^(a) The reference rates for the agricultural raw materials indicated with an asterisk (*) are those on which duties are calculated for the processed agricultural products subject to the matrix system — the other reference rates for the raw materials to be declared under this heading are those resulting from the application of the conversion coefficients.

^(b) The matrix reference rates for these raw materials will depend on the actual milk fat and milk protein content in accordance with the conversion coefficient.

^(c) The reference rates for these raw materials will be subject to annual joint review before 15 June. Such joint reviews will take account of the market prices, the market situation, Norwegian production and imports to Norway.

2. Tariff codes set out in this Annex refer to those applicable in Norway on 1 July 2001. The terms of this Annex will not be affected by any changes that may be made in the tariff nomenclature.
3. The *de minimis* quantity below which a duty will not be applied for flour, starch and/or glucose will be 5 %.
4. The *de minimis* quantity below which a duty will not be applied for the additional raw materials (meat, cheese, eggs and soft fruits (frozen raspberries, frozen blackcurrants and frozen strawberries)) will be 3 %. In calculating the duty, fresh soft fruits will be assimilated to frozen on the basis of a one-to-one conversion.
5. The intervals of the notional quantities and the agreed quantities of agricultural raw materials to be taken into account, as well as the standard recipes used in the calculation of the customs duties, are set out in the Appendix.
6. The duties for the following products will be calculated according to the reference rates (NOK/kg) of the agricultural raw materials listed in paragraph 1 reduced by 7,2 %:
