#### REGULATION (EC) No 1484/2001 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 27 June 2001

#### amending Council Regulation (EEC) No 3528/86 on the protection of the Community's forests against atmospheric pollution

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 175(1) thereof,

Having regard to the proposal from the Commission (1),

Having regard to the opinion of the Economic and Social Committee (2),

Having consulted the Committee of the Regions,

Acting in accordance with the procedure laid down in Article 251 of the Treaty (3),

#### Whereas:

- The period of application of Regulation (EEC) No 3528/ (1) 86 (4) expired on 31 December 1996. The said Regulation was amended by Regulation (EC) No 307/97 (5). In its judgment of 25 February 1999 in Joined Cases C-164/97 and C-165/97 (6) the Court of Justice of the European Communities annulled Council Regulation (EC) No 307/97 but preserved its legal effects pending the adoption of a new Regulation which replaces the Regulation annulled. In order to guarantee legal certainty, the validity of the measures taken in application of the annulled Regulation should be ensured.
- Forests play an essential part in maintaining funda-(2) mental ecological balances, particularly as regards the soil, water resources, climate, fauna and flora. Those ecological balances are indispensable for sustainable agriculture and the management of rural areas.

- The importance of forests in the ecosystems of the Member States of the Community should be taken into
- The conservation of the forest ecosystems reflects economic, ecological and social concerns and contributes, in particular, towards safeguarding the social function of those working in agriculture and in rural areas.
- The Community and the Member States committed (5) themselves at international level at the three pan-European Ministerial Conferences on the Protection of Forests in Europe, held in Strasbourg in 1990, in Helsinki in 1993 and in Lisbon in 1998, to continuous surveillance of forest damage. The Community scheme provided for by Regulation (EEC) No 3528/86 contributes to the fulfilment of this commitment.
- Results from the systematic survey network show obvious trends in spatial and temporal distribution of forest damage over the entire area of the Community.
- Plots for the intensive and continuous monitoring of forest ecosystems have been set up by the Member States. A continuation of this monitoring activity over a longer period will improve understanding of the causal relationship between changes in forest ecosystems and the factors influencing them.
- Damage caused to forests by various factors, especially atmospheric pollution and certain unfavourable meteorological factors, hampers the development of sustainable agricultural activity and the management of rural areas.
- The protection of forests against atmospheric pollution (9) and other unfavourable meteorological factors therefore contributes directly to the achievement of the aims set out in Article 33(1)(b) of the Treaty.

- (10) Consequently the scheme provided for by Regulation (EEC) No 3528/86 should be continued and its duration extended for five years, its period of application thereby being extended to 15 years as from 1 January 1987.
- (11) The measures necessary for the implementation of Regulation (EEC) No 3528/86 should be adopted in accordance with Council Decision 1999/468/EC of 28 June 1999 laying down the procedures for the exercise of implementing powers conferred on the Commission (¹).
- (12) This Regulation establishes for the entire duration of the measure a financial framework which is to be the principal point of reference, within the meaning of point 33 of the Interinstitutional Agreement of 6 May 1999 between the European Parliament, the Council and the Commission on budgetary discipline and improvement of the budgetary procedure (2), for the budgetary authority under the annual budgetary procedure.
- (13) Regulation (EEC) No 3528/86 should accordingly be amended,

#### REGULATION (EC) No 1485/2001 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 27 June 2001

# amending Council Regulation (EEC) No 2158/92 on protection of the Community's forests against

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 175(1) thereof,

Having regard to the proposal from the Commission (1),

Having regard to the opinion of the Economic and Social Committee (2),

Having consulted the Committee of the Regions,

Acting in accordance with the procedure laid down in Article 251 of the Treaty (3),

#### Whereas:

- Since the rural communities, in particular foresters and stock farmers, who are the main trustees of Europe's forest heritage, and in particular their professional organisations, play a fundamental role in drawing up regional fire prevention action plans, in practising preventive silviculture and as first-line firefighters, it is important to create the conditions for the effective participation of these people in the protection of European forests against this abiotic agent.
- The period of application of Regulation (EEC) No 2158/ (2) 92 (4) expired on 31 December 1996. The said Regulation was amended by Council Regulation (EC) No 308/ 97 (5). In its judgment of 25 February 1999 in Joined Cases C-164/97 and C-165/97 (6) the Court of Justice of the European Communities annulled Council Regulation (EC) No 308/97 but preserved its legal effects pending the adoption of a new Regulation which replaces the Regulation annulled. In order to guarantee legal certainty, the validity of the measures taken in application of the annulled Regulation should be ensured.
- Forests play an essential part in maintaining fundamental balances, particularly as regards the soil, water resources, climate, flora and fauna. Those ecological balances are indispensable for sustainable agriculture and the management of rural areas.
- The importance of the Mediterranean forests in the (4) ecosystems of the Member States in the south of the

Community, particularly the regions affected by desertification, should be taken into account.

- The conservation of the forest ecosystem reflects (5) economic, ecological and social concerns and contributes, in particular, towards maintaining the social situation of those people working in agriculture and in rural
- The Community and the Member States attach particular importance to the protection of their forest resources and have given international undertakings on the sustainable development of forests and the protection of forest regions, in particular during the United Nations World Conference on the Environment and Development in Rio de Janeiro in 1992 and at the three pan-European Ministerial Conferences on the Protection of European Forests in Strasbourg in 1990, in Helsinki in 1993 and in Lisbon in 1998. The Community scheme provided for by Regulation (EEC) No 2158/92 helps to fulfil those undertakings.
- Pursuant to Regulation (EEC) No 2158/92, sixty million hectares of forest, equivalent to about one half of Europe's forests, have been classified as fire-risk zones.
- (8)Fires continue to restrict the sustainable development of forests in fire-risk zones.
- (9)The protection of forests against fire therefore contributes directly to the achievement of the aims set out in Article 33(1)(b) of the Treaty.
- The Community system of information on forest fires established under Article 5 of Regulation (EEC) No 2158/92 has permitted the development of Community cooperation on forest fires. The development of that system will provide an effective instrument for better evaluating forest-fire protection measures and for better analysing the causes of fires.
- The scheme provided for by Regulation (EEC) No 2158/ 92 should therefore be continued, in particular to strengthen the consistency of forest measures financed in fire-risk zones, to reinforce the fight against the causes of fires and to improve prevention and monitoring systems and its duration extended for five years, thus bringing its period of application to ten years from 1 January 1992.

Having regard to Commission Regulation (EC) No 1520/2000 of 13 July 2000 laying down common detailed rules for the application of the system of granting export refunds on certain agricultural products exported in the form of goods not covered by Annex I to the Treaty and the criteria for fixing the amount of such refunds (3), as amended by Regulation (EC) No 2390/2000 (4), and in particular Article 8(5),

### COMMISSION REGULATION (EC) No 1488/2001

#### of 19 July 2001

laying down rules for the application of Council Regulation (EC) No 3448/93 as regards the placement of certain quantities of certain basic products listed in Annex I to the Treaty establishing the European Community under the inward processing arrangements without prior examination of the economic conditions

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 3448/93 of 6 December 1993 laying down the trade arrangements applicable to certain goods resulting from the processing of agricultural products (1), as last amended by Regulation (EC) No 2580/ 2000 (2), and in particular the third subparagraph of Article 11(1) thereof,

#### Whereas:

- Under Regulation (EC) No 3448/93, certain quantities of (1) certain basic products within the meaning of Article 11 of the said Regulation may be placed under the inward processing arrangements without prior examination of the economic conditions set out in Article 117(c) of Council Regulation (EEC) No 2913/92 of 12 October 1992 establishing the Community Customs Code (3), as last amended by European Parliament and Council Regulation (EC) No 2700/2000 (4). The arrangements must be adopted for implementing this possibility and for checking and planning the quantities of such products.
- The procedure enabling the said quantities to be deter-(2)mined using a balance should therefore be laid down. This procedure should also be made transparent by providing for the said balance to be submitted for examination to the Group of Experts on horizontal questions concerning trade in processed agricultural products not listed in Annex I, and the quantities should be published in good time.
- For the purposes of granting such quantities, a specific certificate must be provided for in order to obtain the appropriate customs authorisation.
- In so far as the procedure in question must make it possible to ensure that the Community processing industry has access to agricultural raw materials under competitive conditions and as such a guarantee cannot be provided by the export refund system because of the ceilings set in agreements concluded pursuant to Article 300 of the Treaty, this procedure must be aimed at operators whose needs for refunds are not being met, either in whole or in part.
- OJ L 318, 20.12.1993, p. 18. OJ L 298, 25.11.2000, p. 5. OJ L 302, 19.10.1992, p. 1. OJ L 311, 12.12.2000, p. 1.

discharging these certificates, together with their technical characteristics, should be defined so that the relevant procedure is flexible and permits prudent management. It should therefore follow, to a large extent, the procedure already in place for certain agricultural certificates, which is set out in Commission Regulation (EC) No 1291/2000 of 9 June 2000 laying down common detailed rules for the application of the system of import and export licences and advance fixing certificates for agricultural products (5).

The rules for applying for, granting, using and

- (6) In so far as the Commission takes account of all companies that process agricultural products, all the goods not covered by Annex I must be taken into consideration as a whole. The procedure described above must therefore provide for production under the inward processing arrangements in two stages, each carried out by a different company.
- It must be laid down that these certificates can be deliv-(7) ered in three tranches. In addition, the emergency issue of one or more tranches should be provided for to deal with any unexpected events, particularly those of the market, and the rights relating to these certificates should be transferable.
- (8) In order to make it possible to check and plan the quantities of the basic products concerned, communication of statistics on the use of the certificates must be provided for.
- The Management Committee on horizontal questions concerning trade in processed agricultural products not listed in Annex I to the Treaty did not deliver an opinion within the time limit laid down by its chairman,

HAS ADOPTED THIS REGULATION:

#### Article 1

#### Scope of the Regulation

The placement of certain quantities of basic products set out in Article 11 of Regulation (EC) No 3448/93 under the inward processing arrangements without prior examination of the economic conditions is subject, during its period of validity, to presentation of an inward processing certificate (hereinafter 'IP certificate').

<sup>(5)</sup> OJ L 152, 24.6.2000, p. 1.

2. Two successive inward processing authorisations may be granted — one for the placement of a basic product and one for the placement of an intermediate product corresponding to the basic product. The economic conditions will then also be regarded as having been met by each of these authorisations, provided that each of the applications for authorisation is submitted on the basis of the same IP certificate.

#### Article 2

#### **Balance**

- 1. No later than 21 September of each year, the Commission shall draw up the balance described in Article 11 of Regulation (EC) No 3448/93 and submit it for examination to the Group of Experts on horizontal questions concerning trade in processed agricultural products not listed in Annex I (hereinafter 'Group of Experts').
- 2. If the estimated amount needed for refunds exceeds the funds available, the quantities of the various basic products, as identified by their eight-digit Combined Nomenclature code, shall be determined according to the balance.

#### Article 3

#### Initial publication of the quantities available

The total quantities of each basic product determined pursuant to Article 2(2) will be published no later than 30 September each year in the Official Journal of the European Communities.

Certificates may be granted for those quantities in three tranches in accordance with Articles 21, 22 and 23.

#### Article 4

#### Applications for IP certificates

1. Only an operator who is a titular holder of a valid refund certificate within the meaning of Commission Regulation (EC) No 1520/2000 (¹) or who was the titular holder of a certificate issued during the previous budget year, may apply for an IP certificate.

Nonetheless, where the second subparagraph of Article 14(3) of Regulation (EC) No 1520/2000 applies, any operator who has been granted refunds during the current or the previous budget year may also apply for an IP certificate.

2. A separate application must be made for each quantity of a single, available, basic product, identified by its eight-digit nomenclature code. Only one application per tranche may be made by any single operator for each basic product.

The authority shall only accept applications for certificates for which the applicant has provided a written declaration that, for the tranche in question, he has not made and undertakes not to make any other applications for IP certificates for the same basic product in the Member State to which he has applied, nor

in any other Member States. If more than one application is made for the same basic product, all of the applications shall be rejected.

3. The total quantity applied for per operator and per tranche for any basic product shall not exceed 5 000 tonnes for basic products covered by the common organisation of the markets in milk products, sugar and rice, and 20 000 tonnes for basic products covered by the common organisation of the market in cereals.

#### Article 5

#### Lodging of applications for certificates

1. No application for a certificate shall be accepted unless it is forwarded to or lodged with the competent body on forms printed and/or made out in accordance with Article 9.

However, competent bodies may accept written telecommunications and electronic messages as valid applications, provided they include all the information which would have appeared on the form, had it been used. Member States may require that a written telecommunication and/or electronic message be followed by an application on a form printed or made out in accordance with Article 9, forwarded or delivered direct to the competent body; in such cases the date on which the written telecommunication or electronic message reached the competent body shall be taken as the day the application is lodged. This requirement shall not affect the validity of applications forwarded by written telecommunication or electronic message.

Where applications for certificates are submitted electronically, the competent authorities of the Member State shall determine how the hand-written signature is to be replaced by another method, which might be based on the use of codes.

2. Applications for certificates may be cancelled only by letter, written telecommunication or electronic message received by the competent authority, except in cases of *force majeure*, by 1 p.m. on the day the application is lodged.

#### Article 6

#### Procedure for lodging applications

- 1. The day an application for a certificate is lodged means the day on which it is received by the competent body, provided it is received not later than 1 p.m., regardless of whether the application is delivered direct to the competent body or forwarded to it by letter or written telecommunication or electronic message.
- 2. An application for a certificate received by the competent body either on a Saturday, a Sunday or a holiday or after 1 p.m. on a working day shall be deemed to have been lodged on the first working day following the day on which it was in fact received.

3. Where a period of a specified number of days is laid down for the lodging of applications for certificates and where the last day of the period falls on a Saturday, a Sunday or a holiday, the period in question shall end on the first following working day at 1 p.m.

However, such extensions shall not be taken into account for the purpose of determining the certificate's period of validity.

4. The time limits specified in this Regulation are in Belgian local time.

#### Article 7

#### Rejection of applications

Applications containing conditions not provided for in Community rules shall be rejected.

#### Article 8

Such forms must be completed following the instructions given therein.

2. Certificate forms shall be made up in sets containing copy No 1, copy No 2 and the application, together with any extra copies of the certificate, in that order.

However, Member States may require applicants to complete an application form only, instead of the sets provided for in the preceding subparagraph.

Where the quantity for which the certificate is issued is less than the quantity initially applied for, the quantity applied for must be entered only on the application form.

Forms for extracts of certificates shall be made up in sets containing copy No 1 and copy No 2, in that order.

- 3. Forms, including extension pages, shall be printed on white paper free of mechanical pulp, dressed for writing and weighing at least 40 grams per square metre. The guilloche background shall be green.
- 4. Member States shall be responsible for having the forms printed. The forms may also be printed by printers appointed by the Member State in which they are established. In the latter case, reference to the approval by the Member State must appear on each form. Each form shall bear an indication of the printer's name and address or a mark enabling the printer to be identified and, except for the application form and extension pages, an individual serial number. The number shall be preceded by the following letters according to the Member State issuing the document: 'AT' for Austria, 'BE' for Belgium, 'DE' for Germany, 'DK' for Denmark 'EL' for Greece, 'ES' for Spain, 'FI' for Finland, 'FR' for France, 'IE' for Ireland, 'IT' for Italy, 'LU' for Luxembourg, 'NL' for the Netherlands, 'PT' for Portugal, 'SE' for Sweden and 'UK' for the United Kingdom.

However, Member States may allow applications only to be handwritten in ink and in block capitals.
- 6. The stamps of issuing bodies and attributing authorities shall be applied by means of a metal stamp, preferably made of steel. However, an embossing press combined with letters or figures obtained by means of perforation may be substituted for the issuing body's stamp.
- 7. The competent authorities of the Member States concerned may, where necessary, require certificates and extracts therefrom to be translated into the official language or one of the official languages of that Member State.

#### Article 10

#### Procedure for issuing extracts

1. On application by the titular holder of the certificate or by the transferee, and on presentation of copy No 1 of the document, one or more extracts therefrom may be issued by the issuing body or the agency or agencies designated by each Member State.

Extracts shall be drawn up in at least two copies, the first of which, called 'holder's copy' and marked 'No 1', shall be supplied or addressed to the applicant and the second, called 'issuing body's copy' and marked 'No 2', shall be retained by the issuing body.

The body issuing the extract shall, on copy No 1 of the certificate, enter the quantity for which the extract has been issued. The word 'extract' shall be entered beside the quantity entered on copy No 1 of the certificate.

- 2. No further extract may be made of an extract of a certificate.
- 3. Copy No 1 of an extract which has been used or which is out of date shall be returned by the titular holder to the body which issued the certificate, together with copy No 1 of the certificate from which it derives, so that the body may adjust the entries on copy No 1 of the certificate in the light of those appearing on copy No 1 of the extract.

#### Article 11

#### Electronic certificates

1. Without prejudice to Article 9, certificates may be issued and used using computerised systems in accordance with detailed rules laid down by the competent authorities. They are known hereinafter as 'electronic certificates'.

The content of electronic certificates must be identical to that of certificates on paper.

2. Where titular holders or transferees of certificates need to use the electronic form thereof in a Member State which is not linked to the computerised issuing system, they shall request an extract therefrom.

Such extracts shall be issued without delay and at no additional cost on a form as provided for in Article 9(1).

In Member States linked to the computerised issuing system, such extracts shall be issued in the form of the paper extract.

#### Article 12

#### Number of copies of IP certificates

Without prejudice to Article 11, certificates shall be drawn up in at least two copies, the first of which, called 'holder's copy' and marked 'No 1', shall be supplied without delay to the

#### Article 13

#### Validity of IP certificate

- 1. IP certificates shall be valid until the end of the third month following that in which they are applied for.

However, certificates may not be used until their actual issue.
- 3. On presentation, during its period of validity, of copy No 1 of the IP certificate or of the extract therefrom, the operator may, under the conditions set out by Commission Regulation (EEC) No 2454/93 (¹) make a single application to the customs authority in a Member State for authorisation to use inward processing arrangements for a quantity of the basic product less than or equal to the quantity referred to in the certificate or the extract. The economic conditions referred to in Article 117(c) of Regulation (EEC) No 2913/92 shall then be deemed to have been met.

However, a second application may subsequently be accepted under the terms of Article 14.

The customs authority shall state in part 2 of the first section of column 29 and in the first section of column 30 of copy No 1 the quantity actually applied for.

The customs authority shall sign the first Section of column 32 of the original of copy No 1 and stamp it to certify the date on which the application was lodged.
