COMMISSION IMPLEMENTING REGULATION (EU) 2017/660**of 6 April 2017****concerning a coordinated multiannual control programme of the Union for 2018, 2019 and 2020 to ensure compliance with maximum residue levels of pesticides and to assess the consumer exposure to pesticide residues in and on food of plant and animal origin****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 396/2005 of the European Parliament and of the Council of 23 February 2005 on maximum residue levels of pesticides in or on food and feed of plant and animal origin and amending Council Directive 91/414/EEC ⁽¹⁾, in particular Article 29(2) thereof,

Whereas:

- (1) By Commission Regulation (EC) No 1213/2008 ⁽²⁾ a first coordinated multiannual Community control programme, covering the years 2009, 2010 and 2011, was established. That programme continued under consecutive Commission Regulations. The latest one was Commission Implementing Regulation (EU) 2016/662 ⁽³⁾.
- (2) Thirty to forty foodstuffs constitute the major components of the diet in the Union. Since pesticide uses show significant changes over a period of three years, pesticides should be monitored in those foodstuffs over a series of three-year cycles to allow consumer exposure and the application of Union legislation to be assessed.
- (3) The European Food Safety Authority (the Authority), submitted a scientific report on a design assessment of the pesticide monitoring program. It concluded that an MRL exceedance rate above 1 % could be estimated with a margin of error of 0,75 % by selecting 683 sample units for a minimum of 32 different food items ⁽⁴⁾. Collection of those samples should be apportioned among Member States according to population numbers, with a minimum of 12 samples per product and per year.
- (4) Analytical results from the previous official control programmes of the Union have been taken into account to ensure that the range of pesticides covered by the control programme is representative for the pesticides used.
- (5) Guidance concerning 'Analytical quality control and validation procedures for pesticide residues analysis in food and feed' is published on the Commission website ⁽⁵⁾.
- (6) Where the residue definition of a pesticide includes other active substances, metabolites, breakdown or reaction products, those compounds should be reported separately as far as they are measured individually.
- (7) Implementing measures, such as the Standard Sample Description (SSD) ⁽⁶⁾ ⁽⁷⁾ for submitting results of pesticide residues analysis, relating to the submission of information by Member States have been agreed by Member States, the Commission and the European Food Safety Authority.

⁽¹⁾ OJ L 70, 16.3.2005, p. 1.

⁽²⁾ Commission Regulation (EC) No 1213/2008 of 5 December 2008 concerning a coordinated multiannual Community control programme for 2009, 2010 and 2011 to ensure compliance with maximum residue levels of and to assess the consumer exposure to pesticide residues in and on food of plant and animal origin (OJ L 328, 6.12.2008, p. 9).

⁽³⁾ Commission Implementing Regulation (EU) 2016/662 of 1 April 2016 concerning a coordinated multiannual control programme of the Union for 2017, 2018 and 2019 to ensure compliance with maximum levels of pesticides and to assess the consumer exposure to pesticide residues in and on food of plant and animal origin (OJ L 115, 29.4.2016, p. 2).

- (8) For the sampling procedures, Commission Directive 2002/63/EC ⁽¹⁾, which incorporates the sampling methods and procedures recommended by the Codex Alimentarius Commission, should apply.
- (9) It is necessary to assess whether maximum residue levels for food for infants and young children provided for in Article 10 of Commission Directive 2006/141/EC ⁽²⁾ and Article 7 of Commission Directive 2006/125/EC ⁽³⁾ are respected, taking into account only the residue definitions as they are set out in Regulation (EC) No 396/2005.
- (10) As regards single residue methods, Member States may be able to meet their obligations of analysis by having recourse to official laboratories already having the validated methods required.
- (11) Member States should submit by 31 August of each year the information concerning the previous calendar year.
- (12) In order to avoid any confusion due to an overlap between consecutive multiannual programmes, Implementing Regulation (EU) 2016/662 should be repealed in the interest of legal certainty. It should, however, continue to apply to samples tested in 2017.
- (13) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

Article 1

Member States shall, during the years 2018, 2019 and 2020, take and analyse samples for the pesticide/product combinations, as set out in Annex I.

For foods intended for infants and young children, samples shall be evaluated on the products as proposed ready for consumption or as reconstituted according to the instructions of the manufacturers, taking into account the MRLs set out in Directives 2006/125/EC and 2006/141/EC. Where such foods can be consumed both as sold and as reconstituted, the results shall be reported on the non-reconstituted product as sold.

In addition, the results of all analytes that are part of the residue definition shall be submitted separately, as far as they are measured individually.

Article 4

Implementing Regulation (EU) 2016/662 is repealed.

However, it shall continue to apply to samples tested in 2017.

Article 5

This Regulation shall enter into force on 1 January 2018.

Wheat grain ⁽³⁾	Oat grain ⁽³⁾ ⁽⁴⁾	Rye grain ⁽³⁾
Virgin olive oil (If no specific oil processing factor is available, a default factor of 5 may be applied for fat soluble substances, taking into account an olive oil production standard yield of 20 % of the olive harvest; for non-fat soluble substances a default oil processing factor of 1 may be used. Member States are requested to report the processing factors used in the 'National Summary report')	Barley grain ⁽³⁾ ⁽⁵⁾	Brown rice (husked rice), defined as rice after the removal of the hull from paddy rice ⁽⁶⁾

ANNEX II

Number of samples referred to in Article 1

1. The number of samples to be taken for each commodity and analysed for the pesticides listed in Annex I by each Member State is set out in the table in point (5).
2. In addition to the samples required in accordance with the table in point (5), in 2018 each Member State shall take and analyse ten samples of processed cereal-based baby food.

In addition to the samples required in accordance with that table, in 2019 each Member State shall take and analyse ten samples of foods for infants and young children other than infant formulae, follow-on formulae and processed cereal-based baby food.

In addition to the samples required in accordance with that table, in 2020 each Member State shall take and analyse five samples of infant formulae and five samples of follow-on formulae.

3. In accordance with the table in point (5), samples from commodities originating from organic farming shall, where available, be taken in proportion to the market share of those commodities in each Member State, with a minimum of 1.
4. Member States using multi-residue methods may use qualitative screening methods on up to 15 % of the samples to be taken and analysed in accordance with the table in point (5). Where a Member State uses qualitative screening methods, it shall analyse the remaining number of samples by quantitative multi-residue methods.

Where the results of qualitative screening are positive, Member States shall use a usual target method to quantify the findings.

5. Minimum number of samples per Member State per commodity:

COUNCIL DECISION (CFSP) 2017/666**of 6 April 2017****amending Decision (CFSP) 2016/849 concerning restrictive measures against the Democratic People's Republic of Korea**

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on European Union, and in particular Article 29 thereof,

Having regard to the proposal from the High Representative of the Union for Foreign Affairs and Security Policy,

Whereas:

- (1) On 27 May 2016, the Council adopted Decision (CFSP) 2016/849 ⁽¹⁾ concerning restrictive measures against the Democratic People's Republic of Korea (the 'DPRK') which, inter alia, implemented United Nations Security Council Resolutions 1718 (2006), 1874 (2009), 2087 (2013), 2094 (2013) and 2270 (2016).
- (2) On 30 November 2016, the UN Security Council adopted Resolution 2321 (2016), expressing its gravest concern at the nuclear test conducted by the DPRK on 9 September 2016 in violation of the relevant UN Security Council Resolutions, further condemning the DPRK's ongoing nuclear and ballistic-missile activities and declaring them to be in serious violation of the relevant UN Security Council Resolutions, and determining that such activities continue to represent a clear threat to international peace and security in the region and beyond.
- (3) On 12 December 2016, the Council adopted conclusions strongly condemning the nuclear tests and multiple ballistic missile launches conducted by the DPRK in 2016 and declaring that they represent a serious threat to international peace and security and undermine the global non-proliferation and disarmament regime of which the Union has been a steadfast supporter for decades.
- (4) In the light of the DPRK's actions, which are considered to be a grave threat to international peace and security in the region and beyond, the Council has decided to impose additional restrictive measures.
- (5) The Council decided to expand the prohibition on investment in and with the DPRK to new sectors, namely, the conventional arms-related industry, metallurgy and metalworking, and aerospace.
- (6) The Council agreed to prohibit the provision of certain services to persons or entities in the DPRK. This prohibition relates to computer and related services, to services incidental to mining, to services incidental to manufacturing in the chemical, mining and refining industry, and to other prohibited areas for investment from the Union.
- (7) The Council calls again on the DPRK to re-engage in a credible and meaningful dialogue with the international community, in particular within the framework of the Six Party Talks, to cease its provocations, and to abandon all nuclear weapons and existing nuclear programmes in a complete, verifiable and irreversible manner.
- (8) Further action by the Union is needed in order to implement certain measures provided for in this Decision.
- (9) Decision (CFSP) 2016/849 should therefore be amended accordingly,

HAS ADOPTED THIS DECISION:

Article 1

Decision (CFSP) 2016/849 is amended as follows:

(1) in Article 11(2), point (a) is replaced by the following:
