COMMISSION REGULATION (EU) 2015/1200

of 22 July 2015

amending Annexes II and III to Regulation (EC) No 396/2005 of the European Parliament and of the Council as regards maximum residue levels for amidosulfuron, fenhexamid, kresoxim-methyl, thiacloprid and trifloxystrobin in or on certain products

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 396/2005 of the European Parliament and of the Council of 23 February 2005 on maximum residue levels of pesticides in or on food and feed of plant and animal origin and amending Council Directive 91/414/EEC ⁽¹⁾, and in particular Article 14(1)(a), Article 18(1)(b) and Article 49(2) thereof,

Whereas:

- (1) For amidosulfuron, maximum residue levels (MRLs) were set in Part A of Annex III to Regulation (EC) No 396/2005. For fenhexamid, kresoxim-methyl, thiacloprid and trifloxystrobin, MRLs were set in Annex II and Part B of Annex III to that Regulation.
- (2) For amidosulfuron, the European Food Safety Authority, hereinafter 'the Authority', submitted a reasoned opinion on the existing MRLs in accordance with Article 12(1) of Regulation (EC) No 396/2005 ⁽²⁾. It recommended lowering the MRL for linseed. For other products it recommended raising or keeping the existing MRLs. It concluded that concerning the MRLs for barley, oats, rye and wheat grain some information was not available and that further consideration by risk managers was required. As there is no risk for consumers, the MRLs for those products should be set in Annex II to Regulation (EC) No 396/2005 at the existing level or the level identified by the Authority. These MRLs will be reviewed; the review will take into account the information available within 2 years from the publication of this Regulation.
- (3) For fenhexamid, the Authority submitted a reasoned opinion on the existing MRLs in accordance with Article 12(2) of Regulation (EC) No 396/2005 in conjunction with Article 12(1) thereof ⁽³⁾. It recommended lowering the MRLs for almonds and mulberries. For other products it recommended raising or keeping the existing MRLs. It concluded that concerning the MRL for kiwi some information was not available and that further consideration by risk managers was required. As there is no risk for consumers, the MRL for this product should be set in Annex II to Regulation (EC) No 396/2005 at the existing level or the level identified by the Authority. This MRL will be reviewed; the review will take into account the information available within 2 years

from the publication of this Regulation. The Authority concluded that concerning the MRL for fennel no information was available and that further consideration by risk managers was required. The MRL for this product should be set at the specific limit of determination. As regards blueberries, cranberries, gooseberries and azarole, after submitting the opinion referred to in the first sentence, the Authority submitted a further opinion concerning the MRLs in accordance with Article 10 of Regulation (EC) No 396/2005 ⁽¹⁾. It is appropriate to take this opinion into account.

- (4) For kresoxim-methyl, the Authority submitted a reasoned opinion on the existing MRLs in accordance with Article 12(2) of Regulation (EC) No 396/2005 in conjunction with Article 12(1) thereof ⁽²⁾. It proposed to change the residue definition and recommended lowering the MRLs for pecans, currants (red, black and white), gooseberries, peppers, sunflower seed, rye grain and wheat grain. For other products it recommended raising or keeping the existing MRLs. It concluded that concerning the MRLs for swine muscle, fat, liver and kidney, bovine muscle, fat, liver and kidney, sheep muscle, fat, liver and kidney, goat muscle, fat, liver and kidney, cattle milk, sheep milk and goat milk some information was not available and that further consideration by risk managers was required. As there is no risk for consumers, the MRLs for those products should be set in Annex II to Regulation (EC) No 396/2005 at the existing level or the level identified by the Authority. These MRLs will be reviewed; the review will take into account the information available within 2 years from the publication of this Regulation. The Authority concluded that concerning the MRLs for apricots, peaches and beet leaves (chard) no information was available and that further consideration by risk managers was required. The MRLs for these products should be set at the specific limit of determination.
- (5) For thiacloprid, the Authority, submitted a reasoned opinion on the existing MRLs in accordance with Article 12(2) of Regulation (EC) No 396/2005 in conjunction with Article 12(1) thereof ⁽³⁾. It identified concerning the MRLs for blackberries, kale, lettuce and scarole a risk for consumers. It is therefore appropriate to lower these MRLs. The Authority recommended lowering the MRLs for celeriac, swedes, turnips, garlic, onions, shallots, kohlrabi, asparagus, barley grain, oats grain, rice grain, swine fat, bovine fat, sheep fat, goat fat, poultry muscle, poultry fat and poultry liver. For other products it recommended raising or keeping the existing MRLs. It concluded that concerning the MRLs for courgettes, flowering brassica, scarole, land cress, rocket, leaves and sprouts of brassica, spinach, beet leaves (chard), beans (fresh, with pods), beans (dry), peas (dry), rape seed, mustard seed, maize grain, tea, herbal infusions (dried, leaves), herbal infusions (dried, roots) and spices (seeds) some information was not available and that further consideration by risk managers was required. As there is no risk for consumers, the MRLs for those products should be set in Annex II to Regulation (EC) No 396/2005 at the existing level or the level identified by the Authority. These MRLs will be reviewed; the review will take into account the information available within 2 years from the publication of this Regulation. The Authority concluded that concerning the MRLs for table grapes, wine grapes, sweet corn, witloof, beans (fresh without pods) and sunflower seed no information was available and that further consideration by risk managers was required. The MRLs for these products should be set at the specific limit of determination.
- (6) For trifloxystrobin, the Authority submitted a reasoned opinion on the existing MRLs in accordance with Article 12(2) of Regulation (EC) No 396/2005 in conjunction with Article 12(1) thereof ⁽⁴⁾. It recommended lowering the MRLs for table and wine grapes, papaya, garlic, onions, peanuts and sugar beet. For other products it recommended raising or keeping the existing MRLs. It concluded that concerning the MRLs for currants (red, black and white), gooseberries, passion fruit, peppers, cucumbers, gherkins, leafy brassica, scarole (broad-leaf endive), herbs, beans (fresh, with pods), oats grain, swine muscle, fat, liver and kidney, bovine muscle, fat, liver and kidney, sheep muscle, fat, liver and kidney, goat muscle, fat, liver and kidney, poultry muscle, fat and liver, cattle milk, sheep milk and goat milk and birds' eggs some information was not available and that further consideration by risk managers was required. As there is no risk for consumers, the MRLs for those products should be set in Annex II to Regulation (EC) No 396/2005 at the existing level or the level identified by the Authority. These MRLs will be reviewed; the review will take into account the information available within 2 years from the publication of this Regulation. The Authority concluded that concerning the MRLs for blackberries, raspberries, witloof, peas (fresh, with pods), olives for oil production and chicory roots no information was available and that further consideration by risk managers was required. The MRLs for these products should be set at the specific limit of determination. As regards cane fruit, after submitting the opinion referred to in the first sentence, the Authority submitted a further opinion concerning the MRLs in accordance with Article 10 of Regulation (EC)

No 396/2005 ⁽¹⁾. It is appropriate to take this opinion into account. Taking into account additional information on the good agricultural practice provided by Belgium and as there is no risk for consumers, the MRL for spring onions should be set in Annex II to Regulation (EC) No 396/2005 at the existing level. Taking into account additional information on the good agricultural practice provided by Austria and as there is no risk for consumers, the MRL for elderberries should be set in Annex II to Regulation (EC) No 396/2005 at the existing level.

- (7) As regards products on which the use of the plant protection product concerned is not authorised, and for which no import tolerances or CXLs exist, MRLs should be set at the specific limit of determination or the default MRL should apply, as provided for in Article 18(1)(b) of Regulation (EC) No 396/2005.
- (8) The Commission consulted the European Union reference laboratories for residues of pesticides as regards the need to adapt certain limits of determination. As regards several substances, those laboratories concluded that for certain commodities technical development requires the setting of specific limits of determination.
- (9) Based on the reasoned opinions of the Authority and taking into account the factors relevant to the matter under consideration, the appropriate modifications to the MRLs fulfil the requirements of Article 14(2) of Regulation (EC) No 396/2005.
- (10) Through the World Trade Organisation, the trading partners of the Union were consulted on the new MRLs and their comments have been taken into account.
- (11) Regulation (EC) No 396/2005 should therefore be amended accordingly.
- (12) In order to allow for the normal marketing, processing and consumption of products, this Regulation should provide for a transitional arrangement for products which have been produced before the modification of the MRLs and for which information shows that a high level of consumer protection is maintained. Because a risk to consumers cannot be excluded at the current MRLs, the values for thiacloprid of 1 mg/kg for blackberries, 0,4 mg/kg for kale, 1 mg/kg for lettuce and 0,15 mg/kg for scarole should apply to all products from the date of application of this Regulation.
- (13) A reasonable period should be allowed to elapse before the modified MRLs become applicable in order to permit Member States, third countries and food business operators to prepare themselves to meet the new requirements which will result from the modification of the MRLs.
- (14) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

COMMISSION IMPLEMENTING DECISION (EU) 2015/1204**of 22 July 2015****on a temporary derogation from the rules of origin laid down in Annex II to Council Regulation (EC) No 1528/2007 to take account of the special situation of Kenya with regard to tuna loins**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Regulation (EC) No 1528/2007 of 20 December 2007 applying the arrangements for products originating in certain states which are part of the African, Caribbean and Pacific (ACP) Group of States provided for in agreements establishing, or leading to the establishment of Economic Partnership Agreements ⁽¹⁾, and in particular Article 36(1)(a) of Annex II thereof,

Whereas:

- (1) On 19 December 2011 the Commission adopted Implementing Decision 2011/861/EU ⁽²⁾, granting a temporary derogation from the rules of origin laid down in Annex II to Regulation (EC) No 1528/2007 to take account of the special situation of Kenya with regard to tuna loins. By Commission Implementing Decision 2013/716/EU ⁽³⁾ an extension of that temporary derogation was granted until 30 September 2014.
- (2) On 26 February 2015 Kenya requested a new derogation for the period from 1 January 2015 until 31 December 2015 for 2 000 tonnes of tuna loins. On 13 March 2015 Kenya submitted additional information relating to its request.
- (3) According to the information provided by Kenya catches of raw originating tuna remain unusually low even compared to the normal seasonal variations and have led to a decrease in production of tuna loins. Kenya has pointed out the risk involved due to piracy during the supply of raw tuna. This abnormal situation makes it temporarily impossible for Kenya to comply with the rules of origin laid down in Annex II to Regulation (EC) No 1528/2007.
- (4) Kenya will benefit from an automatic derogation from the rules of origin for tuna loins of HS heading 1604 pursuant to Article 40(7) of the Origin Protocol attached to the EAC-EU Economic Partnership Agreement when that Agreement enters into force or is provisionally applied.
- (5) In accordance with Article 4(2) of Regulation (EC) No 1528/2007 the rules of origin set out in Annex II to that Regulation and the derogations from them are to be superseded by the rules of the EAC-EU Economic Partnership Agreement, the entry into force or provisional application of which is expected to take place in 2016. Given that the overall situation, including the state of ratification of the EAC-EU Economic Partnership Agreement, will be reassessed in 2016, the derogation should apply until 31 December 2015.
- (6) Taking into account the imports concerned, a temporary derogation from the rules of origin laid down in Annex II to Regulation (EC) No 1528/2007 would not cause serious injury to an established Union industry, provided that certain conditions relating to quantities, surveillance and duration are respected.

⁽¹⁾ OJ L 348, 31.12.2007, p. 1.

⁽²⁾ Commission Implementing Decision 2011/861/EU of 19 December 2011 on a temporary derogation from rules of origin laid down in Annex II to Council Regulation (EC) No 1528/2007 to take account of the special situation of Kenya with regard to tuna loins (OJ L 338, 21.12.2011, p. 61).

⁽³⁾ Commission Implementing Decision 2013/716/EU of 4 December 2013 amending Implementing Decision 2011/861/EU on a temporary derogation from rules of origin laid down in Annex II to Council Regulation (EC) No 1528/2007 to take account of the special situation of Kenya with regard to tuna loins (OJ L 326, 6.12.2013, p. 45).

- (7) Accordingly, a derogation should be granted to Kenya in respect of 2 000 tonnes of tuna loins for a period of one year.
- (8) Commission Regulation (EEC) No 2454/93 ⁽¹⁾ lays down rules for the management of tariff quotas. Those rules should be applied to the management of the quantity in respect of which the derogation is granted by this decision.
- (9) In order to allow efficient monitoring of the operation of the derogation, the authorities of Kenya should regularly communicate details of the EUR.1 movement certificates issued, to the Commission.
- (10) To ensure a regular supply of tuna loins from Kenya to the Union and an optimal utilisation of the derogation quota, and to limit possible trade disruption after the expiry of the previous derogation, a new derogation should be granted with retroactive effect from 1 January 2015.
- (11) The measures provided for in this Decision are in accordance with the opinion of the Customs Code Committee,

HAS ADOPTED THIS DECISION:

Article 1

By way of derogation from Annex II to Regulation (EC) No 1528/2007 and in accordance with Article 36(1)(a) of that Annex, tuna loins of HS heading 1604 manufactured from non-originating tuna of HS Heading 0303 shall be regarded as originating in Kenya in accordance with the terms set out in this Decision.

Article 2

The derogation provided for in Article 1 shall apply to the goods and the quantities set out in the Annex which are declared for release for free circulation in the Union from Kenya during the period from 1 January 2015 to 31 December 2015.

Article 3

The quantities set out in the Annex to this Decision shall be managed in accordance with Articles 308a, 308b and 308c of Regulation (EEC) No 2454/93.

Article 4

The customs authorities of Kenya shall take the necessary measures to carry out quantitative checks on exports of the goods referred to in Article 1.

Before the end of the month following each quarter, the competent authorities of Kenya shall forward to the Commission a quarterly statement of the quantities in respect of which EUR.1 movement certificates have been issued pursuant to this Decision and the serial numbers of those certificates.

Article 5

Box 7 of EUR.1 movement certificates issued for goods falling under this Decision shall contain the following:

‘Derogation — Commission Implementing Decision 2015/.../EU’.
