Претседател

Луксембург, 9 април 2001 година

Почитувани господа,

Имам чест да го потврдам приемот на Вашето писмо кое се однесува на потпишувањето на Спогодбата за стабилизација и придружување меѓу Република Македонија и Европските заедници и нејзините земји членки, заедно со анексите и протоколите, парафирана од мојата Влада и Европската комисија на 24 ноември 2000 година. Потврдувам дека мојата Влада е согласна ова писмо заедно со Вашето писмо да претставуваат замена за потпишувањето на Спогодбата.

Исто така, мојата Влада се согласува ова писмо заедно со Вашето писмо да ја утврдуваат процедурата според која Декларациите на Договорните страни се усвојуваат во Финалниот акт при потпишувањето на Спогодбата за стабилизација и придружување, со забелешката дека Декларациите, на ист начин како и оваа Спогодба, ќе бидат предмет на сите процедури неопходни за обезбедување на нивната валидност.

Потврдувам дека кон оваа размена на писма се приложени текстот на Спогодбата за стабилизација и придружување и Заедничките декларации усвоени од Страните, како и 2 унилатерални Изјави на Европската заедница со кои е запозната мојата Влада.

Оваа размена на писма ја сметаме за еквивалент на потпишувањето.

Текстовите на Спогодбата и декларациите кои се предмет на размената на писма подлежат на одобрување од страна на Република Македонија и на Европските заедници и нејзините земји членки.

Меѓутоа, изјавувам дека Република Македонија не ја прифаќа деноминацијата за мојата земја употребена во погоре споменатите документи, имајќи во вид дека уставното име на мојата земја е Република Македонија.

From the date of entry into force of this Agreement, the Community shall fix the customs duties applicable to imports into the Community of 'baby-beef' products defined in Annex III and originating in the former Yugoslav Republic of Macedonia, at 20 % of the *ad valorem* duty and 20 % of the specific duty as laid down in the Common Customs Tariff of the European Communities, within the limit of an annual tariff quota of 1 650 tonnes expressed in carcass weight.

Article 29

1. Taking account of the volume of trade in agricultural and fishery products between the Parties, of their particular sensitivities, of the rules of the Community common policies for agriculture and fisheries, of the rules of the agricultural policies of the former Yugoslav Republic of Macedonia, of the role of agriculture in the former Yugoslav Republic of Macedonia's economy, of the production and export potential of its traditional branches and markets and of the consequences of the multilateral trade negotiations under the WTO, the Community and the former Yugoslav Republic of Macedonia shall examine in the Stabilisation and Association Council, no later than 1 January 2003, product by product and on an orderly and appropriate reciprocal basis, the opportunities for granting each other further concessions with a view to implementing greater liberalisation of the trade in agricultural and fishery products.

2. The provisions of this Chapter shall in no way affect the application, on a unilateral basis, of more favourable measures by one or the other Party.

Article 30

Notwithstanding other provisions of this Agreement, and in particular Article 37, given the particular sensitivity of the agricultural and fisheries markets, if imports of products origin-

ating in one of the two Parties, which are the subject of concessions granted pursuant to Article 25, 27 and 28, cause serious disturbance to the markets or to their domestic regulatory mechanisms, in the other Party, both Parties shall enter into consultations immediately to find an appropriate solution. Pending such solution, the Party concerned may take the appropriate measures it deems necessary.

CHAPTER III

COMMON PROVISIONS

Article 31

The provisions of this Chapter shall apply to trade in all products between the Parties except where otherwise provided herein or in Protocols 1, 2 and 3.

Article 32

2. From the date of entry into force of this Agreement, no new quantitative restriction on imports or exports or measure having equivalent effect shall be introduced, nor shall those existing be made more restrictive, in trade between the Community and the former Yugoslav Republic of Macedonia.

3. Without prejudice to the concessions granted under Article 26, the provisions of paragraphs 1 and 2 of this Article shall not restrict in any way the pursuit of the respective agricultural policies of the former Yugoslav Republic of Macedonia and the Community or the taking of any measures under those policies insofar as the import regime in the Annexes III, IV(a), (b) and (c) and V(a) and (b) is not affected.

Article 33

Prohibition of fiscal discrimination

1. The Parties shall refrain from, and abolish where existing, any measure or practice of an internal fiscal nature establishing, whether directly or indirectly, discrimination between the products of one Party and like products originating in the territory of the other Party.

2. Products exported to the territory of one of the Parties may not benefit from repayment of internal indirect taxation in excess of the amount of indirect taxation imposed on them.

Article 34

The provisions concerning the abolition of customs duties on imports shall also apply to customs duties of a fiscal nature.

Article 35

Customs unions, free trade areas, cross-border arrangements

1. This Agreement shall not preclude the maintenance or establishment of customs unions, free trade areas or arrangements for frontier trade except insofar as they alter the trade arrangements provided for in this Agreement.

2. During the transitional periods specified in Articles 17 and 18, this Agreement shall not affect the implementation of the specific preferential arrangements governing the movement of goods either laid down in frontier agreements previously concluded between one or more Member States and the Socialist Federal Republic of Yugoslavia and succeeded to by the former Yugoslav Republic of Macedonia or resulting from the bilateral agreements specified in Title III concluded by the former Yugoslav Republic of Macedonia in order to promote regional trade.

3. Consultations between the Parties shall take place within the Stabilisation and Association Council concerning the agreements described in paragraphs 1 and 2 of this Article and, where requested, on other major issues related to their respective trade policies towards third countries. In particular in the event of a third country acceding to the Community, such consultations shall take place so as to ensure that account is taken of the mutual interests of the Community and the former Yugoslav Republic of Macedonia stated in this Agreement.

Article 36

Dumping

1. If one of the Parties finds that dumping is taking place in trade with the other Party within the meaning of Article VI of the GATT 1994, it may take appropriate measures against this practice in accordance with the Agreement on implementation of Article VI of the GATT 1994 and its own related internal legislation.

2. As regards paragraph 1 of this Article, the Stabilisation and Association Council shall be informed of the dumping case as soon as the authorities of the importing Party have initiated an investigation. When no end has been put to the dumping within the meaning of Article VI of the GATT or no other satisfactory solution has been reached within 30 days of the matter being referred to the Stabilisation and Association Council, the importing Party may adopt the appropriate measures.

Article 37

General safeguard clause

1. Where any product of one Party is being imported into the territory of the other Party in such increased quantities and under such conditions as to cause or threaten to cause:

- serious injury to the domestic industry of like or directly competitive products in the territory of the importing Party, or
- serious disturbances in any sector of the economy or difficulties which could bring about serious deterioration in the economic situation of a region of the importing Party,

the importing Party may take appropriate measures under the conditions and in accordance with the procedures laid down in this Article.

2. The Community and the former Yugoslav Republic of Macedonia shall only apply safeguard measures between themselves in accordance with the provisions of this Agreement. Such measures shall not exceed what is necessary to remedy the difficulties which have arisen, and should normally consist of the suspension of the further reduction of any applicable rate of duty provided for under this Agreement for the product concerned or the increase of the rate of duty for that product.

Such measures shall contain clear elements progressively leading to their elimination at the end of the set period, at the latest. Measures shall not be taken for a period exceeding one year. In very exceptional circumstances, measures may be taken up to a total maximum period of three years. No safeguard measure shall be applied to the import of a product that has previously been subject to such a measure for a period of, at least, three years since the expiry of the measure.

3. In the cases specified in this Article, before taking the measures provided for therein or, in the cases to which paragraph 4(b) of this Article applies, as soon as possible, the Community or the former Yugoslav Republic of Macedonia, as the case may be, shall supply the Stabilisation and Association Committee with all relevant information, with a view to seeking a solution acceptable to the two Parties.

4. For the implementation of the above paragraphs the following provisions shall apply:

- (a) the difficulties arising from the situation referred to in this Article shall be referred for examination to the Stabilisation and Association Committee, which may take any decisions needed to put an end to such difficulties. If the Stabilisation and Association Committee or the exporting Party has not taken a decision putting an end to the difficulties or no other satisfactory solution has been reached within 30 days of the matter being referred to the Stabilisation and Association Committee, the importing Party may adopt the appropriate measures to remedy the problem in accordance with this Article. In the selection of safeguard measures priority must be given to those which least disturb the functioning of the arrangements established in this Agreement;
- (b) where exceptional and critical circumstances requiring immediate action make prior information or examination, as the case may be, impossible, the Party concerned may, in the situations specified in this Article, apply forthwith precautionary measures necessary to deal with the situation and shall inform the other Party immediately thereof.

5. The safeguard measures shall be notified immediately to the Stabilisation and Association Committee and shall be the subject of periodic consultations within that body, particularly with a view to establishing a timetable for their abolition as soon as circumstances permit.

6. In the event of the Community or the former Yugoslav Republic of Macedonia subjecting imports of products liable to give rise to the difficulties referred to in this Article to an administrative procedure having at its purpose the rapid provision of information on the trend of trade flows, it shall inform the other Party.

Article 38

Shortage clause

1. Where compliance with the provisions of this Title leads to:
 - (a) a critical shortage, or threat thereof, of foodstuffs or other products essential to the exporting Party; or
 - (b) re-export to a third country of a product against which the exporting Party maintains quantitative export restrictions, export duties or measures or charges having equivalent effect, and where the situations referred to above give rise, or are likely to give rise to major difficulties for the exporting Party, that Party may take appropriate measures under the conditions and in accordance with the procedures laid down in this Article.

2. In the selection of measures, priority must be given to those which least disturb the functioning of the arrangements in this Agreement. Such measures shall not be applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination where the same conditions prevail, or a disguised restriction on trade and shall be eliminated when the conditions no longer justify their maintenance.

3. Before taking the measures provided for in paragraph 1 of this Article or, as soon as possible in cases to which paragraph 4 of this Article applies, the Community or the former Yugoslav Republic of Macedonia, as the case may be, shall supply the Stabilisation and Association Committee with all relevant information, with a view to seeking a solution acceptable to the Parties. The Parties within the Stabilisation and Association Committee may agree on any means needed to put an end to the difficulties. If no agreement is reached within 30 days of the matter being referred to the Stabilisation and Association Committee, the exporting Party may apply measures under this Article on the exportation of the product concerned.

4. Where exceptional and critical circumstances requiring immediate action make prior information or examination, as the case may be, impossible, the Community or the former Yugoslav Republic of Macedonia, whichever is concerned, may apply forthwith the precautionary measures necessary to deal with the situation and shall inform the other Party immediately thereof.

5. Any measures applied pursuant to this Article shall be immediately notified to the Stabilisation and Association Committee and shall be the subject of periodic consultations within that body, particularly with a view to establishing a timetable for their elimination as soon as circumstances permit.

Article 39

State monopolies

The former Yugoslav Republic of Macedonia shall progressively adjust any State monopolies of a commercial character so as to ensure that, by the end of the fifth year following the entry into force of this Agreement, no discrimination regarding the conditions under which goods are procured and marketed exists between nationals of the Member States and of the former Yugoslav Republic of Macedonia. The Stabilisation and Association Council shall be informed about the measures adopted to attain this objective.

Article 40

Protocol 4 lays down the rules of origin for the application of tariff preferences provided for in this Agreement.

*Article 41***Restrictions authorised**

This Agreement shall not preclude prohibitions or restrictions on imports, exports or goods in transit justified on grounds of public morality, public policy or public security; the protection of health and life of humans, animals or plants; the protection of national treasures of artistic, historic or archaeological value or the protection of intellectual, industrial and commercial property, or rules relating to gold and silver. Such prohibitions or restrictions shall not, however, constitute a means of arbitrary discrimination or a disguised restriction on trade between the Parties.

Article 42

Both Parties agree to cooperate to reduce the potential for fraud in the application of the trade provisions of this Agreement.

Notwithstanding other provisions of this Agreement, and in particular Articles 30, 37 and 88 and Protocol 4, where one Party finds that there is sufficient evidence of fraud such as a significant increase in trade of products by one Party to the other Party, beyond the level reflecting economic conditions such as normal production and export capacities, or failure to provide administrative cooperation as required for the verification of evidence of origin by the other Party, both Parties shall enter into consultations immediately to find an appropriate solution. Pending such solution, the Party concerned may take the appropriate measures it deems necessary. In the selection of the measures priority must be given to those which least disturb the functioning of the arrangements established in this Agreement.

Article 43

The application of this Agreement shall be without prejudice to the application of the provisions of Community law to the Canary Islands.

- (c) by the end of the first stage of transitional period the Stabilisation and Association Council shall examine the possibility of extending the rights under (b) to branches of the Community companies.

Article 49

1. Subject to the provisions of Article 48, with the exception of financial services described in Annex VI, each Party may regulate the establishment and operation of companies and

nationals on its territory, insofar as these regulations do not discriminate against companies and nationals of the other Party in comparison with its own companies and nationals.

2. In respect of financial services, notwithstanding any other provisions of this Agreement, a Party shall not be prevented from taking measures for prudential reasons, including for the protection of investors, depositors, policy holders or persons to whom a fiduciary duty is owed by a financial service supplier, or to ensure the integrity and stability of the financial system. Such measures shall not be used as a means of avoiding the Party's obligations under the Agreement.

2. The Stabilisation and Association Council may make recommendations for improving establishment and operations in the areas covered by paragraph 1.

Article 51

1. The provisions of Articles 48 and 49 do not preclude the application by a Party of particular rules concerning the establishment and operation in its territory of branches of companies of another Party not incorporated in the territory of the first Party, which are justified by legal or technical differences between such branches as compared to branches of companies incorporated in its territory or, as regards financial services, for prudential reasons.

2. The difference in treatment shall not go beyond what is strictly necessary as a result of such legal or technical differences or, as regards financial services, for prudential reasons.

Article 52

In order to make it easier for Community nationals and nationals of the former Yugoslav Republic of Macedonia to take up and pursue regulated professional activities in the former Yugoslav Republic of Macedonia and Community respectively, the Stabilisation and Association Council shall examine which steps are necessary for the mutual recognition of qualifications. It may take all necessary measures to that end.

Article 53

1. A Community company or a company from the former Yugoslav Republic of Macedonia established in the territory of the former Yugoslav Republic of Macedonia or the Community respectively shall be entitled to employ, or have employed by one of its subsidiaries or branches, in accordance with the legislation in force in the host country of establishment, in the territory of the former Yugoslav Republic of Macedonia and the Community respectively, employees who are nationals of the Community Member States and former Yugoslav Republic of Macedonia respectively, provided that such employees are key personnel as defined in paragraph 2 and that they are employed exclusively by companies, subsidiaries or branches. The residence and work permits of such employees shall only cover the period of such employment.

2. Key personnel of the abovementioned companies, herein referred to as 'organisations', are 'intra-corporate transferees' as defined in (c) of this paragraph in the following categories, provided that the organisation is a legal person and that the persons concerned have been employed by it or have been partners in it (other than as majority shareholders), for at least the year immediately preceding such movement:

(a) persons working in a senior position with an organisation, who primarily direct the management of the establishment, receiving general supervision or direction principally from the board of directors or stockholders of the business or their equivalent including:

- directing the establishment of a department or sub-division of the establishment,
- supervising and controlling the work of other supervisory, professional or managerial employees,
- having the authority personally to recruit and dismiss or recommend recruiting, dismissing or other personnel actions;

(b) persons working within an organisation who possess uncommon knowledge essential to the establishment's service, research equipment, techniques or management. The assessment of such knowledge may reflect, apart from knowledge specific to the establishment, a high level of qualification referring to a type of work or trade requiring specific technical knowledge, including membership of an accredited profession;

(c) an 'intra-corporate transferee' is defined as a natural person working within an organisation in the territory of a Party, and being temporarily transferred in the context of pursuit of economic activities in the territory of the other Party; the organisation concerned must have its principal place of business in the territory of a Party and the transfer be to an establishment (branch, subsidiary) of that organisation, effectively pursuing like economic activities in the territory of the other Party.

3. The entry into and the temporary presence within the territory of the Community or the former Yugoslav Republic of Macedonia of nationals of the former Yugoslav Republic of Macedonia and Community nationals respectively shall be permitted, when these representatives of companies are persons working in a senior position, as defined in paragraph 2(a) above, within a company, and are responsible for the setting up of a Community subsidiary or branch of a company from the former Yugoslav Republic of Macedonia or of a subsidiary or branch in the former Yugoslav Republic of Macedonia of a Community company in a Community Member State or in the former Yugoslav Republic of Macedonia respectively, when:

- those representatives are not engaged in making direct sales or supplying services, and
- the company has its principal place of business outside the Community or the former Yugoslav Republic of Macedonia, respectively, and has no other representative, office, branch or subsidiary in that Community Member State or former Yugoslav Republic of Macedonia respectively.

Article 54

During the first four years following the date of entry into force of this Agreement, the former Yugoslav Republic of Macedonia may introduce measures which derogate from the provisions of this Chapter as regards the establishment of Community companies and nationals of certain industries which:

- are undergoing restructuring, or are facing serious difficulties, particularly where these entail serious social problems in the former Yugoslav Republic of Macedonia, or
- face the elimination or a drastic reduction of the total market share held by the former Yugoslav Republic of Macedonia companies or nationals in a given sector or industry in the former Yugoslav Republic of Macedonia, or
- are newly emerging industries in the former Yugoslav Republic of Macedonia.

Such measures:

- (i) shall cease to apply at the latest two years after the end of the first stage of the transitional period;
- (ii) shall be reasonable and necessary in order to remedy the situation, and
- (iii) shall not introduce discrimination concerning the activities of Community companies or nationals already established in the former Yugoslav Republic of Macedonia at the time of introduction of a given measure, by comparison with companies or nationals from the former Yugoslav Republic of Macedonia.

While devising and applying such measures, the former Yugoslav Republic of Macedonia shall grant preferential treatment wherever possible to Community companies and nationals, and in no case treatment less favourable than that accorded to companies or nationals from any third country. Prior to the adoption of these measures, the former Yugoslav Republic of Macedonia shall consult the Stabilisation and Association Council and shall not put them into effect before a one month period has elapsed following the notification to the Stabilisation and Association Council of the concrete measures to be introduced by the former Yugoslav Republic of Macedonia, except where the threat of irreparable damage requires the taking of urgent measures, in which case the former Yugoslav Republic of Macedonia shall consult the Stabilisation and Association Council immediately after their adoption.

Upon the expiry of the fourth year following the entry into force of this Agreement the former Yugoslav Republic of Macedonia may introduce or maintain such measures only with the authorisation of the Stabilisation and Association Council and under conditions determined by the latter.

CHAPTER III

SUPPLY OF SERVICES

Article 55

1. The Parties undertake in accordance with the following provisions to take the necessary steps to allow progressively the supply of services by Community or the former Yugoslav Republic of Macedonia companies or nationals which are established in a Party other than that of the person for whom the services are intended.

2. In step with the liberalisation process mentioned in paragraph 1, the Parties shall permit the temporary movement of natural persons providing the service or who are employed by the service provider as key personnel as defined in Article 53, including natural persons who are representatives of a Community or the former Yugoslav Republic of Macedonia company or national and are seeking temporary entry for the purpose of negotiating for the sale of services or entering into agreements to sell services for that service provider, where those representatives will not be engaged in making direct sales to the general public or in supplying services themselves.

3. As from the second stage of the transition period, the Stabilisation and Association Council shall take the measures necessary to implement progressively the provisions of paragraph 1. Account shall be taken of the progress achieved by the Parties in the approximation of their laws.

Article 56

1. The Parties shall not take any measures or actions which render the conditions for the supply of services by Community and the former Yugoslav Republic of Macedonia nationals or

companies which are established in a Party other than that of the person for whom the services are intended significantly more restrictive as compared to the situation existing on the day preceding the day of entry into force of the Agreement.

2. If one Party is of the view that measures introduced by the other Party since the entry into force of the Agreement result in a situation which is significantly more restrictive in respect of supply of services as compared with the situation existing at the date of entry into force of the Agreement, such first Party may request the other Party to enter into consultations.

Article 57

With regard to supply of transport services between the Community and the former Yugoslav Republic of Macedonia, the following provisions shall apply:

1. with regard to inland transport, the relationship between the Parties is governed by the Agreement between the European Community and the former Yugoslav Republic of Macedonia in the field of transport entered into force on 28 November 1997. The Parties confirm the importance they attach to the correct application of this Agreement;
2. with regard to international maritime transport the Parties undertake to apply effectively the principle of unrestricted access to the market and traffic on a commercial basis.
 - (a) The above provision does not prejudice the rights and obligations under the United Nations Code of Conduct for Liner Conferences, as applied by one or the other Party to this Agreement. Non-conference liners will be free to operate in competition with a conference as long as they adhere to the principle of fair competition on a commercial basis;
 - (b) the Parties affirm their commitment to a freely competitive environment as being an essential of the dry and liquid bulk trade.
3. In applying the principles of paragraph 2, the Parties shall:
 - (a) not introduce cargo-sharing clauses in future bilateral agreements with third countries, other than in those exceptional circumstances where liner shipping companies from one or other Party to this Agreement would not otherwise have an effective opportunity to ply for trade to and from the third country concerned;
 - (b) prohibit cargo-sharing arrangements in future bilateral agreements concerning dry and liquid bulk trade;
 - (c) abolish, upon the entry into force of this Agreement, all unilateral measures and administrative, technical and other obstacles that could have restrictive or discriminatory effects on the free supply of services in international maritime transport.

4. With a view to ensuring a coordinated development and progressive liberalisation of transport between the Parties adapted to their reciprocal commercial needs, the conditions of mutual market access in air transport shall be dealt with by special agreements to be negotiated between the Parties after the entry into force of this Agreement.

1. each duty shall be reduced to 80 % of the basic duty at the beginning of the first year after the entry into force of the Agreement;
2. further reductions to 60 %, 40 %, 20 % and 0 % of the basic duty shall be made at the beginning of the second, third, fourth and fifth year respectively after the entry into force of the Agreement.

Article 4

2. Quantitative restrictions on imports into the former Yugoslav Republic of Macedonia of steel products originating in the Community, as well as measures having equivalent effect, shall be abolished on the date of entry into force of the Agreement.

Article 5

1. In view of the disciplines stipulated by Article 69 of this Agreement, the Parties recognise the need and urgency that each Party addresses promptly any structural weaknesses of its steel sector to ensure the global competitiveness of its industry. The former Yugoslav Republic of Macedonia shall therefore establish within two years the necessary restructuring and conversion programme for its steel industry to achieve viability of this sector under normal market conditions. Upon request, the Community shall provide former Yugoslav Republic of Macedonia with the appropriate technical advice to achieve this objective.

2. Further to the disciplines stipulated by Article 69 of this Agreement, any practices contrary to that Article shall be assessed on the basis of specific criteria arising from the application of the State aid disciplines of the Community, including its secondary legislation, and including any specific rules on State aid control applicable to the steel sector after the expiry of the ECSC Treaty.

3. For the purposes of applying the provisions of paragraph 1(iii) of Article 69 of this Agreement with regard to steel products, the Community recognises that during five years after the entry into force of this Agreement, the former Yugoslav Republic of Macedonia may exceptionally grant State aid for restructuring purposes provided that:

- it leads to the viability of the benefiting firms under normal market conditions at the end of the restructuring period, and
- the amount and intensity of such aid are strictly limited to what is absolutely necessary in order to restore such viability and are progressively reduced, and
- the restructuring programme is linked to a global rationalisation and reduction of capacity in the former Yugoslav Republic of Macedonia.

4. Each Party shall ensure full transparency with respect to the implementation of the necessary restructuring and conversion programme by a full and continuous exchange of information to the other Party, including details on the restructuring plan as well as amount, intensity and purpose for any State aid granted on the basis of paragraph 2 and 3 of this Article.

5. The Stabilisation and Association Council shall monitor the implementation of the requirements set out at paragraphs (1) to (4) above.

6. If one of the Parties considers that a particular practice of the other Party is incompatible with the terms of this Article, and if that practice causes or threatens to cause prejudice to the interests of the first Party or material injury to its domestic industry, this Party may take appropriate measures after consultation within the Contact Group referred to in Article 8, or after thirty working days following referral for such consultation.

Article 6

The provisions of Articles 19, 20 and 34 of the Agreement shall apply to trade between the Parties in steel products.

Article 7

1. The Contracting Parties recognise the need for an administrative procedure having as its purpose the rapid provision of information on the trend in trade flows in respect of the trade in steel products originating in the former Yugoslav Republic of Macedonia in order to increase transparency and to avoid possible diversions of trade.

2. The Contracting Parties therefore agree to establish a double-checking system, without quantitative limits, for the import into the Community of steel products originating in the former Yugoslav Republic of Macedonia; to exchange statistical information on export and surveillance documents and to hold consultations promptly on any problems arising from the operation of such a system.

3. The details of the double-checking system are contained in Annex I to this Protocol. The continuing need for this system shall be regularly reviewed. The Annex may subse-

quently be amended or the double-checking system abolished by means of a Decision of the Stabilisation and Association Council.

Article 8

The Parties agree that one of the special bodies established by the Stabilisation and Association Council shall be a contact group, which will discuss the implementation of this Protocol.

ANNEX I

1. A proof of origin shall be valid for four months from the date of issue in the exporting country, and must be submitted within the said period to the customs authorities of the importing country.

2. 3. In other cases of belated presentation, the customs authorities of the importing country may accept the proofs of origin where the products have been submitted before the said final date.

Article 24

Submission of proof of origin

Proofs of origin shall be submitted to the customs authorities of the importing country in accordance with the procedures applicable in that country. The said authorities may require a

In the case of products sent by post, this declaration can be made on the customs declaration CN22/CN23 or on a sheet of paper annexed to that document.

2. Imports which are occasional and consist solely of products for the personal use of the recipients or travellers or their families shall not be considered as imports by way of trade if it is evident from the nature and quantity of the products that no commercial purpose is in view.

3. Furthermore, the total value of these products shall not exceed EUR 500 in the case of small packages or EUR 1 200 in the case of products forming part of travellers' personal luggage.

Article 27

Supporting documents

The documents referred to in Articles 17(3) and 21(3) used for the purpose of proving that products covered by a movement certificate EUR.1 or an invoice declaration can be considered as products originating in the Community or in the former Yugoslav Republic of Macedonia and fulfil the other requirements of this Protocol may consist *inter alia* of the following:

(a) direct evidence of the processes carried out by the exporter or supplier to obtain the goods concerned, contained for example in his accounts or internal bookkeeping;

Article 29

Discrepancies and formal errors

1. The discovery of slight discrepancies between the statements made in the proof of origin and those made in the documents submitted to the customs office for the purpose of carrying out the formalities for importing the products shall not ipso facto render the proof of origin null and void if it is duly established that this document does correspond to the products submitted.
2. Obvious formal errors such as typing errors on a proof of origin should not cause this document to be rejected if these errors are not such as to create doubts concerning the correctness of the statements made in this document.

Article 30

Amounts expressed in euro

1. For the application of the provisions of Article 21(1)(b) and Article 26(3) in cases where products are invoiced in a currency other than euro, amounts in the national currency of the former Yugoslav Republic of Macedonia equivalent to the amounts expressed in euro shall be fixed annually.

2. A consignment shall benefit from the provisions of Article 21(1)(b) or Article 26(3) by reference to the currency in which the invoice is drawn up, according to the amount fixed by the Community or the former Yugoslav Republic of Macedonia.

3. The amounts to be used in any given national currency shall be the equivalent in that currency of the amounts expressed in euro as at the first working day of October. The amounts shall be communicated to the European Commission by 15 October and shall apply from 1 January the following year. The European Commission shall notify the former Yugoslav Republic of Macedonia of the relevant amount.

4. The Community or the former Yugoslav Republic of Macedonia may round up or down the amount resulting from the conversion into its national currency of an amount expressed in euro. The rounded-off amount may not differ from the amount resulting from the conversion by more than 5 per cent. The former Yugoslav Republic of Macedonia may retain unchanged its national currency equivalent to an amount expressed in euro if, at the time of the annual adjustment provided for in paragraph 3, the conversion of that amount, prior to any rounding-off, results in an increase of less than 15 per cent in the national currency equivalent. The national currency equivalent may be retained unchanged if the conversion would result in a decrease in that equivalent value.

5. The amounts expressed in euro shall be reviewed by the Stabilisation and Association Committee at the request of the Community or the former Yugoslav Republic of Macedonia. When carrying out this review, the Stabilisation and Association Committee shall consider the desirability of preserving the effects of the limits concerned in real terms. For this purpose, it may decide to modify the amounts expressed in euro.

TITLE VI

ARRANGEMENTS FOR ADMINISTRATIVE COOPERATION

Article 31

Mutual assistance

1. The customs authorities of the EC Member States and of the former Yugoslav Republic of Macedonia shall provide each other, through the European Commission, with specimen impressions of stamps used in their customs offices for the issue of movement certificates EUR.1 and with the addresses of the customs authorities responsible for verifying those certificates and invoice declarations.

2. In order to ensure the proper application of this Protocol, the Community and the former Yugoslav Republic of Macedonia shall assist each other, through the competent customs administrations, in checking the authenticity of the movement certificates EUR.1 or the invoice declarations and the correctness of the information given in these documents.

Article 32

Verification of proofs of origin

1. Subsequent verifications of proofs of origin shall be carried out at random or whenever the customs authorities of the importing country have reasonable doubts as to the authenticity of such documents, the originating status of the products concerned or the fulfilment of the other requirements of this Protocol.

2. For the purposes of implementing the provisions of paragraph 1, the customs authorities of the importing country shall return the movement certificate EUR.1 and the invoice, if it has been submitted, the invoice declaration, or a copy of these documents, to the customs authorities of the exporting country giving, where appropriate, the reasons for the enquiry. Any documents and information obtained suggesting that the information given on the proof or origin is incorrect shall be forwarded in support of the request for verification.

3. The verification shall be carried out by the customs authorities of the exporting country. For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate.

4. If the customs authorities of the importing country decide to suspend the granting of preferential treatment to the products concerned while awaiting the results of the verification, release of the products shall be offered to the importer subject to any precautionary measures judged necessary.

5. The customs authorities requesting the verification shall be informed of the results of this verification as soon as possible. These results must indicate clearly whether the documents are authentic and whether the products concerned can be considered as products originating in the Community or the former Yugoslav Republic of Macedonia and fulfil the other requirements of this Protocol.

6. If in cases of reasonable doubt there is no reply within ten months of the date of the verification request or if the reply does not contain sufficient information to determine the authenticity of the document in question or the real origin of the products, the requesting customs authorities shall, except in exceptional circumstances, refuse entitlement to the preferences.

Article 33

Dispute settlement

Where disputes arise in relation to the verification procedures of Article 32 which cannot be settled between the customs authorities requesting a verification and the customs authorities

responsible for carrying out this verification or where they raise a question as to the interpretation of this Protocol, they shall be submitted to the Stabilisation and Association Committee.

In all cases the settlement of disputes between the importer and the customs authorities of the importing country shall be under the legislation of the said country.

Article 34

Penalties

Penalties shall be imposed on any person who draws up, or causes to be drawn up, a document which contains incorrect information for the purpose of obtaining a preferential treatment for products.

Article 35

Free zones

1. The Community and the former Yugoslav Republic of Macedonia shall take all necessary steps to ensure that products traded under cover of a proof of origin which in the course of transport use a free zone situated in their territory, are not substituted by other goods and do not undergo handling other than normal operations designed to prevent their deterioration.

2. By means of an exemption to the provisions contained in paragraph 1, when products originating in the Community or the former Yugoslav Republic of Macedonia are imported into a free zone under cover of a proof of origin and undergo treatment or processing, the authorities concerned shall issue a new EUR.1 certificate at the exporter's request, if the treatment or processing undergone is in conformity with the provisions of this Protocol.

The former Yugoslav Republic of Macedonia shall grant to imports of products covered by the Agreement and originating in Ceuta and Melilla the same customs regime as that which is granted to products imported from and originating in the Community.

In addition, in the case of products originating in Ceuta and Melilla, this shall be indicated in Box 4 of movement certificates EUR.1 or on invoice declarations.
4. The Spanish customs authorities shall be responsible for the application of this Protocol in Ceuta and Melilla.

FINAL PROVISIONS

Article 38

Amendments to the Protocol

The Stabilisation and Association Council may decide to amend the provisions of this Protocol.

ANNEX I

INTRODUCTORY NOTES TO THE LIST IN ANNEX II

Note 1:

The list sets out the conditions required for all products to be considered as sufficiently worked or processed within the meaning of Article 6.

Note 2:

- 2.1. The first two columns in the list describe the product obtained. The first column gives the heading number or Chapter number used in the Harmonised System and the second column gives the description of goods used in that system for that heading or Chapter. For each entry in the first two columns a rule is specified in column 3 or 4. Where, in some cases, the entry in the first column is preceded by an 'ex', this signifies that the rules in column 3 or 4 apply only to the part of that heading as described in column 2.
- 2.2. Where several heading numbers are grouped together in column 1 or a Chapter number is given and the description of products in column 2 is therefore given in general terms, the adjacent rules in column 3 or 4 apply to all products which, under the Harmonised System, are classified in headings of the Chapter or in any of the headings grouped together in column 1.
- 2.3. Where there are different rules in the list applying to different products within a heading, each indent contains the description of that part of the heading covered by the adjacent rules in column 3 or 4.
- 2.4. Where, for an entry in the first two columns, a rule is specified in both columns 3 and 4, the exporter may opt, as an alternative, to apply either the rule set out in column 3 or that set out in column 4. If no origin rule is given in column 4, the rule set out in column 3 has to be applied.

Note 3:

- 3.1. The provisions of Article 6, concerning products having acquired originating status which are used in the manufacture of other products, shall apply, regardless of whether this status has been acquired inside the factory where these products are used or in another factory in the former Yugoslav Republic of Macedonia or in the Community.

Example:

An engine of heading No 8407, for which the rule states that the value of the non-originating materials which may be incorporated may not exceed 40 % of the ex-works price, is made from 'other alloy steel roughly shaped by forging' of heading No ex 7224.

If this forging has been forged in the former Yugoslav Republic of Macedonia from a non-originating ingot, it has already acquired originating status by virtue of the rule for heading No ex 7224 in the list. The forging can then count as originating in the value-calculation for the engine, regardless of whether it was produced in the same factory or in another factory in the former Yugoslav Republic of Macedonia. The value of the non-originating ingot is thus not taken into account when adding up the value of the non-originating materials used.

- 3.2. The rule in the list represents the minimum amount of working or processing required, and the carrying-out of more working or processing also confers originating status; conversely, the carrying-out of less working or processing cannot confer originating status. Thus, if a rule provides that non-originating material, at a certain level of manufacture, may be used, the use of such material at an earlier stage of manufacture is allowed, and the use of such material at a later stage is not.
- 3.3. Without prejudice to Note 3.2, where a rule states that 'materials of any heading' may be used, materials of the same heading as the product may also be used, subject, however, to any specific limitations which may also be contained in the rule. However, the expression 'manufacture from materials of any heading, including other materials of heading No ...' means that only materials classified in the same heading as the product and of a different description than that of the product as given in column 2 of the list may be used.
- 3.4. When a rule in the list specifies that a product may be manufactured from more than one material, this means that one or more materials may be used. It does not require that all be used.

Example:

The rule for fabrics of headings Nos 5208 to 5212 provides that natural fibres may be used and that chemical materials, among other materials, may also be used. This does not mean that both have to be used; it is possible to use one or the other, or both.

- 3.5. Where a rule in the list specifies that a product must be manufactured from a particular material, the condition obviously does not prevent the use of other materials which, because of their inherent nature, cannot satisfy the rule. (See also Note 6.2 below in relation to textiles).

Example:

The rule for prepared foods of heading No 1904, which specifically excludes the use of cereals and their derivatives, does not prevent the use of mineral salts, chemicals and other additives which are not products from cereals.

However, this does not apply to products which, although they cannot be manufactured from the particular materials specified in the list, can be produced from a material of the same nature at an earlier stage of manufacture.

Example:

In the case of an article of apparel of ex Chapter 62 made from non-woven materials, if the use of only non-originating yarn is allowed for this class of article, it is not possible to start from non-woven cloth — even if non-woven cloths cannot normally be made from yarn. In such cases, the starting material would normally be at the stage before yarn — that is, the fibre stage.

- 3.6. Where, in a rule in the list, two percentages are given for the maximum value of non-originating materials that can be used, then these percentages may not be added together. In other words, the maximum value of all the non-originating materials used may never exceed the higher of the percentages given. Furthermore, the individual percentages must not be exceeded, in relation to the particular materials to which they apply.

Note 4:

- 4.1. The term 'natural fibres' is used in the list to refer to fibres other than artificial or synthetic fibres. It is restricted to the stages before spinning takes place, including waste, and, unless otherwise specified, includes fibres which have been carded, combed or otherwise processed, but not spun.
- 4.2. The term 'natural fibres' includes horsehair of heading No 0503, silk of headings Nos 5002 and 5003, as well as wool-fibres and fine or coarse animal hair of headings Nos 5101 to 5105, cotton fibres of headings Nos 5201 to 5203, and other vegetable fibres of headings Nos 5301 to 5305.
- 4.3. The terms 'textile pulp', 'chemical materials' and 'paper-making materials' are used in the list to describe the materials, not classified in Chapters 50 to 63, which can be used to manufacture artificial, synthetic or paper fibres or yarns.
- 4.4. The term 'man-made staple fibres' is used in the list to refer to synthetic or artificial filament tow, staple fibres or waste, of headings Nos 5501 to 5507.

Note 5:

- 5.1. Where, for a given product in the list, reference is made to this Note, the conditions set out in column 3 shall not be applied to any basic textile materials used in the manufacture of this product and which, taken together, represent 10 % or less of the total weight of all the basic textile materials used. (See also Notes 5.3 and 5.4 below.)
- 5.2. However, the tolerance mentioned in Note 5.1 may be applied only to mixed products which have been made from two or more basic textile materials.

The following are the basic textile materials:

- silk,
- wool,
- coarse animal hair,
- fine animal hair,
- horsehair,
- cotton,
- paper-making materials and paper,
- flax,
- true hemp,
- jute and other textile bast fibres,

- sisal and other textile fibres of the genus *Agave*,
- coconut, abaca, ramie and other vegetable textile fibres,
- synthetic man-made filaments,
- artificial man-made filaments,
- current-conducting filaments,
- synthetic man-made staple fibres of polypropylene,
- synthetic man-made staple fibres of polyester,
- synthetic man-made staple fibres of polyamide,
- synthetic man-made staple fibres of polyacrylonitrile,
- synthetic man-made staple fibres of polyimide,
- synthetic man-made staple fibres of polytetrafluoroethylene,
- synthetic man-made staple fibres of polyphenylene sulphide,
- synthetic man-made staple fibres of polyvinyl chloride,
- other synthetic man-made staple fibres,
- artificial man-made staple fibres of viscose,
- other artificial man-made staple fibres,
- yarn made of polyurethane segmented with flexible segments of polyether, whether or not gimped,
- yarn made of polyurethane segmented with flexible segments of polyester, whether or not gimped,
- products of heading No 5605 (metallised yarn) incorporating strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film,
- other products of heading No 5605.

Example:

A yarn, of heading No 5205, made from cotton fibres of heading No 5203 and synthetic staple fibres of heading No 5506, is a mixed yarn. Therefore, non-originating synthetic staple fibres which do not satisfy the origin-rules (which require manufacture from chemical materials or textile pulp) may be used up to a weight of 10 % of the yarn.

Example:

A woollen fabric, of heading No 5112, made from woollen yarn of heading No 5107 and synthetic yarn of staple fibres of heading No 5509, is a mixed fabric. Therefore, synthetic yarn which does not satisfy the origin-rules (which require manufacture from chemical materials or textile pulp), or woollen yarn which does not satisfy the origin-rules (which require manufacture from natural fibres, not carded or combed or otherwise prepared for spinning), or a combination of the two, may be used provided their total weight does not exceed 10 % of the weight of the fabric.

Example:

Tufted textile fabric, of heading No 5802, made from cotton yarn of heading No 5205 and cotton fabric of heading No 5210, is a only mixed product if the cotton fabric is itself a mixed fabric made from yarns classified in two separate headings, or if the cotton yarns used are themselves mixtures.

Example:

If the tufted textile fabric concerned had been made from cotton yarn of heading No 5205 and synthetic fabric of heading No 5407, then, obviously, the yarns used are two separate basic textile materials and the tufted textile fabric is, accordingly, a mixed product.

- 5.3. In the case of products incorporating 'yarn made of polyurethane segmented with flexible segments of polyether, whether or not gimped', this tolerance is 20 % in respect of this yarn.
- 5.4. In the case of products incorporating 'strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of an adhesive between two layers of plastic film', this tolerance is 30 % in respect of this strip.

Note 6:

- 6.1. Where, in the list, reference is made to this Note, textile materials (with the exception of linings and interlinings), which do not satisfy the rule set out in the list in column 3 for the made-up product concerned, may be used, provided that they are classified in a heading other than that of the product and that their value does not exceed 8 % of the ex-works price of the product.
- 6.2. Without prejudice to Note 6.3, materials, which are not classified within Chapters 50 to 63, may be used freely in the manufacture of textile products, whether or not they contain textiles.

Example:

If a rule in the list provides that, for a particular textile item (such as trousers), yarn must be used, this does not prevent the use of metal items, such as buttons, because buttons are not classified within Chapters 50 to 63. For the same reason, it does not prevent the use of slide-fasteners, even though slide-fasteners normally contain textiles.

- 6.3. Where a percentage-rule applies, the value of materials which are not classified within Chapters 50 to 63 must be taken into account when calculating the value of the non-originating materials incorporated.

Note 7:

- 7.1. For the purposes of headings Nos ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, the 'specific processes' are the following:
 - (a) vacuum-distillation;
 - (b) redistillation by a very thorough fractionation-process ⁽¹⁾;
 - (c) cracking;
 - (d) reforming;
 - (e) extraction by means of selective solvents;
 - (f) the process comprising all of the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; decolourisation and purification with naturally-active earth, activated earth, activated charcoal or bauxite;
 - (g) polymerisation;
 - (h) alkylation;
 - (i) isomerisation.
- 7.2. For the purposes of headings Nos 2710, 2711 and 2712, the 'specific processes' are the following:
 - (a) vacuum-distillation;
 - (b) redistillation by a very thorough fractionation-process ⁽¹⁾;
 - (c) cracking;
 - (d) reforming;
 - (e) extraction by means of selective solvents;
 - (f) the process comprising all of the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; decolourisation and purification with naturally-active earth, activated earth, activated charcoal or bauxite;
 - (g) polymerisation;
 - (h) alkylation;
 - (ij) isomerisation;
 - (k) in respect of heavy oils of heading No ex 2710 only, desulphurisation with hydrogen, resulting in a reduction of at least 85 % of the sulphur-content of the products processed (ASTM D 1266-59 T method);
 - (l) in respect of products of heading No 2710 only, deparaffining by a process other than filtering;
 - (m) in respect of heavy oils of heading No ex 2710 only, treatment with hydrogen, at a pressure of more than 20 bar and a temperature of more than 250 °C, with the use of a catalyst, other than to effect desulphurisation, when the hydrogen constitutes an active element in a chemical reaction. The further treatment, with hydrogen, of lubricating oils of heading No ex 2710 (e.g. hydrofinishing or decolourisation), in order, more especially, to improve colour or stability shall not, however, be deemed to be a specific process;

⁽¹⁾ See Additional Explanatory Note 4(b) to Chapter 27 of the Combined Nomenclature.

- (n) in respect of fuel oils of heading No ex 2710 only, atmospheric distillation, on condition that less than 30 % of these products distils, by volume, including losses, at 300 °C, by the ASTM D 86 method;
 - (o) in respect of heavy oils other than gas oils and fuel oils of heading No ex 2710 only, treatment by means of a high-frequency electrical brush-discharge.
- 7.3. For the purposes of headings Nos ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, simple operations, such as cleaning, decanting, desalting, water-separation, filtering, colouring, marking, obtaining a sulphur-content as a result of mixing products with different sulphur-contents, or any combination of these operations or like operations, do not confer origin.

Article 2

Scope

1. The Contracting Parties shall assist each other, in the areas within their competence, in the manner and under the conditions laid down in this Protocol, to ensure the correct application of the customs legislation, in particular by preventing, investigating and combating operations in breach of that legislation.

2. Assistance in customs matters, as provided for in this Protocol, shall apply to any administrative authority of the Contracting Parties which is competent for the application of this Protocol. It shall not prejudice the rules governing mutual assistance in criminal matters. Nor shall it cover information obtained under powers exercised at the request of a judicial authority, except where communication of such information is authorised by that authority.

3. Assistance to recover duties, taxes or fines is not covered by this Protocol.

Article 3

Assistance on request

1. At the request of the applicant authority, the requested authority shall provide it with all relevant information which may enable it to ensure that customs legislation is correctly

applied, including information regarding activities noted or planned which are or could be operations in breach of customs legislation.

2. At the request of the applicant authority, the requested authority shall inform it:

- (a) whether goods exported from the territory of one of the Contracting Parties have been properly imported into the territory of the other Contracting Party, specifying, where appropriate, the customs procedure applied to the goods;
- (b) whether goods imported into the territory of one of the Contracting Parties have been properly exported from the territory of the other Party, specifying, where appropriate, the customs procedure applied to the goods.

- new means or methods employed in carrying out operations in breach of customs legislation;
- goods known to be subject to operations in breach of customs legislation;

- natural or legal persons in respect of whom there are reasonable grounds for believing that they are or have been involved in operations in breach of customs legislation;
- means of transport in respect of which there are reasonable grounds for believing that they have been, are, or may be used in operations in breach of customs legislation.

Article 5

Delivery, Notification

At the request of the applicant authority, the requested authority shall, in accordance with legal or regulatory provisions applicable to the latter, take all necessary measures in order:

- to deliver any documents or
- to notify any decisions,

emanating from the applicant authority and falling within the scope of this Protocol, to an addressee residing or established in the territory of the requested authority.

Requests for delivery of documents or notification of decisions shall be made in writing in an official language of the requested authority or in a language acceptable to that authority.

Article 6

Form and substance of requests for assistance

1. Requests pursuant to this Protocol shall be made in writing. They shall be accompanied by the documents necessary to enable compliance with the request. When required because of the urgency of the situation, oral requests may be accepted, but must be confirmed in writing immediately.
2. Requests pursuant to paragraph 1 shall include the following information:
 - (a) the applicant authority;
 - (b) the measure requested;
 - (c) the object of and the reason for the request;
 - (d) the legal or regulatory provisions and other legal elements involved;
 - (e) indications as exact and comprehensive as possible on the natural or legal persons who are the target of the investigations;
 - (f) a summary of the relevant facts and of the enquiries already carried out.

3. Requests shall be submitted in an official language of the requested authority or in a language acceptable to that authority. This requirement shall not apply to any documents that accompany the request under paragraph 1.

4. If a request does not meet the formal requirements set out above, its correction or completion may be requested; in the meantime precautionary measures may be ordered.

Article 7

Execution of requests

1. In order to comply with a request for assistance, the requested authority shall proceed, within the limits of its competence and available resources, as though it were acting on its own account or at the request of other authorities of that same Contracting Party, by supplying information already possessed, by carrying out appropriate enquiries or by arranging for them to be carried out. This provision shall also apply to any other authority to which the request has been addressed by the requested authority when the latter cannot act on its own.

2. Requests for assistance shall be executed in accordance with the legal or regulatory provisions of the requested Contracting Party.

3. Duly authorised officials of a Contracting Party may, with the agreement of the other Contracting Party involved and subject to the conditions laid down by the latter, be present to obtain in the offices of the requested authority or any other concerned authority in accordance with paragraph 1, information relating to activities that are or may be operations in breach of customs legislation which the applicant authority needs for the purposes of this Protocol.

2. This information may be in computerised form.

3. Original documents shall be transmitted only upon request in cases where certified copies would be insufficient. These originals shall be returned at the earliest opportunity.

Article 9

Exceptions to the obligation to provide assistance

1. Assistance may be refused or may be subject to the satisfaction of certain conditions or requirements, in cases where a Party is of the opinion that assistance under this Protocol would:

- (a) be likely to prejudice the sovereignty of former Yugoslav Republic of Macedonia or that of a Member State which has been requested to provide assistance under this Protocol; or
- (b) be likely to prejudice public policy, security or other essential interests, in particular in the cases referred to under Article 10(2); or
- (c) violate an industrial, commercial or professional secret.

2. Assistance may be postponed by the requested authority on the ground that it will interfere with an ongoing investigation, prosecution or proceeding. In such a case, the requested authority shall consult with the applicant authority to determine if assistance can be given subject to such terms or conditions as the requested authority may require.

3. Where the applicant authority seeks assistance which it would itself be unable to provide if so requested, it shall draw attention to that fact in its request. It shall then be for the requested authority to decide how to respond to such a request.

4. For the cases referred to in paragraphs 1 and 2, the decision of the requested authority and the reasons therefor must be communicated to the applicant authority without delay.

Article 10

Information exchange and confidentiality

1. Any information communicated in whatsoever form pursuant to this Protocol shall be of a confidential or restricted nature, depending on the rules applicable in each of the Contracting Parties. It shall be covered by the obligation of official secrecy and shall enjoy the protection extended to similar information under the relevant laws of the Contracting Party that received it and the corresponding provisions applying to the Community authorities.

2. Personal data may be exchanged only where the Contracting Party which may receive them undertakes to protect such data in at least an equivalent way to the one applicable to that particular case in the Contracting Party that may supply them. To that end, Contracting Parties shall communicate to each other information on their applicable rules, including, where appropriate, legal provisions in force in the Member States of the Community.

3. The use, in judicial or administrative proceedings instituted in respect of operations in breach of customs legislation, of information obtained under this Protocol, is considered to be for the purposes of this Protocol. Therefore, the Contracting Parties may, in their records of evidence, reports and testimonies and in proceedings and charges brought before the courts, use as evidence information obtained and documents consulted in accordance with the provisions of this Protocol. The competent authority which supplied that information or gave access to those documents shall be notified of such use.

4. Information obtained shall be used solely for the purposes of this Protocol. Where one of the Contracting Parties wishes to use such information for other purposes, it shall obtain the prior written consent of the authority which provided the information. Such use shall then be subject to any restrictions laid down by that authority.

Article 11

Experts and witnesses

An official of a requested authority may be authorised to appear, within the limitations of the authorisation granted, as an expert or witness in judicial or administrative proceedings regarding the matters covered by this Protocol, and produce such objects, documents or certified copies thereof, as may be needed for the proceedings. The request for appearance must indicate specifically before which judicial or administrative authority the official will have to appear, on what matters and by virtue of what title or qualification the official will be questioned.

Other agreements

1. Taking into account the respective competencies of the European Community and the Member States, the provisions of this Protocol shall:

- not affect the obligations of the Contracting Parties under any other international agreement or convention;

2. Notwithstanding the provisions of paragraph 1, the provisions of this Protocol shall take precedence over the provisions of any bilateral agreement on mutual assistance which has been or may be concluded between individual Member States and former Yugoslav Republic of Macedonia insofar as the provisions of the latter are incompatible with those of this Protocol.

3. In respect of questions relating to the applicability of this Protocol, the Contracting Parties shall consult each other to resolve the matter in the framework of the Stabilisation and Association Committee set up under Article 114 of the Stabilisation and Association Agreement.

JOINT DECLARATIONS

JOINT DECLARATION ON ARTICLE 34

The European Communities and the former Yugoslav Republic of Macedonia, aware of the impact that the sudden elimination of the 1 % fee applied for customs clearance purposes to imported goods could have on the budget of the latter, agree, as an exceptional measure, that the fee would be maintained until 1 January 2002 or until the entry into force of the Stabilisation and Association Agreement, whichever occurs first.

Should this fee, in the meantime, be reduced or eliminated vis-à-vis a third country, the former Yugoslav Republic of Macedonia undertakes to immediately apply the same treatment to goods of EC origin.

The content of this Joint Declaration is without prejudice to the position of the European Communities in the negotiations on the accession of the former Yugoslav Republic of Macedonia to the World Trade Organisation.
