A. INTRODUCTION AND FINANCING OF THE GENERAL BUDGET

INTRODUCTION

The general budget of the European Union is the instrument which sets out and authorises the total amount of revenue and expenditure deemed necessary for the European Community and the European Atomic Energy Community for each year.

The budget is established and implemented in compliance with the principles of unity, budgetary accuracy, annuality, equilibrium, unit of account, universality, specification, sound financial management and transparency.

- The *principle of unity* and the *principle of budgetary accuracy* mean that all Community revenue and expenditure and that of the European Union when it is charged to the budget must be incorporated in a single document.
- The *principle of annuality* means that the budget is adopted for one budgetary year at a time and that both commitment and payment appropriations for the current budgetary year must, in principle, be used in the course of the year.
- The *principle of equilibrium* means that forecasts of revenue for the budgetary year must be equal to payment appropriations for that year: borrowing to cover any budget deficit which may arise is not compatible with the own resources system and will not be authorised.
- In accordance with the *principle of unit of account*, the budget is drawn up and implemented in euro and the accounts shall be presented in euro.
- The *principle of universality* means that total revenue is to cover total payment appropriations with the exception of a limited number of revenue items which are assigned to particular items of expenditure. All revenue and expenditure is entered in full in the budget without any adjustment against each other.
- The *principle of specification* means that each appropriation must have a given purpose and be assigned to a specific objective in order to prevent any confusion between appropriations.
- The *principle of sound financial management* is defined by reference to the principles of economy, efficiency and effectiveness.
- The budget is established in compliance with the *principle of transparency*, ensuring sound information on implementation of the budget and the accounts.

The budget presents appropriations and resources by purpose (activity-based budgeting), with a view to enhancing transparency in the management of the budget with reference to the objectives of sound financial management and in particular efficiency and effectiveness.

The expenditure authorised by the present budget for the 25 current Member States totals EUR 121 190,91 million in commitment appropriations and EUR 111 969,61 million in payment appropriations, representing growth rates of 4,51 % and 5,95 % respectively by comparison with the 2005 budget.

Budgetary revenue for the 25 Member States totals EUR 111 969,61 million. The uniform rate of call for the VAT resource is 0,3095 % whilst that for the GNI resource is 0,7267 %. Traditional own resources (customs duties, agricultural duties and sugar levies) account for 12,70 % of the financing of the budget for 2006. The VAT resource accounts for 14,19 % and the GNI resource for 71,95 %. Miscellaneous revenue for this financial year is estimated at EUR 1 297,69 million.

The own resources needed to finance the 2006 budget account for 1,00 % of the Member States' total GNI, thus falling below the ceiling of 1,24 % of GNI calculated using the method set out in Article 3(1) of Council Decision 2000/597/EC, Euratom of 29 September 2000 on the system of the European Communities' own resources (OJ L 253, 7.10.2000, p. 42).

The tables below set out step by step the method used to calculate the financing of the 2006 budget for the 25 Member States.

**Calculation of the uniform call rate for VAT own resources
(Article 2(4) of Decision 2000/597/EC, Euratom):**

Uniform rate (%) = maximum call rate – frozen rate

A. The maximum call rate is set at 0,50 % for 2006.

B. Determination of the rate frozen by the correction of budgetary imbalances granted to the United Kingdom (Article 2(4)(b) of Decision 2000/597/EC, Euratom):

(1) calculation of the theoretical share of the countries with a restricted financial burden:

In accordance with Article 5(1) of Decision 2000/597/EC, Euratom, the financial contribution of Germany (DE), the Netherlands (NL), Austria (AT) and Sweden (SE) is restricted to a quarter of their normal contribution.

Formula for a country with a restricted financial burden, for example Germany:

Germany's theoretical VAT contribution = [Germany's capped VAT base / (EU capped VAT base – UK capped VAT base)] × 1/4 × United Kingdom correction

Example: Germany

Germany's theoretical VAT contribution = 9 799 832 000 / (51 321 264 500 – 9 556 000 000) × 1/4 × 5 685 342 107 = 333 503 200

(2) calculation of the frozen rate:

Frozen rate = [UK correction – theoretical VAT contributions (D + NL + A + S)]/[EU capped VAT base – capped VAT bases (UK+ D + NL + A + S)]

Frozen rate = 5 685 342 107 – (333 503 200 + 80 311 840 + 36 896 636 + 43 167 455)/[51 321 264 500 – (9 556 000 000 + 9 799 832 000 + 2 359 925 000 + 1 084 190 000 + 1 268 455 000)]

Frozen rate = 0,190492392346244 %

Uniform rate

0,5 % – 0,190492392346244 % = 0,309507607653756 %

TABLE 5

Correction of budgetary imbalances for the United Kingdom for 2005 pursuant to Article 4 of Decision 2000/597/EC, Euratom (Chapter 1 5)

| Description | Coefficient ⁽¹⁾ (%) | Amount |
|--|--------------------------------|-----------------------|
| 1. United Kingdom's share (in %) of total notional non-capped VAT bases | 17,8134 | |
| 2. United Kingdom's share (in %) of PAE-adjusted total allocated expenditure | 7,1843 | |
| 3. (1) – (2) | 10,6290 | |
| 4. Total allocated expenditure | | 93 429 615 393 |
| 5. Pre-accession expenditure (PAE) ⁽²⁾ | | 1 755 539 532 |
| 6. PAE-adjusted total allocated expenditure = (4) – (5) | | 91 674 075 861 |
| 7. United Kingdom's correction original amount = (3) × (6) × 0,66 | | 6 431 081 164 |
| 8. United Kingdom's advantage ⁽³⁾ | | 747 129 835 |
| 9. Basic compensation for the United Kingdom = (7) – (8) | | 5 683 951 329 |
| 10. Windfall gains deriving from traditional own resources ⁽⁴⁾ | | – 1 390 778 |
| 11. Correction for the United Kingdom = (9) – (10) | | 5 685 342 107 |

⁽¹⁾ Rounded percentages.
⁽²⁾ The amount of pre-accession expenditure (PAE) corresponds to payments made to the 10 new Member States (which joined the EU on 1 May 2004) under 2003 appropriations, as adjusted by applying the EU GDP deflator for 2004. This amount is deducted from total allocated expenditure to ensure that expenditure which is unabated before enlargement remains so after enlargement.
⁽³⁾ The 'UK advantage' corresponds to the effects arising for the United Kingdom from the changeover to capped VAT and the introduction of the GNP/GNI-based own resource.
⁽⁴⁾ These windfall gains correspond to the net gains of the United Kingdom resulting from the increase — from 10 to 25 % as of 1 January 2001 — in the percentage of traditional own resources retained by Member States to cover the collection costs of traditional own resources (TOR).

CHAPTER 11 — LEVIES AND OTHER DUTIES PROVIDED FOR UNDER THE COMMON ORGANISATION OF THE MARKETS IN SUGAR (ARTICLE 2(1)(A) OF DECISION 2000/597/EC, EURATOM)

Sugar production levies

| 547 100 000 | 628 700 000 | 413 144 497,22 |

Under the common organisation of the market in the sugar sector, sugar producers pay basic and B production levies to cover market support expenditure.

However, the application of a ceiling to the levies as provided for in Article 15 of Regulation (EC) No 1260/2001 may lead to their not fully covering the estimated total loss due to the existence of an exportable surplus calculated in accordance with paragraphs 1 and 2 of the said Article. The complementary levy referred to in Article 1 1 6 of this chapter will then have to be paid by sugar producers in accordance with Article 16 of Regulation (EC) No 1260/2001.

Forecasts from 2003 onwards are net figures (without collection costs).

Legal basis

Council Regulation (EC) No 1260/2001 of 19 June 2001 on the common organisation of the markets in the sugar sector (OJ L 178, 30.6.2001, p. 1), as last amended by Commission Regulation (EC) No 39/2004 (OJ L 6, 10.1.2004, p. 16).

Sugar storage levies

| Financial year 2006 | Financial year 2005 | Financial year 2004 |
|---------------------|---------------------|---------------------|
| p.m. | p.m. | - 85 802,17 |

This article is intended to record revenue from the outstanding sugar storage levies as Council Regulation (EC) No 1260/2001 of 19 June 2001 on the common organisation of the markets in the sugar sector (OJ L 178, 30.6.2001, p. 1) abolished the storage levy.

This article also covers the amounts due pursuant to Article 5 of Commission Regulation (EEC) No 65/82 of 13 January 1982 laying down detailed rules for carrying forward sugar to the following marketing year (OJ L 9, 14.1.1982, p. 14) when the obligation to store sugar carried forward is not complied with and the amounts due according to Council Regulation (EEC) No 1789/81 when the general rules concerning the system of minimum stocks in the sugar sector are not complied with.

Forecasts from 2003 onwards are net figures (without collection costs).

Isoglucose production levies

| Financial year 2006 | Financial year 2005 | Financial year 2004 |
|---------------------|---------------------|---------------------|
| 6 700 000 | 7 200 000 | 3 707 832,67 |

The common organisation of the markets in sugar provides that isoglucose-production undertakings pay basic and B production levies intended to cover market support expenditure.

However, the application of a ceiling to the levies as provided for in Article 15 of Regulation (EC) No 1260/2001 may lead to their not fully covering the estimated total loss due to the existence of an exportable surplus calculated in accordance with paragraphs 1 and 2 of the said Article. The complementary levy referred to in Article 1 1 6 of this chapter will then have to be paid by isoglucose producers in accordance with Article 16 of Regulation (EC) No 1260/2001.

Forecasts from 2003 onwards are net figures (without collection costs).

Production levy for inulin syrup

|---------------------|---------------------|---------------------|
| 2 400 000 | 2 100 000 | 2 949 953,77 |

Continuation of the existing production quota arrangements for sugar requires that similar arrangements be applied to the production of inulin syrup, a direct substitute for isoglucose and liquid sugar, to prevent this product from disturbing a market which, because of the surplus, could further increase the export costs of sugar and isoglucose producers alone.

The common organisation of the market in sugar provides that inulin syrup producers pay basic and B production levies and where necessary the additional levy covering market support expenditure.

Article 15 of the Financial Regulation states that the balance from each financial year, whether surplus or deficit, is entered as revenue expenditure in the budget of the subsequent financial year.

The relevant estimates of such revenue or expenditure are entered in the budget during the budgetary procedure and, where appropriate, in a letter of amendment submitted pursuant to Article 34 of the Financial Regulation. They are drawn up in accordance with the principles set out in Article 15 of Regulation (EC, Euratom) No 1150/2000.

After the closure of the accounts for each financial year, any discrepancy in relation to the estimates is entered in the budget for the following financial year through an amending budget.

A deficit is entered in Item 27 02 01 of the statement of expenditure of Section III 'Commission'.

Article 127 of the Act of Accession provided that during the transitional period (1981 to 1985) a decreasing proportion of the GNP-based financial contributions or of the VAT own resources paid by Greece into the general budget of the European Communities should be refunded.

Only the corrections to the VAT balances for 1981 to 1985 entered in Chapter 3 1 may lead to adjustments of the financial contributions made by Greece for the years in question.

Articles 187 and 374 of the Act of Accession of Spain and Portugal provided that during the transitional period (1986 to 1991) a decreasing proportion of the VAT own resources or of the GNP-based financial contributions paid by Spain and Portugal into the general budget, but not including their share in financing the United Kingdom's rebate, should be refunded.

With effect from 1988, Spain and Portugal also receive a refund of a proportion of their payments in respect of the additional resource and their share in financing the United Kingdom's rebate.

Only the adjustments to the VAT and GNP bases for 1986 to 1991 entered in Chapters 3 1 and 3 2 may lead to positive or negative refunds to Spain and Portugal.

Council Decision 2003/76/EC of 1 February 2003 establishing the measures necessary for the implementation of the Protocol, annexed to the Treaty establishing the European Community, on the financial consequences of the expiry of the ECSC Treaty and on the Research Fund for Coal and Steel (OJ L 29, 5.2.2003, p. 22) stipulates that the Commission shall be entrusted with winding up the financial operations of the European Coal and Steel Community which are still in progress when the ECSC Treaty expires.

Pursuant to Article 4 of the above Decision, net revenue from the investment of available assets will constitute revenue in the general budget of the European Union earmarked for a specific purpose, namely financing research projects in sectors related to the coal and steel industry by a coal and steel research fund.

The net revenue available for financing research projects in year $n + 2$ appears in the balance sheet of the ECSC in liquidation for year n , and after the liquidation process has been completed will appear as assets in the balance sheet of the Coal and Steel Research Fund. This financing mechanism takes effect in 2003. Revenue coming from 2004 will be used for research in 2006. In order to reduce as far as possible the fluctuations that movements in the financial markets could cause in the financing of research, a smoothing arrangement is applied. The amount of net revenue expected to be available for research in 2006 comes to EUR 54 750 000.

In accordance with Article 4 of Decision 2003/76/EC, 72,8 % of the fund's appropriations will be for the steel sector and 27,2 % for the coal sector.

CHAPTER 2 6 — STUDIES, SURVEYS AND CONSULTATION (cont'd)

2 6 0 (cont'd)

As part of its audit work, the Court of Auditors has to call on outside experts for technical studies and analyses (chemical, physical and statistical). The need for appropriations to cover the cost of studies contracted out to experts is justified by the specialised and sometimes unforeseeable nature of the studies in question. Without such appropriations, the Court of Auditors could be seriously hampered in performing its duties and its independence could be jeopardised.

This appropriation also includes the cost of the audit of the Court of Auditors' accounts by independent auditors whose report is published in the *Official Journal of the European Union*.

Remarks

In accordance with the provisions of Article 15 of the Financial Regulation, the balance from each financial year, whether surplus or deficit, is entered as revenue or expenditure in the budget of the subsequent financial year.

The relevant estimates of such revenue or expenditure are entered in the budget during the budgetary procedure and, where appropriate, in a letter of amendment submitted pursuant to Article 34 of the Financial Regulation. They are drawn up in accordance with the principles set out in Article 15 of Regulation (EC, Euratom) No 1150/2000.

After the closure of accounts for each financial year, any discrepancy with the estimates is entered in the budget for the following financial year through an amending budget.

A deficit is entered in Article 27 02 01 of the statement of expenditure of this section.

Remarks

Council Decision 2003/76/EC of 1 February 2003 establishing the measures necessary for the implementation of the Protocol, annexed to the Treaty establishing the European Community, on the financial consequences of the expiry of the ECSC Treaty and on the Research Fund for Coal and Steel (OJ L 29, 5.2.2003, p. 22) stipulates that the Commission shall be entrusted with winding up the financial operations of the European Coal and Steel Community which are still in progress when the ECSC Treaty expires.

Pursuant to Article 4 of the above decision, net revenue from the investment of available assets will constitute revenue in the general budget of the European Union earmarked for a specific purpose, namely financing research projects in sectors related to the coal and steel industry by a coal and steel research fund.

The net revenue available for financing research projects in year $n + 2$ appears in the balance sheet of the ECSC in liquidation for year n , and after the liquidation process has been completed will appear as assets in the balance sheet of the Coal and Steel Research Fund. This financing mechanism takes effect in 2003. Revenue coming from 2004 will be used for research in 2006. In order to reduce as far as possible the fluctuations that movements in the financial markets could cause in the financing of research, a smoothing arrangement is applied. The amount of net revenue expected to be available for research in 2006 comes to EUR 54 750 000.

In accordance with Article 4 of Decision 2003/76/EC, 72,8 % of the fund's appropriations will be for the steel sector and 27,2 % for the coal sector.

In accordance with Article 18 of the Financial Regulation, any revenue will be used to provide additional appropriations under Chapter 08 13 of the statement of expenditure in this section.

COMMISSION
TITLE XX — ADMINISTRATIVE EXPENDITURE ALLOCATED TO POLICY AREAS

CHAPTER XX 01 — ADMINISTRATIVE EXPENDITURE ALLOCATED TO POLICY AREAS (*cont'd*)

XX 01 01 (*cont'd*)

XX 01 01 01 (*cont'd*)

- daily subsistence allowance for officials and temporary staff who furnish evidence that they must change their place of residence on taking up duty or transferring to a new place of employment,
- transitional costs for officials assigned to posts in the new Member States prior to accession who are requested to remain in service in these Member States following the accession date, and who will be entitled, exceptionally, to the same financial and material conditions applied by the Commission before accession, in accordance with Annex X to the Staff Regulations of officials and the Conditions of employment of other servants of the European Communities laid down by Regulation (EEC, Euratom, ECSC) No 259/68,
- the cost of any adjustments to remuneration approved by the Council during the financial year.

In the interests of transparency, the salary scales of officials and other servants of all the EU institutions, including increments and allowances, must be published in an easily comprehensible form on a Commission website readily accessible to the public.

The request for 700 new posts for 2005 is part of the overall increase of 3 900 posts over a transitional period from 2003 to 2008 in line with a Commission estimate made in 2002. That estimate also covers enlargement-related needs.

Over the last few years, the European Parliament has endorsed in principle the Commission's requests, subject to improved implementation and better management, full implementation of the reform of the Commission, compliance with the European Parliament's priorities and improved interinstitutional dialogue.

At the start of the sixth parliamentary term and the term of office of the Commission appointed in 2004, the European Parliament, as the legislative and budgetary authority, and the new Commission have an opportunity to renew and improve their interinstitutional relationship. To make that possible, Parliament has decided to make provision for all the posts requested.

For 2005, the appropriations corresponding to 50 posts were placed in the reserve.

The appropriations would be released from the reserve once the Commission committed itself clearly to submitting, at the latest by 31 March 2005, a proposal for a limited revision of the Financial Regulation and its implementing rules in order to remove all obstacles to decision-taking and smooth budget execution.

The amount of assigned revenue pursuant to Article 18(1)(e) to (j) of the Financial Regulation is estimated at EUR 35 400 000.

The latest Commission proposal amending the existing comitology regulation (COM(2002) 719) has been under consideration for several years. The Commission modified its proposal in April 2004 (COM(2004) 324), but the Council has still not taken a decision on the matter. In several legislative procedures (proposal for a directive of the European Parliament and of the Council re-casting Directive 2000/12/EC of the European Parliament and of the Council of 20 March 2000 relating to the taking up and pursuit of the business of credit institutions (COM(2004) 486), proposal for a directive of the European Parliament and of the Council recasting Council Directive 93/6/EEC of 15 March 1993 on the capital adequacy of investment firms and credit institutions (COM(2004) 486), etc.) comitology issues have caused serious problems for the European Parliament. The European Parliament and the Council should have an equal role in supervising the implementing powers of the Commission, in order to reflect the Parliament's legislative powers under Article 251 of the EC Treaty. For that purpose, the European Parliament calls for the amendment of Council Decision 1999/468/EC of 28 June 1999 laying down the procedures for the exercise of implementing powers conferred on the Commission (OJ L 184, 17.7.1999, p. 23).

In order to preserve its legislative prerogatives, it is important for the European Parliament to be able to decide to revoke the delegation of powers granted to the Commission as well as to prevent the entry into force of implementing measures. The European Parliament will therefore release the reserve once:

- it has been given a three-month period in which to examine and, if appropriate, deliver its opinion, in full knowledge of the facts, on any implementing measure forwarded by the Commission;
- provision has been made for application of the provisions of the Directive stipulating the adoption of technical rules and decisions being suspended after a fixed period following its entry into force. On a proposal from the Commission, the European Parliament and the Council will renew the provisions concerned in accordance with the procedure laid down in Article 251 of the EC Treaty and, to that end, they will review them prior to the expiry of the period referred to above.

Any revenue from the contribution from candidate countries for participation in Community programmes, entered in Item 6 0 3 1 of the statement of revenue, may give rise to the provision of additional appropriations being made available in accordance with Article 18(1)(d) of the Financial Regulation.

Revenue from contributions from the EFTA States to the Community's general costs under Articles 76 and 82 of the Agreement on the European Economic Area gives rise to the opening of supplementary appropriations to be entered in the budget headings concerned, in accordance with the Financial Regulation. The amount of such revenue is estimated at EUR 1 067 000.

The amount of assigned revenue in accordance with Article 18(1)(e) to (j) of the Financial Regulation is estimated at EUR 2 264 400.

COMMISSION
TITLE 01 — ECONOMIC AND FINANCIAL AFFAIRS

TITLE 01
ECONOMIC AND FINANCIAL AFFAIRS

Overall objectives

Action in this policy area aims to ensure the smooth functioning of Economic and Monetary Union (EMU) both inside and outside the European Union, by advancing economic policy coordination, conducting economic surveillance and providing the Commission and other Community institutions with high-quality policy assessment and advice on economic and financial questions. This entails monitoring economic developments in the Union and in third countries, cooperating with international organisations and following international financial issues. Operational activities include the implementation of EU investment financing programmes on behalf of other Commission departments, in close cooperation with the EIB, EIF and EBRD and financial market operations (borrowing and lending, treasury management and management of the Guarantee Fund as well as macro-financial assistance to third countries).

The main objective for 2006 is to strengthen economic governance in the Union aimed at raising the contribution of public finances and other economic policies to growth and employment in line with the Lisbon strategy, in addition to securing the core budgetary objectives of sound and stable public finances, by implementing the revised Stability and Growth Pact. Integration of the new Member States in EMU will continue in 2006, in the expectation that some of them will participate in the exchange rate mechanism (ERM II) and, subsequently, in the euro zone. Furthermore, the full integration of Bulgaria and Romania into the Community economic policy coordination framework is to be prepared in view of their accession in 2007. Also, in 2006, new financial instruments will be implemented, notably for TEN-transport and RTD projects and SMEs, in order to support the Lisbon Strategy and the European Initiative for Growth.

COMMISSION
TITLE 01 — ECONOMIC AND FINANCIAL AFFAIRSCHAPTER 01 02 — ECONOMIC AND MONETARY UNION (*cont'd*)01 02 04 (*cont'd*)

The Commission has adopted two communications to the European Parliament, the Council, the Economic and Social Committee and the Committee of the Regions on a new framework for cooperation in activities concerning the information and communication policy of the European Union (COM(2001) 354 final and COM(2002) 350 final). They propose an interinstitutional framework for cooperation between the institutions and with the Member States for the development of a communication and information policy strategy for the European Union.

The Interinstitutional Group on Information (IGI), co-chaired by the European Parliament, the Council and the Commission, lays down common guidelines for interinstitutional cooperation in matters of EU information and communication policy. It coordinates the central and decentralised public information activities on European topics. Each year the IGI gives its opinion on the priorities for the following years on the basis of information supplied by the Commission.

In addition, the Commission will report regularly to the European Parliament's relevant committee on the implementation of the programme and on planning for the coming year.

Legal basis

Task resulting from the Commission's prerogatives at institutional level, as provided for in Article 49(2) of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities (OJ L 248, 16.9.2002, p. 1).

Remarks

This item constitutes the structure for the guarantee provided by the European Union. It will enable the Commission, if necessary, to service the debt (repayment of principal, interest and other costs) should a debtor default on the loans granted by the European Investment Bank.

Concerning Decision 97/256/EC, a contract of guarantee between the European Community and the European Investment Bank was signed in Brussels on 25 July 1997 and in Luxembourg on 29 July 1997 setting up a guarantee restricted to 70 % of the aggregate amount of the credits opened, plus all related sums. The overall ceiling of the credits opened is equivalent to EUR 7 105 000 000, of which EUR 3 520 000 000 is for the following countries of central and eastern Europe: Albania, Bulgaria, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Romania, Slovak Republic and Slovenia. It covers a period of three years beginning on 31 January 1997. If, on expiry of this period, the loans granted by the European Investment Bank have not attained the overall amounts referred to above, the period will be automatically extended by six months. The European Investment Bank is invited to aim to cover the commercial risk on 25 % of its lending from non-sovereign guarantees.

Concerning Decision 2000/24/EC, a contract of guarantee between the European Community and the European Investment Bank was signed in Brussels on 24 January 2000 and in Luxembourg on 17 January 2000 setting up a guarantee restricted to 65 % of the aggregate amount of the credits opened, plus all related sums. The overall ceiling of the credits opened is equivalent to EUR 18 410 000 000, of which EUR 8 680 000 000 is for the following countries of central and eastern Europe: Albania, Bosnia and Herzegovina, Bulgaria, Czech Republic, Estonia, the former Yugoslav Republic of Macedonia, Hungary, Latvia, Lithuania, Poland, Romania, Slovak Republic and Slovenia. It covers a period of seven years beginning on 1 February 2000 and ending on 31 January 2007. The European Investment Bank is invited to aim to cover the commercial risk on 30 % of its lending from non-sovereign guarantees. This percentage is to be increased whenever possible, in so far as the market allows.

In order to honour its obligations, the Commission may draw on its cash resources to service the debt provisionally. In this case, Article 12 of Council Regulation (EC, Euratom) No 1150/2000 of 22 May 2000 implementing Decision 94/728/EC, Euratom on the system of the Communities' own resources (OJ L 130, 31.5.2000, p. 1) will apply.

Research activities carried out within the sixth framework programme should respect fundamental ethical principles (in accordance with Article 3 of Decision No 1513/2002/EC (OJ L 232, 29.8.2002, p. 1)), including animal welfare requirements. These principles include, in particular, those reflected in Article 6 of the Treaty on European Union and in the Charter of Fundamental Rights of the European Union. The need to stress activities aimed at promoting the role of women in science and research will receive particular attention.

Also entered against these articles and items are the costs of high-level scientific and technological meetings, conferences, workshops and seminars of European interest organised by the Commission, the funding of high-level scientific and technological analyses and evaluations carried out on behalf of the Community to investigate new areas of research suitable for Community action, *inter alia*, in the context of the European Research Area, and measures to monitor and disseminate the results of the programmes, including measures under previous framework programmes.

These appropriations also cover administrative expenditure, including expenditure on staff, information, publications, administrative and technical operation, and certain other expenditure items relating to internal infrastructure linked with the achievement of the objective of the measure of which they form an integral part, including the action and measures necessary for preparation and monitoring of the Community's RTD strategy.

The possibility of third countries or organisations from third countries taking part in European cooperation in the field of scientific and technical research is envisaged in the case of some of these projects. Any financial contribution will be entered in Item 6 0 1 3 of the statement of revenue and may lead to additional appropriations being made available in accordance with Article 18 of the Financial Regulation.

Any revenue from the contribution from candidate countries for participation in Community programmes, entered in Item 6 0 3 1 of the statement of revenue, may give rise to the provision of additional appropriations in accordance with Article 18(1)(d) of the Financial Regulation.

Additional appropriations will be made available under Item 02 02 02 03.

Remarks

This appropriation is intended to cover expenditure on the implementation of Community policy in support of enterprises, and particularly small and medium-sized enterprises, whatever their legal form, including those engaged in the commercial and distributive trades and the craft sector, tourism, cooperatives, mutual societies and associations, with a view to enabling them to develop their full potential for employment, growth and competitiveness.

Objectives for accelerating the average speed of payment to beneficiaries shall be set and assessed periodically so as to ensure an ever-increasing performance exceeding the requirements of Directive 2000/35/EC of the European Parliament and of the Council of 29 June 2000 on combating late payment in commercial transactions (OJ L 200, 8.8.2000, p. 35).

Particular attention will be paid to microenterprises and small businesses, which represent some 99 % of undertakings in the EU and are the main creators of jobs.

The concept of corporate social responsibility is intended to serve as a basis for firms to integrate social and environmental concerns voluntarily into their business operations. In this process, projects are intended to support microenterprises and SMEs in applying the concept developed by and for large firms, tailoring it to their circumstances. The Commission set out the concept in its communications [COM(2002) 347] 'Corporate social responsibility: a business contribution to sustainable development' and [COM(2001) 366] 'Promoting a European framework for corporate social responsibility'.

This appropriation may cover analyses of best practice concerning the social accountability of businesses in the Member States and in the candidate countries, the development and provision of aid instruments in this area and activities such as analyse of the competitive aspects and raising the awareness of businesses. It can also cover the exchange of 'best practice' linked to the open coordination methods (in the field of the improvement of the entrepreneurial environment for the SMEs) in all its forms, in particular studies, meetings of Working Parties, seminars, publications, databases.

Remarks

Appropriations in the Community budget may be used in this preparatory activity to cover technical assistance, particularly including institution-building and training. Special attention must be paid to cross-border cooperation between financial establishments and SMEs in the Member States, the candidate countries and the countries that will have borders with the enlarged Union. Coordination with projects financed under the Phare, Tacis, CARDS and MEDA programmes is encouraged.

With coordination by the Commission, the specific activities may be managed by the following international financial institutions (hereinafter referred to as the IFIs), in accordance with Article 54 of the Financial Regulation: the EIB, the EIF, the EBRD and the Council of Europe Development Bank in cooperation with the 'Kreditanstalt für Wiederaufbau'. The activities financed by the Community may be linked only to loans and guarantees issued by these IFIs. The appropriations eligible for technical assistance under this preparatory action, and management expenditure amounting to 1,25 % of the total, and audit cost must accompany loans to SMEs; preference must be given to microcredits for new or existing SMEs.

The Community contribution will be distributed following negotiations with the IFIs listed above and will not be the subject of an invitation to tender or call for proposals.

When the listed IFIs managing the actions choose the partner financial institutions in Member States, preference should be given to regionally based financial institutions with close business links to SMEs. Priority should be given to actions in the new Member States.

Legal basis

Preparatory action, within the meaning of Article 49(2) of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities (OJ L 248, 16.9.2002, p. 1).

Remarks

The objectives of this pilot action are:

- to lay down principles for an expanded mentoring scheme involving the transmission of the knowledge and core competences that are essential for the successful transfer of business ownership. To do so, a closer cooperation between the Member States will be established,
- based on the results of a feasibility study, to finance or co-finance mentoring services to new entrepreneurs that have taken over a business.

Pilot project to enhance the competitiveness and sustainability of SMEs/VSEs. The aim is to secure closer cooperation between Member States with a view to laying down principles for an expanded mentoring scheme involving the transfer of the knowledge and core competences that are essential for the successful transfer of business ownership. The pilot project will also seek to ensure that experience is pooled at European level among young entrepreneurs (owners or managers of SMEs, VSEs and craft undertakings) by means of traineeships and training courses within SMEs in key or complementary sectors. The relevant representative bodies (chambers of commerce and industry and craft associations) will be responsible for supporting and promoting this programme. The beneficiaries will be young entrepreneurs (owners or managers of SMEs, VSEs and craft undertakings) who are in the process of setting up in business or are planning to transfer their business in the short to medium term.

The economic justification for this pilot project is that 1/3 of transferred businesses fail and that more jobs are lost (on average five jobs) than for new business creations that fail in the course of the first three years. Mentoring services will contribute to increasing substantially the survival rate of transferred businesses.

Legal basis

Pilot project within the meaning of Article 49(2) of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities (OJ L 248, 16.9.2002, p. 1).

Remarks

On 21 April 2004, the European Parliament and the Council adopted Decision 2004/387/EC laying down a programme on interoperable delivery of pan-European eGovernment services to public administrations, businesses and citizens (IDAbc). This programme, which is aimed at promoting the establishment of pan-European eGovernment services and the telecommunications networks on which they are based, will contribute to the eEurope initiatives (in the context of the Lisbon objectives) and the related action plans. It will also contribute to eliminating or reducing the obstacles to the free movement of goods, persons, services and capital, support the creation of a European area of security, justice and freedom, and facilitate the application of the Community *acquis* following enlargement.

IDAbc falls into two sections: projects of common interest and horizontal measures.

In cooperation with the Member States, the Community must implement projects of common interest in support of sectoral policies, interinstitutional cooperation and the operation of the European Agencies. The projects cover the preparation, feasibility, development and implementation of pan-European eGovernment services; these (information and interactive) services must be provided by public administrations to public administrations, businesses and the general public.

In cooperation with the Member States, the Community must also implement horizontal measures to support interoperability. These will include:

- horizontal (trans-sectoral) pan-European services,
- infrastructure services, identified in response to the general requirements of the projects of common interest aimed at facilitating interoperability, this being the essential condition in both technical and economic terms,
- strategic activities and support for the evaluation and promotion eGovernment services and the promotion of good practice and cost/benefit analyses,

Remarks

The aim of this initiative is to draw attention to the value, diversity and shared characteristics of European tourist destinations and to promote destinations where the economic growth objective is pursued in such a way as to ensure the social, cultural and environmental sustainability of tourism. The measure will also help European citizens to become better acquainted with one another.

Each year, five destinations in five Member States will be designated European Destinations of Excellence on the basis of a rota system.

The project's aims are to:

- enable each destination to derive economic benefit from its tourism resources while showing proper respect for its social and environmental fabric;

CHAPTER 02 02 — COMPETITIVENESS, INDUSTRIAL POLICY, INNOVATION AND ENTREPRENEURSHIP *(cont'd)***02 02 09** *(cont'd)*

- monitor tourism development and measure the initiative's impact on each destination's economy (the use of local satellite accounts for at least two years before and three years after designation will be considered favourably by the group when making the assessment);
- mainstream the concept of sustainable tourism in other tourism-related policies such as culture, transport, craft trades and agriculture;
- foster networking with other tourist destinations, which will preferably be candidate destinations for other Member States in the same year, so as to ensure joint promotion on a lasting basis;
- promote events that involve tourism operators in other destinations in the Member States and foster their movement within the Union;
- promote visits by EU citizens and foster the widest possible publicity for planned events, making use of all available multimedia tools;
- involve local inhabitants and businesses in planning the events to be held during the year;
- ensure that a broad section of the local population takes an interest and becomes involved in the project, so that the measure has an impact on local society that will last beyond the year's events;
- draw attention to the value of the destinations' historical and cultural heritages and quality of life.

CHAPTER 02 04 — SPACE AND SECURITY (*cont'd*)

Remarks

These remarks are only applicable to Article 02 04 01.

These appropriations will be used in accordance with Regulation (EC) No 2321/2002 of the European Parliament and of the Council of 16 December 2002 concerning the rules for the participation of undertakings, research centres and universities in, and for the dissemination of research results for, the implementation of the European Community sixth framework programme (2002 to 2006) (OJ L 355, 30.12.2002, p. 23).

Research activities carried out within the sixth framework programme should respect fundamental ethical principles (in accordance with Article 3 of Decision No 1513/2002/EC), including animal welfare requirements. These principles include, in particular, those reflected in Article 6 of the Treaty on European Union and in the Charter of Fundamental Rights of the European Union. The need to stress activities aimed at promoting the role of women in science and research will receive particular attention.

Also entered against these articles and items are the costs of high-level scientific and technological meetings, conferences, workshops and seminars of European interest organised by the Commission, the funding of high-level scientific and technological analyses and evaluations carried out on behalf of the Community to investigate new areas of research suitable for Community action, *inter alia*, in the context of the European Research Area, and measures to monitor and disseminate the results of the programmes, including measures under previous framework programmes.

These appropriations also cover administrative expenditure, including expenditure on staff, information, publications, administrative and technical operation, and certain other expenditure items relating to internal infrastructure linked with the achievement of the objective of the measure of which they form an integral part, including the action and measures necessary for preparation and monitoring of the Community's RTD strategy.

The possibility of third countries or organisations from third countries taking part in European cooperation in the field of scientific and technical research is envisaged in the case of some of these projects. Any financial contribution will be entered in Items 6 0 1 3 of the statement of revenue and may lead to additional appropriations being made available in accordance with Article 18 of the Financial Regulation.

Any revenue from the contribution from candidate countries for participation in Community programmes, entered in Item 6 0 3 1 of the statement of revenue, may give rise to the provision of additional appropriations in accordance with Article 18(1)(d) of the Financial Regulation.

*Remarks**Former Article 02 03 05*

The aim of the actions carried out in this area is twofold:

- to consolidate, by integrating its research efforts, the position of the European space industry vis-à-vis increasingly strong world competition, and
- to help exploit the potential of this sector with a view to improving safety and environmental protection.

In order to be able to meet the goal of 15 % SME participation in the projects financed by this appropriation, more specific action is needed. Projects qualifying under the SME-specific actions for which insufficient funding is available should be made eligible for funding under the thematic programme if those projects fulfill the thematic requirements.

To the appropriations entered in this article must be added the contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under Annex V to this part of the statement of expenditure of this section, which forms an integral part of the general budget.

Remarks

Former Article 02 06 01

The preparatory action aims to:

- explore the conditions and mechanisms for creating a more favourable environment for scientific, technological and industrial competitiveness in the field of European security: the objective is to assess how to narrow the rapidly increasing technological and industrial gap between Europe and other regions,
- establish a consultation and consensus-building platform with the relevant stakeholders, in order to develop a long-term vision and a strategic agenda in the concerning area,
- launch a series of precursory activities:
 - call for ideas,
 - networking of stakeholders and existing activities,
 - definition of a working programme,
 - the setting-up of conditions for stimulating the exploitation of results,
 - the development of interoperable pre-standards and systems,
 - accompanying measures,
 - a limited number of test cases in carefully selected domains.

As far as the internal security of the EU is concerned, the work must be consistent with its priorities as outlined in the 'Justice and Home Affairs' multiannual programme against terrorism and serious crime. The work must also be conducted with due regard for fundamental rights and democratic accountability at EU and at national level.

COMPETITION

TITLE 03
COMPETITION

Overall objectives

The objective of the Commission in this area is to enforce the competition rules of the Community Treaties in order to ensure that competition in the European Union market is not distorted, thereby contributing to the welfare of consumers and the competitiveness of the European economy.

Competition policy aims at protecting consumer welfare and at ensuring a level playing field for companies competing in the market, in particular by combating obstacles to parallel trade which distort the functioning of the internal market. Undistorted competition is also a key dimension of the enlargement process and a factor in Europe's global competitiveness. The common currency calls for an even greater role for competition policy in order to further dynamically integrate markets. Hence, competition policy, including merger control, cartel dismantling, enforcement of the antitrust rules, market liberalisation, State aid control and international cooperation between competition authorities is one of the Commission's key tasks under the Treaty.

Remarks

Article 39 of Council Regulation (EC) No 1260/1999 provides for financial corrections for which any revenue is entered in Item 6 5 0 0 of the statement of revenue. This revenue may be used to provide additional appropriations in accordance with Article 18 of the Financial Regulation in specific cases where they are required to cover the risk of corrections adopted earlier being cancelled or reduced.

Regulation (EC) No 1260/1999 lays down the conditions for the repayment of payments on account which does not have the effect of reducing the contribution from the Structural Funds to the operation concerned. Any revenue arising from the repayment of payments on account entered in Item 6 1 5 7 of the statement of revenue will be used to provide additional appropriations in accordance with Articles 18 and 157 of the Financial Regulation.

The special programme for peace and reconciliation is continued, in accordance with the decisions of the Berlin European Council, to provide EUR 500 million for the new period of validity of the programme. Additionality is to be fully observed. The Commission is to submit an annual report to the European Parliament on this measure.

Measures to combat fraud are funded under Article 24 02 01.

CHAPTER 04 02 — EMPLOYMENT AND EUROPEAN SOCIAL FUND (*cont'd*)04 02 01 (*cont'd*)

Pursuant to Article 3 of the EC Treaty, in defining and implementing other Community policies the Community is to aim to eliminate inequalities, and to promote equality, between men and women.

Legal basis

Remarks

The special programme for peace and reconciliation was continued, in accordance with the decisions of the Berlin European Council to provide EUR 500 million (1999 prices) for the new period of validity of the programme (2000 to 2004). Following the request in the conclusions of the Brussels European Council of 17 and 18 June 2004, an additional EUR 105 million, to be allocated in 2005 and 2006, was added to align interventions under the programme with those of the other programmes under the Structural Funds that come to an end in 2006. Additionality is to be fully observed. The Commission is to submit an annual report to the European Parliament on this measure.

TITLE 04 — EMPLOYMENT AND SOCIAL AFFAIRS

CHAPTER 04 02 — EMPLOYMENT AND EUROPEAN SOCIAL FUND (*cont'd*)04 02 12 (*cont'd*)

This network is aimed at developing cooperation between the Commission and the Member States, and in particular their employment services, with a view to:

- the provision of placement, advice and information services for workers as regards employment in another Member State and for employers wishing to recruit in another Member State,
- the exchange of job vacancies and applications at Community level and across borders,
- the exchange of information between Member States concerning labour-market trends and living and working conditions.

The EURES network may include special cooperation and service structures, at the initiative of border regions.

The EURES network has close operational links with the relevant activities in the Commission DGs for Education and Culture and Justice, Freedom and Security, such as Europass and Leonardo.

Further studies will be conducted to explore the feasibility of a European approach to the certification of non-formal qualifications.

The network will ensure that the principle of freedom of movement is respected and that it operates in a transparent and non-discriminatory fashion, with particular regard to access to employment for Community nationals in a country other than that of their origin.

This appropriation covers measures that are essential to the smooth running of the EURES network, in particular the following support measures:

- subsidies for national and cross-border support activities organised by EURES partners,
- initial and further training of EURES advisers in the Member States,
- contacts between the EURES advisers and cooperation between government employment services, including those of candidate countries,
- promotion of EURES among firms and the general public,
- measures to help remove mobility obstacles, particularly in the field of work-related social security,
- development of multilingual computerised systems consisting of the two databases ('job vacancies and applications' and 'living and working conditions'), as well as maintenance and expansion of an Internet site,
- development of special structures for cooperation and services in border areas, pursuant to Article 17(b) of Regulation (EEC) No 1612/68, as amended by Regulation (EEC) No 2434/92,
- participation in the creation of a single site containing information on mobility in Europe, providing access to job vacancies and information on job offers (with links to public and private employment services), jobseekers, living and working conditions, education and training, and student and teacher mobility. This portal should also address the needs of nationals from third countries, in particular from countries coming under the EU's Neighbourhood Policy.

To the appropriations entered in this article must be added the contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation according to Annex V to this part of the statement of expenditure of this section, which forms an integral part of the general budget.

- identifying best practices and promoting exchanges and transfers of information and experience between Member States (including peer review),

COMMISSION
TITLE 04 — EMPLOYMENT AND SOCIAL AFFAIRSCHAPTER 04 02 — EMPLOYMENT AND EUROPEAN SOCIAL FUND (*cont'd*)04 02 15 (*cont'd*)

- developing an active information policy that is geared to the needs of the public, and of disadvantaged persons in particular, and measures to support presidency initiatives and other events of international significance,
- measures to promote cooperation, improve knowledge, develop an exchange of information, promote best practices and innovative approaches and to evaluate experience in implementing national action plans for employment at local and regional level in the context of the European employment strategy.

In keeping with the conclusions of the Lisbon European Council on Employment of 23 and 24 March 2000, these aims serve an integrated approach to a European employment strategy which can only be managed at Community level. The proposed activities underpin the coordinated approach of the EES, keeping in mind the balance between the three overarching objectives of full employment, quality and productivity at work, cohesion and an inclusive labour market as reflected in the new Employment guidelines.

In line with actions undertaken earlier, the analysis of employment trends and related labour market issues will receive major importance. It includes, in particular, analysis on labour market dynamics, immigration and the integration of immigrants into the workforce and undeclared work in an enlarged Union, including the measurement of its size.

The promotion of exchanges of information and transfers of good practices between Member States, social partners and relevant stakeholders through a mutual learning programme consisting of thematic review seminars, peer review meetings and national and joint follow-up activities was started in 2004 (on the theme of adaptability and on active ageing) to come to its full implementation in 2005.

Based on the EIM programme, the local employment development activities will ensure that the good practices identified and experiences gained in the development of local employment strategies, are disseminated both in the MS and the new MS as well as integrated into the EES and the mainstream programmes of the ESF. Local actors should be fully informed of the EU and national policies in the framework of the EES and, taking these fully into account, be encouraged whenever possible to develop comprehensive employment strategies as opposed to isolated initiatives and projects.

Any revenue from the contribution from candidate countries for participation in Community programmes, entered in Item 6 0 3 1 of the statement of revenue, may give rise to the provision of additional appropriations in accordance with Article 18(1)(d) of the Financial Regulation.

To the appropriations entered in this article must be added the contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation according to Annex V to this part of the statement of expenditure of this section, which forms an integral part of the general budget.

This appropriation is also intended to cover the costs of coordinating activities in the field of cross-border labour mobility and skills.

Remarks

In its communication of 7 April 2000 (COM(2000) 196 final), the Commission refers to the need to motivate regional and local players to take part in the European employment strategy. The projects financed serve to encourage cooperation, improve knowledge, develop exchanges of information, promote best practices and innovative approaches at local and regional level as part of the European employment strategy.

The purpose of these activities is to make local and regional authorities and other key local partners, including representatives of the mutual and non-profit sector, aware of the scope for measures conducive to implementing the employment guidelines at local and regional level and the interlinking thereof at regional and local levels.

They include in particular:

- promoting publicity work for the European employment strategy and its implementation at local and regional levels, studies on how mutual and non-profit institutions can be supported at local and regional levels, studies on how to improve transnational cooperation and the dissemination of proven practices in implementing local employment initiatives and studies on what measures can be taken to create incentives for local and regional partners to contribute towards implementing the European employment strategy,
- enhancing the employment potential of the 'third system', and financing innovative preparatory actions, not least at local level, in the areas of social and neighbourhood services, the environment and the arts.

Particular focus is to be on the gender aspects of employment policy.

In connection with calls for proposals under this article, no restrictions on access to funding which require cross-border partnerships to comprise partners from more than three Member States are permitted.

This appropriation is intended to cover the financing of the social partners' participation in the European employment strategy and the implementation of the Lisbon strategy. It is intended to cover grants for promoting the social dialogue at cross-industry and sectoral level in accordance with Articles 138 and 139 of the Treaty. The appropriations will therefore be used to finance consultations, meetings, negotiations and other operations designed to achieve these objectives.

In addition, as the heading suggests, this appropriation can cover support for industrial relations measures, in particular those designed to develop expertise and exchange of information on a European basis. This will include measures relating to the Commission Green Paper 'Promoting a European framework for Corporate Social Responsibility' [COM(2001) 366 final], the Commission communication 'Corporate Social Responsibility: A business contribution to Sustainable Development' [COM(2002) 347 final], the Commission communication '...' [COM(2005)... final] and follow-up action.

It also covers measures to promote the actions set out in the Commission Communication on a framework for the promotion of employee financial participation (COM(2002) 364 final).

Pilot projects intended to develop codes of conduct and social labels in order to guarantee respect for fundamental social and employment rights, with the participation of companies, trade unions and NGOs that defend fundamental social rights will also be eligible.

This appropriation may also cover funding of measures involving representatives of the social partners in the candidate countries. It is also intended to promote equal participation of women in the decision-making bodies of both trade unions and employers' organisations. These last two components are of a horizontal nature.

Remarks

Pursuant to Article 145 of the EC Treaty, the European Parliament can ask the Commission to draw up reports on problems concerning the social situation. The Commission is called on to produce each year a report on the social situation, including specific chapters on demographic trends (especially their interaction with the labour market and social protection).

In particular, the following aims will be pursued:

- analysis of the impact of population ageing in the framework of a society for all ages, in terms of trends in needs, behaviour and flanking policies, including research on elderly minorities/migrants, as well as on ageing and ethnicity,
- analysis of the impact of demographic change on EU and Member State policies, measures and programmes, and formulation of recommendations for adjustments to economic and other policies, measures and programmes at European and national level in order to prevent the ageing of society from having a negative impact,
- analysis of the links between the family unit and demographic trends, identification of the existing relations between technological development (impact on communication technologies, geographical and occupational mobility) and the consequences for households and society in general,
- analysis of trends in social objectives (in terms of safeguarding acquired rights or extending them) regarding both goods and services, taking account of demographic trends and redefinition of the relationships between generations,

Remarks

This appropriation is intended to cover the Community action programme to encourage cooperation between Member States to combat social exclusion. This multiannual programme lasting five years was adopted on 7 December 2001 and came into force on 12 January 2002.

Article 137 of the Treaty establishing the European Community includes provisions permitting the Community to adopt measures designed to encourage cooperation between Member States in order to combat social exclusion. The Lisbon European Council concluded that 'policies for combating social exclusion should be based on an open method of coordination combining national action plans and an initiative for cooperation in this field'. Reinforcing the commitments made at the Lisbon European Council, the Nice European Council adopted appropriate objectives to combat social exclusion and eliminate poverty. These objectives reflect the following four themes:

- promoting participation in employment and access for all to resources, rights, goods and services,

- preventing exclusion,
- helping the most vulnerable,
- mobilising all those involved.

The Member States are called upon to use these objectives as a basis for formulating their priorities and submitting national action plans spanning a two-year period.

As adopted, the programme comprises three strands:

- A first strand will concentrate on analysing the characteristics, the processes, the reasons for and the evolution of social exclusion. This strand will help Member States develop a common methodology and statistical indicators. It will also provide thematic studies which will help to better understand social exclusion and to address issues of common interest stemming from policy trends in the Member States.
- A second strand will focus more directly on promoting cooperation and the exchange of information and good practices at transnational level and on promoting innovative projects with European added value. This strand also supports the mutual learning process between Member States, in the context of their national action plans, in particular via the peer review method. Under the open coordination method on social inclusion, special attention will be paid in 2006 to the process of examining the implementation of the national action plans against poverty and exclusion and to the drafting of a joint report,
- A third strand will promote the participation of the various stakeholders and support networking at EU level. This strand includes support to networks of NGOs, of regional and local authorities, and of voluntary associations committed to the fight against social exclusion and poverty. The organisation of an annual round table on social exclusion and other events organised by the Presidency of the European Union in this field should be funded under this strand.

To the appropriations entered in this item must be added the contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation according to Annex V to this part of the statement of expenditure of this section, which forms an integral part of the general budget.

The candidate countries may make use of the Phare pre-accession instrument to cover the expenditure resulting from their participation in the programme. Any revenue from the contribution from candidate countries for participation in the Community programmes, entered in Item 6 0 3 1 of the statement of revenue, may give rise to the provision of additional appropriations in accordance with Article 18(1)(d) of the Financial Regulation.

Remarks

Under the multiannual action programme, this appropriation is intended to finance measures to promote information exchange and cooperation, improve knowledge of best practices and innovative approaches and assess the experience gained in combating and/or preventing discrimination based on the grounds referred to in Article 13 of the Treaty.

In the interests of a coherent framework for, and a mainstreaming approach to combating discrimination, the measures should usually focus on more than one of the factors involved in discrimination as referred to in Article 13 of the EC Treaty. However, where insufficient common ground between these factors exists, it will be possible to fund projects which concentrate on one form of discrimination as referred to in Article 13. The programme supports measures to prevent and combat discrimination on grounds of racial and ethnic origin, religion and belief, disability, age and sexual orientation. In accordance with the Council Decision, this appropriation is intended to finance actions under three strands:

- analysis of factors related to discrimination, including through studies and the development of qualitative and quantitative indicators and benchmarks, in accordance with national law and practices, and the evaluation of anti-discrimination legislation and practice, with a view to assessing its effectiveness and impact, with effective dissemination of the results,
- transnational cooperation and the promotion of networking at European level between partners active in the prevention of, and the fight against, discrimination, including non-governmental organisations,
- awareness-raising, in particular to emphasise the European dimension of the fight against discrimination and to publicise the results of the programme, in particular through communications, publications, campaigns and events.

CHAPTER 04 04 — PROMOTING AN INCLUSIVE SOCIETY (*cont'd*)04 04 12 (*cont'd*)

Building and learning on the achievements of previous Years, notably the 1997 European year Against Racism and most recently the European Year of People with Disabilities in 2003, the European Year of Equal Opportunities will provide an unique opportunity and platform to raise awareness on a more cohesive society that celebrates differences and respect the substantial EU *acquis* in equality and non-discrimination. It will also stimulate debate and dialogue on questions which are central to achieving a just and inclusive society.

In order to secure the full involvement of all actors concerned, to prepare the public and achieve the greatest impact, certain activities must be set up in 2006, in preparation to the 2007 European Year.

The actions to be carried out in 2006 will comprise, *inter alia*,

- a European conference to launch the year,
- an information campaign for the development, production and dissemination of awareness-raising tools to ensure broad publicity of the upcoming year,
- a Union-wide survey to allow measuring the impact,
- an evaluation of the activities developed in the framework of the year.

Irrespective of the beneficiary, no administrative expenditure against this article is authorised.

Remarks

This appropriation is intended to finance the programme relating to the Community strategy on gender equality (2001 to 2005). The objective is to support actions intended to promote equal opportunities and treatment, including the legal aspects, by:

- training and disseminating good practices in the area of equality,
- improving understanding and knowledge of direct and indirect gender-based discrimination,
- supporting actions intended to measure and evaluate the effectiveness of ongoing policies and practices,
- supporting and developing the skills of the key players in this area.

It is also intended for measures:

- to raise citizens' awareness of equal opportunities and equal treatment between men and women and to ensure that they are better taken into account (support for transnational initiatives, publications, conferences, information events),
- for analysis and evaluation (development, as far as possible, of indicators and statistics broken down by gender and age, analysing the application of the legislation and the labour-market situation, thematic studies),
- for the exchange and development of information and experiences on good practices (calls for proposals).

To the appropriations entered in this article must be added the contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 18(1)(d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation according to Annex V to this part of the statement of expenditure of this section, which forms an integral part of the general budget.

AGRICULTURE AND RURAL DEVELOPMENT

Overall objectives

The objectives of the common agricultural policy (CAP) derive directly from the Treaty and are, in particular, to stabilise markets, ensure a fair standard of living in the farming community and guarantee security of supplies.

The CAP has been reformed a number of times since it was first introduced, most recently with the reform from June 2003/April 2004. The key aim of these reforms, as part of Agenda 2000, was to shift the slant of the farm economy towards the market in order to make the agricultural sector more competitive. Reflecting the multipurpose application of agricultural activity, the CAP must also be fully compatible with sustainable development, in particular by promoting environmentally friendly production methods and the effective use of resources. Rural development, the second pillar of the CAP, aims at enhancing the competitiveness of rural areas and preserving the environment and rural heritage in order to secure the future of rural areas and promote job maintenance and creation.

2006 will be a year of consolidation following the CAP reforms and the accession of 10 new Member States, of implementation of the expected Council decisions on the rural development framework 2007-2013 and the new CAP financial regulation as well as of preparation of the enlargement with Romania and Bulgaria.

Article 39 of Council Regulation (EC) No 1260/1999 provides for financial corrections, any revenue from which is entered in Item 6 5 0 0 of the statement of revenue. That revenue may give rise to the provision of additional appropriations, in accordance with Article 18 of the Financial Regulation, in specific instances where they are necessary to cover risks of cancellation or of reductions in corrections previously decided upon.

Regulation (EC) No 1260/1999 determines the conditions for repayment of an advance without having the effect of reducing the contribution from the Structural Funds towards the assistance concerned.
