Valuation

6. In estimating the value of a procurement for the purpose of ascertaining whether it is a covered procurement, a procuring entity shall:
- (a) neither divide a procurement into separate procurements nor select or use a particular valuation method for estimating the value of a procurement with the intention of totally or partially excluding it from the application of this Agreement; and
 - (b) include the estimated maximum total value of the procurement over its entire duration, whether awarded to one or more suppliers, taking into account all forms of remuneration, including:
 - (i) premiums, fees, commissions and interest; and
 - (ii) where the procurement provides for the possibility of options, the total value of such options.
7. Where an individual requirement for a procurement results in the award of more than one contract, or in the award of contracts in separate parts (hereinafter referred to as "recurring contracts"), the calculation of the estimated maximum total value shall be based on:
- (a) the value of recurring contracts of the same type of good or service awarded during the preceding 12 months or the procuring entity's preceding fiscal year, adjusted, where possible, to take into account anticipated changes in the quantity or value of the good or service being procured over the following 12 months; or

(b) the estimated value of recurring contracts of the same type of good or service to be awarded during the 12 months following the initial contract award or the procuring entity's fiscal year.

(c) where it is not certain whether the contract is to be a fixed-term contract, subparagraph (b) shall be used.

Article III

Security and General Exceptions

1. Nothing in this Agreement shall be construed to prevent any Party from taking any action or not disclosing any information that it considers necessary for the protection of its essential security interests relating to the procurement of arms, ammunition or war materials, or to procurement indispensable for national security or for national defence purposes.

2. Subject to the requirement that such measures are not applied in a manner that would constitute a means of arbitrary or unjustifiable discrimination between Parties where the same conditions prevail or a disguised restriction on international trade, nothing in this Agreement shall be construed to prevent any Party from imposing or enforcing measures:

(a) necessary to protect public morals, order or safety;

(b) necessary to protect human, animal or plant life or health;

(c) necessary to protect intellectual property; or

(d) relating to goods or services of persons with disabilities, philanthropic institutions or prison labour.

Article IV

General Principles

Non-Discrimination

1. With respect to any measure regarding covered procurement, each Party, including its procuring entities, shall accord immediately and unconditionally to the goods and services of any other Party and to the suppliers of any other Party offering the goods or services of any Party, treatment no less favourable than the treatment the Party, including its procuring entities, accords to:

(a) domestic goods, services and suppliers; and

(b) goods, services and suppliers of any other Party.

2. With respect to any measure regarding covered procurement, a Party, including its procuring entities, shall not:

(a) treat a locally established supplier less favourably than another locally established supplier on the basis of the degree of foreign affiliation or ownership; or

(b) discriminate against a locally established supplier on the basis that the goods or services offered by that supplier for a particular procurement are goods or services of any other Party.

Use of Electronic Means

3. When conducting covered procurement by electronic means, a procuring entity shall:

(a) ensure that the procurement is conducted using information technology systems and software, including those related to authentication and encryption of information, that are generally available and interoperable with other generally available information technology systems and software; and

- (b) maintain mechanisms that ensure the integrity of requests for participation and tenders, including establishment of the time of receipt and the prevention of inappropriate access.

Conduct of Procurement

4. A procuring entity shall conduct covered procurement in a transparent and impartial manner that:
- (a) is consistent with this Agreement, using methods such as open tendering, selective tendering and limited tendering;
 - (b) avoids conflicts of interest; and
 - (c) prevents corrupt practices.

Rules of Origin

5. For purposes of covered procurement, a Party shall not apply rules of origin to goods or services imported from or supplied from another Party that are different from the rules of origin the Party applies at the same time in the normal course of trade to imports or supplies of the same goods or services from the same Party.

Offsets

6. With regard to covered procurement, a Party, including its procuring entities, shall not seek, take account of, impose or enforce any offset.

Measures Not Specific to Procurement

7. Paragraphs 1 and 2 shall not apply to: customs duties and charges of any kind imposed on, or in connection with, importation; the method of levying such duties and charges; other import regulations or formalities and measures affecting trade in services other than measures governing covered procurement.

Article V

Developing Countries

1. In negotiations on accession to, and in the implementation and administration of, this Agreement, the Parties shall give special consideration to the development, financial and trade needs and circumstances of developing countries and least developed countries (collectively referred to hereinafter as "developing countries", unless specifically identified otherwise), recognizing that these may differ significantly from country to country. As provided for in this Article and on request, the Parties shall accord special and differential treatment to:

- (a) least developed countries; and
- (b) any other developing country, where and to the extent that this special and differential treatment meets its development needs.

2. Upon accession by a developing country to this Agreement, each Party shall provide immediately to the goods, services and suppliers of that country the most favourable coverage that the Party provides under its annexes to Appendix I to any other Party to this Agreement, subject to any terms negotiated between the Party and the developing country in order to maintain an appropriate balance of opportunities under this Agreement.

3. Based on its development needs, and with the agreement of the Parties, a developing country may adopt or maintain one or more of the following transitional measures, during a transition period and in accordance with a schedule, set out in its relevant annexes to Appendix I, and applied in a manner that does not discriminate among the other Parties:

- (a) a price preference programme, provided that the programme:
 - (i) provides a preference only for the part of the tender incorporating goods or services originating in the developing country applying the preference or goods or services originating in other developing countries in respect of which the developing country applying the preference has an obligation to provide national treatment under a preferential agreement, provided that where the other developing country is a Party to this Agreement, such treatment would be subject to any conditions set by the Committee; and
 - (ii) is transparent, and the preference and its application in the procurement are clearly described in the notice of intended procurement;
- (b) an offset, provided that any requirement for, or consideration of, the imposition of the offset is clearly stated in the notice of intended procurement;

(c) the phased-in addition of specific entities or sectors; and

(d) a threshold that is higher than its permanent threshold.

4. In negotiations on accession to this Agreement, the Parties may agree to the delayed application of any specific obligation in this Agreement, other than Article IV:1(b), by the acceding developing country while that country implements the obligation. The implementation period shall be:

(a) for a least developed country, five years after its accession to this Agreement; and

(b) for any other developing country, only the period necessary to implement the specific obligation and not to exceed three years.

5. Any developing country that has negotiated an implementation period for an obligation under paragraph 4 shall list in its Annex 7 to Appendix I the agreed implementation period, the specific obligation subject to the implementation period and any interim obligation with which it has agreed to comply during the implementation period.

6. After this Agreement has entered into force for a developing country, the Committee, on request of the developing country, may:

(a) extend the transition period for a measure adopted or maintained under paragraph 3 or any implementation period negotiated under paragraph 4; or

(b) approve the adoption of a new transitional measure under paragraph 3, in special circumstances that were unforeseen during the accession process.

7. A developing country that has negotiated a transitional measure under paragraph 3 or 6, an implementation period under paragraph 4 or any extension under paragraph 6 shall take such steps during the transition period or implementation period as may be necessary to ensure that it is in compliance with this Agreement at the end of any such period. The developing country shall promptly notify the Committee of each step.

8. The Parties shall give due consideration to any request by a developing country for technical cooperation and capacity building in relation to that country's accession to, or implementation of, this Agreement.

9. The Committee may develop procedures for the implementation of this Article. Such procedures may include provisions for voting on decisions relating to requests under paragraph 6.

10. The Committee shall review the operation and effectiveness of this Article every five years.

Article VI

Information on the Procurement System

1. Each Party shall:

(a) promptly publish any law, regulation, judicial decision, administrative ruling of general application, standard contract clause mandated by law or regulation and incorporated by reference in notices or tender documentation and procedure regarding covered procurement, and any modifications thereof, in an officially designated electronic or paper medium that is widely disseminated and remains readily accessible to the public; and

(b) provide an explanation thereof to any Party, on request.

2. Each Party shall list:

3. Each Party shall promptly notify the Committee of any modification to the Party's information listed in Appendix II, III or IV.

Summary Notice

3. For each case of intended procurement, a procuring entity shall publish a summary notice that is readily accessible, at the same time as the publication of the notice of intended procurement, in one of the WTO languages. The summary notice shall contain at least the following information:

Notice of Planned Procurement

4. Procuring entities are encouraged to publish in the appropriate paper or electronic medium listed in Appendix III as early as possible in each fiscal year a notice regarding their future procurement plans (hereinafter referred to as "notice of planned procurement"). The notice of planned procurement should include the subject-matter of the procurement and the planned date of the publication of the notice of intended procurement.

5. A procuring entity covered under Annex 2 or 3 may use a notice of planned procurement as a notice of intended procurement provided that the notice of planned procurement includes as much of the information referred to in paragraph 2 as is available to the entity and a statement that interested suppliers should express their interest in the procurement to the procuring entity.

Article VIII

Conditions for Participation

1. A procuring entity shall limit any conditions for participation in a procurement to those that are essential to ensure that a supplier has the legal and financial capacities and the commercial and technical abilities to undertake the relevant procurement.
2. In establishing the conditions for participation, a procuring entity:
 - (a) shall not impose the condition that, in order for a supplier to participate in a procurement, the supplier has previously been awarded one or more contracts by a procuring entity of a given Party; and
 - (b) may require relevant prior experience where essential to meet the requirements of the procurement.
3. In assessing whether a supplier satisfies the conditions for participation, a procuring entity:
 - (a) shall evaluate the financial capacity and the commercial and technical abilities of a supplier on the basis of that supplier's business activities both inside and outside the territory of the Party of the procuring entity; and
 - (b) shall base its evaluation on the conditions that the procuring entity has specified in advance in notices or tender documentation.
4. Where there is supporting evidence, a Party, including its procuring entities, may exclude a supplier on grounds such as:
 - (a) bankruptcy;
 - (b) false declarations;
 - (c) significant or persistent deficiencies in performance of any substantive requirement or obligation under a prior contract or contracts;
 - (d) final judgments in respect of serious crimes or other serious offences;
 - (e) professional misconduct or acts or omissions that adversely reflect on the commercial integrity of the supplier; or

Article IX

Qualification of Suppliers

Registration Systems and Qualification Procedures

1. A Party, including its procuring entities, may maintain a supplier registration system under which interested suppliers are required to register and provide certain information.
2. Each Party shall ensure that:
 - (a) its procuring entities make efforts to minimize differences in their qualification procedures; and

(b) where its procuring entities maintain registration systems, the entities make efforts to minimize differences in their registration systems.

3. A Party, including its procuring entities, shall not adopt or apply any registration system or qualification procedure with the purpose or the effect of creating unnecessary obstacles to the participation of suppliers of another Party in its procurement.

Selective Tendering

4. Where a procuring entity intends to use selective tendering, the entity shall:

(a) include in the notice of intended procurement at least the information specified in Article VII:2(a), (b), (f), (g), (j), (k) and (l) and invite suppliers to submit a request for participation; and

(b) provide, by the commencement of the time-period for tendering, at least the information in Article VII:2 (c), (d), (e), (h) and (i) to the qualified suppliers that it notifies as specified in Article XI:3(b).

5. A procuring entity shall allow all qualified suppliers to participate in a particular procurement, unless the procuring entity states in the notice of intended procurement any limitation on the number of suppliers that will be permitted to tender and the criteria for selecting the limited number of suppliers.

6. Where the tender documentation is not made publicly available from the date of publication of the notice referred to in paragraph 4, a procuring entity shall ensure that those documents are made available at the same time to all the qualified suppliers selected in accordance with paragraph 5.

Multi-Use Lists

7. A procuring entity may maintain a multi-use list of suppliers, provided that a notice inviting interested suppliers to apply for inclusion on the list is:

(a) published annually; and

(b) where published by electronic means, made available continuously,

8. The notice provided for in paragraph 7 shall include:

(e) an indication that the list may be used for procurement covered by this Agreement.

9. Notwithstanding paragraph 7, where a multi-use list will be valid for three years or less, a procuring entity may publish the notice referred to in paragraph 7 only once, at the beginning of the period of validity of the list, provided that the notice:

(a) states the period of validity and that further notices will not be published; and

(b) is published by electronic means and is made available continuously during the period of its validity.

10. A procuring entity shall allow suppliers to apply at any time for inclusion on a multi-use list and shall include on the list all qualified suppliers within a reasonably short time.

11. Where a supplier that is not included on a multi-use list submits a request for participation in a procurement based on a multi-use list and all required documents, within the time-period provided for in Article XI:2, a procuring entity shall examine the request. The procuring entity shall not exclude the supplier from consideration in respect of the procurement on the grounds that the entity has insufficient time to examine the request, unless, in exceptional cases, due to the complexity of the procurement, the entity is not able to complete the examination of the request within the time-period allowed for the submission of tenders.

Annex 2 and Annex 3 Entities

12. A procuring entity covered under Annex 2 or 3 may use a notice inviting suppliers to apply for inclusion on a multi-use list as a notice of intended procurement, provided that:

- (a) the notice is published in accordance with paragraph 7 and includes the information required under paragraph 8, as much of the information required under Article VII:2 as is available and a statement that it constitutes a notice of intended procurement or that only the suppliers on the multi-use list will receive further notices of procurement covered by the multi-use list; and
- (b) the entity promptly provides to suppliers that have expressed an interest in a given procurement to the entity, sufficient information to permit them to assess their interest in the procurement, including all remaining information required in Article VII:2, to the extent such information is available.

13. A procuring entity covered under Annex 2 or 3 may allow a supplier that has applied for inclusion on a multi-use list in accordance with paragraph 10 to tender in a given procurement, where there is sufficient time for the procuring entity to examine whether the supplier satisfies the conditions for participation.

Information on Procuring Entity Decisions

14. A procuring entity shall promptly inform any supplier that submits a request for participation in a procurement or application for inclusion on a multi-use list of the procuring entity's decision with respect to the request or application.

15. Where a procuring entity rejects a supplier's request for participation in a procurement or application for inclusion on a multi-use list, ceases to recognize a supplier as qualified, or removes a supplier from a multi-use list, the entity shall promptly inform the supplier and, on request of the supplier, promptly provide the supplier with a written explanation of the reasons for its decision.

Article X

Technical Specifications and Tender Documentation

Technical Specifications

1. A procuring entity shall not prepare, adopt or apply any technical specification or prescribe any conformity assessment procedure with the purpose or the effect of creating unnecessary obstacles to international trade.

2. In prescribing the technical specifications for the goods or services being procured, a procuring entity shall, where appropriate:

- (a) set out the technical specification in terms of performance and functional requirements, rather than design or descriptive characteristics; and
- (b) base the technical specification on international standards, where such exist; otherwise, on national technical regulations, recognized national standards or building codes.

3. Where design or descriptive characteristics are used in the technical specifications, a procuring entity should indicate, where appropriate, that it will consider tenders of equivalent goods or services that demonstrably fulfil the requirements of the procurement by including words such as "or equivalent" in the tender documentation.

4. A procuring entity shall not prescribe technical specifications that require or refer to a particular trademark or trade name, patent, copyright, design, type, specific origin, producer or supplier, unless there is no other sufficiently precise or intelligible way of describing the procurement requirements and provided that, in such cases, the entity includes words such as "or equivalent" in the tender documentation.

5. A procuring entity shall not seek or accept, in a manner that would have the effect of precluding competition, advice that may be used in the preparation or adoption of any technical specification for a specific procurement from a person that may have a commercial interest in the procurement.

6. For greater certainty, a Party, including its procuring entities, may, in accordance with this Article, prepare, adopt or apply technical specifications to promote the conservation of natural resources or protect the environment.

Tender Documentation

7. A procuring entity shall make available to suppliers tender documentation that includes all information necessary to permit suppliers to prepare and submit responsive tenders. Unless already provided in the notice of intended procurement, such documentation shall include a complete description of:

- (a) the procurement, including the nature and the quantity of the goods or services to be procured or, where the quantity is not known, the estimated quantity and any requirements to be fulfilled, including any technical specifications, conformity assessment certification, plans, drawings or instructional materials;
- (b) any conditions for participation of suppliers, including a list of information and documents that suppliers are required to submit in connection with the conditions for participation;
- (c) all evaluation criteria the entity will apply in the awarding of the contract, and, except where price is the sole criterion, the relative importance of such criteria;
- (d) where the procuring entity will conduct the procurement by electronic means, any authentication and encryption requirements or other requirements related to the submission of information by electronic means;
- (e) where the procuring entity will hold an electronic auction, the rules, including identification of the elements of the tender related to the evaluation criteria, on which the auction will be conducted;
- (f) where there will be a public opening of tenders, the date, time and place for the opening and, where appropriate, the persons authorized to be present;
- (g) any other terms or conditions, including terms of payment and any limitation on the means by which tenders may be submitted, such as whether on paper or by electronic means; and
- (h) any dates for the delivery of goods or the supply of services.

8. In establishing any date for the delivery of goods or the supply of services being procured, a procuring entity shall take into account such factors as the complexity of the procurement, the extent of subcontracting anticipated and the realistic time required for production, de-stocking and transport of goods from the point of supply or for supply of services.

9. The evaluation criteria set out in the notice of intended procurement or tender documentation may include, among others, price and other cost factors, quality, technical merit, environmental characteristics and terms of delivery.

10. A procuring entity shall promptly:

- (a) make available tender documentation to ensure that interested suppliers have sufficient time to submit responsive tenders;
- (b) provide, on request, the tender documentation to any interested supplier; and
- (c) reply to any reasonable request for relevant information by any interested or participating supplier, provided that such information does not give that supplier an advantage over other suppliers.

Modifications

11. Where, prior to the award of a contract, a procuring entity modifies the criteria or requirements set out in the notice of intended procurement or tender documentation provided to participating suppliers, or amends or reissues a notice or tender documentation, it shall transmit in writing all such modifications or amended or re-issued notice or tender documentation:

- (a) to all suppliers that are participating at the time of the modification, amendment or re-issuance, where such suppliers are known to the entity, and in all other cases, in the same manner as the original information was made available; and

- (b) in adequate time to allow such suppliers to modify and re-submit amended tenders, as appropriate.

Article XI

Time-Periods

General

1. A procuring entity shall, consistent with its own reasonable needs, provide sufficient time for suppliers to prepare and submit requests for participation and responsive tenders, taking into account such factors as:

- (a) the nature and complexity of the procurement;
- (b) the extent of subcontracting anticipated; and
- (c) the time necessary for transmitting tenders by non-electronic means from foreign as well as domestic points where electronic means are not used.

Such time-periods, including any extension of the time-periods, shall be the same for all interested or participating suppliers.

Deadlines

2. A procuring entity that uses selective tendering shall establish that the final date for the submission of requests for participation shall not, in principle, be less than 25 days from the date of publication of the notice of intended procurement. Where a state of urgency duly substantiated by the procuring entity renders this time-period impracticable, the time-period may be reduced to not less than 10 days.

3. Except as provided for in paragraphs 4, 5, 7 and 8 a procuring entity shall establish that the final date for the submission of tenders shall not be less than 40 days from the date on which:

- (a) in the case of open tendering, the notice of intended procurement is published; or
- (b) in the case of selective tendering, the entity notifies suppliers that they will be invited to submit tenders, whether or not it uses a multi-use list.

4. A procuring entity may reduce the time-period for tendering established in accordance with paragraph 3 to not less than 10 days where:

- (a) the procuring entity has published a notice of planned procurement as described in Article VII:4 at least 40 days and not more than 12 months in advance of the publication of the notice of intended procurement, and the notice of planned procurement contains:
 - (i) a description of the procurement;
 - (ii) the approximate final dates for the submission of tenders or requests for participation;
 - (iii) a statement that interested suppliers should express their interest in the procurement to the procuring entity;
 - (iv) the address from which documents relating to the procurement may be obtained; and
 - (v) as much of the information that is required for the notice of intended procurement under Article VII:2, as is available;
- (b) the procuring entity, for recurring contracts, indicates in an initial notice of intended procurement that subsequent notices will provide time-periods for tendering based on this paragraph; or
- (c) a state of urgency duly substantiated by the procuring entity renders the time-period for tendering established in accordance with paragraph 3 impracticable.

5. A procuring entity may reduce the time-period for tendering established in accordance with paragraph 3 by five days for each one of the following circumstances:

- (a) the notice of intended procurement is published by electronic means;

(b) all the tender documentation is made available by electronic means from the date of the publication of the notice of intended procurement; and

(c) the entity accepts tenders by electronic means.

6. The use of paragraph 5, in conjunction with paragraph 4, shall in no case result in the reduction of the time-period for tendering established in accordance with paragraph 3 to less than 10 days from the date on which the notice of intended procurement is published.

7. Notwithstanding any other provision in this Article, where a procuring entity purchases commercial goods or services, or any combination thereof, it may reduce the time-period for tendering established in accordance with paragraph 3 to not less than 13 days, provided that it publishes by electronic means, at the same time, both the notice of intended procurement and the tender documentation. In addition, where the entity accepts tenders for commercial goods or services by electronic means, it may reduce the time-period established in accordance with paragraph 3 to not less than 10 days.

8. Where a procuring entity covered under Annex 2 or 3 has selected all or a limited number of qualified suppliers, the time-period for tendering may be fixed by mutual agreement between the procuring entity and the selected suppliers. In the absence of agreement, the period shall not be less than 10 days.

Article XII

Negotiation

1. A Party may provide for its procuring entities to conduct negotiations:

(a) where the entity has indicated its intent to conduct negotiations in the notice of intended procurement required under Article VII:2; or

(b) where it appears from the evaluation that no tender is obviously the most advantageous in terms of the specific evaluation criteria set out in the notice of intended procurement or tender documentation.

2. A procuring entity shall:

(a) ensure that any elimination of suppliers participating in negotiations is carried out in accordance with the evaluation criteria set out in the notice of intended procurement or tender documentation; and

(b) where negotiations are concluded, provide a common deadline for the remaining participating suppliers to submit any new or revised tenders.

Article XIII

Limited Tendering

1. Provided that it does not use this provision for the purpose of avoiding competition among suppliers or in a manner that discriminates against suppliers of any other Party or protects domestic suppliers, a procuring entity may use limited tendering and may choose not to apply Articles VII through IX, X (paragraphs 7 through 11), XI, XII, XIV and XV only under any of the following circumstances:

(a) where:

(i) no tenders were submitted or no suppliers requested participation;

(ii) no tenders that conform to the essential requirements of the tender documentation were submitted;

(iii) no suppliers satisfied the conditions for participation; or

(iv) the tenders submitted have been collusive,

provided that the requirements of the tender documentation are not substantially modified;

(b) where the goods or services can be supplied only by a particular supplier and no reasonable alternative or substitute goods or services exist for any of the following reasons:

(i) the requirement is for a work of art;

(ii) the protection of patents, copyrights or other exclusive rights; or

(iii) due to an absence of competition for technical reasons;

- (c) for additional deliveries by the original supplier of goods or services that were not included in the initial procurement where a change of supplier for such additional goods or services:
 - (i) cannot be made for economic or technical reasons such as requirements of interchangeability or interoperability with existing equipment, software, services or installations procured under the initial procurement; and
 - (ii) would cause significant inconvenience or substantial duplication of costs for the procuring entity;
 - (d) insofar as is strictly necessary where, for reasons of extreme urgency brought about by events unforeseeable by the procuring entity, the goods or services could not be obtained in time using open tendering or selective tendering;
 - (e) for goods purchased on a commodity market;
 - (f) where a procuring entity procures a prototype or a first good or service that is developed at its request in the course of, and for, a particular contract for research, experiment, study or original development. Original development of a first good or service may include limited production or supply in order to incorporate the results of field testing and to demonstrate that the good or service is suitable for production or supply in quantity to acceptable quality standards, but does not include quantity production or supply to establish commercial viability or to recover research and development costs;
 - (g) for purchases made under exceptionally advantageous conditions that only arise in the very short term in the case of unusual disposals such as those arising from liquidation, receivership or bankruptcy, but not for routine purchases from regular suppliers; or
 - (h) where a contract is awarded to a winner of a design contest provided that:
 - (i) the contest has been organized in a manner that is consistent with the principles of this Agreement, in particular relating to the publication of a notice of intended procurement; and
 - (ii) the participants are judged by an independent jury with a view to a design contract being awarded to a winner.
2. A procuring entity shall prepare a report in writing on each contract awarded under paragraph 1. The report shall include the name of the procuring entity, the value and kind of goods or services procured and a statement indicating the circumstances and conditions described in paragraph 1 that justified the use of limited tendering.

Article XIV

Electronic Auctions

Where a procuring entity intends to conduct a covered procurement using an electronic auction, the entity shall provide each participant, before commencing the electronic auction, with:

- (a) the automatic evaluation method, including the mathematical formula, that is based on the evaluation criteria set out in the tender documentation and that will be used in the automatic ranking or re-ranking during the auction;
- (b) the results of any initial evaluation of the elements of its tender where the contract is to be awarded on the basis of the most advantageous tender; and
- (c) any other relevant information relating to the conduct of the auction.

Article XV

Treatment of Tenders and Awarding of Contracts

Treatment of Tenders

1. A procuring entity shall receive, open and treat all tenders under procedures that guarantee the fairness and impartiality of the procurement process, and the confidentiality of tenders.
2. A procuring entity shall not penalize any supplier whose tender is received after the time specified for receiving tenders if the delay is due solely to mishandling on the part of the procuring entity.
3. Where a procuring entity provides a supplier with an opportunity to correct unintentional errors of form between the opening of tenders and the awarding of the contract, the procuring entity shall provide the same opportunity to all participating suppliers.

Awarding of Contracts

4. To be considered for an award, a tender shall be submitted in writing and shall, at the time of opening, comply with the essential requirements set out in the notices and tender documentation and be from a supplier that satisfies the conditions for participation.

5. Unless a procuring entity determines that it is not in the public interest to award a contract, the entity shall award the contract to the supplier that the entity has determined to be capable of fulfilling the terms of the contract and that, based solely on the evaluation criteria specified in the notices and tender documentation, has submitted:

- (a) the most advantageous tender; or
- (b) where price is the sole criterion, the lowest price.

6. Where a procuring entity receives a tender with a price that is abnormally lower than the prices in other tenders submitted, it may verify with the supplier that it satisfies the conditions for participation and is capable of fulfilling the terms of the contract.

7. A procuring entity shall not use options, cancel a procurement or modify awarded contracts in a manner that circumvents the obligations under this Agreement.

Article XVI

Transparency of Procurement Information

Information Provided to Suppliers

1. A procuring entity shall promptly inform participating suppliers of the entity's contract award decisions and, on the request of a supplier, shall do so in writing. Subject to paragraphs 2 and 3 of Article XVII, a procuring entity shall, on request, provide an unsuccessful supplier with an explanation of the reasons why the entity did not select its tender and the relative advantages of the successful supplier's tender.

Publication of Award Information

2. Not later than 72 days after the award of each contract covered by this Agreement, a procuring entity shall publish a notice in the appropriate paper or electronic medium listed in Appendix III. Where the entity publishes the notice only in an electronic medium, the information shall remain readily accessible for a reasonable period of time. The notice shall include at least the following information:

- (a) a description of the goods or services procured;
- (b) the name and address of the procuring entity;
- (c) the name and address of the successful supplier;
- (d) the value of the successful tender or the highest and lowest offers taken into account in the award of the contract;
- (e) the date of award; and
- (f) the type of procurement method used, and in cases where limited tendering was used in accordance with Article XIII, a description of the circumstances justifying the use of limited tendering.

Maintenance of Documentation, Reports and Electronic Traceability

3. Each procuring entity shall, for a period of at least three years from the date it awards a contract, maintain:

- (a) the documentation and reports of tendering procedures and contract awards relating to covered procurement, including the reports required under Article XIII; and
- (b) data that ensure the appropriate traceability of the conduct of covered procurement by electronic means.

Collection and Reporting of Statistics

4. Each Party shall collect and report to the Committee statistics on its contracts covered by this Agreement. Each report shall cover one year and be submitted within two years of the end of the reporting period, and shall contain:

- (a) for Annex 1 procuring entities:
 - (i) the number and total value, for all such entities, of all contracts covered by this Agreement;
 - (ii) the number and total value of all contracts covered by this Agreement awarded by each such entity, broken down by categories of goods and services according to an internationally recognized uniform classification system; and
 - (iii) the number and total value of all contracts covered by this Agreement awarded by each such entity under limited tendering;
- (b) for Annex 2 and 3 procuring entities, the number and total value of contracts covered by this Agreement awarded by all such entities, broken down by Annex; and
- (c) estimates for the data required under subparagraphs (a) and (b), with an explanation of the methodology used to develop the estimates, where it is not feasible to provide the data.

5. Where a Party publishes its statistics on an official website, in a manner that is consistent with the requirements of paragraph 4, the Party may substitute a notification to the Committee of the website address for the submission of the data under paragraph 4, with any instructions necessary to access and use such statistics.

6. Where a Party requires notices concerning awarded contracts, pursuant to paragraph 2, to be published electronically and where such notices are accessible to the public through a single database in a form permitting analysis of the covered contracts, the Party may substitute a notification to the Committee of the website address for the submission of the data under paragraph 4, with any instructions necessary to access and use such data.

Article XVII

Disclosure of Information

Provision of Information to Parties

1. On request of any other Party, a Party shall provide promptly any information necessary to determine whether a procurement was conducted fairly, impartially and in accordance with this Agreement, including information on the characteristics and relative advantages of the successful tender. In cases where release of the information would prejudice competition in future tenders, the Party that receives the information shall not disclose it to any supplier, except after consulting with, and obtaining the agreement of, the Party that provided the information.

Non-Disclosure of Information

2. Notwithstanding any other provision of this Agreement, a Party, including its procuring entities, shall not provide to any particular supplier information that might prejudice fair competition between suppliers.

3. Nothing in this Agreement shall be construed to require a Party, including its procuring entities, authorities and review bodies, to disclose confidential information where disclosure:

- (a) would impede law enforcement;
- (b) might prejudice fair competition between suppliers;
- (c) would prejudice the legitimate commercial interests of particular persons, including the protection of intellectual property; or
- (d) would otherwise be contrary to the public interest.

Article XVIII

Domestic Review Procedures

1. Each Party shall provide a timely, effective, transparent and non-discriminatory administrative or judicial review procedure through which a supplier may challenge:

- (a) a breach of the Agreement; or
- (b) where the supplier does not have a right to challenge directly a breach of the Agreement under the domestic law of a Party, a failure to comply with a Party's measures implementing this Agreement,

arising in the context of a covered procurement, in which the supplier has, or has had, an interest. The procedural rules for all challenges shall be in writing and made generally available.

2. In the event of a complaint by a supplier, arising in the context of covered procurement in which the supplier has, or has had, an interest, that there has been a breach or a failure as referred to in paragraph 1, the Party of the procuring entity conducting the procurement shall encourage the entity and the supplier to seek resolution of the complaint through consultations. The entity shall accord impartial and timely consideration to any such complaint in a manner that is not prejudicial to the supplier's participation in ongoing or future procurement or its right to seek corrective measures under the administrative or judicial review procedure.

3. Each supplier shall be allowed a sufficient period of time to prepare and submit a challenge, which in no case shall be less than 10 days from the time when the basis of the challenge became known or reasonably should have become known to the supplier.

4. Each Party shall establish or designate at least one impartial administrative or judicial authority that is independent of its procuring entities to receive and review a challenge by a supplier arising in the context of a covered procurement.

5. Where a body other than an authority referred to in paragraph 4 initially reviews a challenge, the Party shall ensure that the supplier may appeal the initial decision to an impartial administrative or judicial authority that is independent of the procuring entity whose procurement is the subject of the challenge.

6. Each Party shall ensure that a review body that is not a court shall have its decision subject to judicial review or have procedures that provide that:

- (a) the procuring entity shall respond in writing to the challenge and disclose all relevant documents to the review body;
- (b) the participants to the proceedings (hereinafter referred to as "participants") shall have the right to be heard prior to a decision of the review body being made on the challenge;
- (c) the participants shall have the right to be represented and accompanied;
- (d) the participants shall have access to all proceedings;
- (e) the participants shall have the right to request that the proceedings take place in public and that witnesses may be presented; and
- (f) the review body shall make its decisions or recommendations in a timely fashion, in writing, and shall include an explanation of the basis for each decision or recommendation.

7. Each Party shall adopt or maintain procedures that provide for:

- (a) rapid interim measures to preserve the supplier's opportunity to participate in the procurement. Such interim measures may result in suspension of the procurement process. The procedures may provide that overriding adverse consequences for the interests concerned, including the public interest, may be taken into account when deciding whether such measures should be applied. Just cause for not acting shall be provided in writing; and
- (b) where a review body has determined that there has been a breach or a failure as referred to in paragraph 1, corrective action or compensation for the loss or damages suffered, which may be limited to either the costs for the preparation of the tender or the costs relating to the challenge, or both.

Article XIX

Modifications and Rectifications to Coverage

Notification of Proposed Modification

1. A Party shall notify the Committee of any proposed rectification, transfer of an entity from one annex to another, withdrawal of an entity or other modification of its annexes to Appendix I (any of which is hereinafter referred to as "modification"). The Party proposing the modification (hereinafter referred to as "modifying Party") shall include in the notification:

- (a) for any proposed withdrawal of an entity from its annexes to Appendix I in exercise of its rights on the grounds that government control or influence over the entity's covered procurement has been effectively eliminated, evidence of such elimination; or

- (b) for any other proposed modification, information as to the likely consequences of the change for the mutually agreed coverage provided for in this Agreement.

Objection to Notification

2. Any Party whose rights under this Agreement may be affected by a proposed modification notified under paragraph 1 may notify the Committee of any objection to the proposed modification. Such objections shall be made within 45 days from the date of the circulation to the Parties of the notification, and shall set out reasons for the objection.

Consultations

3. The modifying Party and any Party making an objection (hereinafter referred to as "objecting Party") shall make every attempt to resolve the objection through consultations. In such consultations, the modifying and objecting Parties shall consider the proposed modification:

- (a) in the case of a notification under paragraph 1(a), in accordance with any indicative criteria adopted pursuant to paragraph 8(b), indicating the effective elimination of government control or influence over an entity's covered procurement; and
- (b) in the case of a notification under paragraph 1(b), in accordance with any criteria adopted pursuant to paragraph 8(c), relating to the level of compensatory adjustments to be offered for modifications, with a view to maintaining a balance of rights and obligations and a comparable level of mutually agreed coverage provided in this Agreement.

Revised Modification

4. Where the modifying Party and any objecting Party resolve the objection through consultations, and the modifying Party revises its proposed modification as a result of those consultations, the modifying Party shall notify the Committee in accordance with paragraph 1, and any such revised modification shall only be effective after fulfilling the requirements of this Article.

Implementation of Modifications

5. A proposed modification shall become effective only where:

- (a) no Party submits to the Committee a written objection to the proposed modification within 45 days from the date of circulation of the notification of the proposed modification under paragraph 1;
- (b) all objecting Parties have notified the Committee that they withdraw their objections to the proposed modification; or
- (c) 150 days from the date of circulation of the notification of the proposed modification under paragraph 1 have elapsed, and the modifying Party has informed the Committee in writing of its intention to implement the modification.

Withdrawal of Substantially Equivalent Coverage

6. Where a modification becomes effective pursuant to paragraph 5(c), any objecting Party may withdraw substantially equivalent coverage. Notwithstanding Article IV:1(b), a withdrawal pursuant to this paragraph may be implemented solely with respect to the modifying Party. Any objecting Party shall inform the Committee in writing of any such withdrawal at least 30 days before the withdrawal becomes effective. A withdrawal pursuant to this paragraph shall be consistent with any criteria relating to the level of compensatory adjustment adopted by the Committee pursuant to paragraph 8(c).

Arbitration Procedures to Facilitate Resolution of Objections

7. Where the Committee has adopted arbitration procedures to facilitate the resolution of objections pursuant to paragraph 8, a modifying or any objecting Party may invoke the arbitration procedures within 120 days of circulation of the notification of the proposed modification:

- (a) Where no Party has invoked the arbitration procedures within the time-period:
- (i) notwithstanding paragraph 5(c), the proposed modification shall become effective where 130 days from the date of circulation of the notification of the proposed modification under paragraph 1 have elapsed, and the modifying Party has informed the Committee in writing of its intention to implement the modification; and
- (ii) no objecting Party may withdraw coverage pursuant to paragraph 6.

- (b) Where a modifying Party or objecting Party has invoked the arbitration procedures:
- (i) notwithstanding paragraph 5(c), the proposed modification shall not become effective before the completion of the arbitration procedures;
 - (ii) any objecting Party that intends to enforce a right to compensation, or to withdraw substantially equivalent coverage pursuant to paragraph 6, shall participate in the arbitration proceedings;
 - (iii) a modifying Party should comply with the results of the arbitration procedures in making any modification effective pursuant to paragraph 5(c); and
 - (iv) where a modifying Party does not comply with the results of the arbitration procedures in making any modification effective pursuant to paragraph 5(c), any objecting Party may withdraw substantially equivalent coverage pursuant to paragraph 6, provided that any such withdrawal is consistent with the result of the arbitration procedures.

Committee Responsibilities

8. The Committee shall adopt:

- (a) arbitration procedures to facilitate resolution of objections under paragraph 2;
- (b) indicative criteria that demonstrate the effective elimination of government control or influence over an entity's covered procurement; and
- (c) criteria for determining the level of compensatory adjustment to be offered for modifications made pursuant to paragraph 1(b) and of substantially equivalent coverage under paragraph 6.

Article XX

Consultations and Dispute Settlement

1. Each Party shall accord sympathetic consideration to and shall afford adequate opportunity for consultation regarding any representation made by another Party with respect to any matter affecting the operation of this Agreement.

2. Where any Party considers that any benefit accruing to it, directly or indirectly, under this Agreement is being nullified or impaired, or that the attainment of any objective of this Agreement is being impeded as the result of:

- (a) the failure of another Party or Parties to carry out its obligations under this Agreement; or
- (b) the application by another Party or Parties of any measure, whether or not it conflicts with the provisions of this Agreement,

it may, with a view to reaching a mutually satisfactory solution to the matter, have recourse to the provisions of the Understanding on Rules and Procedures Governing the Settlement of Disputes (hereinafter referred to as "the Dispute Settlement Understanding").

3. The Dispute Settlement Understanding shall apply to consultations and the settlement of disputes under this Agreement, with the exception that, notwithstanding paragraph 3 of Article 22 of the Dispute Settlement Understanding, any dispute arising under any Agreement listed in Appendix 1 to the Dispute Settlement Understanding other than this Agreement shall not result in the suspension of concessions or other obligations under this Agreement, and any dispute arising under this Agreement shall not result in the suspension of concessions or other obligations under any other Agreement listed in Appendix 1 of the Dispute Settlement Understanding.
