## COMMISSION IMPLEMENTING REGULATION (EU) 2020/277

of 26 February 2020

**amending Regulation (EC) No 1484/95 as regards fixing representative prices in the poultrymeat and egg sectors and for egg albumin**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 1308/2013 of the European Parliament and of the Council of 17 December 2013 establishing a common organisation of the markets in agricultural products and repealing Council Regulations (EEC) No 922/72, (EEC) No 234/79, (EC) No 1037/2001 and (EC) No 1234/2007 <sup>(1)</sup>, and in particular Article 183(b) thereof,

Having regard to Regulation (EU) No 510/2014 of the European Parliament and of the Council of 16 April 2014 laying down the trade arrangements applicable to certain goods resulting from the processing of agricultural products and repealing Council Regulations (EC) No 1216/2009 and (EC) No 614/2009 <sup>(2)</sup>, and in particular Article 5(6)(a) thereof,

Whereas:

- (1) Commission Regulation (EC) No 1484/95 <sup>(3)</sup> lays down detailed rules for implementing the system of additional import duties and fixes representative prices in the poultrymeat and egg sectors and for egg albumin.
- (2) Regular monitoring of the data used to determine representative prices for poultrymeat and egg products and for egg albumin shows that the representative import prices for certain products should be amended to take account of variations in price according to origin.
- (3) Regulation (EC) No 1484/95 should therefore be amended accordingly.
- (4) Given the need to ensure that this measure applies as soon as possible after the updated data have been made available, this Regulation should enter into force on the day of its publication,

HAS ADOPTED THIS REGULATION:

*Article 1*

Annex I to Regulation (EC) No 1484/95 is replaced by the text set out in the Annex to this Regulation.

*Article 2*

This Regulation shall enter into force on the day of its publication in the *Official Journal of the European Union*.

**COMMISSION REGULATION (EU) 2020/279****of 27 February 2020****amending Annex II to Regulation (EC) No 1333/2008 of the European Parliament and of the Council  
as regards the use of soybean hemicellulose (E 426)****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1333/2008 of the European Parliament and of the Council of 16 December 2008 on food additives <sup>(1)</sup>, and in particular Article 10(3) thereof,

Whereas:

- (1) Annex II to Regulation (EC) No 1333/2008 lays down a Union list of food additives approved for use in food and their conditions of use.
- (2) That list may be updated in accordance with the common procedure referred to in Article 3(1) of Regulation (EC) No 1331/2008 of the European Parliament and of the Council <sup>(2)</sup>, either on the initiative of the Commission or following an application.
- (3) Pursuant to Annex II to Regulation (EC) No 1333/2008, soybean hemicellulose (E 426) is currently authorised for use as a food additive in a wide variety of foods at maximum levels ranging between 1 500 and 30 000 mg/kg.
- (4) On 16 August 2017, an application was submitted for the extension of use of soybean hemicellulose (E 426) as a stabiliser in flavoured fermented milk products and flavoured drinks. The application was subsequently made available to the Member States pursuant to Article 4 of Regulation (EC) No 1331/2008.
- (5) Soybean hemicellulose (E 426), when used as a stabiliser in flavoured fermented milk products and flavoured drinks, prevents an agglomeration and precipitation of proteins and phase separation under acidic conditions.
- (6) Pursuant to Article 3(2) of Regulation (EC) No 1331/2008, the Commission has to seek the opinion of the European Food Safety Authority ('the Authority') in order to update the Union list of food additives set out in Annex II to Regulation (EC) No 1333/2008, except where the update in question is not liable to have an effect on human health.
- (7) On 14 March 2017, the Authority published a scientific opinion re-evaluating the safety of soybean hemicellulose (E 426) as a food additive <sup>(3)</sup>. The Authority concluded that it is very unlikely that there is a safety concern from the current use of soybean hemicellulose (E 426) as a food additive, and that there is no need for a numerical acceptable daily intake (ADI). Such conclusion is used for substances of a very low safety concern and only if there is reliable information for both exposure and toxicity and there is a low probability of adverse health effects in humans at doses that do not induce nutritional imbalance in animals <sup>(4)</sup>.

<sup>(1)</sup> OJ L 354, 31.12.2008, p. 16.

<sup>(2)</sup> Regulation (EC) No 1331/2008 of the European Parliament and of the Council of 16 December 2008 establishing a common authorisation procedure for food additives, food enzymes and food flavourings (OJ L 354, 31.12.2008, p. 1).

<sup>(3)</sup> EFSA Journal 2017;15(3):4721.

<sup>(4)</sup> EFSA Journal 2014;12(6):3697. Statement on a conceptual framework for the risk assessment of certain food additives re-evaluated under Commission Regulation (EU) No 257/2010.

- (8) Part C of Annex II to Regulation (EC) No 1333/2008 defines all groups of additives. In general, Group I of Part C lists food additives, except for colours and sweeteners, for which there is no need for a numerical acceptable daily intake and which are authorised for use in many foods in accordance with *quantum satis* principle as defined in Article 3(2) (h) of that Regulation.
- (9) The outcome of the safety assessment of soybean hemicellulose (E 426) allows its inclusion in Group I of Part C of Annex II to Regulation (EC) No 1333/2008. Since in accordance with Part E of Annex II to Regulation (EC) No 1333/2008 the use of Group I additives is already permitted in flavoured fermented milk products and flavoured drinks, the inclusion of soybean hemicellulose (E 426) in Group I would address the requested extension of use. The inclusion of soybean hemicellulose (E 426) in Group I would also make redundant the existing entries for soybean hemicellulose (E 426) in Part E of Annex II to Regulation (EC) No 1333/2008 since the use of Group I additives is permitted in all the concerned food categories, and they should be therefore deleted. Similarly, the existing reference to the maximum level of soybean hemicellulose (E 426) in the introduction part for food category 17 (Food supplements as defined in Directive 2002/46/EC of the European Parliament and of the Council <sup>(3)</sup>) in Part E of Annex II to Regulation (EC) No 1333/2008 should be deleted, since within Group I soybean hemicellulose (E 426) is to be authorised in accordance with the *quantum satis* principle.
- (10) Annex II to Regulation (EC) No 1333/2008 should therefore be amended accordingly.
- (11) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

*Article 1*

Annex II to Regulation (EC) No 1333/2008 is amended in accordance with the Annex to this Regulation.

*Article 2*

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Annex II to Regulation (EC) No 1333/2008 is amended as follows:

(1) in Part C, Group I, the entry for E 426 is inserted after the entry for E 425:

E 426	Soybean hemicellulose	<i>quantum satis</i>
-------	-----------------------	----------------------

(2) part E is amended as follows:

- (a) The entries for E 426 (Soybean hemicellulose) in categories 04.2.6 (Processed potato products), 05.2 (Other confectionery including breath freshening microsweets), 05.4 (Decorations, coatings and fillings, except fruit-based fillings covered by category 4.2.4), 06.5 (Noodles), 06.7 (Pre-cooked or processed cereals), 07.2 (Fine bakery wares), 10.2 (Processed eggs and egg products), 12.6 (Sauces), 14.1.4 (Flavoured drinks), 17.1 (Food supplements supplied in a solid form, excluding food supplements for infants and young children) and 17.2 (Food supplements supplied in a liquid form, excluding food supplements for infants and young children) are deleted.
- (b) The introductory part of entry for food category 17. 'Food supplements as defined in Directive 2002/46/EC' is replaced as follows:

'17.	<b>Food supplements as defined in Directive 2002/46/EC</b>
	INTRODUCTION PART, APPLIES TO ALL SUBCATEGORIES
	The maximum levels of use indicated for colours, polyols, sweeteners, and E 200-213, E 338-452, E 405, E 416, E 432-436, E 459, E 468, E 473-475, E 491-495, E 551-553, E 901-904, E 961, E 1201-1204, E 1505 and E 1521 refer to the food supplements ready for consumption prepared following the instructions of use provided by the manufacturer. The dilution factor for those food supplements that have to be diluted or dissolved has to be communicated together with the instructions of use.'

## COMMISSION IMPLEMENTING DECISION (EU) 2020/280

of 20 February 2020

### on the prolongation of enhanced surveillance for Greece

(notified under document C(2020) 901)

(Only the Greek text is authentic)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 472/2013 of the European Parliament and of the Council of 21 May 2013 on the strengthening of economic and budgetary surveillance of Member States in the euro area experiencing or threatened with serious difficulties with respect to their financial stability <sup>(1)</sup>, and in particular Article 2(1) thereof,

Whereas:

- (1) Following the expiry of the European Stability Mechanism financial assistance on 20 August 2018, the Commission Implementing Decision (EU) 2018/1192 <sup>(2)</sup> activated enhanced surveillance for Greece for a period of six months, as from 21 August 2018. Enhanced surveillance was subsequently prolonged twice <sup>(3)</sup>, each time for an additional period of six months, the last time as from 21 August 2019.
- (2) Since 2010, Greece has received a substantial amount of financial assistance, as a result of which Greece's outstanding liabilities towards the euro-area Member States, the European Financial Stability Facility and the European Stability Mechanism come to a total amount of EUR 243 700 million. Greece received financial support from its European partners on concessional terms and specific measures to place debt on a more sustainable footing were adopted in 2012 and again by the European Stability Mechanism in 2017. On 22 June 2018, it was politically agreed in the Eurogroup to implement additional measures to ensure debt sustainability. These include the extension of weighted average maturities by an additional 10 years, the deferral of interest and amortisation by an additional 10 years as well as the implementation of other debt measures. Two additional measures (the abolition of the step-up interest rate margin related to the debt buy-back tranche of the European Financial Stability Facility programme as of 2018 and the restoration of the transfer of equivalent amounts to the income earned by euro-area national central banks on Greek government bonds held under the Agreement on Net Financial Assets and the Securities Market Programme) can be agreed bi-annually in the Eurogroup on the basis of positive reporting under enhanced surveillance on Greece's compliance with its post-programme policy commitments. In this regard, the release of the first and second tranches of policy-contingent debt measures were implemented following agreement by the Eurogroup in April and December 2019 respectively.
- (3) Greece has made a commitment in the Eurogroup to continue and complete all key reforms adopted under the European Stability Mechanism stability support programme ('the programme') and to safeguard the objectives of the important reforms adopted under that programme and its predecessors. Greece has also committed to implement specific actions in the areas of fiscal and fiscal-structural policies, social welfare, financial stability, labour and product markets, privatisation and public administration. Those specific actions, which are set out in an annex to the Eurogroup statement of 22 June 2018, will contribute to addressing Greece's excessive macroeconomic imbalances and the sources or potential sources of economic difficulties.

<sup>(1)</sup> OJ L 140, 27.5.2013, p. 1.

<sup>(2)</sup> Commission Implementing Decision (EU) 2018/1192 of 11 July 2018 on the activation of enhanced surveillance for Greece (OJ L 211, 22.8.2018, p. 1).

<sup>(3)</sup> Commission Implementing Decision (EU) 2019/338 (OJ L 60, 28.2.2019, p. 17) and Commission Implementing Decision (EU) 2019/1287 (OJ L 202, 31.7.2019, p. 110).

- (4) On 27 February 2019, the Commission published the 2019 country report for Greece <sup>(4)</sup>. The Commission concluded that while Greece has successfully restored its budget balance and significantly narrowed the deficit in the current account, it is experiencing excessive macroeconomic imbalances <sup>(5)</sup> as a legacy of the crisis. These relate to the high public debt, the negative net international investment position, the high level of non-performing loans on banks' balance sheets, and the still high unemployment rate. These findings were further confirmed by the Alert Mechanism Report, adopted by the Commission on 17 December 2019 on the basis of Regulation (EU) No 1176/2011 of the European Parliament and of the Council <sup>(6)</sup>, which identified Greece as one of the Member States for which an in-depth review would be carried out in 2020. In particular, the report shows that public debt in Greece stood at 181,2 % of Gross Domestic Product at the end of 2018, the highest level in the Union. The net international investment position of -143,3 % of Gross Domestic Product in 2018 remains very high, though this includes large external public debt at highly concessional terms. Moreover, in spite of the significant narrowing of the current account deficit, it still remains insufficient to support a reduction of the very large net international investment position at a satisfactory pace to bring it down to levels considered prudent. While unemployment has continued to decline from its peak of 27,8 % in 2013, it still stood at 16,6 % in October 2019. Long-term unemployment (12,1 % in the third quarter of 2019) and youth unemployment (35,6 % in October 2019) remain very high, though they have also declined substantially compared to their peaks during the crisis (long term unemployment had peaked at 19,9 % in the second quarter of 2014 and youth unemployment at 60,2 % in February 2013).
- (5) In light of the Commission's 2019 in-depth review and on the basis of a Commission assessment, the Council examined the 2019 National Reform Programme and the 2019 Stability Programme. It recommended <sup>(7)</sup> Greece to take action in 2019 and 2020 to achieve a sustainable economic recovery and tackle the excessive macroeconomic imbalances by continuing and completing reforms in line with the post-programme commitments given at the Eurogroup of 22 June 2018. The Council also recommended Greece to focus its investment-related economic policy in specific priority areas with a view to providing a solid underpinning for growth, while reducing regional disparities and ensuring social inclusion.
- (6) The Commission published its fourth assessment under enhanced surveillance on Greece <sup>(8)</sup> on 20 November 2019. It concluded that Greece has taken the necessary actions to achieve its specific reform commitments for mid-2019, but that further actions will be crucial to complete, and where necessary accelerate, reforms. This assessment took into account the efforts of the new administration over the preceding months to implement the commitments, in the context of advancing a broader reform agenda, and its willingness to prepare them in close cooperation with the institutions.
- (7) The authorities are in the process of catching up with the financial sector reforms but the plans will need to be firmed up going forward. The liquidity situation of Greek banks has further improved and there are signs that the banks' market access is gradually re-established but legacy risks and challenges remain high. Their capital position remains adequate but may face near term pressures, for instance due to the gradual phasing out of transitional prudential arrangements. Banks still have to deal with a large stock of non-performing loans: Although the stock has been gradually declining from its peak of EUR 107,2 billion reached in March 2016, at end-September 2019, the stock was still very high at EUR 71,2 billion or 42,1 % of total on-balance-sheet gross customer loan exposures. The recently adopted Hercules asset protection scheme, once implemented, aims to facilitate a significant acceleration of the current strategies for the reduction of non-performing loans in the banking sector. Other challenges include the fragile profitability in the current low interest-rate environment and the strong sovereign-bank nexus, including through the high share of deferred tax credits in banks' capital. The improving liquidity situation of Greek banks and increased depositor confidence led to the complete lifting of capital controls as of 1 September 2019.

<sup>(4)</sup> SWD(2019) 1007 final.

<sup>(5)</sup> COM(2019) 150 final.

<sup>(6)</sup> Regulation (EU) No 1176/2011 of the European Parliament and of the Council of 16 November 2011 on the prevention and correction of macroeconomic imbalances (OJ L 306, 23.11.2011, p. 25).

<sup>(7)</sup> Council Recommendation of 9 July 2019 on the 2019 National Reform Programme of Greece and delivering a Council opinion on the 2019 Stability Programme of Greece.

<sup>(8)</sup> European Commission: Enhanced Surveillance Report – Greece, November 2019, Institutional Paper 116, November 2019.

- (8) Notwithstanding progress over the last years, Greece still faces major challenges with regard to its business environment and judicial system. Whilst Greece has made progress in areas such as reducing the time to register a business and strengthening the protection of minority investors, it still lags far behind the best-performance frontier in several areas of the structural components of leading comparative indicators (e.g. time to reach a judicial decision, enforcing contracts, registering property, resolving insolvency, etc.).
- (9) After being cut off from financial market borrowing in 2010, Greece started to regain market access through issuances of government bonds as from July 2017. Greek government bond yields started to slowly moderate after the successful conclusion of the ESM programme in 2018 and declined significantly further in the second half of 2019, reaching record lows of 1,4 % on the 10-year tenure in December 2019, down from 4,3 % a year earlier. Greece's borrowing conditions nonetheless remain fragile against the background of external economic risks and domestic vulnerabilities. Greece has also benefited from upgrades from credit rating agencies but remains below investment grade.
- (10) In light of the above, the Commission concludes that the conditions justifying the establishment of enhanced surveillance pursuant to Article 2 of Regulation (EC) No 472/2013 are still present. In particular, Greece continues to face risks with respect to its financial stability which, if they materialise, could have adverse spill-over effects on other euro-area Member States. Should any spillover effects materialise, they could occur indirectly by impacting investor confidence and thus refinancing costs for banks and sovereigns in other euro-area Member States.
- (11) Therefore, over the medium term, Greece needs to continue adopting measures to address the sources or potential sources of difficulties and implementing structural reforms to support a robust and sustainable economic recovery, with a view to alleviate the legacy effects of several factors. These include the severe and protracted downturn during the crisis; the size of Greece's debt burden; its financial sector vulnerabilities; the continued relatively strong interlinkages between the financial sector and Greek public finances, including through State ownership; the risk of contagion of severe tensions in either of those sectors to other Member States, as well as euro-area Member States' exposure to the Greek sovereign.
- (12) In order to address residual risks and monitor the fulfilment of the commitments geared thereto, it appears necessary and appropriate to prolong the enhanced surveillance of Greece pursuant to Article 2(1) of Regulation (EU) No 472/2013.
- (13) Greece was given the opportunity to express its views on the assessment of the Commission, via a letter sent on 22 January 2020. In its response on 27 January 2020, Greece broadly concurred with the Commission's assessment of the economic challenges it faces, which is the basis for prolonging enhanced surveillance.
- (14) Greece will continue to benefit from technical support under the Structural Reform Support Programme (as laid down in Regulation (EU) 2017/825 of the European Parliament and of the Council<sup>(9)</sup>) for the design and implementation of reforms, including for the continuation and completion of key reforms in line with the policy commitments monitored under enhanced surveillance.
- (15) The Commission intends to closely collaborate with the European Stability Mechanism, in the context of its Early Warning System, in implementing the enhanced surveillance,

HAS ADOPTED THIS DECISION:

#### *Article 1*

The period of enhanced surveillance of Greece under Article 2(1) of Regulation (EU) No 472/2013 activated by Implementing Decision (EU) 2018/1192 shall be prolonged for an additional period of six months, commencing on 21 February 2020.

<sup>(9)</sup> Regulation (EU) 2017/825 of the European Parliament and the Council of 17 May 2017 on the establishment of the Structural Reform Support Programme for the period 2017 to 2020 and amending Regulations (EU) No 1303/2013 and (EU) No 1305/2013 (OJ L 129.19.5.2017, p. 1).

**COMMISSION IMPLEMENTING DECISION (EU) 2020/281****of 27 February 2020****amending the Annex to Implementing Decision (EU) 2020/47 on protective measures in relation to highly pathogenic avian influenza of subtype H5N8 in certain Member States***(notified under document C(2020) 1248)***(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 89/662/EEC of 11 December 1989 concerning veterinary checks in intra-Community trade with a view to the completion of the internal market <sup>(1)</sup>, and in particular Article 9(4) thereof,Having regard to Council Directive 90/425/EEC of 26 June 1990 concerning veterinary checks applicable in intra-Union trade in certain live animals and products with a view to the completion of the internal market <sup>(2)</sup>, and in particular Article 10(4) thereof,

Whereas:

- (1) Commission Implementing Decision (EU) 2020/47 <sup>(3)</sup> was adopted following outbreaks of highly pathogenic avian influenza of subtype H5N8 in holdings where poultry are kept in certain Member States, and the establishment of protection and surveillance zones by those Member States in accordance with Council Directive 2005/94/EC <sup>(4)</sup>.
- (2) Implementing Decision (EU) 2020/47 provides that the protection and surveillance zones established by the Member States listed in the Annex to that Implementing Decision, in accordance with Directive 2005/94/EC, are to comprise at least the areas listed as protection and surveillance zones in that Annex.
- (3) The Annex to Implementing Decision 2020/47 was recently amended by Commission Implementing Decision (EU) 2020/240 <sup>(5)</sup>, following outbreaks of highly pathogenic avian influenza of subtype H5N8 in poultry in Bulgaria and Czechia that needed to be reflected in that Annex.
- (4) Since the date of adoption of Implementing Decision (EU) 2020/240, Poland has notified the Commission of additional outbreaks of highly pathogenic avian influenza of subtype H5N8 in holdings where poultry are kept, in the Kedzierzynsko-Kozielski, Sieradzki, Gliwicki, Lodzki Wschodni, Lowicki, Kolski and Poddebicki districts.
- (5) In addition, Bulgaria has notified the Commission of additional outbreaks of highly pathogenic avian influenza of subtype H5N8 in holdings where poultry are kept in the Plovdiv region.

<sup>(1)</sup> OJ L 395, 30.12.1989, p. 13.

<sup>(2)</sup> OJ L 224, 18.8.1990, p. 29.

<sup>(3)</sup> Commission Implementing Decision (EU) 2020/47 of 20 January 2020 on protective measures in relation to highly pathogenic avian influenza of subtype H5N8 in certain Member States (OJ L 16, 21.1.2020, p. 31).

<sup>(4)</sup> Council Directive 2005/94/EC of 20 December 2005 on Community measures for the control of avian influenza and repealing Directive 92/40/EEC (OJ L 10, 14.1.2006, p. 16).

<sup>(5)</sup> Commission Implementing Decision (EU) 2020/240 of 20 February 2020 amending the Annex to Implementing Decision (EU) 2020/47 on protective measures in relation to highly pathogenic avian influenza of subtype H5N8 in certain Member States (OJ L 48, 21.2.2020, p. 12).

- (6) The new outbreaks in Bulgaria and Poland are outside the areas currently listed in the Annex to Implementing Decision (EU) 2020/47, and the competent authorities of those Member States have taken the necessary measures required in accordance with Directive 2005/94/EC, including the establishment of protection and surveillance zones around those new outbreaks.
- (7) The Commission has examined the measures taken by Bulgaria and Poland in accordance with Directive 2005/94/EC and it is satisfied that the boundaries of the protection and surveillance zones, established by the competent authorities of those Member States, are at a sufficient distance to the holdings where the recent outbreaks of highly pathogenic avian influenza of subtype H5N8 have been confirmed.
- (8) In order to prevent any unnecessary disturbance to trade within the Union and to avoid unjustified barriers to trade being imposed by third countries, it is necessary to rapidly describe at Union level, in collaboration with Bulgaria and Poland, the new protection and surveillance zones established by those Member States in accordance with Directive 2005/94/EC. Therefore, the protection and surveillance zones listed for Bulgaria and Poland in the Annex to Implementing Decision (EU) 2020/47, should be amended.
- (9) Accordingly, the Annex to Implementing Decision (EU) 2020/47 should be amended to update regionalisation at Union level to include the new protection and surveillance zones established by Bulgaria and Poland, in accordance with Directive 2005/94/EC, and the duration of the restrictions applicable therein.
- (10) Implementing Decision (EU) 2020/47 should therefore be amended accordingly.
- (11) Given the urgency of the epidemiological situation in the Union as regards the spread of highly pathogenic avian influenza of subtype H5N8, it is important that the amendments made to the Annex to Implementing Decision (EU) 2020/47 by this Decision should take effect as soon as possible.
- (12) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS DECISION:

*Article 1*

The Annex to Implementing Decision (EU) 2020/47 is replaced by the text set out in the Annex to this Decision.

*Article 2*

## ACTS ADOPTED BY BODIES CREATED BY INTERNATIONAL AGREEMENTS

### DECISION No 1/2019 OF THE EU-UKRAINE SANITARY AND PHYTOSANITARY MANAGEMENT SUB-COMMITTEE

of 18 November 2019

**modifying Annex V to Chapter 4 of the Association Agreement [2020/282]**

THE SANITARY AND PHYTOSANITARY MANAGEMENT SUB-COMMITTEE,

Having regard to the Association Agreement between the European Union and the European Atomic Energy Community and their Member States, of the one part, and Ukraine, of the other part, signed in Brussels on 27 June 2014, and in particular Article 74(2) thereof,

Whereas:

- (1) The Association Agreement between the European Union and the European Atomic Energy Community and their Member States, of the one part, and Ukraine, of the other part <sup>(1)</sup>, (the 'Association Agreement') entered into force on 1 September 2017.
- (2) Article 64(1) of the Association Agreement provides that Ukraine is to approximate its sanitary and phytosanitary and animal welfare legislation to that of the Union as set out in Annex V to Chapter 4 of the Association Agreement.
- (3) Ukraine has committed to submit a comprehensive strategy in the form of a list of the Union legislation regarding sanitary and phytosanitary measures and animal welfare (the 'List') to which it intends to approximate its domestic legislation. The List is to serve as the reference document for the implementation of Chapter 4 (Sanitary and Phytosanitary Measures) of Title IV (Trade and Trade-related Matters) of the Association Agreement, and it is to be added to Annex V to Chapter 4 of the Association Agreement.
- (4) Ukraine submitted the List to the European Commission in October 2018. Based on the List, the Sanitary and Phytosanitary Management Sub-Committee (the 'SPS Sub-Committee') is to adopt a decision modifying Annex V to Chapter 4 of the Association Agreement.
- (5) It is therefore appropriate that the SPS Sub-Committee adopts a decision to modify Annex V to Chapter 4 of the Association Agreement by replacing the existing Annex V to Chapter 4 of the Association Agreement with a new Annex V to Chapter 4 of the Association Agreement, as set out in the Annex to this Decision,

HAS ADOPTED THIS DECISION:

#### *Article 1*

Annex V to Chapter 4 of the Association Agreement between the European Union and the European Atomic Energy Community and their Member States, of the one part, and Ukraine, of the other, (the 'Association Agreement') is hereby replaced by the Annex V to Chapter 4 of the Association Agreement, as set out in the Annex to this Decision.

#### *Article 2*

This Decision shall enter into force on the date of its adoption.
