## COMMISSION DECISION

of 26 July 2006

**approving on behalf of the European Community amendments to Annexes V and VIII to the Agreement between the European Community and New Zealand on sanitary measures applicable to trade in live animals and animal products***(notified under document number C(2006) 3327)***(Text with EEA relevance)**

(2006/854/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Decision 97/132/EC of 17 December 1996 on the conclusion of the Agreement between the European Community and New Zealand on sanitary measures applicable to trade in live animals and animal products <sup>(1)</sup>, and in particular the third paragraph of Article 3 thereof,

Whereas:

(1) The Agreement between the European Community and New Zealand on sanitary measures applicable to trade in live animals and animal products <sup>(2)</sup> (the Agreement) provided for the possibility of recognising the equivalence of the New Zealand control and certification systems for fresh meat and meat-based products and for other animal products.

(2) The Joint Management Committee for the Agreement established under Article 16 of the Agreement (the Committee), at its meeting on 20 October 2005, issued a recommendation concerning the determination of equivalence of sanitary requirements for live bees and bumble bees. The Committee also recommended the determination of equivalence of certification systems and suggested appropriate procedures to conduct physical checks at the import of these commodities.

(3) To follow the recommendations of the Joint Management Committee it is appropriate to amend Annexes V and VIII to the Agreement.

(4) Annex V to the Agreement also needs to be updated following the entry into force of Directive 2004/41/EC of the European Parliament and of the Council of 21 April 2004 repealing certain directives concerning food hygiene and health conditions for the production and placing on the market of certain products of animal origin intended for human consumption and amending Council Directives 89/662/EEC and 92/118/EEC and Council Decision 95/408/EC <sup>(3)</sup>. Annex V and VIII need to be updated due to the introduction of Commission Regulation (EC) No 1688/2005 of 14 October 2005 implementing Regulation (EC) No 853/2004 of the European Parliament and of the Council as regards special guarantees concerning salmonella for consignments to Finland and Sweden of certain meat and eggs <sup>(4)</sup>.

(5) Those amendments should be approved on behalf of the Community.

(6) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

<sup>(1)</sup> OJ L 57, 26.2.1997, p. 4. Decision as amended by Decision 1999/837/EC (OJ L 332, 23.12.1999, p. 1).

<sup>(2)</sup> OJ L 57, 26.2.1997, p. 5.

<sup>(3)</sup> OJ L 157, 30.4.2004, p. 33, corrected by OJ L 195, 2.6.2004, p. 12.

<sup>(4)</sup> OJ L 271, 15.10.2005, p. 17.

HAS ADOPTED THIS DECISION:

*Article 3*

This Decision shall apply from the first day of the month following the month in which New Zealand Notifies the Commission in writing that its internal procedures for the approval of the amendments referred to in Article 1 have been completed.

The Commission shall inform the Council and the Member States of the Notification referred to in the first paragraph without delay.

*Article 4*

This Decision is addressed to the Member States.

Done at Brussels, 26 July 2006.

*For the Commission*  
Markos KYPRIANOU  
*Member of the Commission*

*Article 1*

Pursuant to the recommendations made by the Joint Management Committee established under Article 16 of the Agreement between the European Community and New Zealand on sanitary measures applicable to trade in live animals and animal products the amendments to Annexes V and VIII to that Agreement are hereby approved on behalf of the Community.

The text of an Exchange of Letters constituting an Arrangement with New Zealand, including the amendments to Annexes V and VIII to the Agreement, is attached to this Decision.

*Article 2*

The Director-General for Health and Consumer Protection is hereby empowered to sign the Agreement in the form of an Exchange of Letters in order to bind the Community.

---

**AGREEMENT IN THE FORM OF AN EXCHANGE OF LETTERS**  
**constituting an Arrangement with New Zealand on the amendments to Annex V and Annex VIII to**  
**the Agreement between the European Community and New Zealand on sanitary measures applicable**  
**to trade in live animals and animal products**

*A. Letter from the European Community*

Brussels, 19 June 2006

Sir,

With reference to Article 16(2) of the Agreement between the European Community and New Zealand on sanitary measures applicable to trade in live animals and animal products, I have the honour to propose modifications to Annexes V and VIII to the Agreement as follows:

As recommended by the Joint Management Committee established under Article 16(1) of the Agreement, replace the text of Annex V and Annex VIII with the respective texts of Annexes V and VIII as attached hereto.

I would be obliged if you would confirm New Zealand's concurrence with these modifications to the Annex to the Agreement.

Please accept, Sir, the assurance of my highest consideration.

Yours faithfully,

*For the European Community*  
Paola TESTORI COGGI

B. *Letter from New Zealand*

Brussels, 4 August 2006

Madam,

I have the honour to refer to your letter containing details of proposed modifications to Annex V and Annex VIII of the Agreement between the European Community and New Zealand on sanitary measures applicable to trade in live animals and animal products.

In this regard I have the honour to confirm the acceptability to New Zealand of the proposed modifications, as recommended by the Joint Management Committee established under Article 16(1) of the Agreement, a copy of which is attached hereto.

Please accept, Madam, the assurances of my highest consideration.

*For the competent authority of New Zealand*  
Andrew McKENZIE

---

*Appendix*

## 'ANNEX V

**RECOGNITION OF SANITARY MEASURES****Glossary**

Yes(1)	Equivalence agreed - model health attestations to be used
Yes(2)	Equivalence agreed in principle - some specific issue(s) to be resolved existing certification used until issue(s) resolved
Yes(3)	Equivalence in form of compliance with importing Party's requirements -existing certification to be used
NE	Not evaluated - existing certification to be used in the interim
E	Still evaluating - under consideration - existing certification to be used in the interim
()	Issues targeted for imminent resolution
No	Not equivalent and/or further evaluation is required. Trade may occur if the exporting Party meets the importing Party's requirements
AI	Avian influenza
BSE	Bovine spongiform encephalopathy
C	Celsius
Channelling	Chapter XI, point 7, of Annex VIII to Regulation (EC) No 1774/2002.
CSF	Classical swine fever
EBL	Enzootic bovine leucosis
EC/NZ	European Community/New Zealand
EIA	Equine infectious anaemia
IBD	Infectious bursal disease
IBR	Infectious bovine rhinotracheitis
min	minute(s)
ND	Newcastle disease
None	No special conditions
OIE	Office International des Epizooties
PAP	Processed animal protein
PM	Post mortem
Stds	Standard(s)
SVD	Swine vesicular disease
UHT	Ultra high temperature

								When the official health certificate is issued after the departure of the consignment, it shall include reference to the appropriate Eligibility Number (ED), date of issuance of the eligibility document that supports the official health certificate, the date of departure of the consignment and the date of signing of the official health certificate. New Zealand shall inform the border inspection post of arrival of any certification problem after departure from New Zealand.		

<sup>(1)</sup> Commodities must be fully eligible for unrestricted intra-Community trade, unless otherwise indicated.

27.B. Horizontal issues	Issue	Action
Premises listings	Competent authority to recommend listing Still require lists currently.	Lists to be maintained by the competent authority of the exporting country and be made readily accessible in the public domain.
<b>28. Miscellaneous certification provisions: Attestations are to appear on the public or animal health certificate.</b>		
Issue	Certification provisions	
<b>Q-fever</b>	New Zealand is recognised as free of Q-fever. For trade from the EC to New Zealand in bovine semen and embryos, the Member State competent authority will certify that: <i>“Between 21 and 60 days after the end of a semen/embryo collection period (a period of 60 days or less) the donor animals were tested with negative results for Q fever using the complement fixation test (CFT) (negative being no fixation of complement at a dilution of 1:10 or higher) or the ELISA.”</i>	
<b>BVD Type II</b>	New Zealand is recognised as free of bovine viral diarrhoea virus (BVDV): Type II. For trade from the EC to New Zealand in bovine embryos, the Member State competent authority will certify that:  <i>“Either 1. The donor animal was subjected to an antigen detection ELISA or viral isolation test for BVDV, with a negative result, within thirty (30) days prior to entry into the embryo collection centre and has been on the embryo collection centre for more than six (6) months prior to embryo collection for this consignment and has remained isolated from other animals that have not been tested negative.</i> <i>Or 2. The donor animal has had either a pooled sample of non-viable oocytes/embryos and washing fluid (as per the OIE Code Appendix for in vivo derived embryos) or an embryo, from the first embryo collection for this consignment subjected to either virus isolation or PCR for BVDV with negative results.”</i>	
<b>Bluetongue and EHD</b>	New Zealand is recognised as free of Bluetongue and Epizootic Haemorrhagic Disease. For trade from the EC to New Zealand in bovine semen, the Member State competent authority will certify that: <i>“The bovine semen complies with provisions of the Bluetongue Chapter of the OIE Code and EHD mutatis mutandis.”</i>	
<b>IBR</b>	For trade in live bovine animals, New Zealand will certify in accordance with Article 2 of Commission Decision 2004/215/EC for trade to Germany and Article 3 of Commission Decision 2004/215/EC for trade to Denmark, Austria, Finland, Sweden and the province of Bolzano (Italy). This attestation will appear on the health certificate according to Council Decision 79/542/EEC.	
<b>Aujeszky's disease</b>	For trade from New Zealand to Great Britain, Denmark, South West France, Germany, Finland, Sweden, Austria and Luxembourg, in live pigs, New Zealand will certify in accordance with Commission Decision 2001/618/EC. This attestation will appear on the health certificate according to Council Decision 79/542/EEC.	
<b>BSE</b>	<b>EC exports of products containing bovine, ovine or caprine materials to NZ (in addition to full compliance with all other relevant EC standards)</b> <i>“This product does not contain and is Not derived from bovine, ovine and caprine materials other than those derived from animals born, continuously reared and slaughtered in the European Union and which has been produced in full compliance with Regulations of the European Parliament and the Council (EC) No 999/2001 and (EC) No 1774/2002 as applicable.”</i> Note: Products which contain bovine, ovine or caprine materials other than from those derived from animals born, continuously reared and slaughtered in the European Union are required to have that component certified in accordance with the relevant, additional third country provisions in the applicable NZ certification decision.	
<b>BSE</b>	<b>NZ export of products containing bovine, ovine or caprine materials to EC</b> <i>“This product does not contain and is not derived from (delete as appropriate) specified risk material as defined in Annex XI, section A, to Regulation (EC) No 999/2001 produced after March 2001, or mechanically recovered meat obtained from bones of bovine, ovine or caprine animals produced after 31 March 2001. After March 31 2001 the bovine, ovine or caprine animals, from which this product is derived, have not been slaughtered after stunning by means of gas injected into the cranial cavity or killed by the same method or slaughtered by laceration after stunning of central nervous tissue by means of an elongated rod-shaped instrument introduced into the cranial cavity.”</i> or <i>“Bovine, ovine and caprine materials other than those derived from animals born, continuously reared and slaughtered in the following countries: (insert name of a country or countries assigned a GBR and/or Category 1 status by the EC).”</i>	

<b>CSF – feral pigs only</b>	For trade from the EC to NZ the Member State competent authority will certify that the products were derived from areas free from CSF in the feral porcine population for the preceding 60 days. This attestation will appear on the health certificate.
<b>Colours for sanitary stamps</b>	Directive 94/36/EC prescribes the colours that could be used for sanitary stamps.
<b>Salmonella</b>	For trade from New Zealand to Sweden and Finland, New Zealand will certify in accordance with Annex VIII of Commission Decision 2003/56/EC (Commission Regulation (EC) No 1688/2005 (fresh veal, beef, pigmeat and poultrymeat; table eggs for human consumption); Council Decision 95/410/EC (live poultry for slaughter); Commission Decision 2003/644/EC (breeding poultry and day old chicks); Commission Decision 2004/235/EC (laying hens)).
<b>Salmonids</b>	For trade from EC to NZ “The consignment contains only beheaded, gilled, gutted and sexually immature Salmonids of the genera <i>Onchorhynchus</i> , <i>Salmo</i> or <i>Salvelinus</i> .”
<b>Eggs/roes</b>	For trade from EC to NZ Must be treated to render eggs/roe non viable, commercially packaged and shelf stable
<b>Thermised cheeses</b>	For trade from EC to NZ The thermised cheese has a moisture content of less than 39 % and pH less than 5,6. The milk used to produce this cheese was rapidly heated to at least 64,5 °C for 16 seconds. The cheese was stored at not less than 7 °C for 90 days.

#### 29. Mutually agreed disease control measures

##### Mutually agreed disease status for specific diseases

<b>Rabies</b>	New Zealand, UK, Malta, Ireland and Sweden are recognised as free of rabies.
<b>Equine infectious anaemia</b>	New Zealand is recognised as free of EIA.
<b>Brucellosis</b>	New Zealand is recognised as free of <i>B. abortus</i> and <i>B. mellitensis</i> .
<b>Q-fever</b>	New Zealand is recognised as free
<b>BVD Type II</b>	New Zealand is recognised as free
<b>Bluetongue and EHD</b>	New Zealand is recognised as free EU makes a submission for EHD freedom
<b>Small hive beetle</b>	New Zealand and EU are recognised as free of <i>small hive beetle</i>
<b>Tropilaelaps mite</b>	New Zealand and EU are recognised as free of <i>tropilaelaps mite</i>

## 'ANNEX VIII

**FRONTIER CHECKS AND INSPECTION FEES**

## A. FRONTIER CHECKS ON CONSIGNMENTS OF LIVE ANIMALS AND ANIMAL PRODUCTS

Type of frontier check	Rate in %
<b>1. Documentary</b>	100
Both Parties will perform documentary checks	
<b>2. Physical checks</b>	100
Live animals except bees and bumble bees	
Queen bees and small colonies of bumble bees <sup>(1)</sup>	100
Bee and bumble bee packages <sup>(2)</sup>	50 <sup>(3)</sup>
Semen/embryos/ova	
Animal products for human consumption:	10
Fresh meat including offal, and products of the bovine, ovine, caprine, porcine and equine species defined in Regulation (EC) No 853/2004	2
Fish products in hermetically sealed containers intended to render them stable at ambient temperatures, fresh and frozen fish and dry and/or salted fisheries products. Other fisheries products	
Whole eggs	
Lard and rendered fats	
Animal casings	
Gelatin	
Collagen	
Stomachs and bladders	
Poultry meat and poultry meat products	
Rabbit meat, game meat (wild/farmed) and products	
Milk and milk products	
Egg products	
Honey	
Bones and bone products	
Meat preparations and minced meat	
Frogs' legs and snails'	

<sup>(1)</sup> Physical checks to be carried out as provided in Commission Decision 2003/881/EC (as amended).

<sup>(2)</sup> Post import checks to be carried out by the Competent Authority at the designated destination of the bees.

<sup>(3)</sup> For consignments of packaged bees containing less than 130 packages 50 % of the consignment is to be subject to inspection. For consignments containing more than 130 packages, a sample of 65 packages randomly selected from the consignment must be inspected to achieve a 95 % confidence interval of detecting 5 % incidence of disease.

## COMMISSION DECISION

of 24 August 2006

**amending Decision 2003/56/EC on health certificates for the importation of live animals and animal products from New Zealand***(notified under document number C(2006) 3708)***(Text with EEA relevance)**

(2006/855/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Decision 97/132/EC of 17 December 1996 on the conclusion of the Agreement between the European Community and New Zealand on sanitary measures applicable to trade in live animals and animal products <sup>(1)</sup>, and in particular Article 4 thereof,

Whereas:

- (1) The Agreement between the European Community and New Zealand on sanitary measures applicable to trade in live animals and animal products <sup>(2)</sup> (the Agreement) provided for the possibility of recognising the equivalence of the New Zealand control and certification systems for fresh meat and meat based products and for other animal products.
- (2) Commission Decision 2003/56/EC <sup>(3)</sup> lays down the certification requirements and provides models for official health certificates to be used for the importation from New Zealand of live animals and animal products. In cases where full equivalence of sanitary measures has been determined, simplified certificates may be used, models for which are set out in Annexes II to V to that Decision.
- (3) Account should be taken of recent acknowledgements of equivalence of the disease status and of sanitary measures for trade in live honey bees and bumble bees. Simplified veterinary certification was agreed for this category. An appropriate model certificate should be set out.

(4) Other certification provisions need to be updated to take account of the changes in relevant Community legislation.

(5) Decision 2003/56/EC should therefore be amended accordingly.

(6) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS DECISION:

*Article 1*

The Annexes to Decision 2003/56/EC are amended in accordance with the Annex to this Decision.

*Article 2*This Decision shall apply from the 20th day following its publication in the *Official Journal of the European Union*.*Article 3*

This Decision is addressed to the Member States.

Done at Brussels, 24 August 2006.

*For the Commission*  
Markos KYPRIANOU  
*Member of the Commission*

<sup>(3)</sup> OJ L 22, 25.1.2003, p. 38. Decision as last amended by Decision 2004/784/EC (OJ L 346, 23.11.2004, p. 11).

## ANNEX

The Annexes to Decision 2003/56/EC are replaced by the following:

## 'ANNEX I

**GLOSSARY**

AN	=	Assigned Number (a number which is arbitrarily assigned to a particular commodity and, as such, will appear on the certificate)
Channelling	=	As described in Chapter XI, point 7, of Annex VIII to Regulation (EC) No 1774/2002 of the European Parliament and of the Council <sup>(1)</sup>
N/A	=	Not applicable
Other products	=	As defined in Article 2(b) of Council Directive 77/99/EEC <sup>(2)</sup>
PNHC	=	Prevailing national health conditions of the Member State(s) in accordance with Community law. Pending the adoption of Community rules, national rules shall continue to apply subject to compliance with the general provisions of the Treaty
Date of departure	=	The date the vessel left the final port of New Zealand
Production date	=	Dates of slaughter in the case of chilled or frozen fresh meat (including game), meat preparations, minced meat or raw materials intended for further processing
	=	Dates of manufacturing in the case of further processed products
	=	Dates of packaging in the case of chilled or frozen fish.

<sup>(1)</sup> OJ L 273, 10.10.2002, p. 1.

<sup>(2)</sup> OJ L 26, 31.1.1977, p. 85.

#### IV. Health attestation

I the undersigned hereby certify that:

The animals herein described, comply with the relevant New Zealand animal health standards and requirements which have been recognised as equivalent to the European Community standards and requirements as prescribed in Council Decision 97/132/EC, specifically, in accordance with the Biosecurity Act 1993.

Specifically, it is certified that:

The bees/bumble bees, with attendants, referred to above:

- (a) come from a breeding apiary, which is supervised and controlled by the competent authority;
- (b) in the case of honey bees, hives come from an area which is not the subject of any restrictions associated with an occurrence of American foul brood, and where no such occurrence has taken place within at least 30 days prior to the issuance of the present certificate. Where an outbreak of foulbrood has occurred previously, all hives within a radius of three kilometres have been checked by the competent authority and all infected hives burned or treated and inspected to the satisfaction of the said competent authority within 30 days following the last recorded case;
- (c) are from hives or come from hives or colonies (in the case of bumble bees), which were inspected immediately prior to dispatch (normally within 24 hours) and show no clinical signs or suspicion of disease including infestations affecting bees.

The packing material, queen cages, accompanying products and food are new and have not been in contact with diseased bees or brood-combs, and all precautions have been taken to prevent contamination with agents causing diseases or infestations of bees.

Done at ....., on .....

Signature and seal of Official Veterinarian <sup>(5)</sup>

\_\_\_\_\_

<sup>(5)</sup> The signature and official seal must be in a colour different to that of the printing.

## ANNEX VII

**Exports of Imported Animal Products**

In each case, the product shall:

- have originated from a third country eligible to export the item to the European Community;
  - have been derived from establishments eligible to export to the European Community;
- and
- be eligible to be exported to the European Community.

A copy of the import certificate is to be attached to the signed New Zealand health certificate; this copy is to be endorsed 'certified copy of original', and be signed by the certifying officer.

The original or a certified copy of the import certificate shall be retained by the certifying officer.

**The following additional declaration(s) shall appear on the model certificates prescribed in Annex I. The declarations shall appear in the languages referred to in Article 2 of Commission Decision 2003/56/EC.**

#### 1. Mixed origin

For animal products which have been imported into New Zealand, and have been stored and processed in EC-listed establishments with product of New Zealand origin (i.e. the consignment is of mixed origin), the following declaration is to appear on the appropriate model certificates noted in Annex I:

The final product described herein was **partly derived** from raw material and/or product which:

- (i) was imported into New Zealand from

.....

Country of origin (\*)

- (ii) and was further stored, handled, processed, wrapped and/or packaged in EC-listed New Zealand export establishment(s).

The product originated in a third country/third countries and establishment(s) listed by the European Community and is eligible for export to the European Community.

(\*) Insert the name of the country of origin in English.'

#### 2. Country of origin maintained, not mixed with New Zealand origin product.

For animal products which have been imported into New Zealand and have been stored and processed in New Zealand EC-listed export establishments but **not** mixed with product of New Zealand origin, the following declaration is to appear on the model certificates noted in Annex A:

The final product described herein **was derived** from raw material and/or product which:

- (i) was imported into New Zealand from

.....

Country of origin (\*)

- (ii) and was further stored, handled, processed, wrapped and/or packaged in EC-listed New Zealand export establishment(s).

The product originated in a third country/third countries and establishment(s) listed by the European Community and is eligible for export to the European Community.

\_\_\_\_\_

(\*) Insert the name of the country of origin in English.
