COMMISSION REGULATION (EC) No 20/2002

of 28 December 2001

laying down detailed rules for implementing the specific supply arrangements for the outermost regions introduced by Council Regulations (EC) No 1452/2001, (EC) No 1453/2001 and (EC) No 1454/2001

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EC) No 1452/2001 of 28 June 2001 introducing specific measures for certain agricultural products for the French overseas departments, amending Directive 72/462/EEC and repealing Regulations (EEC) No 525/77 and (EEC) No 3763/91 (Poseidom) ⁽¹⁾, and in particular the second subparagraph of Article 3(5), Articles 3(6), 6(5), 7(2) and 22 and the second paragraph of Article 26 thereof,

Having regard to Council Regulation (EC) No 1453/2001 of 28 June 2001 introducing specific measures for certain agricultural products for the Azores and Madeira and repealing Regulation (EEC) No 1600/92 (Poseima) ⁽²⁾, and in particular the second subparagraph of Article 3(5), the first and second subparagraphs of Article 3(6), Articles 4(5), 12(2) and 34 and the second paragraph of Article 38 thereof,

Having regard to Council Regulation (EC) No 1454/2001 of 28 June 2001 introducing specific measures for certain agricultural products for the Canary Islands and repealing Regulation (EEC) No 1601/92 (Poseican) ⁽³⁾, and in particular the second subparagraph of Article 3(5), Articles 3(6) and 4(5), the first subparagraph of Article 7(2), Article 20 and the second paragraph of Article 24 thereof,

Whereas:

(1) Commission Regulation (EEC) No 131/92 ⁽⁴⁾, as last amended by Regulation (EC) No 1736/96 ⁽⁵⁾, Commission Regulation (EEC) No 1696/92 ⁽⁶⁾, as last amended by Regulation (EEC) No 2596/93 ⁽⁷⁾, and Commission Regulation (EC) No 2790/94 ⁽⁸⁾, as last amended by Regulation (EC) No 1620/1999 ⁽⁹⁾, laying down common detailed rules for implementing the specific

arrangements for the supply of certain agricultural products to the French overseas departments, the Azores and Madeira and the Canary Islands, respectively, have been amended several times. Moreover, in view of the amendments made by Regulations (EC) Nos 1452/2001, 1453/2001 and 1454/2001 and of experience gained, in order to simplify the legislation, the three implementing Regulations should be recast in a single Regulation.

- (2) Detailed implementing rules should be laid down for drawing up and amending the forecast supply balances for products eligible under the specific supply arrangements.
- (3) Certain agricultural products which are exempt from import duties already require an import licence. In the interests of administrative simplification, the import licence should be used to support the arrangements for exemption from import duties.
- (4) A document should also be adopted to support the arrangements for exemption from import duties for other agricultural products which do not require an import licence. An exemption certificate, drawn up on the import licence form, should be used for this purpose.
- (5) Detailed rules should be laid down for fixing the amount of aid for the supply of products from the Community under the specific supply arrangements. Such rules should take account of the additional costs of supply to the outermost regions due to their remote and insular nature, which constitute a burden that severely handicaps them. In order to maintain the competitiveness of Community products, this aid should take account of the prices applied to exports.
- (6) The aid scheme for Community products may be administered using the import licence form, hereinafter called the 'aid certificate', as an administrative support.

⁽⁹⁾ OJ L 192, 24.7.1999, p. 19.

- (7) Administration of the specific supply arrangements requires detailed rules on the issue of the above document which derogate from the normal rules applicable to import licences under Commission Regulation (EC) No 1291/2000 of 9 June 2000 laying down common detailed rules for the application of the system of import and export licences and advance fixing certificates for agricultural products ⁽¹⁾.
- (8) Administration of the specific supply arrangements has two objectives: firstly, to ensure the rapid issue of licences and certificates, in particular by no longer requiring a security to be lodged beforehand in all cases, and the rapid payment of the aid for supplies of Community products. The second objective is to ensure the control and monitoring of operations and to provide the administrative authorities with the instruments they need to ascertain whether the objectives of the scheme are being attained — these being, in particular, to ensure a regular supply of certain agricultural products and to offset the effects of the geographical situation of outermost regions by ensuring that the benefits of the scheme are actually passed on to the stage at which the products destined for the end users are placed on the market.
- (9) One of the above instruments consists of registering traders pursuing an economic activity in the context of the specific supply arrangements. Registered traders are entitled to the benefits of the scheme, provided they meet the obligations laid down in the Community and national rules. Applicants should be entitled to registration provided that they meet a certain number of objective requirements designed to facilitate administration of the scheme.
- (10) The detailed rules for administering the scheme must ensure that, for the quantities fixed in the forecast supply balance provided for in Regulations (EC) Nos 1452/2001, 1453/2001 and 1454/2001, registered traders obtain a licence or certificate for the products and quantities involved in the commercial transactions which they carry out on their own account, by presenting documents certifying that the operation is genuine and the application for a licence or certificate is in order.
- (11) Monitoring of operations qualifying under the scheme requires, *inter alia*, the period of validity of licences and certificates to be suited to the requirements of air or sea transport, proof to be furnished that the supply operation covered by the licence or certificate has been carried out in a short time-span, and the transfer of the rights and obligations conferred on the holder of the document in question to be prohibited.
- (12) The benefits granted in the form of exemption from import duties and aid for Community products must be passed on so that they are reflected in production costs and in the prices paid by the end users. Checks are therefore needed to ensure that the benefits are actually passed on.
- (13) Regulations (EC) Nos 1452/2001, 1453/2001 and 1454/2001 stipulate that products benefiting from the specific supply arrangements may not be re-exported to third countries or redispached to the rest of the Community. However, those Regulations provide for a limited number of derogations to that principle, which vary according to the region concerned. Detailed rules should be laid down for checking how such derogations are used. In particular, the quantities of processed products which may be the subject of traditional exports or consignments from the Canary Islands, the Azores and Madeira and of traditional consignments from the French overseas departments should be determined on the basis of the average of exports and consignments during 1989, 1990 and 1991, before the Poseican, Poseima and Poseidom arrangements entered into force, as established by the competent authorities. The conditions for authorising re-exports to third countries of unprocessed products or packaged products resulting from local packaging of such products, as provided for in Regulation (EC) No 1454/2001, should also be laid down. Lastly, conditions should be laid down for authorising exports of products processed locally, as provided for in Regulations (EC) Nos 1452/2001 and 1453/2001, with a view to encouraging regional trade.
- (14) The import duty exemption arrangements for C sugar supplies to the Azores and Madeira and to the Canary Islands provided for in Commission Regulation (EEC) No 2177/92 ⁽²⁾ should continue to be applied during the period referred to in Article 10(1) of Council Regulation (EC) No 1260/2001 ⁽³⁾.
- (15) In order to protect consumers and the commercial interests of traders, products which are not of sound and fair marketable quality no later than the time when they are first placed on the market should not qualify for the specific supply arrangements and appropriate steps should be taken where this requirement is not met.
- (16) In the context of the partnership procedures in force for the outermost regions, the competent authorities should lay down the detailed administrative rules needed to ensure the management and monitoring of the scheme. Moreover, to ensure that the arrangements are properly monitored, rules are needed to specify the checks to be carried out. Administrative penalties to ensure the smooth functioning of the mechanisms implemented should therefore be defined.
- (17) In order to be able to assess how the arrangements are being implemented, the competent authorities should be required to make periodic communications to the Commission.

⁽²⁾ OJ L 217, 31.7.1992, p. 71.

⁽³⁾ OJ L 178, 30.6.2001, p. 1.

- (18) The application of some of the provisions of this Regulation should be delayed to allow the production of data needed to fix the minimum level of the aid and, for the French overseas departments and the Azores and Madeira, to allow the French and Portuguese authorities to comply with the new administrative requirements.
- (19) The measures laid down in this Regulation are in accordance with the opinions of all the Management Committees concerned,

HAS ADOPTED THIS REGULATION:

The Commission shall fix a flat-rate minimum level of aid.

Where the highest level of refund granted by the Commission for exports of similar products is higher than the flat-rate minimum aid referred to above, the aid granted shall not exceed the amount of the said refunds.

COMMON PROVISIONS

Article 8

Passing on the benefits to the end user

1. For the purposes of Regulations (EC) Nos 1452/2001, 1453/2001 and 1454/2001, 'benefit' shall mean the exemption from customs duty or the Community aid provided for in those Regulations.

2. For the purposes of Regulation (EC) No 1452/2001, 'end user' shall mean:

- (a) in the case of products for the processing industry and intended for human consumption:
 - (i) the final processor or packager, for the part of the aid intended to compensate for remoteness, insularity and outermost location,
 - (ii) the consumer, for the additional part of the aid intended to take account of export prices;
- (b) in the case of products intended for use as agricultural inputs, in particular products intended for use as animal feed: the farmer.

3. For the purposes of Regulations (EC) Nos 1453/2001 and 1454/2001, 'end user' shall mean:

- (a) in the case of products for direct consumption: the consumer.
- (b) in the case of products for the processing and/or packaging industry and intended for human consumption:
 - (i) the final processor or packager, for the part of the aid intended to compensate for remoteness, insularity and outermost location,

- (c) in the case of products for the processing and/or packaging industry for use as animal feed and products for use as agricultural inputs: the farmer.

4. The competent authorities shall take all appropriate steps to check that the benefits derived from the exemption from import duties or the grant of Community aid are actually passed on to the end user. In doing so they may assess the trading margins and prices applied by the various traders concerned.

These measures, in particular the control points used to determine whether the benefits of the aid have been passed on, and any amendments made, shall be notified to the Commission.

Article 9

Register of traders

1. Import licences, exemption certificates and aid certificates shall be issued only to traders entered in a register kept by the competent authorities.

2. Any trader established in the Community may apply to be entered in the Register.

Entry in the register shall be subject to the following requirements:

- (a) traders must possess the means, structures and legal authorisations required to carry out their activities in the sector concerned and must, in particular, have duly complied with the obligations imposed by the authorities concerning business accounting and taxation;

- (b) traders must be able to guarantee that their activities are carried out in the outermost region concerned;
- (c) in the context of the specific supply arrangements for the outermost region concerned, and in compliance with the objectives of those arrangements, traders shall undertake:
- (i) to communicate to the competent authorities, at their request, all relevant information about their commercial activities, particularly regarding the prices and profit margins they practise,
 - (ii) to operate exclusively in their own name and on their own account,
 - (iii) to submit licence and certificate applications commensurate with their real capacity to dispose of the products concerned, such capacity being proven by reference to objective factors,
 - (iv) to refrain from acting in any way likely to create artificial shortages of products and from marketing the available products at artificially low prices,
 - (v) to ensure, to the satisfaction of the competent authorities and when the agricultural products are disposed of in the outermost region concerned, that the benefits obtained are passed on to the end user.

3. When applying for registration as referred to in the first subparagraph of paragraph 2, processors intending to export or dispatch processed products obtained from raw materials which entered the outermost region concerned under the relevant specific supply arrangements in accordance with Articles 16, 17 and 19 must declare their intention to engage in this activity and indicate the location of the processing plant.

4. For the purposes of the second subparagraph of Article 3(5) of Regulation (EC) No 1454/2001, when applying for registration as referred to in the first subparagraph of paragraph 2 of this Article, traders intending to re-export unprocessed products or products resulting from local packaging as provided for in Article 20 of this Regulation must declare their intention to engage in this activity and indicate the location of the packaging plant where applicable.

Article 10

Documents to be presented by traders and validity of licences and certificates

1. Subject to Articles 4(2), 5(4), 7(7), 14 and 15, the competent authorities shall accept licence and certificate applications presented by traders for each consignment, provided that they are accompanied by the original or a certified copy of the purchase invoice and the original or a certified copy of the following documents:

- the bill of lading or airway bill,
- the certificate of origin for products originating in third countries or, for products originating in the Community, the T2L document, or the T2LF document under the terms

of Article 315(1) and (2) of Commission Regulation (EEC) No 2454/93 ⁽¹⁾.

The purchase invoice, bill of lading or airway bill must be drawn up in the name of the applicant.

2. The period of validity of licences and certificates shall be fixed on the basis of transportation time. This time may be extended by the competent authority in special cases where serious and unforeseeable difficulties affect transportation time, but may not exceed two months from the date on which the licence or certificate was issued.

Article 11

Presentation of licences and certificates and goods and non-transferability of licences and certificates

1. For products covered by the specific supply arrangements, import licences, exemption certificates and aid certificates must be presented to the customs authorities with a view to completing the customs formalities within no more than 15 working days from the date of unloading of the goods. The competent authorities may reduce this maximum time.

In the case of products which have been the subject of inward processing or customs warehousing in the Azores, Madeira and the Canary Islands and subsequently released into free circulation there, the maximum period of 15 days shall start to run on the date the licences or certificates referred to in the first subparagraph are applied for.

2. The goods shall be presented in bulk or in separate lots corresponding to the licence or certificate presented.

The licences and certificates shall be used for a single operation only when completing the customs formalities.

3. Licences and certificates shall not be transferable.

Article 12

Quality of products

Only products of sound and fair marketable quality within the meaning of Article 21(1) of Commission Regulation (EC) No 800/1999 ⁽²⁾ may qualify for the specific supply arrangements.

Conformity of the products with the requirements laid down in the first paragraph shall be examined no later than the stage of first marketing in accordance with the standards or practices in force in the Community.

Where a product is considered not to meet the requirement laid down in the first paragraph, its entitlement under the specific supply arrangements shall be withdrawn and the corresponding quantity reattributed to the forecast supply balance. Where aid has been granted in accordance with Article 7, the aid shall be reimbursed. Where imports have been made in accordance with Articles 4 and 5, the import duty shall be paid, unless the party concerned supplies proof that the products have been re-exported or destroyed.

⁽¹⁾ OJ L 253, 11.10.1993, p. 1.

⁽²⁾ OJ L 102, 17.4.1999, p. 11.

*Article 13***Lodging securities**

No security shall be required when applying for licences and certificates.

Without prejudice to Article 26, in special cases and to the extent necessary to ensure the proper application of this Regulation, the competent authorities may require a security to be lodged equal to the amount of the benefit granted. In such cases, Article 35(1) and (4) of Regulation (EC) No 1291/2000 shall apply.

*Article 14***Significant increases in applications for licences and certificates**

1. If the state of execution of a forecast supply balance indicates a significant increase in applications for import licences, exemption certificates or aid certificates for a given product which might jeopardise achievement of one or more of the objectives of the specific supply arrangements, the competent authorities shall immediately inform the Commission thereof, providing all relevant information on the supply needs of the outermost region concerned.

After consulting with the competent authorities, the Commission shall take all the necessary steps to ensure that the outermost region concerned is supplied with essential products, taking account of available supply and the requirements of the priority sectors.

2. Without prejudice to the necessary measures adopted where the issue of licences and certificates is restricted, the competent authorities shall apply a single percentage reduction to all pending applications.

3. Paragraphs 1 and 2 shall apply, after consultation with the competent authorities, without prejudice to special provisions adopted to overcome major difficulties in a given sector.

*Article 15***Fixing a maximum quantity per licence or certificate application**

Insofar as is strictly necessary to avoid disturbances on the market in the outermost region concerned, or the pursuit of speculative actions likely to be prejudicial to the smooth functioning of the specific supply arrangements, the competent authorities shall fix a maximum quantity per licence or certificate application.

The competent authorities shall notify the Commission immediately of the instances in which this Article is applied.
