# **COUNCIL REGULATION (EU) No 732/2014** of 3 July 2014

amending Regulations (EC) No 754/2009 and (EU) No 43/2014 as regards certain fishing opportunities

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 43(3) thereof,

Having regard to the proposal from the European Commission,

#### Whereas:

- The Fisheries Partnership Agreement between the European Community on the one hand, and the Government of Denmark and the Home Rule Government of Greenland, on the other hand (1), and the Protocol thereto (2), provide that the Union is to receive 7,7 % of the total available catch (TAC) for capelin to be fished in Greenland waters of ICES subareas V and XIV.
- Council Regulation (EU) No 43/2014 (3) fixed a Union quota of 0 tonnes for 2014 for the stock of capelin in (2) Greenland waters of ICES subareas V and XIV, to be applied until 30 April 2014.
- (3)On 16 June 2014 the Union received information from the Greenland authorities that the TAC for capelin, which includes Greenland waters of ICES subareas V and XIV, had been predicted at 450 000 tonnes for the fishing season 2014/2015 with an initial quota of 225 000 tonnes. The relevant Union quota for that fishing season should therefore be fixed.
- It is necessary to correct the TAC established for the stock of redfish in international waters of I and II and the (4)TAC established for Greenland halibut in Greenland waters of ICES subareas V and XIV. It is also necessary to correct two TACs for mackerel, in order to include the mutual access arrangements between the Union and the Faroe Islands. Furthermore, the area where Faroese vessels may obtain fishing authorisations for mackerel fishing should be modified accordingly.
- At its 8th Regular Session, the Western and Central Pacific Fisheries Commission (WCPFC) adopted a prohibition (5)to retain on board, tranship, store or land oceanic whitetip sharks (Carcharhinus longimanus). At its 9th Regular Session, WCPFC adopted a similar prohibition for silky sharks (Carcharhinus falciformis). Both prohibitions should be implemented in the law of the Union. In accordance with Council Regulation (EC) No 847/96 (4), the stocks that are subject to the various measures referred to therein should be identified.

<sup>(</sup>¹) OJ L 172, 30.6.2007, p. 4. (²) Protocol setting out the fishing opportunities and financial contribution provided for in the Fisheries Partnership Agreement between the European Community on the one hand, and the Government of Denmark and the Home Rule Government of Greenland, on the other hand (OJ L 293, 23.10.2012, p. 5).

Council Regulation (EU) No 43/2014 of 20 January 2014 fixing for 2014 the fishing opportunities for certain fish stocks and groups of fish stocks, applicable in Union waters and, to Union vessels, in certain non-Union waters (OJ L 24, 28.1.2014, p. 1).

Council Regulation (EC) No 847/96 of 6 May 1996 introducing additional conditions for year-to-year management of TACs and quotas (OJ L 115, 9.5.1996, p. 3).

- (6)The United Kingdom provided information on cod catches by two groups of vessels, both targeting Norway lobster and using a regulated gear of mesh size 80-100 mm. The first group fishes in the Firth of Forth, i.e. ICES statistical sub-rectangles 41E7 and 41E6. The second group fishes in the Firth of Clyde, i.e. ICES statistical rectangles 39E5, 39E4, 40E3, 40E4 and 40E5. The latter group constitutes an enlargement of the existing exclusion in the Firth of Clyde from the cod plan fishing effort regime laid down in Chapter III of Council Regulation (EC) No 1342/2008 (1), in accordance with Council Regulation (EC) No 754/2009 (2). On the basis of the information provided by the United Kingdom, as assessed by the Scientific, Technical and Economic Committee for Fisheries, it can be established that the cod catches, including discards, of the vessels mentioned above did not exceed 1,5 % of the total catches of cod in each of the two groups of vessels during the 2013 management period. Moreover, having regard to the measures in place ensuring the monitoring and control of the fishing activities of those two groups of vessels and considering that the inclusion of those two groups would constitute an administrative burden disproportionate to its overall impact on cod stocks, it is appropriate to exclude both groups of vessels from the application of the fishing effort regime laid down in Chapter III of Regulation (EC) No 1342/2008.
- The catch limits and fishing effort limits provided for in Regulation (EU) No 43/2014 apply respectively from (7) 1 January 2014 and 1 February 2014. The provisions of this Regulation concerning catch limits and fishing effort should therefore in principle also apply from those dates. Such retroactive application is without prejudice to the principles of legal certainty and protection of legitimate expectations as the fishing opportunities concerned have not yet been exhausted. However, the prohibition to fish silky sharks in the WCPFC Convention Area becomes effective on 1 July 2014 and should apply from that date. Similarly, the TAC for capelin in Greenland waters of ICES subareas V and XIV should apply as of the start of the fishing season, i.e. as of 20 June 2014. Since the modification of some catch limits has an influence on the economic activities and the planning of the fishing season of Union vessels, this Regulation should enter into force immediately after its publication.
- (8)Regulations (EU) No 43/2014 and (EC) No 754/2009 should therefore be amended accordingly,

#### **COMMISSION REGULATION (EU) No 733/2014**

#### of 24 June 2014

#### amending Regulation (EC) No 1418/2007 concerning the export for recovery of certain waste to certain non-OECD countries

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1013/2006 of the European Parliament and of the Council of 14 June 2006 on shipments of waste (1), and in particular Article 37 thereof,

After consultation of the countries concerned,

Whereas:

- (1)Pursuant to Article 37 of Regulation (EC) No 1013/2006 the Commission periodically updates Commission Regulation (EC) No 1418/2007 (2) concerning the export for recovery of certain waste to certain countries to which the OECD Decision on the control of transboundary movements of wastes ('the OECD decision' (3)) does not apply. The Commission has sent a written request to each country to which the OECD decision does not apply seeking confirmation in writing that waste and mixtures of wastes listed in Annex III or IIIA to Regulation (ÉC) No 1013/2006, the export of which is not prohibited under Article 36 of that Regulation, may be exported from the European Union for recovery in that country and requesting an indication as to which control procedure, if any, would be followed in the country of destination. The Commission has received replies from seventyfour countries. The Annex to Regulation (EC) No 1418/2007 should be amended to take into account those replies.
- On 13 February 2013, the OECD Council approved the Opinion of the Environment Policy Committee regarding (2)the compliance by Israel with the OECD decision. Consequently, Article 37(2) of Regulation (EC) No 1013/2006 does not apply to that country anymore and the entry for Israel should therefore be deleted from the Annex to Regulation (EC) No 1418/2007.
- (3) New Zealand is a country to which the OECD decision applies. Therefore, Article 37 of Regulation (EC) No 1013/2006 does not apply to that country and the entry for New Zealand should be deleted from the Annex to Regulation (EC) No 1418/2007,

HAS ADOPTED THIS REGULATION:

#### Article 1

The Annex to Regulation (EC) No 1418/2007 is amended in accordance with the Annex to this Regulation.

<sup>(1)</sup> OJ L 190, 12.7.2006, p. 1.

<sup>(2)</sup> Commission Regulation (EC) No 1418/2007 of 29 November 2007 concerning the export for recovery of certain waste listed in Annex III or IIIA to Regulation (EC) No 1013/2006 of the European Parliament and of the Council to certain countries to which the OECD Decision on the control of transboundary movements of wastes does not apply (OJ L 316, 4.12.2007, p. 6).
(3) Decision C(2001)107/Final of the OECD Council concerning the revision of Decision C(92)39/Final on control of transboundary move-

ments of wastes destined for recovery operations.

#### Article 2

This Regulation shall enter into force on the fourteenth day following that of its publication in the Official Journal of the European Union.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 24 June 2014.

For the Commission The President José Manuel BARROSO

Having regard to Council Directive 91/271/EEC of 21 May 1991 concerning urban waste water treatment (1), and in particular Article 17(4) thereof,

#### Whereas:

- (1) Member States are required to draw up reports concerning their national programmes for the implementation of Directive 91/271/EEC and shall, if necessary, provide the Commission by 30 June every two years with an update of the information on the basis of formats drawn up by the Commission.
- (2) The Union is committed to maximising the benefits of Union environment legislation by improving implementation, including by ensuring that the public has access to clear information showing how it is being implemented. Systems which actively disseminate such information should be put in place at national level, and should be complemented with a Union level overview of individual Member States' performance (2).
- (3) The Commission, in its Communication on the European Citizens' Initiative 'Water and sanitation are a human right! Water is a public good, not a commodity' (3) committed to making information on urban waste water more accessible for citizens, in particular through streamlined and transparent data management and dissemination.
- (4) The modifications introduced by this Decision build on the pilot exercise establishing a Structured Implementation and Information Framework as part of the Commission's efforts to develop a simple, clear, stable and predictable regulatory framework for businesses, workers and citizens, with the aim to reduce administrative burden and increase transparency (4).
- (5) The formats adopted by Commission Decision 93/481/EEC (5) require revision taking into consideration the need for simplification and increased transparency, the reduction of administrative burden and new approaches to data management and reporting. That Decision should therefore be replaced.
- (6) The measures provided for in this Decision are in accordance with the opinion of the Committee established under Article 18 of Directive 91/271/EEC,
