PROTOCOL

to the Europe Agreement establishing an Association between the European Communities and their Member States, of the one part, and the Republic of Latvia, of the other part, on Conformity Assessment and Acceptance of Industrial Products (PECA)

THE EUROPEAN COMMUNITY AND THE REPUBLIC OF LATVIA, hereinafter referred to as 'the Parties',

WHEREAS the Republic of Latvia has applied for membership of the European Union and such membership implies the effective implementation of the *acquis* of the European Community,

RECOGNISING that the progressive adoption and implementation of Community law by the Republic of Latvia provides the opportunity to extend certain benefits of the internal market and to ensure its effective operation in certain sectors before accession,

CONSIDERING THAT, in the sectors covered by this Protocol, Latvian national law substantially takes over Community law,

CONSIDERING their shared commitment to the principles of free movement of goods and to promoting product quality, so as to ensure the health and safety of their citizens and the protection of the environment, including through technical assistance and other forms of cooperation between them,

DESIRING to conclude a Protocol to the Europe Agreement on Conformity Assessment and Acceptance of Industrial Products (hereafter referred to as 'this Protocol') providing for the application of the mutual acceptance of industrial products which fulfil the requirements for being lawfully placed on the market in one of the Parties and of the mutual recognition of the results of conformity assessment of industrial products which are subject to Community or national law, noting that Article 76 of the Europe Agreement provides, where appropriate, for the conclusion of an agreement on mutual recognition,

NOTING the close relationship between the European Community and Iceland, Liechtenstein and Norway through the Agreement on the European Economic Area, which makes it appropriate to consider the conclusion of a parallel European Conformity Assessment Agreement between the Republic of Latvia and these countries equivalent to this Protocol,

The terms used in this Protocol shall have the meaning given in Community law and Latvian national law.

Article 3

Alignment of legislation

For the purpose of this Protocol, the Republic of Latvia agrees to take appropriate measures, in consultation with the Commission of the European Communities, to maintain or complete the take-over of Community law, in particular in the fields of standardisation, metrology, accreditation, conformity assessment, market surveillance, general safety of products, and producer's liability.

Article 4

The Annexes shall provide for the procedure to be applied in such cases.

Article 7

Extension of coverage

The Parties shall take all appropriate steps, and use whatever available means may be necessary, with a view to resolving any problems which are detected.

PROTOCOL

to the Europe Agreement establishing an Association between the European Communities and their Member States, of the one part, and the Republic of Lithuania, of the other part, on Conformity Assessment and Acceptance of Industrial Products (PECA)

THE EUROPEAN COMMUNITY AND THE REPUBLIC OF LITHUANIA hereinafter referred to as 'the Parties',

WHEREAS the Republic of Lithuania has applied for membership of the European Union and such membership implies the effective implementation of the *acquis* of the European Community,

RECOGNISING that the progressive adoption and implementation of Community law by the Republic of Lithuania provides the opportunity to extend certain benefits of the internal market and to ensure its effective operation in certain sectors before accession,

CONSIDERING THAT, in the sectors covered by this Protocol, Lithuanian national law substantially takes over the Community law,

CONSIDERING their shared commitment to the principles of free movement of goods and to promoting product quality, so as to ensure the health and safety of their citizens and the protection of the environment, including through technical assistance and other forms of cooperation between them,

DESIRING to conclude a Protocol to the Europe Agreement on Conformity Assessment and Acceptance of Industrial Products (hereinafter referred to as 'this Protocol') providing for the application of the mutual acceptance of industrial products which fulfil the requirements for being lawfully placed on the market in one of the Parties and of the mutual recognition of the results of conformity assessment of industrial products which are subject to Community or national law, noting that Article 76 of the Europe Agreement provides, where appropriate, for the conclusion of an agreement on mutual recognition,

NOTING the close relationship between the European Community and Iceland, Liechtenstein and Norway through the Agreement on the European Economic Area, which makes it appropriate to consider the conclusion of a parallel European Conformity Assessment Agreement between the Republic of Lithuania and these countries equivalent to this Protocol,
