REGULATIONS

**REGULATION (EU) No 610/2013 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL
of 26 June 2013**

amending Regulation (EC) No 562/2006 of the European Parliament and of the Council establishing a Community Code on the rules governing the movement of persons across borders (Schengen Borders Code), the Convention implementing the Schengen Agreement, Council Regulations (EC) No 1683/95 and (EC) No 539/2001 and Regulations (EC) No 767/2008 and (EC) No 810/2009 of the European Parliament and of the Council

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 77(2) thereof,

Having regard to the proposal from the European Commission,

After transmission of the draft legislative act to the national parliaments,

Acting in accordance with the ordinary legislative procedure ⁽¹⁾,

Whereas:

(1) Union policy in the field of external borders aims for integrated management to ensure a uniform and high level of control and surveillance, which is a necessary corollary to the free movement of persons within the Union and a fundamental component of an area of freedom, security and justice. To this end, common rules on standards and procedures for the control of external borders should be established, taking into account the specific and disproportionate pressures faced by some Member States at their external borders. The rules set should be governed by the principle of solidarity between Member States.

(2) The free movement of people within the Schengen area has been one of the biggest achievements of European integration. Freedom of movement is a fundamental right, the conditions for the exercise of which are laid down in the Treaty on European Union (TEU) and the Treaty on the Functioning of the European Union (TFEU) and in Directive 2004/38/EC of the European Parliament and of the Council of 29 April 2004 on the right of citizens of the Union and their family members to move and reside freely within the territory of the Member States ⁽²⁾.

(3) The abolition of internal border controls requires full mutual trust between Member States in their capacity to fully implement the accompanying measures allowing those controls to be lifted.

(4) Regulation (EC) No 562/2006 of the European Parliament and of the Council of 15 March 2006 establishing a Community Code on the rules governing the movement of persons across borders (Schengen Borders Code) ⁽³⁾ entered into force on 13 October 2006.

(5) After several years of practical application, the need for a number of amendments has emerged, based on the practical experiences of the Member States and of the Commission in applying Regulation (EC) No 562/2006, on the results of Schengen evaluations, on reports and requests submitted by Member States and on developments in primary and secondary Union law, as has the need for clarification and more efficient mapping of critical technical issues.

⁽²⁾ OJ L 158, 30.4.2004, p. 77.

⁽³⁾ OJ L 105, 13.4.2006, p. 1.

- (6) The Commission report of 21 September 2009 on the operation of the provisions on stamping of the travel documents of third-country nationals in accordance with Articles 10 and 11 of Regulation (EC) No 562/2006 as well as the Commission report of 13 October 2010 on the application of Title III (Internal Borders) of Regulation (EC) No 562/2006 contain concrete suggestions for technical amendments to Regulation (EC) No 562/2006.
- (7) Recently adopted Union legislative acts, in particular Regulation (EC) No 810/2009 of the European Parliament and of the Council of 13 July 2009 establishing a Community Code on Visas (Visa Code)⁽¹⁾ and Directive 2008/115/EC of the European Parliament and of the Council of 16 December 2008 on common standards and procedures in Member States for returning illegally staying third-country nationals⁽²⁾, require certain amendments to Regulation (EC) No 562/2006.
- (8) Equally, certain provisions of the Convention implementing the Schengen Agreement of 14 June 1985 between the Governments of the States of the Benelux Economic Union, the Federal Republic of Germany and the French Republic on the gradual abolition of checks at their common borders⁽³⁾ ("the Convention implementing the Schengen Agreement") should be amended in order to reflect the changes in Regulation (EC) No 562/2006 and the current legal situation.
- (9) Pursuant to Case C-241/05 Nicolae Bot v Préfet du Val-de-Marne⁽⁴⁾, there is a need to amend the rules dealing with the calculation of the authorised length of short-term stays in the Union. Clear, simple and harmonised rules in all legal acts dealing with this issue would benefit both travellers as well as border and visa authorities. Regulation (EC) No 562/2006 and the Convention implementing the Schengen Agreement, Council Regulation (EC) No 1683/95 of 29 May 1995 laying down a uniform format for visas⁽⁵⁾ and Council Regulation (EC) No 539/2001 of 15 March 2001 listing the third countries whose nationals must be in possession of visas when crossing the external borders and those whose nationals are exempt from that requirement⁽⁶⁾, Regulation (EC) No 767/2008 of 9 July 2008 concerning the Visa Information System (VIS) and the exchange of data between Member States on short-stay visas (VIS Regulation)⁽⁷⁾ and Regulation (EC) No 810/2009, should therefore be amended accordingly.
- (10) The adoption of Regulation (EU) No 1168/2011 of the European Parliament and of the Council of 25 October 2011 amending Council Regulation (EC) No 2007/2004 establishing a European Agency for the Management of Operational Cooperation at the External Borders of the Member States of the European Union⁽⁸⁾ (Frontex) ("the Agency") improves the integrated management of the external borders and provides a further enhancement of the role of the Agency in line with the objective of the Union to develop a policy with a view to the gradual introduction of the concept of Integrated Border Management.
- (11) In order to align the provisions of Regulation (EC) No 562/2006 with the TFEU, the power to adopt acts in accordance with Article 290 of the TFEU should be delegated to the Commission in respect of the adoption of additional measures governing surveillance as well as amendments to the Annexes to Regulation (EC) No 562/2006. It is of particular importance that the Commission carry out appropriate consultations during its preparatory work, including at expert level. The Commission, when preparing and drawing up delegated acts, should ensure a simultaneous, timely and appropriate transmission of relevant documents to the European Parliament and to the Council.
- (12) Since the objective of this Regulation, namely to provide for technical amendments to the existing rules of Regulation (EC) No 562/2006 and the Convention implementing the Schengen Agreement, as well as Regulations (EC) No 1683/95, (EC) No 539/2001, (EC) No 767/2008 and (EC) No 810/2009, can only be achieved at Union level, the Union may adopt measures in accordance with the principle of subsidiarity as set out in Article 5 of the TEU. In accordance with the principle of proportionality, as set out in that Article, this Regulation does not go beyond what is necessary in order to achieve that objective.
- (13) As regards Iceland and Norway, this Regulation constitutes a development of the provisions of the Schengen *acquis* within the meaning of the Agreement concluded by the Council of the European Union and the Republic of Iceland and the Kingdom of Norway concerning the latter's association with the implementation, application and development of the Schengen *acquis*⁽⁹⁾ which fall within the area referred to in Article 1, point A, of Council Decision 1999/437/EC of 17 May 1999 on certain arrangements for the application of that Agreement⁽¹⁰⁾.

(14) As regards Switzerland, this Regulation constitutes a development of the provisions of the Schengen *acquis* within the meaning of the Agreement between the European Union, the European Community and the Swiss Confederation on the Swiss Confederation's association with the implementation, application and development of the Schengen *acquis*⁽¹⁾ which fall within the area referred to in Article 1, point A, of Decision 1999/437/EC read in conjunction with Article 3 of Council Decision 2008/146/EC⁽²⁾.

(15) As regards Liechtenstein, this Regulation constitutes a development of the provisions of the Schengen *acquis* within the meaning of the Protocol between the European Union, the European Community, the Swiss Confederation and the Principality of Liechtenstein on the accession of the Principality of Liechtenstein to the Agreement between the European Union, the European Community and the Swiss Confederation on the Swiss Confederation's association with the implementation, application and development of the Schengen *acquis*⁽³⁾ which fall within the area referred to in Article 1, point A, of Decision 1999/437/EC read in conjunction with Article 3 of Council Decision 2011/350/EU⁽⁴⁾.

(16) In accordance with Articles 1 and 2 of Protocol (No 22) on the position of Denmark, annexed to the TEU and to the TFEU, Denmark is not taking part in the adoption of this Regulation and is not bound by it or subject to its application. Given that this Regulation builds upon the Schengen *acquis*, Denmark shall, in accordance with Article 4 of that Protocol, decide within a period of six months after the Council has decided on this Regulation whether it will implement it in its national law.

(17) This Regulation constitutes a development of the provisions of the Schengen *acquis* in which the United Kingdom does not take part, in accordance with Council Decision 2000/365/EC of 29 May 2000 concerning the request of the United Kingdom of Great Britain and Northern Ireland to take part in some of the provisions of the Schengen *acquis*⁽⁵⁾; the United Kingdom is therefore not taking part in its adoption and is not bound by it or subject to its application.

(18) This Regulation constitutes a development of the provisions of the Schengen *acquis* in which Ireland does not take part, in accordance with Council Decision 2002/192/EC of 28 February 2002 concerning Ireland's request to take part in some of the provisions of the Schengen *acquis*⁽⁶⁾; Ireland is therefore not taking part in its adoption and is not bound by it or subject to its application,

(3) in Annex V, part B, in the Standard form for refusal of entry at the border, letter (F) is replaced by the following:

" (F) has already stayed for 90 days in the preceding 180-day period on the territory of the Member States of the European Union";

(4) Annex VI is amended as follows:

(a) point 1 is amended as follows:

(i) in point 1.1., the following point is added:

"1.1.4. Shared border crossing points

1.1.4.1. Member States may conclude or maintain bilateral agreements with neighbouring third countries concerning the establishment of shared border crossing points, at which Member State border guards and third-country border guards carry out exit and entry checks one after another in accordance with their national law on the territory of the other party. Shared border crossing points may be located either on the territory of a Member State territory or on the territory of a third country.

1.1.4.2. Shared border crossing points located on Member State territory: Bilateral agreements establishing shared border crossing points located on Member State territory shall contain an authorisation for third-country border guards to exercise their tasks in the Member State, respecting the following principles:

(a) International protection: A third-country national asking for international protection on Member State territory shall be given access to relevant Member State procedures in accordance with the Union asylum *acquis*.

(b) Arrest of a person or seizure of property: If third-country border guards become aware of facts justifying the arrest or placing under protection of a person or seizure of property, they shall inform Member State authorities of those facts and Member State authorities shall ensure an appropriate follow-up in accordance with national, Union and international law, independently of the nationality of the concerned person.

(c) Persons enjoying the right of free movement under Union law entering Union territory: Third-country border guards shall not prevent persons enjoying the right of free movement under Union law from entering Union territory. If there are reasons justifying refusal of exit from the third country concerned, third-country border guards shall inform Member State authorities of those reasons and Member State authorities shall ensure an appropriate follow-up in accordance with national, Union and international law.

1.1.4.3. Shared border crossing points located on third-country territory: Bilateral agreements establishing shared border crossing points located on third-country territory shall contain an authorisation for Member State border guards to perform their tasks in the third country. For the purpose of this Regulation, any check carried out by Member State border guards in a shared border crossing point located on the territory of a third country shall be deemed to be carried out on the territory of the Member State concerned. Member State border guards shall exercise their tasks in accordance with Regulation (EC) No 562/2006 and respecting the following principles:

(a) International protection: A third-country national who has passed exit control by third-country border guards and subsequently asks Member State border guards present in the third country for international protection, shall be given access to relevant Member State procedures in accordance with Union asylum *acquis*. Third-country authorities shall accept the transfer of the person concerned into Member State territory.

(b) Arrest of a person or seizure of property: If Member State border guards become aware of facts justifying the arrest or placing under protection of a person or seizure of property, they shall act in accordance with national, Union and international law. Third-country authorities shall accept a transfer of the person or object concerned into Member State territory.

(c) Access to IT systems: Member State border guards shall be able to use information systems processing personal data in accordance with Article 7. Member States shall be allowed to establish the technical and organisational security measures required by Union law to protect personal data against accidental or unlawful destruction or accidental loss, alteration, unauthorised disclosure or access, including access by third-country authorities.

1.1.4.4. Before concluding or amending any bilateral agreement on shared border crossing points with a neighbouring third country, the Member State concerned shall consult the Commission as to the compatibility of the agreement with Union law. Pre-existing bilateral agreements shall be notified to the Commission by 20 January 2014.

If the Commission considers the agreement to be incompatible with Union law, it shall notify the Member State concerned. The Member State shall take all appropriate steps to amend the agreement within a reasonable period in such a way as to eliminate the incompatibilities established."

(ii) in point 1.2., points 1.2.1. and 1.2.2. are replaced by the following:

"1.2.1. Checks shall be carried out both on train passengers and on railway staff on trains crossing external borders, including those on goods trains or empty trains. Member States may conclude bilateral or multilateral agreements on how to conduct those checks respecting the principles set out in point 1.1.4. Those checks shall be carried out in one of the following ways:

- in the first station of arrival or last station of departure on the territory of a Member State,
- on board the train, during transit between the last station of departure in a third country and the first station of arrival on the territory of a Member State or vice versa,
- in the last station of departure or the first station of arrival on the territory of a third country.

1.2.2. In addition, in order to facilitate rail traffic flows of high-speed passenger trains, the Member States on the itinerary of these trains from third countries may also decide, by common agreement with third countries concerned respecting the principles set out in point 1.1.4., to carry out entry checks on persons on trains from third countries in either one of the following ways:

- in the stations in a third country where persons board the train,
- in the stations where persons disembark within the territory of the Member States,
- on board the train during transit between stations on the territory of a third country and stations on the territory of the Member States, provided that the persons stay on board the train."

(b) point 3.1. is replaced by the following:

"3.1 *General checking procedures on maritime traffic*

3.1.1. Checks on ships shall be carried out at the port of arrival or departure, or in an area set aside for that purpose, located in the immediate vicinity of the vessel or on board ship in the territorial waters as defined by the United Nations Convention on the Law of the Sea. Member States may conclude agreements according to which checks may also be carried out during crossings or, upon the ship's arrival or departure, on the territory of a third country, respecting the principles set out in point 1.1.4.

3.1.2. The master, the ship's agent or some other person duly authorised by the master or authenticated in a manner acceptable to the public authority concerned (in both cases hereinafter referred to as 'the master'), shall draw up a list of the crew and any passengers containing the information required in the forms 5 (crew list) and 6 (passenger list) of the Convention on Facilitation of International Maritime Traffic (FAL Convention) as well as, where applicable, the visa or residence permit numbers:

— at the latest twenty-four hours before arriving in the port, or

— at the latest at the time the ship leaves the previous port, if the voyage time is less than twenty-four hours, or

— if the port of call is not known or it is changed during the voyage, as soon as this information is available.

The master shall communicate the list(s) to the border guards or, if national law so provides, to other relevant authorities which shall forward the list(s) without delay to the border guards.

3.1.3. A confirmation of receipt (signed copy of the list(s) or an electronic receipt confirmation) shall be returned to the master by the border guards or by the authorities referred to in point 3.1.2., who shall produce it on request when the ship is in port.

3.1.4. The master shall promptly report to the competent authority any changes to the composition of the crew or the number of passengers.

In addition, the master shall notify the competent authorities promptly, and within the time-limit set out in point 3.1.2., of the presence on board of stowaways. Stowaways, however, remain under the responsibility of the master.

By way of derogation from Articles 4 and 7, no systematic border checks shall be carried out on persons staying aboard. Nevertheless a search of the ship and checks on the persons staying aboard shall be carried out by border guards only when this is justified on the basis of an assessment of the risks related to internal security and illegal immigration.

3.1.5. The master shall notify the competent authority of the ship's departure in due time and in accordance with the rules in force in the port concerned.";

(c) point 3.2. is amended as follows:

(i) point 3.2.1. is replaced by the following:

"3.2.1. The cruise ship's master shall transmit to the competent authority the itinerary and the programme of the cruise, as soon as they have been established and no later than within the time-limit set out in point 3.1.2.";

(ii) in point 3.2.2., the second paragraph is replaced by the following:

"Nevertheless, checks shall be carried out on the crew and passengers of those ships only when this is justified on the basis of an assessment of the risks related to internal security and illegal immigration.";

(iii) in point 3.2.3.(a) and(b), the reference "point 3.2.4" is replaced by the reference "point 3.1.2.";

(iv) in point 3.2.3.(e), the second subparagraph is replaced by the following:

"Nevertheless, checks shall be carried out on the crew and passengers of those ships only when this is justified on the basis of an assessment of the risks related to internal security and illegal immigration.";

(v) point 3.2.4. is deleted;

(vi) in point 3.2.9., the second paragraph is deleted;

(vii) in point 3.2.10., the following point is added:

"(i) point 3.1.2. (obligation to submit passenger and crew lists) does not apply. If a list of the persons on board has to be drawn up in accordance with Council Directive 98/41/EC of 18 June 1998 on the registration of persons sailing on board passenger ships operating to or from ports of the Member States of the Community (*), a copy of that list shall be transmitted not later than thirty minutes after departure from a third-country port by the master to the competent authority of the port of arrival on the territory of the Member States.

(*) OJ L 188, 2.7.1998, p. 35."

(viii) the following point is added:

"3.2.11. Where a ferry coming from a third country with more than one stop within the territory of the Member States takes passengers on board only for the remaining leg within that territory, those passengers shall be subject to an exit check at the port of departure and an entry check at the port of arrival.

Checks on persons who, during those stop-overs, are already on board the ferry and have not boarded in the territory of the Member States shall be carried out at the port of arrival. The reverse procedure shall apply where the country of destination is a third country."

(ix) the following titled point is added:

"Cargo connections between Member States

3.2.12. By way of derogation from Article 7, no border checks shall be carried out on cargo connections between the same two or more ports situated on the territory of the Member States, not calling at any ports outside the territory of the Member States and consisting of the transport of goods.

Nevertheless, checks shall be carried out on the crew and passengers of those ships only when they are justified on the basis of an assessment of the risks relating to internal security and illegal immigration."

(5) Annex VII is amended as follows:

(a) in point 3, points 3.1. and 3.2. are replaced by the following:

"By way of derogation from Articles 4 and 7, Member States may authorise seamen holding a seafarer's identity document issued in accordance with the International Labour Organization (ILO) Seafarers' Identity Documents Convention No 108 (1958) or No 185 (2003), the Convention on Facilitation of International Maritime Traffic (FAL Convention) and the relevant national law, to enter the territory of the Member States by going ashore to stay in the area of the port where their ships call or in the adjacent municipalities, or exit the territory of the Member States by returning to their ships, without presenting themselves at a border crossing point, on condition that they appear on the crew list, which has previously been submitted for checking by the competent authorities, of the ship to which they belong.

However, on the basis of an assessment of the risks of internal security and illegal immigration, seamen shall be subject to a check in accordance with Article 7 by the border guards before they go ashore."

(b) in point 6, the following points are added:

"6.4. Member States shall nominate national contact points for consultation on minors and inform the Commission thereof. A list of these national contact points shall be made available to the Member States by the Commission.

6.5. Where there is doubt as to any of the circumstances set out in points 6.1. to 6.3., border guards shall make use of the list of national contact points for consultation on minors.”;

(c) the following points are added:

7. Rescue services, police, fire brigades and border guards

The arrangements for the entry and exit of members of rescue services, police, fire brigades acting in emergency situations as well as border guards crossing the border in exercise of their professional tasks shall be laid down by national law. Member States may conclude bilateral agreements with third countries on the entry and exit of those categories of persons. These arrangements and bilateral agreements may provide for derogations from Articles 4, 5 and 7.

8. Offshore workers

By way of derogation from Articles 4 and 7, offshore workers as defined in Article 2, point 18a, who regularly return by sea or air to the territory of the Member States without having stayed on the territory of a third country shall not be systematically checked.

Nevertheless, an assessment of the risks of illegal immigration, in particular where the coastline of a third country is located in the immediate vicinity of an offshore site, shall be taken into account in order to determine the frequency of the checks to be carried out.”;

(6) in Annex VIII, the standard form is amended as follows:

(a) the words "entry stamp" are replaced by the words "entry or exit stamp”;

(b) the word "entered" is replaced by the words "entered or left”.

DIRECTIVES

DIRECTIVE 2013/34/EU OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL

of 26 June 2013

on the annual financial statements, consolidated financial statements and related reports of certain types of undertakings, amending Directive 2006/43/EC of the European Parliament and of the Council and repealing Council Directives 78/660/EEC and 83/349/EEC

(Text with EEA relevance)

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 50(1) thereof,

Having regard to the proposal from the European Commission,

After transmission of the draft legislative act to the national parliaments,

Having regard to the opinion of the European Economic and Social Committee ⁽¹⁾,

Acting in accordance with the ordinary legislative procedure ⁽²⁾,

Whereas:

(1) This Directive takes into account the Commission's better regulation programme, and, in particular, the Commission Communication entitled "Smart Regulation in the European Union", which aims at designing and delivering regulation of the highest quality whilst respecting the principles of subsidiarity and proportionality and ensuring that the administrative burdens are proportionate to the benefits they bring. The Commission Communication entitled "Think Small First – Small Business Act for Europe", adopted in June 2008 and revised in February 2011, recognises the central role played by small and medium-sized enterprises (SMEs) in the Union economy and aims to improve the overall approach to entrepreneurship and to anchor the "think small first" principle in policy-making from regulation to public service. The European Council of 24 and 25 March 2011 welcomed the Commission's intention

to present the "Single Market Act" with measures creating growth and jobs, bringing tangible results to citizens and businesses.

The Commission Communication entitled "Single Market Act", adopted in April 2011, proposes to simplify the Fourth Council Directive 78/660/EEC of 25 July 1978 based on Article 54(3)(g) of the Treaty on the annual accounts of certain types of companies ⁽³⁾ and the Seventh Council Directive 83/349/EEC of 13 June 1983 based on the Article 54(3)(g) of the Treaty on consolidated accounts ⁽⁴⁾ (the Accounting Directives) as regards financial information obligations and to reduce administrative burdens, in particular for SMEs. "The Europe 2020 Strategy" for smart, sustainable and inclusive growth aims to reduce administrative burdens and improve the business environment, in particular for SMEs, and to promote the internationalisation of SMEs. The European Council of 24 and 25 March 2011 also called for the overall regulatory burden, in particular for SMEs, to be reduced at both Union and national level and suggested measures to increase productivity, such as the removal of red tape and the improvement of the regulatory framework for SMEs.

(2) On 18 December 2008 the European Parliament adopted a non-legislative resolution on accounting requirements as regards small and medium-sized companies, particularly micro-entities ⁽⁵⁾, stating that the Accounting Directives are often very burdensome for small and medium-sized companies, and in particular for micro-entities, and asking the Commission to continue its efforts to review those Directives.

(3) The coordination of national provisions concerning the presentation and content of annual financial statements and management reports, the measurement bases used therein and their publication in respect of certain types of undertakings with limited liability is of special importance for the protection of shareholders, members and third parties. Simultaneous coordination is necessary in those fields for such types of undertakings because, on

the one hand, some undertakings operate in more than one Member State and, on the other hand, such undertakings offer no safeguards to third parties beyond the amounts of their net assets.

- (4) Annual financial statements pursue various objectives and do not merely provide information for investors in capital markets but also give an account of past transactions and enhance corporate governance. Union accounting legislation needs to strike an appropriate balance between the interests of the addressees of financial statements and the interest of undertakings in not being unduly burdened with reporting requirements.
- (5) The scope of this Directive should include certain undertakings with limited liability such as public and private limited liability companies. Additionally, there is a substantial number of partnerships and limited partnerships all the fully liable members of which are constituted either as public or as private limited liability companies, and such partnerships should therefore be subject to the coordination measures of this Directive. This Directive should also ensure that partnerships fall within its scope where members of a partnership which are not constituted as private or public limited companies in fact have limited liability for the partnership's obligations because that liability is limited by other undertakings within the scope of this Directive. The exclusion of not-for-profit undertakings from the scope of this Directive is consistent with its purpose, in line with point (g) of Article 50(2) of the Treaty on the Functioning of the European Union (TFEU).
- (6) The scope of this Directive should be principles-based and should ensure that it is not possible for an undertaking to exclude itself from that scope by creating a group structure containing multiple layers of undertakings established inside or outside the Union.
- (7) The provisions of this Directive should apply only to the extent that they are not inconsistent with, or contradicted by, provisions on the financial reporting of certain types of undertakings or provisions regarding the distribution of an undertaking's capital which are laid down in other legislative acts in force adopted by one or more Union institutions.
- (8) It is necessary, moreover, to establish minimum equivalent legal requirements at Union level as regards the extent of the financial information that should be made available to the public by undertakings that are in competition with one another.
- (9) Annual financial statements should be prepared on a prudent basis and should give a true and fair view of an undertaking's assets and liabilities, financial position and profit or loss. It is possible that, in exceptional cases, a financial statement does not give such a true and fair view where provisions of this Directive are applied. In such cases, the undertaking should depart from such provisions in order to give a true and fair view. The Member States should be allowed to define such exceptional cases and to lay down the relevant special rules which are to apply in those cases. Those exceptional cases should be understood to be only very unusual transactions and unusual situations and should, for instance, not be related to entire specific sectors.
- (10) This Directive should ensure that the requirements for small undertakings are to a large extent harmonised throughout the Union. This Directive is based on the "think small first" principle. In order to avoid disproportionate administrative burdens on those undertakings, Member States should only be allowed to require a few disclosures by way of notes that are additional to the mandatory notes. In the case of a single filing system, however, Member States may in certain cases require a limited number of additional disclosures where these are explicitly required by their national tax legislation and are strictly necessary for the purposes of tax collection. It should be possible for Member States to impose requirements on medium-sized and large undertakings that go further than the minimum requirements prescribed by this Directive.
- (11) Where this Directive allows Member States to impose additional requirements on, for instance, small undertakings, this means that Member States can make use of this option in full or in part by requiring less than the option allows for. In the same way, where this Directive allows Member States to make use of an exemption in relation to, for instance, small undertakings, this means that Member States can exempt such undertakings wholly or in part.
- (12) Small, medium-sized and large undertakings should be defined and distinguished by reference to balance sheet total, net turnover and the average number of employees during the financial year, as those criteria typically provide objective evidence as to the size of an undertaking. However, where a parent undertaking is not preparing consolidated financial statements for the group, Member States should be allowed to take steps they deem necessary to require that such an undertaking be classified as a larger undertaking by determining its size and resulting category on a consolidated or aggregated basis. Where a Member State applies one or more of the optional exemptions for micro-undertakings, micro-undertakings should also be defined by reference to balance sheet total, net turnover and the average number of employees during the financial year. Member States should not be obliged to define separate categories for medium-sized and large undertakings in their national legislation if medium-sized undertakings are subject to the same requirements as large undertakings.

- (13) Micro-undertakings have limited resources with which to comply with demanding regulatory requirements. Where no specific rules are in place for micro-undertakings, the rules applying to small undertakings apply to them. Those rules place on them administrative burdens which are disproportionate to their size and are, therefore, relatively more onerous for micro-undertakings as compared to other small undertakings. Therefore, it should be possible for Member States to exempt micro-undertakings from certain obligations applying to small undertakings that would impose excessive administrative burdens on them. However, micro-undertakings should still be subject to any national obligation to keep records showing their business transactions and financial position. Moreover, investment undertakings and financial holding undertakings should be excluded from the benefits of simplifications applicable to micro-undertakings.
- (14) Member States should take into account the specific conditions and needs of their own markets when making a decision about whether or how to implement a distinct regime for micro-undertakings within the context of this Directive.
- (15) Publication of financial statements can be burdensome for micro-undertakings. At the same time, Member States need to ensure compliance with this Directive. Accordingly, Member States making use of the exemptions for micro-undertakings provided for in this Directive should be allowed to exempt micro-undertakings from a general publication requirement, provided that balance sheet information is duly filed, in accordance with national law, with at least one designated competent authority and that the information is forwarded to the business register, so that a copy should be obtainable upon application. In such cases, the obligation laid down in this Directive to publish any accounting document in accordance with Article 3(5) of Directive 2009/101/EC of the European Parliament and of the Council of 16 September 2009 on coordination of safeguards which, for the protection of the interests of members and third parties, are required by Member States of companies within the meaning of the second paragraph of Article 48 of the Treaty, with a view to making such safeguards equivalent⁽¹⁾, should not apply.
- (16) To ensure the disclosure of comparable and equivalent information, recognition and measurement principles should include the going concern, the prudence, and the accrual bases. Set-offs between asset and liability items and income and expense items should not be allowed and components of assets and liabilities should be valued separately. In specific cases, however, Member States should be allowed to permit or require undertakings to perform set-offs between asset and liability items and income and expense items. The presentation of items in financial statements should have regard to the economic reality or commercial substance of the underlying transaction or arrangement. Member States should, however, be allowed to exempt undertakings from applying that principle.
- (17) The principle of materiality should govern recognition, measurement, presentation, disclosure and consolidation in financial statements. According to the principle of materiality, information that is considered immaterial may, for instance, be aggregated in the financial statements. However, while a single item might be considered to be immaterial, immaterial items of a similar nature might be considered material when taken as a whole. Member States should be allowed to limit the mandatory application of the principle of materiality to presentation and disclosure. The principle of materiality should not affect any national obligation to keep complete records showing business transactions and financial position.
- (18) Items recognised in annual financial statements should be measured on the basis of the principle of purchase price or production cost to ensure the reliability of information contained in financial statements. However, Member States should be allowed to permit or require undertakings to revalue fixed assets in order that more relevant information may be provided to the users of financial statements.
- (19) The need for comparability of financial information throughout the Union makes it necessary to require Member States to allow a system of fair value accounting for certain financial instruments. Furthermore, systems of fair value accounting provide information that can be of more relevance to the users of financial statements than purchase price or production cost-based information. Accordingly, Member States should permit the adoption of a fair value system of accounting by all undertakings or classes of undertaking, other than micro-undertakings making use of the exemptions provided for in this Directive, in respect of both annual and consolidated financial statements or, if a Member State so chooses, in respect of consolidated financial statements only. Furthermore, Member States should be allowed to permit or require fair value accounting for assets other than financial instruments.
- (20) A limited number of layouts for the balance sheet is necessary to allow users of financial statements to better compare the financial position of undertakings within the Union. Member States should require the

⁽¹⁾ OJ L 258, 1.10.2009, p. 11.

use of one layout for the balance sheet and should be allowed to offer a choice from amongst permitted layouts. However, Member States should be able to permit or require undertakings to modify the layout and present a balance sheet distinguishing between current and non-current items. A profit and loss account layout showing the nature of expenses and a profit and loss account layout showing the function of expenses should be permitted. Member States should require the use of one layout for the profit and loss account and should be allowed to offer a choice from amongst permitted layouts. Member States should also be able to allow undertakings to present a statement of performance instead of a profit and loss account prepared in accordance with one of the permitted layouts. Simplifications of the required layouts may be made available for small and medium-sized undertakings. However, Member States should be allowed to restrict layouts of the balance sheet and profit and loss account if necessary for the electronic filing of financial statements.

- (21) For comparability reasons, a common framework for recognition, measurement and presentation of, *inter alia*, value adjustments, goodwill, provisions, stocks of goods and fungible assets, and income and expenditure of exceptional size or incidence should be provided.
- (22) The recognition and measurement of some items in financial statements are based on estimates, judgements and models rather than exact depictions. As a result of the uncertainties inherent in business activities, certain items in financial statements cannot be measured precisely but can only be estimated. Estimation involves judgements based on the latest available reliable information. The use of estimates is an essential part of the preparation of financial statements. This is especially true in the case of provisions, which by their nature are more uncertain than most other items in the balance sheet. Estimates should be based on a prudent judgement of the management of the undertaking and calculated on an objective basis, supplemented by experience of similar transactions and, in some cases, even reports from independent experts. The evidence considered should include any additional evidence provided by events after the balance-sheet date.
- (23) The information presented in the balance sheet and in the profit and loss account should be supplemented by disclosures by way of notes to the financial statements. Users of financial statements typically have a limited need for supplementary information from small undertakings, and it can be costly for small undertakings to collate that supplementary information. A limited disclosure regime for small undertakings is, therefore, justified. However, where a micro- or small undertaking considers that it is beneficial to provide additional disclosures of the types required of medium-sized and large undertakings, or other disclosures not provided for in this Directive, it should not be prevented from doing so.
- (24) Disclosure in respect of accounting policies is one of the key elements of the notes to the financial statements. Such disclosure should include, in particular, the measurement bases applied to various items, a statement on the conformity of those accounting policies with the going concern concept and any significant changes to the accounting policies adopted.
- (25) Users of financial statements prepared by medium-sized and large undertakings typically have more sophisticated needs. Therefore, further disclosures should be provided in certain areas. Exemption from certain disclosure obligations is justified where such disclosure would be prejudicial to certain persons or to the undertaking.
- (26) The management report and the consolidated management report are important elements of financial reporting. A fair review of the development of the business and of its position should be provided, in a manner consistent with the size and complexity of the business. The information should not be restricted to the financial aspects of the undertaking's business, and there should be an analysis of environmental and social aspects of the business necessary for an understanding of the undertaking's development, performance or position. In cases where the consolidated management report and the parent undertaking management report are presented in a single report, it may be appropriate to give greater emphasis to those matters which are significant to the undertakings included in the consolidation taken as a whole. However, having regard to the potential burden placed on small and medium-sized undertakings, it is appropriate to provide that Member States may choose to waive the obligation to provide non-financial information in the management report of such undertakings.
- (27) Member States should have the possibility of exempting small undertakings from the obligation to draw up a management report provided that such undertakings include, in the notes to the financial statements, the data concerning the acquisition of own shares referred to in Article 24(2) of Directive 2012/30/EU of the European Parliament and of the Council of 25 October 2012 on coordination of safeguards which, for the protection of the interests of members and others, are required by Member States of companies within the meaning of the second paragraph of Article 54 of the Treaty on the Functioning of the European Union, in respect of the formation of public limited liability companies and the maintenance and alteration of their capital, with a view to making such safeguards equivalent ⁽¹⁾.

⁽¹⁾ OJ L 315, 14.11.2012, p. 74.

- (28) Given that listed undertakings can have a prominent role in the economies in which they operate, the provisions of this Directive concerning the corporate governance statement should apply to undertakings whose transferable securities are admitted to trading on a regulated market.
- (29) Many undertakings own other undertakings and the aim of coordinating the legislation governing consolidated financial statements is to protect the interests subsisting in companies with share capital. Consolidated financial statements should be drawn up so that financial information concerning such undertakings may be conveyed to members and third parties. National law governing consolidated financial statements should therefore be coordinated in order to achieve the objectives of comparability and equivalence in the information which undertakings should publish within the Union. However, given the lack of an arm's-length transaction price, Member States should be allowed to permit intra-group transfers of participating interests, so-called common control transactions, to be accounted for using the pooling of interests method of accounting, in which the book value of shares held in an undertaking included in a consolidation is set off against the corresponding percentage of capital only.
- (30) In Directive 83/349/EEC there was a requirement to prepare consolidated financial statements for groups in cases where either the parent undertaking or one or more of the subsidiary undertakings was established as one of the types of undertakings listed in Annex I or Annex II to this Directive. Member States had the option of exempting parent undertakings from the requirement to draw up consolidated accounts in cases where the parent undertaking was not of the type listed in Annex I or Annex II. This Directive requires only parent undertakings of the types listed in Annex I or, in certain circumstances, Annex II to draw up consolidated financial statements, but does not preclude Member States from extending the scope of this Directive to cover other situations as well. In substance there is therefore no change, as it remains up to the Member States to decide whether to require undertakings which do not fall within the scope of this Directive to prepare consolidated financial statements.
- (31) Consolidated financial statements should present the activities of a parent undertaking and its subsidiaries as a single economic entity (a group). Undertakings controlled by the parent undertaking should be considered as subsidiary undertakings. Control should be based on holding a majority of voting rights, but control may also exist where there are agreements with fellow shareholders or members. In certain circumstances control may be effectively exercised where the parent holds a minority or none of the shares in the subsidiary.
- Member States should be entitled to require that undertakings not subject to control, but which are managed on a unified basis or have a common administrative, managerial or supervisory body, be included in consolidated financial statements.
- (32) A subsidiary undertaking which is itself a parent undertaking should draw up consolidated financial statements. Nevertheless, Member States should be entitled to exempt such a parent undertaking from the obligation to draw up such consolidated financial statements in certain circumstances, provided that its members and third parties are sufficiently protected.
- (33) Small groups should be exempt from the obligation to prepare consolidated financial statements as the users of small undertakings' financial statements do not have sophisticated information needs and it can be costly to prepare consolidated financial statements in addition to the annual financial statements of the parent and subsidiary undertakings. Member States should be able to exempt medium-sized groups from the obligation to prepare consolidated financial statements on the same cost/benefit grounds unless any of the affiliated undertakings is a public-interest entity.
- (34) Consolidation requires the full incorporation of the assets and liabilities and of the income and expenditure of group undertakings, the separate disclosure of non-controlling interests in the consolidated balance sheet within capital and reserves and the separate disclosure of non-controlling interests in the profit and loss of the group in the consolidated profit and loss accounts. However, the necessary corrections should be made to eliminate the effects of the financial relations between the undertakings consolidated.
- (35) Recognition and measurement principles applicable to the preparation of annual financial statements should also apply to the preparation of consolidated financial statements. However, Member States should be allowed to permit the general provisions and principles stated in this Directive to be applied differently in annual financial statements than in consolidated financial statements.
- (36) Associated undertakings should be included in consolidated financial statements by means of the equity method. The provisions on measurement of associated undertakings should in substance remain unchanged from Directive 83/349/EEC, and the methods allowed under that Directive can still be applied. Member States should also be able to permit or require that a jointly managed undertaking be proportionately consolidated within consolidated financial statements.

- (37) Consolidated financial statements should include all disclosures by way of notes to the financial statements for the undertakings included in the consolidation taken as a whole. The names, registered offices and group interest in the undertakings' capital should also be disclosed in respect of subsidiaries, associated undertakings, jointly managed undertakings and participating interests.
- (38) The annual financial statements of all undertakings to which this Directive applies should be published in accordance with Directive 2009/101/EC. It is, however, appropriate to provide that certain derogations may be granted in this area for small and medium-sized undertakings.
- (39) The Member States are strongly encouraged to develop electronic publication systems that allow undertakings to file accounting data, including statutory financial statements, only once and in a form that allows multiple users to access and use the data easily. With regard to the reporting of financial statements, the Commission is encouraged to explore means for a harmonised electronic format. Such systems should, however, not be burdensome to small and medium-sized undertakings.
- (40) The Members of the administrative, management and supervisory bodies of an undertaking should, as a minimum requirement, be collectively responsible to the undertaking for drawing up and publishing annual financial statements and management reports. The same approach should also apply to members of the administrative, management and supervisory bodies of undertakings drawing up consolidated financial statements. Those bodies act within the competences assigned to them by national law. This should not prevent Member States from going further and providing for direct responsibility to shareholders or even other stakeholders.
- (41) Liability for drawing up and publishing annual financial statements and consolidated financial statements, as well as management reports and consolidated management reports, is based on national law. Appropriate liability rules, as laid down by each Member State under its national law, should be applicable to members of the administrative, management and supervisory bodies of an undertaking. Member States should be allowed to determine the extent of the liability.
- (42) In order to promote credible financial reporting processes across the Union, members of the body within an undertaking that is responsible for the preparation of the undertaking's financial statements should ensure that the financial information included in the undertaking's annual financial statement and the group's consolidated financial statement gives a true and fair view.
- (43) Annual financial statements and consolidated financial statements should be audited. The requirement that an audit opinion should state whether annual or consolidated financial statements give a true and fair view in accordance with the relevant financial reporting framework should not be understood as restricting the scope of that opinion but as clarifying the context in which it is expressed. The annual financial statements of small undertakings should not be covered by this audit obligation, as audit can be a significant administrative burden for that category of undertaking, while for many small undertakings the same persons are both shareholders and managers and, therefore, have limited need for third-party assurance on financial statements. However, this Directive should not prevent Member States from imposing an audit on their small undertakings, taking into account the specific conditions and needs of small undertakings and the users of their financial statements. Furthermore, it is more appropriate to define the content of the audit report in Directive 2006/43/EC of the European Parliament and of the Council of 17 May 2006 on statutory audits of annual accounts and consolidated accounts⁽¹⁾. Therefore that directive should be amended accordingly.
- (44) In order to provide for enhanced transparency of payments made to governments, large undertakings and public-interest entities which are active in the extractive industry or logging of primary forests⁽²⁾ should disclose material payments made to governments in the countries in which they operate in a separate report, on an annual basis. Such undertakings are active in countries rich in natural resources, in particular minerals, oil, natural gas and primary forests. The report should include types of payments comparable to those disclosed by an undertaking participating in the Extractive Industries Transparency Initiative (EITI). The initiative is also complementary to the Forest Law Enforcement, Governance and Trade Action Plan of the European Union (EU FLEGT) and the provisions of Regulation (EU) No 995/2010 of the European Parliament and of the Council of 20 October 2010 laying down the obligations of operators who place timber and timber products on the market⁽³⁾, which require traders of timber products to exercise due diligence in order to prevent illegal wood from entering the Union market.

⁽¹⁾ OJ L 157, 9.6.2006, p. 87.

⁽²⁾ Defined in Directive 2009/28/EC as "forest of native species, where there is no clearly visible indication of human activities and the ecological processes are not significantly disturbed."

⁽³⁾ OJ L 295, 12.11.2010, p. 23.

- (45) The report should serve to help governments of resource-rich countries to implement the EITI principles and criteria and account to their citizens for payments such governments receive from undertakings active in the extractive industry or loggers of primary forests operating within their jurisdiction. The report should incorporate disclosures on a country and project basis. A project should be defined as the operational activities that are governed by a single contract, license, lease, concession or similar legal agreements and form the basis for payment liabilities to a government. Nonetheless, if multiple such agreements are substantially interconnected, this should be considered a project. 'Substantially interconnected' legal agreements should be understood as a set of operationally and geographically integrated contracts, licenses, leases or concessions or related agreements with substantially similar terms that are signed with a government, giving rise to payment liabilities. Such agreements can be governed by a single contract, joint venture, production sharing agreement, or other overarching legal agreement.
- (46) Any payment, whether made as a single payment or as a series of related payments, need not be taken into account in the report if it is below EUR 100 000 within a financial year. This means that, in the case of any arrangement providing for periodic payments or instalments (e.g. rental fees), the undertaking must consider the aggregate amount of the related periodic payments or instalments of the related payments in determining whether the threshold has been met for that series of payments, and accordingly, whether disclosure is required.
- (47) Undertakings active in the extractive industry or the logging of primary forests should not be required to disaggregate and allocate payments on a project basis where payments are made in respect of obligations imposed on the undertakings at the entity level rather than the project level. For instance, if an undertaking has more than one project in a host country, and that country's government levies corporate income taxes on the undertaking with respect to the undertaking's income in the country as a whole, and not with respect to a particular project or operation within the country, the undertaking would be permitted to disclose the resulting income tax payment or payments without specifying a particular project associated with the payment.
- (48) An undertaking active in the extractive industry or in the logging of primary forests generally does not need to disclose dividends paid to a government as a common or ordinary shareholder of that undertaking as long as the dividend is paid to the government on the same terms as to other shareholders. However, the undertaking will be required to disclose any dividends paid in lieu of production entitlements or royalties.
- (49) In order to address the potential for circumvention of disclosure requirements, this Directive should specify that payments are to be disclosed with respect to the substance of the activity or payment concerned. Therefore, the undertaking should not be able to avoid disclosure by, for example, re-characterising an activity that would otherwise be covered by this Directive. In addition, payments or activities should not be artificially split or aggregated with a view to evading such disclosure requirements.
- (50) In order to ascertain the circumstances in which undertakings should be exempted from the reporting requirements provided for in Chapter 10, the power to adopt delegated acts in accordance with Article 290 of the TFEU should be delegated to the Commission in respect of determining the criteria to be applied when assessing whether third country reporting requirements are equivalent to the requirements of that Chapter. It is of particular importance that the Commission carry out appropriate consultations during its preparatory work, including at expert level. The Commission, when preparing and drawing up delegated acts, should ensure a simultaneous, timely and appropriate transmission of relevant documents to the European Parliament and to the Council.
- (51) In order to ensure uniform conditions for the implementation of Article 46(1), implementing powers should be conferred upon the Commission. Those powers should be exercised in accordance with Regulation (EU) No 182/2011 of the European Parliament and of the Council of 16 February 2011 laying down the rules and general principles concerning mechanisms for the control by Member States of the Commission's exercise of implementing powers⁽¹⁾.
- (52) The reporting regime should be subject to a review and a report by the Commission within three years of the expiry of the deadline for transposition of this Directive by the Member States. That review should consider the effectiveness of the regime and take into account international developments, including issues of competitiveness and energy security. The review should also consider the extension of reporting requirements to additional industry sectors and whether the report should be audited. In addition, the review should take into account the experience of preparers and users of the payments information and consider whether it would be appropriate to include additional payment information such as effective tax rates and recipient details such as bank account information.

(1) OJ L 55, 28.2.2011, p. 13.

- (53) In line with the conclusions of the G8 Summit in Deauville in May 2011 and in order to promote a level international playing field, the Commission should continue to encourage all the international partners to introduce similar requirements concerning reporting on payments to governments. Continued work on the relevant international accounting standard is particularly important in this context.
- (54) In order to take account of future changes to the laws of the Member States and to Union legislation concerning company types, the Commission should be empowered to adopt delegated acts in accordance with Article 290 of the TFEU in order to update the lists of undertakings contained in Annexes I and II. The use of delegated acts is also necessary in order to adapt the undertaking size criteria, as with the passage of time inflation will erode their real value. It is of particular importance that the Commission carry out appropriate consultations during its preparatory work, including at expert level. The Commission, when preparing and drawing up delegated acts, should ensure a simultaneous, timely and appropriate transmission of relevant documents to the European Parliament and to the Council.
- (55) Since the objectives of this Directive, namely facilitating cross-border investment and improving Union-wide comparability and public confidence in financial statements and reports through enhanced and consistent specific disclosures, cannot be sufficiently achieved by the Member States and can therefore, by reason of the scale and the effects of this Directive, be better achieved at Union level, the Union may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 of the Treaty on European Union. In accordance with the principle of proportionality, as set out in that Article, this Directive does not go beyond what is necessary in order to achieve those objectives.
- (56) This Directive replaces Directives 78/660/EEC and 83/349/EEC. Therefore, those Directives should be repealed.
- (57) This Directive respects fundamental rights and observes the principles recognised, in particular, by the Charter of Fundamental Rights of the European Union.
- (58) In accordance with the Joint Political Declaration of Member States and the Commission on explanatory documents of 28 September 2011, Member States have undertaken to accompany, in justified cases, the notification of their transposition measures with one or more documents explaining the relationship between the components of a directive and the corresponding parts

of national transposition instruments. With regard to this Directive, the legislator considers the transmission of correlation tables to be justified,

HAVE ADOPTED THIS DIRECTIVE:

CHAPTER 1

SCOPE, DEFINITIONS AND CATEGORIES OF UNDERTAKINGS AND GROUPS

Article 1

Scope

1. The coordination measures prescribed by this Directive shall apply to the laws, regulations and administrative provisions of the Member States relating to the types of undertakings listed:

- (a) in Annex I;
- (b) in Annex II, where all of the direct or indirect members of the undertaking having otherwise unlimited liability in fact have limited liability by reason of those members being undertakings which are:
 - (i) of the types listed in Annex I; or
 - (ii) not governed by the law of a Member State but which have a legal form comparable to those listed in Annex I.

2. Member States shall inform the Commission within a reasonable period of time of changes in the types of undertakings in their national law that may affect the accuracy of Annex I or Annex II. In such a case, the Commission shall be empowered to adapt, by means of delegated acts in accordance with Article 49, the lists of undertakings contained in Annexes I and II.

Article 2

Definitions

For the purposes of this Directive, the following definitions shall apply:

- (1) 'public-interest entities' means undertakings within the scope of Article 1 which are:
 - (a) governed by the law of a Member State and whose transferable securities are admitted to trading on a regulated market of any Member State within the meaning of point (14) of Article 4(1) of Directive 2004/39/EC of the European Parliament and of the Council of 21 April 2004 on markets in financial instruments ⁽¹⁾;

⁽¹⁾ OJ L 145, 30.4.2004, p. 1.

- (b) credit institutions as defined in point (1) of Article 4 of Directive 2006/48/EC of the European Parliament and of the Council of 14 June 2006 relating to the taking up and pursuit of the business of credit institutions ⁽¹⁾, other than those referred to in Article 2 of that Directive;
- (c) insurance undertakings within the meaning of Article 2(1) of Council Directive 91/674/EEC of 19 December 1991 on the annual accounts of insurance undertakings ⁽²⁾; or

- (2) 'participating interest' means rights in the capital of other undertakings, whether or not represented by certificates, which, by creating a durable link with those undertakings, are intended to contribute to the activities of the undertaking which holds those rights. The holding of part of the capital of another undertaking is presumed to constitute a participating interest where it exceeds a percentage threshold fixed by the Member States which is lower than or equal to 20 %;
- (3) 'related party' has the same meaning as in the international accounting standards adopted in accordance with Regulation (EC) No 1606/2002 of the European Parliament and of the Council of 19 July 2002 on the application of international accounting standards ⁽³⁾;
- (4) 'fixed assets' means those assets which are intended for use on a continuing basis for the undertaking's activities;
- (5) 'net turnover' means the amounts derived from the sale of products and the provision of services after deducting sales rebates and value added tax and other taxes directly linked to turnover;
- (6) 'purchase price' means the price payable and any incidental expenses minus any incidental reductions in the cost of acquisition;
- (7) 'production cost' means the purchase price of raw materials, consumables and other costs directly attributable to the item in question. Member States shall permit or require the inclusion of a reasonable proportion of fixed or variable overhead costs indirectly attributable to the
- item in question, to the extent that they relate to the period of production. Distribution costs shall not be included;
- (8) 'value adjustment' means the adjustments intended to take account of changes in the values of individual assets established at the balance sheet date, whether the change is final or not;
- (9) 'parent undertaking' means an undertaking which controls one or more subsidiary undertakings;
- (10) 'subsidiary undertaking' means an undertaking controlled by a parent undertaking, including any subsidiary undertaking of an ultimate parent undertaking;
- (11) 'group' means a parent undertaking and all its subsidiary undertakings;
- (12) 'affiliated undertakings' means any two or more undertakings within a group;
- (13) 'associated undertaking' means an undertaking in which another undertaking has a participating interest, and over whose operating and financial policies that other undertaking exercises significant influence. An undertaking is presumed to exercise a significant influence over another undertaking where it has 20 % or more of the shareholders' or members' voting rights in that other undertaking;
- (14) 'investment undertakings' means:
- (a) undertakings the sole object of which is to invest their funds in various securities, real property and other assets, with the sole aim of spreading investment risks and giving their shareholders the benefit of the results of the management of their assets,
- (b) undertakings associated with investment undertakings with fixed capital, if the sole object of those associated undertakings is to acquire fully paid shares issued by those investment undertakings without prejudice to point (h) of Article 22(1) of Directive 2012/30/EU;
- (15) 'financial holding undertakings' means undertakings the sole object of which is to acquire holdings in other undertakings and to manage such holdings and turn them to profit, without involving themselves directly or indirectly in the management of those undertakings, without prejudice to their rights as shareholders;

(16) 'material' means the status of information where its omission or misstatement could reasonably be expected to influence decisions that users make on the basis of the financial statements of the undertaking. The materiality of individual items shall be assessed in the context of other similar items.

Article 3

Categories of undertakings and groups

1. In applying one or more of the options in Article 36, Member States shall define micro-undertakings as undertakings which on their balance sheet dates do not exceed the limits of at least two of the three following criteria:

- (a) balance sheet total: EUR 350 000;
- (b) net turnover: EUR 700 000;
- (c) average number of employees during the financial year: 10.

2. Small undertakings shall be undertakings which on their balance sheet dates do not exceed the limits of at least two of the three following criteria:

- (a) balance sheet total: EUR 4 000 000;
- (b) net turnover: EUR 8 000 000;
- (c) average number of employees during the financial year: 50.

Member States may define thresholds exceeding the thresholds in points (a) and (b) of the first subparagraph. However, the thresholds shall not exceed EUR 6 000 000 for the balance sheet total and EUR 12 000 000 for the net turnover.

3. Medium-sized undertakings shall be undertakings which are not micro-undertakings or small undertakings and which on their balance sheet dates do not exceed the limits of at least two of the three following criteria:

- (a) balance sheet total: EUR 20 000 000;
- (b) net turnover: EUR 40 000 000;
- (c) average number of employees during the financial year: 250.

4. Large undertakings shall be undertakings which on their balance sheet dates exceed at least two of the three following criteria:

- (a) balance sheet total: EUR 20 000 000;
- (b) net turnover: EUR 40 000 000;
- (c) average number of employees during the financial year: 250.

5. Small groups shall be groups consisting of parent and subsidiary undertakings to be included in a consolidation and which, on a consolidated basis, do not exceed the limits of at least two of the three following criteria on the balance sheet date of the parent undertaking:

- (a) balance sheet total: EUR 4 000 000;
- (b) net turnover: EUR 8 000 000;
- (c) average number of employees during the financial year: 50.

Member States may define thresholds exceeding the thresholds in points (a) and (b) of the first subparagraph. However, the thresholds shall not exceed EUR 6 000 000 for the balance sheet total and EUR 12 000 000 for the net turnover.

6. Medium-sized groups shall be groups which are not small groups, which consist of parent and subsidiary undertakings to be included in a consolidation and which, on a consolidated basis, do not exceed the limits of at least two of the three following criteria on the balance sheet date of the parent undertaking:

- (a) balance sheet total: EUR 20 000 000;
- (b) net turnover: EUR 40 000 000;
- (c) average number of employees during the financial year: 250.

7. Large groups shall be groups consisting of parent and subsidiary undertakings to be included in a consolidation and which, on a consolidated basis, exceed the limits of at least two of the three following criteria on the balance sheet date of the parent undertaking:

- (a) balance sheet total: EUR 20 000 000;
- (b) net turnover: EUR 40 000 000;
- (c) average number of employees during the financial year: 250.

8. Member States shall permit the set-off referred to in Article 24(3) and any elimination as a consequence of Article 24(7) not to be effected when the limits in paragraphs 5 to 7 of this Article are calculated. In such cases, the limits for the balance sheet total and net turnover criteria shall be increased by 20 %.

9. In the case of those Member States which have not adopted the euro, the amount in national currency equivalent to the amounts set out in paragraphs 1 to 7 shall be that obtained by applying the exchange rate published in the *Official Journal of the European Union* as at the date of the entry into force of any Directive setting those amounts.

For the purposes of conversion into the national currencies of those Member States which have not adopted the euro, the amounts in euro specified in paragraphs 1, 3, 4, 6 and 7 may be increased or decreased by not more than 5 % in order to produce round sum amounts in the national currencies.

10. Where, on its balance sheet date, an undertaking or a group exceeds or ceases to exceed the limits of two of the three criteria set out in paragraphs 1 to 7, that fact shall affect the application of the derogations provided for in this Directive only if it occurs in two consecutive financial years.

11. The balance sheet total referred to in paragraphs 1 to 7 of this Article shall consist of the total value of the assets in A to E under 'Assets' in the layout set out in Annex III or of the assets in A to E in the layout set out in Annex IV.

12. When calculating the thresholds in paragraphs 1 to 7, Member States may require the inclusion of income from other sources for undertakings for which "net turnover" is not relevant. Member States may require parent undertakings to calculate their thresholds on a consolidated basis rather than on an individual basis. Member States may also require affiliated undertakings to calculate their thresholds on a consolidated or aggregated basis where such undertakings have been established for the sole purpose of avoiding the reporting of certain information.

13. In order to adjust for the effects of inflation, the Commission shall at least every five years review and, where appropriate, amend, by means of delegated acts in accordance with Article 49, the thresholds referred to in paragraphs 1 to 7 of this Article, taking into account measures of inflation as published in the *Official Journal of the European Union*.

CHAPTER 2

GENERAL PROVISIONS AND PRINCIPLES

Article 4

General provisions

1. The annual financial statements shall constitute a composite whole and shall for all undertakings comprise, as a minimum, the balance sheet, the profit and loss account and the notes to the financial statements.

Member States may require undertakings other than small undertakings to include other statements in the annual financial statements in addition to the documents referred to in the first subparagraph.

2. The annual financial statements shall be drawn up clearly and in accordance with the provisions of this Directive.

3. The annual financial statements shall give a true and fair view of the undertaking's assets, liabilities, financial position and profit or loss. Where the application of this Directive would not be sufficient to give a true and fair view of the undertaking's assets, liabilities, financial position and profit or loss, such additional information as is necessary to comply with that requirement shall be given in the notes to the financial statements.

4. Where in exceptional cases the application of a provision of this Directive is incompatible with the obligation laid down in paragraph 3, that provision shall be disapplied in order to give a true and fair view of the undertaking's assets, liabilities, financial position and profit or loss. The disapplication of any such provision shall be disclosed in the notes to the financial statements together with an explanation of the reasons for it and of its effect on the undertaking's assets, liabilities, financial position and profit or loss.

The Member States may define the exceptional cases in question and lay down the relevant special rules which are to apply in those cases.

5. Member States may require undertakings other than small undertakings to disclose information in their annual financial statements which is additional to that required pursuant to this Directive.

6. By way of derogation from paragraph 5, Member States may require small undertakings to prepare, disclose and publish information in the financial statements which goes beyond the requirements of this Directive, provided that any such information is gathered under a single filing system and the disclosure requirement is contained in the national tax legislation for the strict purposes of tax collection. The information required in accordance with this paragraph shall be included in the relevant part of the financial statements.

7. Member States shall communicate to the Commission any additional information they require in accordance with paragraph 6 upon the transposition of this Directive and when they introduce new requirements in accordance with paragraph 6 in national law.

8. Member States using electronic solutions for filing and publishing annual financial statements shall ensure that small undertakings are not required to publish, in accordance with Chapter 7, the additional disclosures required by national tax legislation, as referred to in paragraph 6.

Article 5

General disclosure

The document containing the financial statements shall state the name of the undertaking and the information prescribed by points (a) and (b) of Article 5 of Directive 2009/101/EC.

Article 6

General financial reporting principles

1. Items presented in the annual and consolidated financial statements shall be recognised and measured in accordance with the following general principles:

- (a) the undertaking shall be presumed to be carrying on its business as a going concern;
- (b) accounting policies and measurement bases shall be applied consistently from one financial year to the next;
- (c) recognition and measurement shall be on a prudent basis, and in particular:
 - (i) only profits made at the balance sheet date may be recognised,
 - (ii) all liabilities arising in the course of the financial year concerned or in the course of a previous financial year shall be recognised, even if such liabilities become apparent only between the balance sheet date and the date on which the balance sheet is drawn up, and
 - (iii) all negative value adjustments shall be recognised, whether the result of the financial year is a profit or a loss;
- (d) amounts recognised in the balance sheet and profit and loss account shall be computed on the accrual basis;
- (e) the opening balance sheet for each financial year shall correspond to the closing balance sheet for the preceding financial year;
- (f) the components of asset and liability items shall be valued separately;

- (g) any set-off between asset and liability items, or between income and expenditure items, shall be prohibited;
- (h) items in the profit and loss account and balance sheet shall be accounted for and presented having regard to the substance of the transaction or arrangement concerned;
- (i) items recognised in the financial statements shall be measured in accordance with the principle of purchase price or production cost; and
- (j) the requirements set out in this Directive regarding recognition, measurement, presentation, disclosure and consolidation need not be complied with when the effect of complying with them is immaterial.

2. Notwithstanding point (g) of paragraph 1, Member States may in specific cases permit or require undertakings to perform a set-off between asset and liability items, or between income and expenditure items, provided that the amounts which are set off are specified as gross amounts in the notes to the financial statements.

3. Member States may exempt undertakings from the requirements of point (h) of paragraph 1.

4. Member States may limit the scope of point (j) of paragraph 1 to presentation and disclosures.

5. In addition to those amounts recognised in accordance with point (c)(ii) of paragraph 1, Member States may permit or require the recognition of all foreseeable liabilities and potential losses arising in the course of the financial year concerned or in the course of a previous financial year, even if such liabilities or losses become apparent only between the balance sheet date and the date on which the balance sheet is drawn up.

Article 7

Alternative measurement basis of fixed assets at revalued amounts

1. By way of derogation from point (i) of Article 6(1), Member States may permit or require, in respect of all undertakings or any classes of undertaking, the measurement of fixed assets at revalued amounts. Where national law provides for the revaluation basis of measurement, it shall define its content and limits and the rules for its application.

2. Where paragraph 1 is applied, the amount of the difference between measurement on a purchase price or production cost basis and measurement on a revaluation basis shall be entered in the balance sheet in the revaluation reserve under 'Capital and reserves'.

The revaluation reserve may be capitalised in whole or in part at any time.

The revaluation reserve shall be reduced where the amounts transferred to that reserve are no longer necessary for the implementation of the revaluation basis of accounting. The Member States may lay down rules governing the application of the revaluation reserve, provided that transfers to the profit and loss account from the revaluation reserve may be made only where the amounts transferred have been entered as an expense in the profit and loss account or reflect increases in value which have actually been realised. No part of the revaluation reserve may be distributed, either directly or indirectly, unless it represents a gain actually realised.

Save as provided under the second and third subparagraphs of this paragraph, the revaluation reserve may not be reduced.

3. Value adjustments shall be calculated each year on the basis of the revalued amount. However, by way of derogation from Articles 9 and 13, Member States may permit or require that only the amount of the value adjustments arising as a result of the purchase price or production cost measurement basis be shown under the relevant items in the layouts set out in Annexes V and VI and that the difference arising as a result of the measurement on a revaluation basis under this Article be shown separately in the layouts.

Article 8

Alternative measurement basis of fair value

1. By way of derogation from point (i) of Article 6(1) and subject to the conditions set out in this Article:

- (a) Member States shall permit or require, in respect of all undertakings or any classes of undertaking, the measurement of financial instruments, including derivative financial instruments, at fair value; and
- (b) Member States may permit or require, in respect of all undertakings or any classes of undertaking, the measurement of specified categories of assets other than financial instruments at amounts determined by reference to fair value.

Such permission or requirement may be restricted to consolidated financial statements.

2. For the purpose of this Directive, commodity-based contracts that give either contracting party the right to settle in cash or some other financial instrument shall be considered to be derivative financial instruments, except where such contracts:

- (a) were entered into and continue to meet the undertaking's expected purchase, sale or usage requirements at the time they were entered into and subsequently;
- (b) were designated as commodity-based contracts at their inception; and
- (c) are expected to be settled by delivery of the commodity.

3. Point (a) of paragraph 1 shall apply only to the following liabilities:

- (a) liabilities held as part of a trading portfolio; and
- (b) derivative financial instruments.

4. Measurement according to point (a) of paragraph 1 shall not apply to the following:

- (a) non-derivative financial instruments held to maturity;
- (b) loans and receivables originated by the undertaking and not held for trading purposes; and
- (c) interests in subsidiaries, associated undertakings and joint ventures, equity instruments issued by the undertaking, contracts for contingent consideration in a business combination, and other financial instruments with such special characteristics that the instruments, according to what is generally accepted, are accounted for differently from other financial instruments.

5. By way of derogation from point (i) of Article 6(1), Member States may, in respect of any assets and liabilities which qualify as hedged items under a fair value hedge accounting system, or identified portions of such assets or liabilities, permit measurement at the specific amount required under that system.

6. By way of derogation from paragraphs 3 and 4, Member States may permit or require the recognition, measurement and disclosure of financial instruments in conformity with international accounting standards adopted in accordance with Regulation (EC) No 1606/2002.

7. The fair value within the meaning of this Article shall be determined by reference to one of the following values:

- (a) in the case of financial instruments for which a reliable market can readily be identified, the market value. Where the market value is not readily identifiable for an instrument but can be identified for its components or for a similar instrument, the market value may be derived from that of its components or of the similar instrument;

(b) in the case of financial instruments for which a reliable market cannot be readily identified, a value resulting from generally accepted valuation models and techniques, provided that such valuation models and techniques ensure a reasonable approximation of the market value.

Financial instruments that cannot be measured reliably by any of the methods described in points (a) and (b) of the first subparagraph shall be measured in accordance with the principle of purchase price or production cost in so far as measurement on that basis is possible.

8. Notwithstanding point (c) of Article 6(1), where a financial instrument is measured at fair value, a change in value shall be included in the profit and loss account, except in the following cases, where such a change shall be included directly in a fair value reserve:

- (a) the instrument accounted for is a hedging instrument under a system of hedge accounting that allows some or all of the change in value not to be shown in the profit and loss account; or
- (b) the change in value relates to an exchange difference arising on a monetary item that forms part of an undertaking's net investment in a foreign entity.

Member States may permit or require a change in the value of an available for sale financial asset, other than a derivative financial instrument, to be included directly in a fair value reserve. That fair value reserve shall be adjusted when amounts shown therein are no longer necessary for the implementation of points (a) and (b) of the first subparagraph.

9. Notwithstanding point (c) of Article 6(1), Member States may permit or require, in respect of all undertakings or any classes of undertaking, that, where assets other than financial instruments are measured at fair value, a change in the value be included in the profit and loss account.

CHAPTER 3

BALANCE SHEET AND PROFIT AND LOSS ACCOUNT

Article 9

General provisions concerning the balance sheet and the profit and loss account

1. The layout of the balance sheet and of the profit and loss account shall not be changed from one financial year to the next. Departures from that principle shall, however, be

permitted in exceptional cases in order to give a true and fair view of the undertaking's assets, liabilities, financial position and profit or loss. Any such departure and the reasons therefor shall be disclosed in the notes to the financial statements.

2. In the balance sheet and in the profit and loss account the items set out in Annexes III to VI shall be shown separately in the order indicated. Member States shall permit a more detailed subdivision of those items, subject to adherence to the prescribed layouts. Member States shall permit the addition of subtotals and of new items, provided that the contents of such new items are not covered by any of the items in the prescribed layouts. Member States may require such subdivision or subtotals or new items.

3. The layout, nomenclature and terminology of items in the balance sheet and profit and loss account that are preceded by arabic numerals shall be adapted where the special nature of an undertaking so requires. Member States may require such adaptations for undertakings which form part of a particular economic sector.

Member States may permit or require balance sheet and profit and loss account items that are preceded by arabic numerals to be combined where they are immaterial in amount for the purposes of giving a true and fair view of the undertaking's assets, liabilities, financial position and profit or loss or where such combination makes for greater clarity, provided that the items so combined are dealt with separately in the notes to the financial statements.

4. By way of derogation from paragraphs 2 and 3 of this Article, Member States may limit the undertaking's ability to depart from the layouts set out in Annexes III to VI to the extent that this is necessary in order for the financial statements to be filed electronically.

5. In respect of each balance sheet and profit and loss account item, the figure for the financial year to which the balance sheet and the profit and loss account relate and the figure relating to the corresponding item for the preceding financial year shall be shown. Where those figures are not comparable, Member States may require the figure for the preceding financial year to be adjusted. Any case of non-comparability or any adjustment of the figures shall be disclosed, with explanations, in the notes to the financial statements.

6. Member States may permit or require adaptation of the layout of the balance sheet and profit and loss account in order to include the appropriation of profit or the treatment of loss.

7. In respect of the treatment of participating interests in annual financial statements:

- (a) Member States may permit or require participating interests to be accounted for using the equity method as provided for in Article 27, taking account of the essential adjustments resulting from the particular characteristics of annual financial statements as compared to consolidated financial statements;
- (b) Member States may permit or require that the proportion of the profit or loss attributable to the participating interest be recognised in the profit and loss account only to the extent of the amount corresponding to dividends already received or the payment of which can be claimed; and
- (c) where the profit attributable to the participating interest and recognised in the profit and loss account exceeds the amount of dividends already received or the payment of which can be claimed, the amount of the difference shall be placed in a reserve which cannot be distributed to shareholders.

Article 10

Presentation of the balance sheet

For the presentation of the balance sheet, Member States shall prescribe one or both of the layouts set out in Annexes III and IV. If a Member State prescribes both layouts, it shall permit undertakings to choose which of the prescribed layouts to adopt.

Article 11

Alternative presentation of the balance sheet

Member States may permit or require undertakings, or certain classes of undertaking, to present items on the basis of a distinction between current and non-current items in a different layout from that set out in Annexes III and IV, provided that the information given is at least equivalent to that otherwise to be provided in accordance with Annexes III and IV.

Article 12

Special provisions relating to certain balance sheet items

- 1. Where an asset or liability relates to more than one layout item, its relationship to other items shall be disclosed either under the item where it appears or in the notes to the financial statements.
- 2. Own shares and shares in affiliated undertakings shall be shown only under the items prescribed for that purpose.
- 3. Whether particular assets are to be shown as fixed assets or current assets shall depend upon the purpose for which they are intended.

4. Rights to immovables and other similar rights as defined by national law shall be shown under 'Land and buildings'.

5. The purchase price or production cost or revalued amount, where Article 7(1) applies, of fixed assets with limited useful economic lives shall be reduced by value adjustments calculated to write off the value of such assets systematically over their useful economic lives.

6. Value adjustments to fixed assets shall be subject to the following:

- (a) Member States may permit or require value adjustments to be made in respect of financial fixed assets, so that they are valued at the lower figure to be attributed to them at the balance sheet date;
- (b) value adjustments shall be made in respect of fixed assets, whether their useful economic lives are limited or not, so that they are valued at the lower figure to be attributed to them at the balance sheet date if it is expected that the reduction in their value will be permanent;
- (c) the value adjustments referred to in points (a) and (b) shall be charged to the profit and loss account and disclosed separately in the notes to the financial statements if they have not been shown separately in the profit and loss account;
- (d) measurement at the lower of the values provided for in points (a) and (b) may not continue if the reasons for which the value adjustments were made have ceased to apply; this provision shall not apply to value adjustments made in respect of goodwill.

7. Value adjustments shall be made in respect of current assets with a view to showing them at the lower market value or, in particular circumstances, another lower value to be attributed to them at the balance sheet date.

Measurement at the lower value provided for in the first subparagraph may not continue if the reasons for which the value adjustments were made no longer apply.

8. Member States may permit or require that interest on capital borrowed to finance the production of fixed or current assets be included within production costs, to the extent that it relates to the period of production. Any application of this provision shall be disclosed in the notes to the financial statements.

9. Member States may permit the purchase price or production cost of stocks of goods of the same category and all fungible items including investments to be calculated either on the basis of weighted average prices, on the basis of the 'first in, first out' (FIFO) method, the 'last in, first out' (LIFO) method, or a method reflecting generally accepted best practice.

10. Where the amount repayable on account of any debt is greater than the amount received, Member States may permit or require that the difference be shown as an asset. It shall be shown separately in the balance sheet or in the notes to the financial statements. The amount of that difference shall be written off by a reasonable amount each year and completely written off no later than at the time of repayment of the debt.

11. Intangible assets shall be written off over the useful economic life of the intangible asset.

In exceptional cases where the useful life of goodwill and development costs cannot be reliably estimated, such assets shall be written off within a maximum period set by the Member State. That maximum period shall not be shorter than five years and shall not exceed 10 years. An explanation of the period over which goodwill is written off shall be provided within the notes to the financial statements.

Where national law authorises the inclusion of costs of development under 'Assets' and the costs of development have not been completely written off, Member States shall require that no distribution of profits take place unless the amount of the reserves available for distribution and profits brought forward is at least equal to that of the costs not written off.

Where national law authorises the inclusion of formation expenses under 'Assets', they shall be written off within a period of maximum five years. In that case, Member States shall require that the third subparagraph apply *mutatis mutandis* to formation expenses.

In exceptional cases, the Member States may permit derogations from the third and fourth subparagraphs. Such derogations and the reasons therefor shall be disclosed in the notes to the financial statements.

12. Provisions shall cover liabilities the nature of which is clearly defined and which at the balance sheet date are either likely to be incurred or certain to be incurred, but uncertain as to their amount or as to the date on which they will arise.

The Member States may also authorise the creation of provisions intended to cover expenses the nature of which is

clearly defined and which at the balance sheet date are either likely to be incurred or certain to be incurred, but uncertain as to their amount or as to the date on which they will arise.

At the balance sheet date, a provision shall represent the best estimate of the expenses likely to be incurred or, in the case of a liability, of the amount required to meet that liability. Provisions shall not be used to adjust the values of assets.

Article 13

Presentation of the profit and loss account

1. For the presentation of the profit and loss account, Member States shall prescribe one or both of the layouts set out in Annexes V and VI. If a Member State prescribes both layouts, it may permit undertakings to choose which of the prescribed layouts to adopt.

2. By way of derogation from Article 4(1), Member States may permit or require all undertakings, or any classes of undertaking, to present a statement of their performance instead of the presentation of profit and loss items in accordance with Annexes V and VI, provided that the information given is at least equivalent to that otherwise required by Annexes V and VI.

Article 14

Simplifications for small and medium-sized undertakings

1. Member States may permit small undertakings to draw up abridged balance sheets showing only those items in Annexes III and IV preceded by letters and roman numerals, disclosing separately:

(a) the information required in brackets in D (II) under 'Assets' and C under 'Capital, reserves and liabilities' of Annex III, but in the aggregate for each; or

(b) the information required in brackets in D (II) of Annex IV.

2. Member States may permit small and medium-sized undertakings to draw up abridged profit and loss accounts within the following limits:

(a) in Annex V, items 1 to 5 may be combined under one item called 'Gross profit or loss';

(b) in Annex VI, items 1, 2, 3 and 6 may be combined under one item called 'Gross profit or loss'.

CHAPTER 4

For the purposes of applying the first subparagraph, the information required in point (p) of Article 17(1) shall be limited to the nature and business purpose of the arrangements referred to in that point.

For the purposes of applying the first subparagraph, the disclosure of the information required in point (r) of Article 17(1) shall be limited to transactions entered into with the parties listed in the fourth subparagraph of that point.

CHAPTER 6

CONSOLIDATED FINANCIAL STATEMENTS AND REPORTS

Article 21

Scope of the consolidated financial statements and reports

For the purposes of this Chapter, a parent undertaking and all of its subsidiary undertakings shall be undertakings to be consolidated where the parent undertaking is an undertaking to which the coordination measures prescribed by this Directive apply by virtue of Article 1(1).

Article 22

The requirement to prepare consolidated financial statements

1. A Member State shall require any undertaking governed by its national law to draw up consolidated financial statements and a consolidated management report if that undertaking (a parent undertaking):

- (a) has a majority of the shareholders' or members' voting rights in another undertaking (a subsidiary undertaking);
- (b) has the right to appoint or remove a majority of the members of the administrative, management or supervisory body of another undertaking (a subsidiary undertaking) and is at the same time a shareholder in or member of that undertaking;

⁽¹⁾ OJ L 142, 30.4.2004, p. 12.

(c) has the right to exercise a dominant influence over an undertaking (a subsidiary undertaking) of which it is a shareholder or member, pursuant to a contract entered into with that undertaking or to a provision in its memorandum or articles of association, where the law governing that subsidiary undertaking permits its being subject to such contracts or provisions.

A Member State need not prescribe that a parent undertaking must be a shareholder in or member of its subsidiary undertaking. Those Member States the laws of which do not provide for such contracts or clauses shall not be required to apply this provision; or

(d) is a shareholder in or member of an undertaking, and:

- (i) a majority of the members of the administrative, management or supervisory bodies of that undertaking (a subsidiary undertaking) who have held office during the financial year, during the preceding financial year and up to the time when the consolidated financial statements are drawn up, have been appointed solely as a result of the exercise of its voting rights; or
- (ii) controls alone, pursuant to an agreement with other shareholders in or members of that undertaking (a subsidiary undertaking), a majority of shareholders' or members' voting rights in that undertaking. The Member States may introduce more detailed provisions concerning the form and contents of such agreements.

Member States shall prescribe at least the arrangements referred to in point (ii). They may subject the application of point (i) to the requirement that the voting rights represent at least 20 % of the total.

However, point (i) shall not apply where a third party has the rights referred to in points (a), (b) or (c) with regard to that undertaking.

2. In addition to the cases mentioned in paragraph 1, Member States may require any undertaking governed by their national law to draw up consolidated financial statements and a consolidated management report if:

- (a) that undertaking (a parent undertaking) has the power to exercise, or actually exercises, dominant influence or control over another undertaking (the subsidiary undertaking); or
- (b) that undertaking (a parent undertaking) and another undertaking (the subsidiary undertaking) are managed on a unified basis by the parent undertaking.

3. For the purposes of points (a), (b) and (d) of paragraph 1, the voting rights and the rights of appointment and removal of any other subsidiary undertaking as well as those of any person acting in his own name but on behalf of the parent undertaking or of another subsidiary undertaking shall be added to those of the parent undertaking.

4. For the purposes of points (a), (b) and (d) of paragraph 1, the rights mentioned in paragraph 3 shall be reduced by the rights:

(a) attaching to shares held on behalf of a person who is neither the parent undertaking nor a subsidiary of that parent undertaking; or

(b) attaching to shares:

(i) held by way of security, provided that the rights in question are exercised in accordance with the instructions received, or

(ii) held in connection with the granting of loans as part of normal business activities, provided that the voting rights are exercised in the interests of the person providing the security.

5. For the purposes of points (a) and (d) of paragraph 1, the total of the shareholders' or members' voting rights in the subsidiary undertaking shall be reduced by the voting rights attaching to the shares held by that undertaking itself, by a subsidiary undertaking of that undertaking or by a person acting in his own name but on behalf of those undertakings.

6. Without prejudice to Article 23(9), a parent undertaking and all of its subsidiary undertakings shall be consolidated regardless of where the registered offices of such subsidiary undertakings are situated.

7. Without prejudice to this Article and Articles 21 and 23, a Member State may require any undertaking governed by its national law to draw up consolidated financial statements and a consolidated management report if:

(a) that undertaking and one or more other undertakings to which it is not related as described in paragraphs 1 or 2, are managed on a unified basis in accordance with:

(i) a contract concluded with that undertaking, or

(ii) the memorandum or articles of association of those other undertakings; or

(b) the administrative, management or supervisory bodies of that undertaking and of one or more other undertakings to which it is not related, as described in paragraphs 1 or 2, consist in the majority of the same persons in office during the financial year and until the consolidated financial statements are drawn up.

8. Where the Member State option referred to in paragraph 7 is exercised, the undertakings described in that paragraph and all of their subsidiary undertakings shall be consolidated, where one or more of those undertakings is established as one of the types of undertaking listed in Annex I or Annex II.

9. Paragraph 6 of this Article, Article 23(1), (2), (9) and (10) and Articles 24 to 29 shall apply to the consolidated financial statements and the consolidated management report referred to in paragraph 7 of this Article, subject to the following modifications:

- (b) without prejudice to Article 24(3), the items 'capital', 'share premium account', 'revaluation reserve', 'reserves', 'profit or loss brought forward', and 'profit or loss for the financial year' to be included in the consolidated financial statements shall be the aggregate amounts attributable to each of the undertakings specified in paragraph 7 of this Article.

Article 23

1. Small groups shall be exempted from the obligation to draw up consolidated financial statements and a consolidated management report, except where any affiliated undertaking is a public-interest entity.

2. Member States may exempt medium-sized groups from the obligation to draw up consolidated financial statements and a consolidated management report, except where any affiliated undertaking is a public-interest entity.

3. Notwithstanding paragraphs 1 and 2 of this Article, a Member State shall, in the following cases, exempt from the obligation to draw up consolidated financial statements and a consolidated management report any parent undertaking (the exempted undertaking) governed by its national law which is also a subsidiary undertaking, including a public-interest entity unless that public-interest entity falls under point (1)(a) of Article 2, the own parent undertaking of which is governed by the law of a Member State and:

- (a) the parent undertaking of the exempted undertaking holds all of the shares in the exempted undertaking. The shares in

the exempted undertaking held by members of its administrative, management or supervisory bodies pursuant to a legal obligation or an obligation in its memorandum or articles of association shall be ignored for this purpose; or

- (c) in relation to the exempted undertaking the following documents are published in the manner prescribed by the law of the Member State by which that exempted undertaking is governed, in accordance with Article 30:
 - (i) the consolidated financial statements referred to in point (a) and the consolidated management report referred to in point (b),

That Member State may require that the documents referred to in points (i), (ii) and (iii) be published in its official language and that the translation be certified;

- (d) the notes to the annual financial statements of the exempted undertaking disclose the following:
 - (i) the name and registered office of the parent undertaking that draws up the consolidated financial statements referred to in point (a), and

5. In cases not covered by paragraph 3, a Member State may, without prejudice to paragraphs 1, 2 and 3 of this Article, exempt from the obligation to draw up consolidated financial statements and a consolidated management report any parent undertaking (the exempted undertaking) governed by its national law which is also a subsidiary undertaking, including a public-interest entity unless that public-interest entity falls under point (1)(a) of Article 2, the parent undertaking of which is governed by the law of a Member State, provided that all the conditions set out in paragraph 4 are fulfilled and provided further:

- (a) that the shareholders in or members of the exempted undertaking who own a minimum proportion of the subscribed capital of that undertaking have not requested the preparation of consolidated financial statements at least six months before the end of the financial year;
- (b) that the minimum proportion referred to in point (a) does not exceed the following limits:
 - (i) 10 % of the subscribed capital in the case of public limited liability companies and limited partnerships with share capital; and

 - (i) the condition that the parent undertaking, which prepared the consolidated financial statements referred to in point (a) of paragraph 4, is governed by the national law of the Member State granting the exemption, or
 - (ii) conditions relating to the preparation and auditing of those financial statements.

6. A Member State may make the exemptions provided for in paragraphs 3 and 5 subject to the disclosure of additional information, in accordance with this Directive, in the consolidated financial statements referred to in point (a) of paragraph 4, or in an appendix thereto, if that information is required of undertakings governed by the national law of that Member State which are obliged to prepare consolidated financial statements and are in the same circumstances.

7. Paragraphs 3 to 6 shall apply without prejudice to Member State legislation on the drawing-up of consolidated financial statements or consolidated management reports in so far as those documents are required:

- (a) for the information of employees or their representatives; or
- (b) by an administrative or judicial authority for its own purposes.

8. Without prejudice to paragraphs 1, 2, 3 and 5 of this Article, a Member State which provides for exemptions under paragraphs 3 and 5 of this Article may also exempt from the obligation to draw up consolidated financial statements and a consolidated management report any parent undertaking (the exempted undertaking) governed by its national law which is also a subsidiary undertaking, including a public-interest entity unless that public-interest entity falls under point (1)(a) of Article 2, the parent undertaking of which is not governed by the law of a Member State, if all of the following conditions are fulfilled:

- (c) the consolidated financial statements referred to in point (a) have been audited by one or more statutory auditor(s) or audit firm(s) authorised to audit financial statements under the national law governing the undertaking which drew up those statements.

⁽¹⁾ OJ L 340, 22.12.2007, p. 66.

Points (c) and (d) of paragraph 4 and paragraphs 5, 6 and 7 shall apply.

9. An undertaking, including a public-interest entity, need not be included in consolidated financial statements where at least one of the following conditions is fulfilled:

- (a) in extremely rare cases where the information necessary for the preparation of consolidated financial statements in accordance with this Directive cannot be obtained without disproportionate expense or undue delay;
- (b) the shares of that undertaking are held exclusively with a view to their subsequent resale; or

10. Without prejudice to point (b) of Article 6(1), Article 21 and paragraphs 1 and 2 of this Article, any parent undertaking, including a public-interest entity, shall be exempted from the obligation imposed in Article 22 if:

- (a) it only has subsidiary undertakings which are immaterial, both individually and collectively; or
- (b) all its subsidiary undertakings can be excluded from consolidation by virtue of paragraph 9 of this Article.

Article 24

The preparation of consolidated financial statements

1. Chapters 2 and 3 shall apply in respect of consolidated financial statements, taking into account the essential adjustments resulting from the particular characteristics of consolidated financial statements as compared to annual financial statements.

2. The assets and liabilities of undertakings included in a consolidation shall be incorporated in full in the consolidated balance sheet.

3. The book values of shares in the capital of undertakings included in a consolidation shall be set off against the proportion which they represent of the capital and reserves of those undertakings in accordance with the following:

- (a) except in the case of shares in the capital of the parent undertaking held either by that undertaking itself or by another undertaking included in the consolidation, which shall be treated as own shares in accordance with Chapter 3, that set-off shall be effected on the basis of book values as they stand on the date on which those undertakings are included in a consolidation for the first time. Differences arising from that set-off shall, as far as possible, be entered directly against those items in the consolidated balance sheet which have values above or below their book values;
- (b) a Member State may permit or require set-offs on the basis of the values of identifiable assets and liabilities as at the date of acquisition of the shares or, in the event of acquisition in two or more stages, as at the date on which the undertaking became a subsidiary;
- (c) any difference remaining after the application of point (a) or resulting from the application of point (b) shall be shown as goodwill in the consolidated balance sheet;
- (d) the methods used to calculate the value of goodwill and any significant changes in value in relation to the preceding financial year shall be explained in the notes to the financial statements;
- (e) where the offsetting of positive and negative goodwill is authorised by a Member State, the notes to the financial statements shall include an analysis of the goodwill;
- (f) negative goodwill may be transferred to the consolidated profit and loss account where such a treatment is in accordance with the principles set out in Chapter 2.

4. Where shares in subsidiary undertakings included in the consolidation are held by persons other than those undertakings, the amount attributable to those shares shall be shown separately in the consolidated balance sheet as non-controlling interests.

5. The income and expenditure of undertakings included in a consolidation shall be incorporated in full in the consolidated profit and loss account.

6. The amount of any profit or loss attributable to the shares referred to in paragraph 4 shall be shown separately in the consolidated profit and loss account as the profit or loss attributable to non-controlling interests.

7. Consolidated financial statements shall show the assets, liabilities, financial positions, profits or losses of the undertakings included in a consolidation as if they were a single undertaking. In particular, the following shall be eliminated from the consolidated financial statements:

- (a) debts and claims between the undertakings;
- (b) income and expenditure relating to transactions between the undertakings; and
- (c) profits and losses resulting from transactions between the undertakings, where they are included in the book values of assets.

8. Consolidated financial statements shall be drawn up as at the same date as the annual financial statements of the parent undertaking.

A Member State may, however, permit or require consolidated financial statements to be drawn up as at another date in order to take account of the balance sheet dates of the largest number or the most important of the undertakings included in the consolidation, provided that:

- (a) that fact shall be disclosed in the notes to the consolidated financial statements and reasons given;
- (b) account shall be taken, or disclosure made, of important events concerning the assets and liabilities, the financial position and the profit or loss of an undertaking included in a consolidation which have occurred between that undertaking's balance sheet date and the consolidated balance sheet date; and
- (c) where an undertaking's balance sheet date precedes or follows the consolidated balance sheet date by more than three months, that undertaking shall be consolidated on the basis of interim financial statements drawn up as at the consolidated balance sheet date.

9. If the composition of the undertakings included in a consolidation has changed significantly in the course of a financial year, the consolidated financial statements shall include information which makes the comparison of successive sets of consolidated financial statements meaningful. This obligation may be fulfilled by the preparation of an adjusted comparative balance sheet and an adjusted comparative profit and loss account.

10. Assets and liabilities included in consolidated financial statements shall be measured on a uniform basis and in accordance with Chapter 2.

11. An undertaking which draws up consolidated financial statements shall apply the same measurement bases as are applied in its annual financial statements. However, Member States may permit or require that other measurement bases in accordance with Chapter 2 be used in consolidated financial statements. Where use is made of this derogation, that fact shall be disclosed in the notes to the consolidated financial statements and reasons given.

12. Where assets and liabilities included in consolidated financial statements have been measured by undertakings included in the consolidation using bases differing from those used for the purposes of the consolidation, those assets and liabilities shall be re-measured in accordance with the bases used for the consolidation. Departures from this requirement shall be permitted in exceptional cases. Any such departures shall be disclosed in the notes to the consolidated financial statements and reasons given.

13. Deferred tax balances shall be recognised on consolidation provided that it is probable that a charge to tax will arise within the foreseeable future for one of the undertakings included in the consolidation.

14. Where assets included in consolidated financial statements have been the subject of value adjustments solely for tax purposes, they shall be incorporated in the consolidated financial statements only after those adjustments have been eliminated.

Article 25

Business combinations within a group

1. A Member State may permit or require the book values of shares held in the capital of an undertaking included in the consolidation to be set off against the corresponding percentage of capital only, provided that the undertakings in the business combination are ultimately controlled by the same party both before and after the business combination, and that control is not transitory.

2. Any difference arising under paragraph 1 shall be added to or deducted from consolidated reserves, as appropriate.

3. The application of the method described in paragraph 1, the resulting movement in reserves and the names and registered offices of the undertakings concerned shall be disclosed in the notes to the consolidated financial statements.

Article 26

Proportional consolidation

1. Where an undertaking included in a consolidation manages another undertaking jointly with one or more undertakings not included in that consolidation, Member States may permit or require the inclusion of that other undertaking in the consolidated financial statements in proportion to the rights in its capital held by the undertaking included in the consolidation.

2. Article 23(9) and (10) and Article 24 shall apply *mutatis mutandis* to the proportional consolidation referred to in paragraph 1 of this Article.

Article 27

Equity accounting of associated undertakings

1. Where an undertaking included in a consolidation has an associated undertaking, that associated undertaking shall be shown in the consolidated balance sheet as a separate item with an appropriate heading.

2. When this Article is applied for the first time to an associated undertaking, that associated undertaking shall be shown in the consolidated balance sheet either:

(a) at its book value calculated in accordance with the measurement rules laid down in Chapters 2 and 3. The difference between that value and the amount corresponding to the proportion of capital and reserves represented by the participating interest in that associated undertaking shall be disclosed separately in the consolidated balance sheet or in the notes to the consolidated financial statements. That difference shall be calculated as at the date on which that method is used for the first time; or

(b) at an amount corresponding to the proportion of the associated undertaking's capital and reserves represented by the participating interest in that associated undertaking. The difference between that amount and the book value calculated in accordance with the measurement rules laid down in Chapters 2 and 3 shall be disclosed separately in the consolidated balance sheet or in the notes to the consolidated financial statements. That difference shall be calculated as at the date on which that method is used for the first time.

A Member State may prescribe the application of one or other of the options provided for in points (a) and (b). In such cases, the consolidated balance sheet or the notes to the consolidated financial statements shall indicate which of those options has been used.

In addition, for the purposes of points (a) and (b), a Member State may permit or require the calculation of the difference as at the date of acquisition of the shares or, where they were acquired in two or more stages, as at the date on which the undertaking became an associated undertaking.

3. Where an associated undertaking's assets or liabilities have been valued by methods other than those used for consolidation in accordance with Article 24(11), they may, for the purpose of calculating the difference referred to in points (a) and (b) of paragraph 2, be revalued by the methods used for consolidation. Where such revaluation has not been carried

out, that fact shall be disclosed in the notes to the consolidated financial statements. A Member State may require such revaluation.

4. The book value referred to in point (a) of paragraph 2, or the amount corresponding to the proportion of the associated undertaking's capital and reserves referred to in point (b) of paragraph 2, shall be increased or reduced by the amount of any variation which has taken place during the financial year in the proportion of the associated undertaking's capital and reserves represented by that participating interest; it shall be reduced by the amount of the dividends relating to that participating interest.

5. In so far as the positive difference referred to in points (a) and (b) of paragraph 2 cannot be related to any category of assets or liabilities, it shall be treated in accordance with the rules applicable to the item 'goodwill' as set out in point (d) of Article 12(6), the first subparagraph of Article 12(11), point (c) of Article 24(3), and Annex III and Annex IV.

6. The proportion of the profit or loss of the associated undertakings attributable to the participating interests in such associated undertakings shall be shown in the consolidated profit and loss account as a separate item under an appropriate heading.

7. The eliminations referred to in Article 24(7) shall be effected in so far as the facts are known or can be ascertained.

8. Where an associated undertaking draws up consolidated financial statements, paragraphs 1 to 7 shall apply to the capital and reserves shown in such consolidated financial statements.

9. This Article need not be applied where the participating interest in the capital of the associated undertaking is not material.

Article 28

The notes to the consolidated financial statements

1. The notes to the consolidated financial statements shall set out the information required by Articles 16, 17 and 18, in addition to any other information required under other provisions of this Directive, in a way which facilitates the assessment of the financial position of the undertakings included in the consolidation taken as a whole, taking account of the essential adjustments resulting from the particular characteristics of consolidated financial statements as compared to annual financial statements, including the following:

(a) in disclosing transactions between related parties, transactions between related parties included in a consolidation that are eliminated on consolidation shall not be included;

- (b) in disclosing the average number of employees employed during the financial year, there shall be separate disclosure of the average number of employees employed by undertakings that are proportionately consolidated; and
- (c) in disclosing the amounts of emoluments and advances and credits granted to members of the administrative, managerial and supervisory bodies, only amounts granted by the parent undertaking and its subsidiary undertakings to members of the administrative, managerial and supervisory bodies of the parent undertaking shall be disclosed.

2. The notes to the consolidated financial statements shall, in addition to the information required under paragraph 1, set out the following information:

- (a) in relation to undertakings included in the consolidation:
- (i) the names and registered offices of those undertakings,
 - (ii) the proportion of the capital held in those undertakings, other than the parent undertaking, by the undertakings included in the consolidation or by persons acting in their own names but on behalf of those undertakings, and
 - (iii) information as to which of the conditions referred to in Article 22(1), (2) and (7) following the application of Article 22(3), (4) and (5) has formed the basis on which the consolidation has been carried out. That disclosure may, however, be omitted where consolidation has been carried out on the basis of point (a) of Article 22(1) and where the proportion of the capital and the proportion of the voting rights held are the same.

The same information shall be given in respect of undertakings excluded from a consolidation on the grounds of immateriality pursuant to point (j) of Article 6(1) and Article 23(10), and an explanation shall be given for the exclusion of the undertakings referred to in Article 23(9);

- (b) the names and registered offices of associated undertakings included in the consolidation as described in Article 27(1) and the proportion of their capital held by undertakings included in the consolidation or by persons acting in their own names but on behalf of those undertakings;
- (c) the names and registered offices of undertakings proportionately consolidated under Article 26, the factors on which joint management of those undertakings is based,

and the proportion of their capital held by the undertakings included in the consolidation or by persons acting in their own names but on behalf of those undertakings; and

- (d) in relation to each of the undertakings, other than those referred to in points (a), (b) and (c), in which undertakings included in the consolidation, either themselves or through persons acting in their own names but on behalf of those undertakings, hold a participating interest:
- (i) the name and registered office of those undertakings,
 - (ii) the proportion of the capital held,
 - (iii) the amount of the capital and reserves, and the profit or loss for the latest financial year of the undertaking concerned for which financial statements have been adopted.

The information concerning capital and reserves and the profit or loss may also be omitted where the undertaking concerned does not publish its balance sheet.

3. Member States may allow the information required by points (a) to (d) of paragraph 2 to take the form of a statement filed in accordance with Article 3(3) of Directive 2009/101/EC. The filing of such a statement shall be disclosed in the notes to the consolidated financial statements. Member States may also allow that information to be omitted when its nature is such that its disclosure would be seriously prejudicial to any of the undertakings to which it relates. Member States may make such omissions subject to prior administrative or judicial authorisation. Any such omission shall be disclosed in the notes to the consolidated financial statements.

Article 29

The consolidated management report

1. The consolidated management report shall, as a minimum, in addition to any other information required under other provisions of this Directive, set out the information required by Articles 19 and 20, taking account of the essential adjustments resulting from the particular characteristics of a consolidated management report as compared to a management report in a way which facilitates the assessment of the position of the undertakings included in the consolidation taken as a whole.

2. The following adjustments to the information required by Articles 19 and 20 shall apply:

- (a) in reporting details of own shares acquired, the consolidated management report shall indicate the number and nominal value or, in the absence of a nominal value, the accounting par value of all of the parent undertaking's shares held by

that parent undertaking, by subsidiary undertakings of that parent undertaking or by a person acting in his own name but on behalf of any of those undertakings. A Member State may permit or require the disclosure of those particulars in the notes to the consolidated financial statements;

(b) in reporting on internal control and risk management systems, the corporate governance statement shall refer to the main features of the internal controls and risk management systems for the undertakings included in the consolidation, taken as a whole.

3. Where a consolidated management report is required in addition to the management report, the two reports may be presented as a single report.

CHAPTER 7

PUBLICATION

Article 30

General publication requirement

1. Member States shall ensure that undertakings publish within a reasonable period of time, which shall not exceed 12 months after the balance sheet date, the duly approved annual financial statements and the management report, together with the opinion submitted by the statutory auditor or audit firm referred to in Article 34 of this Directive, as laid down by the laws of each Member State in accordance with Chapter 2 of Directive 2009/101/EC.

Member States may, however, exempt undertakings from the obligation to publish the management report where a copy of all or part of any such report can be easily obtained upon request at a price not exceeding its administrative cost.

2. Member States may exempt an undertaking referred to in Annex II to which the coordination measures prescribed by this Directive apply by virtue of point (b) of Article 1(1) from publishing its financial statements in accordance with Article 3 of Directive 2009/101/EC, provided that those financial statements are available to the public at its head office, in the following cases:

(a) all the members of the undertaking concerned that have unlimited liability are undertakings referred to in Annex I governed by the laws of Member States other than the Member State whose law governs that undertaking, and none of those undertakings publishes the financial statements of the undertaking concerned with its own financial statements;

(b) all the members of the undertaking concerned that have unlimited liability are undertakings which are not

governed by the laws of a Member State but which have a legal form comparable to those referred to in Directive 2009/101/EC.

1. Member States may require undertakings referred to in point (a) of Article 1(1) which are governed by their laws and which are members having unlimited liability of any undertaking referred to in point (b) of Article 1(1) ('the undertaking concerned'), to draw up, have audited and publish, with their own financial statements, the financial statements of the undertaking concerned in accordance with this Directive; in such case the requirements of this Directive shall not apply to the undertaking concerned.

1. Undertakings referred to in Articles 42 and 44 that prepare and make public a report complying with third-country reporting requirements assessed, in accordance with Article 47, as equivalent to the requirements of this Chapter are exempt from the requirements of this Chapter except for the obligation to publish this report as laid down by the laws of each Member State in accordance with Chapter 2 of Directive 2009/101/EC.
