COMMISSION REGULATION (EU) No 107/2010

of 8 February 2010

concerning the authorisation of *Bacillus subtilis* ATCC PTA-6737 as a feed additive for chickens for fattening (holder of authorisation Kemin Europa NV)

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1831/2003 of the European Parliament and of the Council of 22 September 2003 on additives for use in animal nutrition⁽¹⁾, and in particular Article 9(2) thereof,

Whereas:

(1) Regulation (EC) No 1831/2003 provides for the authorisation of additives for use in animal nutrition and for the grounds and procedures for granting such authorisation.

(2) In accordance with Article 7 of Regulation (EC) No 1831/2003, an application was submitted for the authorisation of the preparation set out in the Annex to this Regulation. That application was accompanied by the particulars and documents required pursuant to Article 7(3) of Regulation (EC) No 1831/2003.

(3) The application concerns the authorisation of the micro-organism *Bacillus subtilis* (ATCC PTA-6737) as a feed additive for chickens for fattening, to be classified in the additive category 'zootechnical additives'.

(4) The European Food Safety Authority (the Authority) concluded in its opinion of 15 September 2009⁽²⁾ that the *Bacillus subtilis* (ATCC PTA-6737) does not have an adverse effect on animal health, human health or the environment and that the use of that preparation can improve the performance of the animals. The Authority does not consider that there is a need for specific requirements of post market monitoring. It also verified the report on the method of analysis of the feed additive in feed submitted by the Community Reference Laboratory set up by Regulation (EC) No 1831/2003.

(5) The assessment of that preparation shows that the conditions for authorisation, as provided for in Article 5 of Regulation (EC) No 1831/2003, are satisfied. Accordingly, the use of that preparation should be authorised, as specified in the Annex to this Regulation.

(6) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS REGULATION:

Article 1

The preparation specified in the Annex, belonging to the additive category 'zootechnical additives' and to the functional group 'gut flora stabilisers', is authorised as an additive in animal nutrition subject to the conditions laid down in that Annex.

COMMISSION REGULATION (EU) No 108/2010

of 8 February 2010

amending Regulation (EC) No 1974/2006 laying down detailed rules for the application of Council Regulation (EC) No 1698/2005 on support for rural development by the European Agricultural Fund for Rural Development (EAFRD)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Regulation (EC) No 1698/2005 of 20 September 2005 on support for rural development by the European Agricultural Fund For Rural Development (EAFRD) ⁽¹⁾ and in particular Article 91 thereof,

Whereas:

- (1) Regulation (EC) No 1698/2005 established a single legal framework for the EAFRD support for rural development throughout the Community. Commission Regulation (EC) No 1974/2006 ⁽²⁾ complemented that framework by introducing detailed implementing rules.
- (2) Article 38(2) of Regulation (EC) No 1698/2005 specifies that for payments linked to Directive 2000/60/EC of the European Parliament and of the Council of 23 October 2000 establishing a framework for Community action in the field of water policy ⁽³⁾, detailed rules, including the maximum amount of support, are to be fixed.
- (3) Pursuant to Article 11(7) of Directive 2000/60/EC, Member States are obliged to establish a programme of measures for each river basin district by 22 December 2009. In accordance with Article 11(2) of that Directive, these measures have to comprise basic measures, including those already required to implement Union legislation for the protection of water, as referred to in Article 11(3) of that Directive and, where necessary, supplementary measures, as referred to in Article 11(4), which may consist in any of the types of measures listed in Part B of Annex VI to that Directive or in other types of measure not listed in that Annex. While voluntary measures and certain mandatory measures may already be supported under Articles 31 and 39 of Regulation (EC) No 1698/2005, detailed rules for the implementation of Article 38(2) of that Regulation need to be defined to cover other mandatory measures.
- (4) In view to avoid overlapping between the meeting standards support as referred to in Article 31 of Regulation (EC) No 1698/2005, on the one hand, which aims at compensating beneficiaries' temporary disadvantages due to the obligation to adapt to Union standards in

certain fields, and the payment under Article 38 of that Regulation linked to Directive 2000/60/EC on the other hand, which aims at compensating beneficiaries permanent disadvantages due to the obligation to comply with the specific requirements for achieving the environmental objectives of that Directive, provision making distinction on the basis of the types of operations concerned should be made.

- (5) Directive 2000/60/EC provides common principles and the framework for Union action in the field of water policy. The whole Union legislation on water is coordinated in the framework of that Directive which repealed and replaced several water Directives, and whose 'programmes of measures' contain measures which are provided for by previous Directives on water still in force as well as additional measures needed to achieve the objectives of Directive 2000/60/EC itself. In the light of that, since part of the requirements formally related to the implementation of Directive 2000/60/EC result in substance from other Union legislation for the protection of water, and have or should already have been implemented by the Member States, the costs and income foregone possibly occurring at present as a consequence of the application of those requirements should not be considered as eligible for compensation. In addition, Article 4(9) of Directive 2000/60/EC provides that the application of the new provisions of that Directive should guarantee at least the same level of protection as the existing Community legislation. Therefore, it seems proportional and appropriate to exclude compensation of costs and income foregone with reference to the requirements related to the implementation of Directive 2000/60/EC resulting from other Union legislation for the protection of water, as well as to only grant support for requirements that go beyond the level of protection of the Union legislation existing at the time that Directive was adopted.
- (6) In addition, part of the legislation related to the implementation of Directive 2000/60/EC is already included in cross compliance. Beneficiaries of the payments under Article 38 of Regulation (EC) No 1698/2005 are already obliged to respect the statutory management requirements and the good agricultural and environmental condition provided for respectively in Articles 5 and 6 of Council Regulation (EC) No 73/2009 ⁽⁴⁾ which has established common rules for direct support schemes for farmers under the common agricultural policy as well as certain support schemes for farmers, and in Annexes II and III to that Regulation. Therefore, no compensation should be granted with reference to requirements related to the implementation of Directive 2000/60/EC which are also cross compliance requirements.

⁽²⁾ OJ L 368, 23.12.2006, p. 15.

⁽³⁾ OJ L 327, 22.12.2000, p. 1.

⁽⁴⁾ OJ L 30, 31.1.2009, p. 16.

- (7) As a consequence of the implementation of Directive 2000/60/EC different levels of constraints for farmers may be introduced. Permanent compensation should be allowed only in case of serious disadvantages.
- (8) The maximum amount of support should be fixed. In addition, a minimum amount of permanent support should be set to reflect that compensation should be granted only in cases of serious disadvantage, and provision should be made for going beyond the maximum amount taking account of specific circumstances to be justified in the rural development programmes.
- (9) Regulation (EC) No 1974/2006 should therefore be amended accordingly.
- (10) The measures provided for in this Regulation are in accordance with the opinion of the Rural Development Committee,

HAS ADOPTED THIS REGULATION:

COMMISSION DIRECTIVE 2010/5/EU

of 8 February 2010

amending Directive 98/8/EC of the European Parliament and of the Council to include acrolein as an active substance in Annex I thereto

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Directive 98/8/EC of the European Parliament and of the Council of 16 February 1998 concerning the placing of biocidal products on the market⁽¹⁾, and in particular Article 11(4) thereof,

Whereas:

- (1) The United Kingdom has received on 18 August 2006 an application from Baker Petrolite, in accordance with Article 11(1) of Directive 98/8/EC, for the inclusion of the active substance acrolein in its Annex I for use in product-type 12, slimicides, as defined in Annex V to Directive 98/8/EC. Acrolein was not on the market on the date referred to in Article 34(1) of Directive 98/8/EC as an active substance of a biocidal product.
- (2) After carrying out an evaluation, the United Kingdom submitted its report, together with a recommendation, to the Commission on 16 March 2009.
- (3) The report was reviewed by the Member States and the Commission within the Standing Committee on Biocidal Products on 17 September 2009, and the findings of the review were incorporated in an assessment report.
- (4) It appears from the examinations made that biocidal products used as slimicides and containing acrolein may be expected to satisfy the requirements laid down in Article 5 of Directive 98/8/EC. It is therefore appropriate to include acrolein in Annex I.
- (5) Not all potential uses have been evaluated at the Union level. It is therefore appropriate that Member States assess those uses or exposure scenarios and those risks to compartments and populations that have not been representatively addressed in the Union level risk assessment and, when granting product authorisations, ensure that appropriate measures are taken or specific conditions imposed in order to reduce the identified risks to acceptable levels.
- (6) In the light of the findings of the assessment report, it is appropriate to require that risk mitigation measures are applied at product authorisation level to products containing acrolein used as slimicides.

- (7) In particular, it is appropriate to require that products intended for industrial or professional use be used with appropriate personal protective equipment and that safe operational procedures are established such as the use of air monitoring and exclusion zones, unless it can be demonstrated that risks for industrial or professional users can be reduced by other means.
- (8) Appropriate measures should be taken to limit the risks to the marine environment, since unacceptable risks to this compartment have been identified during the evaluation. To this end, certain conditions should be imposed by the competent authorities when authorising the biocidal product, such as ensuring that waste water is monitored and, if necessary, treated before discharge, unless it can be demonstrated that risks for the environment can be reduced by other means.
- (9) A reasonable period should be allowed to elapse before an active substance is included in Annex I in order to permit Member States to bring into force the laws, regulations and administrative provisions necessary to comply with this Directive.
- (10) Directive 98/8/EC should therefore be amended accordingly.
- (11) The measures provided for in this Directive are in accordance with the opinion of the Standing Committee on Biocidal Products,

HAS ADOPTED THIS DIRECTIVE:

Article 1

Annex I to Directive 98/8/EC is amended in accordance with the Annex to this Directive.

Article 2

1. Member States shall adopt and publish the laws, regulations and administrative provisions necessary to comply with this Directive by 31 August 2010 at the latest.

When Member States adopt those provisions, they shall contain a reference to this Directive or be accompanied by such a reference on the occasion of their official publication. Member States shall determine how such reference is to be made.

COMMISSION DECISION

of 8 February 2010

concerning the non-inclusion of diazinon in Annex I, IA or IB to Directive 98/8/EC of the European Parliament and of the Council concerning the placing of biocidal products on the market

(notified under document C(2010) 749)

(Text with EEA relevance)

(2010/71/EU)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Directive 98/8/EC of the European Parliament and of the Council of 16 February 1998 concerning the placing of biocidal products on the market⁽¹⁾, and in particular the second subparagraph of Article 16(2) thereof,

Whereas:

(1) Commission Regulation (EC) No 1451/2007 of 4 December 2007 on the second phase of the 10-year work programme referred to in Article 16(2) of Directive 98/8/EC of the European Parliament and of the Council concerning the placing of biocidal products on the market⁽²⁾ establishes a list of active substances to be assessed, with a view to their possible inclusion in Annex I, IA or IB to Directive 98/8/EC.

(2) Diazinon is included in that list for use in product-type 18, insecticides, acaricides and products to control other arthropods, as defined in Annex V to Directive 98/8/EC.

(3) The deadline for the submission of a complete dossier for active substances for use in product-type 18 was 30 April 2006. No complete dossier was however received within this time period.

(4) The Commission informed the Member States accordingly. On 14 June 2006, the Commission also made that information public by electronic means.

(5) Within the period of three months from that publication, a company indicated an interest in taking over the role of participant for diazinon for use in product-type 18.

(6) Commission Decision 2007/794/EC of 29 November 2007 setting a new deadline for the submission of dossiers for certain substances to be examined under the 10-year work programme referred to in Article 16(2) of Directive 98/8/EC⁽³⁾ fixed the new deadline for the submission of a dossier to 30 April 2008.

(7) Within this new deadline, before submitting its dossier, the applicant consulted Portugal, the rapporteur Member State designated for the evaluation of diazinon, to enquire whether its reference product, a flea collar, was to be considered as a biocidal product or a veterinary medicinal product.

(8) Portugal, after consultation with the Commission and the other Member States, advised the applicant that most Member States would not consider a flea collar such as the one placed on the market by the applicant as a biocidal but as a veterinary medicinal product, as defined in Article 1(2) of Directive 2001/82/EC of the European Parliament and of the Council⁽⁴⁾.

(9) In view of this advice the applicant did not submit a dossier for the inclusion of diazinon in Annex I, IA or IB to Directive 98/8/EC for product-type 18. Pursuant to Article 12(4) of Regulation (EC) No 1451/2007, the role of participant for diazinon for product-type 18 may no longer be taken over.

(10) Since the applicant did not submit a dossier within the prescribed period, diazinon should not be included for product-type 18 in Annex I, IA or IB to Directive 98/8/EC.

(11) It is necessary to establish a longer period for the phasing-out of flea collars placed on the market of certain Member States as biocidal products to allow for their authorisation as veterinary medicinal products in accordance with Directive 2001/82/EC.

⁽³⁾ OJ L 320, 6.12.2007, p. 35.

⁽⁴⁾ OJ L 311, 28.11.2001, p. 1.

(12) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on Biocidal Products,

Other biocidal products containing diazinon for use in product-type 18 shall no longer be placed on the market with effect from 1 March 2011.

HAS ADOPTED THIS DECISION:

Article 1

Diazinon (CAS number 333-41-5, EC number 206-373-8) shall not be included in Annex I, IA or IB to Directive 98/8/EC for product-type 18.

Article 2

Flea collars placed on the market as biocidal products and containing diazinon for use in product-type 18 shall no longer be placed on the market with effect from 1 March 2013.
