REGULATIONS

COMMISSION IMPLEMENTING REGULATION (EU) No 166/2014

of 17 February 2014

amending Regulation (EC) No 798/2008 as regards certification requirements for imports into the Union of meat of farmed ratites for human consumption and the entries for Israel and South Africa in the list of third countries or territories

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 2002/99/EC of 16 December 2002 laying down the animal health rules governing the production, processing, distribution and introduction of products of animal origin for human consumption⁽¹⁾, and in particular the introductory phrase of Article 8, the first paragraph of point 1 of Article 8, points 3 and 4 of Article 8 and Article 9(2)(b) thereof,

Whereas:

(1) Commission Regulation (EC) No 798/2008⁽²⁾ provides that certain commodities are only to be imported into and transited through the Union from third countries, territories, zones or compartments listed in the table in Part 1 of Annex I thereto. It also lays down the veterinary certification requirements for such commodities. Those requirements take into account whether or not specific conditions apply and if additional guarantees are required due to the disease status of those third countries, territories, zones or compartments. Specific conditions and additional guarantees that those commodities are required to comply with are set out in Part 2 of Annex I to Regulation (EC) No 798/2008.

(2) Chapter III of Regulation (EC) No 798/2008 lays down the conditions for a third country, territory, zone or compartment to be considered as free from highly pathogenic avian influenza (HPAI) and the requirements for the veterinary certification in that respect for commodities destined for importation into the Union.

(3) South Africa has been experiencing HPAI outbreaks of the subtype H5N2 in ratite holdings in an area with a high density of ratite holdings in 2004, 2006 and since April 2011. Consequently imports of certain ratite commodities including meat of farmed ratites are currently restricted by Regulation (EC) No 798/2008 as amended by Commission Implementing Regulation (EU) No 536/2011⁽³⁾. At present South Africa is not in a position to declare its HPAI free status.

(4) Outdoor keeping of ratites poses a specific challenge for preventing the possible introduction of avian influenza viruses into ratite flocks, in particular from the wild bird reservoir. The South African competent authority has in collaboration with the ratite industry developed a tailor made system for producing ratite meat obtained from ratites which are kept on registered closed ratite holdings approved by the competent authority.

(5) Those holdings are under official control and stringent biosecurity rules and movement controls and laboratory testing are applied. In addition surveillance is carried out for avian influenza on ratite and poultry holdings located in a defined radius around the registered closed ratite holding and on the whole South African territory. In setting up those requirements recommendations of the Community Veterinary Emergency Team (CVET) that had carried out a mission to South Africa in 2011 were duly taken into account.

(6) Pending the declaration of HPAI freedom of its whole territory and in view of providing better guarantees for the safety of ratite meat destined for future imports into the Union, South Africa on 5 May 2013 submitted a revised proposal of the system of registered closed ratite holdings requesting authorisation of imports of ratite meat into the Union produced from ratites kept on such holdings.

⁽¹⁾ OJ L 18, 23.1.2003, p. 11.

⁽²⁾ Commission Regulation (EC) No 798/2008 of 8 August 2008 laying down a list of third countries, territories, zones or compartments from which poultry and poultry products may be imported into and transit through the Community and the veterinary certification requirements (OJ L 226, 23.8.2008, p. 1).

⁽³⁾ Commission Implementing Regulation (EU) No 536/2011 of 1 June 2011 amending Annex II to Decision 2007/777/EC and Annex I to Regulation (EC) No 798/2008 as regards the entries for South Africa in the lists of third countries or parts thereof (OJ L 147, 2.6.2011, p. 1).

- (7) Commission and Member States' experts evaluated the proposal and concluded that the system established by South Africa should provide for satisfactory guarantees for imports into the Union of ratite meat obtained from ratites kept on such holdings with respect to possible risks posed by HPAI virus.
- (8) A new specific condition 'H' should be established in Part 2 of Annex I to Regulation (EC) No 798/2008, which provides for specific guarantees for the safety of meat of farmed ratites for human consumption obtained from ratites coming from a registered closed ratite holding including guarantees in relation to possible future HPAI outbreaks and which should apply to South African territory. This specific condition should also be included in the model veterinary certificate for meat of farmed ratites for human consumption.
- (9) Part 1 of Annex I to Regulation (EC) No 798/2008 indicates currently in the entry for Israel five different codes, IL-0 to IL-4, which correspond to parts of the territory which was regionalised following previous HPAI outbreaks in that country. Following a request from Israel and taking into account that meat from poultry, ratites or wild game birds (POU, RAT, and WGM) produced during the periods of restrictions is no longer circulating on the market, the different zones should be consolidated and the entry for Israel should be modified accordingly. For the sake of market transparency and in accordance with public international law, it should be clarified that the territorial coverage of the certificates is limited to the territory of the State of Israel excluding the territories under Israeli administration since June 1967, namely the Golan Heights, the Gaza Strip, East Jerusalem and the rest of the West Bank.
- (10) Regulation (EC) No 798/2008 should therefore be amended accordingly.
- (11) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS REGULATION:

Article 1

Annex I to Regulation (EC) No 798/2008 is amended in accordance with the Annex to this Regulation.

Article 2

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 17 February 2014.

The President
José Manuel BARROSO

COMMISSION REGULATION (EU) No 167/2014

of 21 February 2014

amending Annex I to Regulation (EC) No 689/2008 of the European Parliament and of the Council concerning the export and import of dangerous chemicals

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 689/2008 of the European Parliament and of the Council of 17 June 2008 concerning the export and import of dangerous chemicals ⁽¹⁾, and in particular Article 22(4) thereof,

Whereas:

(1) Regulation (EC) No 689/2008 implements the Rotterdam Convention on the Prior Informed Consent Procedure ('PIC procedure') for certain hazardous chemicals and pesticides in international trade, signed on 11 September 1998 and approved, on behalf of the Community, by Council Decision 2003/106/EC ⁽²⁾.

(2) It is appropriate that regulatory action in respect of certain chemicals taken pursuant to Regulation (EC) No 1107/2009 of the European Parliament and of the Council ⁽³⁾, Regulation (EU) No 528/2012 of the European Parliament and of the Council ⁽⁴⁾ and Regulation (EC) No 1907/2006 of the European Parliament and of the Council ⁽⁵⁾ be taken into account.

(3) At its sixth meeting held from 28 April to 10 May 2013, the Conference of the Parties to the Rotterdam Convention decided to include azinphos-methyl, perfluorooctane sulfonic acid, perfluorooctane sulfonates, perfluorooctane sulfonamides and perfluorooctane sulfonyls in Annex III to that Convention, with the

effect that those chemicals became subject to the PIC procedure under that Convention. Those chemicals should thus be removed from the list of chemicals contained in Part 2 of Annex I to Regulation (EC) No 689/2008 and added to the list of chemicals contained in Part 3 of that Annex.

(4) The Conference of the Parties to the Rotterdam Convention also decided to include commercial pentabromodiphenyl ether, including tetra- and pentabromodiphenyl ether, as well as commercial octabromodiphenyl ether, including hexa- and heptabromodiphenyl ether, in Annex III to that Convention, with the effect that those chemicals became subject to the PIC procedure under that Convention. Since tetrabromodiphenyl ether, pentabromodiphenyl ether, hexabromodiphenyl ether and heptabromodiphenyl ether are already listed in Annex V to Regulation (EC) No 689/2008 and are therefore subject to an export ban, those chemicals are not added to the list of chemicals contained in Part 3 of Annex I to Regulation (EC) No 689/2008.

(5) The approval of the substance dicycldimethylammonium chloride has been withdrawn in accordance with Regulation (EC) No 1107/2009, with the effect that dicycldimethylammonium chloride is banned for use as pesticide in the group of plant protection products and thus should be added to the list of chemicals contained in Part 1 of Annex I to Regulation (EC) No 689/2008.

(6) The entry for chlorate in Parts 1 and 2 of Annex I to Regulation (EC) No 689/2008 should be amended in order to provide more clarity as to which substances were meant to be covered by that entry.

(7) Regulation (EC) No 689/2008 should therefore be amended accordingly.

(8) In order to allow enough time for industry to take the measures necessary for compliance with this Regulation and for Member States to take the measures necessary for its implementation, its application should be deferred.

(9) The measures provided for in this Regulation are in accordance with the opinion of the Committee established by Article 133 of Regulation (EC) No 1907/2006,

⁽¹⁾ OJ L 204, 31.7.2008, p. 1.

⁽²⁾ Council Decision 2003/106/EC of 19 December 2002 concerning the approval, on behalf of the European Community, of the Rotterdam Convention on the Prior Informed Consent Procedure for certain hazardous chemicals and pesticides in international trade (OJ L 63, 6.3.2003, p. 27).

⁽³⁾ Regulation (EC) No 1107/2009 of the European Parliament and of the Council of 21 October 2009 concerning the placing of plant protection products on the market and repealing Council Directives 79/117/EEC and 91/414/EEC (OJ L 309, 24.11.2009, p. 1).

⁽⁴⁾ Regulation (EU) No 528/2012 of the European Parliament and of the Council of 22 May 2012 concerning the making available on the market and use of biocidal products (OJ L 167, 27.6.2012, p. 1).

⁽⁵⁾ Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the registration, evaluation, authorisation and restriction of chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC (OJ L 396, 30.12.2006, p. 1).
