## COMMISSION REGULATION (EU) 2017/776

of 4 May 2017

**amending, for the purposes of its adaptation to technical and scientific progress, Regulation (EC) No 1272/2008 of the European Parliament and of the Council on classification, labelling and packaging of substances and mixtures**

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006 <sup>(1)</sup>, and in particular Article 37(5) thereof,

Whereas:

- (1) Table 3.1 of Part 3 of Annex VI to Regulation (EC) No 1272/2008 contains the list of harmonised classification and labelling of hazardous substances based on the criteria set out in Parts 2 to 5 of Annex I to that Regulation.
- (2) Proposals for new, updated or deleted harmonised classification and labelling of certain substances have been submitted to the European Chemicals Agency (ECHA) pursuant to Article 37 of Regulation (EC) No 1272/2008. Based on the opinions on those proposals issued by the Committee for Risk Assessment of ECHA (RAC), as well as on the comments received from the parties concerned, it is appropriate to introduce, update or delete harmonised classification and labelling of certain substances.
- (3) The Acute Toxicity Estimates (ATE) are mainly used to determine the classification for human health acute toxicity of mixtures containing substances classified for acute toxicity. The inclusion of harmonised ATE values in the entries listed in Annex VI to Regulation (EC) No 1272/2008 would facilitate the harmonisation of the classification of mixtures and provide support for enforcement authorities. The ATE values harmonised in accordance with Article 37 should be added in the penultimate column of Table 3.1 of Part 3 of Annex VI to that Regulation. Pursuant to Article 38(1)(e) those values are to be mentioned in the opinions and decisions for harmonised classification. The title of the column of Table 3.1 of Part 3 as well as section 1.1.2.3 of Part 1 of Annex VI to Regulation (EC) No 1272/2008 should be amended consequently.
- (4) Compliance with the new harmonised classifications and the new provision on the ATE in section 1.1.2.3 of Part 1 of Annex VI to Regulation (EC) No 1272/2008 should not be required immediately, as a certain period of time will be necessary to allow suppliers to adapt the labelling and packaging of substances and mixtures to the new classifications and to sell existing stocks. That period of time will also be necessary to allow suppliers to adapt to and to comply with other legislative obligations resulting from the new harmonised classifications for substances such as those set out in Article 22(f) or Article 23 of Regulation (EC) No 1907/2006 of the European

<sup>(1)</sup> OJ L 353, 31.12.2008, p. 1.

Parliament and of the Council <sup>(1)</sup>, those set out in Article 50 of Regulation (EU) No 528/2012 of the European Parliament and of the Council <sup>(2)</sup> or those set out in Article 44 of Regulation (EC) No 1107/2009 of the European Parliament and of the Council <sup>(3)</sup>.

- (5) Table 3.2 of Annex VI to Regulation (EC) No 1272/2008, which lists the harmonised classification and labelling of hazardous substances based on the criteria set out in Council Directive 67/548/EEC <sup>(4)</sup>, has been deleted with effect from 1 June 2017. For reasons of consistency, the references to Table 3.2 in Parts 1 and 3 of Annex VI to Regulation (EC) No 1272/2008 should be deleted with effect from the same date. For reasons of clarity, Table 3.1 of Annex VI to Regulation (EC) No 1272/2008 should become Table 3 and all references to Table 3.1 in that Annex should be changed accordingly.
- (6) Directive 67/548/EEC and Directive 1999/45/EC of the European Parliament and of the Council <sup>(5)</sup> have been repealed with effect from 1 June 2015. For reasons of consistency, the references to those Directives in the introductory part and in Parts 1 and 3 of Annex VI to Regulation (EC) No 1272/2008 should be deleted simultaneously with the changes regarding the references to Tables 3.1 and 3.2 of Annex VI to that Regulation with effect from 1 June 2017, which is the date provided for in Article 61(4) of Regulation (EC) No 1272/2008 before which mixtures which are classified, labelled and packaged in accordance with Directive 1999/45/EC and placed on the market before 1 June 2015 need not to be relabelled and repackaged in accordance with Regulation (EC) No 1272/2008.
- (7) Regulation (EC) No 1272/2008 should be amended accordingly.
- (8) In line with the transitional provisions of Regulation (EC) No 1272/2008 which allow the application of the new provisions at an earlier stage on a voluntary basis, suppliers should have the possibility of applying the new harmonised classifications and of adapting the labelling and packaging accordingly on a voluntary basis before the deadline for compliance.
- (9) The measures provided for in this Regulation are in accordance with the opinion of the Committee established by Article 133 of Regulation (EC) No 1907/2006,

HAS ADOPTED THIS REGULATION:

## ANNEX

Annex VI to Regulation (EC) No 1272/2008 is amended as follows:

(1) the introductory paragraphs are replaced by the following:

'Part 1 of this Annex provides an introduction to the list of harmonised classification and labelling, including information listed for each entry and related classifications and hazard statements in Table 3.

Part 2 of this Annex lays down general principles for preparing dossiers to propose and justify harmonised classification and labelling of substances at Union level.

Part 3 of this Annex lists hazardous substances for which harmonised classification and labelling have been established at Union level. In Table 3 the classification and labelling are based on the criteria in Annex I to this Regulation.;

(2) Part 1 is amended as follows:

(a) the title of Section 1.1.2 is replaced by the following:

**'1.1.2. Information related to the classification and labelling of each entry in Table 3';**

(b) Section 1.1.2.3 is replaced by the following:

**'1.1.2.3. Specific concentration limits, M-factors and Acute Toxicity Estimates (ATE)**

Specific concentration limits (SCL), where different from the generic concentration limits given in Annex I for a certain category, are given in a separate column together with the classification concerned using the same codes as under 1.1.2.1.1. Also harmonised ATEs are listed in the same column of table 3. The SCLs and harmonised ATEs must be used by the manufacturer, importer or downstream user for the classification of a mixture containing this substance. When applying an ATE, the additivity formula as described in 3.1.3.6 of Annex I shall be used. Where no specific concentration limits are given in this Annex for a certain category, the generic concentration limits given in Annex I must be applied for the classification of substances containing impurities, additives or individual constituents or for mixtures. If harmonised ATE values are missing for acute toxicity the correct value has to be established by using the available data.

Unless otherwise shown, the concentration limits are a percentage by weight of the substance calculated with reference to the total weight of the mixture.

In case an M-factor has been harmonised for substances classified as hazardous to the aquatic environment in the categories Aquatic Acute 1 or Aquatic Chronic 1, that M-factor is given in Table 3 in the same column as the specific concentration limits. In case an M-factor for Aquatic Acute 1 and an M-factor for Aquatic Chronic 1 have been harmonised, each M-factor shall be listed in the same line as its corresponding differentiation. Where a single M-factor is given in Table 3 and the substance is classified as Aquatic Acute 1 and Aquatic Chronic 1, that M-factor shall be used by the manufacturer, importer or downstream user for the classification of a mixture containing this substance for acute and long-term aquatic hazards using the summation method. Where no M-factor is given in Table 3, M-factor(s) based on available data for the substance shall be set by the manufacturer, importer or downstream user. For the setting and use of M-factors, see Section 4.1.3.5.5.5 of Annex I.;

(c) Section 1.1.3.1 is amended as follows:

(i) Note E is deleted;

- (ii) Note K is replaced by the following:

‘Note K:

The classification as a carcinogen or mutagen need not apply if it can be shown that the substance contains less than 0,1 % w/w 1,3-butadiene (Einecs No 203-450-8). If the substance is not classified as a carcinogen or mutagen, at least the precautionary statements (P102-)P210-P403 should apply. This note applies only to certain complex oil-derived substances in Part 3.’;

- (iii) Note P is replaced by the following:

‘Note P:

The classification as a carcinogen or mutagen need not apply if it can be shown that the substance contains less than 0,1 % w/w benzene (Einecs No 200-753-7).

When the substance is not classified as a carcinogen at least the precautionary statements (P102-)P260-P262-P301 + P310-P331 shall apply.

This note applies only to certain complex oil-derived substances in Part 3.’;

- (iv) Note S is replaced by the following:

‘Note S:

This substance may not require a label according to Article 17 (see Section 1.3 of Annex I) (Table 3).’;

- (v) in Note U, the title is replaced by the following:

‘Note U (Table 3).’;

- (d) Section 1.1.3.2 is amended as follows:

- (i) Note 1 is replaced by the following:

‘Note 1:

The concentration stated or, in the absence of such concentrations, the generic concentrations set out in this Regulation are the percentages by weight of the metallic element calculated with reference to the total weight of the mixture.’;

- (ii) Note 8 is added as follows:

‘Note 8:

The classification as a carcinogen need not apply if it can be shown that the maximum theoretical concentration of releasable formaldehyde, irrespective of the source, in the mixture as placed on the market is less than 0,1 %.’;

- (iii) Note 9 is added as follows:

‘Note 9:

The classification as a mutagen need not apply if it can be shown that the maximum theoretical concentration of releasable formaldehyde, irrespective of the source, in the mixture as placed on the market is less than 1 %.’;

- (e) Section 1.1.4 is deleted;

(f) The Title of Section 1.2 is replaced by the following:

**‘1.2. Classifications and hazard statements in Table 3 arising from translation of classifications listed in Annex I to directive 67/548/EEC’;**

(g) Section 1.2.1 is replaced by the following:

**‘1.2.1. Minimum classification**

For certain hazard classes, including acute toxicity and STOT repeated exposure, the classification according to the criteria in Directive 67/548/EEC does not correspond directly to the classification in a hazard class and category under this Regulation. In these cases the classification in this Annex shall be considered as a minimum classification. This classification shall be applied if none of the following conditions are fulfilled:

- the manufacturer or importer has access to data or other information, as specified in Part 1 of Annex I, that lead to classification in a more severe category compared to the minimum classification. Classification in the more severe category must then be applied,
- the minimum classification can be further refined based on the translation table in Annex VII when the physical state of the substance used in the acute inhalation toxicity test is known to the manufacturer or importer. The classification as obtained from Annex VII shall then substitute the minimum classification indicated in this Annex if it differs from it.

Minimum classification for a category is indicated by the reference \* in the column “Classification” in Table 3.

The reference \* can also be found in the column “Specific Conc. Limits and M-factors and Acute Toxicity Estimates (ATE)” where it indicates that the entry concerned had specific concentration limits under Directive 67/548/EEC for acute toxicity. These concentration limits cannot be “translated” into concentration limits under this Regulation, especially when a minimum classification is given. However, when the reference \* is shown, the classification for acute toxicity for this entry may be of special concern.’;

(h) Section 1.2.2 is replaced by the following:

**‘1.2.2. Route of exposure cannot be excluded**

For certain hazard classes, e.g. STOT, the route of exposure should be indicated in the hazard statement only if it is conclusively proven that no other route of exposure can cause the hazard in accordance to the criteria in Annex I. Under Directive 67/548/EEC the route of exposure was indicated for classifications with R48 when there was data justifying the classification for this route of exposure. The classification under 67/548/EEC indicating the route of exposure has been translated into the corresponding class and category according to this Regulation, but with a general hazard statement not specifying the route of exposure as the necessary information is not available.

These hazard statements are indicated by the reference \*\* in Table 3.’;

(i) Section 1.2.3 is replaced by the following:

**‘1.2.3. Hazard statements for reproductive toxicity**

Hazard statements H360 and H361 indicate a general concern for effects on fertility and/or development: “May damage/Suspected of damaging fertility or the unborn child”. According to the criteria, the general hazard statement can be replaced by the hazard statement indicating the specific effect of concern in accordance with Section 1.1.2.1.2. When the other differentiation is not mentioned, this is due to evidence proving no such effect, inconclusive data or no data and the obligations in Article 4(3) shall apply for that differentiation.

In order not to lose information from the harmonised classifications for fertility and developmental effects under Directive 67/548/EEC, the classifications have been translated only for those effects classified under that Directive.

These hazard statements are indicated by the reference \*\*\* in Table 3.;

(j) Section 1.2.4 is replaced by the following:

**‘1.2.4. *Correct classification for physical hazards could not be established***

For some entries the correct classification for physical hazards could not be established because sufficient data are not available for the application of the classification criteria in this Regulation. The entry might be assigned to a different (also higher) category or even another hazard class than indicated. The correct classification shall be confirmed by testing.

The entries with physical hazards that need to be confirmed by testing are indicated by the reference \*\*\*\* in Table 3.;

(3) Part 3 is amended as follows:

(a) the header of Part 3 is replaced by the following:

‘3. PART 3: HARMONISED CLASSIFICATION AND LABELLING TABLE;

(b) the introductory paragraphs are deleted;

(c) the title of Table 3.1 is replaced by the following:

**‘Table 3**

*List of harmonised classification and labelling of hazardous substances;*

(d) Table 3 is amended as follows:

(i) the title of the penultimate column is replaced by ‘Specific Conc. Limits, M-factors and ATE’;

(ii) the entries corresponding to index numbers 006-046-00-8, 604-057-00-8, 605-023-00-5, 606-041-00-6, 607-123-00-4, 608-055-00-8, 612-150-00-X, 613-318-00-5, 614-001-00-4, 615-013-00-2, 616-006-00-7, 616-094-00-7 and 650-032-00-X are replaced by the following corresponding entries:

**COMMISSION IMPLEMENTING REGULATION (EU) 2017/777****of 4 May 2017**

**initiating a review of Council Implementing Regulation (EU) No 501/2013 (extending the definitive anti-dumping duty on imports of bicycles originating in the People's Republic of China to imports of bicycles consigned from Indonesia, Malaysia, Sri Lanka and Tunisia, whether declared as originating in Indonesia, Malaysia, Sri Lanka and Tunisia or not) for the purposes of determining the possibility of granting an exemption from those measures to one Tunisian exporting producer, repealing the anti-dumping duty with regard to imports from that exporting producer and making imports from that exporting producer subject to registration**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2016/1036 of the European Parliament and of the Council of 8 June 2016 on protection against dumped imports from countries not members of the European Union <sup>(1)</sup> ('the basic anti-dumping Regulation'), and in particular Articles 11(4), 13(4) and 14(5) thereof,

After informing the Member States,

Whereas:

**1. REQUEST**

- (1) The European Commission ('the Commission') received a request for an exemption from the anti-dumping measures applicable to imports of bicycles originating in the People's Republic of China extended to imports of bicycles consigned from Indonesia, Malaysia, Sri Lanka and Tunisia, whether declared as originating in Indonesia, Malaysia, Sri Lanka and Tunisia or not, pursuant to Articles 11(4) and 13(4) of the basic anti-dumping Regulation.
- (2) The request was lodged on 13 September 2016 by Look Design System SA ('the applicant'), an exporting producer of bicycles in Tunisia ('the country concerned').

**2. PRODUCT UNDER REVIEW**

- (3) The product under review is bicycles and other cycles (including delivery tricycles, but excluding unicycles), not motorised, consigned from Indonesia, Malaysia, Sri Lanka and Tunisia, whether declared as originating in Indonesia, Malaysia, Sri Lanka and Tunisia or not, currently falling within CN codes ex 8712 00 30 and ex 8712 00 70 (TARIC code 8712 00 30 10 and 8712 00 70 91).

**3. EXISTING MEASURES**

- (4) On 29 May 2013 the Council, by Regulation (EU) No 502/2013 <sup>(2)</sup>, amended Council Implementing Regulation (EU) No 990/2011 <sup>(3)</sup> imposing a definitive anti-dumping duty on imports of bicycles originating in the PRC, following an interim review pursuant to Article 11(3) of Council Regulation (EC) No 1225/2009 <sup>(4)</sup>.

<sup>(1)</sup> OJ L 176, 30.6.2016, p. 21.

<sup>(2)</sup> Council Regulation (EU) No 502/2013 of 29 May 2013 amending Implementing Regulation (EU) No 990/2011 imposing a definitive anti-dumping duty on imports of bicycles originating in the People's Republic of China following an interim review pursuant to Article 11(3) of Regulation (EC) No 1225/2009 (OJ L 153, 5.6.2013, p. 17).

<sup>(3)</sup> Council Implementing Regulation (EU) No 990/2011 of 3 October 2011 imposing a definitive anti-dumping duty on imports of bicycles originating in the People's Republic of China following an expiry review pursuant to Article 11(2) of Regulation (EC) No 1225/2009 (OJ L 261, 6.10.2011, p. 2).

<sup>(4)</sup> Council Regulation (EC) No 1225/2009 of 30 November 2009 on protection against dumped imports from countries not members of the European Community (OJ L 343, 22.12.2009, p. 51).

- (5) On the same date, the Council, by Implementing Regulation (EU) No 501/2013 <sup>(1)</sup> extended the measures to imports of bicycles originating in the People's Republic of China to imports of bicycles consigned from Indonesia, Malaysia, Sri Lanka and Tunisia, whether declared as originating in Indonesia, Malaysia, Sri Lanka and Tunisia or not.
- (6) On 18 May 2015 the Commission, by Implementing Regulation (EU) 2015/776 <sup>(2)</sup>, extended the measures to imports of bicycles originating in the People's Republic of China to imports of bicycles consigned from Cambodia, Pakistan and the Philippines, whether declared as originating in Cambodia, Pakistan and the Philippines or not.

#### 4. GROUNDS FOR THE REVIEW

- (7) The applicant alleged that it is not related to any of the exporters or producers in the country concerned which are subject to the anti-dumping measures on the product under review.
- (8) Also, the applicant alleged that it did not export the product under review to the Union during the investigation period used in the investigation that led to the extended measures, namely the period from 1 September 2011 to 31 August 2012.
- (9) In addition, the applicant alleged that it has not circumvented the existing measures.
- (10) Finally, the applicant provided evidence that it has exported the product under review to the Union in August 2016.

#### 5. PROCEDURE

##### 5.1. Initiation

- (11) The Commission examined the evidence available and concluded that there was sufficient evidence to justify the initiation of an investigation pursuant to Articles 11(4) and 13(4) of the basic anti-dumping Regulation for the purposes of determining the possibility of granting the applicant an exemption from the extended measures.

The Union industry known to be concerned was informed of the request for a review and was given an opportunity to comment, but no comments were received.

##### 5.2. Repeal of the existing anti-dumping measures and registration of imports

- (12) Pursuant to Article 11(4) of the basic anti-dumping Regulation, the anti-dumping duty in force should be repealed with regard to imports of the product under review which are produced and sold for export to the Union by the applicant.
- (13) At the same time, such imports should be made subject to registration in accordance with Article 14(5) of the basic anti-dumping Regulation in order to ensure that, should the review result in a finding of circumvention in respect of the applicant, anti-dumping duties can be levied from the date of the registration of these imports. The amount of the applicant's possible future liabilities cannot be estimated at this stage of the investigation.

The Hearing Officer acts as an interface between the interested parties and the Commission investigation services. The Hearing Officer may organise a hearing with an individual interested party and mediate to ensure that the interested parties' rights of defence are being fully exercised. The Hearing Officer will also provide opportunities for a hearing involving parties to take place which would allow different views to be presented and rebuttal arguments offered.
- (27) A request for a hearing with the Hearing Officer should be made in writing and should specify the reasons for the request. For hearings on issues pertaining to the initial stage of the investigation the request must be submitted within 15 days of the date of entry into force of this Regulation. Thereafter, a request to be heard must be submitted within specific deadlines set by the Commission in its communication with the parties.

## COMMISSION IMPLEMENTING DECISION (EU) 2017/780

of 3 May 2017

### amending the Annex to Implementing Decision (EU) 2017/247 on protective measures in relation to outbreaks of the highly pathogenic avian influenza in certain Member States

(notified under document C(2017) 2938)

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 89/662/EEC of 11 December 1989 concerning veterinary checks in intra-Community trade with a view to the completion of the internal market <sup>(1)</sup>, and in particular Article 9(4) thereof,

Having regard to Council Directive 90/425/EEC of 26 June 1990 concerning veterinary and zootechnical checks applicable in intra-Community trade in certain live animals and products with a view to the completion of the internal market <sup>(2)</sup>, and in particular Article 10(4) thereof,

Whereas:

- (1) Commission Implementing Decision (EU) 2017/247 <sup>(3)</sup> was adopted following outbreaks of highly pathogenic avian influenza of subtype H5 in a number of Member States (the concerned Member States), and the establishment of protection and surveillance zones by the competent authority of the concerned Member States in accordance with Council Directive 2005/94/EC <sup>(4)</sup>.
- (2) Implementing Decision (EU) 2017/247 provides that the protection and surveillance zones established by the competent authorities of the concerned Member States in accordance with Directive 2005/94/EC are to comprise at least the areas listed as protection and surveillance zones in the Annex to that Implementing Decision. Implementing Decision (EU) 2017/247 also lays down that the measures to be applied in the protection and surveillance zones, as provided for in Article 29(1) and Article 31 of Directive 2005/94/EC, are to be maintained until at least the dates for those zones set out in the Annex to that Implementing Decision.
- (3) The Annex to Implementing Decision (EU) 2017/247 was subsequently amended by Commission Implementing Decisions (EU) 2017/417 <sup>(5)</sup>, (EU) 2017/554 <sup>(6)</sup> and (EU) 2017/696 <sup>(7)</sup>, in order to take account of changes to the protection and surveillance zones established by the competent authorities of the Member States in accordance with Directive 2005/94/EC, following further outbreaks of highly pathogenic avian influenza of subtype H5 in the Union. In addition, Implementing Decision (EU) 2017/247 was amended by Implementing

<sup>(1)</sup> OJ L 395, 30.12.1989, p. 13.

<sup>(2)</sup> OJ L 224, 18.8.1990, p. 29.

<sup>(3)</sup> Commission Implementing Decision (EU) 2017/247 of 9 February 2017 on protective measures in relation to outbreaks of the highly pathogenic avian influenza in certain Member States (OJ L 36, 11.2.2017, p. 62).

<sup>(4)</sup> Council Directive 2005/94/EC of 20 December 2005 on Community measures for the control of avian influenza and repealing Directive 92/40/EEC (OJ L 10, 14.1.2006, p. 16).

<sup>(5)</sup> Commission Implementing Decision (EU) 2017/417 of 7 March 2017 amending the Annex to Implementing Decision (EU) 2017/247 on protective measures in relation to outbreaks of the highly pathogenic avian influenza in certain Member States (OJ L 63, 9.3.2017, p. 177).

<sup>(6)</sup> Commission Implementing Decision (EU) 2017/554 of 23 March 2017 amending the Annex to Implementing Decision (EU) 2017/247 on protective measures in relation to outbreaks of the highly pathogenic avian influenza in certain Member States (OJ L 79, 24.3.2017, p. 15).

<sup>(7)</sup> Commission Implementing Decision (EU) 2017/696 of 11 April 2017 amending Implementing Decision (EU) 2017/247 on protective measures in relation to outbreaks of the highly pathogenic avian influenza in certain Member States (OJ L 101, 13.4.2017, p. 80).

Decision (EU) 2017/696 in order to lay down rules regarding the dispatch of consignments of day-old chicks from the areas listed in the Annex to Implementing Decision (EU) 2017/247, following certain improvements in the epidemiological situation as regards that virus in the Union.

- (4) While there has been a general overall improvement in the epidemiological situation in the Union as regards highly pathogenic avian influenza, since the date of the last amendments made to Implementing Decision (EU) 2017/247 by Implementing Decision (EU) 2017/696, Germany, Italy, Hungary, Slovakia and Sweden have notified the Commission of further outbreaks of highly pathogenic avian influenza of subtype H5 in holdings located outside the areas currently listed in the Annex to Implementing Decision (EU) 2017/247 for those Member States, and they have taken the necessary measures required in accordance with Directive 2005/94/EC, including the establishment of protection and surveillance zones around those new outbreaks.
- (5) Hungary has also established a surveillance zone in accordance with Directive 2005/94/EC in relation to an outbreak confirmed in Slovakia, near the boundary with Hungary.
- (6) In addition, as a precautionary measure against the spread of highly pathogenic avian influenza of subtype H5, France has decided to prolong the duration of the measures to be applied in the protection and surveillance zones for that Member State, as listed in the Annex to Implementing Decision (EU) 2017/247.
- (7) The Commission has examined the measures taken by Germany, Italy, Hungary, Slovakia and Sweden in accordance with Directive 2005/94/EC, following the latest outbreaks of avian influenza of subtype H5 in those Member States, and it has satisfied itself that the boundaries of the protection and surveillance zones, established by the competent authorities of those Member States, are at a sufficient distance to any holding where an outbreak of highly pathogenic avian influenza of subtype H5 has been confirmed.
- (8) The Commission has also examined the dates put forward by France for the prolongation of the measures to be applied in the protection and surveillance zones listed for that Member State in the Annex to Implementing Decision (EU) 2017/247, and those new dates are appropriate on the basis of the information received by it regarding the epidemiological situation in that Member State.
- (9) In order to prevent any unnecessary disturbance to trade within the Union and to avoid unjustified barriers to trade being imposed by third countries, it is necessary to rapidly describe at Union level, in collaboration with Germany, Italy, Hungary, Slovakia and Sweden, the new protection and surveillance zones established in those Member States in accordance with Directive 2005/94/EC. Therefore, the areas listed for those Member States in the Annex to Implementing Decision (EU) 2017/247 should be amended. In addition, it is appropriate to amend the dates for the application of the protective measures to be applied in the protection and surveillance zones for France, as set out in that Annex.
- (10) Accordingly, the Annex to Implementing Decision (EU) 2017/247 should be amended to update regionalization at Union level to include the new protection and surveillance zones established in accordance with Directive 2005/94/EC and the duration of the restrictions applicable therein, as well as the prolongation of the protective measures in the areas listed for France in that Annex.
- (11) Implementing Decision (EU) 2017/247 should therefore be amended accordingly.
- (12) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS DECISION:
