down in Article 26 shall be applied by Cyprus in accordance with the agreed timetable.

5. Having regard to the actual application by Cyprus of the measures referred to in paragraph 1 according to the agreed timetable, the Community shall dismantle its own frontier price mechanisms for these products at the same time and according to the same timetable.

Article 31

The customs union shall be fully achieved at the end of the second phase of the second stage.

TITLE III

GENERAL AND FINAL PROVISIONS

Article 32

1. A Trade and Economic Cooperation Committee shall be set up for the purpose of improving the working of the institutional mechanisms of the Agreement.

The Committee shall facilitate:

- the regular exchange of information on trade and production data and forecasts,
- the regular exchange of information on the possibilities for cooperation in areas covered by the Agreement.

The office of the chairman of the Committee shall be held alternately by a representative of the Commission of the European Communities and a representative of Cyprus.

2. The Association Council shall determine as soon as possible the composition of this Committee and how it shall function in accordance with Article 14 (2) of the Agreement. It may also decide where appropriate upon the submission of reports to the Council by the Committee.

Article 33

Either Contracting Party shall, if so requested by the other Contracting Party, provide all relevant information on any agreements it concludes containing tariff or trade provisions, and on any amendments to its customs tariff or external trade arrangements.

Where such amendments or agreements have a direct and specific impact on the functioning of the Agreement, appropriate consultations shall be held within the Association Council at the request of the other Contracting Party.

Article 34

1. Either Contracting Party may refer to the Association Council any dispute relating to the interpretation of the Agreement and of concern to the Community, a Member State of the Community or Cyprus.

2. The Association Council may settle the dispute by means of a decision.

3. Each Party shall be bound to take the measures involved in carrying out the decision referred to in paragraph 2.

4. In the event of it not being possible to settle the dispute in accordance with paragraph 2 of this Article, either party may notify the other of an appointment of an arbitrator; the other Party must then appoint a second arbitrator within two months. For the application of this procedure the Community and the Member States shall be deemed to be one Party to the dispute.

The Association Council shall appoint a third arbitrator.

The decisions of the arbitrators shall be taken by majority vote.

Each Party to the dispute must take the measures required for the implementation of the arbitrators' decision.

Article 35

Annexes 1, 2, 3, 4, 5, 6 and 7 and also the declarations and exchanges of letters in the Final Act shall form an integral part of this Protocol.

This Protocol shall form an integral part of the Agreement between the European Economic Community and the Republic of Cyprus.

Article 36

1. This Protocol shall be ratified, accepted or approved by the Contracting Parties in accordance with their own procedures; the Contracting Parties shall notify each other of the completion of the procedures necessary to that end.

2. This Protocol shall enter into force *on the first day of the month* following the said notification.

Joint Declaration by the Contracting Parties concerning Article 29 of the Protocol laying down the conditions and procedures for the implementation of the second stage of the Agreement establishing an Association between the European Economic Community and the Republic of Cyprus and adapting certain provisions of the Agreement

It is the understanding of the Contracting Parties that the completion of the second stage of the Agreement concerning the establishment of a customs union shall be fully achieved within 15 years of the entry into force of the Protocol.

Joint Declaration by the Contracting Parties on Articles 11, 12, 18, 19, 22 and 24 of the Protocol

1. The Contracting Parties are agreed that, should the entry into force of the Protocol not coincide with the start of the calendar year, the quantitative limits referred to in Articles 11, 12, 18, 19, 22 and 24 of the said Protocol shall be applied on a *pro rata* basis.
2. The Contracting Parties are further agreed that the charging against quantitative limits of Community imports of products originating in Cyprus and Cypriot imports of products originating in the Community subject to such limits under the Protocol shall begin on 1 January of each year.

Joint Declaration by the Contracting Parties concerning new potatoes falling under the Common Customs Tariff heading Number 07.01 A II ex a)

To avoid disturbance on the Community market, the Contracting Parties agree to meet within an Advisory Working Party to examine the situation on the potato markets (state of harvests and supply situation) both in the Community importing countries and in the Mediterranean exporting countries. The members of this Working Party will be designated by the governments of the main exporting and importing countries.

The working party, chaired by the Commission, would meet at least three times a year and in particular before sowing takes place in the exporting countries, and at the time of deliveries.

These meetings would enable the main potato-exporting countries to be informed both about the receiving markets and about competing markets, and their purposes would be to draw up indicative export timetables designed to prevent deliveries being concentrated around sensitive periods for the Community market.

Joint Declaration by the Contracting Parties concerning the rules of origin

1. The Contracting Parties, taking into consideration the progressive application by Cyprus of the Common Customs Tariff during the second stage of the Agreement, agree that, for the purpose of the implementation of the Protocol concerning the definition of 'originating' products and on methods of administrative cooperation, the special provisions mentioned in List A to that Protocol shall not be applicable to imports of products falling under tariff heading No 61.01.
2. The Community has taken good note of the additional Cypriot demands for derogations under headings 61.02 and 61.03 on which a decision will be taken in the appropriate bodies of the Community and of the Association Council within three months of the entry into force of this Protocol.
3. The Community declares its readiness to examine in the first phase of the second stage specific requests by Cyprus, duly substantiated, for further derogations from the rules of origin.
4. As to the abolition of rules of origin for trade in products covered by the customs union between the Community and Cyprus, the Association Council will take a decision in the context of Article 30 of the Protocol upon being satisfied that Cyprus:
 - has completely adopted the Common Customs Tariff for those products in the customs union,
 - has taken all measures to apply relevant Community trade policy measures, concerning which the Community will inform the Republic of Cyprus in due time.

Such decision should be taken before the end of the first phase as laid down in Article 1 (2) of the Protocol.

Declaration by the European Economic Community concerning a third financial Protocol

The Community reaffirms its willingness to examine, as from January 1, 1988, with the Republic of Cyprus the arrangements for financial cooperation that could be made in a third financial Protocol, taking into account the new relationship established with the present Protocol, which might put special emphasis on the financing of the Cypriot productive sectors in order to facilitate their adjustment to the new competitive conditions.

Declaration by the representative of the Federal Republic of Germany on the definition of German nationality

Every German person, within the meaning of the basic constitutional law applying in the Federal Republic of Germany, is considered as a national of the Federal Republic of Germany.

Declaration by the representative of the Federal Republic of Germany on the application of the Protocol to Berlin

The Protocol shall also apply to Land Berlin provided that no statement to the contrary by the Government of the Federal Republic of Germany is addressed to the other Contracting Parties within three months of the entry into force of the Protocol.

Declaration by the Republic of Cyprus on the valuation of goods for customs purposes

The Government of the Republic of Cyprus declares that, with a view to facilitating the passage of the second stage of the Agreement between the Community and Cyprus and to ensuring the uniform application of the Common Customs Tariff, Cyprus will:

- take the necessary steps to accept the Agreement on Implementation of Article VII of the General Agreement on Tariff and Trade (GATT valuation code) and, no later than the date of entry into force of the Protocol laying down the conditions and procedures for the implementation of the second stage of the Agreement establishing an Association between the European Economic Community and the Republic of Cyprus and adapting certain provisions of the Agreement, to apply the GATT valuation code,
- no later than the end of the first phase of the second stage adapt its legislation to bring it into conformity with the Community's provisions on the valuation of goods for customs purposes,
- maintain close consultation with the Commission of the European Communities on matters regarding the application of the aforesaid code and that of the aforesaid legislation and provisions.

Declaration by the Republic of Cyprus concerning the products of Annex 1, 5 and 6 of the Protocol laying down the conditions and procedures for the implementation of the second stage of the Agreement

The Government of the Republic of Cyprus declares that, in respect of the products in Annexes 1, 5 and 6 of the Protocol, Cyprus will ensure that the General Customs Tariff of Cyprus is not increased on these products originating in the Community and that the application of the import licensing system does not damage the Community's traditional trade in the same products. In cases where measures may appear necessary in the interests of the balanced development of the Cypriot economy, prior information will be given to the Community which may give rise to consultations within the Association Council.

Article 9

Quantitative restrictions may be applied to imports into Spain of products originating in Cyprus:

- (a) until 31 December 1989 in respect of the products listed in Annex V;

Article 10

In the case of products referred to in Article 7 (1) which are not subject on 1 March 1986 to a common organization of the market, the provisions of the Agreement concerning the elimination of charges having equivalent effect to customs duties and the abolition of quantitative restrictions and measures having equivalent effect shall not apply to such charges, restrictions or measures where they form an integral part of a national organization of the market in Spain at the time of accession.

This provision shall apply only until a common organization of the market is established for such products or until 31 December 1995, whichever is the earlier, and only insofar as is strictly necessary to ensure the functioning of the national organization.

Section III

Canary Islands and Ceuta and Melilla

Article 11

1. Without prejudice to the following provisions, the arrangements for trade between the Canary Islands and Ceuta and Melilla on the one hand and Cyprus on the other shall be the same as those for trade between the Community and Cyprus, provided the Republic of Cyprus accords products originating in the Canary Islands and Ceuta and Melilla the same treatment it accords those from the Community.

2. Customs duties applied by the Canary Islands and Ceuta and Melilla to products other than those listed in Annex II to the Treaty establishing the European Economic Community and the charge known as 'arbitrio insular — tarifa general' existing in the Canary Islands shall be dismantled in respect of products originating in Cyprus in accordance with the same timetable and arrangements indicated in Articles 2, 3 and 4.

3. Customs duties existing in the Canary Islands and in Ceuta and Melilla with regard to products listed in Annex II to the Treaty establishing the European Economic Community and originating in Cyprus shall be aligned progressively on the preferential duties applied by the Community in respect of such products subject to the proviso that those territories may accord more favourable treatment to such products than the Community does.

In no case shall duties be dismantled at a faster rate or otherwise than is laid down in Articles 2, 3 and 4.

4. The charge known as 'arbitrio insular — tarifa especial' in the Canary Islands shall be abolished in respect of products originating in Cyprus as from the entry into force of this Protocol.

However, the said charge may be retained in respect of imports of the products listed in Annex VI at 90 % of the rate therein indicated provided the lower rate is applied uniformly to all imports of the products in question originating in Cyprus. The charge shall be abolished when it is abolished *vis-à-vis* the Community.

The said charge may at no time be higher than the Spanish Customs Tariff as amended with a view to the phasing-in of the Common Customs Tariff.
