### COMMISSION IMPLEMENTING REGULATION (EU) 2020/639

of 12 May 2020

**amending Implementing Regulation (EU) 2019/947 as regards standard scenarios for operations executed in or beyond the visual line of sight**

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2018/1139 of the European Parliament and of the Council of 4 July 2018 on common rules in the field of civil aviation and establishing a European Union Aviation Safety Agency, and amending Regulations (EC) No 2111/2005, (EC) No 1008/2008, (EU) No 996/2010, (EU) No 376/2014 and Directives 2014/30/EU and 2014/53/EU of the European Parliament and of the Council, and repealing Regulations (EC) No 216/2008 and (EC) No 552/2004 of the European Parliament and of the Council and Council Regulation (EEC) No 3922/91<sup>(1)</sup>, and in particular Article 57 thereof,

Whereas:

- (1) Pursuant to Commission Implementing Regulation (EU) 2019/947<sup>(2)</sup>, an unmanned aircraft system ('UAS') must comply with operational limitations set out in operational authorisations or in a standard scenario, established by that Regulation.
- (2) On the basis of the experience of Member States, the European Union Aviation Safety Agency (EASA) developed two standard scenarios for the operations.
- (3) Standard scenario 1 ('STS-01') covers operations executed in visual line of sight ('VLOS'), at a maximum height of 120 m over a controlled ground area in a populated environment using a CE class C5 UAS.
- (4) Standard scenario 2 ('STS-02') covers operations that could be conducted beyond visual line of sight ('BVLOS'), with the unmanned aircraft at a distance of not more than 2 km from the remote pilot with the presence of airspace observers, at a maximum height of 120 m over a controlled ground area in a sparsely populated environment, and using a CE class C6 UAS.
- (5) Implementing Regulation (EU) 2019/947 should therefore be amended to include those standard scenarios.
- (6) Where the probability of encountering manned aircraft is not low, Member States may establish geographical zones in such areas to prevent UAS operators from conducting operations under standard scenarios.
- (7) A requirement for a minimum overall mark attesting that remote pilots have successfully completed the theoretical knowledge examination should be introduced.

<sup>(1)</sup> OJ L 212, 22.8.2018, p. 1.

<sup>(2)</sup> Commission Implementing Regulation (EU) 2019/947 of 24 May 2019 on the rules and procedures for the operation of unmanned aircraft (OJ L 152, 11.6.2019, p. 45).

- (8) In order to improve the conspicuity of the unmanned aircraft flown at night, and in particular, to allow a person on the ground to easily distinguish the unmanned aircraft from a manned aircraft, a green flashing light should be activated on the unmanned aircraft.
- (9) Well defined rules should apply to practical skill training and assessment of remote pilots operating under a standard scenario. That training and assessment should be provided by an entity recognised by the competent authority or by an UAS operator in compliance with requirements laid down in this Regulation.
- (10) In case of cross-border operations or operations outside the Member State of registration by a holder of a light UAS operator certificate (LUC), the Member State of operation should receive information regarding the location or locations of the intended operation.
- (11) EASA prepared draft implementing rules and submitted them with Opinion No 05/2019<sup>(3)</sup> pursuant to points (b) and (c) of Article 75(2) and with Article 76(1) of Regulation (EU) 2018/1139.
- (12) The measures provided for in this Regulation are in accordance with the opinion of the committee established in accordance with Article 127 of Regulation (EU) 2018/1139,

HAS ADOPTED THIS REGULATION:

## *Article 1*

**COMMISSION IMPLEMENTING REGULATION (EU) 2020/640**  
**of 12 May 2020**

**concerning the non-approval of propolis extract as a basic substance in accordance with Regulation (EC) No 1107/2009 of the European Parliament and of the Council concerning the placing of plant protection products on the market**

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1107/2009 of the European Parliament and of the Council of 21 October 2009 concerning the placing of plant protection products on the market and repealing Council Directives 79/117/EEC and 91/414/EEC<sup>(1)</sup>, and in particular Article 23(5) in conjunction with Article 13(2) thereof,

Whereas:

- (1) On 20 December 2016, the Commission received an application from the company Pollenergie for the approval of propolis extract as a basic substance for post-harvest treatment in plant protection as fungicide or bactericide on fruits with non-edible peel. That application was accompanied by the information required under the second subparagraph of Article 23(3) of Regulation (EC) No 1107/2009.
- (2) The Commission asked the European Food Safety Authority ('the Authority') for scientific assistance. The Authority provided the Commission with a technical report on propolis extract on 11 October 2018<sup>(2)</sup>. The Commission presented the review report<sup>(3)</sup> and the draft of this Regulation on the non-approval of propolis extract to the Standing Committee on Plants, Animals, Food and Feed on 5 December 2019.
- (3) The information provided by the applicant on the propolis extract under evaluation was insufficient to demonstrate clearly that it fulfils the criteria of a foodstuff as defined in Article 2 of Regulation (EC) No 178/2002 of the European Parliament and of the Council<sup>(4)</sup>.
- (4) The Authority identified propolis extract as a skin sensitiser (H317 'may cause an allergic skin reaction'). Although no other specific concerns were identified, the information provided was not sufficient to demonstrate the absence of genotoxic potential and of endocrine activity and to conclude an assessment of the risk to consumers. Moreover, the available information on propolis extract did not allow to establish a safe limit for the use of that substance.
- (5) No relevant evaluation, carried out in accordance with other Union legislation as referred to in Article 23(2) of Regulation (EC) No 1107/2009, was available.
- (6) The Commission invited the applicant to submit its comments on the technical report of the Authority and on the Commission's draft review report. The applicant submitted its comments, which have been carefully examined.
- (7) However, despite the arguments put forward by the applicant, the concerns related to the substance cannot be eliminated.
- (8) Consequently, as laid down in the Commission's review report, it has not been established that the requirements laid down in Article 23 of Regulation (EC) No 1107/2009 are satisfied. It is therefore appropriate not to approve propolis extract as a basic substance.

- (9) This Regulation does not prejudice the submission of a further application for the approval of propolis extract as a basic substance in accordance with Article 23(3) of Regulation (EC) No 1107/2009.
- (10) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

*Article 1*

The substance propolis extract is not approved as a basic substance.

*Article 2*

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

- (1) In order to ensure uniform conditions for the calculation of technical provisions and basic own funds by insurance and reinsurance undertakings for the purposes of Directive 2009/138/EC, technical information on relevant risk-free interest rate term structures, fundamental spreads for the calculation of the matching adjustment and volatility adjustments should be laid down for every reference date.
- (2) Insurance and re-insurance undertakings should use the technical information, which is based on market data related to the end of the last month preceding the first reporting reference date to which this Regulation applies. On 3 April 2020, the European Insurance and Occupational Pensions Authority provided the Commission with the technical information related to end of March 2020 market data. That information was published on 3 April 2020 in accordance with Article 77e(1) of Directive 2009/138/EC.
- (3) Given the need for the immediate availability of the technical information, it is important that this Regulation enters into force as a matter of urgency.
- (4) For prudential reasons it is necessary that insurance and reinsurance undertakings use the same technical information for calculating technical provisions and basic own funds irrespective of the date on which they report to their competent authorities. This Regulation should therefore apply from the first reporting reference date to which this Regulation applies.
- (5) To provide legal certainty as soon as possible, it is duly justified on imperative grounds of urgency related to the availability of the relevant risk-free interest rate term structure that measures provided for in this Regulation be adopted in accordance with Article 8, in conjunction with Article 4, of Regulation (EU) No 182/2011 of the European Parliament and of the Council (²),

- (a) the relevant risk-free rate term structures set out in Annex I;

(¹) OJ L 335, 17.12.2009, p. 1.

It shall apply from 31 March 2020.

**COMMISSION IMPLEMENTING REGULATION (EU) 2020/642**  
**of 12 May 2020**

**approving the basic substance L-cysteine in accordance with Regulation (EC) No 1107/2009 of the European Parliament and of the Council concerning the placing of plant protection products on the market, and amending the Annex to Commission Implementing Regulation (EU) No 540/2011**

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1107/2009 of the European Parliament and of the Council of 21 October 2009 concerning the placing of plant protection products on the market and repealing Council Directives 79/117/EEC and 91/414/EEC (<sup>(1)</sup>), and in particular Article 23(5) in conjunction with Article 13(2) thereof,

Whereas:

- (1) On 9 February 2018 the Commission received an application from Soleo-EcoSolutions, for the approval of L-cysteine as a basic substance. That application was accompanied by the information required by the second subparagraph of Article 23(3).
- (2) The Commission asked the European Food Safety Authority ('the Authority') for scientific assistance. The Authority provided the Commission with a technical report on L-cysteine on 29 January 2019 (<sup>(2)</sup>). The Commission presented the review report (<sup>(3)</sup>) and a draft of this Regulation to the Standing Committee on Plants, Animals, Food and Feed on 17 July 2019.
- (3) The information provided by the applicant shows that L-cysteine fulfils the criteria of a foodstuff as defined in Article 2 of Regulation (EC) No 178/2002 of the European Parliament and of the Council (<sup>(4)</sup>). Moreover, it is not predominantly used for plant protection purposes but nevertheless is useful in plant protection in a product consisting of the substance. Consequently, it is to be considered as a basic substance.
- (4) It has appeared from the examinations made that L-cysteine may be expected to satisfy, in general, the requirements laid down in Article 23 of Regulation (EC) No 1107/2009, in particular with regard to the uses which were examined and detailed in the Commission review report. It is therefore appropriate to approve L-cysteine as a basic substance.
- (5) In accordance with Article 13(2) of Regulation (EC) No 1107/2009 in conjunction with Article 6 thereof and in the light of current scientific and technical knowledge, it is, however, necessary to include certain conditions for the approval which are detailed in Annex I to this Regulation.
- (6) In accordance with Article 13(4) of Regulation (EC) No 1107/2009, the Annex to Commission Implementing Regulation (EU) No 540/2011 (<sup>(5)</sup>) should be amended accordingly.
- (7) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

**of 12 May 2020**

**concerning the non-approval of *Saponaria officinalis* L. roots as a basic substance in accordance with Regulation (EC) No 1107/2009 of the European Parliament and of the Council concerning the placing of plant protection products on the market**

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1107/2009 of the European Parliament and of the Council of 21 October 2009 concerning the placing of plant protection products on the market and repealing Council Directives 79/117/EEC and 91/414/EEC (<sup>1</sup>), and in particular Article 13(2) in conjunction with Article 23(5) thereof,

Whereas:

- (1) On 9 October 2015, the Commission received an application from the Crop Research Institute (Czech Republic) for the approval of *Saponaria officinalis* L. roots as a basic substance. That application was accompanied by the information required under the second subparagraph of Article 23(3) of Regulation (EC) No 1107/2009.
- (2) The Commission asked the European Food Safety Authority ('the Authority') for scientific assistance. The Authority provided the Commission with a technical report on *Saponaria officinalis* L. roots on 19 June 2017 (<sup>2</sup>). The Commission presented the review report (<sup>3</sup>) and a draft Regulation on the non-approval of *Saponaria officinalis* L. roots to the Standing Committee on Plants, Animals, Food and Feed on 6 December 2017.
- (3) The documentation provided by the applicant shows that *Saponaria officinalis* L. roots fulfils the criteria of a foodstuff, as defined in Article 2 of Regulation (EC) No 178/2002 of the European Parliament and of the Council (<sup>4</sup>), being used as a traditional emulsifier.
- (4) However, the technical report of the Authority identified specific concerns regarding the presence of substances of concern ( e.g. triterpenoid saponins, saporin) in extracts of *Saponaria officinalis* L. roots when used for plant protection purposes. Insufficient information was available to establish a safe level of intake for consumers and the consumer risk assessment could not be completed for the uses of *Saponaria officinalis* L. roots in cucumber, tomato and hops. Furthermore, there was insufficient information to reach a conclusion regarding the risk to non-target organisms.
- (5) No other, relevant evaluation, carried out in accordance with other Union legislation as referred to in Article 23(2) of Regulation (EC) No 1107/2009, was available.
- (6) The Commission invited the applicant to submit its comments on the technical report of the Authority and on the draft review report. The applicant submitted its comments, which have been carefully examined.
- (7) Consequently, as laid down in the Commission review report, it has not been established that the requirements laid down in Article 23 of Regulation (EC) No 1107/2009 are satisfied. It is therefore appropriate not to approve *Saponaria officinalis* L. roots as a basic substance.
- (8) This Regulation does not prejudice the submission of a further application for the approval of *Saponaria officinalis* L. roots as a basic substance in accordance with Article 23(3) of Regulation (EC) No 1107/2009.
- (9) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

## ACTS ADOPTED BY BODIES CREATED BY INTERNATIONAL AGREEMENTS

### DECISION No 2/2020 OF THE EU-SINGAPORE TRADE COMMITTEE of 27 April 2020

**on the interpretation, pursuant to Article 16.1(4)(d), of Articles 10.17 and 10.22 of the Free Trade Agreement between the European Union and the Republic of Singapore as regards changes to the protection of geographical indications for wines, spirits, agricultural products and foodstuffs registered in Singapore [2020/644]**

THE TRADE COMMITTEE,

Having regard to the Free Trade Agreement between the European Union and the Republic of Singapore, and in particular Article 10.17, Article 10.22 and of Article 16.1(4)(d) thereof,

Whereas:

- (1) The Free Trade Agreement between the European Union and the Republic of Singapore ('the Agreement') entered into force on 21 November 2019.
- (2) Article 16.1 of the Agreement establishes a Trade Committee, which, *inter alia*, supervises and facilitates the implementation and application of the Agreement, and may adopt interpretations of the provisions thereof.
- (3) Article 10.17(3) of the Agreement provides for geographical indications originating in the territory of a Party registered in the other Party under its domestic legislation to be listed in Annex 10-B to the Agreement.
- (4) Article 10.18 of the Agreement provides for the possibility of amending the list of geographical indications for wines, spirits, agricultural products and foodstuffs listed in Annex 10-B to the Agreement to be protected by each Party under Sub-Section C (Geographical Indications).
- (5) Article 10.17(2) of the Agreement lays down, *inter alia*, an objection procedure and legal means that permit the rectification and cancellation of entries on the domestic register so as to allow for the legitimate interests of third parties to be taken into account.
- (6) Article 10.22 of the Agreement sets out the general rules regarding the protection of geographical indications, including those listed in Annex 10-B to the Agreement.
- (7) It is appropriate to clarify the manner in which the provisions of Articles 10.17 and 10.22 operate together. Specifically, through the adoption of a decision on the present binding interpretation, it is necessary to clarify the relationship between the level of protection established under Article 10.22 of the Agreement and the system for the registration and protection of geographical indications established by each Party under Article 10.17 of the Agreement upon the entry into force of the Agreement.
- (8) In this context, it is the shared understanding of Singapore and the Union that requests, filed through Qualification of Rights applications, for changes to the protection of geographical indications registered in Singapore that are filed on or after 21 November 2019 on the grounds set out in Article 10.22(5) of the Agreement or on grounds other than those referred to in Article 10.22 of the Agreement should not alter the protection afforded to the geographical indications listed in Annex 10-B to the Agreement before the Trade Committee is given the opportunity to discuss the appropriateness of the changes that the acceptance of such requests might entail for the listing of geographical indications in Annex 10-B to the Agreement.
- (9) The Parties understand that the present binding interpretation constitutes an interpretation applicable as of the entry into force of the Agreement,

---

HAS ADOPTED THIS DECISION:

*Article 1*

Any changes to the protection of geographical indications for wines, spirits, agricultural products and foodstuffs registered in Singapore and listed in Annex 10-B to the Agreement, that arise from any Qualification of Rights application on the grounds set out in Article 10.22(5) of the Agreement and requested on or after 21 November 2019 may not take place in the absence of a positive decision of the Trade Committee, regarding the corresponding amendment of Annex 10-B to the Agreement.

*Article 2*

The interpretation provided for in Article 1 shall also apply to changes to the protection of geographical indications for wines, spirits, agricultural products and foodstuffs registered in Singapore and listed in Annex 10-B to the Agreement that arise from any Qualification of Rights application requested on or after 21 November 2019 on grounds other than those referred to in Article 10.22 of the Agreement.

*Article 3*

This Decision shall enter into force on the date of its adoption.
