This appropriation is intended to cover the following expenditure incurred within Union territory:

- the payment of insurance premiums on the buildings or parts of buildings occupied by the institution,
- water, gas, electricity and heating charges,
- maintenance costs, calculated on the basis of current contracts, for premises, lifts, central heating, air-conditioning equipment, etc.; the expenditure incurred by regular cleaning operations, including the purchase of maintenance, washing, laundry and dry-cleaning products and by repainting, repairs and supplies used by the maintenance workshops (before contracts for an amount in excess of EUR 300 000 are renewed or concluded, and with a view to rationalising expenditure, the Commission must consult the other institutions with regard to the conditions (price, currency chosen, indexing, duration, other clauses) obtained by each of them for a similar contract),
- expenditure on the selective treatment, storage and removal of waste,
- the refurbishment of buildings, e.g. alterations to partitioning, alterations to technical installations and other specialist work on locks, electrical equipment, plumbing, painting or floor coverings, and the cost of changes to the cabling associated with fixtures, and the cost of the necessary equipment (before contracts for an amount in excess of EUR 300 000 are renewed or concluded, and with a view to rationalising expenditure, the Commission must consult the other institutions with regard to the conditions (price, currency chosen, indexing, duration, other clauses) obtained by each of them for a similar contract),

This appropriation is intended to cover the following expenditure incurred within Union territory:

- the purchase, hire or leasing, maintenance, repair, installation and renewal of technical equipment and installations, and in particular:
  - equipment (including photocopiers) for producing, reproducing and archiving documents in any form (paper, electronic media, etc.),
  - audiovisual, library and interpreting equipment (booths, headsets and switching units for simultaneous interpretation facilities, etc.),
  - kitchen fittings and restaurant equipment,
  - various tools for building-maintenance workshops,
  - facilities required for officials with disabilities,
  - studies, documentation and training relating to such equipment (before contracts for an amount in excess of EUR 300 000 are renewed or concluded, and with a view to rationalising expenditure, the Commission must consult the other institutions with regard to the conditions (price, currency chosen, indexing, duration, other clauses) obtained by each of them for a similar contract),
- the purchase, hire, maintenance and repair of vehicles, and in particular:
  - new purchases of vehicles, including at least one vehicle adapted for transporting persons with reduced mobility,
  - the replacement of vehicles which, during the year, reach a total mileage such as to justify replacement,
  - the cost of hiring cars for short or long periods when demand exceeds the capacity of the vehicle fleet, or when the vehicle fleet does not cater for needs of passengers with reduced mobility,
  - the cost of maintaining, repairing and insuring official vehicles (fuel, lubricants, tyres, inner tubes, miscellaneous supplies, spare parts, tools, etc.),
  - various types of insurance (in particular third-party liability and insurance against theft) and insurance costs,
- the purchase, hire, maintenance and repair of furniture, and in particular:
  - the purchase of office furniture and specialised furniture, including ergonomic furniture and shelving for archives,

COMMISSION

This appropriation is intended to cover the following expenditure incurred within the Union territory:

- the payment of insurance premiums on the buildings or parts of buildings occupied by the institution,
- water, gas, electricity and heating charges,
- maintenance costs, calculated on the basis of current contracts, for premises, lifts, central heating, air-conditioning equipment, etc.; the expenditure incurred by regular cleaning operations, including the purchase of maintenance, washing, laundry and dry-cleaning products, and by repainting, repairs and supplies used by the maintenance workshops (before contracts for an amount in excess of EUR 300 000 are renewed or concluded, and with a view to rationalising expenditure, the Commission must consult the other institutions with regard to the conditions (price, currency chosen, indexing, duration, other clauses) obtained by each of them for a similar contract),

## COMMISSION

## TITLE 20 — ADMINISTRATIVE EXPENDITURE OF THE EUROPEAN COMMISSION

CHAPTER 20 03 — ADMINISTRATIVE OPERATING EXPENDITURE (*cont'd*)20 03 02 (*cont'd*)20 03 02 02 (*cont'd*)

- expenditure on the selective treatment, storage and removal of waste,
- the refurbishment of buildings, e.g. alterations to partitioning, alterations to technical installations and other specialist work on locks, electrical equipment, plumbing, painting or floor coverings, and the cost of changes to the cabling associated with fixtures, and the cost of the necessary equipment (before contracts for an amount in excess of EUR 300 000 are renewed or concluded, and with a view to rationalising expenditure, the Commission must consult the other institutions with regard to the conditions (price, currency chosen, indexing, duration, other clauses) obtained by each of them for a similar contract),
- expenses concerned with the health and safety of individuals at work, in particular the purchase, hire and maintenance of firefighting equipment, the replacement of equipment for fire pickets, training courses and statutory inspection costs (before contracts for an amount in excess of EUR 300 000 are renewed or concluded, and with a view to rationalising expenditure, the Commission must consult the other institutions with regard to the conditions (price, currency chosen, indexing, duration, other clauses) obtained by each of them for a similar contract),
- expenses relating to conducting the audit of accessibility of buildings to persons with disabilities or reduced mobility and the introduction of necessary adaptations pursuant to such an audit so as to make buildings fully accessible to all visitors,
- the cost of legal, financial and technical consultancy fees prior to the acquisition, rental or construction of buildings,
- other expenditure on buildings, in particular management fees for multiple-tenanted buildings, costs of surveys of premises and charges for utilities (street cleaning and maintenance, refuse collection, etc.),
- technical assistance fees relating to major fitting-out operations for premises.

Appropriations to cover the equivalent expenditure in respect of research are entered under various items of the titles concerned.

- the purchase, hire, maintenance and repair of vehicles, and in particular:
  - new purchases of vehicles, including at least one vehicle adapted for transporting persons with reduced mobility,
  - the replacement of vehicles which, during the year, reach a total mileage such as to justify replacement,
  - the cost of hiring cars for short or long periods when demand exceeds the capacity of the vehicle fleet, or when the vehicle fleet does not cater for needs of passengers with reduced mobility,
  - the cost of maintaining, repairing and insuring official vehicles (fuel, lubricants, tyres, inner tubes, miscellaneous supplies, spare parts, tools, etc.),
  - various types of insurance (in particular third-party liability and insurance against theft) and insurance costs,
- the purchase, hire, maintenance and repair of furniture, and in particular:
  - the purchase of office furniture and specialised furniture, including ergonomic furniture and shelving for archives,
  - the replacement of worn-out and broken furniture,
  - supplies of special equipment for libraries (card indexes, shelving, catalogue units, etc.),
  - the hire of furniture,
  - furniture maintenance and repair costs (before contracts for an amount in excess of EUR 300 000 are renewed or concluded, and with a view to rationalising expenditure, the Commission must consult the other institutions with regard to the conditions (price, currency chosen, indexing, duration, other clauses) obtained by each of them for a similar contract),
- expenditure on working equipment, and in particular:
  - purchase of uniforms for floor messengers and drivers,
  - purchase and cleaning of working clothes for workshop staff and staff required to do work for which protection is necessary against bad or cold weather, abnormal wear and dirt,
  - purchase or reimbursement of the cost of any equipment which might be necessary pursuant to Directives 89/391/EEC and 90/270/EEC.

Appropriations to cover the equivalent expenditure in respect of research are entered under various items of the titles concerned.

This appropriation covers expenditure incurred within the territory of the Union, excluding the Commission Representations in the Union.

  - the hire of furniture,
  - furniture maintenance and repair costs (before contracts for an amount in excess of EUR 300 000 are renewed or concluded, and with a view to rationalising expenditure, the Commission must consult the other institutions with regard to the conditions (price, currency chosen, indexing, duration, other clauses) obtained by each of them for a similar contract),
- the purchase, hire, maintenance and repair of vehicles, and in particular:
  - new purchases of vehicles, including all associated costs,
  - the replacement of vehicles which, during the year, reach a total mileage such as to justify replacement,
  - the cost of hiring cars for short or long periods when demand exceeds the capacity of the vehicle fleet,

## COMMISSION

## TITLE 20 — ADMINISTRATIVE EXPENDITURE OF THE EUROPEAN COMMISSION

CHAPTER 20 03 — ADMINISTRATIVE OPERATING EXPENDITURE (*cont'd*)20 03 03 (*cont'd*)20 03 03 03 (*cont'd*)

- the cost of maintaining, repairing and insuring official vehicles (fuel, lubricants, tyres, inner tubes, miscellaneous supplies, spare parts, tools, etc.), including annual national car tests,
- various types of insurance (in particular third-party liability and insurance against theft) and national taxes where payable and insurance costs,
- expenditure on working equipment, and in particular:
  - purchase of uniforms for floor messengers and drivers,
  - purchase and cleaning of working clothes for workshop staff and staff required to do work for which protection is necessary against bad or cold weather, abnormal wear and dirt,
  - purchase or reimbursement of the cost of any equipment which might be necessary pursuant to Directives 89/391/EEC and 90/270/EEC,
  - expenditure on the operation of restaurants, cafeterias and canteens, in particular the costs of maintaining equipment and purchasing various supplies, expenditure on current conversions and the renewal of equipment, and substantial expenditure on conversion and renewal which should be clearly distinguished from current conversions, repairs and renewal of equipment and supplies.

*Legal basis*

Council Directive 89/391/EEC of 12 June 1989 on the introduction of measures to encourage improvements in the safety and health of workers at work (OJ L 183, 29.6.1989, p. 1).

Council Directive 90/270/EEC of 29 May 1990 on the minimum safety and health requirements for work with display screen equipment (fifth individual Directive within the meaning of Article 16(1) of Directive 89/391/EEC) (OJ L 156, 21.6.1990, p. 14).

Regulation (EU, Euratom) 2018/1046 of the European Parliament and of the Council of 18 July 2018 on the financial rules applicable to the general budget of the Union, amending Regulations (EU) No 1296/2013, (EU) No 1301/2013, (EU) No 1303/2013, (EU) No 1304/2013, (EU) No 1309/2013, (EU) No 1316/2013, (EU) No 223/2014, (EU) No 283/2014, and Decision No 541/2014/EU and repealing Regulation (EU, Euratom) No 966/2012 (OJ L 193, 30.7.2018, p. 1).

15 01 60

---

This appropriation is intended to cover:

- the purchase of subscriptions to specialist periodicals and daily press (in electronic and print format) for the EC Library and eResources service, Commission Directorates-General and Services, and Cabinets,
- the purchase of books and eBooks for the EC Library and eResources service, Commission Directorates-General and Services, and Cabinets,
- the subscription fees to access databases, including cataloging and documentary databases,
- the purchase of training and promotional material.

The collections of the EC Library and eResources service cover all subjects relating to European integration and Union policies in all official languages of the Union and in the languages of the candidate countries.

All information is purchased to reply to the information needs of Commission staff and services. Most subscriptions need to be renewed every year to ensure both completeness and continuity of the EC Library's collections; new titles are purchased on demand.

---

This appropriation is intended to cover the following expenditure incurred within the Union:

- the cost of subscriptions and access to online information sources such as press agencies, online news, information providers and external databases,
- the purchase of books, documents and other non-periodical publications, the updating of existing volumes, binding costs and the purchase of electronic identification equipment,
- expenditure on subscriptions to newspapers, specialist periodicals, official journals, parliamentary papers, foreign trade statistics, news agency reports and various other specialised publications,
- the cost of subscriptions and access to electronic information services and external databases and the acquisition of electronic media,
- the training and support required for accessing this information,
- copyright fees.

This appropriation is intended to cover the cost of subscriptions and access to electronic information services and external databases providing financial information on the solvency of beneficiaries of funds from the general budget of the Union and of Commission debtors, in order to protect the Commission's financial interests at various levels of financial and accounting procedures.

It is also intended to ascertain information on the group structure, ownership and the management of beneficiaries of funds from the general budget of the Union and of Commission debtors.

In respect of terminology and linguistic databases, translation tools and documentary and library expenditure for the Directorate-General for Translation, this appropriation is intended to cover:

- expenditure on the acquisition, development and adaptation of software, translation tools and other multilingual tools or aids to translation and the acquisition, consolidation and extension of the contents of linguistic and terminological databases, translation memories and automatic translation dictionaries, particularly with a view to the more efficient treatment of multilingualism and enhanced interinstitutional cooperation,

COMMISSION

**CHAPTER 20 03 — ADMINISTRATIVE OPERATING EXPENDITURE** (*cont'd*)**20 03 08** (*cont'd*)20 03 08 03 (*cont'd*)

- documentation and library expenditure to meet the needs of translators, in particular:
  - to supply the libraries with monolingual books and subscriptions to selected newspapers and periodicals,
  - to allocate individual endowments for the acquisition of a stock of dictionaries and language guides for new translators,
  - to acquire dictionaries, encyclopaedias and vocabularies in electronic form or via web access to documentary databases,
  - to constitute and keep up the basic stock of multilingual libraries by purchasing reference books.

This appropriation is also intended to cover the expenditure related to the copy of copyrighted works.

This appropriation covers expenditure incurred within the territory of the Union.

Appropriations to cover the equivalent expenditure in respect of research are entered under various items of the titles concerned.

COMMISSION  
TITLE 20 — ADMINISTRATIVE EXPENDITURE OF THE EUROPEAN COMMISSION

**CHAPTER 20 03 — ADMINISTRATIVE OPERATING EXPENDITURE** (*cont'd*)

**20 03 09** (*cont'd*)

20 03 09 04 (*cont'd*)

In order to ensure that the rules on competition concerning agreements, decisions by associations of undertakings and concerted practices (Article 101 TFEU), abuses of a dominant position (Article 102 TFEU), aids granted by States (Articles 107 and 108 TFEU) and concentrations between undertakings (Regulation (EC) No 139/2004) are enforced, the Commission is empowered to take decisions, to conduct investigations and to impose penalties or order recovery.

The Commission's decisions are subject to review by the Court of Justice of the European Union in accordance with the TFEU.

As a prudential measure, it is appropriate to take into account the possibility of budgetary implications stemming from rulings of the Court of Justice of the European Union.

This appropriation is intended to cover any expenditure arising from damages awarded by the Court of Justice of the European Union to claimants and resulting from legal proceedings against the Commission's decisions in the field of competition.

Since a reasonable estimate of the financial impact on the general budget cannot be established beforehand, a token entry ( 'p.m.') appears in this article. If necessary, the Commission will propose to make available the appropriations related to actual needs by means of transfers or through a draft amending budget.

*Legal basis*

Articles 101 and 102 of the Treaty on the Functioning of the European Union and derived legislation, in particular:

- Council Regulation (EC) No 1/2003 of 16 December 2002 on the implementation of the rules on competition laid down in Articles 81 and 82 of the Treaty (OJ L 1, 4.1.2003, p. 1),
- Council Regulation (EC) No 139/2004 of 20 January 2004 on the control of concentrations between undertakings (the EC Merger Regulation) (OJ L 24, 29.1.2004, p. 1).

Articles 107 and 108 of the Treaty on the Functioning of the European Union and derived legislation, in particular Council Regulation (EU) 2015/1589 of 13 July 2015 laying down detailed rules for the application of Article 108 of the Treaty on the Functioning of the European Union (OJ L 248, 24.9.2015, p. 9).

-------------

This appropriation is intended to cover budgetary adjustments:

- in situations where a claim is cancelled in full or in part after it has been booked to the accounts as revenue (in particular in the event of offsetting against a debt),
- in cases where VAT has not been recovered and where it is no longer possible to book the amount to the line that covered the principal expenditure,
- for any interest relating to the above cases, where it cannot be booked to another specific budget line.

This item is also intended to accommodate, if necessary, an appropriation to cover any losses resulting either from the liquidation or cessation of activities of financial institutions with which the Commission has accounts or from the management of financial assets.

## COMMISSION

## TITLE 20 — ADMINISTRATIVE EXPENDITURE OF THE EUROPEAN COMMISSION

CHAPTER 20 03 — ADMINISTRATIVE OPERATING EXPENDITURE (*cont'd*)20 03 16 (*cont'd*)20 03 16 01 (*cont'd*)

The amount entered corresponds to the appropriations for the Office for the Administration and Payment of Individual Entitlements (PMO) set out in detail in the specific annex to this section.

In accordance with Regulation (EU, Euratom) No 883/2013 of the European Parliament and of the Council of 11 September 2013 concerning investigations conducted by the European Anti-Fraud Office (OLAF) and repealing Regulation (EC) No 1073/1999 of the European Parliament and of the Council and Council Regulation (Euratom) No 1074/1999 (OJ L 248, 18.9.2013, p. 1), the appropriations for, and staff of, the Supervisory Committee and its secretariat are entered in the budget and establishment plan of PMO.

For the sake of transparency, the resources made available to the secretariat of Supervisory Committee of the European Anti-Fraud Office in PMO's budget can be identified. Based on a secretariat of seven permanent posts and an allocation for one member of contract staff, the appropriations for the operation of the secretariat of Supervisory Committee of the European Anti-Fraud Office would amount to approximately EUR 1 000 000. This amount covers expenditure on staff costs, training, missions, internal meetings, buildings and IT.

The expenditure resulting from the mandate of the members of the Supervisory Committee of the European Anti-Fraud Office is covered by appropriations of EUR 200 000 in Article 20 03 18.

This appropriation is intended to cover all expenditure resulting from the mandate of the members of the Supervisory Committee of the European Anti-Fraud Office (OLAF), namely:

- allowances granted to the members of the Supervisory Committee for the time dedicated to the fulfilment of their functions, as well as their travel expenses and ancillary costs,
- costs incurred by members of the Supervisory Committee officially representing the Supervisory Committee,
- all operating expenditure, such as the cost of purchase of equipment, stationery and office supplies and expenditure arising from communications and telecommunications (postal charges, telephone, fax and telegraph charges), documentation and library expenditure, the purchase of books and subscriptions to information media,
- travel, subsistence and incidental expenses of experts, invited by the members of the Supervisory Committee to participate in study groups and working parties, and the cost of organising such meetings where they are not covered by the existing infrastructure (in the headquarters of the institutions or external offices),
- expenditure on specialised studies and consultations contracted out to highly qualified experts (individuals or firms) where the members of the Supervisory Committee are unable to entrust such studies to suitable staff of OLAF.

## COMMISSION

## COMMISSION

## TITLE 20 — ADMINISTRATIVE EXPENDITURE OF THE EUROPEAN COMMISSION

CHAPTER 20 04 — INFORMATION AND COMMUNICATION TECHNOLOGY RELATED EXPENDITURE (*cont'd*)**20 04 01** (*cont'd*)

This appropriation is intended to cover costs related to information systems (i.e. applications) in the Commission. Its scope includes the cost of business software and the costs to develop, manage and run applications for the Commission. It covers in particular:

- information systems development: resources involved with the analysis, design, development, code, test and release packaging services associated with application development projects,
- information systems support and maintenance: the operations, support, fix and minor enhancements associated with existing applications,
- business software acquisition: software expenditures including licensing, maintenance and support related to off-the-shelf software purchases,
- information systems management: costs in relation to the management, administration and planning of IT, including expenditure for assistance on executive management, strategic management, enterprise architecture, IT finance, and vendor management.

This appropriation covers expenditure incurred within the territory of the Union, excluding Joint Research Centre sites, for which expenditure is entered in the titles concerned. Similar expenditure incurred outside the Union is entered in the titles concerned.

Assigned revenue (origin, estimated amounts and corresponding article or item of the statement of revenue).

This appropriation is intended to cover end user computing devices and support for end users. The scope includes costs to purchase, build, manage and run end user computing devices, and deliver centralized support to end users in the Commission. It covers in particular:

- personal computing infrastructure: client compute physical desktops, portable laptops, thin client machines, peripherals (including monitors, pointer devices and attached personal printers) used by individuals to perform work,
- mobile devices: client compute tablets, smart phones and apps used by individuals to perform work,
- end-user software: client related software used to author, create, collaborate and share documents and other content. Examples include email, communications, messaging, word processing, spreadsheets, presentations, desktop publishing, graphics and others,
- network printers: Examples include network connected personal printers, ink-jet printers, laser printers, departmental or copy-room printers,
- conferencing and audio/video: audio and video conferencing equipment typically used in conference rooms and dedicated telepresence rooms to enable workforce communications,
- IT helpdesk: centralized Tier 1 help desk resources that handle user requests, answer questions and resolve issues,
- desk-side support: local support resources that provide on-site support for moves, adds, changes and hands on issue resolution.

This appropriation covers expenditure incurred within the territory of the Union, excluding Joint Research Centre sites, for which expenditure is entered in the titles concerned. Similar expenditure incurred outside the Union is entered in the titles concerned.

34 01 03*	34 01 03*						

This appropriation is intended to cover costs related to Data Centre facilities and communications services, as well as costs related to IT security and compliance. It covers in particular:

- Data Centre facilities: purpose-built data centre facilities that house and protect critical IT equipment including the space, power, environment controls, racks, cabling and 'smart hand' support, this includes other facilities as computer rooms and closets that house IT equipment in corporate headquarters, call centres or other general purpose office buildings;

COMMISSION  
TITLE 20 — ADMINISTRATIVE EXPENDITURE OF THE EUROPEAN COMMISSION

**CHAPTER 20 04 — INFORMATION AND COMMUNICATION TECHNOLOGY RELATED EXPENDITURE** (*cont'd*)**20 04 03** (*cont'd*)

- compute on-premises and cloud-based, this includes:
  - servers: physical and virtual servers running on different operating systems; includes hardware, software and support services;
  - converged infrastructure: purpose-built appliances that provide compute, storage and network capabilities in one box;
  - mainframe: traditional mainframe computers and operations running legacy operating systems;
- storage on-premises and cloud-based: provides centralised data storage and securely holds information and data to be retrieved later. Storage may hold data for application programs and code, databases, files, media, email and other forms of information. It includes equipment and software for online storage (for the distributed compute infrastructure) and offline storage (for archive, backup and recovery to support data loss, data corruption, disaster recovery and compliance requirements);
- network: data and voice equipment along with the transport methods to connect systems and people and to enable people to converse. It includes:
  - LAN/WAN: physical and wireless local area network connecting equipment within the core data centres and connecting end users in office working areas to the organisation's broader networks, and wide area network equipment and support services directly connecting data centres, offices and third parties,
  - voice: voice resources which enable or distribute voice services through on premise equipment including PBX, VoIP, voicemail and handsets,
  - transport: data network circuits and associated access facilities and services; includes dedicated and virtual data networks and internet access, as well as includes usage associated with mobility and other data transit based on usage billing and voice network circuits and associated access facilities and services, as well as usage associated with standard telephone calls. Both voice and data transport may include terrestrial and non-terrestrial (e.g. satellite) technologies,
- platform: costs associated with distributed and mainframe databases and middleware systems, this includes database management software and tools, and outside services,
- delivery: costs to monitor, support, manage, and run IT operations; this includes:
  - IT service management: resources involved with the incident, problem and change management activities as part of the IT service management process (excludes the Tier 1 help desk),
  - program, product & project management: resources involved with managing and supporting IT related projects and/or continuous product development across business and IT-driven initiatives,
  - client management: resources or 'account managers' aligned with the lines of business to understand business needs, communicate IT products, services and status of IT projects,
  - operations centre: centralised IT operations centre resources, including monitoring and intervention e.g., network operations centre (NOC), global operations centre (GOC),

## COMMISSION

## TITLE 20 — ADMINISTRATIVE EXPENDITURE OF THE EUROPEAN COMMISSION

CHAPTER 20 04 — INFORMATION AND COMMUNICATION TECHNOLOGY RELATED EXPENDITURE (*cont'd*)20 04 03 (*cont'd*)

- security, compliance, disaster recovery: costs to define, establish, enforce, and measure security, compliance, and disaster recovery readiness; this includes:
  - Security: IT security and cybersecurity resources setting policy, establishing process and means, measuring compliance and responding to security breaches and providing real-time operational security such as vulnerability scanning, managing firewalls, intrusion prevention systems, and security information and event management,
  - compliance: IT compliance resources setting policy, establishing controls and measuring compliance to relevant legal and compliance requirements,
  - disaster recovery: IT disaster recovery resources setting disaster recovery policy, establishing process and means, dedicated failover facilities, performing disaster recovery testing,
- IT management infrastructure (including logistics): costs in relation to the management, administration and planning of IT infrastructure; this includes expenditure for assistance on executive management, strategic management, enterprise architecture, IT finance, and vendor management.

This appropriation covers expenditure incurred within the territory of the Union, excluding Joint Research Centre sites, for which expenditure is entered in the titles concerned. Similar expenditure incurred outside the Union is entered in the titles concerned.

---

This appropriation is intended to cover staff and administrative expenditure (Titles 1 and 2), and operational expenditure (Title 3) of the Translation Centre for bodies of the European Union (the Translation Centre).

The budgetary resources of the Translation Centre consist of financial contributions from the agencies for which it works and the institutions and bodies with which it cooperates, without prejudice to other revenue.

The amounts repaid in accordance with Article 17 of Commission Delegated Regulation (EU) 2019/715 of 18 December 2018 on the framework financial regulation for the bodies set up under the TFEU and Euratom Treaty and referred to in Article 70 of Regulation (EU, Euratom) 2018/1046 of the European Parliament and of the Council (OJ L 122, 10.5.2019, p. 1) constitute assigned revenue (point (b) of Article 21(3) of the Financial Regulation) to be charged to Item 6 6 0 0 of the general statement of revenue.

The establishment plan of the Translation Centre is set out in Annex 'Staff' to this section.

Legal basis

Council Regulation (EC) No 2965/94 of 28 November 1994 setting up a Translation Centre for bodies of the European Union (OJ L 314, 7.12.1994, p. 1).

Reference acts

Declaration of the representatives of the Governments of the Member States meeting in Brussels on 29 October 1993 at Head of State or Government level.

Remarks

Former article

40 02 40

The appropriations in this title are intended for two circumstances only: (a) where no basic act exists for the action concerned when the budget is established; and (b) where there are serious grounds for doubting the adequacy of the appropriations or the possibility of implementing, under conditions consistent with sound financial management, the appropriations entered in the budget lines concerned. The appropriations entered in this article may be used only after transfer in accordance with the procedure laid down in Article 30 of the Financial Regulation for cases under point (a) and in Article 31 of the Financial Regulation for cases under point (b).

The breakdown is as follows (commitments, payments):

Legal basis

Regulation (EU, Euratom) 2018/1046 of the European Parliament and of the Council of 18 July 2018 on the financial rules applicable to the general budget of the Union, amending Regulations (EU) No 1296/2013, (EU) No 1301/2013, (EU) No 1303/2013, (EU) No 1304/2013, (EU) No 1309/2013, (EU) No 1316/2013, (EU) No 223/2014, (EU) No 283/2014, and Decision No 541/2014/EU and repealing Regulation (EU, Euratom) No 966/2012 (OJ L 193, 30.7.2018, p. 1).

40 02 43

---

The aim of this reserve is to cover the European Globalisation Adjustment Fund (EGF) so as to enable the Union to demonstrate solidarity towards, and to provide support to people losing their jobs as a result of major structural changes caused by globalisation-related challenges.

The aim of the EGF is to offer support to displaced workers and self-employed persons whose activity has ceased in the course of unexpected major restructuring events, particularly those caused by globalisation-related challenges, such as changes in world trade patterns, trade disputes, financial or economic crises, the transition to low-carbon economy or as a consequence of digitisation or automation. Particular emphasis will lie on measures that help the most disadvantaged groups.

The maximum annual amount for the EGF is set in the MFF 2021-2027. The methods for entering the appropriations in this reserve and for mobilising the EGF are laid down in point 9 of the Interinstitutional Agreement of 16 December 2020 between the European Parliament, the Council of the European Union and the European Commission on budgetary discipline, on cooperation in budgetary matters and on sound financial management, as well as on new own resources, including a roadmap towards the introduction of new own resources.

*Legal basis*

Regulation (EU) No 1309/2013 of the European Parliament and of the Council of 17 December 2013 on the European Globalisation Adjustment Fund (2014-2020) and repealing Regulation (EC) No 1927/2006 (OJ L 347, 20.12.2013, p. 855), and in particular Article 1 thereof.

Council Regulation (EU, Euratom) 2020/2093 of 17 December 2020 laying down the multiannual financial framework for the years 2021 to 2027 (OJ L 433I, 22.12.2020, p. 11).

*Reference acts*

Proposal for a Regulation of the European Parliament and of the Council, submitted by the Commission on 30 May 2018, on the European Globalisation Adjustment Fund (EGF) (COM(2018) 380).

Interinstitutional Agreement of 16 December 2020 between the European Parliament, the Council of the European Union and the European Commission on budgetary discipline, on cooperation in budgetary matters and on sound financial management, as well as on new own resources, including a roadmap towards the introduction of new own resources (OJ L 433I, 22.12.2020, p. 28).

<sup>(1)</sup> Pending the finalisation of the delegation process to the executive agencies of operational programmes for the period 2021-2027, the delegation related to the completion of the legacy programmes prior to 2021 will continue in 2021. Therefore, until this finalisation this establishment plan, which reflects a staffing level corresponding to the authorized level of 2020, continues to apply.

<sup>(2)</sup> The establishment plan accepts the following *ad personam* appointments: seconded officials may occupy a post in the establishment plan of the executive agency at a higher grade provided that such higher grade corresponds to their own grade at the Commission. This exception applies only to seconded officials.

A2 01 03\*

This appropriation is intended to cover costs related to Data Centre facilities and communications services, as well as costs related to IT security and compliance. It covers in particular:

- Data Centre facilities: purpose-built data centre facilities that house and protect critical IT equipment including the space, power, environment controls, racks, cabling and "smart hand" support; this includes other facilities as computer rooms and closets that house IT equipment in corporate headquarters, call centres or other general purpose office buildings;
- compute on-premises and cloud-based, this includes:
  - servers: physical and virtual servers running on different operating systems; includes hardware, software and support services,
  - converged infrastructure: purpose-built appliances that provide compute, storage and network capabilities in one box,

**CHAPTER 01 01 — ADMINISTRATIVE EXPENDITURE** (*cont'd*)01 01 09 (*cont'd*)01 01 09 03 (*cont'd*)

- mainframe: traditional mainframe computers and operations running legacy operating systems,
- storage on-premises and cloud-based: provides centralised data storage and securely holds information and data to be retrieved later. Storage may hold data for application programs and code, databases, files, media, email and other forms of information. It includes equipment and software for online storage (for the distributed compute infrastructure) and offline storage (for archive, backup and recovery to support data loss, data corruption, disaster recovery and compliance requirements),
- network: data and voice equipment along with the transport methods to connect systems and people and to enable people to converse; this includes:
  - LAN/WAN: physical and wireless local area network connecting equipment within the core data centres and connecting end users in office working areas to the organization's broader networks, and wide area network equipment and support services directly connecting data centres, offices and third parties,
  - voice: voice resources which enable or distribute voice services through on premise equipment including PBX, VoIP and voicemail,
  - transport: data network circuits and associated access facilities and services; this includes dedicated and virtual data networks and internet access, as well as usage associated with mobility and other data transit based on usage billing; and voice network circuits and associated access facilities and services, as well as usage associated with standard telephone calls. Both voice and data transport may include terrestrial and non-terrestrial (e.g., satellite) technologies,
- platform: costs associated with distributed databases and middleware systems, this includes database management software and tools, and outside services,
- delivery: costs to monitor, support, manage, and run IT operations, this includes:
  - IT service management: resources involved with the incident, problem and change management activities as part of the IT service management process (excludes the Tier 1 help desk),
  - program, product and project management: resources involved with managing and supporting IT related projects and/or continuous product development across business and IT-driven initiatives,
  - client management: resources or 'account managers' aligned with the lines of business to understand business needs, communicate IT products, services and status of IT projects,
  - operations centre: centralised IT operations centre resources including monitoring and intervention, e.g., network operations centre (NOC), global operations centre (GOC),

This appropriation is intended to cover:

- assistance in kind which may be provided to officials, former officials or survivors of deceased officials who are in particularly difficult circumstances,
- the Office's contribution to the costs of the recreation centre and to other cultural and sports activities and initiatives to promote social contact between staff of different nationalities,
- the Office's contribution to the cost of the Early Childhood Centre and other crèches and for school transport,
- expenditure for the following categories of persons, as part of a policy to assist people with disabilities:
  - officials and temporary staff in active employment,
  - spouses of officials and temporary staff in active employment,
  - all dependent children within the meaning of the Staff Regulations.

It covers, within the limits of the amount entered in the budget and after any national entitlements granted in the country of residence or origin have been claimed, any duly substantiated non-medical expenditure which is acknowledged to be necessary and arises from disablement.

## CHAPTER 02 01 — ADMINISTRATIVE EXPENDITURE (*cont'd*)

### 02 01 02 (*cont'd*)

This appropriation is intended to cover:

- the remuneration of contract staff (within the meaning of Title IV of the Conditions of Employment), the institution's social insurance scheme covering contract staff, as described in Title IV, and the cost of weightings applicable to the remuneration of such staff,
- expenditure incurred (remuneration, insurance, etc.) through the use of private-law contract external staff and agency staff,
- personnel costs included in service contracts for technical and administrative subcontracting, supplementary assistance and the supply of intellectual services,
- the cost of national civil servants or other experts on secondment or temporary assignments to the Office and supplementary expenses arising from the secondment of officials to national civil services or international organisations,
- the cost of any updates of remuneration during the financial year.

### 02 01 03 *Other management expenditure*

This appropriation is intended to cover end user computing devices and support for end users. Its scope includes costs to purchase, build, manage and run end user computing devices, and deliver centralised support to end users in the Office. It covers in particular:

- personal computing infrastructure: client compute physical desktops, portable laptops, thin client machines, peripherals (including monitors, pointer devices and attached personal printers) used by individuals to perform work,
- mobile devices: client compute tablets, smart phones and apps used by individuals to perform work,
- end-user software: client related software used to author, create, collaborate and share documents and other content, such as email, communications, messaging, word processing, spreadsheets, presentations, desktop publishing and graphics,
- network printers: network-connected personal printers, ink-jet printers, laser printers, departmental or copy-room printers, etc.,
- conferencing and audio/video: audio and video conferencing equipment typically used in conference rooms and dedicated telepresence rooms to enable workforce communications,
- IT helpdesk: centralised Tier 1 help desk resources that handle user requests, answer questions and resolve issues,
- desk-side support: local support resources that provide on-site support for moves, adds, changes and hands on issue resolution.

A4 01 03

This appropriation is intended to cover costs related to Data Centre facilities and communications services, as well as costs related to IT security and compliance. It covers in particular:

- Data Centre facilities: purpose-built data centre facilities that house and protect critical IT equipment including the space, power, environment controls, racks, cabling and "smart hand" support; this includes other facilities as computer rooms and closets that house IT equipment in corporate headquarters, call centres or other general purpose office buildings,
- compute on-premises and cloud-based; this includes:
  - servers: physical and virtual servers running on different operating systems; includes hardware, software and support services,
  - converged infrastructure: purpose-built appliances that provide compute, storage and network capabilities in one box,
  - mainframe: traditional mainframe computers and operations running legacy operating systems,
- storage on-premises and cloud-based: provides centralised data storage and securely holds information and data to be retrieved later. Storage may hold data for application programs and code, databases, files, media, email and other forms of information. It includes equipment and software for online storage (for the distributed compute infrastructure) and offline storage (for archive, backup and recovery to support data loss, data corruption, disaster recovery and compliance requirements);
- network: data and voice equipment along with the transport methods to connect systems and people and to enable people to converse, this includes:
  - LAN/WAN: physical and wireless local area network connecting equipment within the core data centres and connecting end users in office working areas to the organization's broader networks, and wide area network equipment and support services directly connecting data centres, offices and third parties,
  - voice: voice resources which enable or distribute voice services through on premise equipment including PBX, VoIP, voicemail and handsets,

**CHAPTER O2 01 — ADMINISTRATIVE EXPENDITURE** (*cont'd*)O2 01 09 (*cont'd*)O2 01 09 03 (*cont'd*)

- transport: data network circuits and associated access facilities and services, this includes dedicated and virtual data networks and internet access, as well as usage associated with mobility and other data transit based on usage billing, and voice network circuits and associated access facilities and services, as well as usage associated with standard telephone calls. Both voice and data transport may include terrestrial and non-terrestrial (e.g., satellite) technologies,
- platform: costs associated with distributed and mainframe databases and middleware systems, this includes database management software and tools, and outside services,
- delivery: costs to monitor, support, manage, and run IT operations, this includes:
  - IT service management: resources involved with the incident, problem and change management activities as part of the IT service management process (excludes the Tier 1 help desk),
  - program, product and project management: resources involved with managing and supporting IT related projects and/or continuous product development across business and IT-driven initiatives,
  - client management: resources or 'account managers' aligned with the lines of business to understand business needs, communicate IT products, services and status of IT projects,
  - operations centre: centralised IT operations centre resources including monitoring and intervention, e.g., network operations centre (NOC), global operations centre (GOC),
- security, compliance, disaster recovery: costs to define, establish, enforce, and measure security, compliance, and disaster recovery readiness, this includes:
  - security: IT security and cybersecurity resources setting policy, establishing process and means, measuring compliance and responding to security breaches and providing real-time operational security such as vulnerability scanning, managing firewalls, intrusion prevention systems, and security information and event management,
  - compliance: IT Compliance resources setting policy, establishing controls and measuring compliance to relevant legal and compliance requirements,
  - disaster recovery: IT disaster recovery resources setting disaster recovery policy, establishing process and means, dedicated failover facilities, performing disaster recovery testing,
- IT management infrastructure (including logistics): costs in relation to the management, administration and planning of IT infrastructure; this includes expenditure for assistance on executive management, strategic management, enterprise architecture, IT finance, and vendor management.

## CHAPTER 03 01 — ADMINISTRATIVE EXPENDITURE (*cont'd*)

### 03 01 05 (*cont'd*)

Before contracts for an amount in excess of EUR 300 000 are renewed or concluded, and with a view to rationalising expenditure, the Office must consult the other institutions with regard to the conditions (price, currency chosen, indexing, duration, other clauses) obtained by each of them for a similar contract.

#### *Legal basis*

Council Directive 89/391/EEC of 12 June 1989 on the introduction of measures to encourage improvements in the safety and health of workers at work (OJ L 183, 29.6.1989, p. 1).

Council Directive 90/270/EEC of 29 May 1990 on the minimum safety and health requirements for work with display screen equipment (fifth individual Directive within the meaning of Article 16(1) of Directive 89/391/EEC) (OJ L 156, 21.6.1990, p. 14).

03 01 09 01 (*cont'd*)

This appropriation is intended to cover the information systems (i.e. applications) of the Office and related expenditure. Its scope includes the cost of business software and the costs to develop, manage and run applications for the Office. It covers in particular:

- information systems development: resources involved with the analysis, design, development, code, test and release packaging services associated with application development projects,
- information systems support and maintenance: the operations, support, fix and minor enhancements associated with existing applications,
- business software acquisition: software expenditures including licensing, maintenance and support related to off-the-shelf software purchases,
- information systems management: costs in relation to the management, administration and planning of IT, including expenditure for assistance on executive management, strategic management, enterprise architecture, IT finance, and vendor management.

This appropriation is intended to cover end user computing devices and support for end users. Its scope includes costs to purchase, build, manage and run end user computing devices, and deliver centralised support to end users in the Office. It covers in particular:

- personal computing infrastructure: client compute physical desktops, portable laptops, thin client machines, peripherals (including monitors, pointer devices and attached personal printers) used by individuals to perform work,
- mobile devices: client compute tablets, smart phones and apps used by individuals to perform work,
- end-user software: client related software used to author, create, collaborate and share documents and other content, such as email, communications, messaging, word processing, spreadsheets, presentations, desktop publishing and graphics,

 03 01 09 02 (*cont'd*)

- network printers: network-connected personal printers, ink-jet printers, laser printers, departmental or copy-room printers, etc.,
- conferencing and audio/video: audio and video conferencing equipment typically used in conference rooms and dedicated telepresence rooms to enable workforce communications,
- IT helpdesk: centralised Tier 1 help desk resources that handle user requests, answer questions and resolve issues,
- desk-side support: local support resources that provide on-site support for moves, adds, changes and hands on issue resolution.

This appropriation is intended to cover costs related to Data Centre facilities and communications services, as well as costs related to IT security and compliance. It covers in particular:

- Data Centre facilities: purpose-built data centre facilities that house and protect critical IT equipment including the space, power, environment controls, racks, cabling and "smart hand" support; this includes other facilities as computer rooms and closets that house IT equipment in corporate headquarters, call centres or other general purpose office buildings,
- compute on-premises and cloud-based; this includes:
  - servers: physical and virtual servers running on different operating systems; includes hardware, software and support services,
  - converged infrastructure: purpose-built appliances that provide compute, storage and network capabilities in one box,
  - mainframe: traditional mainframe computers and operations running legacy operating systems,

**CHAPTER 03 01 — ADMINISTRATIVE EXPENDITURE** (*cont'd*)

03 01 09 (*cont'd*)

03 01 09 03 (*cont'd*)

- storage on-premises and cloud-based: provides centralised data storage and securely holds information and data to be retrieved later. Storage may hold data for application programs and code, databases, files, media, email and other forms of information. It includes equipment and software for online storage (for the distributed compute infrastructure) and offline storage (for archive, backup and recovery to support data loss, data corruption, disaster recovery and compliance requirements),
- network: data and voice equipment along with the transport methods to connect systems and people and to enable people to converse; this includes:
  - LAN/WAN: physical and wireless local area network connecting equipment within the core data centres and connecting end users in office working areas to the organization's broader networks; and wide area network equipment and support services directly connecting data centres, offices and third parties,
  - voice: voice resources which enable or distribute voice services through on premise equipment including PBX, VoIP, voicemail and handsets,
  - transport: data network circuits and associated access facilities and services; this includes dedicated and virtual data networks and internet access, as well as usage associated with mobility and other data transit based on usage billing and voice network circuits and associated access facilities and services, as well as usage associated with standard telephone calls. Both voice and data transport may include terrestrial and non-terrestrial (e.g., satellite) technologies,
- platform: costs associated with distributed and mainframe databases and middleware systems. Costs include database management software and tools, and outside services,
- delivery: costs to monitor, support, manage, and run IT operations; this includes:
  - IT service management: resources involved with the incident, problem and change management activities as part of the IT service management process (excludes the Tier 1 help desk),
  - program, product and project management: resources involved with managing and supporting IT related projects and/or continuous product development across business and IT-driven initiatives,
  - client management: resources or 'account managers' aligned with the lines of business to understand business needs, communicate IT products, services and status of IT projects,
  - operations centre: centralised IT operations centre resources including monitoring and intervention, e.g., network operations centre (NOC), global operations centre (GOC),

## CHAPTER O3 01 — ADMINISTRATIVE EXPENDITURE (*cont'd*)

O3 01 09 (*cont'd*)

O3 01 09 03 (*cont'd*)

- security, compliance, disaster recovery: costs to define, establish, enforce, and measure security, compliance, and disaster recovery readiness; this includes:
  - security: IT security and cybersecurity resources setting policy, establishing process and means, measuring compliance and responding to security breaches and providing real-time operational security such as vulnerability scanning, managing firewalls, intrusion prevention systems, and security information and event management,
  - compliance: IT compliance resources setting policy, establishing controls and measuring compliance to relevant legal and compliance requirements,
  - disaster recovery: IT disaster recovery resources setting disaster recovery policy, establishing process and means, dedicated failover facilities, performing disaster recovery testing;
- IT management infrastructure (including logistics): costs in relation to the management, administration and planning of IT infrastructure; this includes expenditure for assistance on executive management, strategic management, enterprise architecture, IT finance, and vendor management.

## CHAPTER O3 10 — RESERVES

### *Legal basis*

Regulation (EU, Euratom) 2018/1046 of the European Parliament and of the Council of 18 July 2018 on the financial rules applicable to the general budget of the Union, amending Regulations (EU) No 1296/2013, (EU) No 1301/2013, (EU) No 1303/2013, (EU) No 1304/2013, (EU) No 1309/2013, (EU) No 1316/2013, (EU) No 223/2014, (EU) No 283/2014, and Decision No 541/2014/EU and repealing Regulation (EU, Euratom) No 966/2012 (OJ L 193, 30.7.2018, p. 1).

This appropriation is intended to cover end user computing devices and support for end users. Its scope includes costs to purchase, build, manage and run end user computing devices, and deliver centralised support to end users in the Commission. It covers in particular:

- personal computing infrastructure: client compute physical desktops, portable laptops, thin client machines, peripherals (including monitors, pointer devices and attached personal printers) used by individuals to perform work,
- mobile devices: client compute tablets, smart phones and apps used by individuals to perform work,
- end-user software: client related software used to author, create, collaborate and share documents and other content, such as email, communications, messaging, word processing, spreadsheets, presentations, desktop publishing and graphics,
- network printers: network-connected personal printers, ink-jet printers, laser printers, departmental or copy-room printers, etc.,
- conferencing and audio/video: audio and video conferencing equipment typically used in conference rooms and dedicated telepresence rooms to enable workforce communications,
- IT helpdesk: centralised Tier 1 help desk resources that handle user requests, answer questions and resolve issues,
- desk-side support: local support resources that provide on-site support for moves, adds, changes and hands on issue resolution,
- expenses relating to the health and safety of individuals at work, in particular the purchase, hire and maintenance of fire-fighting.

## CHAPTER 04 01 — ADMINISTRATIVE EXPENDITURE (*cont'd*)

04 01 09 (*cont'd*)

04 01 09 03 (*cont'd*)

This appropriation is intended to cover costs related to Data Centre facilities and communications services, as well as costs related to IT security and compliance. It covers in particular:

- Data Centre facilities: purpose-built data centre facilities that house and protect critical IT equipment including the space, power, environment controls, racks, cabling and "smart hand" support; this includes other facilities as computer rooms and closets that house IT equipment in corporate headquarters, call centres or other general purpose office buildings;
- compute on-premises and cloud-based; this includes:
  - servers: physical and virtual servers running on different operating systems; includes hardware, software and support services,
  - converged infrastructure: purpose-built appliances that provide compute, storage and network capabilities in one box,
  - mainframe: traditional mainframe computers and operations running legacy operating systems,
- storage on-premises and cloud-based: provides centralised data storage and securely holds information and data to be retrieved later. Storage may hold data for application programs and code, databases, files, media, email and other forms of information. It includes equipment and software for online storage (for the distributed compute infrastructure) and offline storage (for archive, backup and recovery to support data loss, data corruption, disaster recovery and compliance requirements),
- network: data and voice equipment along with the transport methods to connect systems and people and to enable people to converse; this includes:
  - LAN/WAN: physical and wireless local area network connecting equipment within the core data centres and connecting end users in office working areas to the organization's broader networks, and wide area network equipment and support services directly connecting data centres, offices and third parties,
  - voice: voice resources which enable or distribute voice services through on premise equipment including PBX, VoIP, voicemail and handsets,
  - transport: data network circuits and associated access facilities and services; this includes dedicated and virtual data networks and internet access, as well as usage associated with mobility and other data transit based on usage billing, and voice network circuits and associated access facilities and services, as well as usage associated with standard telephone calls. Both voice and data transport may include terrestrial and non-terrestrial (e.g., satellite) technologies,
- platform: costs associated with distributed and mainframe databases and middleware systems; this includes database management software and tools, and outside services,

**CHAPTER 04 01 — ADMINISTRATIVE EXPENDITURE** (*cont'd*)04 01 09 (*cont'd*)04 01 09 03 (*cont'd*)

- delivery: costs to monitor, support, manage, and run IT operations; this includes:
  - IT service management: resources involved with the incident, problem and change management activities as part of the IT service management process (excludes the Tier 1 help desk),
  - program, product and project management: resources involved with managing and supporting IT related projects and/or continuous product development across business and IT-driven initiatives,
  - client management: resources or 'account managers' aligned with the lines of business to understand business needs, communicate IT products, services and status of IT projects,
  - operations centre: centralised IT operations centre resources including monitoring and intervention, e.g., network operations centre (NOC), global operations centre (GOC),
- security, compliance, disaster recovery: costs to define, establish, enforce, and measure security, compliance, and disaster recovery readiness; this includes:
  - security: IT security and cybersecurity resources setting policy, establishing process and means, measuring compliance and responding to security breaches and providing real-time operational security such as vulnerability scanning, managing firewalls, intrusion prevention systems, and security information and event management,
  - compliance: IT compliance resources setting policy, establishing controls and measuring compliance to relevant legal and compliance requirements,
  - disaster recovery: IT disaster recovery resources setting disaster recovery policy, establishing process and means, dedicated failover facilities, performing disaster recovery testing,
- IT management infrastructure (including logistics): costs in relation to the management, administration and planning of IT infrastructure; this includes expenditure for assistance on executive management, strategic management, enterprise architecture, IT finance, and vendor management.

A7 01 03\*

This appropriation is intended to cover expenditure on the buildings of the Office and other related expenditure, including in particular:

- various types of insurance (in particular third-party liability and insurance against theft),
- water, gas, electricity and heating charges in respect of the buildings or parts of buildings occupied by the Office,
- maintenance costs, calculated on the basis of current contracts, for premises, lifts, central heating, air-conditioning equipment, etc.; the expenditure occasioned by regular cleaning operations, the purchase of maintenance, washing, laundry and dry-cleaning products, etc., and by repainting, repairs and supplies used by the maintenance workshops,
- expenditure on the selective treatment, storage and removal of waste,
- the refurbishment of buildings, e.g. alterations to partitioning, alterations to technical installations and other specialist work on locks, electrical equipment, plumbing, painting and floor coverings, and the cost of changes to the cabling associated with fixtures, and the cost of the necessary equipment (before contracts for an amount in excess of EUR 300 000 are renewed or concluded, and with a view to rationalising expenditure, the Office must consult the other institutions with regard to the conditions (price, currency chosen, indexing, duration, other clauses) obtained by each of them for a similar contract),
- expenditure relating to the health and safety of individuals at work, in particular the purchase, hire and maintenance of fire-fighting equipment, the replacement of equipment for fire pickets, training and statutory inspection costs (before contracts for an amount in excess of EUR 300 000 are renewed or concluded, and with a view to rationalising expenditure, the Office must consult the other institutions with regard to the conditions (price, currency chosen, indexing, duration, other clauses) obtained by each of them for a similar contract),
- the cost of legal, financial and technical consultancy fees prior to the acquisition, rental or construction of buildings,
- other expenditure on buildings, in particular management fees for multiple-tenanted buildings, costs of surveys of premises and charges for utilities (refuse collection etc.),
- technical assistance fees relating to major refurbishment work on premises.

A7 01 03\*

This appropriation is intended to cover end user computing devices and support for end users. Its scope includes costs to purchase, build, manage and run end user computing devices, and deliver centralised support to end users in the Commission. It covers in particular:

- personal computing infrastructure: client compute physical desktops, portable laptops, thin client machines, peripherals (including monitors, pointer devices and attached personal printers) used by individuals to perform work,
- mobile devices: client compute tablets, smart phones and apps used by individuals to perform work,
- end-user software: client related software used to author, create, collaborate and share documents and other content, such as email, communications, messaging, word processing, spreadsheets, presentations, desktop publishing and graphics,
- network printers: network-connected personal printers, ink-jet printers, laser printers, departmental or copy-room printers, etc.,
- conferencing and audio/video: audio and video conferencing equipment typically used in conference rooms and dedicated telepresence rooms to enable workforce communications;
- IT helpdesk: centralised Tier 1 help desk resources that handle user requests, answer questions and resolve issues;
- desk-side support: local support resources that provide on-site support for moves, adds, changes and hands on issue resolution.

A7 01 03\*

This appropriation is intended to cover costs related to Data Centre facilities and communications services, as well as costs related to IT security and compliance. It covers in particular:

- Data Centre facilities: purpose-built data centre facilities that house and protect critical IT equipment including the space, power, environment controls, racks, cabling and "smart hand" support; this includes other facilities as computer rooms and closets that house IT equipment in corporate headquarters, call centres or other general purpose office buildings;
- compute on-premises and cloud-based; this includes:
  - servers: physical and virtual servers running on different operating systems; includes hardware, software and support services,
  - converged infrastructure: purpose-built appliances that provide compute, storage and network capabilities in one box,
  - mainframe: traditional mainframe computers and operations running legacy operating systems,
- storage on-premises and cloud-based: provides centralised data storage and securely holds information and data to be retrieved later. Storage may hold data for application programs and code, databases, files, media, email and other forms of information. It includes equipment and software for online storage (for the distributed compute infrastructure) and offline storage (for archive, backup and recovery to support data loss, data corruption, disaster recovery and compliance requirements),
- network: data and voice equipment along with the transport methods to connect systems and people and to enable people to converse, this includes:
  - LAN/WAN: physical and wireless local area network connecting equipment within the core data centres and connecting end users in office working areas to the organization's broader networks, and wide area network equipment and support services directly connecting data centres, offices and third parties,
  - voice: voice resources which enable or distribute voice services through on premise equipment including PBX, VoIP, voicemail and handsets,

## CHAPTER 05 01 — ADMINISTRATIVE EXPENDITURE (*cont'd*)

05 01 09 (*cont'd*)

05 01 09 03 (*cont'd*)

- transport: data network circuits and associated access facilities and services; this includes dedicated and virtual data networks and internet access, as well as usage associated with mobility and other data transit based on usage billing, and voice network circuits and associated access facilities and services, as well as usage associated with standard telephone calls. Both voice and data transport may include terrestrial and non-terrestrial (e.g., satellite) technologies,
- platform: costs associated with distributed and mainframe databases and middleware systems; this includes database management software and tools, and outside services,
- delivery: costs to monitor, support, manage, and run IT operations; this includes:
  - IT service management: resources involved with the incident, problem and change management activities as part of the IT service management process (excludes the Tier 1 help desk),
  - program, product and project management: resources involved with managing and supporting IT related projects and/or continuous product development across business and IT-driven initiatives,
  - client management: resources or 'account managers' aligned with the lines of business to understand business needs, communicate IT products, services and status of IT projects,
  - operations centre: centralised IT operations centre resources including monitoring and intervention, e.g., network operations centre (NOC), global operations centre (GOC),
- security, compliance, disaster recovery: costs to define, establish, enforce, and measure security, compliance, and disaster recovery readiness; this includes:
  - security: IT security and cybersecurity resources setting policy, establishing process and means, measuring compliance and responding to security breaches and providing real-time operational security such as vulnerability scanning, managing firewalls, intrusion prevention systems, and security information and event management,
  - compliance: IT compliance resources setting policy, establishing controls and measuring compliance to relevant legal and compliance requirements,
  - disaster recovery: IT disaster recovery resources setting disaster recovery policy, establishing process and means, dedicated failover facilities, performing disaster recovery testing,
- IT management infrastructure (including logistics): costs in relation to the management, administration and planning of IT infrastructure; this includes expenditure for assistance on executive management, strategic management, enterprise architecture, IT finance, and vendor management.

This appropriation is intended to cover expenditure on the buildings of the Office and other related expenditure, in particular:

- the payment of insurance premiums on the buildings or parts of buildings occupied by the Office,
- water, gas, electricity and heating charges relating to the buildings or parts of buildings occupied by the Office,
- various types of insurance (in particular third-party liability and insurance against theft),
- maintenance costs for premises, lifts, central heating, air conditioning equipment, etc.; the expenditure is occasioned by regular cleaning operations, the purchase of maintenance, washing, laundry and dry-cleaning products, etc., and by repainting, repairs and supplies used by the maintenance workshops,
- expenditure on the selective treatment, storage and removal of waste,
- the refurbishment of buildings, e.g. alterations to partitioning, alterations to technical installations and other specialist work on locks, electrical equipment, plumbing, painting and floor coverings, and the cost of changes to the cabling associated with fixtures, and the cost of the necessary equipment (before contracts for an amount in excess of EUR 300 000 are renewed or concluded, and with a view to rationalising expenditure, the Office must consult the other institutions with regard to the conditions (price, currency chosen, indexing, duration, other clauses) obtained by each of them for a similar contract),
- the cost of legal, financial and technical consultancy fees prior to the acquisition, rental or construction of buildings,

## CHAPTER O6 01 — ADMINISTRATIVE EXPENDITURE (*cont'd*)

### O6 01 05 (*cont'd*)

This appropriation is intended to cover expenditure on the buildings of the Office and other related expenditure, in particular:

- expenses relating to the physical and material security of persons and property, in particular contracts for the guarding of buildings, contracts for the maintenance of security installations and the purchase of minor items of equipment,
- expenses relating to the health and safety of individuals at work, in particular the purchase, hire and maintenance of firefighting equipment, the replacement of equipment for fire pickets and statutory inspection costs.

Before contracts for an amount in excess of EUR 300 000 are renewed or concluded, and with a view to rationalising expenditure, the Office must consult the other institutions with regard to the conditions (price, currency chosen, indexing, duration, other clauses) obtained by each of them for a similar contract.

#### *Legal basis*

This appropriation is intended to cover the information systems (i.e. applications) of the Office and related expenditure. The scope includes the cost of business software and the costs to develop, manage and run applications for the Office. It covers in particular:

- information systems development: resources involved with the analysis, design, development, code, test and release packaging services associated with application development projects,
- information systems support and maintenance: the operations, support, fix and minor enhancements associated with existing applications,
- business software acquisition: software expenditures including licensing, maintenance and support related to off-the-shelf software purchases,
- information systems management: costs in relation to the management, administration and planning of IT, including expenditure for assistance on executive management, strategic management, enterprise architecture, IT finance, and vendor management.

This appropriation is intended to cover end user computing devices and support for end users. Its scope includes costs to purchase, build, manage and run end user computing devices, and deliver centralised support to end users in the Commission. It covers in particular:

- personal computing infrastructure: client compute physical desktops, portable laptops, thin client machines, peripherals (including monitors, pointer devices and attached personal printers) used by individuals to perform work,

**CHAPTER O6 01 — ADMINISTRATIVE EXPENDITURE** (*cont'd*)O6 01 09 (*cont'd*)O6 01 09 02 (*cont'd*)

- mobile devices: client compute tablets, smart phones and apps used by individuals to perform work,
- end-user software: client related software used to author, create, collaborate and share documents and other content, such as email, communications, messaging, word processing, spreadsheets, presentations, desktop publishing and graphics,
- network printers: network-connected personal printers, ink-jet printers, laser printers, departmental or copy-room printers, etc.,
- conferencing and audio/video: audio and video conferencing equipment typically used in conference rooms and dedicated telepresence rooms to enable workforce communications,
- IT helpdesk: centralised Tier 1 help desk resources that handle user requests, answer questions and resolve issues,
- desk-side support: local support resources that provide on-site support for moves, adds, changes and hands on issue resolution.

This appropriation is intended to cover costs related to Data Centre facilities and communications services, as well as costs related to IT security and compliance. It covers in particular:

- Data Centre facilities: purpose-built data centre facilities that house and protect critical IT equipment including the space, power, environment controls, racks, cabling and "smart hand" support; this includes other facilities as computer rooms and closets that house IT equipment in corporate headquarters, call centres or other general purpose office buildings;
- compute on-premises and cloud-based; this includes:
  - servers: physical and virtual servers running on different operating systems; includes hardware, software and support services,
  - converged infrastructure: purpose-built appliances that provide compute, storage and network capabilities in one box,

COMMISSION  
EUROPEAN ANTI-FRAUD OFFICE (OLAF)

## CHAPTER O6 01 — ADMINISTRATIVE EXPENDITURE (*cont'd*)

O6 01 09 (*cont'd*)

O6 01 09 03 (*cont'd*)

- mainframe: traditional mainframe computers and operations running legacy operating systems,
- storage on-premises and cloud-based: provides centralised data storage and securely holds information and data to be retrieved later. Storage may hold data for application programs and code, databases, files, media, email and other forms of information. It includes equipment and software for online storage (for the distributed compute infrastructure) and offline storage (for archive, backup and recovery to support data loss, data corruption, disaster recovery and compliance requirements);
- network: data and voice equipment along with the transport methods to connect systems and people and to enable people to converse; this includes:
  - LAN/WAN: physical and wireless local area network connecting equipment within the core data centres and connecting end users in office working areas to the organization's broader networks, and wide area network equipment and support services directly connecting data centres, offices and third parties,
  - voice: voice resources which enable or distribute voice services through on premise equipment including PBX, VoIP, voicemail and handsets,
  - transport: data network circuits and associated access facilities and services; includes dedicated and virtual data networks and internet access, as well as usage associated with mobility and other data transit based on usage billing, and voice network circuits and associated access facilities and services, as well as usage associated with standard telephone calls. Both voice and data transport may include terrestrial and non-terrestrial (e.g., satellite) technologies,
- platform: costs associated with distributed and mainframe databases and middleware systems; this includes database management software and tools, and outside services,
- delivery: costs to monitor, support, manage, and run IT operations; this includes:
  - IT service management: resources involved with the incident, problem and change management activities as part of the IT service management process (excludes the Tier 1 help desk),
  - program, product and project management: resources involved with managing and supporting IT related projects and/or continuous product development across business and IT-driven initiatives,
  - client management: resources or 'account managers' aligned with the lines of business to understand business needs, communicate IT products, services and status of IT projects,
  - operations centre: centralised IT operations centre resources including monitoring and intervention, e.g., network operations centre (NOC), global operations centre (GOC);

**CHAPTER O6 01 — ADMINISTRATIVE EXPENDITURE** (*cont'd*)O6 01 09 (*cont'd*)O6 01 09 03 (*cont'd*)

- security, compliance, disaster recovery: costs to define, establish, enforce, and measure security, compliance, and disaster recovery readiness; this includes:
  - security: IT security and cybersecurity resources setting policy, establishing process and means, measuring compliance and responding to security breaches and providing real-time operational security such as vulnerability scanning, managing firewalls, intrusion prevention systems, and security information and event management,
  - compliance: IT compliance resources setting policy, establishing controls and measuring compliance to relevant legal and compliance requirements,
  - disaster recovery: IT disaster recovery resources setting disaster recovery policy, establishing process and means, dedicated failover facilities, performing disaster recovery testing,
- IT management infrastructure (including logistics): costs in relation to the management, administration and planning of IT infrastructure; this includes expenditure for assistance on executive management, strategic management, enterprise architecture, IT finance, and vendor management.

COMMISSION  
EUROPEAN ANTI-FRAUD OFFICE (OLAF)

## CHAPTER O6 02 — SPECIFIC ACTIVITIES (*cont'd*)

### O6 02 01 (*cont'd*)

This appropriation is intended to cover all expenditure on measures to combat fraud which does not come under the Office's administrative operations.

It is intended, in particular, for:

- searching for, gathering, examining, utilising and passing on to national investigation departments all information which is useful for the detection and pursuit of fraud (e.g. via databases),
- supporting efforts by Member States, in particular in the case of international fraud, when action has to be taken at Union level,
- financing measures to increase the effectiveness of preventive measures, inspections and investigations,
- strengthening cooperation with national administrations, in particular to combat cigarette smuggling,
- organising and participating in monitoring and on-the-spot inspections,
- financing travel expenses and subsistence allowances for inspectors and national magistrates working abroad in connection with control visits, on-the-spot inspections, coordination meetings and for the purposes of an inspection in general,
- covering travel expenses, subsistence allowances and ancillary costs of experts employed by the Office in the course of its investigations to give a professional opinion on a specific matter,
- covering the costs of conferences, congresses and meetings that the Office organises in its anti-fraud work.

### O6 02 02 **Information and communication measures**

150 000	150 000	156 489,61

Remarks

Former article

---

A3 02 03

---

This appropriation is intended to cover the cost of information and communication measures undertaken by the Office.

The Office's external information and communication strategy is central to its work. The Office was set up as an independent investigative body and must therefore have its own communications strategy. The Office's work is often too technical to be immediately comprehensible to the general public. The Office has to inform its interlocutors and the public as a whole of its role and tasks. Public perception of the Office's work is of paramount importance.

**CHAPTER O6 02 — SPECIFIC ACTIVITIES** (*cont'd*)**O6 02 02** (*cont'd*)

As a Commission service, the Office also needs to take account of the democratic deficit existing between the Union institutions and the citizens of Europe. The Commission has recognised this deficit and drawn up an action plan to address it.

The communications strategy that the Office has developed and continues to implement must demonstrate its independence.

## CHAPTER PP 20 — ADMINISTRATIVE EXPENDITURE OF THE EUROPEAN COMMISSION (cont'd)

[illegible]

COMMISSION  
PILOT PROJECTS

## TITLE PP

### PILOT PROJECTS

#### CHAPTER PP 01 — RESEARCH AND INNOVATION

##### Remarks

The appropriations under this chapter are intended to finance the implementation of pilot projects of an experimental nature designed to test the feasibility of actions and their usefulness. Their total corresponds to the level of appropriations shown under Article 01 20 01.

##### Legal basis

Point (a) of Article 58(2) of Regulation (EU, Euratom) 2018/1046 of the European Parliament and of the Council of 18 July 2018 on the financial rules applicable to the general budget of the Union, amending Regulations (EU) No 1296/2013, (EU) No 1301/2013, (EU) No 1303/2013, (EU) No 1304/2013, (EU) No 1309/2013, (EU) No 1316/2013, (EU) No 223/2014, (EU) No 283/2014, and Decision No 541/2014/EU and repealing Regulation (EU, Euratom) No 966/2012 (OJ L 193, 30.7.2018, p. 1).

#### PP 01 14 2014

PP 01 14 01 Pilot project — Open knowledge technologies: mapping and validating knowledge

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

It is time to reconsider the concept of freedom in the digital sphere. The current state of the digital economy powerfully demonstrates the paradoxes of network freedom: internet giants benefit from an extraordinarily free, immensely profitable, dynamic market, yet their business models raise basic questions about precisely this freedom in the digital sphere. Even though some legislative actions to regulate digital companies are already under way – in this regard, reference should be made to the Commission proposal regarding a digital tax – these measures only partly tackle the problems with digital monopolies. The regulatory framework, including Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the

**CHAPTER PP 01 — RESEARCH AND INNOVATION** (*cont'd*)PP 01 19 (*cont'd*)PP 01 19 06 (*cont'd*)

processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation) (OJ L 119, 4.5.2016, p. 1) and Directive (EU) 2019/790 of the European Parliament and of the Council of 17 April 2019 on copyright and related rights in the Digital Single Market and amending Directives 96/9/EC and 2001/29/EC (OJ L 130, 17.5.2019, p. 92), shows that the Union is a leader in protecting the data of users and securing cultural diversity by allowing fair remuneration of artists.

However, there is no European competition oversight of the mainly US-located digital monopolies that far too often use their market power to influence public opinion or legislators. Furthermore, they are based on a dubious business model at best, as the scandal involving Cambridge Analytica and Facebook scandal shows.

The Commission came up with similar considerations in its communication entitled 'Tackling online disinformation: a European approach', issued in April 2018, stating the need for a more transparent, trustworthy and accountable online ecosystem. On the issue of fake news, it pointed out that '...mechanisms which enable the creation, amplification and dissemination of disinformation rely upon a lack of transparency and traceability in the existing platform ecosystem and on the impact of algorithms and online advertising models', and that therefore 'it is necessary to promote adequate changes in platforms' conduct, a more accountable information ecosystem, enhanced fact-checking capabilities and collective knowledge on disinformation, and the use of new technologies to improve the way information is produced and disseminated online'.

Further on, the communication states the need to improve transparency as to the origin and production of information, encourage diversity of information, and checks on its credibility. In further remarks, it seeks 'to fashion inclusive solutions. Effective long-term solutions require awareness-raising, more media literacy, broad stakeholder involvement and the cooperation of public authorities, online platforms, advertisers, trusted flaggers, journalists and media groups.'

In the same spirit, this pilot project will create a new European digital platform in accordance with a strong Union regulatory framework. The platform will work on a business model that is fundamentally different to the data trading model Facebook and Google use. The European alternative will aim to provide quality content without restricting freedom of linking. Instead, there must be a licensing regime that underpins high-quality journalism. A common European platform, therefore, could mean a joint action at European level against fake news and hate speech. The need to provide an alternative is not only highlighted by the recent scandals, but also by the fact that there are initiatives within the Union to launch alternative platforms, such as Verimi.

Additionally, the pilot project covers a broad range of objectives and policies, taking stock of the work done by the Commission in the field. It is also part of its drive to create a digital single market. The Commission aims to make the Union's rules more future-oriented and aligned with the rapid advance of technological development.

COMMISSION  
PILOT PROJECTS**CHAPTER PP 01 — RESEARCH AND INNOVATION** (*cont'd*)PP 01 19 (*cont'd*)PP 01 19 06 (*cont'd*)

The pilot project is an additional tool to promote the digitisation of information published by listed companies in Europe, including the use of innovative technologies to interconnect national databases. Furthermore, the pilot project could link the existing platform of Europeana, which is already a Commission-run digital platform for cultural heritage. Through Europeana, citizens and the cultural and creative industries can access European culture for the widest possible variety of purposes. This new European platform could be merged with Europeana in the future. Public broadcasters such as ARTE, newspaper publishers and cultural institutions such as universities, theatres, museums and many others should participate.

The pilot project is divided into two phases:

## Phase 1: Gaining an overview

The first phase will involve taking stock of initiatives connected to online platforms within the Union at a local, regional and (inter)national level, whether private or public. Stakeholders and experts need to be consulted and a study could be launched in order to gain an overview of initiatives on all levels. Finally, these initiatives will be analysed to assess to what extent and in which specific areas they are suitable to help build a European platform. Furthermore, an alternative business model to data trading needs to be found.

## Phase 2: Constructing the platform

In the second phase, existing platforms have to be adjusted and linked together with the stakeholders in order to provide a European platform covering all kinds of content, including journalism, videos and pictures. It would fit in with the Commission's plan to set up a platform on disinformation.

PILOT PROJECTS**CHAPTER PP 01 — RESEARCH AND INNOVATION** (*cont'd*)PP 01 20 (*cont'd*)PP 01 20 01 (*cont'd*)*Remarks**Former item*

02 04 77 08

This project will analyse the threat of GNSS jamming and cyber-attacks to aviation and identify mitigation measures.

This is a two-year project to be led by the European Union Aviation Safety Agency in coordination with European partners to ensure the safety of civil aviation by implementing integrated security measures and jamming-proof mechanisms. The project will identify good practices for regulators and operators, and provide policy guidance in connection with security for the GNSS system and possible future initiatives in the area of aviation security.

The project will also address the issue of GNSS/PNT equipment (most notably receivers) by proposing installation and operation strategies that can be implemented for current equipment as well as strategies that can result in more resilient new and/or improved products.

Moreover, the project will assess whether the proposed strategies are applicable to non-aviation domains.

PP 01 20 02 Pilot project — The use of Galileo and EGNOS to reduce the number of cardiac-arrest-related deaths

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
p.m.	150 000	500 000	125 000		

*Remarks**Former item*

02 05 77 01

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

Sudden cardiac arrests account for 20 % of deaths in the Union. This figure could be significantly lower if early chest compression and early defibrillation were performed on all victims. Indeed, research shows that a first defibrillation less than three minutes after cardiac arrest results in a survival rate of 74 %. Yet less than 5 % of cardiac arrest victims are treated with early chest compression and defibrillation.

**CHAPTER PP 01 — RESEARCH AND INNOVATION** (*cont'd*)PP 01 20 (*cont'd*)PP 01 20 02 (*cont'd*)

Nowadays, more and more information campaigns are being carried out to encourage people to learn how to perform cardio-pulmonary resuscitation (CPR) and to encourage individuals, private organisations and public authorities to acquire automated external defibrillators (AEDs). However, the location of these devices is in many cases unknown to others, including the emergency services. This results in a situation where heart attack victims cannot be resuscitated in time. Hence, it is essential to develop and promote measures to map publicly accessible AEDs.

At the same time, the added value of the European global navigation satellite systems EGNOS and Galileo as regards location-based services has already been demonstrated. Those systems should also be used to save lives by locating AEDs.

A registry of all accessible AEDs should be made available to emergency call-takers, who could advise persons calling emergency services as to where the nearest defibrillator is located. Where possible, the registry should also be made directly available to members of the public.

It should however be taken into consideration that:

- some defibrillators are not accessible on a round-the-clock basis, since they might be located in places that are closed at specific times (offices, shops, schools, etc.);
- in some instances, such as in large buildings, the address of the defibrillator might not be sufficient to find it quickly. Location information should therefore also include important details such as the floor level;
- information that defibrillators are in proper working order is also very important. For instance, modern defibrillators are now able to communicate battery power status.

Information provided in the registry should be made available in two ways:

- by fitting AEDs with Galileo chipsets so that their exact position can be accurately tracked, and
- by manually adding details for AEDs that are not equipped with chipsets.

The project will demonstrate the added value of Galileo in saving lives. Due to its performance in terms of accuracy and signal availability, Galileo will help reduce intervention time for victims of heart attacks, bearing in mind that every minute lost before chest compression or defibrillation lowers survival rate by 10 %.

The central objective of the pilot project is therefore to:

- analyse the best possible way of developing, organising and managing a registry of publicly accessible AEDs, taking advantage of the location information provided by Galileo;
- find an alternative solution to a registry, based on Galileo.

COMMISSION  
PILOT PROJECTS**CHAPTER PP 01 — RESEARCH AND INNOVATION** (*cont'd*)PP 01 20 (*cont'd*)

PP 01 20 03 Pilot project — Art and the digital: unleashing creativity for European water management

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
p.m.	550 000	1 000 000	250 000		

*Remarks**Former item*

09 04 77 28

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

Sustainable water management is essential for Europe, given the global trend of ever-higher water consumption. Water scarcity and the role of water in a broader context of preservation of natural habitats must be tackled through methods for water reuse, reduction of waste and measures to conserve natural water habitats. The capacity of European regions to tackle the issue of water scarcity beyond resource efficiency is an important issue to address. It will in particular be important to enable multi-stakeholder governance of these scarce resources and to increase awareness of the fact that water is a valuable resource.

Opening up the traditional water sector to new technologies, in particular digital technologies, will help introduce efficiency and productivity in water management, but will also help raise awareness of the problems and position of sustainable water management in a broader context of sustainability and preservation. For example, data from sensors and robotics can help cope with water waste, virtual reality can introduce scenarios for future use of water resources, augmented reality can help evaluate different policies and help citizens better understand and react to water problems. An important aspect of the management of natural resources is community involvement (e.g. community-based measurements of pollution levels or water shortage), where digital technologies can play an important role.

Action must be taken to speak to the heart of innovators and to stimulate their minds to come up with creative solutions. The contention is that in this context new opportunities arise for joint efforts between digital technologies and artistic practices. Performance artworks and virtual or augmented reality can jointly address the need to raise awareness. Artists can come up with novel uses of digital technologies, such as artificial intelligence, to help address water sustainability in new and unforeseen ways. Links between digital technologies and traditional crafts (such as, for example, boat building) can give rise to new forms of alliances for conserving water habitats by, for instance, linking cultural and ecological aspects for tourism.

The project will explore links between art and digital technologies for water management in given regional contexts and will mobilise the technological and cultural resources of European regions to help tackle the imminent challenge of water management.

**CHAPTER PP 01 — RESEARCH AND INNOVATION** (*cont'd*)PP 01 20 (*cont'd*)

PP 01 20 04 Pilot project — Inclusive web accessibility for persons with cognitive disabilities (web inclusiveness: access for all)

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
p.m.	640 000	900 000	225 000		

*Remarks**Former item*

09 04 77 29

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

This pilot project supports actions in the area of independent and inclusive access to online content and services for people with cognitive disabilities. Building on the work of the W3C's Web Accessibility Initiative, under this project two specific actions will be taken. First, it will seek to create an overview of existing research/studies and identify gaps in web accessibility requirements for cognitive disabilities. The overview will then serve as guidance on practical measures to further accessibility. Second, it will seek to propose and promote tools drawing on artificial intelligence, machine learning or similar solutions to automate the transformation and/or adaptation of web content and services in a way that enables persons with cognitive disabilities to understand and use such content and services (content absorption). Equally, it will seek to propose the simplification or adaptation of web-authoring tools that persons with cognitive disabilities could use to create online content (content creation). The project may be implemented on the basis of a tender for the first action and a public grant for the second action(s); it may be implemented in a way that complements existing projects, but overlaps should be prevented.

**PP 01 21 2021**

PP 01 21 01 Pilot project — Feasibility study on reduction of traffic-related particulate emissions by means of vehicle-mounted fine dust filtration

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
1 500 000	375 000				

*Remarks*

Despite the existing legislation, air pollution remains one of the major environmental problems in Europe. Transportation is one of the main contributors of air quality issues within cities. Transport-related emissions cover nitrogen oxide (NOx) and carbon dioxide (CO<sub>2</sub>) caused by combustion engine vehicles as well as fine dust (particulate matter PM<sub>2.5</sub> and PM<sub>10</sub>). Particulate matter emissions will especially continue to be a challenge not only in the

COMMISSION  
PILOT PROJECTS**CHAPTER PP 01 — RESEARCH AND INNOVATION** (*cont'd*)PP 01 21 (*cont'd*)PP 01 21 01 (*cont'd*)

existing fleet with a majority of combustion engine vehicles. This challenge is likely to continue even after full electrification of the fleet since electrification itself will avoid NO<sub>x</sub> and CO<sub>2</sub> emissions, but will only have little impact on fine dust emissions (PM<sub>2.5</sub> and PM<sub>10</sub>). This is due to the fact that only tailpipe emissions are avoided, but the main emitters of fine dust are considered to be brakes, tyres and road wear.

In recent years, great efforts have been made by tyre manufacturers (wear-optimised tyres) and brake manufacturers (optimised materials and coatings) to reduce emissions directly at the source. However, the emission reductions achieved are not sufficient. Also the actual fleet renewal would be too slow to have immediate impact on air quality in polluted cities. Therefore it has to be expected that, in the coming years, air quality issues will remain within European cities.

This indicates that other solutions are needed to reduce particulate emissions and improve air quality, beyond working towards the replacement of all conventional vehicles by electric vehicles or the incremental improvement of car engines and limitation of exhaust emissions.

In current legislation only exhaust emissions are regulated via European standards. Especially the regulations on emission limit standards Euro 5 and 6 for light passenger and commercial vehicles as well as EURO VI for heavy-duty vehicles have introduced stricter emission limits for exhaust emissions. Currently there are no regulations in force for non-exhaust emissions, but most recently several working groups are developing regulations for tyre and brake emissions, which are expected to be included in the Euro 7 standard.

Latterly it has been shown that also new upcoming filtration technologies have the ability to compensate part of the vehicles emissions. This pilot project addresses the potential of these new approaches. The concrete filtration technologies to be investigated within this pilot project are:

(a) Brake dust particle filter which consists of a housing and a non-woven media. It is mounted behind the brake caliper. Due to this mounting location the filter is able to confine particles in a non-woven filter media directly after they are emitted at the contact area of the brake pad and the brake disc.

(b) Fine dust particle filter which is installed on the top of or underneath a vehicle. An installed fan actively conveys polluted ambient air through a filter media where the fine dust can be separated. In this way the filter is able to separate self-generated emissions as well as the emissions of ambient air and surrounding vehicles.

Both systems could in general be applied to all kinds of vehicles, including light, commercial and heavy-duty vehicles. To maximise the impact on the overall air quality the entire public transport bus fleet, taxi fleets or delivery vehicles could for example be equipped with these solutions, cleaning the air while driving or charging. In this way, those equipped vehicles would be leaving the air cleaner than before.

**CHAPTER PP 01 — RESEARCH AND INNOVATION** (*cont'd*)PP 01 21 (*cont'd*)PP 01 21 01 (*cont'd*)

Within the pilot project, the focus is on particulate matter reduction by application of filtration solutions, confining emissions from brake (close to its source) and filtration of ambient polluted air through fine dust filters. Amongst the expected deliverables, this pilot project should provide quantifiable evidence on how such systems have to be tested to assess their performance, which impact on air quality such filtration technologies can have and how these solutions can supplement the measures in air pollution control plans to provide clean air to residents.

Therefore the concrete and specific objectives to be achieved during the pilot project are:

(1) Identification and assessment of the possible impact of retrofit filtration solutions for light, commercial and heavy-duty road vehicles

A holistic technology review for filtration retrofit solutions for light, commercial and heavy-duty road vehicles should be provided, to give an overview on available solutions on the market, including their respective potential impacts identified in publications and studies.

(2) Definition of a measurement procedure for the performance evaluation of active fine dust filters and brake dust particle filters

The performance of the described filtration systems do not only depend on their technical specifications but also on the environment in which they are operated. This includes environmental conditions like ambient temperature and humidity but also the current dust concentration since the separated particle mass of a filter is higher at higher concentrations. Currently there is no generally defined measuring procedure available to assess the performance of such systems and to be used for future regulations. Therefore it is the aim of this pilot project to build the experimental foundation for defining a measuring procedure. This should be done via the following steps:

(a) Laboratory tests evaluating the emission footprint reduction by brake dust particle filtration

The emission reduction potential by filtration of brake dust should be evaluated. Due to the complex conditions in the vicinity of the brake and the wheelhouse, laboratory tests on an inertia dynamometer test bench should be done as a first step, following the approach of the Particle Measurement Programme working group. The laboratory tests should be performed for at least three vehicles, covering light and commercial vehicle brakes.

(b) Additional field tests evaluating the emission footprint reduction by brake dust filtration

The complex conditions in the wheelhouse near the brake cannot be properly covered by laboratory tests. Therefore additional field test should be performed for at least three vehicles, covering light and commercial vehicle brakes. Based on gravimetric measurement, the particulate matter reduction under real-driving conditions should be shown and compared to the laboratory results.

(c) Laboratory tests evaluating the emission footprint reduction by active ambient air filtration systems

COMMISSION  
PILOT PROJECTS**CHAPTER PP 01 — RESEARCH AND INNOVATION** (*cont'd*)PP 01 21 (*cont'd*)PP 01 21 01 (*cont'd*)

The volume flow rate through the active air filter system is to be determined for several driving velocities on the lab scale. The laboratory setup allows reproducible testing independent of environmental conditions. Therefore wind tunnel experiments should be performed. Based on the determined volume flow rates, the emission reduction can be calculated based on the knowledge of typical ambient duct concentrations. The wind tunnel tests should be performed for at least three vehicles, covering light, commercial and heavy-duty vehicles.

(d) Additional field tests evaluating the emission footprint reduction by active ambient air filtration systems

The reduction potential of the identified solutions should be tested in addition in a field test under real-driving conditions. At least two retrofit solutions should be tested and the PM10 and PM2.5 reduction quantified under various ambient conditions (temperature, humidity, particulate matter concentration, traffic intensity). The field test should be performed for at least 20 vehicles, covering light, commercial and heavy-duty vehicles, in at least three European cities. The field test results should give indication for further legislation about the influence of environmental condition on the overall particulate matter footprint of vehicles.

(3) Feasibility study and demonstrator vehicle for integrated fine dust particle filtration systems

A feasibility study to investigate the possibilities to integrate the previously described retrofit solutions within future vehicles should be performed. Especially it should be outlined up to which extent filtration systems can be integrated into the future fleet. A holistic technical review has to be carried out to estimate the overall impact on the vehicle emission footprint.

Furthermore a prototype vehicle (demonstrator car) should be built to show the integrated concepts and for use in further field tests.

(4) Estimate of possible impact on air quality in cities

Within the previously defined field and laboratory tests, the performance of the filtration systems can only be assessed for a small number of vehicles. To transfer and to extrapolate these results to a possible coverage of the fleet, several scenarios should be investigated via simulations, e.g. assuming that a certain percentage of

buses in public transport

inner-city delivery vehicles

private cars in the future fleet

will be equipped with these filtration systems. This will give a clear indication for the legislation which emission reduction targets can be achieved.

**CHAPTER PP 01 — RESEARCH AND INNOVATION** (*cont'd*)PP 01 21 (*cont'd*)PP 01 21 01 (*cont'd*)

## (5) Lifecycle analysis

In order to evaluate the sustainability of the filtration systems under investigation, a life cycle analysis should be performed for production phase, use phase and recycling phase, including in particular the aspects of CO<sub>2</sub> emissions, primary energy consumption and PM<sub>10</sub> emissions during production. Furthermore it should be assessed how the filtration systems influence fuel consumption and thus greenhouse gas emissions.

(6) Assessment of shortcomings in the current measurement procedure and regulation as well as creating the basis for future legislation for non-exhaust emissions with a specific focus on retrofit solutions

Based on the findings a suggestion for future legislation should be given. In contrast to past regulations for exhaust emission, the case of integrated or retrofitted filtration systems poses the challenge that a vehicle needs to be considered in a certain environment and cannot be characterised as an independent object. This aspect is not taken into account in current regulations.

In this way, the pilot project will not only be a key enabler for realising sustainable transport within the existing fleet, but it will also drive the development of solutions for clean electro mobility.

Furthermore it can boost innovation in the European automotive industry and catalyse the development of other retrofit solutions and products outside of the scope of this project (cabin air filter, helmet filter, etc.). At the same time, the results can significantly improve healthy living and promote wellbeing of city inhabitants.

PP 01 21 02 Pilot project —Support service for citizens led renovation projects

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
1 000 000	250 000				

*Remarks*

This pilot project aims to overcome financial, legal and technical barriers to citizen-led renovation projects. A specific Union support service should be created for Citizens Energy Communities (CEC) and Renewable Energy Communities (REC) which are new actors enshrined in the Union legislation able to catalyse citizens' engagement in various aspects of the ecological transition, including renovation projects. The creation of such a service could build upon the experience of cooperatives that are successfully bundling projects at a neighbourhood scale. The support service would aim to strengthen community building and to scale up and replicate successful programmes. It should include:

1. A platform for sharing experience and models, in order to build strong community dynamics to mobilise European citizens around integrated building renovation and renewable deployment by means of CEC and REC.

COMMISSION  
PILOT PROJECTS**CHAPTER PP 01 — RESEARCH AND INNOVATION** (*cont'd*)PP 01 21 (*cont'd*)PP 01 21 02 (*cont'd*)

2. Support for the development of investment plans, as identifying financing options is a key element for the creation of project pipelines. Looking for commonalities in order to scale the development of citizen-led projects. Investigating the development of models supporting renovation in conjunction with renewable deployment.

3. Providing evidence and indicators in order to raise awareness among existing CEC and REC about the value of energy renovations.

4. Providing technical assistance and coaching to citizens groups, existing community organisations as well as local authorities to set up citizen and renewable energy communities dealing with building renovation, access to home ownership and energy poverty.

5. Monitoring and supporting a strong transposition of Clean Energy package provisions concerning CEC and REC, which should be an opportunity for Member States to strengthen the role of citizens in the energy transition.

The goal of the pilot project will be to coach CEC and REC through the process of creating and implementing a territory transition.

PP 01 21 03 Pilot project — Promote worldwide a European way to digital innovation rooted in culture

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
1 000 000	250 000				

*Remarks*

The international activities covered will comprise events (fairs, exhibitions, workshops, hackathons, etc.) where local and European businesses meet with local and European artists and representatives of cultural sectors. The goal will be to create collaborations that can lead to a rethinking of the innovation cycle rooted in cultural priorities and to emerging business opportunities with Europe.

The activities should be limited to a number of selected regions where it is expected that innovation rooted in culture and the arts will resonate with local thinking. Sub-Saharan Africa and the Middle East are chosen as regions where European presence could be reinforced by a culture-driven approach to innovation. Silicon Valley is a region where such considerations could be based on increasing sensitivity of dominant players in the digital sector.

**CHAPTER PP 01 — RESEARCH AND INNOVATION** (*cont'd*)PP 01 21 (*cont'd*)

PP 01 21 04 Pilot project — Europe-wide solutions for free and open source software use by public services in the Union

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
500 000	125 000				

*Remarks*

The pilot project takes a Union-wide view of open source with a view of establishing common solutions to the challenges faced by public services in the Union and enhance the continued adaptation of open source by the following:

## Solutions Catalogue

Creation of an online catalogue of open-source software used in Member States and Union institutions to allow for the identification of similar systems that are easily modifiable thus reducing re-development and proprietary systems due to lack of awareness of alternatives. It will also examine in which way local software can be made fit for Europe-wide use and suggest a European perspective for future open source solution developments.

## Inventory

Creation of an inventory of open-source software used by public services in the Union, facilitating identification of the most critical open-source use within Europe, and allowing for further initiatives to protect and safeguard such software.

PP 01 21 05 Pilot project — European entrepreneurial E-learning platform helping SMEs to adapt to the current context

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
400 000	100 000				

*Remarks*

The pilot project should complement the current actions that support SMEs during the COVID-19 crisis, but can also support entrepreneurs facing the challenges posed by becoming more digital and sustainable. Such a project can equip entrepreneurs with the right mindset, resilience and skills they need to adapt to a changing and difficult context. In the current context, entrepreneurs need to find solutions to pressing problems such as funding, management, scaling or becoming green. In order to face the challenges posed by the COVID-19 crisis, as well as by digitalisation and becoming sustainable, entrepreneurs need flexible and interactive training modules on areas such as financial literacy, pitching to investors or expanding one's business, as well as coaching and mentoring from either peers or experienced

COMMISSION  
PILOT PROJECTS**CHAPTER PP 01 — RESEARCH AND INNOVATION** (*cont'd*)PP 01 21 (*cont'd*)PP 01 21 05 (*cont'd*)

practitioners. This information can be hosted or linked to existing platforms, such as EEN, Digital Skills and Jobs Platform, EntreComp360, WEGate, and early warning mentors, so as to allow easy access to relevant information to all SMEs in Europe.

**CHAPTER PP 02 — EUROPEAN STRATEGIC INVESTMENTS***Remarks*

The appropriations under this chapter are intended to finance the implementation of pilot projects of an experimental nature designed to test the feasibility of actions and their usefulness. Their total corresponds to the level of appropriations shown under Article 02 20 01.

*Legal basis*

Point (a) of Article 58(2) of Regulation (EU, Euratom) 2018/1046 of the European Parliament and of the Council of 18 July 2018 on the financial rules applicable to the general budget of the Union, amending Regulations (EU) No 1296/2013, (EU) No 1301/2013, (EU) No 1303/2013, (EU) No 1304/2013, (EU) No 1309/2013, (EU) No 1316/2013, (EU) No 223/2014, (EU) No 283/2014, and Decision No 541/2014/EU and repealing Regulation (EU, Euratom) No 966/2012 (OJ L 193, 30.7.2018, p. 1).

*Remarks**Former item*

06 02 77 20

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

This pilot project addresses the lack of attention given by the Union to behaviour in connection with autonomous driving. Much research has been conducted in recent years into autonomous driving, both by car manufacturers and by the research community. It has mainly focused on the technological aspects of autonomous driving, i.e. interoperability of vehicles, interaction with road infrastructure, data security, data reliability, data protection and liability, etc.

The pilot project provides a new area for studies and research that puts the emphasis on driver behaviour, which has been somewhat neglected both by policy makers and by the industry. It provides the Commission and the legislative authority with a complementary view of the interaction of human behaviour with autonomous driving with a view to addressing potential problems arising from the large-scale introduction of autonomous driving in the Union in order to make it a success and improve road safety.

COMMISSION  
PILOT PROJECTS**CHAPTER PP 02 — EUROPEAN STRATEGIC INVESTMENTS** (*cont'd*)PP 02 18 (*cont'd*)PP 02 18 01 (*cont'd*)

The pilot project gathers information from the research community on road safety in order to address the following areas:

- the human factor in new autonomous driving; opinions and views of professional, frequent and occasional drivers, broken down by age and other relevant criteria (country, gender, etc.);
- identifying and proposing solutions to address 'resistance' by the driver community to the introduction of autonomous vehicles;
- the training needs of drivers in connection with new autonomous forms of driving; need for additional, specific or less certification for self-drivers (compulsory training, additional requirements to obtain a driving licence, voluntary schemes, etc.);
- interaction between autonomous and traditional drivers; attitudes of drivers and other road users towards autonomous drivers and ways of alerting other road users to autonomous driving.

PP 02 18 02 Pilot project — Pan-European road safety awareness campaign

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019

p.m.	178 215	p.m.	178 215	0,—	0,—

*Remarks**Former item*

06 02 77 21

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

The Union is committed to halving the number of fatal road accidents by 2020. Cross-European enforcement operations supported by information and awareness campaigns could help to achieve this goal. Therefore a coordinated pan-European enforcement event should take place across the TEN-T network and Member States should sign up to it.

The Commission therefore funded a one-month coordinated operation across the TEN-T network. European police operations in Member States should be coordinated. As more than half of all fatal accidents occur on rural roads, the event could take place in rural areas and be supported by targeted campaigns to raise awareness. It should be focused on the main killer: speed.

**CHAPTER PP 02 — EUROPEAN STRATEGIC INVESTMENTS** (*cont'd*)PP 02 18 (*cont'd*)

PP 02 18 03 Pilot project — OREL — European system for limiting odometer fraud: fast-track to roadworthiness in the Union

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
p.m.	p.m.	p.m.	1 37 681	0,—	103 312,80

*Remarks**Former item*

06 02 77 22

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

The aim of this pilot project is to reduce odometer fraud by facilitating odometer information exchange in the Union.

It includes an assessment, a feasibility study and a technical business analysis to identify and explore solutions and define the scope for a future odometer information exchange system in the Union. It provides support for roadworthiness certification in connection with Directive 2014/45/EU of the European Parliament and of the Council of 3 April 2014 on periodic roadworthiness tests for motor vehicles and their trailers and repealing Directive 2009/40/EC (OJ L 127, 29.4.2014, p. 51).

Recent studies show that in major European markets for used cars one-third of all vehicles have had their odometers manipulated. The average value of the fraud is roughly EUR 3 000, with central budget revenue losses estimated at between EUR 5 600 000 000 and EUR 9 600 000 000 a year. New vehicles are mainly checked and serviced at official dealerships as a condition of warranty. Dealerships keep records of odometer readings, but this information is not publicly accessible. New vehicles do not undergo roadworthiness testing until they are four years old. During the subsequent annual inspections, odometer readings are transmitted to databases in the Member States but are not exchanged. When a vehicle changes hands or is sold abroad, there is a break in the odometer track record, presenting the opportunity for tampering with odometer readings. It is becoming increasingly easy to do this with a minimum of investment in software, knowledge and time.

The target group includes consumers, tax and revenue authorities and car retailers.

The pilot project is supported by the Fédération Internationale de l'Automobile and the European Consumer Organisation BEUC.

*Remarks**Former item*

32 02 77 11

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

The pilot project sets up a platform of best practices and technical advice, based on the experience and needs of the new actors in the energy market, thus helping the Commission to stimulate the development of technical standards for distributed ledgers.

To do this, the following activities are carried out during the project:

- analysis of the existing distributed ledger based on blockchain technology, the aim being to understand the problems and the solutions found during setup and use of a distributed ledger in real cases,
- analysis of the needs of all energy market stakeholders (institutionalised energy suppliers, prosumer organisations, energy community organisations, etc.); a survey in 2016 by the German Energy Agency (Dena) found that 52 % of German energy actors were already implementing or planning blockchain activities; the analysis will focus on those activities so as to understand the needs of the actors concerned; a focus group involving prosumer associations will also be set up,
- organising information events on distributed ledgers based on blockchain technology,
- setting up a network for stakeholders involved in the new energy market; it will be a tool for disseminating and sharing best practices and technical advice.

---

06 02 77 23

---

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

The tachograph, which has been mandatory since 1985, is the cornerstone of road transport legislation, in particular for monitoring vehicle speed, distance travelled and driver work and rest times. Over the years, as the technology has progressed, successive generations of tachograph have incorporated new features which have gradually made the controls and fraud prevention more effective. The latest 'smart tachograph' is expected to provide real-time information by connecting satellite navigation systems and enforcement authorities.

According to a study commissioned by the European Parliament in 2018, retrofitting smart tachographs in all heavy-duty vehicles by 2020 was estimated to cost between EUR 6 400 000 000 and EUR 15 900 000 000 just for the purchase of the device and the labour associated with the retrofit.

Given the widespread use of smartphones and the continuous expansion of their functions, as well as the deployment of Galileo and the opportunities it offers in terms of real-time localisation, which many mobiles already use, the pilot project explores the possibility of developing and certifying a mobile application offering the same benefits as the smart tachograph, and the associated costs.

The feasibility study will be structured as follows:

(1) identifying, in accordance with the revised Regulation (EU) No 165/2014 of the European Parliament and of the Council of 4 February 2014 on tachographs in road transport, repealing Council Regulation (EEC) No 3821/85 on recording equipment in road transport and amending Regulation (EC) No 561/2006 of the European Parliament and of the Council on the harmonisation of certain social legislation relating to road transport (OJ L 60, 28.2.2014, p. 1), which data the application should collect so as to function as a smart tachograph;

(2) assessing the technical feasibility of an application to collect this data, possibly using Galileo or by means of a direct connection with the vehicle, and the technical requirements for real-time transmission of the data to the authorities;

(3) assessing the risk of fraud and the potential cybersecurity threat connected with the application;

(4) assessing the hardware and software security measures to be implemented in the smartphone in order to mitigate the risks identified in point 3;

(5) providing an estimate of the cost of developing and certifying such an application.

COMMISSION  
PILOT PROJECTS**CHAPTER PP 02 — EUROPEAN STRATEGIC INVESTMENTS** (*cont'd*)PP 02 19 (*cont'd*)

PP 02 19 02 Pilot project — Advancing industrial decarbonisation by assessing the use of renewable energies in industrial processes

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
p.m.	367 500	p.m.	262 500	525 000,—	0,—

*Remarks**Former item*

32 02 77 14

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

This pilot project sets up a study to analyse the present and future potential demand for renewable energy in industrial sectors and processes, and make a comparative analysis of their ambitions, efficiency in reducing CO<sub>2</sub> emissions, technology needs and investment needs so as to identify priorities in the direct and indirect electrification of industrial processes, which is essential for decarbonising Union industries.

The comparison examines the following issues:

- (1) CO<sub>2</sub> emissions saved in industrial processes through direct or indirect electrification;
- (2) the value created through direct or indirect electrification (i.e. the added value of using decarbonised electricity or hydrogen in a specific sector or process compared to other means of decarbonisation);
- (3) the impact of (direct or indirect) electrification on the energy system, in particular in terms of demand flexibility to contribute to the grid supply/demand balance, sector coupling and electricity storage (i.e. apart from the impact on electricity demand, whether the electrification of a sector or industrial process can contribute to making the energy system more flexible, stable and secure, for example via demand response or long-term storage or by reducing or reusing waste heat).

The pilot project focuses on as many industrial sectors as possible, in particular on the key industrial CO<sub>2</sub> emitters, as well as on intermediate products that make it possible to create a more sustainable supply chain, and on industrial processes with high added value. The project will develop a methodology for prioritising sectors and industries.

The pilot project includes a number of case studies of industrial partners in order to test the analysis in practical business cases.

32 02 77 15

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

This pilot project aims to reduce household energy consumption and guarantee universal access to energy. Energy poverty is a Europe-wide problem that requires a holistic approach underpinned by a joint, strong effort at all levels: local, regional, national and European. Towns, cities and regions are often best placed to identify at an early stage those households at risk of energy poverty and thus tackle it in the most effective way.

By the end of this pilot project, outcomes will include:

- providing vulnerable homes with technical support to reduce energy consumption and costs, together with support to improve their energy performance,
- action across a number of government departments involving public health, social services, housing and environmental services, in order to take coordinated action to tackle the various aspects of energy poverty, which causes public health problems and social vulnerability and is often linked to buildings with poor energy performance; reducing energy consumption also has a positive effect in terms of combating climate change,
- actions to link energy savings in local public facilities with the creation of a fund to fight energy poverty in all municipalities,
- actions to empower consumers in their energy consumption patterns,
- assessments of how energy poverty projects can improve the local economy by creating opportunities for energy investments in private houses, and help create jobs,
- dissemination actions including Europe-wide exchange of good practices.

*Objectives*

The pilot project focuses both on measures to raise awareness and exchange good local and regional practices for tackling energy poverty and on concrete measures to reduce energy poverty in Europe.

COMMISSION  
PILOT PROJECTS**CHAPTER PP 02 — EUROPEAN STRATEGIC INVESTMENTS** (*cont'd*)PP 02 19 (*cont'd*)PP 02 19 03 (*cont'd*)

According to the Buildings Performance Institute Europe (BPIE-2014) between 50 000 000 and 125 000 000 people in the Union are currently suffering from fuel poverty and cannot afford proper indoor thermal comfort. In addition, investments in energy efficiency can help to prevent fuel poverty and, as stated in Directive 2012/27/EU on energy efficiency, should be a priority for energy-poor households.

The Covenant of Mayors for Climate and Energy, which recently celebrated its 11<sup>th</sup> anniversary, is a unique bottom-up movement with 7 755 signatory cities, bringing together local and regional authorities voluntarily committing to implementing the Union's climate and energy objectives, offering citizens a high quality of life in sustainable and climate-resilient cities.

On 25 September 2015, the United Nations adopted a set of goals to end poverty, protect the planet and ensure prosperity for all as part of a new Sustainable Development Agenda. Each Sustainable Development Goal (SDG) has specific targets to be achieved over the next 15 years. SDG 1 'End poverty' and SDG 7 'Ensure access to affordable, reliable, sustainable and modern energy for all' relate to this project. In parallel there is an ongoing initiative – Urban Agenda for the EU – to tackle various key aspects of the Union's future policy in this area. The related process involves two specific partnerships: energy transition and urban poverty.

To sum up: energy is central to nearly every major challenge and opportunity for Europe today; whether for jobs, security, climate change, food production or increasing incomes, universal access to energy is essential.

PP 02 19 04 Pilot project — EU-wide Programming Contest

*Figures (Differentiated appropriations)*

*Remarks**Former item*

09 02 77 12

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

Digitalisation is a major current and future challenge in Europe. However, it also represents an opportunity for the creation of new job types. These require in many cases programming skills which should be further promoted among young people, since they are often not part of school curricula. The Union should encourage young people to take an interest in technology and programming and help to develop their skills in order to prepare them for the future job market.

**CHAPTER PP 02 — EUROPEAN STRATEGIC INVESTMENTS** (*cont'd*)PP 02 19 (*cont'd*)PP 02 19 04 (*cont'd*)

Organising a programming contest at Union level will have the following advantages:

- promoting an interest in programming and technologies and related skills,
- providing an incentive for young people to develop programming skills through game-based learning,
- promoting the European idea.

Framework of the programming contest:

- the contest should be implemented in the context of the EU Code Week 2019 and 2020, with the Union's objective being to involve at least 50 % of schools in the Union and Western Balkans by 2020; EU Code Week provides an existing infrastructure and context,
- a special initiative should be set up (possibly called a 'createathon') for talented young people who could be given tasks such as developing an app,
- a basic course in programming should be provided in this context at Member State level,
- the contest should cooperate with industry with a view to gaining first-hand experience of programming activities.

PP 02 19 05 Pilot project — Integrated digital service platform for citizens and business

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019

p.m.	262 500	p.m.	p.m.	1 050 000,—	0,—

*Remarks*

*Former item*

09 02 77 11

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

While digital services have been increasingly developed and deployed by public administrations, their accessing and using them are still uneven both across and within countries in Europe. One reason for that is the limited scope of one-stop-shop platforms that are sufficiently user-friendly for citizens and business.

Distributed ledger technologies (DLTs) can provide a response to this challenge by supporting the integration of different services, ranging from identity and document exchange management to processing information flows and ensuring maintenance of repositories and registries.

COMMISSION  
PILOT PROJECTS**CHAPTER PP 02 — EUROPEAN STRATEGIC INVESTMENTS** (*cont'd*)PP 02 19 (*cont'd*)PP 02 19 05 (*cont'd*)

DLTs can do that without the need for a central validation function and in a secure mode, which shortens processing time, encourages process automation and reduces the scope for errors and fraud. In addition, information can be securely processed in compliance with the principles set out in Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation) (OJ L 119, 4.5.2016, p. 1) and on the basis of privacy-by-design computation processes.

While DLTs are being increasingly adopted in different domains, take-up of them in public administration is lagging behind because of the relative immaturity of the technology solutions and a lack of experimentation specifically addressing the need to offer service platforms to citizens.

This pilot project involves the creation of a small-scale digital public administration platform based on DLTs in order to provide integrated public services to users on the basis of key components such as digital identify management, notarised services and secure document exchange management. The platform will be based on the reuse of open source components supported by collaboration mechanisms with the blockchain community. The pilot project will assess the technical feasibility of such a service platform and its usability and performance. It will also assess its potential for reuse across different public administrations in Europe, with a view to creating the basis for a blockchain-based European public administration infrastructure.

**PP 02 20 2020**

PP 02 20 01 Pilot project — Model social impact approaches to social housing and empowerment of Roma: testing the use of innovative financial instruments for better social outcomes

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
1 800 000	950 000	1 000 000	250 000		

*Remarks*

*Former item*

01 04 77 03

For concentrated groups of European citizens, housing deprivation has been a constant for decades. Roma are one of the minority groups in Europe with the highest rates of poverty and social exclusion. Despite long-standing efforts, including the EU framework for national Roma integration strategies (NRIS) for 2020, introduced as long ago as in 2011, tackling the socio-economic exclusion of and discrimination against Roma remains an objective.

**CHAPTER PP 02 — EUROPEAN STRATEGIC INVESTMENTS** (*cont'd*)PP 02 20 (*cont'd*)PP 02 20 01 (*cont'd*)

The implementation of NRIS has hitherto largely relied on grant funding from European structural and investment funds (ESIF). The use of ESIF funds has unfortunately been limited by the lack of political commitment and capacity of national and regional authorities in charge of managing the funds. Scarce use has been made of financial instruments to date, such as loans and guarantees, to promote the socio-economic inclusion of marginalised Roma communities.

This pilot project is part of the Union's efforts to:

- support social innovation and new, holistic approaches to social service provision, the empowerment of disadvantaged groups and delivering transformative solutions for key social challenges, in particular Roma inclusion;
- stimulate cross-sectoral collaborations and social impact partnerships (public-private and civic engagement) as a new avenue for public value creation;
- pioneer the use of new financial instruments and blended support (financial instruments, grant and capacity building) for projects with high social externalities;
- in the longer term, support the development of the social investment market and social impact interventions through testing/refinement of a model which could be scaled up across Europe under, for example, the future single Union investment programme (InvestEU).

The InvestEU programme could be a game changer, with financial allocation to support social infrastructure (namely housing, health and education facilities), social innovation and social impact schemes. The next integrated investment programme of the EU could offer a significant opportunity to make progress in achieving the inclusion of Roma.

Scope of the pilot project:

- This project develops a housing model solution and improved life opportunities for a selected group of marginalised Roma communities. The target beneficiaries will typically reside in unregulated/illegal outskirt settlements and face adversity as regards access to income or gainful employment opportunities and to other inclusion opportunities.
- In essence, this is a multiphase model which involves the preparation (in terms of financial literacy, motivation, job assistance and life skills, and construction assistance) of Roma families on the path to home ownership and empowerment.

Activities will therefore include:

- the provision of financial education, job assistance and life skills training for selected participants from a disadvantaged background who are enrolled in the programme;
- support for savings schemes for each family, for about one year, to enable loan payments to be made for construction materials for new homes;
- engagement with public authorities for the allocation of land for the intervention, and providing training to public authorities so that they can implement and manage inclusion or desegregation programmes and further provide social services to the local community.

COMMISSION  
PILOT PROJECTS**CHAPTER PP 02 — EUROPEAN STRATEGIC INVESTMENTS** (*cont'd*)PP 02 20 (*cont'd*)PP 02 20 01 (*cont'd*)

This multiphase model will trial innovative approaches combining financial instruments (loans, guarantees, etc.), grants and capacity building assistance.

The pilot may be carried out in partnership with an implementing organisation. Under a single grant contract with the Commission, the selected implementing partner would channel the support via:

- a guarantee for de-risking portfolios of social housing loans to targeted beneficiaries, accounting for some 25 % of the budget; and
- capacity building grants for NGOs providing coaching or mentoring services to municipalities, enabling the purchase of apartments or houses, constructions (provision of land and necessary infrastructure) and local Roma communities for financial literacy and construction training, employment and civic education, accounting for some 75 % of the budget.

Activities will be closely aligned with and complement current pilot projects for Roma inclusion (ROMACT), cohesion policy funding tools which could be mobilised as a result, as well as relevant desegregation guidance and holistic approaches to local development principles.

The pilot project will test and develop integrated social finance models as part of a multicountry, pan-European approach, possibly as a pilot for a combined financial and advisory product under the InvestEU Programme post-2020. This should complement cohesion funding support and reinforce the objectives of social inclusion, desegregation, access to education, employment support and regional development. It could also provide models for replication under social outcome contracting mechanisms.

After being tested at multiple sites with substantial Roma communities, it will expand to different locations within the countries with substantial Roma communities (e.g. East Slovakia, East Czechia, Bulgaria, Romania and Hungary) and be replicated in an urban context.

Activities will be closely aligned with and complement current pilot projects for Roma inclusion (ROMACT) and additional Cohesion policy funding tools which could be mobilised. The pilot project will also contribute to policy development in the area of homelessness and housing exclusion and support preparation of the post-2020 EU framework for NRIS.

Target groups:

- marginalised Roma families, as one of the most excluded groups in Europe, whose fate embodies one of the most acute social challenges in central and eastern European countries and, indeed, the Union;
- public authorities, financial intermediaries and social impact actors (foundations, service providers).

**CHAPTER PP 02 — EUROPEAN STRATEGIC INVESTMENTS** (*cont'd*)PP 02 20 (*cont'd*)

PP 02 20 02 Pilot project — Eco labelling for aviation / Demonstration project for the introduction of a voluntary Green Label system in aviation

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
p.m.	1 125 000	1 500 000	375 000		

*Remarks**Former item*

06 02 77 25

This project will provide easily accessible information on environmental performance in aviation, ideally from a neutral and independent source, to the travelling public and people living near airports.

In the same way that European citizens are informed about organic products, passengers will be informed about the green record of aircraft and airlines. The project will look into the green record of individual aircraft (noise and emissions) and carriers (greenhouse gas emissions, particulate matter emissions, offsetting, sustainable ( 'bio') fuels and aircraft noise) as well as operational measures.

The main activities focus on developing governance, metrics, communication design and the eco-portal, which is an existing IT platform that will be expanded to include emissions, fleet and operational data to support the label scheme.

The scheme will also allow airports to rank airlines by environmental performance so as to provide local incentives.

PP 02 20 03 Pilot project — Urban mobility interconnection with air transport infrastructure

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
p.m.	225 000	300 000	75 000		

*Remarks**Former item*

06 02 77 26

COMMISSION  
PILOT PROJECTS**CHAPTER PP 02 — EUROPEAN STRATEGIC INVESTMENTS** (*cont'd*)PP 02 20 (*cont'd*)PP 02 20 03 (*cont'd*)

This pilot project is implemented in the form of a study; it is designed to ensure the best interconnection between city centres and airports. While some airports are located at the close periphery of some big cities, some smaller airports are sometimes far away. Urban mobility should be investigated as a possible solution for shortage of infrastructure capacity while taking into account the environmental dimension, such as local air quality and noise. Traffic management as well as other technological options will also be assessed.

The study will also address the issue of long-distance high-speed railway connections to/between airports and urban areas.

PP 02 20 04 Pilot project — Revitalisation of cross-border night trains

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
p.m.	375 000	500 000	125 000		

*Remarks**Former item*

06 02 77 27

In view of the Commission's policy priorities to 'revitalise rail', construct a 'single European railway area' and achieve 'modal shift', and also in view of the pressing need to find alternatives to medium-haul flights and to meet international climate targets, this pilot project will focus on analysing, studying and formulating specific policy recommendations to help companies establish viable international train services, in particular high-speed and night-train services, including via legislation on public service provision.

The project will involve a comprehensive analysis of companies' new international services (high-speed but in particular night trains) and their most recent experiences and perceived difficulties, including the aspects of ticketing, potential difficulties in concluding international public service contracts and procurement and financing for upgrades and maintenance of rolling stock.

PP 02 20 05 Pilot project — Capacity for the greening of European sea ports

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
p.m.	225 000	300 000	75 000		

**CHAPTER PP 02 — EUROPEAN STRATEGIC INVESTMENTS** (*cont'd*)PP 02 20 (*cont'd*)PP 02 20 05 (*cont'd*)*Remarks**Former item*

06 02 77 28

One approach taken by port authorities that has recently been gaining momentum has been to determine a set of development activities and investments which would both create the appropriate technical and organisational set-up for future port operations and take into account various social and environmental requirements to maintain or improve the level of quality delivered in those two areas. The project will present the research that has been conducted into the level of awareness and behaviour of European ports in the field of sustainable development, and as regards the Green Port Concept (GPC) in particular. A hypothesis has been formulated that incorporation of the GPC into the development strategy for European sea ports will improve their environmental relationship and make them more competitive. The survey results will make it possible to identify the approach to be taken for the development of green ports and undertake research into assembling a package of instruments that will support those activities. It will therefore be possible to target the development strategies of European sea ports in line with the GPC.

## Outcome and possible evolution of the project

Due to the wide range of potential uses of the research results, the authors have plans for a series of activities to publicise them, including a report on the quantitative survey, a series of scientific articles and a monograph.

## Innovative and experimental nature of the project

The authors of the project will conduct a survey - the first of its kind in Europe - of the perception of Union port authorities' activities in the area of sustainable development of the GPC. The interdependence of actions undertaken and economic performance of sea port will then be studied. The new knowledge gained under the project will establish a new, complex and interdisciplinary approach to the organisation and operation of a sea port for business implementation. Moreover, any port will be able to be assessed as to the extent to which it is already implementing the green port concept and, subsequently, as to what type of actions should be taken to take the right approach and proceed with greening of the port. This should be the basis for further development of Green Port assessments, with appropriate measurements and values according to the GPC goals.

The maritime sector is witnessing heightened activity focusing on the sustainable development of sea ports. This activity covers the two main areas of their external operations, i.e. reducing the negative environmental impact of port investment and operational activity, and the relationship of ports with their surroundings. The social responsibility of sea ports is a factor which can make a difference, especially in the latter area. At the same time, port management

COMMISSION  
PILOT PROJECTS**CHAPTER PP 02 — EUROPEAN STRATEGIC INVESTMENTS** (*cont'd*)PP 02 20 (*cont'd*)PP 02 20 05 (*cont'd*)

bodies and municipal authorities are increasingly showing interest in both of these areas. The 'greenness' of ports and their community relations are verified each year in competitions and ranking tables (e.g. Green Port Awards).

PP 02 20 06 Pilot project — Energy communities repository – Monitoring and support for energy communities in the Union

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
p.m.	250 000	1 000 000	250 000		

*Remarks**Former item*

32 02 77 18

The provisions on consumer empowerment in Directive (EU) 2018/2001 of the European Parliament and of the Council of 11 December 2018 on the promotion of the use of energy from renewable sources (OJ L 328, 21.12.2018, p. 82) and Directive (EU) 2019/944 of the European Parliament and of the Council of 5 June 2019 on common rules for the internal market for electricity and amending Directive 2012/27/EU (OJ L 158, 14.6.2019, p. 125) are among the most innovative in the Clean Energy for all Europeans Package. They oblige Member States to adopt enabling frameworks for energy communities. Directive (EU) 2019/944 provides for a level playing field for 'citizen energy communities' on electricity markets, while Directive (EU) 2018/2001 requires adoption of a level playing field and incentives for 'renewable energy communities' active in all areas of renewable energy. While energy communities already exist in some Member States, they are a novelty in others.

The energy communities repository should fulfil two basic functions: (i) monitoring and collecting data on development of energy communities in the Union and (ii) providing communities with models for technological and administrative solutions.

The data collected through the repository would constitute a very important source of information for the European institutions and national and local governments. The data would feed in to existing and future policy streams. In other words, it would facilitate the implementation or, if need be, revision or improvement of the regulatory framework.

In addition, the repository could be a great source of know-how for citizens and citizen associations that wish to set up their energy communities, in particular in Member States that have not developed regulatory frameworks or best practices so far. Best practices may include technological solutions, e.g. for electricity sharing, the use of blockchain and distributed ledgers for transacting and providing information on the origin of electricity from sources belonging to the community, and documentation to set up a community, e.g. models for rules of associations and examples of agreements with distribution system operators.

**CHAPTER PP 02 — EUROPEAN STRATEGIC INVESTMENTS** (*cont'd*)PP 02 20 (*cont'd*)

PP 02 20 07 Pilot project — Engaging companies for energy transition

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
875 000	437 500	875 000	218 750		

*Remarks**Former item*

32 02 77 19

A European private-sector dimension will be developed to complement existing bottom-up energy or climate initiatives of cities local municipalities (e.g. the Covenant of Mayors). By engaging leading (industrial and commercial) companies to form a Union-wide (voluntary) movement, the scale, impact and synergies of actions taken by different levels of governance can be increased. Voluntary incentives for action are needed as the share of CO<sub>2</sub> emissions from industry is expected to grow in relative terms compared to energy supply and road transport towards 2050.

PP 02 20 08 Pilot project — Developing artificial intelligence (AI) for diagnosis and treatment of paediatric cancer

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
1 350 000	837 500	1 000 000	250 000		

*Remarks**Former item*

09 03 77 02

Paediatric cancers are a collection of diverse rare diseases that together represent individually life-threatening diseases and collectively a major public health issue. With 35 000 new cases and more than 6 000 children and young people dying each year in Europe, paediatric cancer remains the leading cause of death from disease for children and adolescents. Moreover, there are more than 300 000 European childhood cancer survivors (nearly half a million by 2020). Two thirds of survivors live with the long-term treatment-related side effects that can be severe and impact on the daily life of half of those affected.

The effective implementation of machine-learning and AI technologies can bring solutions for many societal challenges, including improved diagnostic and treatment pathways. Integrated healthcare and research data platforms that collate information on clinical phenotypes, diagnostic tests (including pathology, genomics and radiological

COMMISSION  
PILOT PROJECTS**CHAPTER PP 02 — EUROPEAN STRATEGIC INVESTMENTS** (*cont'd*)PP 02 20 (*cont'd*)PP 02 20 08 (*cont'd*)

imaging), treatment interventions and clinical outcomes will be powerful tools for early and accurate diagnoses, enable precision in stratification of patient cohorts according to therapeutic needs, and facilitate development of new therapeutic innovation.

The particularity of paediatric cancers being rare diseases necessitates a collaborative approach to collate and integrate the data collected in all Member States, including best practices and new technologies in order to further develop common solutions. The use of big data for better insights into cancer genesis, outcomes and the long-term side effects of treatments is currently underdeveloped. AI and machine learning are future tools to digest complex data sets and foster precision cancer medicine for all young people in Europe.

Further advances in the diagnosis and treatment of paediatric oncology will require multinational, multidisciplinary integrated healthcare and research data platforms allowing real-world data simulations of machine-learning algorithms and AI that can be exploited in data-driven clinical decision support applications directly benefiting patients.

The pilot project supports research in AI technologies with precise application for diagnosis and treatment of paediatric cancers.

The pilot project follows a two-stage approach:

1. Development of multinational approaches to facilitate capture of data from multiple sources. Building on existing multidisciplinary platforms and datasets, developing integrated healthcare and research data platforms that collate clinical data, including, for example, clinical history, relevant diagnostic tests (pathology, genomics, radiological imaging), treatment interventions and clinical outcomes for childhood cancers, connecting all relevant stakeholders from paediatric oncology and technology developers.

2. Development of applications using AI technologies to improve disease diagnosis, management, and the development of effective therapies: utilising integrated healthcare and research data platforms to develop clinically relevant machine-learning and AI technology applications. The pilot project may focus on one or more applications, including in connection with radiological imaging, digital pathology, integrated genotyping and outcome prediction algorithms and clinical decision making.

PP 02 20 09 Pilot project — Smart urban mobility involving autonomous vehicles

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
p.m.	750 000	1 000 000	250 000		

*Remarks*

*Former item*

**CHAPTER PP 02 — EUROPEAN STRATEGIC INVESTMENTS** (*cont'd*)PP 02 20 (*cont'd*)PP 02 20 09 (*cont'd*)

For the medium and long term, cities across the Union should implement on a large scale the concept of autonomous/driverless electric cars, helping them to promote a better and green urban mobility policy for their citizens, tourists, other relevant stakeholders and the environment. This pilot project involves a set of integrated actions in at least 10 cities (pilot cities), of various sizes, in different Member States, including congested urban centres and key neighbourhoods, tourist destinations, including fortresses, thematic amusement parks and resorts, airports, educational campuses, large hospitals, etc. The project ensures a sound geographical balance between cities which are spread over Member States (north, south, east, west, centre), between wealthier and poorer cities, and between big or small to medium-sized cities. Drawing on strong political will and on competent administrative and technical capacity, action will be taken to test autonomous vehicles and customise a future initiative that turns the pilot phase into a communitarian one.

The project combines, in an integrated manner, the acquisition of small driverless electric shuttle buses with a capacity of 15 people, including access for people with disabilities, which offer more, efficient and smart mobility for pilot cities and private sites.

The shuttles will draw on data from LIDAR sensors, cameras, GPS facilities, real-time kinetic positioning sources, IMU sensors and odometry, which will be merged and interpreted by in-depth learning programmes, using artificial intelligence and high-speed connectivity.

Acquisition will be complemented by intensive educational campaigns promoted through social media channels in city halls, schools, universities, tourist information centres, housing associations, unions etc. The goal is to develop a robust urban mentality that is geared to using this alternative transport model, enhance the importance of green mobility alternatives in the European urban environment, and to visibly promote the Commission's financial support. At the end of the pilot project, a lessons-learned guide will be produced and delivered publicly in all the official languages of the Union. It will be disseminated via relevant official channels (e.g. association of municipalities in every Member State, relevant umbrella networks for local government, tourist destinations, and transport unions). Public events (e.g. press conferences) and practical demonstrations will be held at the European Parliament, the Committee of the Regions and the Commission and in every pilot city.

The shuttles will be fitted with smart facilities (e.g. digital displays) providing relevant information about journeys, destinations, carbon footprint and educational messages about the importance of living in a green urban environment; they will measure air quality in real time, using sensors, and communicate arrivals and departures at stations, using audio and digital displayed messages; they will provide passengers with free wi-fi. During the pilot project, use of shuttles will be free of charge. The operational costs necessary for optimum functioning will be covered by the projects and warranties offered by the company winning a public tender for delivering the shuttles.

Another fundamental argument is that, by delivering tangible results, this kind of pilot project will create a scalable model usable for different cities across the Union, with different and specific mobility needs. Its results will help municipalities and other relevant stakeholders (including private operators) to prepare their future mobility projects that could be funded by the Commission and national governments during the next allocation period (2021–2024) through regional operational programmes and other programmes supporting Union's cohesion policy. They will become more aware of costs, safety and security requirements, logistics, maintenance costs, and affordability

COMMISSION  
PILOT PROJECTS**CHAPTER PP 02 — EUROPEAN STRATEGIC INVESTMENTS** (*cont'd*)PP 02 20 (*cont'd*)PP 02 20 09 (*cont'd*)

considerations. Cities could adapt and adopt new local decisions and policies for smart urban mobility, enhancing the importance of using integrated urban alternative modes, with mobility as a service facility and fleets of efficiently used green vehicles that are adapted in a proper urban environment.

PP 02 20 10 Pilot project — Developing a strategic research, innovation and implementation agenda and a roadmap for achieving full digital language equality in Europe by 2030

09 05 77 12

The Union has 24 official Member State languages. In addition, there are unofficial regional languages as well as minority languages and languages used by immigrants and important trading partners. Several studies have found a striking imbalance in terms of digital language technologies. Very few languages, such as English, French and Spanish, are well supported technologically, while more than 20 languages are in danger of digital extinction. The recent study 'Language equality in the digital age', commissioned by the European Parliament's Science and Technology Options Assessment (STOA) panel, made 11 general recommendations on how to address this growing threat. It was followed up by a European Parliament resolution of 11 September 2018 on language equality in the digital age (on the basis of a joint CULT/ITRE report), making 45 general recommendations, several of which follow the STOA study.

Technology-enabled multilingualism is missing one crucial and mission-critical piece – a strategic research and implementation agenda. This pilot project develops an agenda and a roadmap for achieving full digital language equality in Europe by 2030. In close collaboration with the European institutions, the project will bring together all stakeholders (including industry, research and innovation communities, national innovation organisations, national and international public administrations and associations), initiate a structured dialogue and public consultations, organise brainstorming sessions and conferences throughout Europe, and pull together all initiatives that are currently isolated and fragmented in order to produce a sustainable and interwoven strategy for human language technologies in Europe in all relevant sectors and areas of life, including trade, education, health, tourism, culture and governance. This will also extend to an investigation into the impact of artificial intelligence technologies on the linguistic landscape in Europe, including the ever-increasing brain drain of young talent to other continents.

PP 02 20 11 Pilot project — Support for increased cooperation between industry, nongovernmental organisations (NGOs) and Member State authorities for the swift removal of child sexual abuse material online

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
p.m.	800 000	1 000 000	250 000		

*Remarks**Former item*

09 05 77 13

The pilot project involves proposing that grants be provided by the Commission to one or more NGOs in order to support initiatives for the swift removal of child sexual abuse material on the internet. It is important to help organisations already working proactively to build platforms and umbrella organisations so as to cooperate across all Member States. If stakeholders receive more funds, they will be able to cooperate more effectively to prevent the dissemination of such material. The pilot project supports cooperation between actors in the provision of training for staff, development of digital resources and exchange of information to detect and remove potential harmful material. As communication in this area needs to be safe and quick, such solutions should also be supported.

**PP 02 21 2021**

PP 02 21 01 Pilot project — Completing the green and digital transitions: a European Green Digital Alliance

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
1 200 000	300 000				

*Remarks*

The Union has the ambition to be a global leader in the fight against climate change and sustainability, mobilising the entire European economy with the objective to reach climate neutrality and change towards a circular economy while twinning this effort with the ongoing digital transformation. The green transition and the digital transformation will also constitute the two major pillars of the European post-COVID-19 economic recovery.

On the one hand, Europe must leverage the potential of digital technologies and solutions as enablers of the green transition since digital technologies have the potential to cut emissions across sectors by 10 times more than they themselves emit. A recent report produced by the GSMA and the Carbon Trust calculated that, in 2018, mobile technology enabled a cut in CO<sub>2</sub> emissions almost 10 times greater than the global carbon footprint of the mobile industry itself. It is estimated that by 2030 digital solutions could help reduce CO<sub>2</sub> emissions by 20%.

COMMISSION  
PILOT PROJECTS**CHAPTER PP 02 — EUROPEAN STRATEGIC INVESTMENTS** (*cont'd*)PP 02 21 (*cont'd*)PP 02 21 01 (*cont'd*)

On the other hand, making 'Europe fit for the Digital Age' can also be at odds with the European Green Deal objectives. The ICT sector accounts for 5-9% of global energy consumption and without proper greening adjustment actions; this could increase to 20% by 2030. With more than 12 million tons per year, Europe ranks second only behind Asia in terms of e-waste. The generation of e-waste is growing by 3-5 % per year in the Union and less than 40% is being recycled. Value lost in e-waste, such as rare earth minerals and precious metals, is estimated at EUR 55 billion/year globally.

To ensure that new digital technologies, infrastructures and solutions enable the European climate goals (ICT for Green) and that the ICT sector itself reduces its carbon footprint (Green ICT), all relevant stakeholders must commit. They must improve energy efficiency, decrease overall energy consumption and utilise renewable sources where possible, as well as improve the material efficiency and circularity of their products to minimise e-waste and maximise the value for the economy and consumers.

Swift and resolute steps need to be taken by the market and policy-makers towards a more digital, circular, climate-neutral and modernised economy. Despite this, the Union does not have the forum to bring all relevant actors together. The Green Digital Alliance (GDA) is proposed as an initiative that aims to foster a strong commitment of the digital sector in favour of the environment. It should create a coherent and trusted framework that can underpin the digital industry's efforts not only to become climate-neutral but also to contribute to the climate objectives of other sectors such as agriculture, mobility, energy, urban development, and manufacturing.

Under the supervision of the Commission, the GDA will:

1. collect, screen and monitor commitments and results by market players and other organisations based on an agreed assessment and monitoring framework.
2. publish, examine and debate a study on the impact of new digital technologies on the environment.
3. propose and implement a Green ICT Scoreboard and a European Green Digital Award, to the most eco-friendly and disruptive European innovation, to be given at a yearly event co-organised by GDA. These initiatives will give visibility and reward good environmental practices.

The GDA will comprise the ICT industry and relevant stakeholders, including policy-makers from local and regional representatives and environmental NGOs. A trusted cooperative environment will be built to assess and monitor the commitments and their implementation, to share good practices and to develop policy recommendations.

Events are to be organised by the GDA and under the auspices of the Commission, in cooperation with local partners. Those can take place in different Member States, focusing on key policy areas linking the European Green Deal and the new Union digital and industrial strategies.

Areas linking the European Green Deal and the new Union industrial and digital strategies covers among other elements:

1. collection of pledges of the different organisations regarding their green targets to accelerate the progress towards the European Green Deal goals.

**CHAPTER PP 02 — EUROPEAN STRATEGIC INVESTMENTS** (*cont'd*)PP 02 21 (*cont'd*)PP 02 21 01 (*cont'd*)

2. up-to-date methods assessing the impact of green digital technologies and services and monitoring the pledges of the members.

3. contributing to greening the ICT sector, with particular focus on the priorities of the Commission as defined in the European Green Deal, Digital Strategy package and Circular Economy Action Plan.

4. maximising the potential of ICT for Green, e.g. ensuring that artificial intelligence, 5G, cloud and edge computing and the internet of things can accelerate and maximise the impact of our environmental policies.

5. support to national and regional players implementing green public procurement for digital solutions.

6. improving the availability of information on the green characteristics of electronic devices sold in the Union.

The events should be web-streamed to ensure broad public coverage and accessibility to as many European citizens as possible. The outcomes of the events would contribute to policy evaluation.

PP 02 21 02 Pilot project — Enabling sustainable management and development of ports in the Rhine-Main-Danube basin

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
1 600 000	400 000				

**Remarks**

The ports on the Rhine-Main-Danube basin are significant nodes in the logistics and transport chains that form the economic backbone of the Danube region. While efficient ports are vital to the socio-economic development of their hinterland, the related ship traffic, the handling of cargo in the ports and the land-based hinterland connections can impact negatively the environment (e.g. pollution, CO<sub>2</sub>), the people and the economic potential of the port itself. Ports are also affected by environmental impacts (e.g. climate change i.e. extreme weather events, sea level rise, floods and droughts). Increasing environmental and climate awareness creates new challenges for the sustainable development of ports.

These challenges require the ports to identify and implement new environmentally friendly and sustainable solutions including energy efficiency improvements, environmental strategies and monitoring tools supporting the transition to renewable energy and zero-emissions, as well as full compliance with relevant Union environmental and climate legislation. Having in mind one important goal of the European Green Deal, the shift of cargo to inland waterway transport and rail, inland and sea-river ports in the Rhine-Main-Danube basin will become a focal point for sustainable development of the TEN-T Rhine-Main-Danube corridor.

COMMISSION  
PILOT PROJECTS**CHAPTER PP 02 — EUROPEAN STRATEGIC INVESTMENTS** (*cont'd*)PP 02 21 (*cont'd*)PP 02 21 02 (*cont'd*)

To best manage the challenges in an effective way, a two-phase approach is envisaged:

- Phase 1 – pilot project (PP) – addressing environmental impacts stemming from the port activities of selected river and sea ports in the Rhine-Main-Danube basin by developing and implementing specific tools (Environmental Management Systems - EMS) and by defining a port specific action plan for sustainable port operations.

- Phase 2 – potentially, a preparatory action (PA) – building upon the findings of the pilot project and enabling the wide-scale roll out of an integrated “Green Danube Ports Action Plan” as part of a new preparatory action. To this end, the recently established coordination and collaboration platform, the Rhine-Main-Danube basin Ports Network (DPN) could function as a multiplying governance structure.

In the pilot project, seven selected river and sea-river ports portraying a representative sample of the about seventy ports of the Danube region will jointly address their environmental responsibilities through the development and implementation of EMS, as well as the elaboration of port specific action plans creating a nucleus for wide-scale roll-out of environmentally sustainable port management and operations.

While each EMS is unique to an organisation's culture, structure, activities and environmental priority issues, within the project, the Plan-Do-Check-Act Model and the eco-management and auditing should be transferred from the beneficiary partners of the pilot project to other Rhine-Main-Danube basin ports as well as to identified target groups (users of the port, cargo owners, logistic service providers, general public). Therefore, an accessible generic framework supporting the planning of sustainable port operations, facilitating the mitigation of potential risks and encouraging port authorities and port and terminal operators to engage with sustainability agendas and plan their port operations and future capacity expansions and emerging port infrastructure project in a sustainable and smart manner will be defined. The elaborated port-specific action plans of the seven model ports should serve as good practices for the followers. Some of the measures proposed in the action plans will be of commercial relevance and even be bankable. Their implementation with the help of loans should be considered. Financing by financial institutions like EIB, EBRD but also new means of finance (energy contracting, crowd funding) will be investigated.

PP 02 21 03 Pilot project — Fostering digitisation of public sector and green transition in Europe through the use of an innovative European GovTech platform

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
1 500 000	375 000				

*Remarks*

Former item

**CHAPTER PP 02 — EUROPEAN STRATEGIC INVESTMENTS** (*cont'd*)PP 02 21 (*cont'd*)PP 02 21 03 (*cont'd*)**Objectives:**

This pilot project aims to support public administrations in the adoption of cost-effective and flexible digital solutions through the introduction of the GovTech ecosystem to the European public sector.

By following and scaling up the GovTech platform model, public administrations across Europe can work together more easily to solve shared challenges and more cost-effectively adapt existing projects to their individual needs. This includes, where feasible, the use of open source licensing.

The use of the GovTech model across the EU-27 would offer the benefits of scale to both public administrations and providers of digital services, as stated in the New SME Strategy (2020). Moreover, this project would help to develop the European GovTech market and support the public sector to access tailor made digital solutions quickly and efficiently. By creating a hub for different public administrations, participating businesses and citizens will be able to collaborate and exchange ideas, best practices can be circulated, and project costs shared, thereby enhancing interoperability and cross-border cooperation.

At the same time providers, in particular European SMEs and start-ups offering environmentally friendly, cutting-edge technologies or innovative solutions, would gain recognition as trusted partners in the delivery of modern digital solutions for public services. The project should be developed making use of the latest standards of service design available and in dialogue with a wide array of stakeholders, including public bodies and SMEs from across the Union.

This would support the modernisation of public administrations across the Union, by reinforcing efforts to achieve Europe's green transition through a more efficient adoption of innovative solutions. It is also an important tool to engage Union citizens.

This initiative also aims at supporting the Commission's objective to stimulate a digital transformation that will benefit everyone, including citizens and businesses. If fully implemented, the project will positively contribute to attaining the following objectives of the Union: (a) Digital Strategy, (b) New SMEs Strategy, (c) Industrial Strategy and (d) European Green Deal. This initiative also provides an important input into the new e-Government Action Plan, for which preparatory works are already underway, and as a response to the increasing digital needs. The innovative GovTech platform and solutions provided by cost-efficient and environmentally friendly enterprises will further contribute to the economic recovery of the Union, which is of critical importance in the post-COVID19 reality.

The pilot project will achieve its objectives by combining top-down activities, bottom-up activities and direct research of citizens' views.

**Top-down activities:**

This action aims to engage with public administration in a foresight exercise to promote the alignment of their strategies and implementation roadmaps of digital solutions. By doing so, the project will support the streamlining of public services and contribute towards Europe's sustainable transition. The scenario building approach, combined with the sharing of success stories, will be used to reveal the dynamics of a fast-evolving ecosystem. It should also identify where the use and joint sourcing of the digital solutions by public administrations may create new

COMMISSION  
PILOT PROJECTS**CHAPTER PP 02 — EUROPEAN STRATEGIC INVESTMENTS** (*cont'd*)PP 02 21 (*cont'd*)PP 02 21 03 (*cont'd*)

opportunities for SMEs and start-ups. This analysis will support efforts to use digital solutions in public administration to attain the Union's strategic objectives, including the fight against climate change and promoting the digital transition.

Bottom-up activities:

This action aims to engage with the fast growing GovTech ecosystem to harvest ideas that help public administrations in adopting digital solutions. It will support the development or use of one common platform to gather challenges and allow other public administrations to contribute or form part of a consortium involved in a particular challenge and source solutions from providers. In the pilot phase, the action should concentrate on ideas to support one or more of the Union's objectives as mentioned in the strategic documents presented by the Commission in 2020.

For example: the Digital Innovation Challenge, launched by the pilot project 'Reuse of digital standards to support the SME sector', and approved under the 2019 budget, can be used as a source of inspiration given that this format has proven to be successful by engaging a wide ecosystem of players and crowdsource innovative ideas (\*).

Direct research with citizens:

In addition to the above-mentioned activities, this action aims also to use innovative service design methods to include the views of citizens in the above streams of work. This all-inclusive and all-embracing approach should try to unveil how citizens perceive the new opportunities offered by digital solutions in streamlining communication between administrations and citizens, or combating climate change and the role of public administrations in this process.

=====

(\*) The Digital Innovation Challenge generated:

more than 6 000 unique visits to its website,

contact with more than 1 500 SMEs and start-ups,

dialogue with more than 320 SMEs, e.g. in workshops, e-mails, info sessions,

more than 100 registrations to the challenge (30% conversion),

more than 49 complete applications with innovative ideas around the reuse of solutions provided by Union programmes (50% conversion) The top ideas touch upon (1) mobility / smart cities (2) CyberSecurity and (3) FinTech,

more than 10 applications will be shortlisted and join us to a co-creation Bootcamp.

PP 02 21 04 Pilot project — RESTwithEU

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
1 000 000	250 000				

*Remarks*

The COVID-19 outbreak has dramatically affected the Union's tourism sector, as a result of the forced closure of restaurants, bars, snack-bars, hotels and others all over Europe. It seems reasonable to expect that the aftermath of the crisis will bring changes to the way this sector operates. Particularly, consumers may become more concerned in ensuring the safety of the processes, that the staff is well-trained and that hygienic conditions are verified.

This pilot project aims at developing the digital infrastructure of SMEs operating in the tourism sector around the Union. While digitisation has always been important, this situation has significantly increased its value and importance for SMEs, which studies have shown are generally less digitalised than larger companies. If these companies do not adapt, many will go out of business.

In practice, this pilot project will support companies of the tourist sector, in particular SMEs, so they can develop and implement digital solutions as a strategy to overcome the challenges posed by this crisis. These solutions should include booking systems taking into account social distancing, artificial intelligence (AI) solutions managing crowds, and disinfection robots to clean quickly public spaces.

These solutions should be implemented on two levels. First: creating a free public digital platform for the different industries operating in the tourism sector. This platform will promote interaction between clients and companies through booking systems taking into account social distancing and AI solutions managing crowds, for instance, allowing to order food to take away or making bookings according to the plan of the restaurants, bars, hotels, etc.. In practice, the owners may introduce videos, photos and other sources of information in the app, allowing clients to decide exactly where and when to sit and be provided services and make their bookings accordingly. On the other hand, owners can improve part of their systems by developing and implementing the necessary tools and infrastructure to better connect them with their clients. With this app, consumers will thus feel much more confident to go to bars, restaurants, hotels and other companies in the tourism sector.

Second: introducing digitisation in the in-house operations of companies operating in the sector, so that restaurants, bars or hotels not only increase their productivity, but also become safer for all the parties involved, which may prove to be particularly important in the near future. To attain this, companies can, for example, use disinfection robots to clean quickly public spaces or develop and implement solutions that decrease the need for person-to-person interactions, such as QR code systems or cashless payments systems.

The project will furthermore support the tourism sector by providing consultancy services to the owners. These contents are particularly designed for their type of businesses. And the fact that it is an EU app will not leave anyone - that is to say, any company - behind.

COMMISSION  
PILOT PROJECTS**CHAPTER PP 02 — EUROPEAN STRATEGIC INVESTMENTS** (*cont'd*)PP 02 21 (*cont'd*)PP 02 21 04 (*cont'd*)

This pilot project will have as its main outcome an increased level of digitisation of the SMEs in the tourism sector, through which they are expected to become more prepared to deal with the changes brought on by the COVID-19 outbreak. Supporting the digitalisation of European SMEs is a clear priority of the Commission that has become even more important in the current situation. Given the importance of SMEs in the different industries of the tourism sector, both as a source of value-added and jobs, it is critical that effort is made to support the companies of this sector during this crisis.

PP 02 21 05 Pilot project — Sustainable rural mobility for COVID-19 resilience and support of ecotourism

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
1 000 000	250 000				

*Remarks*

Across the Union, rural villages and regions suffer from chronic isolation, resulting in loss of cultural and economic dynamism, aging population, and a strong mobility dependence on individual transport. The COVID19 crisis has severely weakened these areas and created enormous challenges - inter alia for the European tourism sector. Pre-crisis trends show that there is a strong and growing demand for rural sustainable touristic destinations. Rural areas have significant natural, human, economic and cultural potential and their development supports regional growth. Offering sustainable rural transport solutions, whilst at the same time supporting the sustainability of tourist destinations away from mainstream pathways is a win-win situation, contributing to the reduction of negative transport-related consequences of tourism as well as promoting more sustainable mobility alternatives for citizens in rural areas. Insufficient sustainable mobility choices often disincentivise tourists from choosing rural tourist destinations thus preventing the development of sustainable tourism. Insufficient connection to local public transportation networks also discourages the efforts of the local providers to offer sustainable and low-carbon destinations and activities.

The Union policy process of sustainable mobility in rural areas is still at an early stage of development. The pilot project will therefore draw on the success story of Sustainable Urban Mobility Plans (SUMP) in the urban context and establish a rural equivalent of integrative sustainable rural mobility plans including both the needs of local populations and tourists. The pilot project will also build on the good practices identified through SMARTA and SMARTA 2 concerning sustainable shared mobility solutions interconnected with public transport and supported by multimodal travel information services. It will have a broader focus than the previous projects and would be complementary, focusing on interconnecting mobility needs, and extending to rural tourism mobility. A particular focus will be on the recovery of rural and remote areas in the post COVID-19 period. Building on SUMP's guiding principles, the pilot project should identify the respective 'functional rural areas' based on actual flows of people and goods as well as with the aim of interconnecting and promoting local sustainable tourism destinations. This twofold orientation will create synergies between mobility needs of local populations and tourists. Improving sustainable mobility solutions in the high season will create jobs for locals (both in the transport and in the touristic sector) and it will create seasonal

**CHAPTER PP 02 — EUROPEAN STRATEGIC INVESTMENTS** (*cont'd*)PP 02 21 (*cont'd*)PP 02 21 05 (*cont'd*)

income that will be able to finance permanent sustainable mobility solutions. At the end of the pilot project period, the assessment should include levels of utilisation and user satisfaction as well as reduction in the emissions of greenhouse gases.

The pilot project will look at how to best organise and develop rural areas with their mobility solutions to connect with neighbouring urban agglomerations. This includes the mobility behavioural impact of changed labour markets, including companies' mobility plans and cross-border aspect, the impact of digitalisation as well as the European Green Deal and its impact on sustainable smart mobility in rural areas as well as tourism. Possibilities with links to other ongoing projects can be found by focusing on interoperability, inter-connectivity, inter-modality (including walking and cycling), sustainable regional development, cohesion, employment, just transition, digitalisation, research and development and innovation. Another link to existing European goals would be further research into establishing a European multimodal transport information, management and payment system. To further support rural tourism in Europe, the pilot project should work towards the development of an app or a website providing recommendation of ecotourism based on the current location and supplied with information about distance and facilities in each ecotourism region.

The pilot project should promote:

carpooling, car sharing and e-bike sharing interconnected with public transport,

demand-responsive vehicles, receiving bookings via phone calls as well as digitally and pooling similar journey request to save energy and offer door-to-door transportation,

further digital and organisational solutions to increase frequency of passage in mountainous regions with dispersed villages,

The pilot project will support local authorities and sustainable rural tourism providers to connect their tourist destinations to existing sustainable mobility networks and to adapt public transportation offers to tourists' needs (time scheduling, frequencies, lines and modes coherence and information, possibility to buy inter-modal day tickets). The pilot project should support the identification and promotion of activities and destinations that can be done using sustainable mobility. For local sustainable tourism providers, the pilot project will make available Union financing to invest in sustainable mobility infrastructure connecting their destinations to local transport network such as:

new cycling and hiking tracks in combination with public transport,

Union financing for e-bikes.

PILOT PROJECTS**CHAPTER PP 02 — EUROPEAN STRATEGIC INVESTMENTS** (*cont'd*)PP 02 21 (*cont'd*)

PP 02 21 06 Pilot project — Smart Industrial Remoting: remote working in non-digitalised industries

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
550 000	137 500				

*Remarks*

The pilot project addresses industries that lack digitalisation. It should seek to identify the regions with a low Digital Technology Integration Index (DTII) and Digital Transformation Enablers' Index (DTEI). It will seek to identify the best match between digital technologies (Social Media, Big Data, Internet of Things, Robotics, 3d printing, Cybersecurity, Mobile services, Artificial Intelligence, Cloud Technologies, etc) and each industry (Aeronautics, Automotive, Biotechnology, Food, Chemicals, Construction, Cosmetics, Defence, Electrical and Electronic Engineering, etc) and to involve stakeholders from the industries most affected by the lack of digitalisation and operationalisation of remote working. The pilot project could also provide contingency plans for each industry, providing the protection mechanisms for processes and workers in order to ensure the continuation of their activities. The pilot project should also address industries considered of strategic importance.

PP 02 21 07 Pilot project — Smart Contracts - European standards for automated transaction protocols executing contracts

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
350 000	87 500				

*Remarks*

The objective of this pilot project is to assess the technical and legal feasibility of the Europe-wide uptake of smart contract technology and establish requirements for smart contract protocols in order to allow for smart contracts to constitute legally valid contracts under the contract law of Member States. This pilot project should therefore assess what requirements must be met for smart contracts to comply with the principles of European contract law and safeguard the interests of Union citizens and consumers.

PP 02 21 08 Pilot project — Single European Railway Area - Prototype Corridor Munich-Verona

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
600 000	150 000				

**CHAPTER PP 02 — EUROPEAN STRATEGIC INVESTMENTS** (*cont'd*)PP 02 21 (*cont'd*)PP 02 21 08 (*cont'd*)*Remarks*

This pilot project intends to provide support, knowledge and, in a later stage, invaluable lessons to accelerate the ongoing completion of the Single European Railway Area. The pilot project should identify and address shortcomings within the rail ecosystem by analysing one select route with a holistic approach centred on cross-border operations.

The route for the pilot project should be the one between Munich and Verona. Three Member States (DE/Bavaria, AT/Tyrol and IT/Veneto) would be involved along the line that includes one of the flagships of the TEN-T infrastructure cross-border construction projects: the Brenner Base Tunnel.

The holistic approach should ensure that all aspects and needs are identified and considered on an equal footing. The aim is to cover the entire transport chain, ranging from customers, to transport operators, to railway undertakings, as well as infrastructure managers and regulatory bodies.

The main goal is to establish a joint set of rules for the corridor infrastructure spanning three jurisdictions and eliminating the ensuing obstacles for rail traffic. Today, this type of joint arrangements are not foreseen by legislation. The actions required to prepare for this, and which could benefit other European infrastructure, should include:

Obligatory requirements to engage in collaborative decision-making in rail traffic operations and to engage in binding performance agreements between all stakeholders in a (multimodal) rail freight transport.

Strategic allocation of rail infrastructure capacity for different types of traffic (i.e. several years in advance), in this case in particular for international rail freight traffic, taking into account the overall needs and requirements from Italy, Austria and Germany, and the alternative road transport transiting the Alps.

Capacity management and traffic management at the level of the proposed corridor, e.g. by ensuring governance or appointing a supra-national entity in charge of defining and imposing such rules and procedures in a binding manner.

Requirements for joint decision-making by rail regulatory bodies as concerns international traffic going beyond the provisions on cooperation between regulatory bodies defined in Article 57 of Directive 2012/34/EU.

Joint centralised and automated traffic management, including interfaces with interlocking/signalling system, on networks of different rail infrastructure managers.

The methodology that emerges over the course of the work will be closely documented so the output will go beyond producing a recipe to optimise the pilot route in order to provide a European best practice guideline potentially applicable throughout the entire Single European Railway Area.

PILOT PROJECTS**CHAPTER PP 02 — EUROPEAN STRATEGIC INVESTMENTS** (*cont'd*)PP 02 21 (*cont'd*)

PP 02 21 09 Pilot project — IRS Smart Cities project: new railway station concept for green and socially inclusive smart cities

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
700 000	175 000				

*Remarks*

The pilot project is intended to develop a shared methodology for transforming existing stations, or designing new ones into socio-technical systems operating simultaneously as city's greening engines for the surrounding environment, and new urban hubs aggregating multiple services fully integrated with energy-efficient and socially-inclusive mobility.

The pilot project is meant to contribute to the achievement of a climate-neutral society, as well as to the implementation of the UN Sustainable Development Goals concerned with sustainable, smart and inclusive cities, transport and infrastructure, resources management, climate mitigation and adaptation, reduction in the emissions of greenhouse gases, health, environmental protection and biodiversity regeneration, sustainable land use, and gender equality. As such it can furthermore contribute to the research and innovation activities of the Shift2Rail Joint Undertaking, or its successor in the context of infrastructure, digital and multimodality.

Railway stations connect multimodal mobility services and the rest of the urban environment. In most cases they also are nodes of the transportation, energy, telecommunications, water distribution and waste disposal infrastructure networks, with a high density of installed technical equipment. As such, they have a big unexploited potential both as new urban vital centres and as installations of advanced engineering solutions for environmental protection, sustainable solutions concerned with mobility, collaborative economy, and social services, contributing to pursue the objectives of the European Green Deal in terms of: mobilisation of the industry for a circular economy, clean and affordable energy supply, smart and resource-efficient building, zero urban pollution ambitions, respecting ecosystems and biodiversity, implementing the Farm to Fork Strategy, etc, in organic connection with smart and multimodal mobility (rail, e-mobility, car sharing, bike-sharing, etc.). Moreover, stations can give a response to health crises (e.g. COVID19) and natural disasters (due to climate change), as they can be readapted or converted to temporary reception facilities, shelters, hospitals, and any other typology that needs availability of big spaces.

All these goals will be integrated and achieved within the project proposals developed for stations with a common methodology.

The model is aimed to develop a new concept analysis that should represent a paradigm shift in designing all the social activities connected with the railway stations in all the areas in which they operate, broadening its original purpose and functions as a simple departure/arrival point of rail transportation. The new railway station can be not only a less energy-wasting, less polluting facility, but in fact a greening plant in the city that contributes a net positive balance to the environment.

At the same time, it can become a dense node of economic and social activities inherently integrated with energy-efficient mobility solutions, multiplying opportunities and solutions for economic growth, collaborative economy, and social inclusion.

**CHAPTER PP 02 — EUROPEAN STRATEGIC INVESTMENTS** (*cont'd*)PP 02 21 (*cont'd*)PP 02 21 09 (*cont'd*)

In order to achieve an adequate level of interoperability of the transportation networks in the Union, a certain degree of standardisation of the essential features of the railway stations is required and, as a consequence, most of the fundamental elements of the railway station design and operation can contribute to deliver innovation to a greater extent. For this reason, the new railway station concept design, operation and management must be conducted according to a common European-wide framework or methodology that, while enabling a sufficient latitude to accommodate specific local conditions or prevailing opportunities, may still guarantee the necessary degree of harmonisation and common objectives.

Furthermore, the Union needs to establish methods and tools to better assess the impacts – in all their dimensions – of innovative patterns affecting urban planning practices and urban mobility in general. A common methodology to streamline and coordinate these instruments will help decision-makers to develop policies in support of the participation from public and private actors to the implementation of innovative and coordinated solutions for mobility. Therefore, the resulting methodology should incorporate business modelling principles, behavioural-economic models and co-design approaches targeted at incorporating the inception into the design of the technical infrastructure. The inclusion of the socio-economic drivers of mobility, climate-friendly and social-inclusive behaviours and businesses will drive and complement the innovation brought in the stations and their surrounding areas, while providing economic actors with incentives for investments at the same time.

Bringing together station managers and railway operators, mayors and local administrations, public and private transport operators, Union institutions, citizens' representative bodies, NGOs, and research institutions around a common plan targeted to the urban environment surrounding and including the public stations will streamline public interventions and private investments, while providing an institutional framework to the model that will be created.

The pilot project will be developed through the implementation of at least four 'Living Labs' in four different Member States. It will follow an applied research pathway mixing fundamental research with the design and creation of new models that would be scalable and applicable to real contexts.

On the one hand, the pilot project's partners will cooperate in order to know, understand, and explain which operative options can make railway stations and their surrounding neighbourhoods becoming the primary driver of sustainable practices of mobility, logistics and work, and resilient infrastructures able to readapt when necessary. Successively, taking advantage of the outcomes of basic urban research, the project will investigate how stakeholders can fully benefit from the new model proposed which aims to create value for stakeholders and citizens.

Living Labs will be developed in the following way:

(1) Conducting workshops with committed stakeholders to establish a working methodology and management structure for the pilot, and to launch the project co-design activities in open collaboration and interface with the Shift2Rail Joint Undertaking or its successor.

(2) Conducting workshops to assess under-developed railway stations potential as multi-service, mobility-hub, urban greening infrastructures, with respect to their possible contribution to the UN Sustainable Development Goals and the European Green Deal's objectives.

COMMISSION  
PILOT PROJECTS**CHAPTER PP 02 — EUROPEAN STRATEGIC INVESTMENTS** (*cont'd*)PP 02 21 (*cont'd*)PP 02 21 09 (*cont'd*)

(3) Developing methodological criteria and defining quantitative and qualitative deliverables for the co-design and the transformation of railway stations into multi-service, mobility-hub, urban greening infrastructures, while ensuring adequate evaluation of the results achieved once the plan is implemented compared to the initial expectations.

(4) An open and constantly upgrading approach to the management of the stations will empower citizens to co-develop alternate mobility solutions for social inclusion, collaborative economy, and e-and smart-mobility and implementing it more flexibly. The coherent adoption of the model should help local and national administrations achieving the following objectives:

- fostering territorial cohesion through public transport and alternative mobility solutions
- decarbonisation of mobility and urban energy sources
- defining mechanisms to ensure implementation of the circular economy principles within the each and every businesses and services operated in station and in uninterrupted continuity with its surrounding environment
- promoting new partnerships, especially between public administrations, large industrial groups, local institutions and SMEs while integrating citizens and collaborative small-sized solutions into the overall planning and policy-making process
- understanding how these infrastructures can be helpful for the community in case of emergency, sanitary crisis or natural disaster.

(5) Organising a final conference presenting the pilot project's results in every living lab and showcasing the attained models of transformed railway stations.

PP 02 21 10 Pilot project —Effect of energy efficient and solar power generating vehicles on grid capacity and charging infrastructure

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
3 500 000	875 000				

**Remarks**

As expanding the charging infrastructure and increasing grid capacity are important issues for the European Green Deal to succeed, this can be improved from the demand side by increasing both the energy efficiency and on-board power generation to vehicles. Study programmes do mention both energy efficiency of vehicles and innovations on grid/charging infrastructure utilising smart charging solutions. However, no studies have linked the combination of energy efficiency on vehicle-level, on-vehicle energy generation and the impact on charging infrastructure and tested this in real-life using pilot projects. The European Green Deal has announced that 1 million charging stations are needed to keep up with the introduction of electric vehicles. Focusing on energy efficiency and on-board solar power generation might offer less energy demand on this charging infrastructure. Policy can then be adapted to fit this opportunity. Early studies show promising results. An increase of 20% to 40% of the vehicle efficiency for vehicles

**CHAPTER PP 02 — EUROPEAN STRATEGIC INVESTMENTS** (*cont'd*)PP 02 21 (*cont'd*)PP 02 21 10 (*cont'd*)

decreases energy demand of these vehicles by almost 60%. Additionally, a grid operator in the Netherlands has shown that investments in charging infrastructure for electric vehicles might drop by over 30%. This is a result of self-charging energy-efficient vehicles able to charge at a fast charging rate even on 220 – 230 V grids. Energy flow models of research and technology organisation could be used to determine this effect in greater detail.

The goal of this pilot project is to assess the energy efficiency of personal vehicles, public transport vehicles and delivery vehicles (in terms of kilometres driven per kWh consumed), and the potential for on-board solar power generation by experimenting with real-life use cases. This pilot project will be one of the first experiments with on-board solar generation on a larger scale over different modalities and locations. The resulting charging requirements of each vehicle could provide evidence for strengthening Union policy on reducing emissions from transport further and faster. Such adapted policy moreover will stimulate the development of Union value chains for on-board solar power generation, which in turn has the potential to increase employment opportunities.

A comparative study will be conducted on charging needs of high and low energy efficient vehicles. The vehicles aim to have comparable specifications in terms of person capacity, load or volume. Besides energy efficiency, energy generating vehicles and non-energy generating vehicles will be assessed as well. Energy generation potential on vehicles differs per location, therefore different locations in the Union will be evaluated with a special focus on southern and eastern countries in the Union.

Finally, it will be assessed how specifically the quantity and spacing of elements in the charging infrastructure could be decreased. In conclusion, this pilot project should be able to yield insights into the effect of vehicle efficiency and on-board solar power generation which can provide added value to the drafting of Union policies to enable electric vehicles and stimulating Union value chains and employment in this field.

**CHAPTER PP 03 — SINGLE MARKET***Remarks*

The appropriations under this chapter are intended to finance the implementation of pilot projects of an experimental nature designed to test the feasibility of actions and their usefulness. Their total corresponds to the level of appropriations shown under Article 03 20 01.

*Legal basis*

Point (a) of Article 58(2) of Regulation (EU, Euratom) 2018/1046 of the European Parliament and of the Council of 18 July 2018 on the financial rules applicable to the general budget of the Union, amending Regulations (EU) No 1296/2013, (EU) No 1301/2013, (EU) No 1303/2013, (EU) No 1304/2013, (EU) No 1309/2013, (EU) No 1316/2013, (EU) No 223/2014, (EU) No 283/2014, and Decision No 541/2014/EU and repealing Regulation (EU, Euratom) No 966/2012 (OJ L 193, 30.7.2018, p. 1).

Commitments	Payments	Commitments	Payments	Commitments	Payments
p.m.	300 000	1 000 000	250 000		

*Remarks**Former item*

02 02 77 42

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

A smart destination is the result of several factors, including information and communication technologies that promote an innovative territory, cooperation and co-creation, mainly by visitors. On the basis of an understanding of this aspect, accessibility is one of the features of an intelligent tourist destination, both physically and virtual. Smartness enhances the quality of the experience at the destination for both visitors and residents.

A smart city can be seen as an urban space that takes advantage of information and communication technologies and data science to answer today's challenges, namely to become more efficient in services and infrastructure management and to deliver enhanced quality of life to the people who live or work in the city or visit the city, including support for combating climate change.

In this context, city authorities are under pressure and are going through a digital transformation process that is reflected in the proliferation of smart-cities initiatives around the world. This is part of the strategic response to the challenges and opportunities of growing urbanisation and climate change, together with the emergence of cities as a space for social and economic development framed by an urgent need for global sustainability.

A study on smart cities will cover a concept of urban intelligence and its building blocks that result from the city digital transformation process, which will lead to a paradigm shift turning the city into a platform where urban planning and management for sustainability is supported by urban analytics and real-time data.

With that in mind, a study will be carried out on the basis of an implementation plan in a specific city or region with a view to ensuring:

- quantitative and qualitative data on tourism and smart destinations;
- better knowledge of the impact of tourism;
- the development and creation of a European methodology of tourism analysis based on big data applied at Union level for smart destinations;
- better research and development for solutions designed at Union level;
- scope for local testing and future applicability (implementation plan in a specific city).

**CHAPTER PP 03 — SINGLE MARKET** (*cont'd*)PP 03 20 (*cont'd*)

PP 03 20 02 Pilot project — Assessing the challenges and opportunities for market surveillance activities in relation to new technologies and the digital supply chain

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments

*Remarks**Former item*

02 03 77 11

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

The pilot project assesses the challenges and opportunities for consumers and market surveillance authorities as a result of emerging technologies (such as internet-connected devices, blockchain, etc.) and digital supply chains in relation to the safety of products, including those sold online. The pilot project may finance a study on the use of new technologies such as blockchain to ensure effective market surveillance and better traceability of products.

PP 03 20 03 Pilot project — Feasibility study for a European asset registry in the context of the fight against money laundering and tax evasion

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
p.m.	200 000	400 000	100 000		

*Remarks**Former item*

12 02 77 11

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

As demonstrated by recent media investigations into tax evasion and money laundering, such as the Panama Papers and Paradise Papers, the use of 'offshore' structures, such as companies, trusts, foundations and financial instruments held in or via other jurisdictions, allows not only the real ownership of wealth, but also its location and perhaps its very existence, to remain hidden. In the short to medium term, this secrecy allows wealth to escape taxation but also creates fertile ground for financial crimes such as corruption, money laundering, tax evasion and avoidance, and the funding of terrorism. In the longer term, this secrecy helps fuel inequality as approximately 50% of the wealth hidden offshore (wealth held offshore and not reported to authorities) belongs to the top 0.01% of the wealthiest people in

COMMISSION  
PILOT PROJECTS**CHAPTER PP 03 — SINGLE MARKET** (*cont'd*)PP 03 20 (*cont'd*)PP 03 20 03 (*cont'd*)

the world. Offshore wealth is likely therefore to be a key factor responsible for exacerbating wealth inequality if it remains undertaxed.

Some progress have been made in the past to tackle secrecy, especially at Union level. Many Member States have land registries; they have adopted the directive on administrative cooperation to automatically exchange financial information among themselves (including bank accounts); and with the revision of the anti-money laundering directive, they will soon all have public registries of beneficial owners of companies and registries of trusts' beneficial owners accessible to persons with a legitimate interest in obtaining that information .

However, there are still gaps in the availability of important information in order to properly be able to tax wealth in the Union and fight money laundering. Having a less fragmented approach across the Union would be beneficial. The Union should consider the feasibility of and arrangements for creating a Union-wide registry in which details of ownership of certain types of assets are recorded, in order to ensure the necessary linkages between existing transparency mechanisms and with a view to adding new key information necessary to fight tax evasion and money laundering.

The pilot project should be used by the Commission to explore how to better collect and link full beneficial ownership information (e.g. registries of land, companies, trusts and foundations; and central depositories of securities ownership) and analyse areas for further work (e.g. design, scope and capacity constraints) for such a Union registry. The Commission should pay special attention to the scope for including other assets in that registry (e.g. bitcoins, art, gold and properties) and to the IT requirements and take into consideration privacy issues.

By mapping existing information (in a public and non-public form) and through exchanges with experts in the relevant field (taxation, corruption, money laundering, financial markets, IT and law), this pilot project will provide recommendations for the possible creation of an asset registry which could be turned into policy action in the future if technical and political conditions were met.

PP 03 20 04 Pilot project — Welfare of dairy cattle, including measures to protect unweaned dairy calves and end-of-career animals

17 04 77 07

---

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

The expansion of the dairy sector, the increase in the average productivity of dairy cows, and the surplus of male dairy calves have not been accompanied by updated animal welfare policies. A recent Commission's report indicates that insufficient attention is being paid to parameters such as mastitis, lameness, cubicle design and lying comfort, which are known to influence not only welfare but also health and on-farm longevity of dairy cows. Member States have different regulatory regimes, thus disrupting the level-playing field for producers. Additionally, the increase in the size of dairy herds in some countries is causing a chronic surplus of male dairy calves, which have to be transported unweaned over very long distances to specialised fattening farms. The challenges encountered during the long-distance transport of unweaned dairy calves have not been resolved, and there is evidence from several non-governmental organisations that these vulnerable animals cannot be protected during such transport. Another overlooked aspect is the treatment of end-of-career animals. There is evidence that 'downer' cows (i.e. unfit for transport) may be transported to complacent abattoirs for slaughter. This is not only a violation of Union rules on animal transport and slaughter, but it also represents a threat to food safety.

This pilot project has four main aims: (1) to produce a clear set of good and best practice guidelines for the welfare of dairy heifers, cows and calves on the basis of robust animal-based indicators, as well as guidance on the correct treatment of end-of-career dairy cows; (2) to carry out a socio-economic impact assessment of shifting from transport of unweaned male dairy calves over long distances to local rearing and fattening; (3) to propose economic models to prevent the transport of end-of-career dairy cows; (4) to disseminate the outcomes in dairy-producing Member States and in those affected by the intra-Union trade of live unweaned calves. The project should bring together from the onset relevant stakeholders, including scientists, veterinarians and non-governmental organisations. The outcomes should strongly draw on the scientific and practical expertise available, including from best practices already implemented.

PP 03 20 05 Pilot project — Best practices for transitioning to higher welfare cage-free egg production systems

17 04 77 08

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

Public acceptance of the use of 'enriched' cages for laying hens is decreasing, in particular in the light of scientific evidence showing that such cages severely restrict the ability of laying hens to engage in many normal behaviours. The pilot project helps egg producers meet market demand by providing practical guidance on how to transition to alternative higher-welfare cage-free systems. Major food businesses have already committed to sourcing only cage-free eggs by 2025 or earlier. In order to equip Union producers for such a transition and guarantee that they stay in business, support should be provided to them to convert conventional systems to higher-welfare alternative systems that are not only fit for purpose but also fit for the future. The pilot project looks into the different systems for laying hens and identify those that are optimal for animal health and welfare. The recommendations, which should include economic aspects, will be supported by robust indicators to measure animal welfare outcomes. The first phase of the pilot project collects information on best available practices for facilitating the transition towards higher-welfare rearing and keeping of laying hens in barn, free-range and organic systems. The second phase consists of information events in at least four countries where alternative rearing systems are still not predominant (e.g. Spain, Poland, Portugal and Belgium) and a final event at Union level with major industry and political stakeholders as well as representatives from all Member States. The resulting guidance document should be as practice-oriented as possible, and should be illustrated, for example, with case studies (including economic data) on relevant systems from at least four Member States with the highest proportion of cage-free egg production (e.g. Germany, the Netherlands, France and Italy).

PP 03 21 01 Pilot project — European Consumer Food Waste Forum

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
650 000	162 500				

*Remarks*

The amount of food wasted during its production and consumption is staggering. Currently it is estimated that 88 million tonnes of food waste are generated in the Union each year and the estimated costs of the wasted food are EUR 143 billion. While around 20% of food produced in the Union is lost or wasted, every second day some 36 million

**CHAPTER PP 03 — SINGLE MARKET** (*cont'd*)PP 03 21 (*cont'd*)PP 03 21 01 (*cont'd*)

people cannot afford a quality meal. On top of that, food waste has a huge environmental impact, accounting for about 6% of Union's total emissions of greenhouse gases and putting an unnecessary burden on limited natural resources, such as land and water.

Over 50% of food waste (47 million tonnes) is estimated to come from households and the consumer level. Household and consumer-focused interventions are, thus, essential to deliver ambitious overall food waste reduction, with significant environmental, economic and social benefits. According to Eurobarometer, consumers recognise that they themselves have a role to play in preventing food waste.

The Recommendations for Action in Food Waste Prevention developed by the EU Platform on Food Losses and Food Waste already contains a list of recommendations for action at the consumer level. However, there is a clear necessity to develop these recommendations further, substantiate them by data and find new ways to educate consumers about their actions.

Therefore, the pilot project aims to mobilise a network of researchers and practitioners in the context of the already existing EU Platform on Food Losses and Food Waste to gather data and develop a variety of evidence-based, practical solutions to reduce food waste at the household or consumer level. The experts of the Forum will work on a set of evidence-based tools and recommendations on reduction of consumer food waste.

The experts of the Forum from the Member States will develop ways to bring closer multidimensional interventions in a variety of fields and will identify campaign tools, which can be applied to reduce consumer food waste. The campaign managers together with researchers will evaluate the effectiveness of various approaches. The multidimensional tools will include recommendations on nutrition, recycling, publicity, donations, community actions, ICT solutions, etc.

These recommendations will be multilevel, aimed at consumers directly, at national governments, local authorities, educational institutions, enterprises and other relevant target groups. The Union would act within its competences to offer databased tools, which can be implemented nationally.

The Forum will issue researched, evidence-based recommendations towards the reduction of consumer food waste and a compendium of best practices will be the desired result. The Commission will coordinate the administrative part and the pilot project will run initially for one year, with a possible extension, depending on results.

Objectives and expected outcomes of the pilot project:

- review of existing measures related to consumer food waste in Member States;
- evaluation of identified existing activities based on their feasibility, reach and effectiveness;
- research and data collection on various actions to prevent consumer food waste;
- definition of research protocols and recommendations for further research, to be tailored and carried out on the national and regional levels;
- development of a multidimensional, multi-level, evidence-based set of tools that can be applied by Member States' national, regional and local administrations.

COMMISSION  
PILOT PROJECTS**CHAPTER PP 03 — SINGLE MARKET** (*cont'd*)PP 03 21 (*cont'd*)PP 03 21 01 (*cont'd*)

At the end of the pilot project, a report will be published, informing the European Parliament and Member States of the outcome. The report and the results of the pilot project will be translated in all official Union languages and made available to stakeholders in Member States. A presentation of the research results will be organised at the European Parliament.

This pilot project will contribute to the Union's efforts to address climate and environment-related challenges, in line with the Union's political vision for the future.

PP 03 21 02 Pilot project —Media Ownership Monitor

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
500 000	125 000				

*Remarks*

Digital technology has lowered the entry cost to mass media and opened up a tightly regulated market to a whole range of new players. However, as the business model of traditional media disintegrates with it, a trend towards concentration of ownership can be observed. While the Internet remains a technological tool for accessing an unlimited variety of offer - market failures, regulatory shortcomings and the nature of algorithmic news distribution lead to significant limitations of media pluralism, which is an important precondition for the freedom of information and expression.

Thus, transparency of media ownership is considered a key prerequisite for safeguarding these freedoms. It elevates the public's level of media literacy and enables meaningful concentration control and regulatory action.

The pilot project will:

- create publicly available, searchable databases for up to 6 European countries in the respective relevant languages to provide profiles of the most relevant media outlets that shape public opinion, as well as of the corporate entities and individuals behind. The methodology of selecting the sample, of data research, analysis and presentation should be based on an existing one that is well documented, already tested and implemented in other parts of the world and thus can be considered as a widely accepted and legitimate instrument in this field;

- feature a narrative part to accompany the database and contextualize the country-specific environment in which media operates, including a detailed legal assessment that is based on a widely applied template to allow for comparative global analysis;

- include the measurement, computation and publication of up to ten indicators of risks to media pluralism in the legal, economic and technical domains, based on a reliable and tested methodology that builds on the already existing work of the Media Pluralism Monitor (MPM) in this field;

**CHAPTER PP 03 — SINGLE MARKET** (*cont'd*)PP 03 21 (*cont'd*)PP 03 21 02 (*cont'd*)

- publish and promote the findings and their usage by means of the online resource itself, but also through supporting actions, such as launch events and press conferences.

PP 03 21 03 Pilot project — Monitoring the impacts of free zones and guidelines for future modernisation in light of the European Green Deal

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
300 000	75 000				

*Remarks*

To contribute to regional development and to increase competitiveness, some Member States have created free zones, which offer an attractive combination of tax-and-tariff incentives and streamlined customs procedures and/or reduce legislation. Despite free zones existing for years in the Union, there is only very little research on their impact and few comprehensive processes for monitoring and evaluating their performance. In addition, free zones are being increasingly used outside the Union, especially in developing countries, with the objective to attract foreign direct investments.

In July 2019, the Commission presented a proposal for a Council decision to meet the OECD recommendation on enhancing transparency in free zones. While this proposal is welcome, this pilot project will help the Commission to develop an impact assessment of the most relevant free zones in the Member States, such as 'logistics hubs', zones specialised in a certain industry or 'multi-activity' free zones (a zone being a mix of the two or specialised in several industries), to analyse their direct and indirect economic contributions, their social and environmental impacts as well as their support to regional integration and competitiveness and weight them against an estimate of the costs of these free zones for all Member States. In addition, the project would compare the use of free zones in the Union with their use by third country jurisdictions.

With the overall objective to look at whether the fiscal incentives of these free zones are effective, this study should specifically look at the estimates of job creation (and the quality of jobs created) and the impact of free zones in terms of foreign direct investments for the Member State (e.g. would these investments have been made in the country even without the free zone?). To the extent possible, the study could also look at the impact on the risk for existing domestic businesses to relocate from the national territory to the free zone and provide examples if it finds any. To the extent possible, the project should compare these results with existing literature looking at similar indicators for zones outside the Union.

In addition, this study should include some reflection on how to develop European guidelines to ensure the social and environmental impacts of free zones are in line with the European Green Deal's objectives. This pilot project will develop proposals to ensure fiscal incentives by Member States are also conditional on a range of social and environmental indicators in order to drive existing and potential future free zones towards a sustainable development impact, for example specialising them into manufacturing activities in renewable energy or innovative products offering low-cost solutions to meet the Paris Agreement's objectives.

COMMISSION  
PILOT PROJECTS**CHAPTER PP 04 — SPACE***Remarks*

The appropriations under this chapter are intended to finance the implementation of pilot projects of an experimental nature designed to test the feasibility of actions and their usefulness. Their total corresponds to the level of appropriations shown under Article 04 20 01.

*Legal basis*

Point (a) of Article 58(2) of Regulation (EU, Euratom) 2018/1046 of the European Parliament and of the Council of 18 July 2018 on the financial rules applicable to the general budget of the Union, amending Regulations (EU) No 1296/2013, (EU) No 1301/2013, (EU) No 1303/2013, (EU) No 1304/2013, (EU) No 1309/2013, (EU) No 1316/2013, (EU) No 223/2014, (EU) No 283/2014, and Decision No 541/2014/EU and repealing Regulation (EU, Euratom) No 966/2012 (OJ L 193, 30.7.2018, p. 1).

**PP 04 21 2021**

PP 04 21 01 Pilot project — Pandemic Union-wide management

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
1 000 000	250 000				

*Remarks*

The COVID-19 Union-wide management needs long-term support for the implementation of valuable monitoring of social distancing measures.

In consideration of the way the COVID-19 pandemic affected Member States both as regards the death toll and the dramatic impact on their economies, the use of a European-wide geolocation based on the European GNSS system Galileo able to act as a point of contact between authorities and citizens could support countries to tackle this issue in the long term and provide significant socio-economic benefits.

The pilot project aims at building an exit and post-COVID-19 emergency strategies, covering also other potential pandemics through developing a spread monitoring Union standardised solution with Union-wide coverage and endorsed by Member States authorities. It would integrate national solutions designed for limited Union areas and synchronise with national ongoing initiatives such as social distancing, mandatory quarantine or shelter in place.

The project must be coordinated with all Member States to get the specificity of each of them and it could be endorsed by each local or national authority in its own language and integrated in its own IT infrastructure.

Civil protection and public health authorities at the Member States level and at Union level should be involved in the development, in order to define the needs. Those authorities will collect and manage the anonymised data at Union level.

**CHAPTER PP 04 — SPACE** (*cont'd*)PP 04 21 (*cont'd*)PP 04 21 01 (*cont'd*)

Virtually all new smartphones sold in the Union are Galileo-enabled. Galileo will provide one of the most promising enhancements to position accuracy with the introduction of 'dual-frequency to refine position accuracy up to 1 metre level and thus be able to perform monitoring of the movements of the users and provide more accurate monitoring and statistics to the public authorities. Galileo will be supported by innovative methodology and technology (e.g. new algorithms and other sensors' data integration) using other proximity-indoor technologies such as Bluetooth, and cross check telecom operator data. In this way, once all different sources have been combined by means of artificial intelligence algorithms, all these data can be combined together in 'heat maps' and provide in one single repository a more complete view to authorities.

The features of the pilot project should in particular aim at:

- sending useful generic information and daily updates to users on how to behave during the emergency;
- offering users the possibility to interact with authorities and healthcare systems e.g. informing authorities about early symptoms or booking tests;
- sending a posteriori alerts to users who crossed their paths to users who have been later found infected, supporting thus the smart isolation and quarantine issued by authorities;
- creating a heat map with crowd-sourced location information from all users adequately anonymised and marking the 'high risk infection points';
- enabling the authorities to retrieve travel histories of the infected person and alert all the persons who had contacts with them within the contagion risk space and time window;
- sending a preliminary alert to people entering within 10 metres of a location recently visited by an infected person.

The functionalities of the pilot project would have an added value for:

- the cross border and cross-regional cooperation, safeguarding uninterrupted movement of citizens and goods and avoiding large scale lock-downs (the pilot would involve several Member States or regions);
- the scalability and the reliability of the information generated;
- better monitoring and control of the spread of the disease regionally or globally and thus facilitating related decisions, e.g. allocating the distribution of respirators to specific areas, support medical research, preventing cases of super spreaders, monitoring and verifying the digital mobility authorizations;
- access to better statistics and artificial intelligence models based on the collected data about the spreading of correlated symptoms (i.e. not only based on confirmed tests).

COMMISSION  
PILOT PROJECTS**CHAPTER PP 04 — SPACE** (*cont'd*)PP 04 21 (*cont'd*)PP 04 21 01 (*cont'd*)

The pilot project will also explore possible integration with other sources or other applications based on Bluetooth signals or data from the telecoms operators. All data collected and treated should be based on robust protection of privacy and data, including where appropriate on data anonymisation and informed consent by the users. It should comply with recommendations from the European Data Protection Supervisor with regard to the data collection feature and with all data protection legislation in terms and conditions on allowing an individual collection of data in the pandemic situation.

**CHAPTER PP 05 — REGIONAL DEVELOPMENT AND COHESION***Remarks*

The appropriations under this chapter are intended to finance the implementation of pilot projects of an experimental nature designed to test the feasibility of actions and their usefulness. Their total corresponds to the level of appropriations shown under Article 05 20 01.

13 03 77 27

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

Union urban development policy, and international cooperation on urban policy, is moving forward in areas such as smart cities, waste management and climate change adaptation. Other areas are much less tested. Accordingly, this pilot project will test international experience and examine best practice regarding four sustainable urban development themes which are relatively neglected and yet are crucially important for the quality of life in cities inside and outside the Union. These are areas in which cities across the world, including in less prosperous countries, have much experience to offer Union cities. For example, a fundamentally important field is the circular economy, where Union cities have much to learn from non-Union cities. Janez Potočnik, former European Commissioner and now Co-Chair of the United Nations Environment Programme's International Resource Panel, has said that 'transition to the circular economy is not only necessary, it is unavoidable'. This is therefore one of the four key areas where there is a need to test new practices on the basis of international experience, which in turn can point the way for future Union urban development programmes under cohesion policy. To ensure the success of this cooperation it is important that it involve the stakeholders inside and outside the Union, notably the research community and the private sector.

PP 05 20 02 Pilot project — BEST Culture: programme to support cultural diversity in Union outermost regions and overseas countries and territories

---

13 03 77 30

---

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

The outermost regions (ORs) and overseas countries and territories (OCTs) are a source of immeasurable cultural wealth for the Union. That is demonstrated in particular by the fact that UNESCO classifies two ancestral cultural practices from those regions – ‘maloya’ from Réunion and ‘gwoka’ from Guadeloupe – as part of the world’s intangible cultural heritage.

The Union’s specific approach to ORs and OCTs should also be the basis for establishing an initiative to safeguard the identity and cultural diversity of those regions that primarily benefits European indigenous peoples such as Guyana’s Amerindians.

Along the lines of the BEST programme for promoting and supporting biodiversity and ecosystem services, the BEST Culture pilot project will set up a dedicated mechanism for ORs and OCTs in order to safeguard and promote local and indigenous culture and provide a vehicle for local knowledge and popular arts and practices, which act as a unifying factor for overseas communities. It will set up a financing mechanism specifically given over to safeguarding, supporting and fostering the indigenous cultural richness of ORs and OCTs, as well as to promoting the territories and peoples concerned, and providing for cultural exchanges, among themselves and across the Union.

The pilot project addresses all living traditions and expressions inherited from ancestors and passed on to descendants, such as oral traditions, performing arts, social practices, rituals and festive events, knowledge and practices concerning nature and the universe, and the knowledge and know-how necessary for traditional craftsmanship. The pilot project extends to the entire geographical area of the ORs and OCTs. Any persons or organisations located in that geographical area are eligible to take part in the pilot project, provided that the main purpose of their actions is to safeguard and promote the traditional culture of ORs and OCTs.

Other Union programmes, such as Creative Europe, could complement the pilot project’s objective of safeguarding traditional culture and be used, for example, to disseminate cultural knowledge and practices throughout the Union via Union communication networks and media.

By bringing greater prominence to ORs’ and OCTs’ identity and history, which also tie in with those of continental Europe, the pilot project helps to continue the process of making ORs and OCTs better known. Promoting the local cultures of continental Europe’s remote territories would therefore fully reflect the Union’s motto ‘United in diversity’ and would also combat certain prejudices.

04 03 77 29

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

The report 'Working for a Brighter Future - Global Commission on the Future of Work' (ILO, 2019) [1] calls for the creation of a Universal Labour Guarantee to uphold the fundamental rights of all workers, regardless of the nature of their employment relationship, including a 'living wage', an upper limit on working hours and guaranteed safety and health at work.

COMMISSION  
PILOT PROJECTS**CHAPTER PP 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PP 07 20 (*cont'd*)PP 07 20 01 (*cont'd*)

The existence of a national minimum wage, established through collective bargaining and agreements, is central to the establishment of the Universal Labour Guarantee, helping to improve workers' conditions, promote societal development and overturn policies that, in recent years, have been leading to precariousness, lower wages and increased inequality.

In order to promote national minimum wage schemes more effectively as a tool for economic and social development, Eurofound should examine the different realities in the Member States, as well as the impact of this instrument on employment rates, workers' qualifications, precariousness levels, the development of Member States and other factors considered relevant.

The pilot project should be implemented in such a way that it does not overlap with the existing or ongoing studies that will be used for preparation of the impact assessment for the forthcoming initiative on minimum wages. On the basis of the information available, the pilot project should bring added value and will complement existing work under the initiative by, for example, mapping developments in the minimum wage setting institutions.

[1] The recommendations are intended to strengthen and revitalise labour institutions. From employment regulations and contracts to collective bargaining and labour inspection systems, these institutions are the cornerstone of just societies, paving the way towards formalisation, reducing labour poverty and guaranteeing a future of work with dignity, economic security and equality. Under a Universal Labour Guarantee, the fundamental rights of all workers, regardless of their contractual agreement or employment status, must be respected, ensuring them 'an adequate living wage' (ILO Constitution, 1919), limits on their working hours and safe and healthy workplaces. Collective agreements or laws and regulations may raise the basic level of protection. This proposal also allows for the recognition of occupational safety and health as fundamental principles and rights at the workplace.

09 04 77 26

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

**CHAPTER PP 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PP 07 20 (*cont'd*)PP 07 20 02 (*cont'd*)

The pilot project develops and trials:

- (i) reliable online checks to identify and protect or block under-age children using sites or apps processing personal data, providing peer-to-peer or one-to-many communication services or providing goods and services that are potentially harmful to children;
- (ii) reliable consent mechanisms for holders of parental responsibilities;
- (iii) effective support mechanisms for children encountering difficult situations online;
- (iv) a mechanism for defending children's rights in the online domain;
- (v) options for online access to Union content dedicated to children; and
- (vi) mechanisms to involve children in the decision-making process for the infrastructure.

In carrying out the above tasks, the pilot project involves relevant European and Member State stakeholders in the authentication and validation supply chain.

In particular, the Connecting Europe Facility supports the cross-border exchange of eID attributes so that they can be used to implement child protection mechanisms (e.g. age verification for access to online content based on the date of birth contained in the eID).

The pilot project will be implemented over two years (2020-2021).

PP 07 20 03 Pilot project — Union grants for small-scale online media: supporting high-quality news products and tackling fake news

09 02 77 13

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

The pilot project provides dedicated Union grants for small-scale online media wishing to develop fact-checking capabilities, fact-checkers and academics for the development and dissemination of innovative solutions, including fostering collaboration between fact-checking organisations, media and universities. The support provided should not affect the independence of the organisations which receive it.

COMMISSION  
PILOT PROJECTS**CHAPTER PP 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PP 07 20 (*cont'd*)PP 07 20 03 (*cont'd*)

The pilot project supports Commission efforts in tackling online disinformation and in promoting media innovation in the wider context of the digital single market. It facilitates and complements the objectives and actions provided for in the communication on 'Tackling online disinformation: a European Approach' and in the action plan on disinformation. In particular, the pilot project facilitates the creation of national multidisciplinary teams, to be made up of media practitioners, fact-checkers and academic researchers. This complements the Connecting Europe Facility programme, which provides infrastructure (European Platform on Disinformation) to foster cooperation at European level between national multidisciplinary teams.

The pilot project also complements Commission support for the development of a code of practice. This includes enabling fact-checkers and academics, while maintaining their independence, to develop traceability, accountability and reliable indicators for source transparency, and to continuously monitor the scale, techniques, tools, nature and impact of disinformation. Moreover, the pilot project will support the development and testing of emerging technologies, including artificial intelligence to identify disinformation and technologies enabling customisable online experience, which could provide users with tools to identify and report disinformation.

The actions supported by the pilot project build on the preparatory action on Media Literacy for All by complementing it and by focusing not on citizens but on media actors. The pilot project supports Commission initiatives to promote media freedom and pluralism and quality news media and journalism.

PP 07 20 04 Pilot project — Integrity of social media

09 02 77 14

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

Social media have revolutionised economies and societies. After only 15 years, the benefits of long-distance communication at close to zero costs are being enjoyed and a number of new business opportunities have emerged in many sectors, ranging from advertising and marketing to social sciences.

Over the last few years, the challenges that have also been posed have had to be dealt with privacy concerns, an imbalance between digital and non-digital aspects of life, a lack of understanding of how social media work, dissemination of illegal or hateful content and, lastly, manipulation of citizen perception.

**CHAPTER PP 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PP 07 20 (*cont'd*)PP 07 20 04 (*cont'd*)

Manipulation of citizen perception has been the subject of a number of academic studies, which have shown that tinkering with a social media newsfeed can affect and influence the mood, choices and reactions of individuals. This was brought to light even more after the 2016 revelation that Cambridge Analytica used data collected from Facebook accounts to attempt to manipulate voters in the US elections and the Brexit referendum.

This pilot project builds on the work carried out by the Commission's Platform Observatory and fake-news initiatives and the European Science and Media Hub of the European Parliament. It monitors, identifies, studies and eventually tackles attempts to manipulate user perception.

This work focuses on negative messages and how to tackle them and could also develop a pan-European certification scheme for anti-hoax initiatives, which could facilitate the Commission's efforts, as there are a number of fact-checker and anti-hoax websites operating across the Union but their reliability could sometimes be questioned. A checklist leading to certification could be a cost-effective solution for the Union and Member State authorities.

PP 07 20 05 Pilot project — Media ownership monitor

*Figures (Differentiated appropriations)*

*Remarks**Former item*

09 02 77 16

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

Digital technology has lowered the entry cost to mass media and opened up a tightly regulated market to a whole range of new players. As, however, the business model of traditional media is disintegrating in the process, a trend towards concentration of ownership can be observed. While the internet remains a technological tool for accessing an unlimited variety of offerings, market failures, regulatory shortcomings and the nature of algorithmic news distribution lead to significant limitations of media pluralism, which is an important precondition for the freedom of information and expression.

Transparency of media ownership is therefore considered a key prerequisite for safeguarding those freedoms. It elevates the general public's level of media literacy and enables meaningful concentration control and regulatory action.

COMMISSION  
PILOT PROJECTS**CHAPTER PP 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PP 07 20 (*cont'd*)PP 07 20 05 (*cont'd*)

The aim of the pilot project is to:

- create publicly available, searchable databases for up to six European countries in the relevant languages to provide profiles of the most relevant media outlets that shape public opinion, as well as of the corporate entities and individuals behind them. The methodology selecting the sample, and for data research, analysis and presentation, will be based on an existing methodology that is well documented, has already been tested and implemented elsewhere in the world and can thus be considered a widely accepted and legitimate instrument in this field;
- feature a narrative part to accompany the database and contextualise the county-specific environment in which media operate, including a detailed legal assessment based on a widely applied template to allow for comparative global analysis;
- include the measurement, computation and publication of up to 10 indicators of risks to media pluralism in the legal, economic and technical domains, based on a reliable and tested methodology that builds on the existing work of the Media Pluralism Monitor in this field;
- publish and promote findings and the use thereof by means of the online resource itself, but also through supporting actions, such as launch events and press conferences.

This pilot project will run for two years.

PP 07 20 06 Pilot project — A European public sphere: a new online media offer for young Europeans

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
2 000 000	1 750 000	2 500 000	625 000		

*Remarks*

*Former item*

---

09 05 77 11

---

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

The project addresses the failure to communicate Europe to younger generations of Europeans that is the result of a lack of a truly transnational public sphere for media, the fact that traditional media no longer attract young Europeans in the same way as the internet does and the fact that national media do not cover pan-European topics positively or in a way which unites people. Therefore, the project more effectively portrays the sense of togetherness which is at the heart of European identity and which is reflected in a common culture, similar lifestyles and shared values.

**CHAPTER PP 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PP 07 20 (*cont'd*)PP 07 20 06 (*cont'd*)

The younger generations of Europeans consume information and entertainment primarily online using new social media and content-sharing platforms. Therefore, it must be made clear that young Europeans get their information online. In order to enter into a dialogue about Europe via relevant themes and topics, attract younger European citizens to European ideas and values and empower truly European citizens through current and future information and dialogue platforms, the pilot project will take a radically new approach to providing news and information to young people.

The pilot project is based on new concepts of editorial thinking, a new multiplatform strategy and a highly innovative and flexible technical infrastructure that allows fast adaptation, translation and conversion of content in many languages and formats across Europe, creating a highly innovative, digital product that intentionally stands out from traditional media.

The project is targeted at Europeans aged between 18 and 34, i.e. at a time of life when many young people are developing their political views and laying the foundations for their professional and private lives. The focus is on informative, thought-provoking, entertaining and emotive content. All content will be bundled on one specific online service. Furthermore, it is made accessible on all kinds of social media as well as other online gateways through which the target group can be reached.

The content deals with topics that are of current interest for young Europeans in the Union and will be put into context in order to make it compelling and appealing to the target group. The European perspective is created by comparing and contrasting regional experiences and points of view on matters of pan-European importance. Young Europeans share an interest in issues such as work, education, equality, love, culture and music. Nevertheless, there are significant differences between countries and between urban and rural areas. The aim is to address relevant topics of pan-European importance and at the same time provide a forum for local perspectives, allowing young users to identify strongly with the content.

Controversial opinions provide an impetus for debate. On political issues, a personal approach makes it easier to understand the effects of institutional decisions. In this context, well-known influencers and local personalities from social networks will have their say in addition to actors from the political sphere in order to bridge the gap between European affairs and the everyday reality of users' lives.

This ambitious pan-European and multilingual project launches offline and online an open, true, deep and constructive debate about recent and future life in Europe among young Europeans, using innovative formats on digital platforms, with the ultimate goal of creating greater awareness about European visions and realities and enhancing Europeans' commitment to European values and ideas so that they subsequently contribute to a more active civil society.

The project builds on a strong partnership of independent and innovative media across Europe, including the start-up and creative sector. The project also benefits from substantial investment in research and innovation, e.g. in automated translation in the media sector.

PILOT PROJECTS**CHAPTER PP 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)**PP 07 21        2021**

PP 07 21 01        Pilot project — Building investigative capacity to better fight doping in sport in Europe

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
1 500 000	375 000				

*Remarks*

The fight against doping in sport is essential to safeguard the integrity of sport and its values of fair play, respect and solidarity. It also promotes a healthy lifestyle and well-being for all citizens. But fighting doping is increasingly challenging. Today, to unveil cheats, the anti-doping system relies on more sophisticated tools than just conducting 'blood and urine-testing'. Nowadays, most of the doping infringements can be detected through investigations. The anti-doping system is thus confronted with a need to have the capacity to conduct investigations, to collaborate with law enforcement agencies and to protect whistleblowers.

The reality is, however, that an insufficient number of anti-doping organisations (ADOs), operating in too few countries, meet those conditions and this compromises the emergence of the strongest possible anti-doping system worldwide. The situation is critical and deserves the implementation of a specific strategy that includes close collaboration with the law enforcement agencies in all European countries.

Considering that law enforcement and government agencies possess investigative powers to attack source and supply of illegal substances, which in many cases uncover evidence of anti-doping rule violations, the core of the pilot project is to develop protocols for the European ADOs to ensure evidence gathering and information sharing between them and the law enforcement. Furthermore, this approach requires a broad implementation of the project. It should not be limited to a few Member States, but rather aimed at covering all the European countries, including third countries, to allow for a sufficient harmonisation of the investigative standards in the region and to avoid weakening its efficiency by leaving too many stakeholders outside of the harmonised system.

As a result, this pilot project will go much beyond sport and require cross-sectoral cooperation and significant investments, estimated at around EUR 1.5 million.

Taking the abovementioned into account, this pilot project cannot be funded by the existing programmes, such as the Erasmus+ programme.

The goals of the pilot project are as follows:

- to develop a set of complementary measures and activities that would address the issues mentioned above and that would be concretely beneficial to a maximum number of European ADOs and more globally to the anti-doping system;
- to allow for ADOs to partner with the World Anti-Doping Agency (WADA) to conduct investigations, protect whistleblowers and to cooperate on joint investigations with law enforcement agencies and the global network of investigators;
- to build capacity of the European anti-doping system, reduce the prevalence of doping in sport and maximise the health benefits generated by the practice of clean sport by the European youth.

**CHAPTER PP 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PP 07 21 (*cont'd*)PP 07 21 01 (*cont'd*)

The pilot project would be built on the following four pillars:

1. assistance to develop a robust legislative framework allowing for the sharing of information between ADOs, law enforcement agencies and WADA and for the protection of whistleblowers;
2. assistance to develop the best mechanism (forums, conferences or online platforms) for sharing information on legislation and best practices, on investigations, and on the protection of whistleblowers;
3. assistance to build capacity of ADOs in investigations through the provision of training sessions to employees or through the hiring of experts; and,
4. assistance to allow ADOs to contribute to the global networks of investigators.

The project will contribute in many ways to the objectives of the Union, including by:

- protecting public health – doping is not just a problem affecting elite athletes and sport; but also, a threat to the society as a whole; especially youth. Research can attest a growth in the use of steroids and other prohibited substances by amateur athletes and youth to look and perform better.
- providing new tools to combat the organised crime – selling doping substances is a 'low risk – highly profitable activity'. Research demonstrate the involvement of organised crime in the manufacturing and trafficking of doping substance in sports along other illicit substances. Sharing of information between ADOs and law enforcement ADOs will help optimising the fight against manufacturing and trafficking in doping substances.
- improving sports governance in and outside Europe - this project will contribute to strengthening the governance of sport organisations and to share Union values with other partners through the involvement of third countries in the implementation of the project.

Furthermore, this project will help mitigate the impact of the COVID-19 pandemic on the anti-doping sector. The increase in expenditure on key branches of national economies due to the pandemic will result in a halt to the development of many ADOs. The project will allow for a partial restoration of their capacity. It will help ADOs increase their activities, including the economic ones and compensate a part of the potential diminution of government contribution to ADOs moving forward.

PP 07 21 02 Pilot project — European Narrative Observatory to fight Disinformation post-COVID19

Figures (*Differentiated appropriations*)

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
1 200 000	300 000				

COMMISSION  
PILOT PROJECTS**CHAPTER PP 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PP 07 21 (*cont'd*)PP 07 21 02 (*cont'd*)*Remarks*

The current pandemic is not only a situation of unprecedented hazard for the life and wellbeing of Union citizens. It is also a major challenge for the fragile web of trust that connect the citizens with their states and the Union. The proposed observatory will examine the shift in narratives towards Europe and the nation state during and following the COVID-19 pandemic, providing basic recommendations for effective communication and to protect against disinformation campaigns.

The availability and quality of information is crucial to effective functioning of society, especially in a time of crisis. A lot of false information regarding COVID-19 is currently spreading in societies, especially via social media. One of the main strategies for fighting fake news is debunking, a strategy of confronting them with facts and accepted theories. Unfortunately, existing debunking strategies have proven very ineffective, especially as they do not work with individuals that have a strong belief in false information.

Research shows that Twitter, YouTube, Facebook and other influential social media provide a crucial boost for the international network of disinformation (Smith and Graham 2019). Feeding on fear and chaos, spreading fake news and misinterpreting the data, these agents are stronger than ever (Fernández-Luque and Bau 2015). However, social media provide not only a new set of tools for spreading disinformation but also a great weapon against it.

Recent research demonstrates the important role of narratives in framing facts and information in a package that can be easily transmitted across society and how studying narratives can be the key to better understanding how ideas spread across social media and why certain ideas take hold over others. The use of this methodology in understanding the flow of information during the COVID-19 outbreak could be vital in finding a different way to inform society and to keep disinformation and misinformation at bay.

The pilot project will create a European Observatory on Narrative Distribution to monitor and analyse how new narratives are created and spread within European public discourse, decipher the emotional values that guide successful narratives, map sources and key actors active in the spreading of these narratives and develop recommendations for effective communication and policy.

Building on the work developed for the Commission-funded study on 'Mechanisms that Shape Social Media and their Impact on Society' the project developed by Re-Imagine Europa and the Center for Systemic Risk Research at the University of Warsaw, the Observatory would identify the dominant narratives by combining Natural Language Processing and more traditional methods of qualitative narratology. Using advanced algorithms and analysing the most qualitatively representative examples, it would establish dominant narrative patterns and answer questions such as: 'How is the ongoing crisis influencing the dominant models, metaphors and narratives shaping our perception of identity and community?', 'Are European values at risk in an increasing polarised and weaponised information ecosystem?', 'How are external actors manipulating European public discourse to sow discord and fracture society?', 'What are the values and narratives that unite and separate us?' and 'How are our different value systems and experiences shaping the development of a European identity?'

Remembering the words of Ludwig Wittgenstein: 'the world we see is defined and given meaning by the words we choose. In short, the world is what we make of it.'

**CHAPTER PP 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PP 07 21 (*cont'd*)PP 07 21 02 (*cont'd*)

The Observatory would be coordinating with existing European projects and infrastructures including the European Digital Media Observatory (EDMO) and SoBigData++ to ensure that there is no duplication of effort and that resources are used to support the investigative and research work and make use of the infrastructures and technical support available. The project would support action at national and multi-national level focussed on detecting and analysing disinformation campaigns linked to COVID-19. The results of the pilot project would be made available to other European and national projects and ensure sharing of best practices and recommendations for effective communication.

PP 07 21 03 Pilot project — Cross-Border Crisis Response Integrated Initiative (CB-CRII)

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
1 600 000	400 000				

*Remarks***I. Context**

The COVID-19 crisis is extremely challenging not only for inter-state relations, but also for relations between neighbouring territories divided by national borders. It has generated deep pressure on cross-border regions which represent 40 % of the territory of the Union, and also on cross-border workers who represent 2 million people.

At the same time, the crisis revealed a lack of cooperation and coordination across borders as well as strong interdependencies of border areas seen as functional areas. One decision on one side of the border has had a direct impact on the other side of the border.

At the beginning of 2020, the crisis first provoked uncoordinated border closures, as well as several uncooperative actions by both public and private actors. While some Member States decided to close entirely their borders, others drastically reduced the number of border-crossing points in order to slow down the spread of COVID-19. Although the free movement of people and goods is a cornerstone of the single market, the COVID-19 crisis has hindered the application of this key principle. Border bans or controls put cross-border workers, primarily in the health sector, but also in the field of construction, agriculture or transport in an alarming situation. Border shutdowns have had a strong negative impact on cross-border citizens, the local economy, businesses, the transport of essential goods and cross-border public services (education, healthcare). In some city regions or even States like Luxembourg, where the health system is heavily dependent on cross-border workers, the interruption of cross-border public transport connections created complicated situations. The situation has also had an impact on trust between partners across the borders which has been built over the years, and which is essential for cross-border cooperation.

COMMISSION  
PILOT PROJECTS**CHAPTER PP 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PP 07 21 (*cont'd*)PP 07 21 03 (*cont'd*)

Despite many years of institutionalised (Interreg) and informal cooperation between border regions, the existing relations did not always allow an efficient and quick response to cope with the outbreak of such a crisis. Existing cross-border structures such as the European Grouping for Territorial Cooperation were rarely involved in the elaboration or in the implementation of emergency measures despite their knowledge on the functioning of administrative and political organisation on both sides of the borders.

Nonetheless, the COVID-19 crisis has also allowed the development of new forms and initiatives of cross-border cooperation, regarding particularly the healthcare sector. Several neighbouring regions to Grand Est (FR) demonstrated solidarity by welcoming hundreds of patients in their intensive care units and covering hospital transfer costs. In the cross-border conurbation of Gorizia (IT)-Nova Gorica (SI), although border controls were restored, the mayors of these two cities continued collaborating and exchanging on this common emergency. Thanks to daily updates from the Mayor of Gorizia, Nova Gorica was therefore able to better anticipate the situation and to adopt faster measures to keep the number of people infected in Nova Gorica lower than in the rest of Slovenia. The cross-border Cerdanya hospital (ES-FR) positively benefitted from its double belonging to two different healthcare systems, allowing a sound supply of masks and medicines and the reinforcement of cooperation with larger hospitals on both sides of the border (Barcelona and Perpignan), where intensive care units are available. Around Geneva, a new vignette for cross-border healthcare workers and dedicated traffic lanes were conceived in order to speed border crossing for these essential workers. These new forms of cooperation revealed the creativity and ability to reinforce cross-border cooperation.

Cross-border territories are unique laboratories of territorial cohesion and European policies. The experience of border regions during the unfolding COVID-19 crisis has illustrated a strong need for new solutions to empower cross-border territories in managing such emergencies. At the same time, this crisis is an opportunity to promote a new model of 'co-development' for integrated cross-border regions, by improving existing multilevel governance tools and by strengthening and establishing new cross-border public services.

**II. Objectives**

The overall objective of this pilot project is to improve the life of citizens in border regions by supporting more integrated and functional cross-border areas. Border regions are a very strong and visible example of the immediate effects of the COVID-19 crisis. Re-establishing border controls has hampered a whole eco-system. Therefore, based on a thorough analysis of the experience of border regions during the COVID-19 outbreak, this pilot project aims at helping border regions to better face future crises and to promote a new model of elaborating public policies, including public services, in border regions based on co-development and through improved multilevel governance. The pilot project combines therefore a short-term and a mid-term approach to provide practitioners and decision-makers with concrete tools and methodology that can be directly translated into reality, tangible for citizens, and applicable to all European borders.

**III. Expected results**

1. An in-depth assessment of the COVID-19 crisis management in all European border regions.

**CHAPTER PP 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PP 07 21 (*cont'd*)PP 07 21 03 (*cont'd*)

This assessment will give a comprehensive picture of the reaction and non-reaction to the crisis in border regions and their consequences. This implies gathering evidence and concrete examples on the difficulties faced by the border regions during the crisis, on the impact on different sectors and on cooperation initiatives emerging from the crisis. It should also analyse the role of existing cross-border structures in the management of the crisis. This assessment will make the Union able to objectively measure the costs of non-cooperation. Through collecting practical and statistical evidence (cross-border functional urban areas, etc.), the analysis should also point out the strong interdependence of border territories, and should reveal that an uncoordinated measure on one side of the border has an impact on the other side of the border. Finally, it should point out the double nature of borders: boundaries of sovereign States guaranteeing the security of their own citizens; and local areas where people live. This requires the establishment of sound multilevel governance of the border, involving local actors.

2. A platform mapping out cross-border public services, obstacles and solutions to cross-border cooperation.

The platform should have a strong operational aspect by collecting information on public services in different sectors in border regions (health sector, judicial sector, economy, etc.). This would help in identifying the gaps, the needs and the existing structures to facilitate better integration of border regions. This platform should build on the work already carried out on cross-border public services, more specifically on cross-border public services operating in the field of civil protection and disaster management. Taking the health sector as an example, the platform may also gather information about the capacity of existing public services in the health sector, mapping key contacts over the borders and providing data on hospitals. Moreover, this online platform will provide an overview of obstacles and existing solutions to cross-border cooperation in different domains. It should build on the experience gathered during the implementation of other initiatives such as the b-solutions project. The conditions to secure the updating of the platform, on the basis of a European network, should be defined.

3. An action plan to ease and to systematise solidarity across neighbouring regions.

Through this mechanism, border regions should be better equipped to react swiftly to different types of crisis (pandemic, environmental, security, natural disasters, migration, terrorist attacks, etc.) impacting borders and requiring the coordinated action of national and local authorities.

Based on the lessons learnt from the COVID-19 crisis, and from existing cross-border mechanisms, Interreg projects, dealing with civil protection, a protocol model should be developed in case of a crisis to ensure the free movement of cross-border workers and essential goods, social protection, harmonised communication, etc. This protocol of actions involving national and local authorities should guide, step by step, decision makers' actions. The protocol should integrate the development of new tools such as a 'laissez-passer' for frontier workers that would be mutually recognised by neighbouring regions.

4. Boosting the potential of border regions through co-development, cross-border spatial planning and multilevel governance.

The COVID-19 outbreak has shown that often the socio-economic cross-border interdependence is not tackled by means of systematic and coherent cooperation between public authorities across the border. Thus, the management of cross-border regions requires multilevel governance, as these regions are deeply interlinked and they share joint interests. The co-development approach should guide the elaboration of cooperative public policies including

COMMISSION  
PILOT PROJECTS**CHAPTER PP 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PP 07 21 (*cont'd*)PP 07 21 03 (*cont'd*)

common spatial planning and the development of public services in different sectors (health sector, mobility, education, etc.), including a sustainable system for funding cross-border investment and management. This should include issues such as the social and fiscal status of cross-border working (including teleworking, etc.), that has proved essential during the crisis. This implies strong and permanent dialogue between policy makers from different levels of governance, with the involvement of cross-border institutions. Nowadays, there are many political structures on border regions which encourage political dialogue. However, the COVID-19 outbreak has shown that existing structures had difficulties to react swiftly. Paradoxically, border regions that were the most integrated had difficulties to coordinate a joint response. The natural reaction of these regions was to close borders while an efficient response would have been co-ordination. Based on the example of the French-German 'Cross-border Cooperation Committee', created by the Aachen Treaty, a similar political platform could be replicated at all Union borders and could have three tasks:

1. producing evidence of cross-border integration and flows, analysing the role of joint investment and of cross-border public services.
2. working on the resolution of legal and administrative obstacles to cooperation through different mechanisms (bilateral agreements, the European Cross-Border Mechanism (ECBM), conventions, etc.) involving local and national authorities as well.
3. joint development of a common strategy for priority projects including public services. This political platform should reflect and act in a wide range of sectors that are essential for the development of both sides of the borders.

In the light of the COVID-19 crisis, such political platforms should also be in charge of a coordinated plan for cross-border multi-level management of crisis impacting cross-border regions.

PP 07 21 04 Pilot project — Study on loneliness, focus on mental health

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
1 000 000	250 000				

*Remarks*

Worldwide academic evidence shows that loneliness, the absence of support networks or communicative skills have health (physical and mental) and social consequences on an individual level, as well as an economic impact on the working capacity of people and on the interconnectedness of society. Loneliness has many symptoms (e.g. depression) which sometimes get medical treatment, while the root causes of the problem remain unsolved. The effect of loneliness has been showcased on a large scale during the COVID-19 crisis, proving the negative effects of isolation on social cohesion and mental health. The impact of loneliness and the COVID-19 will have a major impact on European's demography, not only in terms of health and social connectedness, but also on the economy by way of productivity.

**CHAPTER PP 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PP 07 21 (*cont'd*)PP 07 21 04 (*cont'd*)

In a fast moving and changing world, with frequently more virtual than physical contact, especially during times of confinement, self-isolation or quarantine, with ageing and culturally diverse populations and with complex demands on the skills of workers, an increasing number of people feel left behind. The individuality of society erodes into isolation and culminates in loneliness. In the few countries, where loneliness studies have been carried out before the COVID-19 crisis, about 80% of the population states they feel lonely occasionally and a consistent 10-13% feel lonely permanently. Not only the elderly but especially the young population is deeply affected, with peaking numbers at the young adolescent age. At this moment, the few existing studies use different criteria, varying age groups and definitions. On the Union level several small-scale initiatives have taken place:

The policy brief on 'Loneliness – an unequally shared burden in Europe', presenting evidence and data on the subject.

The project 'VulnerABLE' aimed at better understanding of how best to improve the health of people living in vulnerable and isolated situations, identify and recommend evidence-based policy strategies, and raise awareness of the findings and support capacity-building within Member States.

A peer review with the participation of several Member States focusing on projects, measures and strategies for tackling social isolation, loneliness and social exclusion in older age took place in Germany in September 2019.

The European Quality of Life Survey, providing information on loneliness, amongst others the upcoming report on 'Living, working and COVID-19'.

While these activities provide for different and partial perspectives to loneliness, it is evident that a comprehensive study using comparable data is needed to gain more a complete insight in order to provide for effective and sustainable solutions with the involvement of stakeholders. The study should thus provide new added value, while avoiding duplications.

Loneliness and its lasting effect on social exclusion and mental health issues occurs in every age and gender group. In most countries loneliness hits men harder, yet the data is sparse. Apparently, the East-West and North-South divide also reflects in the gender disparities, with mostly women reporting loneliness in the East, while more men seem to suffer loneliness in Western Europe.

Some Member States have started an active policy to combat loneliness on national, regional or local level. Many initiatives have been launched by charity or phone projects, developers of housing of mixed age groups, living room meet ups for elderly people. Ireland, for example, has a national plan on tackling loneliness amongst senior citizens. Yet, a European approach is missing and the disparities between Member States are significant. A European perspective as well as a Union-wide network and data are crucial to understand loneliness and its impact on the social exclusion and mental health of the population to then be able to counteract and find tangible solutions together with the regional and local level.

COMMISSION  
PILOT PROJECTS**CHAPTER PP 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PP 07 21 (*cont'd*)PP 07 21 04 (*cont'd*)

## The pilot project

This pilot project aims to study and compare current national and regional loneliness policies, to gather comprehensive and comparable Union-wide data, to analyse the impact of the COVID-19 crisis and to coherently provide best practices and recommendations to combat the social exclusion and mental health issues related to loneliness.

The pilot project is divided into four phases:

(1) The first phase will be taking stock of loneliness studies and initiatives on local, regional, national and international level, be it private or public. These initiatives will be subject to analysis as to what extent and in which specific areas they are suitable to help to alleviate or prevent loneliness. An integral part of this first phase would be to conduct a comprehensive Union-wide study on the impacts of loneliness based on existing and newly gathered data, including the (lasting) impact of COVID-19, disaggregated by gender differences and reflecting regional disparities.

(2) The second phase will bring all the initiatives together in an easily accessible and user-friendly platform, to directly support stakeholders and afflicted persons and to provide information on road maps to alleviate loneliness.

(3) The third phase will (virtually) bring together actors and stakeholders dealing with the topic of loneliness ("patients", organisations, unions, charity and volunteer organisations, policy makers, societal innovators). A summit will provide the opportunity to discuss aspects, root causes and symptoms of loneliness and its impact on social exclusion and mental health, different phases and profiles of loneliness (age groups, gender, cultural background, location, etc.) to define where and when loneliness starts as well as to debate the role of social media and digitalisation (online hate speech impact on mental health, etc).

(4) The fourth phase will be a follow-up at Union level and will comprise the presentation of best practices and recommendations to combat the social exclusion and mental health issues related to loneliness, based upon the outcome of the former phases. A clear outline will be presented on focus groups and the most effective measures, on short- and long-term goals, as well as an overview of stakeholder groups.

PP 07 21 05 Pilot project —Understanding the value of a European gaming society

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
450 000	112 500				

*Remarks*

It is a widespread concern that technological advances (especially in the era of artificial intelligence) could create unemployment. However, although many jobs may be lost, new ones will be created. Gaming is transforming our culture and redefining the ways that young people consume entertainment. Gaming is rapidly becoming the most important and influential medium of our time.

**CHAPTER PP 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PP 07 21 (*cont'd*)PP 07 21 05 (*cont'd*)

There are now more than 2,5 billion gamers across the world that will spend USD 152.1 billion on games in 2019. These numbers grow year on year at rates close to 10%. In Europe, 54 % of the Union's population play video games, which equals some 250 million players in the Union and their average playtime per week is 8,7 hours.

Games are not only an increasing economic and cultural powerhouse, but also the new social medium where people get together for any excuse. To learn, to connect, to express themselves, to share knowledge and experience, and even to engage in new work or economic activities.

Sports are exploding and beginning to compete with traditional sports events. In 2019, more than 100 million people watched the 'League of Legends' World Championship, cementing not only its place as the most popular e-sport but as one of the most popular cultural events in the world.

Another example of the power of gaming is Roblox, an interactive blocky world that enables young programmers to make a living creating and sharing games in a community of over 120 million players. It announced that its seventh annual Bloxy Awards ceremony staged inside Roblox's game world drew more than 4 million concurrent players during the peak of the show, and raised USD 100 000 for non-profit organisations.

Just observing the facts and looking at the big impact video games are already having on current generations, it seems quite urgent for our governments and policy-makers to gain a better understanding of it, and to learn how could Europe play a smarter and more active role not only in its use but also in its creation.

**Measures and outcomes**

This pilot project will create an interdisciplinary European network of experts, thinkers and leaders willing to share their vision about the value and potential of gaming in the future of our society, our culture and our economy.

The network will hold a series of exchange meetings with stakeholders of key sectors and influence groups in areas like politics, finance, law, education, culture, science and health, looking to shape a European agenda for games.

In order to preserve the full independence of all the discussions and conclusions, it is important that the network stay from the beginning out of the influence of entities and lobbies driven by commercial or economic interests. This means that members will participate at a personal level and not representing a particular company or organisation.

Observations and conclusions of all these meetings will lead to shareable reports that will point out strategic areas of collaboration between the games industry and the public sector, particularly at European level, in order to promote the understanding of the opportunities and challenges ahead for the European video game sector.

COMMISSION  
PILOT PROJECTS**CHAPTER PP 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PP 07 21 (*cont'd*)

PP 07 21 06 Pilot project — Enabling greater gender budget responsiveness of the next MFF through an gender impact assessment

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
60 000	15 000				

*Remarks*

In order to achieve Union's core values on promoting gender equality as well as to implement the Gender Equality Strategy (GES) published by the Commission on 5 March 2020, it is essential that a gender budget impact assessment is conducted to measure the impact of the new Union's multi-annual financial framework (MFF). Although the Gender Equality Strategy reaffirms the Union's commitment to gender budgeting and the Commission willingness to 'look at the gender impact of its activities and at how to measure expenditure related to gender equality at programme level in the 2021-2027 MFF', it does not include concrete budgeted measures to conduct a gender budget impact assessment. Such an assessment is necessary to assess the impact of budget proposals on gender inequalities and the fulfilment of girls' and women's rights.

Union institutions have identified gender budgeting as a need to achieve gender equality, and tools have been made available on how the Union could conduct gender budgeting (e.g guide to gender budgeting produced in 2016 by the European Institute for Gender Equality). However, the Union has not undertaken an actual gender budgeting exercise of its upcoming or current framework. A comprehensive gender impact assessment is a critical step for the implementation of a gender budgeting approach and must be conducted at the outset of the new MFF.

In light of the COVID-19 public health crisis, it is crucial that the Commission assesses how women and girls have been and will continue to be affected by the crisis, and ensures that the new MFF addresses their specific needs, especially with regard to their access to health, but also to social protection, education and economic opportunities.

This pilot project therefore proposes the following actions to be taken:

- identification of gender- and age-disaggregated data needed to measure the impact of Union policies and programmes on women and girls;
- collection of such disaggregated data when knowledge gaps exist;
- carrying out of the actual gender budget impact assessment;
- based on the gender budget impact assessment, identification of programmes which could be gender-transformative or on the contrary could indirectly strengthen gender inequalities;
- adaptation of the new MFF programmes to ensure that they are gender-transformative;
- setting up of initial grounds for an ex-post evaluation of the MFF programmes impact on gender equality in 2027.

PP 07 21 07 Pilot project —Basic Income Guarantee (BIG) e-pay cards for marginalised people: innovative financial and policy instrument to promote more effective delivery of welfare benefits for people in extreme poverty

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
2 000 000	500 000				

*Remarks*

Initial situation:

According to the 2016 FRA Minorities and Discrimination Survey, 80 % of Roma are at-risk-of-poverty (86% in Bulgaria, 58% in Czechia, 70% in Romania, 87% in Slovakia). This rate is much higher than the overall Union poverty rate of 24% (40% in Bulgaria, 13% in Czechia, 39% in Romania, 18% in Slovakia). Poverty is particularly high among Roma living in marginalised communities, notably in Slovakia, Bulgaria, Romania, Hungary and Czechia. Furthermore, Roma rank among those who are the most affected by long-term poverty and inter-generational reproduction of poverty.

Figures from the 2011 joint study by the World Bank, United Nations Development Programme (UNDP) and the Commission showed that one-third of Roma children go to bed hungry at least once a month because there is not enough food. Experiences of deprivation in the early years of childhood significantly influence people's later life chances and trajectories.

Being poor is not just about a lack of income and material assets, it also implies being disadvantaged in many other ways. Material poverty is often coupled with experiencing disadvantage in (or being excluded from) access to education, employment, healthcare, social care, and housing, as well as importantly, social relations and networks. Moreover, there is a strong interdependence of poverty with spatial segregation, which further restrains access to such material, skills and social assets. It narrows the chances for secure livelihoods and thus leads to absolute poverty and social exclusion.

Perceptions implying that the individual is responsible for being poor and that Roma poverty is an issue of ethnicity or ethnic minority fail to recognise that poverty is a complex multidimensional phenomenon resulting from numerous factors. Many of these lie outside one's personal control, and are indeed linked to broader transformations in social policy and governance regimes. It is however clear that persons excluded from the labour market are the most threatened by poverty.

Social protection policies instituted under the new political regimes in Central and Eastern Europe countries, which to a large extent rely on the means-tested assessment and payment of welfare benefits, have so far not been effective in getting the long-term poor, including Roma, out of poverty. State support comes in a form of social benefits, which serve to cover basic life needs, childcare, and housing or to support work activation. However, there are significant limitations of system design, when it comes to both preserving dignity and allowing for access to a wider range of assets, and providing tailored support and incentives for people to effectively climb out of the poverty conditions and lifestyles.

COMMISSION  
PILOT PROJECTS**CHAPTER PP 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PP 07 21 (*cont'd*)PP 07 21 07 (*cont'd*)

This decreases the effectiveness of help and over time translates into the following more visible symptoms:

- Socially excluded communities frequently settle on vacant sites, owned by the state, municipalities and more rarely on private land, which are unsuitable for residential use or are too remote from the urban web. This has direct implications on both the quality of housing conditions and access to viable employment opportunities. Most Roma and vulnerable people are engaged in primarily temporary, precarious and unofficial work.

- In addition to income from seasonal employment and often unregistered labour activities, many Roma households rely on means-tested welfare benefits provided to large families and citizens of no financial means. Because of poor economic and living conditions and lack of financial literacy, Roma frequently spend their income from work and welfare benefits in the first days of the month and are then not able to provide for their basic needs during the rest of the month.

- Living in prolonged scarcity also has important psychological effects, and sometimes engenders dependencies and addictions that enhance precarity and the inability to make effective decisions or plan for the long term (or even the full month ahead).

- Most Roma households lack access to financial services, have low levels of savings and limited knowledge of effective household finance. Consequently, Roma often become indebted and fall victims of usury, which drags them in to a vicious circle of worsening poverty.

Efforts to promote Roma inclusion without ensuring a welfare benefits distribution system that is 'fit for purpose', and without the availability of financial services, will overlook a major barrier that can be addressed relatively effectively.

There is at present an acute need for further adjustment and piloting experimentation models for welfare benefits redistribution and effective support to answer the needs of vulnerable people in a multi-dimensional way. Starting from a whole-person approach and rolling out into the different areas of life.

The pilot seeks to overcome conceptions of poverty as transitory or individualised phenomenon alone, attributed to a person or group's own failings. It starts from seeing poverty and marginality also as societal phenomena to be addressed from a systems-level perspective and from an intent for preserving the dignity of those being helped. This also includes the assumption that the poor are often in the best place to decide what to spend their resources on (which is supported by economic research and longitudinal data), but also that they should be supported and empowered in a number of additional ways.

Furthermore, the current coronavirus crisis spells an important turning point, revealing the danger of responses that expose or produce divides in society between those who are protected and those who are not. It prompts to look at new universal solutions with broader and more comprehensive coverage- both in mitigating the consequences of the crisis and in planning for the changing economy and world of work in the aftermath and longer term.

There is need for experimenting with innovative financial and policy instruments which to pave further for the more effective welfare delivery and investments supporting better outcomes for marginalised people. The pilot project would thus combine elements and seek to:

**CHAPTER PP 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PP 07 21 (*cont'd*)PP 07 21 07 (*cont'd*)

- Support social policy experimentation, through the delivery of welfare benefits coupled with a progressive incentive package, through e-pay cards

- Support empowerment, notably through strategies of entrepreneurship and restored sense of dignity and agency, for bridging social isolation stemming from long-term poverty

Using financial inclusion to give Roma access to the basic and vital services is as important a component of Roma inclusion as employment, housing, health or education. Households that can access and understand basic financial services and handle a savings account are likely to use social benefits more productively.

Policymakers in cooperation with project management can link financial inclusion and personal+ business development support with human development outcomes.

The pilot project:

The aim of this pilot project is, while respecting competencies and responsibilities of Member States in defining and organising their social protection systems, including the way in which benefits are distributed, to test an alternative delivery mechanism of welfare benefits, paid weekly under E-pay cards, combined with continuous empowerment through entrepreneurship and self-development coaching work and financial literacy trainings.

The BIG scheme is envisioned as the combination of existing welfare benefits , with a scaled incentive package, which could allow additional transfers for individuals taking initiative in their personal and community or social life. It will be combined with measures, which help build the capacity of individuals to (re)integrate the labour market. This could serve as steps of a ladder allowing individuals and families to restore their agency and progressively climb out of poverty circles.

The pilot project will directly support policy experimentation through testing an alternative approach to understanding and addressing poverty:

- Security – living with a mind-set of scarcity and deprivation puts psychological pressure and constricts the mental bandwidth of persons living in deprivation, thereby preventing them from planning for the long-term or making better decisions in the now. This calls for experimentation with reducing conditional transfers in order to give a sense of security, plus additional transfers to stimulate personal initiative and support people in becoming actors in their lives.

- Expanded range of assets – emphasising poverty as more than a distributional (cash-poor) or material issue, seeing the relation to social isolation and access to a spectrum of 'assets' (material, skills, social and citizenship) to enable households to pursue new and more viable livelihood strategies.

- 'Human venturing'– investing in people as an alternative approach to benefit provisioning, essentially serving as 'venture capital for the people'; and representing a new way for investing in human capacities (just as we do for companies) and breaking through socio-cultural environments.

In relation to the first, the policy experimentation is underlined by multi-country research showing that poor people receiving unconditional welfare benefits do not blow the money on desires rather than needs.

COMMISSION  
PILOT PROJECTS**CHAPTER PP 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PP 07 21 (*cont'd*)PP 07 21 07 (*cont'd*)

In relation to the second, it will help recipients of social benefits, especially vulnerable and socially excluded communities, to sustain different livelihood strategies in order to get out of the vicious circle of poverty and indebtedness. It will also create the conditions for economic development and for improving the standards of living of the poorest.

Innovative financial instruments would be used to support the financing of the expanded benefits provision, through the combination of public and private (notably philanthropic) resources for better social outcomes.

This pilot project is part of the Union's efforts to:

support social innovation and new, holistic approaches to social service provision, the empowerment of disadvantaged groups and delivering transformative solutions to key social challenges, in particular Roma inclusion.

stimulate cross-sectoral collaborations and social impact partnerships (public-private and civic engagement) as a new avenue for public value creation.

pioneer the use of new financial instruments and blended support (financial instruments, grant and capacity building) for projects with high social externalities.

in the longer term, support the development of the social investment market and social impact interventions, through the testing or refinement of models which could be scaled up across Europe.

Activities:

The pilot project would explore how innovative, impact-oriented approaches could allow to improve the effectiveness of social policies currently based on the payment of means-tested welfare benefits by shifting towards a system based on smart activation. This approach would also reduce the administrative costs associated with the current delivery system of social benefits to marginalised Roma communities; and increase public spending efficiency in the long run.

This pilot project would test and develop innovative solutions, under a multi-country, pan-European approach, which could be further replicated and scaled to deliver improved sustainable outcomes and societal well-being in the Union.

The pilot project would include the following elements:

An enhanced delivery mechanism of welfare benefits, to be implemented in several Member States with large concentration of Roma; 500 recipients per Member State.

- Concerning existing welfare benefits

- paid to each individual (on a weekly basis): each man and each woman would receive welfare benefits, paid directly to them and not to a 'household head'. Paying individually is a vital feminist principle, which has been systematically abused in all social security systems over the past century.

**CHAPTER PP 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PP 07 21 (*cont'd*)PP 07 21 07 (*cont'd*)

- unconditional; recipients should not be required to spend the money in any specific way. However, pre-existing conditions in national legislation such as those linked to the mandatory school attendance of children would need to be respected as a prerequisite for additional incentives.

- non-withdrawable: recipients will not have their welfare benefits withdrawn for any reason during the course of the pilot project. The incentive transfers beyond this amount would be linked to specific elements and activities in a gradation (e.g. connected to kindergarten attendance, social and work occupations, progressively providing stepping stones in the path out of poverty and dependence).

- delivered through basic e-pay cards linked to a free or low cost bank account.

Capacity and capability building through empowerment and self-development coaching, job training, economic and financial literacy courses. In addition to the need to improve the financial literacy of families, the project will also aim at promoting an approach linking financial incentives to participation in active inclusion measures effectively leading to employment and empowerment.

Provision of micro-loans for personal projects aiming at improving the living conditions (optional).

Engagement of all stakeholders (national, regional and local authorities, financial institutions, employers, not-for-profit organisations, etc.).

While contributing to the objectives of the Action Plan for the implementation of the European Pillar of Social Rights, this pilot project would also be closely aligned with and seek to provide input to the EU Action Plan for a Strong Social Europe for Just Transitions, the European semester as well as the implementation of the EU initiative for Roma equality and inclusion.

It could be implemented under a social outcome contracting mechanism.

After being tested in multiple sites with significant Roma communities, the model could inspire reforms of the welfare systems in Bulgaria, Czechia, Romania, Hungary, Slovakia and other countries.

PP 07 21 08 Pilot project — Media representation and inclusion for refugees and migrants

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
500 000	125 000				

COMMISSION  
PILOT PROJECTS**CHAPTER PP 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PP 07 21 (*cont'd*)PP 07 21 08 (*cont'd*)*Remarks*

Media (re)presentation and visibility of vulnerable groups like migrants and refugees remains very marginal in the mainstream media across Europe. Migration and refugee movements are global issues, the impact of which affects Europe locally, nationally and at the Union level. Before the migration management crisis of 2015, migrants and refugees were mostly missing in the mainstream media. Disinformation and stigmatising is happening mostly in national discourses, rather than at the Union level, but the impact of them is felt at much larger scale. After 2015, media started exploiting migration issues to fuel negative, anti-European and nationalist rhetoric in the Member States, creating dangerous precedents in shifting public opinion, and even affecting electoral results, let alone the challenges posed on Union solidarity.

Information about media representation of migrants and refugees is not abundant, but there are numerous examples collected and featured across the literature. The Commission's 2018 Special Eurobarometer 469: Integration of immigrants in the European Union, confronts the public opinion with facts and figures that bring clarity to the distorted image and perceptions promoted across the Union, about migration. The refugees and migrants of different backgrounds are rarely asked or quoted in the media stories. They are pointed at, but rarely heard. Decided for, but rarely involved. Portrayed predominantly in a stigmatising ways in the media: as dangerous outsiders, as victims, as criminals, as those who would take your jobs – migrants and refugees perspectives and voices have been mostly missing in the mainstream media.

This pilot project aims to address these recurring issues by promoting and investing in inclusive media in Europe, which takes into account those voices. It aims to change current media narratives and break stigmas about the place and role of the refugees and migrants in European societies and communities. It will enable their voices to be integrated in the common media discourses and digital platforms. It will ensure that non-Euro-centric perspectives and visions of people outside of, but relevant to the idea of Europe, permeate and become integral part of the European media discourses. It will contribute to the values of non-discrimination, diversity, fair inclusion of newcomers – refugees and migrants – in the European media. It will help dealing with disinformation and polarising media discourses, through cooperation and skills development. The pilot project will involve Union citizens, local, national and European policymakers, media (public, national and international), migrants and refugees, professional and civic platforms and stakeholders engaged in the topic.

*Key actions:*

(1) Map out and study existing good practices (policies, legal basis, instruments, programmes, tools, etc.) related to inclusive media and disseminate them across the Union through experts' conference, multi-stakeholder activities and publications (online and offline).

(2) Develop specific recommendations to mainstream inclusive media narratives and communication throughout Union programmes.

(3) Expand and build upon the existing good practices and community of knowledge across all Member States, in order to mainstream successful inclusion and ethical media models involving media, public broadcasters, European Broadcasters Union etc.

(4) Promote professional knowledge exchange and peer learning for journalists in sensitive reporting.

**CHAPTER PP 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PP 07 21 (*cont'd*)PP 07 21 08 (*cont'd*)

(5) Establish new collaborative practices, peer learning and professional training for newcomers-refugees and migrants) to foster their critical media and internet approaches, knowledge, skills and consumption; provide them with skills and tools to change the way news are created and spread.

(6) Complement the existing and develop new tools to deal with disinformation targeting refugees and migrants, and to allow for greater cooperation between fact-checkers and researchers on how to shape positive narratives on migration. Work closely with the European Digital Media Observatory (EDMO) in analysing the phenomenon of disinformation and developing joint solutions.

PP 07 21 09 Pilot project — Temporary citizens' assemblies: transforming societal consensus into a way of acting and establishing best practices to engage citizens more in EU public life

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
2 000 000	500 000				

*Remarks*

The number of significant crises the Union has undergone demonstrates that it needs to involve citizens more closely in a bottom-up exercise. Citizens' assemblies are exercises in deliberative democracy which bring together a cross-section of society to debate and advise on specific societal challenges. Although Union citizens' dialogues took place in the past, those temporary assemblies would be a rare chance for citizens to take the reins from their representatives and hash out the issues for themselves. If formulated correctly, citizens can transform consensus on important issues to consensus on a way to act better. Positive outcomes would help bring citizens closer to the Union.

PP 07 21 10 Pilot project — Education Platform on Rule of Law

*Figures (Differentiated appropriations)*

Commitments	Payments	Commitments	Payments	Commitments	Payments
400 000	100 000				

COMMISSION  
PILOT PROJECTS**CHAPTER PP 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PP 07 21 (*cont'd*)PP 07 21 10 (*cont'd*)*Remarks*

## Objective

This pilot project will develop an educational package with interactive modules on the rule of law for pupils in secondary education across the Union. The modules will be available at an online platform that will also facilitate virtual exchange between teachers all over the Union. These interactive modules on rule of law will be in all the official languages of the Union, meant to help schools and teachers to develop knowledge about the rule of law.

## Background

Respect for the rule of law is a critical component for membership of the Union and it is essential to ensure the democratic functioning of both the Member States and the Union as a whole. Respect for the rule of law is a prerequisite for people's enjoyment of their fundamental rights. Similarly, a European area of justice, as well as an internal market in which laws are applied uniformly, cannot exist without full adherence to the rule of law. The rule of law underpins any democratic society and fosters citizen's trust in public institutions, including in the justice system.

In recent years however, the rule of law in the Union has been put to the test on several occasions. Union institutions and several Member States' governments have voiced their concern about rule of law backsliding. In its many resolutions regarding the deterioration of the rule of law, the European Parliament has emphasised that the Commission is responsible under the Treaties for guaranteeing respect for the rule of law as a fundamental value of the Union.

As part of its response to these challenges, the Commission presented its communication 'Further strengthening the Rule of Law within the Union' in April 2019, in which it identified three pillars for the effective enforcement of the rule of law. The first pillar is promotion, and refers to building knowledge on the rule of law and fostering a common rule of law culture. Following that communication, the Commission received contributions from a broad diversity of stakeholders. A large majority of the contributions emphasize that more awareness needs to be raised among the general public on the existing rule of law standards, such as through civil society and education.

Studies confirm the lack of knowledge of Union citizens regarding the rule of law. The July 2019 Special Eurobarometer study on the rule of law shows that even though the vast majority considers the principles of the rule of law highly important, most Union citizens do not feel sufficiently informed about the Union's fundamental values. Citizens, particularly younger people, can benefit from a deeper understanding of the rule of law. As the Venice Commission has pointed out: 'The rule of law can only flourish in a country whose inhabitants feel collectively responsible for the implementation of the concept, making it an integral part of their own legal, political and social culture.'

In its communication 'Strengthening the rule of law within the Union – A blueprint for action' from July 2019, the Commission acknowledges that Member States' education systems play a part in strengthening the rule of law 'by ensuring a place for the rule of law in public debate and education'. However, understanding and awareness of the rule of law is hardly ever taught in schools within the Union. Since the 2015 'Declaration on promoting citizenship and the common values of freedom, tolerance and non-discrimination through education' adopted in Paris, many

**CHAPTER PP 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PP 07 21 (*cont'd*)PP 07 21 10 (*cont'd*)

Member States have integrated citizenship education in their national curricula. A 2017 study by the Education, Audiovisual and Culture Executive Agency however shows that rule of law is not a focus point in teaching on citizenship education, leading to a knowledge gap in the younger generation.

The Education Platform on Rule of Law seeks to fill this gap. This pilot project will make steps in strengthening the knowledge and respect for the rule of law through education by developing tools and content, which teachers in the Union can integrate in their teaching and learning practices.

Despite existing Union programmes that provide funding for the development of educational packages, such as the Erasmus+ programme, the e-Twinning platform and the School Education Gateway multilingual platform, there is currently no dedicated Union education platform promoting the rule of law in secondary education. This pilot project is unique in this sense, as it will offer educational material on the rule of law to all secondary schools in the Union in a proactive manner, rather than having to rely on a consortium applying under the existing Union funding opportunities that would produce only limited content specific to their particular interests. Creating a dedicated fund for this purpose will thus ensure that the same educational package is available throughout the Union in all the Union's languages, rather than only the languages used by the organisations that would apply for Union funding through existing channels.

**Implementation**

Educational package: interactive modules and exchange space for teachers

In order to fill the abovementioned knowledge gap, this pilot project will focus on the generation of knowledge on the rule of law among young people. To achieve this, the fund will:

Develop an educational package of interactive modules that will be available online in all official Union languages, which will be offered to teachers in secondary schools all over the Union as a means to complement their learning materials related to society, justice and citizenship education;

Create an online space of exchange for teachers across the Union that work with the package.

The educational package should contain at least the following elements:

Understanding the rule of law and its main principles (such as equality before the law, separation of powers, access to justice, etc.)

The importance and history of the rule of law in national constitutions and within the Union

The interconnectedness between the rule of law and fundamental rights, democracy and citizenship;

Practical tools, videos and interactive exercises to debate the rule of law in relation to the pupils' life, society and community.

COMMISSION  
PILOT PROJECTS**CHAPTER PP 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PP 07 21 (*cont'd*)PP 07 21 10 (*cont'd*)

## Organisational set up

The content of the educational package should be developed by an independent organisation or network, with expertise on the rule of law, didactics and online platforms to ensure that the content of the package is both relevant and factual, as well as accessible to secondary school pupils.

The 2019 guide 'Strengthening the Rule of Law through Education' published by the United Nations Educational, Scientific and Cultural Organisation (UNESCO) and the United Nations Office on Drugs and Crime (UNODC), can be a useful starting point.

## Desired results

assisting teachers and schools in developing courses on the rule of law in their member states and the Union

fostering knowledge on the rule of law among young Union citizens and contributing to a common rule of law culture

increasing the sense of ownership of European values by paying attention to the rule of law in each Member State's constitutional order

building capacity related to rule of law education on an European, national and local level by increasing the availability of guidance material and facilitating the exchange of best practices

contributing to the development and critical thinking skills of the younger generation by supporting existing citizenship education

PP 07 21 11 Pilot project — Internationalisation of the European Capital of Culture experiences and models. Sharing governance models and inter-cultural exchanges towards more co-creation and partnership.

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
1 60 000	40 000				

*Remarks*

The project taps the currently unused internationalisation potential of the European Capitals of Culture in order to support a better sharing of governance models and experiences of the interesting and successful European Capitals of Culture experiment in order to:

- o steer, bundle and network with international partners,
- o propose training and coaching purposes,
- o address together common questions,

**CHAPTER PP 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PP 07 21 (*cont'd*)PP 07 21 11 (*cont'd*)

- o fully use synergies for international programmes development,

- o cover accurately point of views on shared history and heritage,

- o reach out to diverse target groups, and

- o allow for more inter-cultural exchanges.

This global initiative could be started in a first phase with the African continent that already expressed interest to start an African Capitals of Culture model.

Through these actions should be reached a wider participation of European Capitals of Culture in global (cultural / policy) city networks', in contributing to the achievement UN Sustainable Development Goals and to different regional Capitals of Culture initiatives in the world. At the same time, the European Capitals of Culture programmes would benefit from more co-creation with new artistic and creative industries from outside the Union, contributing to overcome persisting stereotypes in parts of the cultural sector and the Union population, and increasing the visibility of the European Capitals of Culture programmes for an international audience and non-European participation.

Preferred DG: DG DEVCO in collaboration with DG EAC/EACEA

PP 07 21 12 Pilot project — Improving the employment for persons with disabilities through the inclusive enterprise model

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
150 000	37 500				

*Remarks*

### 1. Introduction

Persons with disabilities run the highest risk of being excluded from jobs – discrimination still happens in many European countries. At Union level, Eurostat figures confirm that persons with disabilities are far more affected by unemployment than those without disabilities. On average, only 48,1 % of persons with disabilities in the Union are employed compared to 73,9 % among the general population. Women with disabilities and persons with high support needs show even lower employment rates.

These data demonstrate that the employment for people with disabilities has been one of the least developed objectives within the European Disability Strategy (EDS) 2010-2020. Unemployment may lead to poverty and social exclusion. Guaranteeing access to employment and occupation is a key issue, as it is a crucial aspect for the economic and social inclusion of around 80 million persons with disabilities in Europe.

COMMISSION  
PILOT PROJECTS**CHAPTER PP 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PP 07 21 (*cont'd*)PP 07 21 12 (*cont'd*)

## 2. Justification

The current EDS is coming to an end in the year 2020. The importance of an EDS is key to the implementation of the UN Convention on the Rights of Persons with Disabilities (UN CRPD) and, therefore, to promotion and protection of the rights of all persons with disabilities. At this point, it is extremely important to guarantee employment rights of persons with disabilities, through an inclusive enterprise model for people with disabilities, based on respect for Article 27 of the UN CRPD: equal opportunities, equal remuneration and safe and healthy working conditions.

It calls for a pilot project that focuses on strengthening the obligations to offer reasonable wages based on the minimum wage, and works to better implement the existing directives on non-discrimination in employment. Moreover, the agenda should focus on the use of Union funds to facilitate employment of persons with disabilities in the open labour market, in part through the recognition, promotion and protection of an inclusive enterprise as a social economy agent aiming at integration into the labour market, as a worker, any person with a disability.

## 3. Definition and characteristics of an inclusive enterprise model for persons with disabilities.

Inclusive enterprise is an employment model for people with disabilities that is present in more than 13 European countries and involves more than 8 000 companies. They provide goods, services, and livelihoods hiring persons with disabilities as equal workers, while also engaging an important part of the population in the value chain of companies as suppliers, distributors, and retailers.

An inclusive enterprise works as a vehicle to answer the need of the majority of persons with disabilities for a dignified and productive life just like any individual. Equal employment provides not only income but also social impact generating opportunities for social participation, which is especially important for persons with disabilities.

Concerning the organisation of inclusive enterprises, they can be structured as for-profit or non-for-profit, and may take the form (depending on in which country the entity exists and the legal forms available) of a co-operative, mutual organisation, a disregarded entity, a social business, a benefit corporation, a community interest company, a company limited by guarantee or a charity organisation. They can also take more conventional structures.

Inclusive enterprises have both enterprise goals and social goals, but they focus on the employment of persons with disabilities. As a result, their social goal is embedded in their objective, which differentiates them from other organisations and corporations. An inclusive enterprise's main purpose is to promote, encourage, and make social change by employing in their workforce the maximum possible number of persons with disabilities. Furthermore, this social purpose is carried out in a financially sustainable way and they can sustain themselves over the long term. Their models can be expanded or replicated to other communities to generate more impact.

Moreover, unlike other employment models such as sheltered workshops or socio-medical entities, the most outstanding characteristic of inclusive enterprises is that they are based on the fundamental right to work and employment enshrined in Article 27 of the UN CRPD . It means:

An ordinary enterprise or entity with social aims

**CHAPTER PP 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PP 07 21 (*cont'd*)PP 07 21 12 (*cont'd*)

Active in the ordinary work sector

30 % to 80 % of the employees in an inclusive enterprise are recognised as disabled workers

Ordinary salaries

Long-term contracts

A virtuous system

The State supports inclusive enterprises (according to the legislation in force)

Investment aid / various subsidies

o Tax deductions

o Percentage of the disabled worker's salary

Return on investment for the State:

o Taxation of the worker and the inclusive enterprise

o Optimisation of social benefits expenditure

Impact on the well-being of the worker with disabilities:

Integration into working life

Social impact on people with disabilities, on enterprises, on customers and on society.

Stable and disability-friendly employment

What are the Union's obligations to foster employment for persons with disabilities in the open labour market through the inclusive enterprise?

UN CRPD: Article 27 – Work and Employment;

Social Pillar principles: 3. on equal opportunities, 4. on active support to employment, 5. on secure and adaptable employment, 6. on wages, 7. on information about employment conditions and protection in case of dismissals, 8. on social dialogue and involvement of workers, 10. on healthy, safe and well-adapted work environment and data protection and 17. on the inclusion of people with disabilities;

Sustainable Development Goals: 8. on decent work and economic growth, and 10. on reduced inequality.

4. Pilot project objectives:

The pilot project aims to achieve the following goals:

Taking stock of the legal and socio-economic situation of an inclusive enterprise for people with disabilities in the European countries.

COMMISSION  
PILOT PROJECTS**CHAPTER PP 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PP 07 21 (*cont'd*)PP 07 21 12 (*cont'd*)

Determining the social impact for the disabled person and the impact on society, clients and others.

Reporting and legitimising this employment model – proving the social and economic benefits inclusive enterprises have on people with disabilities. Unlike the protected environment that is linked to the socio-medical framework, inclusive enterprises aim to integrate into the labour world, as a worker, any person with a disability. An inclusive enterprise generally benefits from public financial support. Thanks to the employment of disabled workers, savings are made on many social benefits.

Drafting and promoting a universal European legal framework for inclusive enterprises to create permanent employment that guarantees the realisation of professional projects of people with disabilities in the ordinary labour market.

The most important result that needs to be maximised through an inclusive enterprise is to improve the quality of employment and increase the employment rate of people with disabilities.

5. Pilot project actions:

The actions which will be carried out under this pilot project are the following:

1. Research of the situation and legal framework of inclusive enterprises framework in the European countries.
2. Measure the impact of inclusive enterprises on the basis of impact chains (inputs – outputs - outcomes- impact) in a comparison of countries.
  - a. Define fields of impact: on persons with disabilities, companies, society, national budget
  - b. Develop impact criteria for inclusive enterprises – objectives/target groups, concept/approach, customers, participation, diversity, resource orientation
  - c. Conduct surveys
  - d. Compare approaches / compare impact (inputs - impact)
  - e. Develop best practices model
  - f. Recommend action by the Union
3. Results of socio-economic study report on Return on Investment (ROI). An inclusive model should not be perceived as costly burden; it is a successful model that capitalises on the ROI of employing people with disabilities.
6. Partners in the pilot project: organisations representing the inclusive enterprises for people with disabilities in Europe, and organisation that work to promote access to employment for people with disabilities at European level

In the implementation phase of this pilot project, the European Confederation of Inclusive Enterprises (EuCIE) could be a good partner which provides to the Union institutions its knowledge and data since this organisation is the main representative of inclusive enterprises for people with disabilities in Europe.

**CHAPTER PP 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PP 07 21 (*cont'd*)PP 07 21 12 (*cont'd*)

EuCIE is the union of several countries to promote access to employment for people with disabilities at European level. In fact, EuCIE shares the same model of inclusive company whose organisations represent the main inclusive employers in Belgium-Wallonia (Eweta), France (UNEA), Germany (Bag-if) and Spain (CONACEE) despite the fact that they have established contacts with more European countries where inclusive enterprises exist. According to this pilot project, EuCIE mission is to represent all European inclusive enterprises at European level and its workers with disabilities, working for their recognition, promotion and protection at European level.

**7. Conclusions**

The most important positive result from the implementation of this pilot project would be to provide the basis for increasing the employment rate of people with disabilities and improving the quality of employment, using an inclusive enterprise for disabled people as a vehicle or tool to achieve it.

On the other hand, access to work on the open labour market is a right that persons with disabilities are entitled to enjoy equally to others. Inclusive employment practices can enable persons with disabilities to have economic independence and to be socially active, helping them to participate in their community. It means building an inclusive society. As a result, inclusive employment practices have been proven to benefit individuals, taxpayers and the wider community.

PP 07 21 13 Pilot project — Domestic violence - Assessment of the impact of programmes targeting aggressors as an instrument to prevent their recurrence in different European countries

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
1 50 000	37 500				

**Remarks**

Preventing and combating domestic violence against women imposes a wide range of measures aimed at ensuring their economic and social independence, fulfilling their right to equality in life and at the same time ensuring adequate protection for women victims.

In addition, the fight against domestic violence also requires special attention to the prevention of recurrence of domestic violence by the aggressor.

This pilot project aims to carry out a study in order to identify the programmes directed to the aggressors, in what circumstances they are applied, to whom they are directed, an evaluation that is made of them in their impacts in the prevention of the recurrence of violence.

The study should cover countries in the continent of Europe and should contain information on how the aggressor is followed up, whether he is flagged or monitored by the competent authorities, and what actions involve him in order to know his psychological profile and to avoid the recurrence of domestic violence, including the death of the victim or recurrence in other future victims.

COMMISSION  
PILOT PROJECTS**CHAPTER PP 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PP 07 21 (*cont'd*)PP 07 21 13 (*cont'd*)

It must also develop guidelines and tools that allow a concrete and real analysis of the measures that are or will be implemented on the social problem of domestic violence. The development of guidelines should help to define policies to be adopted in the field of prevention.

It is extremely important to characterise the programmes that different European countries have implemented to prevent the recurrence of domestic violence against women.

This pilot project will contribute to:

- having concrete data to prevent future behaviour of the aggressors;
- reflecting on different strategies to be implemented;
- having knowledge about all the models adopted in European countries on this subject.

PP 07 21 14 Pilot project — Building Europe with Local Entities (BELE)

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
800 000	200 000				

*Remarks*

This project will offer financing to facilitate the identification in local governments of a councillor responsible for disseminating not only the programmes and projects financed by the Union in that municipality but also communicating to the citizens of that municipality the general political initiatives and measures carried out by the Union through periodical declarations to local media, debates and seminars.

European values and policies need to be disseminated to the widest audience, particularly in the context of the Conference on the Future of Europe. Once an Interinstitutional Agreement opens up the Conference on the Future of Europe, this pilot project will complement the perimeter of this important event and will be adapted to this goal.

PP 07 21 15 Pilot project — Establishing an EU app for domestic violence victims

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
150 000	37 500				

**CHAPTER PP 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PP 07 21 (*cont'd*)PP 07 21 15 (*cont'd*)*Remarks*

The outbreak of the COVID-19 has shone a light on and exacerbated the pervasive and well-known problem of domestic violence across Europe. Addressing domestic violence has long been problematic due to the fear and unjustified stigma victims feel, and the subsequent lack of reporting and lack of data to inform concrete policy measures. Next to the measures that were in place before the crisis, some Member States have developed new measures to address the specific worrying situation of victims in isolation with their abusers where reaching out for help becomes even more difficult.

The pilot project aims to build on lessons learned during the crisis as regards the role technology can play as well as on the Commission's NON.NO.NEIN. campaign and have an overarching approach to reporting of domestic violence with Union added value. The pilot project would fund the development and launch of a free app, which collates information and resources for women suffering from domestic violence for example information on warning signs of abusive behaviour, how to prepare to leave a violent situation, local shelters and national helplines' contact details, legal rights and remedies etc. Crucially, women, through a discreet app, which could be disguised as something innocuous, would be connected to their national helpline through a real time chat service. An emergency button could also call for police assistance without the need to speak thereby avoiding alerting abusers in volatile situations. Furthermore, national services and NGOs supporting domestic violence victims would feed into the app's design and be supported in connectivity of the app with their existing structures. The app launch should be accompanied by a Commission awareness campaign to promote the app in order to reach as many women as possible.

This would provide a harmonised Union approach in helping to address and support victims of domestic violence. The European Parliament has previously proposed the establishment of a coherent system for collecting statistics on gender-based violence in Member States and this EU app could help to further inform national and Union policy making by having a more complete and accurate view of the domestic violence cases through anonymised data collection in full respect of the data protection legislation. This app would collect evidence of domestic abuse in order to assist victims with applying for protection against abusers and to help users better understand what is happening to them with recordings.

**CHAPTER PP 08 — AGRICULTURE AND MARITIME POLICY***Remarks*

The appropriations under this chapter are intended to finance the implementation of pilot projects of an experimental nature designed to test the feasibility of actions and their usefulness. Their total corresponds to the level of appropriations shown under Article 08 20 01.

05 08 77 17

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

While Union legislation has been developed over the years to ensure sustainable use of pesticides, there are still many gaps in its implementation at Member State level and farmers say that replacing pesticides is difficult and costly or that alternatives do not exist.

Building on the findings of the recent Commission evaluation of Directive 2009/128/EC of the European Parliament and of the Council of 21 October 2009 establishing a framework for Community action to achieve the sustainable use of pesticides (OJ L 309, 24.11.2009, p. 71) (COM(2017) 587 final), the study will assess integrated pest management (IPM) measures taken in each of the Member States, including farmland managed under IPM, and possibly classify them by type of crops. It will collect evidence of pesticide use reduction and gather information on the practices applied. The project will develop a toolbox to enable farmers and farmers' advisers to achieve the policy aim of significantly reducing pesticide dependency. The toolbox should describe, for a large number of crops, the protocols to be applied for IPM, including the alternatives to chemical pesticides. The study will identify and propose effective approaches, beginning with the modification of farming practices, using rotation wherever possible, followed by the introduction, where appropriate, of resilient and resistant crop varieties and the use of beneficial insects and alternative pesticides, etc. Alternatives should be tailored to local conditions.

The project will take into account inter alia the experiences gained from work done by the International Organisation for Biological Control (IOBC), the International Biocontrol Manufacturer Association (IBMA) and organisations working with farmers on different agronomic approaches and IPM.

COMMISSION  
PILOT PROJECTS**CHAPTER PP 08 — AGRICULTURE AND MARITIME POLICY** (*cont'd*)PP 08 19 (*cont'd*)PP 08 19 01 (*cont'd*)

The study will contain an analysis of how well common agricultural policy (CAP) tools are promoting IPM among farmers. It will also propose how to scale up practices throughout Europe, with the help of the post-2020 CAP instruments (e.g. farm advisory services informing farmers how to apply IPM) and the CAP green architecture to encourage farmers to apply the principles of IPM.

The study will also investigate the obstacles (real or perceived) seen by farmers and experts that limit dissemination and uptake of IPM in the field.

In accordance with Article 14 of Directive 2009/128/EC, Member States are to take all necessary measures to promote low pesticide-input pest management, giving wherever possible priority to non-chemical methods, so that professional users of pesticides switch to practices and products with the lowest risk to human health and the environment among those available for the same pest problem.

The Commission's evaluation of Directive 2009/128/EC states that IPM is a cornerstone of that Directive, and it is therefore of particular concern that Member States have not yet set clear targets and ensured their implementation, including for the more widespread use of land management techniques such as crop rotation.

It also notes that Member States need to develop clearly defined criteria so that they can assess systematically whether the eight principles of IPM are implemented, and take appropriate enforcement measures if this is not the case. Such tools could confirm that the intended outcome of IPM as specified in the Directive, a reduction of the dependency on pesticide use, is being achieved.

Both the Agriculture Council (on 6 November 2017) and the European Parliament (on 13 November 2017) have discussed the findings in the Commission's report and confirmed their commitment to ensuring deeper and meaningful implementation in the future.

This project helps farmers and Member States to begin applying IPM consistently, and reduce farmers' dependence on pesticides.

The pilot project generates results that can be incorporated into the research project 'Stepping up integrated pest management' and can contribute to gathering information on how IPM is currently applied on the ground, and is useful for Member States in designing their CAP plans.

05 08 77 18

---

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

This pilot project establishes an operational programme that will create added value and be adapted to livestock sectors, particularly the milk and beef sectors, in order to deal with issues concerning local and family agriculture.

As with existing operational programmes in the fruit and vegetable sector, it aims to improve the structuring, competitiveness and resilience of these sectors by guaranteeing farmers a fair, stable income irrespective of the distribution of production, rising production costs and price fluctuations.

The pilot project is needed in order to counter the alarming reduction in the number of farms being handed on, which is putting local and family agriculture in jeopardy. Such small-scale farms have low profitability, which makes banks unwilling to support projects for handing on farms because of a lack of financial viability.

The pilot project has three main objectives:

*Objective 1 — Structuring of the sector:*

- increasing producers' level of organisation and strengthening their position in the interprofessional chain by financing projects to improve production planning,
- improving the quality, commercial exploitation and promotion of products through structured dialogue with those downstream of the sector,
- supporting the modernisation of businesses, fast product adaptation, innovation in production methods and crisis prevention,
- supporting environmental protection measures and environmentally-friendly production methods (organic farming).

*Objective 2 — Income stabilisation*

Establishing a creative sectoral approach through the introduction of two tools available under the common agricultural policy:

- a contractual mechanism for sharing added value, and
- the development of a financial stabilisation instrument for producer income.

The aim is to enable producers to overcome price volatility and be assured a fair, stable income which will boost the sustainability of their undertakings.

COMMISSION  
PILOT PROJECTS**CHAPTER PP 08 — AGRICULTURE AND MARITIME POLICY** (*cont'd*)PP 08 19 (*cont'd*)PP 08 19 02 (*cont'd*)*Objective 3 — Creation of a fund for future financing*

Some of the added value created at sector level can be reinvested — alongside the public support received — in establishing an innovative fund to guarantee the long-term financing necessary for setting up or handing on farms.

*— The approach adopted*

The approach taken by the pilot project is to improve coherence between various European measures by establishing a sectoral operational programme. It follows the approach of more result-orientated public policies.

The project strengthens the cohesion between the upstream and downstream parts of the sector and promotes new synergies through structured dialogue between all components of the sector by enhancing production value by means of a list of specifications for optimising added value when products are placed on the market, the management of price volatility and guaranteeing supplies through generational renewal.

The sustainability of farms will no longer rely only on individual producers but on a common approach that will help create positive market momentum. The pilot project therefore generates momentum, beyond the milk and meat sectors, which can be transferred to other local sectors as part of a region's collective economic development strategy.

It acts as a driver for regional development and for meeting challenges relating to the economy (breeder revenues and increased value of local products), society (job creation, making family farms sustainable), the environment (production conditions), land-use planning (handing on farms, territorial development) and tourism (short supply chains).

*— Assessment*

An assessment will be carried out after two years to determine:

- (1) the added value and effectiveness of the sectoral operational programme in terms of the objectives;
- (2) the interprofessional dynamics at work and their possible extension to other agri-food sectors in the area;
- (3) the benefit of experience gained in coordinating CAP tools within an operational programme and the added value derived by small family farms from land facing similar problems;
- (4) the relevance of sustaining the pilot project by means of a preparatory action with the aim of adopting a similar tool under the CAP.

**CHAPTER PP 09 — ENVIRONMENT AND CLIMATE ACTION***Remarks*

The appropriations under this chapter are intended to finance the implementation of pilot projects of an experimental nature designed to test the feasibility of actions and their usefulness. Their total corresponds to the level of appropriations shown under Article 09 20 01.

*Legal basis*

Point (a) of Article 58(2) of Regulation (EU, Euratom) 2018/1046 of the European Parliament and of the Council of 18 July 2018 on the financial rules applicable to the general budget of the Union, amending Regulations (EU) No 1296/2013, (EU) No 1301/2013, (EU) No 1303/2013, (EU) No 1304/2013, (EU) No 1309/2013, (EU) No 1316/2013, (EU) No 223/2014, (EU) No 283/2014, and Decision No 541/2014/EU and repealing Regulation (EU, Euratom) No 966/2012 (OJ L 193, 30.7.2018, p. 1).

*Remarks**Former item*

07 02 77 56

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

This pilot project assesses technical solutions for opening a migration route for sturgeon to pass the Iron Gate hydropower dams I and II on the Danube River on the border between Romania and Serbia. Considering the size of the dams (the largest on the River Danube), the size of the fish (up to 7 metres in length) and the surrounding rocky terrain, this is an extraordinary engineering challenge requiring a solution with a high degree of innovation, tailored to local circumstances.

Restoring sturgeon migration aids is highlighted as a flagship project under the Sturgeon Strategy of the International Commission for the Protection of the Danube River (ICPDR) as well as in the Action Plan of the EU Strategy for the Danube Region with a view to improving the conservation status of the Danube sturgeon. The flagship project also contributes to the implementation of the pan-European Action Plan for the Conservation of the Sturgeon under the Bern Convention, to which the Union is a party.

COMMISSION  
PILOT PROJECTS**CHAPTER PP 09 — ENVIRONMENT AND CLIMATE ACTION** (*cont'd*)PP 09 20 (*cont'd*)PP 09 20 01 (*cont'd*)

This pilot project prepares a sound and comprehensive technical feasibility study for facilitating sturgeon migration including:

1) concept or pre-design for potential technical options for upstream and downstream fish passage restoration, including comparison of advantages and disadvantages (restrictions), cost estimates, risks (technical, financial) and identification of the next steps required for an outline design, including structural design, technical components design and operational concept;

2) hydraulic modelling;

3) concept for an implementation strategy (the sequence of structure implementation, e.g. a step-by-step process following a learning-by-doing approach, i.e. an adaptive fishway design approach);

4) identification of feasible management alternatives, in particular for downstream fish protection (e.g. turbine management, trap and transport) – both short-term and long-term;

5) field surveys necessary to fill knowledge gaps not covered by ongoing studies (non-existing data or outdated data);

6) concept for fishway evaluation and monitoring;

7) update of funding concept;

8) review of technical concepts by peer reviewers and fishway experts.

These components of the technical Feasibility Study will cost some EUR 2 000 000. The ICPDR as well as the competent national authorities of Romania and Serbia will be closely involved in the implementation of the study.

The activities to be implemented could be redesigned to avoid possible overlaps with ongoing work.

Funding for this project is currently not provided for in any Union programme.

There is no ready-to-apply design for this kind of fish pass and the innovative solution funded under this project will thus be a paradigm for designing comparable fish passes on other, large European rivers. Similar challenges to that of making Iron Gate I and II passable for large fish (e.g. large scale, high discharge, variable water levels in the reservoir) are also encountered around the Baltic Sea, where large dams on the Vistula (Poland), the Neman (Lithuania) and the Daugava (Latvia) rivers hinder fish migration and sturgeon reintroduction programmes. Other examples are the Gabčíkovo dam as well as larger dams on the Tisza and Drava in the Danube basin, on the Evros in Bulgaria and Greece, and rivers on the Iberian Peninsula, for example on the Guadalquivir, a former sturgeon river. Finding fish migration solutions for all these rivers would be an important contribution to implementation of Directive 2000/60/EC of the European Parliament and of the Council of 23 October 2000 establishing a framework for Community action in the field of water policy (OJ L 327, 22.12.2000, p. 1).

**CHAPTER PP 09 — ENVIRONMENT AND CLIMATE ACTION** (*cont'd*)PP 09 20 (*cont'd*)PP 09 20 01 (*cont'd*)

Passages for sturgeon on large dams only exist in Russia on the Volga and Kuban rivers and in the United States on the Connecticut and Columbia rivers. Experience gathered with these facilities should be taken into account, but will not answer all questions. One of the best known and most successful examples of fish passes for sturgeon in Europe is at Geesthacht in Germany, but there the weir is only 4,5 m high, whereas Iron Gate I is 60 m high.

In addition, this pilot project also involves Serbian water management stakeholders, thereby helping them learn how to comply with the environmental acquis.

PP 09 20 02 Pilot project — Improving guidance and knowledge sharing between land managers, conservationists and local communities to preserve cultural heritage landscapes under and outside Natura 2000

*Remarks*

*Former item*

07 02 77 59

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

Landcare initiatives are characterised by close cooperation between conservationists, farmers and local communities. Their aim is to preserve the diversity of European landscapes and their biodiversity, and to provide support for the further sustainable development of rural economies. Cooperative nature conservation efforts on the basis of landcare principles currently exist in six Member States (France, Germany, Luxembourg, the Netherlands, Romania and Spain) and a start is currently being made on similar approaches in other Member States (e.g. Lithuania and Czechia).

Actively improving how Union nature directives are implemented provides the setting within which landcare initiatives are taking place. The project promotes the relevant CAP measures, including measures for farmland birds and Natura 2000 site management, and works to include all relevant measures and goals in the CAP strategic plans and the prioritised action frameworks. In addition, implementation of Directive 2000/60/EC of the European Parliament and of the Council of 23 October 2000 establishing a framework for Community action in the field of water policy (OJ L 327, 22.12.2000, p. 1) is considered an important factor for the project and for implementation of Union nature legislation.

To achieve these goals in the regions on the ground, the participating organisations are carrying out a broad range of activities in support of various stakeholders in relevant rural areas in order to secure conservation measures from a structural perspective.

COMMISSION  
PILOT PROJECTS**CHAPTER PP 09 — ENVIRONMENT AND CLIMATE ACTION** (*cont'd*)PP 09 20 (*cont'd*)PP 09 20 02 (*cont'd*)

The main working areas for implementation of Union nature legislation involve:

- offering additional sources of income for land users through landcare measures, e.g. agri-environmental measures that preserve landscapes and biodiversity,
- marketing high quality regional products (e.g. from Natura 2000 sites),
- supporting rural tourism,
- creating jobs, and
- fostering regional identities.

Experience so far shows that the landcare approach improves implementation of Union nature directives by enhancing local biodiversity, preserving cultural landscapes and improving quality of life for people in rural areas. In line with the Action Plan for nature, people and the economy, these developments promote smarter participatory approaches and strengthen full involvement of landowners and users.

There should therefore be efforts to intensify contact and exchange of experiences within the European landcare initiatives and organisations. In recent years, a start has been made on pooling experience among various European landcare initiatives, which have benefited from those contacts. During mutual visits and workshops, new approaches for better implementation of Union environment/nature and farming policies have been developed; but today it is essential to strengthen this cooperation at European level so as to boost the long-term benefit for rural development and nature.

This project involves both existing and new partners so that they learn from defined key factors and practical experience. They are able to participate in workshops and at a European conference. The project will therefore ultimately help foster European partnerships and strengthen the Union. Accordingly, five workshops with successful partners will be run in order to define key factors for cooperative nature conservation. The key factors will be summarised in a multilingual publication and presented at a final European conference on 'Landcare Europe – cooperative nature conservation to benefit man and nature'. New landcare movements can use this to improve their work on the ground.

The central goal of the project is to promote better implementation of Union directives, such as Council Directive 92/43/EEC of 21 May 1992 on the conservation of natural habitats and of wild fauna and flora (OJ L 206, 22.7.1992, p. 7) and Council Directive 79/409/EEC of 2 April 1979 on the conservation of wild birds (OJ L 103, 25.4.1979, p. 1), and the impact of the common agricultural policy on cultural landscapes in various Member States. Feedback and suggestions will be summarised and delivered to the Commission as well as to the respective ministries in the Member States. This will also foster the transfer of knowledge and practical experiences from one country to another and the development of suitable programmes if necessary.

In addition to implementation of Union nature conservation directives, further topics will be discussed that are not directly related to everyday landcare work in Europe, with the aim of finding solutions and learning from tried-and-tested practices:

- questions of coexistence with large carnivores in rural areas;

**CHAPTER PP 09 — ENVIRONMENT AND CLIMATE ACTION** (*cont'd*)PP 09 20 (*cont'd*)PP 09 20 02 (*cont'd*)

- lessons learnt and conclusions for the restoration of habitats for farmland birds and participation in the new contract relating to farmland birds;
- on the basis of experience gained and suggestions emerging from landcare initiatives in Europe, the pilot project will contribute to updating guidance on Natura 2000 and farmland;
- conclusions will also feed in to action to promote several deliverables under the Action Plan for nature;
- experiences and lessons learnt can also feed in to biogeographical networking events, etc.

The special value of landcare initiative collaboration is that, in the process, a bridge is built between nature conservation, land users and local communities. Therefore, Union policy targets can be better achieved and a pro-European atmosphere can be promoted in rural areas.

**PP 09 21 2021**

PP 09 21 01 Pilot project — Integrating AI into the circular economy

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
60 000	15 000				

*Remarks*

Europe is well placed to benefit from the potential of artificial intelligence (AI) as a user, as a creator, and as a producer. It has excellent research centres, innovative start-ups, a world-leading position in robotics, and competitive manufacturing and services sectors. Europe produces more than a quarter of all industrial and professional service robots, and plays an important role in developing and using software applications for companies and organisations, as well as applications to support e-government.

Europe has developed a strong computing infrastructure, and it holds large volumes of public and industrial data. However, although the European digital solutions can advance the circular economy, support the decarbonisation of all sectors and reduce the environmental and social footprint of products placed on the Union market, the sector still needs to undergo its own green transformation. The significant environmental footprint of the ICT sector is estimated at 5-9% of the world's total electricity use, and more than 2% of all emissions. These figures will only increase in the coming years.

Europe needs energy-efficient data centres, telecommunications and ICT-related industries that use renewable energy sources, reuse waste energy in every step of their activity, are corporate socially responsible and committed to the community where they execute their activity. All AI-related equipment should be designed, bought, consumed and

COMMISSION  
PILOT PROJECTS**CHAPTER PP 09 — ENVIRONMENT AND CLIMATE ACTION** (*cont'd*)PP 09 21 (*cont'd*)PP 09 21 01 (*cont'd*)

recycled under energy efficient principles and fully circular processes -long-lasting designs, proper maintenance, building with recycled material and easy dismantling and recycling.

The push to advance AI leads companies towards competing to build stronger models that deliver better performance. However, this market race poses a great threat to the environment, as the larger the model, the more energy it consumes.

Some studies indicate that the computations required for deep-learning research - a branch of AI that configures computers to perform tasks through experience- have increased 300 000 times from 2012 to 2018. Testing AI models is energy-intensive as it is very "data hungry" - the more data it consumes, the more energy is required. The fundamentals of AI testing also involve taking large matrices and multiplying them to make them larger and more skilled. As they grow, the model becomes more accurate, as the same time that the more energy is wasted since more computations are needed to execute the training.

In order to see all-sized AI-related European corporations thrive as they contribute to reach the Union climate neutral objectives, and become socially responsible, the pilot project will provide guidance for AI-related industries to access the technology, the systems and the best practices that allow them to incorporate all their industry processes into the circular economy.

PP 09 21 02 Pilot project — Best Belt - more power for the Green Belt

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
1 500 000	375 000				

*Remarks*

Where once the iron curtain separated countries from each another, nature now connects them in a unique continuity of natural habitats which span the length of the European continent.

The European Green Belt runs along or through 16 Member States, five candidate countries, one potential candidate and two third countries. This is Europe's longest green network, a flagship of green infrastructure, which must be protected and conserved for future generations.

Building on the success of the voluntary scheme for Biodiversity and Ecosystem Services in Territories of European overseas (BEST) initiative, a similar scheme should be implemented for such services along the European Green Belt for young volunteers or jobseekers.

The project is therefore to be called BEST BELT (Biodiversity and Ecosystem Services and Training along the European Green Belt)

**CHAPTER PP 09 — ENVIRONMENT AND CLIMATE ACTION** (*cont'd*)PP 09 21 (*cont'd*)PP 09 21 02 (*cont'd*)

Actions could be based on:

(1) Training and education of young volunteers and jobseekers for biodiversity and ecosystem services:

Volunteers and jobseekers from all over Europe and participating countries should have the possibility to apply via a platform offered by the Commission to different projects along the European Green Belt. These projects can be facilitated by NGOs, universities, companies, state or regional authorities. Before diving into fieldwork, the volunteers and jobseekers should receive a training on biodiversity and ecosystem services facilitated and they should be prepared for the work they are going to do on site. Also, units for working in a multicultural environment as well as harassment courses should be part of the training before the field work. This would increase their knowledge and networks.

(2) Ecosystem and Biodiversity services in combination with climate change adaptation and mitigation:

The work facilitated in the area of the European Green Belt should be used to explore the synergies of providing ecosystem and biodiversity together with climate change adaptation and mitigation measures. Activities for designation and management of protected areas should be carried out in the field. Together with experts, specific goals should be set for each project, identifying the work needed on the ground.

(3) Capacity building and outreach activities and involving organisations in the Region:

This pilot project should also involve local communities and different actors in the field. The works happening on the ground should be explained to the communities and also local authorities should be trained on the links between interconnected environmental issues (biodiversity, climate change and land degradation) and related processes.

Best practice examples should be shared along projects on the belt and each year a competition between the projects for innovative ideas and work shall be held.

For further outreach also Member States, NGOs, regional organisations and international organisations should be involved in a multi stakeholder approach. A blueprint could be the Green List approach developed by the IUCN.

(4) Setting up of a database:

The participating organisations should contribute to a European Green Belt wide open source database, setting out different parameters from biodiversity to climate change relevant information. This database could help monitor the situation on the ground and provide valuable information for scientists and researchers from different areas.

(5) Raising awareness for the importance of biodiversity:

By connecting activities for ecosystem preservation and restoration with information given to tourists travelling the Iron Curtain Trail, education on environmental issues can be spread easily and in a low-threshold fashion. Different levels of knowledge, adapted to families, for example, can make the Iron Curtain Trail more attractive, thus fostering sustainable tourism.

COMMISSION  
PILOT PROJECTS**CHAPTER PP 09 — ENVIRONMENT AND CLIMATE ACTION** (*cont'd*)PP 09 21 (*cont'd*)

PP 09 21 03 Pilot project — Assessing options for use of hydrogen in shipping

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
180 000	45 000				

*Remarks*

For transport modes that are most difficult to decarbonise, such as shipping, different options are being explored. Maersk for example, the biggest cargo shipper worldwide, is examining for its fleet propulsion with alcohols as well as with ammonia and also with biomethane. Other carriers are collecting first experiences with hydrogen/fuel cell propulsion. A multitude of questions about hydrogen in shipping is open, inter alia:

1. How to guarantee that the hydrogen is "green" (won with electrolysis of water with renewable energy), not "blue", and that it is produced from surplus energy, hence not taking away renewable energy from the grid that would be needed elsewhere?

2. In which use cases is hydrogen an alternative to battery-electric shipping? And when using hydrogen as a fuel, in which case is the propulsion with fuel cell technology the smartest option to use, in which case it is more efficient to use hydrogen-generated ammonia or alcohols? Both questions can be addressed in a pilot project that assesses the options for production and utilisation of hydrogen in a coastal area with shipping infrastructure. Harbours are the natural hub for hydrogen, since they are the infrastructure nodes for the connection to offshore wind farms; delivery and storage of hydrogen from overseas; fuelling of different transport carriers and injection into pipelines for the transport inland.

The questions can be addressed in a combined field study with the following tools:

1. cost-benefit analysis for different scenarios of hydrogen production for shipping: onshore vs. offshore wind with the offshore scenario differentiating between onshore vs. offshore electrolysis (and hence connection to the coast via electricity line vs. hydrogen pipeline)

2. cost-benefit analysis for different uses of hydrogen for shipping in a closed production cycle within the harbour area: fuel cell propulsion vs. methanol/ethanol vs. ammonia

The analysis should also include an assessment of the respective legal and licensing obstacles and costs.

**CHAPTER PP 10 — MIGRATION***Remarks*

The appropriations under this chapter are intended to finance the implementation of pilot projects of an experimental nature designed to test the feasibility of actions and their usefulness. Their total corresponds to the level of appropriations shown under Article 10 20 01.

PP 14 21 01 Pilot project - European Observatory on the fight against Impunity

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
175 000	43 750				

*Remarks*

The pilot project aims at setting up a European Observatory on the fight against Impunity (EOI) built on the necessity to promote the fight against impunity for serious violations of human rights and crimes against humanity having the principle of accountability as a central pillar of the architecture of international justice.

**CHAPTER PP 14 — EXTERNAL ACTION** (*cont'd*)PP 14 21 (*cont'd*)PP 14 21 01 (*cont'd*)

The objective of the EOI should be to provide a Union-wide approach aimed at ensuring a proper involvement of the parliamentary dimension and scrutiny both at Union and national levels.

The pilot project should be based on the UN Basic Principles and Guidelines on the Right to a Remedy and Reparation for Victims of Gross Violations of International Human Rights Law and Serious Violations of International Humanitarian Law. To fill the gap of impunity, the pilot project would serve the purpose of addressing the most sensitive issues in the international human rights law context (e.g. extrajudicial killings and enforced disappearances) as well as the needs of the most vulnerable groups (e.g. children, youth, women, minorities and internally displaced persons). This includes shaping solutions for eliminating possible obstacles for victims to access justice and to promote international justice systems, including transitional justice where accountability is most at risk.

Putting in place a permanent Union structure for monitoring and delivering activities in this field could really improve the fight against impunity and the principle of accountability.

The main activities of the EOI would include:

(1) raising awareness on unreported situations and human rights violations, notably as a concrete follow-up to European Parliament's urgency resolutions, identifying and supporting relevant bodies and actors on the ground and coordinating actions in close cooperation with all relevant Union and international bodies and mechanisms; establishing a platform to amplify the voice of the victims and the Union's response in that respect.

(2) monitoring widespread impunity for human rights violations and attacks on the role of the International Criminal Court (ICC), considering the joint communication to the European Parliament and the Council on the EU action plan on Human Rights and Democracy 2020 -2024;

(3) supporting the work of the European Genocide Network and create synergies in order to ensure a parliamentary dimension via a close cooperation between national authorities (parliaments), the European Parliament, parliamentary assemblies in third countries and civil society organisations; giving support to the judiciary to investigate and prosecute international crimes and assessing the common efforts of the Member States and the Union in enforcing criminal law and jurisprudence notably by the adoption of relevant legislation and building necessary networks with official and non-official representatives at national and European levels;

(4) advocating in favour of multidisciplinary accountability systems (including the ICC) and reparation processes in challenging environments, bridging the gap between mechanisms and victims (also called "survivors") by ensuring a victim-centred approach;

(5) enhancing the profile and visibility of the Union engagement on the fight against impunity through an annual high-level event (eg. European Days to Combat Impunity), targeted campaigns and the publication of reports, and creating new partnerships and networks worldwide with a potential multiplying effect at multilateral, regional and local level;

(6) contributing to implement the 2030 UN Agenda for Sustainable Development (goal 16) and its objective of designing better accountability mechanisms, providing access to justice for all and promoting peaceful and inclusive societies.

COMMISSION  
PILOT PROJECTS**CHAPTER PP 15 — PRE-ACCESSION ASSISTANCE***Remarks*

## COMMISSION PREPARATORY ACTIONS

**CHAPTER PA 20 — ADMINISTRATIVE EXPENDITURE OF THE EUROPEAN COMMISSION** *(cont'd)*[illegible]

## TITLE PA

### PREPARATORY ACTIONS

#### CHAPTER PA 01 — RESEARCH AND INNOVATION

##### *Remarks*

The appropriations under this chapter are intended to finance the implementation of preparatory actions in the field of application of the TFEU and the Euratom Treaty, designed to prepare proposals with a view to the adoption of future actions. Their total corresponds to the level of appropriations shown under Article 01 20 02.

##### *Legal basis*

Point (b) of Article 58(2) of Regulation (EU, Euratom) 2018/1046 of the European Parliament and of the Council of 18 July 2018 on the financial rules applicable to the general budget of the Union, amending Regulations (EU) No 1296/2013, (EU) No 1301/2013, (EU) No 1303/2013, (EU) No 1304/2013, (EU) No 1309/2013, (EU) No 1316/2013, (EU) No 223/2014, (EU) No 283/2014, and Decision No 541/2014/EU and repealing Regulation (EU, Euratom) No 966/2012 (OJ L 193, 30.7.2018, p. 1).

#### PA 01 16 2016

02 04 77 07

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

The preparatory action supports a series of preparatory activities which are essential for a successful start to the operational programme from 2021 onwards, such as:

- studies of industrial systems for the Govsatcom Hub, the new ground infrastructure for seamlessly connecting users and providers;
- developing and prototyping of Govsatcom Hub and service elements;
- establishing and demonstrating various civilian application scenarios in crisis management, civil protection, surveillance and key infrastructure management;
- other preparatory activities, including an analysis of Govsatcom supply and demand beyond the mid-2020s.

09 04 77 23

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

This preparatory action follows up on a previous pilot project. It directly encourages and supports the adoption of the relevant accessibility requirements of European Standard EN 301 549 v1.1.2 by awarding grants to firms, associations or not-for-profit organisations which incorporate settings that meet the requirements of the standard as the default option for their authoring tools or platforms. Priority is given to open-source or free-to-use tools and platforms. The grants will also be available to Member State authorities that develop internal web-authoring tools or platforms for public sector websites and can also be used for the testing of services.

09 04 77 27

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action..

Europe's capacity to compete in the global market will depend on its capacity to convert scientific and technological knowledge into innovative products and services. Furthermore, the appeal of Europe will strongly depend on how its regions can conceive an inspiring, motivating and future-oriented environment for its citizens. The transformation of society by digital technologies is creating opportunities for Europe that a joint effort between the arts and technology could help fully exploit. In the digital world, Europe can stake a claim on leadership in ways of living and in those components of the digital revolution that most depend on creativity, i.e. broadly in 'content'. A committed partnership between the arts and technology can make this claim a reality in areas as diverse as social inclusion, new digital media (augmented reality, new media such as social media, etc.), urban development (smart cities, Internet of Things, etc.) or the future of mobility.

Enhanced collaboration between the arts and technology would not only stimulate innovation and thereby enhance the competitiveness of Europe; it would also help unleash creativity in society and in European regions. Multiple presidency conclusions on 'crossovers from culture to businesses' have therefore invited the Union institutions to consider enhancing collaboration between the arts and technology for a holistic exploration of opportunities that overcomes the traditional boundaries of sectors, disciplines or the culture-engineering divide.

The Commission has reacted by launching the STARTS initiative - innovation at the nexus of science, technology and the arts. This is a highly pertinent step focused on promoting innovation in industry, with the arts as the catalyst for unconventional thinking and exploration. The Commission is fostering innovation rooted in such collaboration by introducing lighthouse projects that will put forward the crucial role of the arts in tackling challenges in the context of the digital single market.

This preparatory action builds on the work carried out by the pilot projects preceding it and explore how to best introduce the programme across the board and have STARTS ideas extended from pure industrial settings to, for instance, areas of regional and urban development where the digital also plays a prominent role. It aims to develop a coherent horizontal framework for 'art-technology' thinking in Europe across sectors and disciplines as well as across pertinent activities of European institutions (including framework programmes structural funds and education programmes).

COMMISSION  
PREPARATORY ACTIONS**CHAPTER PA 01 — RESEARCH AND INNOVATION** (*cont'd*)PA 01 20 (*cont'd*)PA 01 20 01 (*cont'd*)

The preparatory action aims to create a network of key players from the art world (art institutions and artists engaging with technology), digital media relying on the arts for media content, industry that considers art as a means for exploration of possible applications, and regions and cities willing to create infrastructure to host collaborations of artists and technologists as a seed for urban development. It supports artistic explorations of technology, e.g. by supporting technologies for performances and installations, and will stimulate the most promising pathways by seed-funding ideas for art-technology collaborations. In particular, it fosters practical mechanisms that help turn ideas emerging from such collaborative explorations into tangible assets for European society and industry.

*Remarks***INTRODUCTION**

Evidence-informed policymaking (EIPM) has become more important than ever due the ever-increasing complexity of economic, social and environmental challenges we are facing. The current policy challenges are characterised by a mixture of complexity, uncertainty and ambiguity. These challenges ultimately have an impact on citizens at local and regional level, which is why EIPM matters even more at those levels of governance. Moreover, in the current climate of populism, post truth and fake news, public scrutiny and the accountability of science are crucial aspects to enhance the democratic processes.

The pilot project 'Science meets Parliaments/Science meets Regions' addressed these challenges mainly through the organisation of events on various policy topics and the financing of studies in support of this event, as well as some pilot training course for national, regional and local policymakers.

As the pilot phase is ending, it is clear that there is still a real need for this tool, especially at regional and local level. It is also obvious that the next steps should work towards a clearer focus and structural impact across regions and cities in Europe, beyond the pioneering work in the pilot project.

This will be the main objective of the preparatory action, which will primarily address Commission policy priorities topics in line with the Commission policy priorities:

- European Green Deal,
- digital transition,

**CHAPTER PA 01 — RESEARCH AND INNOVATION** (*cont'd*)PA 01 21 (*cont'd*)PA 01 21 01 (*cont'd*)

- promoting an economy that works for people,
- enhancing European democracy,
- promoting the European way of life,

The regional and local actors across Europe are actively involved in reaching these policy objectives in particular:

- contributing to make Europe the first climate-neutral continent by 2050, while boosting the competitiveness of industry and ensuring a fair transition for the territories and workers affected,
- implementing the social pillar and supporting SMEs investment and financing,
- enhancing the integration of migrants at local level and fighting poverty,
- increasing investment in technologies such as block chain and artificial intelligence,
- giving a stronger role to European citizens in decision-making in order to build trust in the institutions/public sectors as well as in the democratic processes,

The preparatory action will also aim at filling the gap in the Union instruments dealing with EIPM, which target mainly the national authorities (governments) and do not foresee any networking initiative at European level to share practices, methods and instruments.

**OBJECTIVES**

Building on the successful results achieved during the pilot phase, the preparatory action aims at strengthening local science for policy ecosystems through the following objectives:

- (1) building awareness and mutual understanding at regional, interregional and national level on policy-relevant questions and the kind of evidence needed to answer them;
- (2) supporting regional and local decision-makers and policymakers to develop skills to understand, obtain, assess and utilize targeted, reliable high-quality evidence as well as engaging with stakeholder;
- (3) creating a community of practitioners across Europe that share experiences and knowledge in order to enhance the local ecosystem for EIPM.

**ACTIONS OR TYPES OF FINANCIAL INTERVENTIONS****1. Country-based component**

In cooperation with the Committee of the Regions, a 'recommendations guide' of implementation of the post 2020 policies will be elaborated. Then, this strand will finance 10 innovation camps at regional and municipal level to address key challenges framed in one of the abovementioned Commission policy priorities. The project proposals have to be submitted by regions or cities in partnership with local stakeholders (universities, development agencies, etc.). Furthermore, the project should target structural impact, and preferably be embedded in a process at national or regional level, with the aim of putting in place policies, programmes or strategies.

COMMISSION  
PREPARATORY ACTIONS**CHAPTER PA 01 — RESEARCH AND INNOVATION** (*cont'd*)PA 01 21 (*cont'd*)PA 01 21 01 (*cont'd*)

This component will also support pairing schemes between policymakers and scientists, in order to build policy makers' capacity to use research in their work. Through creating these connections, the programme aims to facilitate a long term dialogue between the two communities, to make research more accessible, and to increase policy makers' use of evidence in their work.

## 2. Multi-countries component

This strand will support initiatives, such as conferences or workshops, which involve at least 2 regions or cities, possibly based on existing partnerships. The topic of the initiative should be in line with one of the above-mentioned Commission policy priorities. This component will allow regions and cities to share experiences with others facing similar challenges, or having complementary expertise and capacity.

## 3. Community-building component

This component will support the creation of a European community of practitioners involving the participants in the preparatory action and in the previous pilot project. It will finance actions such as:

- training courses for policy makers on EIPM and citizen engagement;
- training courses for national, regional and local schools of government of academies (training the trainers);
- a study on the practices and tools to strengthen the capacity to create and use evidence at regional and local level across Europe; aiming to provide a broad overview of EIPM at subnational level;
- a platform to share best practices and examples of EIPM at subnational level;
- an annual conference organised jointly with the European Parliament and the Committee of the Regions.

PA 01 21 02 Preparatory action — Increasing access to educational tools in areas and communities with low connectivity or access to technologies

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
2 400 000	600 000				

*Remarks*

The aim of this preparatory action is to develop a strategy designed to increase access to education tools in the European areas and communities that mostly need such support. Remote areas like mountain areas, rural areas, islands or deltas are particularly significant for this preparatory action. The preparatory action will consist in identifying the best available solutions and practices in the field and will lead to implementing and testing some of the most suitable solutions on a large scale or for a larger number of beneficiaries.

**CHAPTER PA 02 — EUROPEAN STRATEGIC INVESTMENTS***Remarks*

The appropriations under this chapter are intended to finance the implementation of preparatory actions in the field of application of the TFEU and the Euratom Treaty, designed to prepare proposals with a view to the adoption of future actions. Their total corresponds to the level of appropriations shown under Article 02 20 02.

*Legal basis*

Point (b) of Article 58(2) of Regulation (EU, Euratom) 2018/1046 of the European Parliament and of the Council of 18 July 2018 on the financial rules applicable to the general budget of the Union, amending Regulations (EU) No 1296/2013, (EU) No 1301/2013, (EU) No 1303/2013, (EU) No 1304/2013, (EU) No 1309/2013, (EU) No 1316/2013, (EU) No 223/2014, (EU) No 283/2014, and Decision No 541/2014/EU and repealing Regulation (EU, Euratom) No 966/2012 (OJ L 193, 30.7.2018, p. 1).

COMMISSION  
PREPARATORY ACTIONS**CHAPTER PA 02 — EUROPEAN STRATEGIC INVESTMENTS** (*cont'd*)PA 02 19 (*cont'd*)PA 02 19 01 (*cont'd*)

This preparatory action aims to develop a user-friendly tool (online/app) enabling motorists (i.e. both professional and non-professional drivers) to be fully informed about urban and regional access regulation schemes.

The information includes: geographical scope, access conditions (vehicle type, time (including temporary restrictions with links to real-time information sources, etc.), tariffs (prices and validity), payment options, enforcement policies, penalties and appeal procedures etc., both for a country's own nationals and foreign nationals, with the possibility of information pushes at users' request.

Consideration may also be given to including accompanying measures such as park-and-ride facilities, freight consolidation etc. could be considered.

The tool is primarily targeted at private users (in parallel with existing platforms with information on passengers' rights), but it could also include specific information for professional users (e.g. road haulage companies) and links to navigation and routing platforms.

The second year of implementation of the preparatory action focuses on extending it to enable road users to be fully informed about urban and regional access schemes by working on the enablers needed, i.e. standardisation and data provision for the integration of information into navigation tools.

**PA 02 20 2020**

PA 02 20 01 Preparatory action — Teaching island authorities and communities how to tender for renewable energy projects

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
p.m.	500 000	2 000 000	500 000		

*Remarks**Former item*

32 02 77 16

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action..

Under this preparatory action, island authorities and communities are taught how to write open tenders themselves. The open tenders are then for private clean-energy companies to competitively respond to with proposals, in particular in connection with solar, wind energy, storage (not only batteries) and district heating or cooling.

**CHAPTER PA 02 — EUROPEAN STRATEGIC INVESTMENTS** (*cont'd*)PA 02 20 (*cont'd*)PA 02 20 01 (*cont'd*)

Rapidly falling renewable energy costs and increasing numbers of clean-energy providers mean that Union islands should now be transitioning to clean energy, provided that their authorities know how to write, evaluate and award tenders. For islands with low administrative budgets, this process is risky, as it makes highly technical, financial and legal demands. This preparatory action will provide islands with off-the-shelf templates for tendering and will be developed throughout its duration by taking island representatives to visit renewable energy experts for islands and sites around Europe, where profitable clean-energy projects are already being delivered, where possible involving renewable energy communities, in order to share first-hand experiences and learn about the latest project life-cycle budgeting for islands. These real-life training classes and site visits will then be distilled into free, open-access online training courses at the end of the preparatory action.

This preparatory action reverses the normal Union project process, in that, instead of providing a successful standalone proposal in response to a Commission open tender, it will teach island communities how to write tenders themselves, to which they will receive responses that they have been trained to process and manage.

In short, it follows the well-known mantra: 'Give a person a fish and he will eat for a day; teach a person to fish and he will eat for a lifetime.'

PA 02 20 02 Preparatory action — Strengthening cooperation on climate action among villages in the Union and beyond through the creation of a rural identity within the Covenant of Mayors

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
p.m.	500 000	2 000 000	500 000		

*Remarks**Former item*

32 02 77 17

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

The preparatory action is unique in that it brings together, through the new framework of the Global Covenant of Mayors, villages and rural areas which are at the forefront of climate change action. Union villages and rural authorities around the world, having a closer knowledge of climate change challenges for rural territories and having pushed for an ambitious global climate agreement, will join forces to lead the efforts to achieve the climate objective of zero emissions by 2050.

COMMISSION  
PREPARATORY ACTIONS**CHAPTER PA 02 — EUROPEAN STRATEGIC INVESTMENTS** (*cont'd*)PA 02 20 (*cont'd*)PA 02 20 02 (*cont'd*)

Union villages will work closely together within and beyond the Union for overall capacity building and, specifically, to share experiences, transfer knowledge and know-how on sustainable energy and climate planning, share best examples on climate change mitigation and adaptation, and share knowledge about Union innovative financial instruments in support of sustainable energy investments.

The preparatory action involves analysis of existing good practices for sustainable energy and climate planning implemented in villages and rural areas and the development of innovative integrated rural strategies to properly address access to energy and energy poverty, climate change mitigation and reduction of greenhouse gas emissions, as well as adaptation of rural territories to climate change.

These strategies should be in line with the 'Clean Planet for All' strategy (Communication from the Commission to the European Parliament, the European Council, the Council, the European Economic and Social Committee, the Committee of the Regions and the European Investment Bank of 28 November 2018 'A Clean Planet for all – A European strategic long-term vision for a prosperous, modern, competitive and climate neutral economy' (COM(2018) 773 final)) and the 'Clean Energy for all Europeans' package (Communication from the Commission to the European Parliament, the Council, the European Economic and Social Committee, the Committee of the Regions and the European Investment Bank of 30 November 2016 'Clean Energy for all Europeans' (COM(2016) 860 final)), as well as the United Nations Sustainable Development Goals and 'Sustainable Energy for All' objectives.

Finally, provision is made for the transparent monitoring, reporting and verification of greenhouse gas emissions in line with the requirements of the United Nations Framework Convention on Climate Change.

PA 02 20 03 Preparatory action — Artificial Intelligence and Big Data in the digital transformation of public administrations in Europe: a European platform of regions

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
p.m.	p.m.	850 000	212 500		

*Remarks*

*Former item*

09 03 77 04

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

The preparatory action establishes a European platform of regions on Artificial Intelligence (AI) and Big Data (BD) so as to enhance public administration efficiency and user-centred services. The rapid integration of digital technologies poses a number of challenges for national, regional and local governments. An important aspect of this transformation concerns the expectations of citizens and businesses about their interaction with governments. This requires the digital transformation of governments to rise to the challenge.

**CHAPTER PA 02 — EUROPEAN STRATEGIC INVESTMENTS** (*cont'd*)PA 02 20 (*cont'd*)PA 02 20 03 (*cont'd*)

Public administrations need to change the way they work and organise themselves. They have to ensure the skills needed to use new digital tools; they need to work collaboratively and engage with citizens and businesses.

The Union's vision is to make public administration open, interoperable, efficient, inclusive, borderless and user-friendly by providing a new digital environment for public services. In its Communication of 19 April 2016 entitled 'EU eGovernment Action Plan 2016-2020: Accelerating the digital transformation of government (COM(2016) 179 final) and Communication of 14 September 2016 entitled 'Connectivity for a Competitive Digital Single Market – Towards a European Gigabit society (COM(2016) 587 final), the Commission considers that digital transformation of public administration is the key to a successful Digital Single Market.

The Union's common effort includes a consistent legal basis, policies and financing programmes for digital interoperability and innovative solutions for public administrations.

However, there is a need for a Union tool to support a platform of regions able to address digital transformation of public administration across Europe.

AI and BD are driving a new social and economic paradigm in Europe and beyond. Regions need to be part of the process as the level of government closest to citizens.

Use of AI and BD by public administrations has increased, demonstrating great potential in a broad range of sectors - from mobility to environmental monitoring and geophysical simulations, and from smart power grids to personalised healthcare. A European platform of regions will contribute to exchanging and developing common responses and solutions. European regions can provide significant input into making public administration systems more efficient and capable of generating public value and delivering better public services.

A move towards a European platform of regions for digital transformation has already started, proving that regional engagement represents added value for the digital single market objectives to modernise public administration and reduce the digital divide. To that end, two European high-level seminars have been organised in Brussels, on digital transformation of public administration, with the participation of European regions, businesses and the Commission - (DG DIGIT, DG CONNECT, DG ECOFIN and the Secretary-General). The meetings have been promoted by the Regional Government of Emilia-Romagna, with the involvement of Hessen, Catalonia, Flanders, Wallonia, Ile-de-France, Nouvelle-Aquitaine and Trondheim and, from the business side, IT and AI providers. Emilia-Romagna hosts the European Centre for Medium-Range Weather Forecasts, has been selected to be a European HPC Supercomputing Centre and is establishing an international foundation on BD and AI for human development.

**Objectives and activities**

The digital transformation platform of European regions will:

- share knowledge on Union, national and regional legislation and regulatory frameworks so as to enhance the use of AI and BD,
- share models to enhance strategic drivers towards digitalisation, in particular infrastructures, data and services, digital skills and communities,

COMMISSION  
PREPARATORY ACTIONS**CHAPTER PA 02 — EUROPEAN STRATEGIC INVESTMENTS** (*cont'd*)PA 02 20 (*cont'd*)PA 02 20 03 (*cont'd*)

- improve sharing of data sets and knowledge on AI and BD applications for public services,
- enhance the AI and BD skills and capabilities of civil servants,
- develop and share new ways of working, including smart working.

Specifically, the preparatory action focuses on the following activities:

- establishment of the platform of regions for AI and BD, connecting regional governments, ICT agencies, suppliers and enterprises,
- development of pilot testing arrangements in connection with the cultural transformation stemming from the digital workplace and smart working,
- two European hackathons on the use of shared data, standards and interoperability for public administrations,
- two seminars for the co-creation of user-centred public services based on AI and BD,
- peer learning for managers in connection with AI and BD.

The platform involves a dozen European regions from different Member States.

The preparatory action complements the ISA2 programme. Specifically, the Join Up platform can contribute to the action.

**CHAPTER PA 02 — EUROPEAN STRATEGIC INVESTMENTS** (*cont'd*)PA 02 20 (*cont'd*)PA 02 20 04 (*cont'd*)

The Centre for Innovation and Civic Imagination (CICI) is an instrument for social innovation, communication, research and promotion, as well as a forum for discussion and information for citizens, the public and experts in various fields. The CICI also aims to become a permanent laboratory in which to develop and test different forms of collaboration between city actors in order to support participatory practice and promote discussions on urban innovation projects. It manages analysis processes, develops pilot projects for the community and seeks to solve the city's pressing problems and plan future projects, and identify complementary functions in relation to the current dynamics of the city. One of the particularities of the CICI is the effective organisation of open meetings and innovation methodologies recommended by the Commission, using the concept of the quadruple helix (addressing themes for analysis with the participation of experts in public administration location, academics, the business environment and the NGO sector), or even the quintuple helix model, by involving the citizen - a direct beneficiary of measures aimed at increasing the quality of life in the city. The CICI coordinates and guides complex networks of participatory governance.

This preparatory action emphasises the proactivity of citizens vis-à-vis local government and stress the importance of their participation in the decision-making process.

**CHAPTER PA 03 — SINGLE MARKET***Remarks*

The appropriations under this chapter are intended to finance the implementation of preparatory actions in the field of application of the TFEU and the Euratom Treaty, designed to prepare proposals with a view to the adoption of future actions. Their total corresponds to the level of appropriations shown under Article 03 20 02.

*Legal basis*

Point (b) of Article 58(2) of Regulation (EU, Euratom) 2018/1046 of the European Parliament and of the Council of 18 July 2018 on the financial rules applicable to the general budget of the Union, amending Regulations (EU) No 1296/2013, (EU) No 1301/2013, (EU) No 1303/2013, (EU) No 1304/2013, (EU) No 1309/2013, (EU) No 1316/2013, (EU) No 223/2014, (EU) No 283/2014, and Decision No 541/2014/EU and repealing Regulation (EU, Euratom) No 966/2012 (OJ L 193, 30.7.2018, p. 1).

COMMISSION  
PREPARATORY ACTIONS**CHAPTER PA 03 — SINGLE MARKET** (*cont'd*)PA 03 19 (*cont'd*)PA 03 19 01 (*cont'd*)

Youth unemployment remains a significant challenge for Member States. As of February 2018 it stood at 15,9 % in the EU-28 and 17,7 % in the euro area. The aim of the initial pilot project was to contribute to reducing youth unemployment through the provision of worker co-operatives by establishing entrepreneurship and sustainable job opportunities for young people to both work in and own part of the company simultaneously, as well as establishing best practice in the area for the Union as a whole.

The pilot project was launched in the three Member States with the most experience in this field, and included objectives such as improving knowledge of the co-operative business concept, guiding students in implementing their own ideas and helping them start up businesses in the form of a co-operative, providing training and internships or apprenticeships in co-operatives and examining how to create synergies with related Union programmes.

The preparatory action continues to build on the impact of the pilot project in these three Member States and extends actions to other Member States still struggling with high youth unemployment, such as Greece and Spain.

---

02 02 77 41

---

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action..

The preparatory action builds on the success of the Erasmus for Young Entrepreneurs Global (EYE Global)/Achieve Leadership in Entrepreneurship and Cooperation Opportunities (ALECO) pilot project. It contributes towards achieving objectives of the Union in the field of entrepreneurship and economic growth by supporting the creation of start-ups across the Union.

The action is a one-way mobility scheme for new entrepreneurs of the Union providing for a stay of up to three months in the US, Canada, Singapore or South Korea. The destination countries have been selected on the basis of the progress made by the current pilot, trade relevance (including the existence of Free-Trade Agreements) and the existence of advanced start-up support ecosystems.

**CHAPTER PA 03 — SINGLE MARKET** (*cont'd*)PA 03 20 (*cont'd*)PA 03 20 01 (*cont'd*)

Up to 350 candidates from Member States are selected from the target group and given the opportunity to gain experience from successful and experienced host entrepreneurs and to interact with the host's start-up ecosystem.

The target group of participants includes profiles with the following eligibility criteria: (a) future entrepreneurs with ready-to-implement business plans and giving a binding commitment to start up a firm; (b) entrepreneurs who have started a business in the last three years, either alone or in partnership.

The Union budget supports the participating entrepreneurs by covering travel costs and subsistence costs in the chosen destinations for the duration of their stay and by funding the necessary measures to identify host entrepreneurs and promote the programme in the destination countries.

Arrangements for implementation of the action build on existing arrangements for the EYE Global pilot project, including delegation to the relevant executive agency where applicable, with provision being made for resources to be adjusted where necessary.

PA 03 20 02 Preparatory action — Independent on-road real driving emissions (RDE) testing to ensure broad information and transparency for better market surveillance

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019

*Remarks*

*Former item*

---

02 03 77 10

---

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

As a follow-up to the existing pilot project under Item PP 03 18 02, and having regard to paragraph 40 of the European Parliament recommendation of 4 April 2017 to the Council and the Commission following the inquiry into emission measurements in the automotive sector (OJ C 298, 23.8.2018, p. 140), this preparatory action continues to fund measures relating to third-party testing of RDE in relation to transposition of Regulation (EC) No 715/2007.

In the past, qualified third parties provided authorities at Union and national level with reliable information on the emission behaviour of vehicles. That information was rarely made available by the authorities responsible. Funding should be made available to allow them to provide reliable data from on-road emissions testing of passenger cars which is independent of the data provided by manufacturers and regulatory authorities in order to promote transparency and improve market surveillance.

COMMISSION  
PREPARATORY ACTIONS**CHAPTER PA 03 — SINGLE MARKET** (*cont'd*)PA 03 20 (*cont'd*)PA 03 20 02 (*cont'd*)

Third parties will use validated test procedures as laid down in Regulation (EC) No 715/2007 and Commission Regulation (EU) 2017/1151, including the four RDE packages and the guidelines outlined in the Commission notice of 26 January 2017. They will publish the results of their measurements in order to support the development of best practice procedures and the provision of broader information to the authorities responsible and the public.

The focus of the work will be on lifetime compliance that can be assessed by testing vehicles which are outside the parameters currently regulated by either in-service conformity or market surveillance, i.e. vehicles more than five years old or which have been driven for more than 100 000 km. Such testing will provide extremely useful information on the quality of current emission control systems and will help in providing necessary information for the development of the new legislative proposal on emissions. The testing should include RDE tests and laboratory tests on older vehicles, as well as measurement of all possible pollutants, including those not currently regulated.

Independent third parties will thus contribute to better oversight of how exhaust standards are performing in practice and the extent to which the Union's objectives in terms of air quality and climate policy are being achieved. They will contribute to a broader understanding of exhaust reduction strategies with regard to acceleration, high speed, ambient temperature and other criteria. Their specific test procedure will be documented transparently and should take into account current rules on RDE and the latest research.

PA 03 20 03 Preparatory action — Analysing the consequences of common ownership by institutional investors

*Remarks**Former item*

12 02 77 10

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

Currently, there is a massive shift of money away from actively managed funds and into index funds that passively track established benchmark indices. There are a number of reasons for this recent development. First, private pensions have become more important and investors are looking for low-cost products as offered by passively managed funds in order to maximise their profits. Second, Directive 2014/65/EU of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments and amending Directive 2002/92/EC and Directive 2011/61/EU (OJ L 173, 12.6.2014, p. 349) has entered into force and introduces stricter governance, accountability and transparency requirements that large investment firms can more easily meet.

**CHAPTER PA 03 — SINGLE MARKET** (*cont'd*)PA 03 20 (*cont'd*)PA 03 20 03 (*cont'd*)

Since the index funds industry is highly concentrated in three large investment firms located outside the Union, the high growth of index funds is leading to a concentration of ownership in European publicly listed corporations. Additionally, the shift to passively managed index funds increases the market power of the small group of virtually unstudied index providers setting the criteria for the inclusion of companies in key benchmark indices. This situation first and foremost gives cause for concern for the corporate governance of European firms, including but not limited to codetermination, long-term investments and location choice. Furthermore, 'common ownership' raises competition concerns. Moreover, the ongoing concentration process within the asset management industry may also have potentially negative consequences for financial stability in the Union.

This pilot project conducts the first analysis of the consequences of common ownership in European publicly listed corporations by institutional investors. The analysis will be three-pronged, combining (1) the first truly comprehensive empirical mapping of common ownership in the Member States of the Union with (2) an analysis of the voting behaviour of the large index investment firms in European companies, (3) expert interviews with market participants and company executives about the influence of both index investment firms and index providers and (4) the impact on corporate governance, competition and financial stability in the Union.

PA 03 20 04 Preparatory action — EU Tax and Financial Crimes Observatory — Capacity building to support Union policymaking in the area of taxation

*Figures (Differentiated appropriations)*

Commitments	Payments	Commitments	Payments	Commitments	Payments
1 200 000	1 200 000	1 200 000	300 000		

*Remarks**Former item*

14 03 77 04

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

The abundance of money laundering, tax evasion and tax avoidance revelations over the last few years has significantly shaken the confidence of Union citizens, businesses and trade unions in the robustness and fairness of Union rules against money laundering, tax evasion and tax avoidance. When three out of four citizens expect the Union to do more on taxation, it is essential to ensure that public interests and interests of all stakeholders are taken into account in designing initiatives to strengthen European rules against financial crimes, tax evasion and tax avoidance.

COMMISSION  
PREPARATORY ACTIONS**CHAPTER PA 03 — SINGLE MARKET** (*cont'd*)PA 03 20 (*cont'd*)PA 03 20 04 (*cont'd*)

This preparatory action creates a specialised and independent observatory on Union tax and financial crime matters, its main functions being to:

- create a publicly-accessible repository of data on tax evasion and tax avoidance in the Union and the effects of policy reform in these domains;
- disseminate the available data in a user-friendly manner and inform the wider public of issues relating to tax fairness, including related issues such as anti-money-laundering rules, for business and individual taxpayers and the wider public;
- provide secretarial and management functions for a future multi-stakeholder expert forum, which inter alia would be a consultative body in charge of methodological guidance in the area of taxation and financial crime;
- produce evidence and recommendations relating to combating tax evasion, tax avoidance and financial crime on the basis of the work of the forum;
- liaise with different international organisations and national administrations on issues relating to Union tax and anti-money-laundering policymaking (i.e. anti-money-laundering legislation is necessary to counter tax evasion).

Given the role of this observatory, implementation of this preparatory action should be led by the Commission's DG TAXUD, in close collaboration with other relevant DGs.

*Remarks*

*Former item*

33 04 77 07

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

This preparatory action is a follow-up to previous pilot projects and continues to address the issue of dual quality, taking fully into account the results of the pilot projects, thus ensuring continuity. It focuses on extending the scope of research to include non-food products (e.g. detergents, cosmetics, toiletries and baby products, as provided for under the pilot projects), with samples from all Member States. In addition, it focuses on the feasibility of creating a permanent quality monitoring centre by Member States, NGOs or private sector initiatives etc. for products sold on the internal market, with a view to long-term action to resolve the issue of dual quality on the internal market.

**CHAPTER PA 03 — SINGLE MARKET** (*cont'd*)PA 03 20 (*cont'd*)PA 03 20 05 (*cont'd*)

This preparatory action is implemented via procurement. The Commission will launch a study which will be carried out with the help of the Commission's Joint Research Centre.

**PA 03 21 2021**

PA 03 21 01 Preparatory action — The European crisis-management mechanism for the tourism sector

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
2 500 000	625 000				

*Remarks*

Comprising over 2 million businesses and employing over 13 million people, the tourism industry represents approximately 7 % of total Union export earnings, making it the fourth largest export industry in the Union.

As tourism represents a very large percentage of GDP for some Member States - for example approximately 14 % for Italy, Spain and France and approximately 16,5% for Portugal - its importance at national and European level is undeniable.

Europe is the world's number one tourist destination, but the pace of growth slowed down from 2019 due to uncertainties surrounding Brexit, the collapse of Thomas Cook and other airline companies, and the COVID-19 pandemic. Moreover, lessons have been learned from the past, e.g. from the terrorist attacks of the previous years and their negative impact on the tourism sector. All these unfortunate cases show that the tourism sector is very fragile when it comes to exceptional circumstances and exceptional occurrences, leaving uncertainties and having sometimes irreversible effects on the value chain - SMEs, tour operators, airline companies, hoteliers, catering sector and so on, creating a domino effect.

In such exceptional circumstances consumers face reservation cancellations, workers risk to be deprived of their source of income, companies, in particular SMEs, need financial support and liquidity and despite some of the national state aid mechanisms, which offer added flexibility, there is a lack of legal certainty and no united Union response. The latest events present the tourism and travel sectors with major and evolving challenges. The first immediate task is to ensure that travel and tourism are fully integrated in national, regional and global emergency, mitigation and support packages. This preparatory action focuses on tourism preparedness by putting in place mechanisms at Union level to manage future crises while engaging all relevant stakeholders.

There is a need to improve risk assessment and crisis preparedness with both the public and private sector. At Union level there is no coherent, well-structured strategy, which can form the basis of a European-wide crisis management mechanism. Nor is there a common plan of action with clear objectives, or an inclusive approach with resource allocations and responsibilities.

COMMISSION  
PREPARATORY ACTIONS**CHAPTER PA 03 — SINGLE MARKET** (*cont'd*)PA 03 21 (*cont'd*)PA 03 21 01 (*cont'd*)

The Commission has put in place different instruments - flexibility of State aid measures, programmes supporting SMEs, the SURE programme, passenger rights legislation and slot waiver of 80/20 principle. Some of those instruments take the form of loans and guarantees and should be granted to the SMEs at a very low or zero interest rate, and at least a 1-year grace period. However, a single crisis management mechanism is needed, with shared responsibility for the Union, the Member States and regional and local authorities, and they should all play key roles in managing and maintaining the tourism sector, in order to give a uniform European response to future crisis.

The general objective of the preparatory action is to create a European crisis-management mechanism for the tourism sector which would include the following elements:

- a proper crisis-management financial pool, based on existing or newly created instruments, which would facilitate tourism enterprises' access to financial support and liquidity in all parts of the tourism value chain during periods of crisis;
- proper crisis-management guidelines for passengers' and consumers' rights, based on current relevant legislation and also on experience and best practices;
- analysis of existing rules to better cater for times of exceptional circumstances (i.e: on passenger rights, package travel, slots, State aid, visa rules, travellers' taxes) ;
- clear guidance for Member States on coordinated repatriation of Union citizens, in terms of alignment of travel advice with local, regional and national governments;
- to provide guidelines and financial resources for planning post-crisis communication campaign and initiatives;
- the creation of reliable measurement mechanisms to serve as flash Eurobarometers during exceptional periods to understand the impact and enable adaptation to future trends;
- to provide guidance to industry on how to communicate with the media and with social network based on good practices;
- guidelines with additional measures based on good practices in the tourism sector during exceptional circumstances to ensure a full and speedy recovery.

The operational objectives of the preparatory action are:

- to create a two-fold structure mechanism, as a crisis management team for tourism and travel; to be activated either under exceptional circumstances or when a particular operator is under a specific imminent threat;
- to establish a professional body or authorise a pre-existing body, in co-operation with the European Parliament, the Commission, and the Committee of Regions, to be responsible for triggering the mechanism;
- to involve Member States on a voluntary basis, and to lead a structural dialogue with the Council;
- to provide for efficient support to the affected businesses in the tourism sector and to support and assist Member States in preventing and tackling unemployment in the tourism sector, including by supporting online training during exceptional periods in which work is suspended;

**CHAPTER PA 03 — SINGLE MARKET** (*cont'd*)PA 03 21 (*cont'd*)PA 03 21 01 (*cont'd*)

- to provide for a special assistance and direct financial aid instrument for regions and areas depending mainly on income from tourism;
- to integrate big data into official data and create measurement mechanisms, such as the flash Eurobarometer and join forces with big players in the market for carrying out joint analysis using searches and bookings for a specific period;
- to provide business continuity advice to industry, such as tool kits for capacity building but also data analysis regarding future unexpected events;
- to ensure a fair division of responsibilities and a good cooperation between Union's respective institutions and bodies, corresponding institutions at national, regional and local level and all relevant stakeholders' associations and organisations;
- to create an annual cost-effectiveness analysis on the maintenance of this mechanism, which will be put in place only in strictly enumerated cases

PA 03 21 02 Preparatory action — Development of non-aversion stunning methods for pigs

*Figures (Differentiated appropriations)*

Commitments	Payments	Commitments	Payments	Commitments	Payments
2 000 000	500 000				

*Remarks*

The preparatory action will include the collection of information on the relevant socio-economic impacts of the most welfare-friendly alternatives, such as, but not limited to: investment and operating costs and return on investment required to shift to the new system(s); throughput per hour; meat quality and safety; occupational health and safety; and sustainability.

The preparatory action will be concluded with a comparative analysis of the alternatives investigated both from an animal welfare and socio-economic point of view, in order to highlight the pros and cons of each alternative method under a common methodology.

All the results of this preparatory action will have to be made publicly available. The preparatory action will include the publication of one or more scientific papers in relevant peer-reviewed journals as well as technical factsheet for market operators. It will also include the organisation of a final conference presenting the key findings.

**CHAPTER PA 05 — REGIONAL DEVELOPMENT AND COHESION***Remarks*

The appropriations under this chapter are intended to finance the implementation of preparatory actions in the field of application of the TFEU and the Euratom Treaty, designed to prepare proposals with a view to the adoption of future actions. Their total corresponds to the level of appropriations shown under Article 05 20 02.

COMMISSION  
PREPARATORY ACTIONS**CHAPTER PA 05 — REGIONAL DEVELOPMENT AND COHESION** (*cont'd*)*Legal basis*

Point (b) of Article 58(2) of Regulation (EU, Euratom) 2018/1046 of the European Parliament and of the Council of 18 July 2018 on the financial rules applicable to the general budget of the Union, amending Regulations (EU) No 1296/2013, (EU) No 1301/2013, (EU) No 1303/2013, (EU) No 1304/2013, (EU) No 1309/2013, (EU) No 1316/2013, (EU) No 223/2014, (EU) No 283/2014, and Decision No 541/2014/EU and repealing Regulation (EU, Euratom) No 966/2012 (OJ L 193, 30.7.2018, p. 1).

---

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action..

This preparatory action follows up on the success of the pilot project entitled: European Strategy for the Adriatic and Ionian Region (EUSAIR) – generation and preparation of initiatives and projects with a genuine added value for the region as a whole.

The Adriatic Ionian Network of Universities, Regions, Chambers of Commerce and Cities (AI-NURECC) initiative involving key stakeholders in the Adriatic and Ionian regions, who have joined forces to support implementation of the EUSAIR, will take more effective ownership of the EUSAIR's main objectives and opportunities, at regional and local level, and foster the sound implementation of its action plan.

The AI-NURECC initiative is being coordinated by the Conference of Peripheral Maritime Regions with support from four partners in the area: the Adriatic Ionian Euroregion, the Forum of Adriatic and Ionian Cities, the Forum of the Adriatic and Ionian Chambers of Commerce, and UniAdriatic.

The initial AI-NURECC initiative ran for 18 months (ending in autumn 2018) and feedback from stakeholders and participants showed the need for a second, extended initiative.

The AI-NURECC initiative spin-off will run for 36 months.

The AI-NURECC initiative spin-off will:

- enhance regional and local authorities' ownership of the EUSAIR's main objectives and opportunities, promoting an efficient participatory and bottom-up approach;
- promote the development of sustainable tourism, focusing on the eight priority activities for Thematic Steering Group (TSG) 4 as set out in the report in connection with the EUSAIR national tourism strategies on common priorities and actions in relation to the EUSAIR action plan – Pillar IV: 'Sustainable Tourism' – and support the implementation of the activities in cooperation with TSG 4 members;
- encourage multi-actor networking and collaboration among representatives of the private and public sector and civil society so as to:
  - foster coordination of Union, national, regional and local policies to develop a circular economy;
  - work on territorial challenges in specific Adriatic and Ionian territories (mountains, islands and sparsely populated areas) by linking the EUSAIR to the new territorial agenda and supporting regions with specific territorial challenges (existing platforms, young people in areas with territorial challenges) with a view to establishing a dialogue;

**CHAPTER PA 05 — REGIONAL DEVELOPMENT AND COHESION** (*cont'd*)PA 05 20 (*cont'd*)PA 05 20 01 (*cont'd*)

- increase the skills and knowledge of young people, students and civil servants, including those in areas with territorial challenges;
- promote the EUSAIR cross-pillar topics 'Research and Innovation', 'SME Development' and 'Capacity Building', i.e. to support entrepreneurship, transnational clusters and digital innovation hub activities for the EUSAIR, and contribute to disseminating and strengthening the existing RIS3 platforms and working on new ones, where appropriate.
- enable synergies with the EUSAIR TSGs;
- promote synergies with other initiatives (WESTMED, BLUEMED) or other macroregional strategies (EUSDR, EUSBSR, EUSALP).

The target groups of the AI-NURECC initiative spin-off are:

- regional and local government practitioners;
- universities, vocational education and training institutions, students and student associations;
- young people, including unemployed young people;
- regional or local development agencies;
- chambers of Commerce;
- small and medium-sized enterprises;
- creative and cultural industries;
- private investors;
- island, rural and mountainous communities and networks.

The activities undertaken by the AI-NURECC initiative spin-off are to:

- organise AI-NURECC training seminars focused on different thematic areas and cross-cutting issues (sustainable tourism, blue growth, SME development, R&I, etc.);
- deal with RIS3, innovation and SME development issues within the strategy;
- create the AI-NURECC scholarship fund (a six-month free internship in an innovative Adriatic-Ionian enterprise);
- develop specific studies (e.g. on how to tackle challenges affecting the development of sustainable AI cruise tourism, maritime western silk roads, indicators and data collections for EUSAIR islands, etc.).

The territorial scope of the AI-NURECC initiative spin-off is the EUSAIR macroregion.

Activities, where possible, should target or be implemented in AI territories with specific challenges (e.g. mountains, islands and sparsely populated areas).

COMMISSION  
PREPARATORY ACTIONS**CHAPTER PA 05 — REGIONAL DEVELOPMENT AND COHESION** (*cont'd*)PA 05 20 (*cont'd*)PA 05 20 01 (*cont'd*)

Given the activities that the AI-NURECC initiative spin-off aims to deliver, implementation of specific actions will also involve associated partners.

PA 05 20 02 Preparatory action — The European Strategy for the Adriatic and Ionian Region (EUSAIR): generation and preparation of initiatives and projects supporting multilevel governance and partnerships with added value for the region

---

13 03 77 29

---

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

This preparatory action organises and develops:

- effective multi-level governance in pursuit of the objectives laid down in the EUSAIR;
- capacity building among EUSAIR key implementers as a prerequisite for effective implementation of the EUSAIR Action Plan;
- actions to generate, prepare and implement initiatives and projects with a genuine macro-regional value;
- awareness-raising initiatives, supporting partnerships between NGOs and local and regional authorities, cultural events, training programmes and seminars for citizens and especially for young people in the region, with the aim of creating ownership with regard to EUSAIR, emphasising shared regional identity and promoting partnership and networking across the region. These programmes should stress civic education, transnational entrepreneurship, opportunities for cultural events and good-neighbourly relations, and help promote effective Union integration of candidate and potential candidate countries for Union membership;
- support for international associations representing regions, cities, chambers of commerce, universities, portal authorities and others that aim to further improve implementation of the strategy.

**CHAPTER PA 06 — RECOVERY AND RESILIENCE***Remarks*

The appropriations under this chapter are intended to finance the implementation of preparatory actions in the field of application of the TFEU and the Euratom Treaty, designed to prepare proposals with a view to the adoption of future actions. Their total corresponds to the level of appropriations shown under Article 06 20 02.

*Legal basis*

04 03 77 25

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

Inequalities are considered to be a cause of macroeconomic destabilisation and to reduce growth. Therefore European and national action to correct inequalities affecting children can be seen as a long-term policy for macroeconomic stabilisation and growth. Opening up opportunities can spur stronger economic performance and improve living standards.

Fighting poverty and social exclusion is one of the Europe 2020 targets: to reduce by at least 20 million the number of people in or at risk of poverty and social exclusion. However, between 2008 and 2014, the number of people at risk of poverty or social exclusion in the EU-27 increased from 116 million to 121 million; almost every fourth person in the EU-27 is at risk of poverty or social exclusion. Amongst this group, child poverty is alarming. In 2014, more than 26 million children in the Union were at risk of poverty and more than nine million suffered from severe material deprivation. If no measures are taken to correct this situation, they will be at greater risk of failing in the education system (Europe 2020 target for education) and will have the most difficulties in entering the labour market (Europe 2020 target for employment). The child guarantee is an integrated approach to tackling child poverty, aiming at fully implementing the Commission's 'Investing in Children' recommendation, to ensure that every child in Europe at risk of poverty (including refugees) has access to free health care, free education, free childcare, decent housing and adequate nutrition. Covering these five areas of action through European and national action plans would ensure that the living conditions and opportunities of millions of children in Europe improve considerably and with a long-term perspective. The child guarantee is a key horizontal policy and should be regarded as an investment in the stability and prosperity of the Union, which is necessary for preserving the Union's growth potential.

**CHAPTER PA 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PA 07 17 (*cont'd*)PA 07 17 01 (*cont'd*)

To make the child guarantee a successful instrument in the fight against child poverty, Union financial support should be put in place to ensure a coordinated effort together with Member States towards common goals with binding indicators. This preparatory action will lay down the implementing framework for the child guarantee:

- (1) selecting comparative measurable criteria to assign funds in accordance with the Commission's 'Investing in Children' recommendation;
- (2) assessing existing national and Union interventions tackling multi-dimensional aspects of child poverty and mapping best practices;
- (3) delineating the typology of programmes to be funded;
- (4) establishing funding arrangements; and
- (5) establishing governance mechanisms, including monitoring and evaluation.

This will be achieved through independent research work, consultations with partners (e.g. governmental institutions, NGOs, academia, the private sector and the European Network of Ombudspersons for Children) and technical workshops.

The first two years of this preparatory action have been dedicated to mapping child poverty in Europe, its mechanisms and causes, and the feasibility and conditions for implementing the Child Guarantee, notably by analysing four specific groups of vulnerable children that are known to be particularly at risk (children in precarious families, children residing in institutions, children of recent migrants and refugees and disabled children, and other children with special needs).

The third year of the preparatory action will be dedicated to developing experimental projects, putting into practice the results of previous analyses in order to test whether a child guarantee scheme could provide a new approach to reducing child poverty in a sustainable way and to determine whether a child guarantee scheme can better support vulnerable children and improve their education, health, housing, nutrition and the labour market integration of parents where relevant.

These projects will be carried out in the field, and will specifically verify, in concrete and controlled circumstances, the feasibility and effectiveness of a Union-wide initiative to support social, economic and educational integration and to implement 'lighthouse projects' as an example for the whole Union. An example could be a project to test in practice how the provision of early education or decent housing could better integrate children in poor areas.

Between two and four groups of eligible applicants will be identified, as will the action areas to be covered by the child guarantee scheme (education, childcare, healthcare, housing and nutrition) in a specific community (mainly municipalities). The scheme will cover those groups over a period of six to 12 months.

The outcome will be evaluated by a group of experts representing institutions, local authorities, agencies and other stakeholders, including civil society organisations. They will also examine the feasibility of a comprehensive or integrated approach the ultimate aim of which would be to extend the child guarantee scheme to all children.

The results will serve as a basis for drafting a proposal for establishing a European child guarantee scheme and the financial support for it.

09 02 77 10

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

This preparatory action builds on the ‘European research grants for journalistic investigations, #IJ4EU’ project. Maintaining quality journalism and especially investigative journalism, which is a particularly resource-intensive genre, has become more difficult in the changing media landscape. The preparatory action will strengthen the European public sphere and help create a European public discourse. In this context, the Commission issued an open call for proposals for an independent body to implement consecutive rounds of grants supporting journalistic investigations involving journalists from at least two Member States so as to ensure maximum independence and journalistic freedom. Results will be published in at least the Member States involved.

The murders of Daphne Caruana and Ján Kuciak show that the work of investigative journalists is becoming increasingly difficult and that in the current political context, and amid the changing media landscape, not only political and legal support, but also continued financial support from the Union is essential.

**CHAPTER PA 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PA 07 19 (*cont'd*)PA 07 19 02 (*cont'd*)

Cultural venues are evolving to combine film, music, live performances, exhibitions and events and offer learning opportunities such as workshops on, for example, new technologies. Therefore, the cinematic experience can be renewed, taking into account audiences' needs and with a strong focus on attracting young audiences. The prototypes could be multifunctional venues for screenings, concerts and performances that also provide scope for virtual-reality experiences, gaming, debates, etc.

This preparatory action may complement funding from the Europa Cinemas network, which provides training and networking opportunities as well as financial support to theatres that screen an above-average number of non-national European films.

The preparatory action tests new cinema-going experiences, while taking into account local audiences' needs, and focuses on:

- (a) improving cinema infrastructure (e.g. improving cinema accessibility),
- (b) audience development,
- (c) building communities through learning experiences (offering a wide range of learning activities),
- (d) testing new ways of rethinking the cinema experience and creating innovative cultural venues.

PA 07 19 03 Preparatory action — Monitoring and coaching, through sports, of youngsters at risk of radicalisation

15 02 77 23

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

This appropriation covers support for sport-related projects, organised by local actors and civil society, targeting young people from disadvantaged backgrounds — especially those who are considered at risk of radicalisation— with the aim of preventing marginalisation and radicalisation, tackling inequalities and helping these youngsters to find an identity and a sense of belonging.

COMMISSION  
PREPARATORY ACTIONS**CHAPTER PA 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PA 07 19 (*cont'd*)PA 07 19 03 (*cont'd*)

Sports activities are extremely well-suited for community-building and strengthen social inclusion by respecting diversity and multicultural communities. Therefore, projects under this preparatory action will intend to offer sports, education and job coaching to teach essential skills, such as social and communicative competences, critical thinking and problem-solving.

Projects will ideally be organised in partnership with local authorities and be embedded in a wider anti-radicalisation action plan. Involvement of local organisations, well-acquainted with the local social fabric, will contribute to well-targeted actions and to a more structural approach to the challenges concerned.

*Remarks**Former item*

15 02 77 28

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

Sports initiatives to integrate refugees and promote social inclusion have proven to be successful in the European context as well as in conflict zones and neighbouring areas. However, existing programmes, even if open to social inclusion, do not provide sufficient support for sports organisations, in particular in terms of capacity building and the possibility of working with non-EU partners, in order to help effectively integrate refugees through sport. These practices can be adapted and scaled to effectively engage refugee, host and conflict communities and multiply the impact of efforts to mitigate the refugee crisis in the Member States.

PA 07 19 07 Preparatory action — Capacity building, programmatic development and communication in the context of the fight against money laundering and financial crimes

COMMISSION  
PREPARATORY ACTIONS**CHAPTER PA 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PA 07 19 (*cont'd*)PA 07 19 07 (*cont'd*)

This preparatory action helps strengthen a wide range of civil society organisations, including some new actors not actively involved in fighting money laundering and financial crimes, so as to build up their expertise and capacity in connection with Union law and rules, enhance awareness-raising efforts and further develop tools and instruments to fight money laundering and financial crimes. In the light of the challenges revealed by the Panama Papers and Paradise Papers scandals and the fifth revision of the Anti-Money Laundering Directive (providing public access to beneficial owner registers of companies and access to people with a legitimate interest for beneficial owners of trusts), it is apparent that the Union-level capacity of a wide range of organisations in this field (e.g. NGOs, trade unions and academic communities) needs to be boosted. Enhanced capacity building for research, training and awareness raising, alliance building (including with journalists) and greater involvement of civil society experts in the design and implementation of, and advocacy for, action to combat money laundering and financial crimes will create synergies with current Union efforts to put an end to such abusive and criminal practices.

PA 07 20 01 Preparatory action — Media councils in the digital age

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
p.m.	200 000	500 000	125 000		

*Remarks**Former item*

09 02 77 17

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action..

The pilot project supporting media councils in the digital age so as to enhance trust in media and address disinformation issues has been turned into a preparatory action, given its crucial importance and benefits. This will enable these independent self-regulation mechanisms to be sustainable, which is a precondition for their success. In order to protect media freedom and pluralism and to promote professionalism as regards journalistic content, the preparatory action aims to bring about a better understanding of the consequences and challenges of digital developments through a press council forum and, in parallel, support the transition of media self-regulatory bodies into the online world, and engage them in discussions with internet intermediaries and internet media stakeholders.

**CHAPTER PA 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PA 07 20 (*cont'd*)PA 07 20 01 (*cont'd*)

## Activities:

- conducting a survey with a view to an in-depth examination of the state of and models for media self-regulation in the digital environment and to creating clarity as to how to achieve, in a converged media environment, the traditional goals of media regulation (i.e. a pluralistic and diverse media landscape in which the media benefit from independence from political, commercial and other influences and are accountable to the public);
- developing the first online database on the current functioning of media self-regulatory bodies and promoting the work of press councils in Europe;
- developing a pan-European working group on the digital challenges so as to apply the recommendations emerging from the survey;
- providing direct support to newly established press councils in Europe;
- including press and media councils in a global dialogue on media ethics in the digital age (participation at global internet conferences, etc.);
- organising regular meetings with internet intermediaries with the aim of achieving online recognition of media content already under the supervision of a press council.

PA 07 20 02 Preparatory action — Grassroots sports programmes and infrastructure innovation

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
2 000 000	1 155 500	1 500 000	375 000		

*Remarks**Former item*

15 02 77 29

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

Grassroots sports is a traditional and slowly evolving area. Society in general and individuals' needs and preferences regarding sports, however, change more rapidly. Indeed, participation figures highlight a growing mismatch between the provision of opportunities for sports via traditional sports organisations and the demand for sports from individuals. The way in which sports associations and clubs are organised and their lack of innovation prevents them from bridging this gap. This project will challenge parties outside the traditional sports structure to propose innovative solutions to bring sports supply into line with individuals' demand at all levels, and provide a sports innovation ecosystem to make it possible for new ways of playing sports to be offered to the general public faster.

COMMISSION  
PREPARATORY ACTIONS**CHAPTER PA 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PA 07 20 (*cont'd*)PA 07 20 02 (*cont'd*)

In order to produce a working innovative ecosystem for grassroots sports organisations, two things are needed: new, soft programmes offering sports in new ways, and a flexible sports infrastructure able to host different sports at a single location.

This preparatory action aims to identify and test multiple promising innovations in both categories. To achieve this, innovation challenges will be organised that select and reward promising innovations by any interested party (institution, company, start-up, individual(s) or other parties), which can be introduced and tested over a substantial period (minimum six months). The funding will be invested in soft programmes and new (small) sports infrastructure.

The final aim of the preparatory action is to include tested innovations in the ecosystem of existing sports clubs and infrastructure. Examples of soft programmes might be three-a-side football, cross-overs between different sports (e.g. fitness and football) or recurring local mini-tournaments. Examples of new small infrastructure innovations might be flexible pitch line marking systems or sensors to indicate what pitches are available and which is in current use. Successfully tested examples will be shared with European stakeholders via an online platform, with the cooperation of European governing bodies such as UEFA.

The action will:

- unlock innovative solutions for non-traditional sports by organising open innovation challenges;
- increase the number of people practising sports by offering new concepts;
- increase the use of existing sports infrastructure.

The expected outcomes include:

- a number of tested innovative soft programmes that can be integrated into grassroots sports clubs;
- a number of tested innovative small infrastructure elements that can be incorporated into existing sports infrastructure;
- new methods to increase sports participation through innovation, which will have beneficial effects on public health and social integration;
- learning how to include non-traditional stakeholders in bringing innovation to the sports landscape, to be shared through European association structures.

Since the expected outcomes of this action include changes to the existing sports infrastructure, it is not eligible under the Erasmus+ programme.

PA 07 20 03 Preparatory action — Finance, Learning, Innovation and Patenting for Cultural and Creative Industries (FLIP for CCIs)

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
p.m.	750 000	1 500 000	375 000		

*Remarks**Former item*

15 04 77 22

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

Cultural diversity and identification of the proper cultural mix are of strategic importance for creativity and innovation. The cultural and creative industries (CCIs) in Europe employ more than 12 million people, or 7,5 % of the European workforce, and create about EUR 509 000 000 000 in added value as a result, in particular, of the contribution made by small and micro enterprises. CCIs are a driving force generating a competitive advantage for Europe, especially since they provide products and services that promote evolution of the production paradigms of Industry 4.0.

This preparatory action aims to define and test the policies and actions necessary to sustain and develop these enterprises, which, with appropriate support, can generate cross-benefits and spill-overs in all the areas and sectors with which these companies interface in achieving their business objectives.

The thrust of the preparatory action involves four areas:

## 1. A new model for analysing skills

The model for recognising skills normally used in European training systems needs to be reviewed and updated to properly include the organisational model of those enterprises, which often have little hierarchy, a broader tolerance for risk, a different time-management approach and strong disciplinary interchange, and which are therefore not compatible with the traditional manufacturing paradigm. This new model for analysing and identifying skills compatible with the Science, Technology, Engineering/Environment, Arts, Manufacturing (STEAM) areas seeks to create a privileged relationship among virtuous companies, the most significant best practices, and success stories, in order to identify and define both the skills and the characteristics of the professionals who work in these areas. In other words, the genesis and evolution of those skills must be traced back, moving beyond the more widespread paradigm in which professionals are codified within analytical-descriptive work processes (typical of manufacturing organisations), in order to obtain job descriptions consistent with the distinctive organisational characteristics of those companies.

COMMISSION  
PREPARATORY ACTIONS**CHAPTER PA 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PA 07 20 (*cont'd*)PA 07 20 03 (*cont'd*)

More specifically, the preparatory action is divided into the following phases:

- selecting 'best practice' CCI to be involved in the investigation to formulate a skill classification model that recognises the special nature of the various sectors (historical and artistic heritage, content industry, ICT industries, and materials culture, including the macro-sectors of fashion, design and the taste industry) and the regional dimensions of the Union,
- developing a model for recognising skills,
- testing the model with a broader panel of enterprises,
- releasing the model for codifying skills and associating them with professionals in the light of the European framework on skills.

## 2. Indications for the education system

Nowadays, the development of creative and cultural skills is the result of a process that is neither fully structured, nor entirely aligned with the needs for medium/long-term management of CCIs. The output generated by the skill recognition model would pave the way for the identification of aspects and issues in the education system with respect to the characteristics of training programmes aimed at developing skills. In fact, the development of strategic skills for CCIs is often left to chance and individual initiative and inventiveness, or to informal processes, without a structural approach derived from a vision that fosters a precise training policy and targeted programmes.

The key goal of this phase of the action is to perpetuate these skills through the training system, so as to prepare more European citizens for operating effectively in the various business areas in which CCIs are involved.

The guidelines should be structured in such a way that observing the specific nature of the national and regional education systems will guide their training programmes, from primary training to tertiary education. Efforts should be made to improve the capability of the education system to communicate with CCIs and promote innovative training models (learning laboratories, creative hubs, etc.). This should accompany the formulation of guidelines to empower teachers to promote skill-based learning, going beyond a rigid system of disciplines and favouring a holistic and multi-disciplinary approach. Centuries of craftsmen's traditions across Europe show the value of spending time gaining experience from different workshops as an important part of the cultural and practical training of an aspirant master in creative artisanship. While the German 'Wandergeselle' or the French 'compagnon' of the past were self-organised forms of learning, they highlight the need for a structured and common European approach to identify and transfer the elusive skills of CCIs.

## 3. A new financial classification for CCIs

Access to finance is a major obstacle to growth for many CCIs, which are generally small and often undercapitalised. The banking and financial system is slow to classify those enterprises within traditional systems, as most of them are founded on one prototype or single project and are heavily dependent on their products and services, on individual talent, and on assumption of risks. Unlike companies operating in the technological sectors, CCIs find it hard to obtain recognition of the value of their intangible assets on their balance sheets, and their investments in the development of new talent and creative ideas do not correspond to the usual concept of R&D.

**CHAPTER PA 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PA 07 20 (*cont'd*)PA 07 20 03 (*cont'd*)

The action will define guidelines to improve CCI's capability to better communicate financial values associated with intangible assets so as to give them fair access to lending. This would make it easier for CCIs to access guarantee systems (e.g. Creative Europe Programme and the European Fund for Strategic Investments) and other financing mechanisms. The guidelines will be defined on the basis of a comparison of existing instruments in European countries (e.g. Bancopass in Italy) that those enterprises are already using to communicate proactively with banks.

## 4. Valuing and defending intellectual property produced by CCIs

Companies that protect their intellectual activities are 22 % more productive (for the same territory, sector and size), with revenue growth 2 % higher than the sample average. Specifically, companies that filed a patent in 2011-2013 have a 6,5 % higher percentage of exports to total revenue, for the same territory, size and sector.

Because of the often under-structured organisation of CCIs, the registration or patenting of innovations they are able to produce is not always a priority, thus diminishing the value of the results produced by that innovation. It is therefore essential to study how to make those industries — especially the small and medium-sized ones — more aware of the benefits in terms of stronger impact deriving from the registration or patenting of their innovative products and services, and foster access to those opportunities, as these enterprises are often undercapitalised. Through a close tie-in with outputs emerging from a comparison of best practices and instruments described in point 3, the preparatory action will take forward existing instruments in European countries, which enterprises use to communicate with banks, financial bodies and institutions, involving specific items that can enhance the values of innovation registration or patenting.

## Framework development of the action

The initiative is developed through the creation of European partnerships that enhance qualified organisations' expertise in the various phases and activities that make up the action. The organisations that carry out the action should represent the main reference regions for CCIs and be equipped with the necessary resources to maximise the action's impact.

PA 07 20 04 Preparatory action — Protecting the Jewish Cemeteries of Europe: a full mapping process with research and monitoring and individual costed proposals for protection

*Figures (Differentiated appropriations)*

COMMISSION  
PREPARATORY ACTIONS**CHAPTER PA 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PA 07 20 (*cont'd*)PA 07 20 04 (*cont'd*)

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

Jewish cemeteries in Europe are a ubiquitous form of cultural heritage; they testify to the multicultural history of the continent and often serve as the sole such heritage in remote, rural areas. Protecting that heritage inevitably brings together state actors, NGOs, local communities, Jewish communities and descendants, offering a unique opportunity to develop strong, cross-sectoral collaborative ties, strengthening and enriching local identity.

Developing and implementing a bottom-up, decentralised form of protection therefore serves as an entry point for many such localities into the broader infrastructure of conservation, heritage management and heritage-oriented education. This being so, protecting Jewish cemeteries is a key element for capacity building in the cultural sector, a more active and tolerant civil society, and a multi-scalar European heritage infrastructure.

PA 07 20 05 Preparatory action — Bottom-up policy development for culture and well-being in the Union

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019

p.m.	200 000	500 000	125 000		

*Remarks**Former item*

15 04 77 24

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

In 2018, the Union adopted the New European Agenda for Culture, further developing the scope of the 'European Agenda for Culture in a Globalised World' (2007). The New Agenda reaffirms that the cultural and creative sectors strengthen European identity, have the power to improve lives, transform communities, generate jobs and growth, and create spillover effects in other sectors. More precisely, one of the three strategic objectives of the New Agenda is to harness the power of culture and cultural diversity for social cohesion and well-being by promoting cultural participation, mobility of artists and protection of heritage.

The document calls for research into cultural crossovers to assess impacts in different fields, including health and well-being.

**CHAPTER PA 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PA 07 20 (*cont'd*)PA 07 20 05 (*cont'd*)

Access to culture and participation in cultural life promote individual empowerment, democratic consciousness and social cohesion through exchanges with other people and civic engagement. Changing user behaviour because of digitalisation, ageing and culturally diverse societies calls for a better understanding of different audiences. A stronger orientation towards the interests and needs of specific groups, such as young people, older people, people with disabilities, people with a migrant background and people living in poverty or material deprivation, is necessary. Digital technologies are an asset for audience development and innovative methods of participation. Cross-sectoral cooperation with other areas, such as education, social care, healthcare, science and technology, and regional and urban development, has a significant effect on cohesion and well-being. Special attention should be paid to the role of culture at local level, to the quality of architecture and the living environment and to culture-led social innovations contributing to the development of cities and regions across the Union.

Target outputs: The exchange of experience and success stories will help identify best practices. Synergies could be established with the Structural Funds, the Urban Agenda for the EU and its new Partnership on Culture and Cultural Heritage as well as with the UN Agenda 2030 and the OECD project on culture-led regional productivity and well-being.

The preparatory action supports:

1. research into culture and well-being;
2. trans-sectoral and trans-European cooperation with the aim of generating knowledge, pilot projects and policy guidelines on how to enhance well-being through culture – the European Culture and Well-being Think Tank;
3. experimental work on the ground in pilot cities across Europe on methods, actions and measures to enhance the well-being of individuals and communities (quality of built environments, quality of spaces for social interaction, quality of services for specific groups such as school pupils, children, the elderly and special needs groups);
4. development of action and policy guidelines for cities, institutions and cultural actors on the effective use of culture for well-being;
5. sharing of knowledge, increasing awareness and capacity of key players to use culture for well-being – local workshops in various cities in Europe and a large scale Culture and Well-Being Forum.

PA 07 20 06 Preparatory action — Roma Civil Monitor — Strengthening capacity and involvement of Roma and pro-Roma civil society in policy monitoring and review

33 02 77 17

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

The preparatory action builds on pilot project 'Capacity-building for Roma civil society and strengthening its involvement in the monitoring of national Roma integration strategies' (Item PP 07 14 01), which is nearing completion, and by drawing lessons from that project it continues, in an improved way, contributing to the strengthening and further capacity building of Roma and pro-Roma civil society as well as to the monitoring mechanism regarding Roma inclusion, especially by producing and disseminating independent reports in which civil society coalitions could present alternative information and data to what is contained in the reports submitted by Member States concerning the implementation of their strategies. These civil society reports could provide local knowledge to help national and European policy processes and reflect on the real social impact of government measures.

Monitoring focuses on the local implementation of strategies in the four priority areas (employment, education, housing, health), as regards anti-discrimination, combating anti-Gypsyism and promoting gender equality, and will also provide information on the level of involvement of civil society, the use of Union funds and the mainstreaming of Roma inclusion measures.

This preparatory action is implemented through a procurement.

**PA 07 21 2021**

PA 07 21 01 Preparatory action — European media platforms

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
6 000 000	1 500 000				

*Remarks*

With a view to contributing to Europe's digital sovereignty and to a European Open Space, this preparatory action intends to pull together existing technological means and solutions to create a platform capable of improving Union citizens' access to trusted information from across Europe.

**CHAPTER PA 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PA 07 21 (*cont'd*)PA 07 21 01 (*cont'd*)

Such a platform will support collaborative editorial and media projects, involving broadcasters and publishers, across Europe to extend their reach. Technical tools provided by the platforms include translation modules (text to text, speech to text and speech to speech), AI-based technologies, search engines, transparent algorithms and content recommendation. This platform provides an underlying basis to offer citizens contextualised information from across Europe which they can access via well-established online offers, thus ensuring high audience rates and supporting pan-European cooperation in original reporting.

An identification system will provide citizens with cross-device access as well as personalisation of their experience. Broadcasters and publishers will cooperate with technology developers to ensure user-friendly solutions. The technical solutions which are developed for the action can be applied to other content genres (e.g. educational, sports, entertainment) and can be integrated into different digital applications (e.g. (Re) Players apps, News apps) of broadcasters.

In the first year of the preparatory action translation facilities would be ready for up to 8 to 10 languages (English, German, French, Italian, and Spanish plus three to five other European languages, representing the different geographic regions).

During the preparatory action, the partner base will be extended, and the number of languages increased. The technical solutions will combine AI-based and open-source technologies and apply maximum transparency with regard to the algorithms; users will be informed about why they see what they see.

The project will be based on common values, the respect for human dignity, freedom, democracy, equality, the rule of law and human rights, providing Union citizens with a safe environment. It can be complemented by other projects offered by broadcasters (e.g. documentary collections, specific programmes for young audiences); and other stakeholders, e.g. museums and libraries, will be welcome to join if they subscribe to the same values.

PA 07 21 02 Preparatory action — A Europe-wide rapid response mechanism for violations of press and media freedom

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
1 950 000	487 500				

*Remarks*

According to the 2019 World Press Freedom Index compiled by Reporters without Borders, the Union as well as the Balkans registered the second biggest deterioration in its regional score measuring the level of constraints and violations on press freedom. The 2019 report shows that the number of countries in the Union and the Balkans regarded as safe, where journalists can work in complete security, continues to decline.

COMMISSION  
PREPARATORY ACTIONS**CHAPTER PA 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PA 07 21 (*cont'd*)PA 07 21 02 (*cont'd*)

With the deterioration of press and media freedom in Member States and candidate countries for several years in a row showing a worrying trend, it is crucial to continue providing concrete protection to journalists including fact-finding, advocacy, monitoring, informing the European public and awareness-raising through the pan-European rapid response mechanism on violations of media freedom.

The right to freedom of expression needs strong defence to protect democracy strengthen public discourse and guarantee an enabling environment for investigative and independent journalists.

The pan-European response mechanism on violations of press and media freedom will continue to make violations visible and provide practical help to journalists under threat, in collaboration with European, regional and local stakeholders in the field of media freedom. The practical help must encompass tools to protect journalists under threat: providing direct advice and legal support as well as offering shelter and assistance so they can continue their profession. Delegates will be sent to affected countries and advocacy will support fighting impunity. Monitoring of the situation will provide reliable and comprehensive information to the public as well as European authorities. This will help promoting awareness raising and allow early warnings. Instruments will be adjusted according to individual needs on a case-by-case basis. This unique toolkit contained in the rapid response mechanism will prevent further violations and will improve press and media freedom.

The pan-European response mechanism has been funded over the last two years in the context of a pilot project. Building on the success of the pilot project and to ensure its continuity, the pan-European response mechanism should now continue as a preparatory action.

PA 07 21 03 Preparatory action — Writing European

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
3 000 000	750 000				

*Remarks*

In a moment of increased global competition in the audio-visual sector, international cooperation in scriptwriting becomes ever more crucial to create works that can travel across borders. More cooperation is also necessary at European level to allow European players to scale up and face the increasing risk of 'brain-drain' of European audio-visual professionals towards third countries.

The ambition of the proposed scheme is to respond to the need for European story telling suitable for co-production.

COMMISSION  
PREPARATORY ACTIONS**CHAPTER PA 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PA 07 21 (*cont'd*)PA 07 21 03 (*cont'd*)

There is an untapped potential to foster a community of writers from all across Europe with comparable understanding of the craft of writing series for television. In addition, in order to bring out stories that reflect European culture, both the one held in common or the one specific to different respective countries, it is necessary to encourage the emergence of strong teams of creators (e.g. screenwriters, showrunners and other authors) from several European countries.

PA 07 21 04 Preparatory action — Emergency support fund for investigative journalists and media organisations to ensure media freedom in the Union

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
1 800 000	450 000				

*Remarks*

The work of independent media organisations and investigative journalists is crucial to reveal wrongdoing throughout the Union and beyond its borders, including money laundering and corruption. Quality investigative journalism requires proper tools and resources. Yet, investigative journalists are extremely vulnerable professionals with very limited resources.

The aim of this preparatory action is to create an emergency support fund for investigative journalists and media organisations to improve press and media freedom and to prevent violations thereof by supporting the production of quality independent journalistic content in the public interest, including through cross-border cooperation.

The preparatory action should build on the successful IJ4EU 2018 pilot project which aims to ensure continued trust in independent media sources and the protection of journalists across the Union by providing Union funding for cross-border investigative journalism in the public interest based on an expert jury model.

The preparatory action should promote pan-European, collaborative projects which contribute to bottom-up change by modifying incentives for ethical and trusted journalism through innovative tools and processes. Such projects are particularly important in the midst of the COVID-19 crisis when the capacity for dedicated support of news organisations is limited.

Funding from this budget line should be accessible to professional organisations and associations, consortiums, editors, publishers as well as freelancers provided that they meet adequate criteria. To meet the needs of media organisations and to safeguard media independence, funding should inter alia be provided to cover expenditure for fact-finding missions, for training and tools contributing to the development of investigative capabilities, for TV-related investigative projects, for the subscription to software programmes correlating data and databases, and for the production of expensive documents required to support an investigation. Subject to strict conditions, the preparatory action should also provide funding to cover a bail and/or the legal fees of investigative journalists concerned if they are clearly related to a past or ongoing investigation.

COMMISSION  
PREPARATORY ACTIONS**CHAPTER PA 07 — INVESTING IN PEOPLE, SOCIAL COHESION AND VALUES** (*cont'd*)PA 07 21 (*cont'd*)PA 07 21 04 (*cont'd*)

When necessary, this pan-European emergency support fund could also be used as a model for longer-term core funding for media organisations and investigative journalists under threat. It should be flexible enough to adjust to changing needs to ensure that they can perform their work safely and independently, thus ensuring the sustainability of media and a greater diversity of journalistic sources in Member States and candidate countries.

The assessment of applications and the selection of beneficiaries from Union funding through this preparatory action should be carried out by an independent expert jury based on clear and transparent criteria to ensure a high degree of trust in beneficiaries and audiences.

**CHAPTER PA 08 — AGRICULTURE AND MARITIME POLICY***Remarks*

The appropriations under this chapter are intended to finance the implementation of preparatory actions in the field of application of the TFEU and the Euratom Treaty, designed to prepare proposals with a view to the adoption of future actions. Their total corresponds to the level of appropriations shown under Article 08 20 02.

*Legal basis*

COMMISSION  
PREPARATORY ACTIONS**CHAPTER PA 08 — AGRICULTURE AND MARITIME POLICY** (*cont'd*)PA 08 18 (*cont'd*)PA 08 18 01 (*cont'd*)

This preparatory action prepares implementation of the common agricultural policy (CAP) post-2020 and complements the previous Smart Eco Social Villages pilot project (2016) and the preparatory action 'Smart rural areas in the 21st century' (2018). It helps inform and improve the development and implementation of CAP strategic plans for which the notion of 'Smart Villages' is included in a result indicator. Complementing the pilot project on Smart Eco-Social Villages and the preparatory action 'Smart rural areas in the 21st century', this preparatory action provides knowledge, know-how and a framework methodology for developing support schemes for Smart Villages in a wider range of socio-economic contexts. It uses the lessons learned and knowledge obtained from initiatives provided for in the EU Action for Smart Villages. As the new CAP is meant to increase subsidiarity, such work is a fundamental prerequisite for ensuring appropriate implementation of this aspect of rural development. The goal of the preparatory action is to implement successful practices in a number of Member States, including in the field of ICT and online methods such as the setting up of digital hubs and other good examples. It also sets up a network of sample villages (and people dealing with smart villages) in order to create a coherent methodological framework for Union support for Smart Villages. This concept is closely linked to the Digital Single Market, digital platforms, urban-rural links, the sharing and collaborative economy and the bioeconomy (innovation, precision farming, environmental management, renewable energies, supply chain, services, local food), improving quality of life, education and employment, as well as taking account of the importance of women and young people. It could also help inform implementation of other European Structural and Investment Funds, in particular under the policy objective for local initiatives.

These goals are fully in line with the Cork Declaration 2.0, as well as the Bled declaration, which recognize the importance of enabling access to appropriate technologies and solutions in order to deliver economic, social and environmental benefits.

The preparatory action focuses on developing a method to promote growth and jobs in rural areas through concrete actions on the basis of selected villages with common features — infrastructure, various resources, services, and access to markets. It develops methods for offering solutions in the fields of:

- the Digital Single Market,
- urban-rural links,
- the bioeconomy and circular economy (innovation, precision farming, environmental management, local renewable energies, supply chain, services, local food),
- sharing and collaborative economy (e.g. new rural mobility solutions such as car sharing and ride sharing; new paradigms in tourism; sharing and exchange of agricultural machinery and services),
- technology (e.g. the Internet of Things, big data collection, drones, electric vehicles, and next-generation mobile broadband connections),
- social aspects,
- new full-time and part-time jobs, which will expand in the types of economy referred to.

**CHAPTER PA 08 — AGRICULTURE AND MARITIME POLICY** (*cont'd*)PA 08 18 (*cont'd*)PA 08 18 01 (*cont'd*)

This preparatory action is well documented through online platforms in order to disseminate the results. As an important outcome, it provides lighthouse examples that will ensure better and more effective programming of Union funds in rural areas.

**PA 08 20 2020**

PA 08 20 01 Preparatory action — Charter of Good Practices for Cruises

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
p.m.	750 000	1 000 000	250 000		

*Remarks**Former item*

11 06 77 18

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

Europe is a key market for the global cruise industry. In 2015 the global cruise industry carried 25 300 000 passengers, accounting for 956 597 jobs and generating total spending of USD 117 000 000 000 worldwide. The demand for cruise travel increased by 62 % in the ten years from 2005 to 2015.

All of this translates into economic value and jobs for Europe. However, the coastal and maritime regions need to create conditions to better integrate the advantages of cruise tourism. With that in mind, the preparatory action will establish a Charter of Good Practices for Cruises on the basis of the existing pan-European dialogue between cruise operators, ports and coastal tourism stakeholders. The focus should be on the environmental impact of receiving cruiseships, but also on the social impact and the way in which reception facilities at ports and in the regions concerned are to be adapted. This charter will cover the following:

- a design for a process to integrate all the maritime stakeholders involved,
- environmental aspects and mitigation policies to reduce externalities,
- social and economic dimension of cruises in the regions concerned,
- need for coordination between cruise ports and cities,
- best practices already in place.

COMMISSION  
PREPARATORY ACTIONS**CHAPTER PA 08 — AGRICULTURE AND MARITIME POLICY** (*cont'd*)PA 08 20 (*cont'd*)PA 08 20 01 (*cont'd*)

This charter will make it possible to reduce externalities resulting from cruise activities and trigger more economic and social benefits for cities and their inhabitants. One example is the exchange of best practices on managing congestion in peak season. The charter will also help enhance mutual understanding between cruise ports and city authorities. Moreover, the scope of the charter needs to extend to the possible environmental impact of cruise services, and it will help raise awareness of best practices already in place at various cruise ports in order to avoid duplication.

**CHAPTER PA 09 — ENVIRONMENT AND CLIMATE ACTION***Remarks*

The appropriations under this chapter are intended to finance the implementation of preparatory actions in the field of application of the TFEU and the Euratom Treaty, designed to prepare proposals with a view to the adoption of future actions. Their total corresponds to the level of appropriations shown under Article 09 20 02.

p.m.	1 500 000	5 000 000	1 250 000		

*Remarks**Former item*

07 02 77 53

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

The preparatory action supports the implementation of a Union-wide monitoring scheme for wild insect pollinators in Member States and construction of associated indicators.

Pollinators are an integral part of healthy ecosystems and their dramatic decline is a serious cause for concern. In Europe, animal pollination is primarily delivered by insects: around 2 000 bee species, 900 hoverfly species, 500 butterfly species and 8 000 moth species. Other fly species, wasps and beetles also play an important pollination role. Without them, many plant species would decline and eventually disappear, with far-reaching consequences for nature and human wellbeing. In the Union, four out of five crop and wild flowering plant species depend, at least in part, on animal pollination. Up to EUR 15 billion of the Union's annual agricultural output is directly attributed to insect pollinators; they are widely regarded as one of the most important indicators of a healthy environment.

On 1 June 2018, the Commission adopted the EU Pollinators Initiative, following calls from the European Parliament and the Council for action to tackle the widely acknowledged dramatic decline of pollinators. The initiative lays down a number of actions to address known causes of the decline, but also focuses on strengthening the knowledge base. It emphasises the importance of a systemic approach to collection of data and information on pollinators, in order to evaluate policy actions and improve their effectiveness. While in some areas there is a reasonable level of knowledge (decline of butterflies, the poor state of their habitats and the drivers of declines), knowledge gaps remain overall with regard to the status of and trends for most pollinator populations, as well as the causes and consequences of their decline. A coordinated monitoring process at Union level, powered by a standardised field data collection, will make it possible to close the critical gaps and develop robust indicators to underpin impactful Union policies for pollinators.

Pollinator indicators will in particular be essential for a new EU post-2020 biodiversity framework and the new common agricultural policy (CAP). Pollinators are a high-profile topic in the work of the UN Convention on Biological Diversity, which sets a global framework of actions on biodiversity, and to which the UN Food and Agriculture Organisation actively contributes. This culminated in the first global report on pollinators issued by the Intergovernmental Science-Policy Platform on Biodiversity and Ecosystem Services in 2016. It is expected that pollinators will feature in targets for the future global biodiversity framework. Apart from the fact that pollinators represent a target on their own merit, pollinator indicators will also help measure progress towards a number of other biodiversity targets, including those relating to the EU Habitats Directive, the Natura 2000 network, agriculture and forestry.

COMMISSION  
PREPARATORY ACTIONS**CHAPTER PA 09 — ENVIRONMENT AND CLIMATE ACTION** (*cont'd*)PA 09 20 (*cont'd*)PA 09 20 01 (*cont'd*)

As stipulated under Action 5C of the EU Pollinators Initiative, the Commission will include a pollinator indicator in the performance and monitoring framework of the CAP once it has been finalised and is operational. Such an indicator would be an invaluable addition to the indicator framework in the Commission proposals for the CAP 2021-2027: insect pollinators are a good proxy for wider biodiversity and an essential factor in agricultural production. Because of this dual role, pollinator indicators would be also an excellent addition to the monitoring framework for the implementation of the Sustainable Development Goals in the Union, in particular Goals 15 ('Life on land') and 2 ('Zero hunger'). The grassland butterfly indicator is already included in that framework and this action will help underpin the sustainability of butterfly monitoring and indicator reporting across the Union.

While the monitoring and indicators developed under the EU Pollinators Initiative address wild pollinator species, they will also greatly benefit honeybee health and the beekeeping sector. Managed and wild species share food/forage resources as well as the main pressures on their populations. Monitoring of wild species will provide not only good information about the quality of the environment for all pollinators, but also essential data for research into various pressures and their interplay. This is crucial for devising effective mitigation actions and supporting effective recovery.

Beyond this fundamental contribution to policy-making, data and information generated by the monitoring scheme would enable development of tools for land managers, in particular farmers. Data on the status of pollinator species, paired with good crop data (for example as per outputs of Action 3B of the EU Pollinators Initiative), would enable development of an atlas of pollinators and pollination or an early warning system for pollination deficit. These would help farmers, whose yields and profits essentially depend on pollinators, to make informed decisions on how to secure this agricultural input and mitigate risks relating to the decline of insect pollinators.

Furthermore, it would also enable tools for actors higher up the biomass chain, such as risk assessment and management tools for food and drink manufacturers, suppliers or retailers whose products and services depend on pollinator-dependent agricultural produce. In this way, good data and information on pollinators would support the bioeconomy agenda more broadly. The 2018 update of the Bioeconomy Strategy includes an action that would support the development of such tools, with a view to facilitating integration of pollinators into supply value chains (Action 3.3.4).

The scope of an EU pollinator monitoring scheme is expected to cover at least the main taxonomic groups: bees, hoverflies, butterflies and moths. At the moment, the only systemic Union-level monitoring of any pollinator group is conducted for butterflies in half the Member States. In 2018, the Union funded the pilot project on Union butterfly monitoring and indicators (ABLE) to expand that monitoring scheme. This preparatory action builds on that pilot project to ensure full Union coverage with regard to monitoring butterflies, and will help establish the first-ever Union-level monitoring processes for other pollinator groups.

The Commission expects to launch a technical expert group in May 2019, mandated to devise an Union-wide pollinator monitoring scheme and pollinator indicators by May 2020. With a view to implementing the monitoring scheme and enabling the flow of data to build indicators as early as in 2021, it will be crucial to kick off the necessary preparations in Member States. Many Member States are expected to face challenges as regards administrative and academic capacities, meaning that successful implementation will help by focusing efforts early on.

**CHAPTER PA 09 — ENVIRONMENT AND CLIMATE ACTION** (*cont'd*)PA 09 20 (*cont'd*)PA 09 20 01 (*cont'd*)

Activities of the preparatory action:

The preparatory action funds activities that help address challenges to Member State capacities with a view to facilitating harmonised implementation of a Union-wide monitoring scheme for insect pollinators.

Specifically, the preparatory action supports the following activities:

- pooling of expertise at Union level, expert networking and training;
- coordination of implementation of the scheme across Member States;
- assistance with the preparation of administrative, financial and academic capacities in Member States;
- assistance with initial implementation of the scheme in Member States with inadequate capacities;
- building on and complementing the pilot project ABLE with regard to the existing butterfly monitoring scheme.

This preparatory action will run for three years and will have a budget of EUR 5 000 000.

PA 09 20 02 Preparatory action — Environmental monitoring through honey bees

*Remarks*

*Former item*

07 02 77 54

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

The objective of this preparatory action is to put in place a tool for collecting environmental data with the help of honey bees and bee products. This will enable evaluation of pollution exposure and diffusion in the environment at landscape level. It will also enable evaluation of plant diversity across landscapes.

COMMISSION  
PREPARATORY ACTIONS**CHAPTER PA 09 — ENVIRONMENT AND CLIMATE ACTION** (*cont'd*)PA 09 20 (*cont'd*)PA 09 20 02 (*cont'd*)

Despite the considerable impact of various environmental pollutants, in particular pesticides, on human wellbeing and nature, there are still major data and information gaps regarding exposure. Honey bees come into contact with diverse matrices due to their biological needs and behaviour. During their wide-ranging foraging activity (up to 15 km radius) they are exposed to pollutants present in the atmosphere, soil, vegetation and water. Numerous plants are visited every day to collect nectar, secretions from sap-feeding insects, pollen and/or water, while plant gums are collected for propolis production. While flying they also come into contact with airborne particles, which stick to their body hairs or are inhaled via spiracles. Contaminants are brought back to the beehives and may be found in bee products, such as honey, wax, propolis, pollen and bee bread. Honey bees and their products could also be an excellent tool for monitoring other environmental pollutants besides pesticides, such as heavy metals, particulate matter, volatile organic compounds and sulphur dioxide.

Honey bees are already used as bioindicators of the level of environmental contamination. Studies have been performed using bees and bee products as biological monitoring instruments to measure environmental quality. Various levels of environmental monitoring with honey bees have already been described, with varying degrees of complexity and sensitivity. Prompted by concern for honey bee colony losses, beekeepers, beekeeper technicians and scientists in parts of Europe began analysing the contaminant content of bees and bee products. The results are often the same: bees are exposed to a wide variety of contaminants simultaneously and consecutively.

Furthermore, there are considerable knowledge gaps as regards plant species richness and abundance across various landscapes in the Union. Such knowledge is essential for evaluation of habitat quality as well as evaluation of pressures that different land uses may exert on habitats. Collection and analysis of pollen from beehives offers a promising avenue to gather invaluable data and information that can help to close those knowledge gaps.

Environmental data and information generated through monitoring using honey bees would support Union policies in the following areas:

- public health and food safety;
- plant and animal health, including bee health;
- agriculture rural development, including beekeeping;
- agricultural production and food security;
- environmental protection (nature, air, water, soil);
- biodiversity.

It would in particular support effective actions under:

- Directive 2009/128/EC of the European Parliament and of the Council of 21 October 2009 establishing a framework for Community action to achieve the sustainable use of pesticides (OJ L 309, 24.11.2009, p. 71);

**CHAPTER PA 09 — ENVIRONMENT AND CLIMATE ACTION** (*cont'd*)PA 09 20 (*cont'd*)PA 09 20 02 (*cont'd*)

- Regulation (EC) No 1107/2009 of the European Parliament and of the Council of 21 October 2009 concerning the placing of plant protection products on the market and repealing Council Directives 79/117/EEC and 91/414/EEC (OJ L 309, 24.11.2009, p. 1);
- the common agricultural policy;
- EU biodiversity policy, including the EU Pollinators Initiative;
- Directive (EU) 2016/2284 of the European Parliament and of the Council of 14 December 2016 on the reduction of national emissions of certain atmospheric pollutants, amending Directive 2003/35/EC and repealing Directive 2001/81/EC (OJ L 344, 17.12.2016, p. 1);
- Directive 2010/75/EU of the European Parliament and of the Council of 24 November 2010 on industrial emissions on industrial emissions (integrated pollution prevention and control) (OJ L 334, 17.12.2010, p. 17).

In this way, environmental monitoring through honey bees would contribute towards the achievement of the Sustainable Development Goals in the Union, in particular Goals 2 ('Zero hunger'), 3 ('Good health and wellbeing'), 12 ('Responsible consumption and production'), 14 ('Life below water') and 15 ('Life on land').

In 2018, the Union funded the pilot project 'Environmental monitoring of pesticide use through honey bees'. This preparatory action builds on that pilot project. It will further expand the scope to other environmental pollutants as well as monitoring of plant diversity. The preparatory action is a citizen science project in which beekeepers will play a key role by collecting samples from beehives.

Activities of the preparatory action:

- The preparatory action funds Union-wide implementation of the monitoring methodology currently being developed and tested by the pilot project. Furthermore, the action looks to expand the monitoring to include other environmental pollutants and plant diversity.

Specifically, activities under this preparatory action will:

- explore how to expand the monitoring protocol to include environmental pollutants besides pesticides, and develop relevant modules;
- implement the monitoring protocol by sampling beehives across various land uses in all Member States;
- carry out chemical and pollen analysis of samples;
- develop IT infrastructure to create, store, manage, process and share data;

This preparatory action will run for three years and will have a budget of EUR 4 000 000.

COMMISSION  
PREPARATORY ACTIONS**CHAPTER PA 09 — ENVIRONMENT AND CLIMATE ACTION** (*cont'd*)PA 09 20 (*cont'd*)

PA 09 20 03 Preparatory action — Measuring the pulse of European biodiversity using the Red List Index

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
p.m.	7 20 000	2 400 000	600 000		

*Remarks**Former item*

07 02 77 55

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

This preparatory action evaluates the changes in biodiversity status in Europe, and at Union and pan-European levels, addresses clustered drivers of decline and monitor the impact of conservation measures and policy action. It is an important contribution to the final evaluation of the EU Biodiversity Strategy and the post-2020 biodiversity frameworks. The proposed approach combines the mobilisation of dedicated knowledge networks and data with the use of an established metric, the International Union for Conservation of Nature (IUCN) Red List Index (RLI), so as to update existing European Red Lists (ERL) and assess status changes in species, with the aim of informing sectoral and land use policies, which is critical for refining the scope of their action.

In Europe, the risk of extinction of species has increased dramatically over the last 20 years. While the drivers of these declines are largely known for some groups of organisms, and conservation measures and policies have been implemented to prevent the continuation of these downward trends, data and knowledge on species trends and threats are either non-existent or not easily accessible, species status indicators have not been systematically produced, and the geographical scope of conservation and policy action has been uneven. This makes it more difficult to understand the impact of specific recovery measures and poses a challenge to measuring Union's progress against regionally and internationally agreed targets to halt biodiversity loss.

The IUCN RLI is a widely accepted metric for measuring changes in extinction risk globally and has been adopted as an official indicator of progress towards the Sustainable Development Goals and the global Aichi Biodiversity Targets. As such, it was recently used to assess regional trends in mammals, birds and amphibians for Europe and Central Asia in the regional assessment report of the Intergovernmental Science-Policy Platform on Biodiversity and Ecosystem Services and is proposed to be used in the post-2020 global biodiversity framework. The RLI uses data from the IUCN Red List of Threatened Species, which in Europe has assessed over 11 000 species since 2006 at two regional levels: for geographic Europe, and for the Union. For marine species, the area covered by the assessments includes the Mediterranean, the Black, Baltic and North Seas, and the European part of the Atlantic Ocean (i.e. territorial waters and Exclusive Economic Zones (EEZ), including the EEZs of the Macaronesian Islands belonging to Portugal and Spain). However, IUCN Red List assessments become officially outdated after 10 years and no taxonomic group has ever been reassessed at the Union and pan-European levels. Therefore, it is vital that species be regularly reassessed to obtain a reliable and meaningful indicator of European biodiversity trends and threat abatement over time for more widespread evidence-informed policy-making.

**CHAPTER PA 09 — ENVIRONMENT AND CLIMATE ACTION** (*cont'd*)PA 09 20 (*cont'd*)PA 09 20 03 (*cont'd*)

The preparatory action uses the IUCN RLI to estimate the aggregate extinction risk for almost all taxa assessed to date by the IUCN Red List of Threatened Species at the Union and pan-European levels. These include vertebrates (mammals, amphibians, reptiles and freshwater fish), invertebrates (non-marine molluscs, butterflies, saproxylic beetles, dragonflies and bees) and plants (vascular and medicinal). The IUCN RLI can measure whether the rate of biodiversity loss has been reduced in Europe, helping to improve the effectiveness of conservation measures applied on the ground while assessing progress in implementing Union policies and legislation, such as the current EU Biodiversity Strategy – particularly Target 1, which aims to increase the protection of species and their habitats by fully implementing the Union's Directives in the field of nature – as well as informing policy targets in the post-2020 agenda. These reassessments should be aligned with the policy cycle (e.g. 2010 Biodiversity Action Plan, EU biodiversity policy to 2020, 2030 Biodiversity Strategy, etc.).

The overall methodology for species reassessments will be based on the existing Red List assessments. Some preliminary work will be needed to collect the necessary information and update the assessments. Assessment workshops will take place only to review the Red List status of the most endangered species, and so they are expected to be fewer in number than for a typical assessment exercise, and, consequently, cheaper. The duration of these workshops will vary from one to four days, depending on the number of species to be assessed. Taxonomic knowledge, expertise and data will be mobilised through engagement with the relevant Specialist Groups of the IUCN Species Survival Commission (SSC), and with IUCN staff leading the global assessment by these groups. Additional consultation with and engagement of local and international experts will be key to the success of the activities, and so this action has a huge potential for galvanising local knowledge hubs and for capacity building (through workshops). The IUCN Red List typically makes species assessments and distribution maps freely available on its website, and all the newly collected information will be uploaded to the European Environment Agency (EEA) Biodiversity Data Centre. Any additional detailed time series data on population abundance and distribution for the proposed groups of species collected under this action will be made available, subject to the terms established in legal data sharing agreements with existing monitoring schemes to clarify intellectual property rights and rights of access to data, in an integrated database that can directly contribute to an integrated monitoring system for biodiversity and ecosystems to be developed by the Commission and the EEA.

**DELIVERABLES**

The reassessments will provide four main deliverables:

(1) An ERL publication for each group of species (Union and pan-European levels), providing an overview of the analyses undertaken and the results of the reassessment process, including examples of species with positive, stable and negative trends as shown by the RLI, a compilation of conservation successes and failures, with key messages and recommendations tailored to the main sectors responsible for actions taking place across Europe that continue to support and/or threaten species conservation. These will be critical to improving biodiversity mainstreaming across non-state actors and informing the general public as to which actions and behaviours will benefit European biodiversity and promote ecosystem services and, hence, human wellbeing. The final reassessments for each species will also be presented in updated factsheets on the IUCN website. The advantages of uploading the factsheets to the Red List website are: access to all ERL data in one place; access to the most up-to-date assessments beyond the scope of this action which benefit from new information being incorporated by the SSC Expert Network; and a comparison with global and other regional assessments for the same species. In line with previous ERL publications, the updated assessments will be in full colour with figures and photos throughout, and the publications will also be designed to minimise download times for the PDF version. The publications will be delivered in print (300 copies) as well as in electronic formats (Word and PDF).

COMMISSION  
PREPARATORY ACTIONS**CHAPTER PA 09 — ENVIRONMENT AND CLIMATE ACTION** (*cont'd*)PA 09 20 (*cont'd*)PA 09 20 03 (*cont'd*)

(2) Integration of updated Red List databases into the EEA Biodiversity Data Centre and its hosting infrastructure. All the information collected to estimate the RLI (population size, distribution, demographic trends, habitats, threats) will be used to update the current species assessments in the Species Information Service, and exported to Microsoft Access databases (per taxonomic group), which will then be formatted in accordance with the requirements of the EEA Biodiversity Data Centre, where they will be made available.

(3) Preparation of text for the Europa website. A new tab under the current index available for each ERL assessment on the Europa website showing the results of the RLI for each taxonomic group will be created and the respective text will be prepared in parallel with the ERL publications. The current structure (i.e. titles and subtitles) as developed for previous ERL projects might require revision to better encapsulate and profile the efforts for, and results of, systematic monitoring and of the RLI.

(4) 'The pulse of European biodiversity' brochure summarising the findings of the reassessments and the RLI, highlighting the importance of biodiversity monitoring and long-term trends, clustering drivers of threat to provide key messages to the societal sectors with the greatest impacts, and celebrating cases of conservation success. It is important that positive messages be included to help create the optimistic social movement that will enable change. The brochure will be produced in line with the Commission's visual identity guidelines. It will have broad appeal and will be used to communicate with policymakers and the interested public. It will also be an important communication tool for the media and will provide DG Environment with a very useful tool that can be widely distributed to other DGs and stakeholders, and used in awareness-raising campaigns. The brochures will be delivered in print (1 500 copies) as well as in electronic formats (Word and PDF).

This three-year preparatory action will have a total budget of EUR 2 400 000.

PA 09 20 04 Preparatory action — Promoting alternatives to animal testing

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

**CHAPTER PA 09 — ENVIRONMENT AND CLIMATE ACTION** (*cont'd*)PA 09 20 (*cont'd*)PA 09 20 04 (*cont'd*)

The previous pilot project to promote and develop alternatives to animal testing provided for various actions (to develop education and training but also to improve information and communication on alternative methods) as identified in the three pillars of actions proposed by the Commission for the pilot project in its 'Interim report on the implementation of Pilot Projects and Preparatory Actions 2017' (Ref. Ares(2017)1094287 - 01/03/2017) and carried out by the Commission in 2018. In order to ensure the sustainability and efficiency of those successful actions, the pilot project continues as a preparatory action.

PA 09 20 05 Preparatory action — Creation of a European drought resilience and adaptation observatory

*Figures (Differentiated appropriations)*

*Remarks**Former item*

07 02 77 58

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

The main objective of the preparatory action is to turn the European drought observatory into an organisation with institutional capacity and human and material resources, so that a university network, R&D units, companies from the productive sector and civil society can operate efficiently and effectively.

This European observatory will carry out research into the origins and consequences of droughts.

The aim is also to combine human resources and scientific and technical knowledge in order to provide information (analysis of statistics and trends) and methodologies for handling and adapting productive resources to the realities and needs of each region and each specific agricultural production type, and to provide assistance and advisory service support to the Member States and regions affected by drought.

**CHAPTER PA 10 — MIGRATION***Remarks*

The appropriations under this chapter are intended to finance the implementation of preparatory actions in the field of application of the TFEU and the Euratom Treaty, designed to prepare proposals with a view to the adoption of future actions. Their total corresponds to the level of appropriations shown under Article 10 20 02.

PA 12 20 01 Preparatory action — EU-coordinated Darknet monitoring to counter criminal activities

*Figures (Differentiated appropriations)*

Appropriations 2021		Appropriations 2020		Outturn 2019	
Commitments	Payments	Commitments	Payments	Commitments	Payments
p.m.	p.m.	2 000 000	500 000		

*Remarks**Former item*

18 02 77 04

In view of the alarming data contained in reports such as the European Drug Report 2019, there is an urgent need for stronger Union-wide coordinated action on monitoring the Darknet to counter rising threats from criminal activities such as trafficking and distribution of drugs and other illegal substances, illegal arms trading and human trafficking. Hard-to-track communication on the Darknet has become a key element of such illegal operations, especially cross border, and its effective monitoring remains a challenge for Member State law enforcement authorities. Not all Member State law enforcement authorities possess adequate means to systematically monitor the Darknet or effectively coordinate joint Union actions and cooperation in this area, but examples of good practices and results do exist, albeit fragmented and uneven across the Union.

This preparatory action aims to develop software and hardware for efficient Darknet monitoring at Union level, which will be made available to the Union and Member State law enforcement authorities, together with training and assistance in coordination and capacity building for joint European Darknet monitoring.

**CHAPTER PA 13 — DEFENCE***Remarks*

The appropriations under this chapter are intended to finance the implementation of preparatory actions in the field of application of the TFEU and the Euratom Treaty, designed to prepare proposals with a view to the adoption of future actions. Their total corresponds to the level of appropriations shown under Article 13 20 02.

## **OTHER ANNEXES**

**EUROPEAN ECONOMIC AREA**

COMMISSION  
EUROPEAN ECONOMIC AREA

Under the Agreement establishing the European Economic Area the EFTA States (with the exception of Switzerland) take part in a wide range of Union policies covered by headings 1, 2, 3, 5, 6 and 7 of the multiannual financial framework in exchange for a financial contribution to operating appropriations calculated by applying a 'proportionality factor'. This proportionality factor is equal to the sum of the ratios obtained by dividing the gross domestic product at market prices of each EFTA State by the gross domestic product at market prices of all the Member States plus that of the EFTA State concerned.

For 2021 the proportionality factor is estimated at 2,70 % (on the basis of 2019 figures), i.e. 2,51 % for Norway, 0,15 % for Iceland and 0,04 % for Liechtenstein.

These financial contributions will not be formally entered into the budget; each budget heading relating to activities in which the EFTA States take part will refer to the EFTA contribution as a memorandum item. A summary table, listing the budget headings concerned and the amounts of the EFTA contribution for each budget heading, is published as an annex to the general budget of the Union. The total EFTA contribution for the operational part for 2021 is estimated at about EUR 560 909 290 in commitment appropriations. The EFTA States will also share in the administrative expenditure directly linked to the implementation of these policies.

#### A. INTRODUCTION

This Annex is drawn up in accordance with Article 38(1) of Regulation (EU, Euratom) 2018/1046 of the European Parliament and of the Council of 18 July 2018 on the financial rules applicable to the general budget of the Union, amending Regulations (EU) No 1296/2013, (EU) No 1301/2013, (EU) No 1303/2013, (EU) No 1304/2013, (EU) No 1309/2013, (EU) No 1316/2013, (EU) No 223/2014, (EU) No 283/2014, and Decision No 541/2014/EU and repealing Regulation (EU, Euratom) No 966/2012 (OJ L 193, 30.7.2018, p. 1).

It provides information on the amounts of the borrowing-and-lending operations guaranteed by the Union budget: loans for balance-of-payments support (BOP), assistance under the European Financial Stability Mechanism (EFSM), borrowing operations to provide macro-financial assistance to third countries (MFA), Euratom borrowings to contribute to the financing required for improving the degree of efficiency and safety of nuclear power stations in certain third countries, assistance under the European Instrument for temporary Support to mitigate Unemployment Risks in an Emergency (SURE) and European Investment Bank loans in certain third countries.

At 31 December 2019, outstanding operations covered by the Union budget totalled EUR 80 966 105 342, of which a total of EUR 48 648 263 639 referred to operations inside the Union and EUR 32 317 841 703 outside the Union (including accrued interest and rounding, exchange rate applicable at 31 December 2019).

BORROWING-AND-LENDING OPERATIONS — BORROWING-AND-LENDING OPERATIONS GUARANTEED BY THE UNION BUDGET  
(BY WAY OF INDICATION)**B. BRIEF PRESENTATION OF THE VARIOUS CATEGORIES OF BORROWING-AND-LENDING OPERATIONS  
GUARANTEED BY THE UNION BUDGET****I. SINGLE FACILITY PROVIDING MEDIUM-TERM FINANCIAL ASSISTANCE FOR MEMBER STATES' BALANCES OF PAYMENTS****1. Legal basis**

Council Regulation (EC) No 332/2002 of 18 February 2002 establishing a facility providing medium-term financial assistance for Member States' balances of payments (OJ L 53, 23.2.2002, p. 1).

Council Regulation (EC) No 1360/2008 of 2 December 2008 amending Regulation (EC) No 332/2002 establishing a facility providing medium-term financial assistance for Member States' balances of payments (OJ L 352, 31.12.2008, p. 11).

Council Decision 2009/290/EC of 20 January 2009 providing Community medium-term financial assistance for Latvia (OJ L 79, 25.3.2009, p. 39).

Council Decision 2009/459/EC of 6 May 2009 providing Community medium-term financial assistance for Romania (OJ L 150, 13.6.2009, p. 8).

Council Regulation (EC) No 431/2009 of 18 May 2009 amending Regulation (EC) No 332/2002 establishing a facility providing medium-term financial assistance for Member States' balances of payments (OJ L 128, 27.5.2009, p. 1).

**2. Description**

In accordance with Regulation (EC) No 332/2002, the Union may grant loans to Member States which are experiencing, or are seriously threatened with, difficulties in their balance of current payments or capital movements. Only Member States which have not adopted the euro may benefit from this facility. The outstanding amount of loans was limited to EUR 12 000 000 000 in principal.

On 2 December 2008, the Council decided to extend the facility to EUR 25 000 000 000.

On 20 January 2009, the Council decided to provide Community medium-term financial assistance for Latvia in the form of a medium-term loan of a principal of up to EUR 3 100 000 000 for a maximum average maturity of 7 years.

On 6 May 2009, the Council decided to provide Community medium-term financial assistance for Romania in the form of a medium-term loan of a principal of up to EUR 5 000 000 000 for a maximum average maturity of 5 years.

On 18 May 2009, the Council decided to extend the facility to EUR 50 000 000 000.

**3. Effect on the budget**

Since both parts of these borrowing-and-lending operations are carried out on identical terms, they affect the budget only if the guarantee is activated in case of default. As at 31 December 2020, the outstanding capital amount under this instrument is EUR 200 000 000.

II. EUROPEAN UNION GUARANTEE FOR UNION BORROWINGS FOR FINANCIAL ASSISTANCE UNDER THE EUROPEAN FINANCIAL STABILISATION MECHANISM

1. **Legal basis**

Council Regulation (EU) No 407/2010 of 11 May 2010 establishing a European financial stabilisation mechanism (OJ L 118, 12.5.2010, p. 1).

Article 122(2) of the Treaty on the Functioning of the European Union (TFEU).

Council Implementing Decision 2011/77/EU of 7 December 2010 on granting Union financial assistance to Ireland (OJ L 30, 4.2.2011, p. 34).

Council Implementing Decision 2011/344/EU of 30 May 2011 on granting Union financial assistance to Portugal (OJ L 159, 17.6.2011, p. 88).

Council Implementing Decision 2011/682/EU of 11 October 2011 amending Implementing Decision 2011/77/EU on granting Union financial assistance to Ireland (OJ L 269, 14.10.2011, p. 31).

Council Implementing Decision 2011/683/EU of 11 October 2011 amending Implementing Decision 2011/344/EU on granting Union financial assistance to Portugal (OJ L 269, 14.10.2011, p. 32).

Council Implementing Decision 2013/313/EU of 21 June 2013 amending Implementing Decision 2011/77/EU on granting Union financial assistance to Ireland (OJ L 173, 26.6.2013, p. 40).

Council Implementing Decision 2013/323/EU of 21 June 2013 amending Implementing Decision 2011/344/EU on granting Union financial assistance to Portugal (OJ L 175, 27.6.2013, p. 47).

Council Implementing Decision 2013/525/EU of 22 October 2013 amending Implementing Decision 2011/77/EU on granting Union financial assistance to Ireland (OJ L 282, 24.10.2013, p. 71).

2. **Description**

Article 122(2) TFEU provides for the possibility of the Union granting financial assistance to a Member State which is in difficulties or is seriously threatened with severe difficulties caused, inter alia, by exceptional occurrences beyond its control.

The guarantee provided by the Union is for borrowings raised on the capital markets or from financial institutions.

In accordance with Article 2(2) of Regulation (EU) No 407/2010, the outstanding amount of loans and credit lines granted to Member States under the European financial stabilisation mechanism shall be limited to the margin available under the Union's own resources for payment appropriations.

This item constitutes the structure for the guarantee provided by the Union. It will enable the Commission to service the debt should debtors default.

In order to honour its obligations, the Commission may draw on its cash resources to service the debt provisionally. Article 12 of Council Regulation (EC, Euratom) No 1150/2000 of 22 May 2000 implementing Decision 2007/436/EC, Euratom on the system of the European Communities own resources (OJ L 130, 31.5.2000, p. 1) shall apply.

On 7 December 2010, the Union decided to make available to Ireland a loan amounting to a maximum of EUR 22 500 000 000, with a maximum average maturity of 7,5 years (OJ L 30, 4.2.2011, p. 34).

On 30 May 2011, the Union decided to make available to Portugal a loan amounting to a maximum of EUR 26 000 000 000 (OJ L 159, 17.6.2011, p. 88).

## COMMISSION

BORROWING-AND-LENDING OPERATIONS — BORROWING-AND-LENDING OPERATIONS GUARANTEED BY THE UNION BUDGET  
(BY WAY OF INDICATION)

On 11 October 2011, the Council decided to amend Implementing Decisions 2011/77/EU and 2011/344/EU by extending the maturities and applying the reduction of the interest rate margin to all the tranches that have already been disbursed (Implementing Decisions 2011/682/EU and 2011/683/EU).

On 21 June 2013, the Council decided to amend Implementing Decision 2011/77/EU by extending the average loan maturity and providing the possibility to extend instalment maturities at the request of Ireland (Implementing Decision 2013/313/EU).

On 21 June 2013, the Council decided to amend Implementing Decision 2011/77/EU by extending the average loan maturity and providing the possibility to extend instalment maturities at the request of Portugal. In addition, measures to be adopted by the country in line with specification in the Memorandum of Understanding were specified (Implementing Decision 2013/323/EU).

On 22 October 2013, the Council decided to amend Implementing Decision 2011/77/EU by extending the availability of the financial assistance granted to Ireland (Implementing Decision 2013/525/EU).

### 3. Effect on the budget

Since both parts of these borrowing-and-lending operations are carried out on identical terms, they affect the budget only if the guarantee is activated in case of default. At 31 December 2020, the outstanding capital amount under this instrument is EUR 46 800 000 000.

III. EUROPEAN UNION GUARANTEE FOR BORROWING PROGRAMMES CONTRACTED BY THE UNION TO PROVIDE MACRO-FINANCIAL ASSISTANCE FOR MEDITERRANEAN THIRD COUNTRIES

1. **Legal basis**

Decision No 1351/2013/EU of the European Parliament and of the Council of 11 December 2013 on providing macro-financial assistance to the Hashemite Kingdom of Jordan (OJ L 341, 18.12.2013, p. 4).

Decision No 534/2014/EU of the European Parliament and of the Council of 15 May 2014 providing macro-financial assistance to the Republic of Tunisia (OJ L 151, 21.5.2014, p. 9).

Decision (EU) 2016/1112 of the European Parliament and of the Council of 6 July 2016 providing further macro-financial assistance to Tunisia (OJ L 186, 9.7.2016, p. 1).

Decision (EU) 2016/2371 of the European Parliament and of the Council of 14 December 2016 providing further macro-financial assistance to the Hashemite Kingdom of Jordan (OJ L 352, 23.12.2016, p. 18).

Decision (EU) 2020/33 of the European Parliament and of the Council of 15 January 2020 providing further macro-financial assistance to the Hashemite Kingdom of Jordan (OJ L 14, 17.01.2020, p. 1).

Decision (EU) 2020/701 of the European Parliament and of the Council of 25 May 2020 on providing macro-financial assistance to enlargement and neighbourhood partners in the context of the COVID-19 pandemic (OJ L 165, 27.5.2020, p. 31).

2. **Description**

On 11 December 2013, the European Parliament and the Council decided to make macro-financial assistance available to Jordan in the form of loans for a maximum amount of EUR 180 000 000 and with a maximum maturity of 15 years, to cover Jordan's balance of payments needs as identified in the IMF programme. The facility was fully disbursed in two equal tranches in 2015.

On 15 May 2014, the European Parliament and the Council decided to make macro-financial assistance available to Tunisia in the form of loans for a maximum amount of EUR 300 000 000 and with a maximum maturity of 15 years, to cover Tunisia's balance of payments needs as identified in the IMF programme. The first two tranches, each of EUR 100 000 000, were both disbursed in 2015 and the third tranche in July 2017.

On 6 July 2016, the European Parliament and the Council decided to provide further macro-financial assistance to Tunisia in the form of loans for a maximum amount of EUR 500 000 000 (three loan instalments of EUR 200 000 000, EUR 150 000 000 and EUR 150 000 000). The first tranche of EUR 200 000 000 was disbursed in October 2017, the second tranche of EUR 150 000 000 was disbursed in July 2019 and the third and last tranche of EUR 150 000 000 was disbursed in November 2019.

On 14 December 2016, the European Parliament and the Council decided to provide further macro-financial assistance to Jordan in the form of loans for a maximum amount of EUR 200 000 000 (two loan instalments of EUR 100 000 000). The first tranche of EUR 100 000 000 was disbursed in October 2017 and the second and last tranche of EUR 100 000 000 was disbursed in July 2019.

On 15 January 2020, the European Parliament and the Council decided to provide further macro-financial assistance to Jordan in the form of loans for a maximum amount of EUR 500 000 000 in two instalments with principal amounts of EUR 250 000 000 and EUR 250 000 000 respectively. The first tranche of EUR 250 000 000 was disbursed in November 2020.

On 25 May 2020, the European Parliament and the Council decided to provide further macro-financial assistance to Jordan and Tunisia in view of the urgency entailed by the exceptional circumstances caused by the COVID-19 pandemic and the associated economic consequences. The assistance will be provided in the form of loans for a maximum total amount of EUR 200 000 000 for Jordan and EUR 600 000 000 for Tunisia (two loan instalments of EUR 300 000 000).

## COMMISSION

BORROWING-AND-LENDING OPERATIONS — BORROWING-AND-LENDING OPERATIONS GUARANTEED BY THE UNION BUDGET  
(BY WAY OF INDICATION)**3. Effect on the budget**

Since the entry into force of Council Regulation (EC, Euratom) No 2728/94 of 31 October 1994 establishing a Guarantee Fund for external actions (OJ L 293, 12.11.1994, p. 1), subsequently amended by Council Regulation (EC, Euratom) No 480/2009 (OJ L 145, 10.6.2009, p. 10) and Regulation (EU) 2018/409 (OJ L 76, 19.3.2018, p. 1), any defaults are covered by that fund within the limit of the amount available.

The effect on the budget is thus limited to:

- one annual payment to or, exceptionally, from the Guarantee Fund to maintain its target amount of 9 % of the guaranteed operations,
- activation of the budget guarantee should the debtor default.

Decision (EU) 2018/947 of the European Parliament and of the Council of 4 July 2018 providing further macro-financial assistance to Ukraine (OJ L 171, 6.7.2018, p. 11).

Decision (EU) 2020/701 of the European Parliament and of the Council of 25 May 2020 on providing macro-financial assistance to enlargement and neighbourhood partners in the context of the COVID-19 pandemic (OJ L 165, 27.5.2020, p. 31).

2. **Description**

On 17 November 1997, the Council decided to grant a European Union guarantee for an exceptional borrowing-and-lending operation for Georgia of a maximum amount of EUR 142 000 000 with a maximum duration of 15 years.

The first tranche of EUR 110 000 000 was paid to Georgia on 24 July 1998. The second tranche is no longer to be made.

On 12 July 2002, the Council decided to make available to Ukraine a long-term loan facility of a maximum principal amount of EUR 110 000 000 with a maximum maturity of 15 years, with a view to ensuring a sustainable balance-of-payments situation, strengthening the country's reserve position and facilitating the implementation of the necessary structural reforms. The total amount of the facility was disbursed in 2014.

On 7 July 2010, the European Parliament and the Council decided to make available to Ukraine a long-term loan facility of a maximum principal amount of EUR 500 000 000 with a maximum maturity of 15 years, with a view to ensuring a sustainable balance-of-payments situation. The facility was fully disbursed in two equal tranches in 2014 and 2015.

## COMMISSION

BORROWING-AND-LENDING OPERATIONS — BORROWING-AND-LENDING OPERATIONS GUARANTEED BY THE UNION BUDGET  
(BY WAY OF INDICATION)

On 12 August 2013, the European Parliament and the Council decided to make macro-financial assistance available to Georgia of a maximum amount of EUR 46 000 000 (up to EUR 23 000 000 in the form of grants and up to EUR 23 000 000 in the form of loans) for a maximum maturity of 15 years. The first tranche of EUR 10 000 000 was disbursed in April 2015 and the second tranche of EUR 13 000 000 was disbursed in May 2017.

On 14 April 2014, the Council decided to make macro-financial assistance available to Ukraine in the form of loans for a maximum amount of EUR 1 000 000 000 and with a maximum maturity of 15 years, to cover Ukraine's urgent balance of payments needs as identified in the IMF programme. The total amount of EUR 1 000 000 000 was disbursed in 2014.

On 15 April 2015, the Council decided to make macro-financial assistance available to Ukraine of a maximum amount of EUR 1 800 000 000 and with a maximum maturity of 15 years, with a view to supporting Ukraine's economic stabilisation and a substantive reform agenda. The assistance is to contribute to covering Ukraine's balance of payments needs as identified in the IMF programme. The first tranche of EUR 600 000 000 was disbursed in July 2015 and the second tranche of EUR 600 000 000 was disbursed in March 2017.

On 18 April 2018, the Council decided to make macro-financial assistance available to Georgia of a maximum amount of EUR 45 000 000, with a view to supporting Georgia's economic stabilisation and a substantive reform agenda. Of that maximum amount, up to EUR 35 000 000 shall be provided in the form of loans and up to EUR 10 000 000 in the form of grants. The release of the Union's macro-financial assistance is subject to the approval of the Union budget for the relevant year by the European Parliament and the Council. The assistance shall contribute to covering Georgia's balance of payments needs as identified in the IMF programme. The first tranche of EUR 15 000 000 was disbursed in December 2018 and the remaining tranche of EUR 20 000 000 was disbursed in November 2020 (together with the first tranche of EUR 75 000 000 for Georgia under the special MFA COVID-19 programme).

On 4 July 2018, the Council decided to make macro-financial assistance available to Ukraine of a maximum amount of EUR 1 000 000 000, with a view to supporting Ukraine's economic stabilisation and substantive reform agenda. That assistance shall contribute to covering Ukraine's balance of payments needs as identified in the IMF programme. The first tranche of EUR 500 000 000 was disbursed in December 2018 and the second tranche of EUR 500 000 000 was disbursed in June 2020.

On 25 May 2020, the European Parliament and the Council decided to provide further macro-financial assistance to Georgia and Ukraine in view of the urgency entailed by the exceptional circumstances caused by the COVID-19 pandemic and the associated economic consequences. The assistance will be provided in the form of loans for a maximum total amount of EUR 1 500 000 000 for Georgia (two loan instalments of EUR 75 000 000) and EUR 1 200 000 000 for Ukraine (two loan instalments of EUR 600 000 000). The first tranche of EUR 75 000 000 for Georgia was disbursed in November 2020 and the first tranche of EUR 600 000 000 for Ukraine was disbursed in December 2020.

### 3. Effect on the budget

Since the entry into force of Council Regulation (EC, Euratom) No 2728/94 of 31 October 1994 establishing a Guarantee Fund for external actions (OJ L 293, 12.11.1994, p. 1), subsequently amended by Council Regulation (EC, Euratom) No 480/2009 (OJ L 145, 10.6.2009, p. 10) and Regulation (EU) 2018/409 (OJ L 76, 19.3.2018, p. 1), any defaults are covered by that fund within the limit of the amount available.

The effect on the budget is thus limited to:

- one annual payment to or, exceptionally, from the Guarantee Fund to maintain its target amount of 9 % of the guaranteed operations,
- activation of the budget guarantee should the debtor default.

Decision No 1025/2013/EU of the European Parliament and the of the Council of 22 October 2013 providing macro-financial assistance to the Kyrgyz Republic (OJ L 283, 25.10.2013, p. 1).

Decision (EU) 2017/1565 of the European Parliament and of the Council of 13 September 2017 providing macro-financial assistance to the Republic of Moldova (OJ L 242, 20.9.2017, p. 14).

Decision (EU) 2020/701 of the European Parliament and of the Council of 25 May 2020 on providing macro-financial assistance to enlargement and neighbourhood partners in the context of the COVID-19 pandemic (OJ L 165, 27.5.2020, p. 31).

2. **Description**

On 17 November 1997, the Council decided to grant a European Union guarantee for an exceptional borrowing-and-lending operation for Armenia for a maximum amount of EUR 28 000 000 with a maximum duration of 15 years.

On 30 November 2009, the Council decided to grant a European Union guarantee for a borrowing-and-lending operation for Armenia in the form of a long-term loan for a maximum amount of EUR 65 000 000 in principal for a maximum duration of 15 years. The first tranche of EUR 26 000 000 was disbursed in 2011, the second and final one in 2012.

On 22 October 2013, the European Parliament and the Council decided to make macro-financial assistance available to the Kyrgyz Republic of a maximum amount of EUR 30 000 000 (up to EUR 15 000 000 in the form of grants and up to EUR 15 000 000 in the form of loans) for a maximum maturity of 15 years. The first tranche of EUR 5 000 000 was disbursed in 2015 and the second tranche in April 2016.

On 13 September 2017, the European Parliament and the Council decided to make macro-financial assistance available to Moldova of a maximum amount of EUR 100 000 000 (up to EUR 40 000 000 in the form of grants and up to EUR 60 000 000 in the form of loans with a maximum maturity of 15 years), with a view to supporting Moldova's economic stabilisation and a substantive reform agenda. The first tranche of EUR 20 000 000 was disbursed in October 2019.

On 25 May 2020, the European Parliament and the Council decided to provide further macro-financial assistance to Moldova in view of the urgency entailed by the exceptional circumstances caused by the COVID-19 pandemic and the associated economic consequences. The assistance will be provided in the form of loans for a maximum total amount of EUR 100 000 000 (two loan instalments of EUR 50 000 000). The first tranche of EUR 50 000 000 was disbursed in November 2020.

3. **Effect on the budget**

Since the entry into force of Council Regulation (EC, Euratom) No 2728/94 of 31 October 1994 establishing a Guarantee Fund for external actions (OJ L 293, 12.11.1994, p. 1), subsequently amended by Council Regulation (EC, Euratom) No 480/2009 (OJ L 145, 10.6.2009, p. 10) and Regulation (EU) 2018/409 (OJ L 76, 19.3.2018, p. 1), any defaults are covered by that fund within the limit of the amount available.

Decision (EU) 2020/701 of the European Parliament and of the Council of 25 May 2020 on providing macro-financial assistance to enlargement and neighbourhood partners in the context of the COVID-19 pandemic (OJ L 165, 27.5.2020, p. 31).

2. **Description**

On 10 May 1999, the Council decided to grant a European Union guarantee for a borrowing-and-lending operation for Bosnia and Herzegovina in the form of a long-term loan for a maximum amount of EUR 20 000 000 in principal for a maximum duration of 15 years (Bosnia I).

The first tranche of EUR 10 000 000, for a maximum duration of 15 years, was paid to Bosnia and Herzegovina on 21 December 1999. The second tranche of EUR 10 000 000 was paid in 2001.

On 8 November 1999, the Council again decided to grant a European Union guarantee for a borrowing-and-lending operation for the former Yugoslav Republic of Macedonia in the form of a long-term loan for a maximum amount of EUR 50 000 000 in principal for a maximum duration of 15 years (FYROM II).

The first tranche of EUR 10 000 000, for a maximum duration of 15 years, was paid to the former Yugoslav Republic of Macedonia in January 2001, the second tranche of EUR 12 000 000 in January 2002, the third tranche of EUR 10 000 000 in June 2003 and the fourth tranche of EUR 18 000 000 in December 2003.

## COMMISSION

BORROWING-AND-LENDING OPERATIONS — BORROWING-AND-LENDING OPERATIONS GUARANTEED BY THE UNION BUDGET  
(BY WAY OF INDICATION)

On 16 July 2001, the Council decided to grant a European Union guarantee for a borrowing-and-lending operation for the Federal Republic of Yugoslavia (Serbia and Montenegro I) in the form of a long-term loan for a maximum amount of EUR 225 000 000 in principal for a maximum duration of 15 years. The loan was paid in a single tranche in October 2001.

On 5 November 2002, the Council decided to grant a European Union guarantee for a borrowing-and-lending operation for Bosnia and Herzegovina in the form of a long-term loan for a maximum amount of EUR 20 000 000 in principal for a maximum duration of 15 years (Bosnia II).

The first tranche of EUR 10 000 000, for a maximum duration of 15 years, was paid to Bosnia and Herzegovina in 2004, and the second tranche of EUR 10 000 000 in 2006.

On 5 November 2002, the Council decided to grant a European Union guarantee for a borrowing-and-lending operation for Serbia and Montenegro (Serbia and Montenegro II) in the form of a long-term loan for a maximum amount of EUR 55 000 000 in principal for a maximum duration of 15 years.

The first tranche of EUR 10 000 000 and the second tranche of EUR 30 000 000, for a maximum duration of 15 years, were paid to Serbia and Montenegro in 2003, and the third tranche of EUR 15 000 000 in 2005.

The loan to Albania IV of EUR 9 000 000, for a maximum duration of 15 years, was fully disbursed in 2006.

On 30 November 2009, the Council decided to grant a European Union guarantee for a borrowing-and-lending operation for Serbia in the form of a long-term loan for a maximum amount of EUR 200 000 000 in principal for a maximum duration of 8 years. The first tranche of EUR 100 000 000 was paid in 2011.

On 30 November 2009, the Council decided to grant a European Union guarantee for a borrowing-and-lending operation for Serbia in the form of a long-term loan for a maximum amount of EUR 100 000 000 in principal for a maximum duration of 15 years. The two tranches of EUR 50 000 000 were each paid in 2013.

On 25 May 2020, the European Parliament and the Council decided to provide further macro-financial assistance to Albania, Bosnia and Herzegovina, Kosovo, Montenegro and the Republic of North Macedonia in view of the urgency entailed by the exceptional circumstances caused by the COVID-19 pandemic and the associated economic consequences. The assistance will be provided in the form of loans for a maximum total amount of EUR 180 000 000 for Albania (two loan instalments of EUR 90 000 000), EUR 250 000 000 for Bosnia and Herzegovina (two loan instalments of EUR 125 000 000), EUR 100 000 000 for Kosovo (two loan instalments of EUR 50 000 000), EUR 60 000 000 for Montenegro (two loan instalments of EUR 30 000 000), and EUR 160 000 000 for the Republic of North Macedonia (two loan instalments of EUR 80 000 000). The first tranches for Kosovo, Montenegro and Republic of North Macedonia were disbursed in November 2020.

### 3. Effect on the budget

Since the entry into force of Council Regulation (EC, Euratom) No 2728/94 of 31 October 1994 establishing a Guarantee Fund for external actions (OJ L 293, 12.11.1994, p. 1), subsequently amended by Council Regulation (EC, Euratom) No 480/2009 (OJ L 145, 10.6.2009, p. 10) and Regulation (EU) 2018/409 (OJ L 76, 19.3.2018, p. 1), any defaults are covered by that fund within the limit of the amount available.

The effect on the budget is thus limited to:

- one annual payment to or, exceptionally, from the Guarantee Fund to maintain its target amount of 9 % of the guaranteed operations,
- activation of the budget guarantee should the debtor default.

(BY WAY OF INDICATION)

VII. EUROPEAN UNION GUARANTEE FOR EURATOM BORROWINGS TO IMPROVE THE DEGREE OF EFFICIENCY AND SAFETY OF NUCLEAR POWER STATIONS IN THE COUNTRIES OF CENTRAL AND EASTERN EUROPE AND THE COMMONWEALTH OF INDEPENDENT STATES

1. **Legal basis**

Council Decision 77/270/Euratom of 29 March 1977 empowering the Commission to issue Euratom loans for the purpose of contributing to the financing of nuclear power stations (OJ L 88, 6.4.1977, p. 9).

2. **Description**

Pursuant to Decision 94/179/Euratom (OJ L 84, 29.3.1994, p. 41), the European Union extends the scope of Euratom borrowings under Decision 77/270/Euratom to the improvement of the degree of efficiency and safety of nuclear power stations in the countries of central and eastern Europe and the Commonwealth of Independent States.

The maximum amount of Euratom borrowings for the Member States and third countries remains fixed at EUR 4 000 000 000.

In 2000, the Commission decided on a loan for Kozloduy in Bulgaria (EUR 212 500 000) and the last instalment was in 2006. In 2000, the Commission granted a loan to K2R4 in Ukraine but reduced the loan amount to the EUR equivalent of USD 83 000 000 in 2004. K2R4 was granted a loan of EUR 39 000 000 (first tranche) in 2007, USD 22 000 000 in 2008, and USD 10 335 000 in 2009 under the 2004 Commission Decision. In 2004, the Commission decided on a loan for Cernavodă in Romania (EUR 223 500 000). A first instalment of EUR 100 000 000 and a second one of EUR 90 000 000 were disbursed in 2005 and the last one of EUR 33 500 000 in 2006.

In 2013, the Commission decided to grant a loan to Energoatom, Ukraine, of EUR 300 000 000 for safety upgrades of nuclear power plants. The loan will be provided in cooperation with the EBRD, which provides another EUR 300 000 000 loan in parallel. The conditions precedent to the initial availability of the loan have been assessed as fully met in 2015 and the loan was declared effective.

On 27 May 2015, the Commission authorised disbursements under the Euratom loan to Energoatom in the amount of up to EUR 100 000 000, subject to Energoatom having drawn the loan amount granted by the EBRD in an amount not less than EUR 50 000 000. These loans benefit from State guarantees which cover 100% of the amounts outstanding at year end. The first tranche of EUR 50 000 000 was disbursed in May 2017 and the second tranche of EUR 50 000 000 was disbursed in July 2018.

3. **Effect on the budget**

Since the entry into force of Council Regulation (EC, Euratom) No 2728/94 of 31 October 1994 establishing a Guarantee Fund for external actions (OJ L 293, 12.11.1994, p. 1), subsequently amended by Council Regulation (EC, Euratom) No 480/2009 (OJ L 145, 10.6.2009, p. 10) and Regulation (EU) 2018/409 (OJ L 76, 19.3.2018, p. 1), any defaults are covered by that fund within the limit of the amount available.

The effect on the budget is thus limited to:

- one annual payment to or, exceptionally, from the Guarantee Fund to maintain its target amount of 9 % of the guaranteed operations,
- activation of the budget guarantee should the debtor default.

From 1 January 2007, loans with Bulgaria and Romania cease to be external actions (see Regulation (EC, Euratom) No 2273/2004 of 22 December 2004 amending Regulation (EC, Euratom) No 2728/94 establishing a Guarantee Fund for external actions (OJ L 396, 31.12.2004, p. 28)) and are therefore covered directly by the Union budget and no longer by the Guarantee Fund.

Decision No 466/2014/EU of the European Parliament and of the Council of 16 April 2014 granting an EU guarantee to the European Investment Bank against losses under financing operations supporting investment projects outside the Union (OJ L 135, 8.5.2014, p. 1), amended by Decision (EU) 2018/412 of the European Parliament and the Council of 14 March 2018 (OJ L 76, 19.3.2018, p. 30).

## 2. Union budget guarantee

Pursuant to the Council Decision of 8 March 1977, the Union guarantees loans to be granted by the European Investment Bank as part of the Union's financial commitments towards the Mediterranean countries.

This decision was the basis for the contract of guarantee signed by the European Economic Community and the European Investment Bank on 30 October 1978 in Brussels and 10 November 1978 in Luxembourg introducing a global guarantee of 75 % of all appropriations made available for loans in the following countries: Malta, Tunisia, Algeria, Morocco, Portugal (Financial Protocol, emergency aid), Turkey, Cyprus, Egypt, Jordan, Syria, Israel, Greece, former Yugoslavia and Lebanon.

The contract of guarantee is extended for each new Financial Protocol.

Decision 97/256/EC was the basis for a contract of guarantee between the European Community and the European Investment Bank signed in Brussels on 25 July 1997 and in Luxembourg on 29 July 1997 setting up a guarantee restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums.

Decision 1999/786/EC was the basis for a contract of guarantee between the European Community and the European Investment Bank signed in Brussels on 18 April 2000 and in Luxembourg on 23 May 2000 setting up a guarantee restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums.

Decision 2000/24/EC was the basis for a contract of guarantee between the European Community and the European Investment Bank signed in Brussels on 19 July 2000 and in Luxembourg on 24 July 2000 setting up a guarantee restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums.

Decision 2005/47/EC was the basis for a restated and amended contract of guarantee between the European Community and the European Investment Bank signed in Brussels on 30 August 2005 and in Luxembourg on 2 September 2005 setting up a guarantee restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums.

Decision 2006/1016/EC was the basis for a contract of guarantee between the European Community and the European Investment Bank signed in Luxembourg on 1 August 2007 and in Brussels on 29 August 2007 setting up a guarantee restricted to 65 % of the aggregate amount of credits disbursed and guarantees provided in respect of EIB financing operations less amounts reimbursed, plus all related sums. That Decision has been replaced by Decision No 633/2009/EC of the European Parliament and of the Council.

Decision No 1080/2011/EU was the basis for a contract of guarantee between the European Union and the European Investment Bank signed in Luxembourg and in Brussels on 22 November 2011 setting up a guarantee restricted to 65 % of the aggregate amount of credits disbursed and guarantees provided in respect of EIB financing operations less amounts reimbursed, plus all related sums.

Decision No 466/2014/EU was the basis for a contract of guarantee between the European Union and the European Investment Bank signed in Luxembourg and in Brussels on 22 July 2014 setting up a guarantee restricted to 65 % of the aggregate amount of credits disbursed and guarantees provided in respect of EIB financing operations less amounts reimbursed, plus all related sums.

COMMISSION

**BORROWING-AND-LENDING OPERATIONS — BORROWING-AND-LENDING OPERATIONS GUARANTEED BY THE UNION BUDGET  
(BY WAY OF INDICATION)**

Decision (EU) 2018/412 was the basis for a contract of guarantee between the European Union and the European Investment Bank signed in Luxembourg and in Brussels on 3 October 2018 setting up a guarantee restricted to 65 % of the aggregate amount of credits disbursed and guarantees provided in respect of EIB financing operations less amounts reimbursed, plus all related sums.

### 3. Description

Under the Financial Protocols concluded with Mediterranean third countries, global amounts are laid down for loans to be granted by the European Investment Bank from its own funds. The European Investment Bank (EIB) grants the loans for purposes which may contribute to the economic and social development of the countries in question (transport infrastructures, ports, water supply, production and distribution of energy, agricultural projects and promotion of small and medium-sized businesses).

On 14 April 1997, the Council decided to renew the Community guarantee to the EIB for loans for projects in the following Mediterranean countries: Algeria, Cyprus, Egypt, Israel, Jordan, Lebanon, Malta, Morocco, Syria, Tunisia, Turkey, Gaza and the West Bank. The guarantee is restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is equivalent to EUR 7 105 000 000, of which EUR 2 310 000 000 is for the abovementioned Mediterranean countries. It covered a period of three years beginning on 31 January 1997 (with a possible extension of six months).

The EIB is invited to aim to cover the commercial risk on 25 % of its lending from non-sovereign guarantees.

On 29 November 1999, the Council decided to grant a Community guarantee to the EIB against losses under loans for projects for the reconstruction of the earthquake-stricken areas of Turkey. The guarantee is restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is equivalent to EUR 600 000 000 and covered a period of three years beginning on 29 November 1999 (with a possible extension of six months).

The EIB is invited to aim to cover the commercial risk on 30 % of its lending from non-sovereign guarantees. This percentage is to be increased whenever possible, in so far as the market allows.

On 22 December 1999, the Council decided once again to grant the EIB the Community guarantee against losses resulting from loans for projects carried out in the following Mediterranean countries: Algeria, Cyprus, Egypt, Israel, Jordan, Lebanon, Malta, Morocco, Syria, Tunisia, Turkey, Gaza and the West Bank. The overall ceiling of the appropriations made available for all countries under Decision 2000/24/EC is equivalent to EUR 19 460 000 000. The guarantee is limited to 65 % of the total value of the appropriations made available plus all the related amounts. It covers a period of seven years from 1 February 2000 to 31 January 2007. As at the end of that period the loans granted by the EIB had not reached the abovementioned total values, the period was automatically extended by six months.

On 4 December 2000, the Council decided to establish an EIB special action programme in support of the consolidation and intensification of the EC-Turkey Customs Union. The value of those loans is limited to an overall ceiling of EUR 450 000 000.

Decision 2005/47/EC restructured the Mediterranean regional mandate to exclude Cyprus, Malta and Turkey, which were included in the South Eastern Neighbours mandate.

Decision 2006/1016/EC grants a Community guarantee to the EIB against losses under loans and loan guarantees for projects outside the Community for loans in the following Mediterranean countries: Algeria, Egypt, West Bank and Gaza, Israel, Jordan, Lebanon, Libya (eligibility to be decided by the Council), Morocco, Syria and Tunisia. The overall ceiling of the appropriations made available for all countries under Decision 2006/1016/EC is equivalent to EUR 27 800 000 000 and covers the period beginning on 1 February 2007 and ending on 31 December 2013 with a possible extension of six months. The Community guarantee is restricted to 65 %.

Decision 2006/1016/EC has been replaced by Decision No 633/2009/EC.

## COMMISSION

BORROWING-AND-LENDING OPERATIONS — BORROWING-AND-LENDING OPERATIONS GUARANTEED BY THE UNION BUDGET  
(BY WAY OF INDICATION)

Decision No 1080/2011/EU, which entered into force on 30 October 2011, increased the aggregate amount of credits disbursed and guarantees provided under EIB financing operations from EUR 25 800 000 000 to EUR 29 484 000 000 (EUR 2 000 000 000 for financing of climate change operations and EUR 1 684 000 000 for enhancing EIB risk operations).

Decision No 466/2014/EU granted an EU guarantee to the EIB against losses under financing operations supporting investment projects outside the Union (pre-accession countries, neighbourhood and partnership countries, Asia and Latin America, South Africa) throughout the period 2014-2020. It has been amended by Decision (EU) 2018/412. The maximum ceiling of the EIB financing operations, as per the amending Decision, is not to exceed EUR 32 300 000 000 broken down into regional ceilings and sub-ceilings as well as into:

(a) a maximum amount of EUR 30 000 000 000 under a general mandate, of which EUR 1 400 000 000 is earmarked for projects in the public sector directed towards the long-term economic resilience of refugees, migrants, host and transit communities, and communities of origin as a strategic response to addressing root causes of migration; and

(b) a maximum amount of EUR 2 300 000 000 under a private-sector lending mandate for projects directed towards the long-term economic resilience of refugees, migrants, host and transit communities, and communities of origin as a strategic response to addressing root causes of migration.

The EU guarantee is restricted to 65 % of the aggregated outstanding amount.

#### 4. Effect on the budget

Since the entry into force of Council Regulation (EC, Euratom) No 2728/94 of 31 October 1994 establishing a Guarantee Fund for external actions (OJ L 293, 12.11.1994, p. 1), subsequently amended by Council Regulation (EC, Euratom) No 480/2009 (OJ L 145, 10.6.2009, p. 10) and Regulation (EU) 2018/409 (OJ L 76, 19.3.2018, p. 1), any defaults are covered by that fund within the limit of the amount available.

The effect on the budget is thus limited to:

- one annual payment to or, exceptionally, from the Guarantee Fund to maintain its target amount of 9 % of the guaranteed operations,
- activation of the budget guarantee should the debtor default,
- the granting, in a series of cases, of interest-rate subsidies of 2 % in non-repayable aid, subject to the overall amounts laid down by the Financial Protocols.

Loans with new Member States cease to be external actions (see Regulation (EC, Euratom) No 2273/2004 of 22 December 2004 amending Regulation (EC, Euratom) No 2728/94 establishing a Guarantee Fund for external actions (OJ L 396, 31.12.2004, p. 28)) and are therefore covered directly by the Union budget and no longer by the Guarantee Fund.

IX. EUROPEAN UNION GUARANTEE FOR LOANS GRANTED BY THE EUROPEAN INVESTMENT BANK IN THIRD COUNTRIES OF CENTRAL AND EASTERN EUROPE AND THE WESTERN BALKANS

1. **Legal basis**

Some of the countries included in the legal bases below are now Member States or are considered to be pre-accession countries. Furthermore, the names of the countries may have changed since the relevant legal bases were adopted.

Decision of 29 November 1989 by the Board of Governors of the European Investment Bank concerning Bank operations in Hungary and Poland.

Council Decision 90/62/EEC of 12 February 1990 granting a Community guarantee to the European Investment Bank against losses under loans for projects in Hungary and Poland (OJ L 42, 16.2.1990, p. 68).

Council Decision 91/252/EEC of 14 May 1991 extending to the Czechoslovakia, Bulgaria and Romania Decision 90/62/EEC granting the Community guarantee to the European Investment Bank against losses under loans for projects in Hungary and Poland (OJ L 123, 18.5.1991, p. 44).

Council Decision 93/166/EEC of 15 March 1993 granting a Community guarantee to the European Investment Bank against losses under loans for investment projects carried out in Estonia, Latvia and Lithuania (OJ L 69, 20.3.1993, p. 42).

Council Decision 93/696/EC of 13 December 1993 granting a Community guarantee to the European Investment Bank against losses under loans for projects in central and east European countries (Poland, Hungary, the Czech Republic, the Slovak Republic, Romania, Bulgaria, Estonia, Latvia, Lithuania and Albania) (OJ L 321, 23.12.1993, p. 27).

Council Decision 97/256/EC of 14 April 1997 granting a Community guarantee to the European Investment Bank against losses under loans for projects outside the Community (Central and Eastern Europe countries, Mediterranean countries, Latin American and Asian countries, South Africa, the former Yugoslav Republic of Macedonia and Bosnia and Herzegovina) (OJ L 102, 19.4.1997, p. 33).

Council Decision 98/348/EC of 19 May 1998 granting a Community guarantee to the European Investment Bank against losses under loans for projects in the former Yugoslav Republic of Macedonia (OJ L 155, 29.5.1998, p. 53).

Council Decision 98/729/EC of 14 December 1998 amending Decision 97/256/EC so as to extend the Community guarantee granted to the European Investment Bank to cover loans for projects in Bosnia and Herzegovina (OJ L 346, 22.12.1998, p. 54).

Council Decision 2000/24/EC of 22 December 1999 granting a Community guarantee to the European Investment Bank against losses under loans for projects outside the Community (Central and Eastern Europe, Mediterranean countries, Latin America and Asia and the Republic of South Africa) (OJ L 9, 13.1.2000, p. 24).

Council Decision 2000/688/EC of 7 November 2000 amending Council Decision 2000/24/EC so as to extend the Community guarantee granted to the European Investment Bank to cover loans for projects in Croatia (OJ L 285, 10.11.2000, p. 20).

Council Decision 2001/778/EC of 6 November 2001 amending Decision 2000/24/EC so as to extend the Community guarantee granted to the European Investment Bank to cover loans for projects in the Federal Republic of Yugoslavia (OJ L 292, 9.11.2001, p. 43).

Council Decision 2005/47/EC of 22 December 2004 amending Decision 2000/24/EC to take into account the enlargement of the European Union and the European Neighbourhood Policy (OJ L 21, 25.1.2005, p. 9).

Decision No 633/2009/EC of the European Parliament and of the Council of 13 July 2009 granting a Community guarantee to the European Investment Bank against losses under loans and loan guarantees for projects outside the Community (OJ L 190, 22.7.2009, p. 1).

Decision No 1080/2011/EU of the European Parliament and of the Council of 25 October 2011 granting an EU guarantee to the European Investment Bank against losses under loans and loan guarantees for projects outside the Union and repealing Decision No 633/2009/EC (OJ L 280, 27.10.2011, p. 1).

Decision No 466/2014/EU of the European Parliament and of the Council of 16 April 2014 granting an EU guarantee to the European Investment Bank against losses under financing operations supporting investment projects outside the Union (OJ L 135, 8.5.2014, p. 1), amended by Decision (EU) 2018/412 of 14 March 2018 (OJ L 76, 19.3.2018, p. 30).

## 2. Union budget guarantee

Decision 90/62/EEC was the basis for the contract of guarantee signed by the European Economic Community and the European Investment Bank (EIB) on 24 April 1990 in Brussels and 14 May 1990 in Luxembourg concerning loans in Hungary and Poland, and the extension of this contract to loans in Czechoslovakia, Romania and Bulgaria signed on 31 July 1991 in Brussels and Luxembourg.

This contract of guarantee was the subject of an instrument signed in Brussels on 19 January 1993 and in Luxembourg on 4 February 1993 to replace the Czech and Slovak Federal Republic by the Czech Republic and the Slovak Republic from 1 January 1993.

Decision 93/696/EC was the basis for a contract of guarantee signed by the European Community and the EIB in Brussels on 22 July 1994 and in Luxembourg on 12 August 1994.

Decision 97/256/EC was the basis for a contract of guarantee between the European Community and the EIB signed in Brussels on 25 July 1997 and in Luxembourg on 29 July 1997.

Decision 98/348/EC and Decision 98/729/EC were the basis for a contract of guarantee between the European Community and the EIB signed in Brussels on 25 July 1997 and in Luxembourg on 29 July 1997.

Decision 2000/24/EC was the basis for a contract of guarantee between the European Community and the EIB signed in Brussels on 19 July 2000 and in Luxembourg on 24 July 2000.

Decision 2005/47/EC was the basis for a restated and amended contract of guarantee between the European Community and the EIB signed in Brussels on 30 August 2005 and in Luxembourg on 2 September 2005 setting up a guarantee restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums.

Decision 2006/1016/EC was the basis for a contract of guarantee between the European Community and the EIB signed in Luxembourg on 1 August 2007 and in Brussels on 29 August 2007 setting up a guarantee restricted to 65 % of the aggregate amount of credits disbursed and guarantees provided in respect of EIB financing operations less amounts reimbursed, plus all related sums. That Decision has been replaced by Decision No 633/2009/EC of the European Parliament and of the Council.

Decision No 1080/2011/EU was the basis for a contract of guarantee between the European Union and the EIB signed in Luxembourg and in Brussels on 22 November 2011 setting up a guarantee restricted to 65 % of the aggregate amount of credits disbursed and guarantees provided in respect of EIB financing operations less amounts reimbursed, plus all related sums.

COMMISSION

BORROWING-AND-LENDING OPERATIONS — BORROWING-AND-LENDING OPERATIONS GUARANTEED BY THE UNION BUDGET  
(BY WAY OF INDICATION)

Decision No 466/2014/EU was the basis for a contract of guarantee between the European Union and the EIB signed in Luxembourg and in Brussels on 22 July 2014 setting up a guarantee restricted to 65 % of the aggregate amount of credits disbursed and guarantees provided in respect of EIB financing operations less amounts reimbursed, plus all related sums.

Decision (EU) 2018/412 was the basis for a contract of guarantee between the European Union and the EIB signed in Luxembourg and in Brussels on 3 October 2018 setting up a guarantee restricted to 65 % of the aggregate amount of credits disbursed and guarantees provided in respect of EIB financing operations less amounts reimbursed, plus all related sums.

### 3. Description

In response to a call made by the Council on 9 October 1989, the Board of Governors of the European Investment Bank (EIB) decided on 29 November 1989 to authorise the Bank to provide loans from its own resources to finance investment projects in Hungary and Poland for a total amount not exceeding EUR 1 000 000 000. These loans are granted to finance investment projects which satisfy the Bank's usual requirements for loans from its own resources.

On 14 May 1991 and 15 March 1993, the Council decided that this guarantee should be extended to any loans that the EIB might make in the other countries of central and eastern Europe (Czechoslovakia, Bulgaria and Romania) over a period of 2 years up to a maximum of EUR 700 000 000.

On 13 December 1993, the Council decided to renew for 3 years the Community guarantee for EUR 3 000 000 000 in EIB loans for projects in Poland, Hungary, the Czech Republic, the Slovak Republic, Romania, Bulgaria, Estonia, Latvia, Lithuania and Albania.

The budget guarantee covers all aspects of debt-servicing (repayment of capital, interest, related costs) in connection with these loans.

On 14 April 1997, the Council decided to renew the Community guarantee to the EIB for loans for projects in Albania, Bulgaria, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Romania, Slovak Republic and Slovenia. The guarantee is restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is equivalent to EUR 7 105 000 000, of which EUR 3 520 000 000 is for the abovementioned countries of central and eastern Europe. It covers a period of 3 years beginning on 31 January 1997. As at the end of that period, the loans granted by the EIB had not attained the overall amounts referred to above, the period was automatically extended by six months.

On 19 May 1998, the Council decided to grant a Community guarantee to the EIB against losses under loans for projects in the former Yugoslav Republic of Macedonia. The guarantee is restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is equivalent to EUR 150 000 000 for a period of 2 years beginning on 1 January 1998. As at the end of that period, the loans granted by the EIB had not attained the overall amounts referred to above, the period was automatically extended by six months.

On 14 December 1998, the Council decided to amend Decision 97/256/EC in order to extend the Community guarantee to the EIB to loans for projects in Bosnia and Herzegovina. The guarantee is restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is EUR 100 000 000 for a period of two years beginning on 22 December 1998. As at the end of that period, the loans granted by the EIB had not attained the overall amounts referred to above, the period was automatically extended by six months.

The EIB is invited to aim to cover the commercial risk on 25 % of its lending from non-sovereign guarantees.

## COMMISSION

BORROWING-AND-LENDING OPERATIONS — BORROWING-AND-LENDING OPERATIONS GUARANTEED BY THE UNION BUDGET  
(BY WAY OF INDICATION)

On 22 December 1999, the Council decided to renew the Community guarantee to the EIB for loans for projects in Albania, the former Yugoslav Republic of Macedonia, Bosnia and Herzegovina, Bulgaria, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Romania, Slovak Republic and Slovenia. The overall ceiling of the appropriations made available for all countries under Decision 2000/24/EC is equivalent to EUR 19 460 000 000. The guarantee is restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums. It covers a period of seven years beginning on 1 February 2000 and ending on 31 January 2007. As at the end of that period, the loans granted by the EIB had not attained the overall amounts referred to above, the period was automatically extended by six months.

The EIB is invited to aim to cover the commercial risk on 30 % of its lending from non-sovereign guarantees. This percentage is to be increased whenever possible, in so far as the market allows.

On 7 November 2000, the Council decided to extend the guarantee granted by the Community to the EIB to loans for projects in Croatia.

On 6 November 2000, the Council decided to extend the guarantee granted by the Community to the EIB to loans for projects in the Federal Republic of Yugoslavia.

Decision 2005/47/EC restructured the Mediterranean regional mandate to exclude Cyprus, Malta and Turkey which were included in the South Eastern Neighbours mandate.

Decision 2006/1016/EC grants a Community guarantee to the EIB against losses under loans and loan guarantees for projects outside the Community for loans in the following candidates: Croatia, Turkey, the former Yugoslav Republic of Macedonia and potential candidate countries: Albania, Bosnia and Herzegovina, Serbia, and Kosovo. The overall ceiling of the appropriations made available for all countries under Decision 2006/1016/EC is equivalent to EUR 27 800 000 000 and covers the period beginning on 1 February 2007 and ending on 31 December 2013 with a possible extension of 6 months. The Community guarantee is restricted to 65 %. This Decision has been replaced by Decision No 633/2009/EC.

Decision No 1080/2011/EU, which entered into force on 30 October 2011, increased the aggregate amount of credits disbursed and guarantees provided under EIB financing operations from EUR 25 800 000 000 to EUR 29 484 000 000 (EUR 2 000 000 000 for financing of climate change operations and EUR 1 684 000 000 for enhancing EIB risk operations).

Decision No 466/2014/EU granted an EU guarantee to the EIB against losses under financing operations supporting investment projects outside the Union (pre-accession countries, neighbourhood and partnership countries, Asia and Latin America, South Africa) throughout the period 2014-2020. It has been amended by Decision (EU) 2018/412. The maximum ceiling of the EIB financing operations, as per the amending Decision, is not to exceed EUR 32 300 000 000 broken down into regional ceilings and sub-ceilings as well as into:

(a) a maximum amount of EUR 30 000 000 000 under a general mandate, of which EUR 1 400 000 000 is earmarked for projects in the public sector directed towards the long-term economic resilience of refugees, migrants, host and transit communities, and communities of origin as a strategic response to addressing root causes of migration; and

(b) a maximum amount of EUR 2 300 000 000 under a private-sector lending mandate for projects directed towards the long-term economic resilience of refugees, migrants, host and transit communities, and communities of origin as a strategic response to addressing root causes of migration.

The EU guarantee is restricted to 65 % of the aggregated outstanding amount.

#### 4. Effect on the budget

Since the entry into force of Council Regulation (EC, Euratom) No 2728/94 of 31 October 1994 establishing a Guarantee Fund for external actions (OJ L 293, 12.11.1994, p. 1), subsequently amended by Council Regulation (EC, Euratom) No 480/2009 (OJ L 145, 10.6.2009, p. 10) and Regulation (EU) 2018/409 (OJ L 76, 19.3.2018, p. 1), any defaults are covered by that fund within the limit of the amount available.

COMMISSION

*BORROWING-AND-LENDING OPERATIONS — BORROWING-AND-LENDING OPERATIONS GUARANTEED BY THE UNION BUDGET  
(BY WAY OF INDICATION)*

The effect on the budget is thus limited to:

- one annual payment to or, exceptionally, from the Guarantee Fund to maintain its target amount of 9 % of the guaranteed operations,
- activation of the budget guarantee should the debtor default.

Loans with new Member States cease to be external actions (see Regulation (EC, Euratom) No 2273/2004 of 22 December 2004 amending Regulation (EC, Euratom) No 2728/94 establishing a Guarantee Fund for external actions (OJ L 396, 31.12.2004, p. 28)) and are therefore covered directly by the Union budget and no longer by the Guarantee Fund.

Decision 2006/1016/EC was the basis for a contract of guarantee between the European Community and the EIB signed in Luxembourg on 1 August 2007 and in Brussels on 29 August 2007 setting up a guarantee restricted to 65 % of the aggregate amount of credits disbursed and guarantees provided in respect of EIB Financing Operations less amounts reimbursed, plus all related sums. That Decision has been replaced by Decision No 633/2009/EC.

Decision No 1080/2011/EU was the basis for a contract of guarantee between the European Union and the EIB signed in Luxembourg and in Brussels on 22 November 2011 setting up a guarantee restricted to 65 % of the aggregate amount of credits disbursed and guarantees provided in respect of EIB financing operations less amounts reimbursed, plus all related sums.

Decision No 466/2014/EU was the basis for a contract of guarantee between the European Union and the EIB signed in Luxembourg and in Brussels on 22 July 2014 setting up a guarantee restricted to 65 % of the aggregate amount of credits disbursed and guarantees provided in respect of EIB financing operations less amounts reimbursed, plus all related sums.

Decision (EU) 2018/412 was the basis for a contract of guarantee between the European Union and the EIB signed in Luxembourg and in Brussels on 3 October 2018 setting up a guarantee restricted to 65 % of the aggregate amount of credits disbursed and guarantees provided in respect of EIB financing operations less amounts reimbursed, plus all related sums.

### 3. Description

Pursuant to Decision 93/115/EEC the Union guarantees, on a case-by-case basis, loans made by the European Investment Bank (EIB) in third countries with which the European Union has concluded cooperation agreements.

Decision 93/115/EEC set an overall limit of EUR 250 000 000 a year for a period of 3 years.

On 12 December 1996, the Council granted the EIB a 100 % Community guarantee for loans for projects of mutual interest in certain third countries (Asian and Latin American developing countries) with which the Community has concluded cooperation agreements. This guarantee was restricted to an overall ceiling of EUR 275 000 000 to be granted in 1996 (with a possible extension of six months).

On 14 April 1997, the Council decided to renew the Community guarantee to the EIB for loans for projects in the following countries of Asia and Latin America: Argentina, Bolivia, Brazil, Chile, Colombia, Costa Rica, Ecuador, Guatemala, Honduras, Mexico, Nicaragua, Panama, Paraguay, Peru, Salvador, Uruguay, Venezuela, Bangladesh, Brunei, China, India, Indonesia, Macao, Malaysia, Mongolia, Pakistan, Philippines, Singapore, Sri Lanka, Thailand and Vietnam. The guarantee is restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is equivalent to EUR 7 105 000 000, of which EUR 900 000 000 is for the abovementioned countries of Asia and Latin America. It covered a period of 3 years beginning on 31 January 1997 (with a possible extension of six months).

The EIB is invited to aim to cover the commercial risk on 25 % of its lending from non-sovereign guarantees.

## COMMISSION

BORROWING-AND-LENDING OPERATIONS — BORROWING-AND-LENDING OPERATIONS GUARANTEED BY THE UNION BUDGET  
(BY WAY OF INDICATION)

On 22 December 1999, the Council decided to renew the Community guarantee to the EIB for loans for projects in the following countries of Asia and Latin America: Argentina, Bolivia, Brazil, Chile, Colombia, Costa Rica, Ecuador, Guatemala, Honduras, Mexico, Nicaragua, Panama, Paraguay, Peru, Salvador, Uruguay, Venezuela, Bangladesh, Brunei, China, India, Indonesia, Laos, Macao, Malaysia, Mongolia, Nepal, Pakistan, Philippines, Singapore, South Korea, Sri Lanka, Thailand, Vietnam and Yemen. The guarantee is restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available for all countries under Decision 2000/24/EC is equivalent to EUR 19 460 000 000. It covers a period of seven years beginning on 1 February 2000 and ending on 31 January 2007. As at the end of that period, the loans granted by the EIB had not attained the overall amounts referred to above, the period was automatically extended by six months.

The EIB is invited to aim to cover the commercial risk on 30 % of its lending from non-sovereign guarantees. This percentage is to be increased whenever possible, in so far as the market allows.

Decision 2005/47/EC was the basis for a restated and amended contract of guarantee between the European Community and the EIB signed in Brussels on 30 August 2005 and in Luxembourg on 2 September 2005 setting up a guarantee restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums.

Decision 2006/1016/EC grants a Community guarantee to the EIB against losses under loans and loan guarantees for projects outside the Community for loans in the following Latin America countries: Argentina, Bolivia, Brazil, Chile, Colombia, Costa Rica, Ecuador, El Salvador, Guatemala, Honduras, Mexico, Nicaragua, Panama, Paraguay, Peru, Uruguay, Venezuela and in the following Asia countries: Afghanistan\*, Bangladesh, Bhutan\*, Brunei, Cambodia\*, China, India, Indonesia, Iraq\*, South Korea, Laos, Malaysia, Maldives, Mongolia, Nepal, Pakistan, the Philippines, Singapore, Sri Lanka, Taiwan\*, Thailand, Vietnam, Yemen and Central Asia countries: Kazakhstan\*, Kyrgyzstan\*, Turkmenistan\*, Uzbekistan\* (\*: eligibility to be decided by the Council). The overall ceiling of the appropriations made available for all countries under Decision 2006/1016/EC is equivalent to EUR 27 800 000 000 and covers the period beginning on 1 February 2007 and ending on 31 December 2013 with a possible extension of six months. The Community guarantee is restricted to 65 %. That Decision has been replaced by Decision No 633/2009/EC.

Decision No 1080/2011/EU, which entered into force on 30 October 2011, increased the aggregate amount of credits disbursed and guarantees provided under EIB financing operations from EUR 25 800 000 000 to EUR 29 484 000 000 (EUR 2 000 000 000 for financing of climate change operations and EUR 1 684 000 000 for enhancing EIB risk operations).

Decision No 466/2014/EU granted an EU guarantee to the EIB against losses under financing operations supporting investment projects outside the Union (pre-accession countries, neighbourhood and partnership countries, Asia and Latin America, South Africa) throughout the period 2014-2020. It has been amended by Decision (EU) 2018/412. The maximum ceiling of the EIB financing operations, as per the amending Decision, is not to exceed EUR 32 300 000 000 broken down into regional ceilings and sub-ceilings as well as into:

(a) a maximum amount of EUR 30 000 000 000 under a general mandate, of which EUR 1 400 000 000 is earmarked for projects in the public sector directed towards the long-term economic resilience of refugees, migrants, host and transit communities, and communities of origin as a strategic response to addressing root causes of migration; and

(b) a maximum amount of EUR 2 300 000 000 under a private-sector lending mandate for projects directed towards the long-term economic resilience of refugees, migrants, host and transit communities, and communities of origin as a strategic response to addressing root causes of migration.

The EU guarantee is restricted to 65 % of the aggregated outstanding amount.

Decision No 466/2014/EU was the basis for a contract of guarantee between the European Union and the EIB signed in Luxembourg and in Brussels on 22 July 2014 setting up a guarantee restricted to 65 % of the aggregate amount of credits disbursed and guarantees provided in respect of EIB financing operations less amounts reimbursed, plus all related sums.

Decision (EU) 2018/412 was the basis for a contract of guarantee between the European Union and the EIB signed in Luxembourg and in Brussels on 3 October 2018 setting up a guarantee restricted to 65 % of the aggregate amount of credits disbursed and guarantees provided in respect of EIB financing operations less amounts reimbursed, plus all related sums.

### 3. Description

On 6 November 2001, the Council decided to grant a Community guarantee to the European Investment Bank (EIB) against losses under a special lending action for selected environmental projects in the Baltic Sea basin of Russia under the Northern Dimension. The overall ceiling of the credits is EUR 100 000 000. The EIB benefits from an exceptional Community guarantee of 100 %.

On 22 December 2004, the Council decided to grant a Community guarantee to the EIB against losses under loans for certain types of projects in Russia, Ukraine, Moldova and Belarus. The overall ceiling of the credits is EUR 500 000 000. The EIB benefits from an exceptional Community guarantee of 100 %.

Decision 2005/48/EC was the basis for a contract of guarantee between the European Community and the EIB signed in Brussels on 21 December 2005 and in Luxembourg on 9 December 2005 setting up a guarantee to 100 %.

Decision 2006/1016/EC grants a Community guarantee to the EIB against losses under loans and loan guarantees for projects outside the Community for loans in the following Eastern Europe countries: the Republic of Moldova, Ukraine, Belarus (eligibility to be decided by the Council); in the Southern Caucasus countries: Armenia, Azerbaijan, Georgia and in Russia. The overall ceiling of the appropriations made available for all countries under Decision 2006/1016/EC is equivalent to EUR 27 800 000 000 and covers the period beginning on 1 February 2007 and ending on 31 December 2013 with a possible extension of six months. The Community guarantee is restricted to 65 %. That Decision has been replaced by Decision No 633/2009/EC.

Decision No 1080/2011/EU, which entered into force on 30 October 2011, increased the aggregate amount of credits disbursed and guarantees provided under EIB financing operations from EUR 25 800 000 000 to EUR 29 484 000 000 (EUR 2 000 000 000 for financing of climate change operations and EUR 1 684 000 000 for enhancing EIB risk operations).

Decision No 466/2014/EU granted an EU guarantee to the EIB against losses under financing operations supporting investment projects outside the Union (pre-accession countries, neighbourhood and partnership countries, Asia and Latin America, South Africa) throughout the period 2014–2020. It has been amended by Decision (EU) 2018/412. The maximum ceiling of the EIB financing operations, as per the amending Decision, is not to exceed EUR 32 300 000 000 broken down into regional ceilings and sub-ceilings as well as into:

(a) a maximum amount of EUR 30 000 000 000 under a general mandate, of which EUR 1 400 000 000 is earmarked for projects in the public sector directed towards the long-term economic resilience of refugees, migrants, host and transit communities, and communities of origin as a strategic response to addressing root causes of migration; and

(b) a maximum amount of EUR 2 300 000 000 under a private-sector lending mandate for projects directed towards the long-term economic resilience of refugees, migrants, host and transit communities, and communities of origin as a strategic response to addressing root causes of migration.

The EU guarantee is restricted to 65 % of the aggregated outstanding amount.

Decision No 1080/2011/EU was the basis for a contract of guarantee between the European Union and the EIB signed in Luxembourg and in Brussels on 22 November 2011 setting up a guarantee restricted to 65 % of the aggregate amount of credits disbursed and guarantees provided in respect of EIB financing operations less amounts reimbursed, plus all related sums.

Decision No 466/2014/EU was the basis for a contract of guarantee between the European Union and the EIB signed in Luxembourg and in Brussels on 22 July 2014 setting up a guarantee restricted to 65 % of the aggregate amount of credits disbursed and guarantees provided in respect of EIB financing operations less amounts reimbursed, plus all related sums.

Decision (EU) 2018/412 was the basis for a contract of guarantee between the European Union and the EIB signed in Luxembourg and in Brussels on 3 October 2018 setting up a guarantee restricted to 65 % of the aggregate amount of credits disbursed and guarantees provided in respect of EIB financing operations less amounts reimbursed, plus all related sums.

### 3. Description

In accordance with the provisions of Decision 95/207/EC, the Union will guarantee European Investment Bank (EIB) loans to South Africa up to a maximum total amount of EUR 300 000 000.

The budget guarantee covers all the debt-servicing (repayment of principal, interest and ancillary costs) in connection with these loans.

On 14 April 1997, the Council decided to renew the Community guarantee to the EIB for loans for projects in the Republic of South Africa. The guarantee is restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is equivalent to EUR 7 105 000 000, of which EUR 375 000 000 is for the Republic of South Africa. It covered a period of three years beginning on 1 July 1997 (with a possible six-month extension).

The EIB is invited to aim to cover the commercial risk on 25 % of its lending from non-sovereign guarantees.

On 22 December 1999, the Council decided to renew the Community guarantee to the EIB for loans for projects in the Republic of South Africa. The guarantee is restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available for all countries under Decision 2000/24/EC is equivalent to EUR 19 460 000 000. It covers a period beginning on 1 July 2000 and ending on 31 January 2007. As at the end of that period, the loans granted by the EIB had not attained the overall amounts referred to above, the period was automatically extended by six months.

The EIB is invited to aim to cover the commercial risk on 30 % of its lending from non-sovereign guarantees. This percentage is to be increased whenever possible, in so far as the market allows.

Decision 2005/47/EC was the basis for a restated and amended contract of guarantee between the European Community and the EIB signed in Brussels on 30 August 2005 and in Luxembourg on 2 September 2005 setting up a guarantee restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums.

Decision 2006/1016/EC grants a Community guarantee to the EIB against losses under loans and loan guarantees for projects outside the Community for loans. The overall ceiling of the appropriations made available for all countries under Decision 2006/1016/EC is equivalent to EUR 27 800 000 000 and covers the period beginning on 1 February 2007 and ending on 31 December 2013 with a possible extension of six months. The Community guarantee is restricted to 65 %. That Decision has been replaced by Decision No 633/2009/EC.

Decision No 1080/2011/EU, which entered into force on 30 October 2011, increased the aggregate amount of credits disbursed and guarantees provided under EIB financing operations from EUR 25 800 000 000 to EUR 29 484 000 000 (EUR 2 000 000 000 for financing of climate change operations and EUR 1 684 000 000 for enhancing EIB risk operations).

## 2. Description

Article 122(1) TFEU allows the Council to decide, on a proposal from the Commission and in a spirit of solidarity between Member States, upon the measures appropriate to respond to the socio-economic situation following the COVID-19 outbreak.

Article 122(2) TFEU enables the Council to grant Union financial assistance to a Member State that is in difficulties or is seriously threatened with severe difficulties caused by exceptional occurrences beyond its control.

The creation of a European instrument for temporary support to mitigate unemployment risks in an emergency (SURE) following the COVID-19 outbreak should enable the Union to respond to the crisis in the labour market in a coordinated, rapid and effective manner and in a spirit of solidarity among Member States, thereby alleviating the impact on employment for individuals and the most affected economic sectors and mitigating the direct effects of this exceptional situation on public expenditure by the Member States.

Article 220(1) of Regulation (EU, Euratom) 2018/1046 <sup>(1)</sup> states that financial assistance by the Union to Member States can take the form of a loan. Such loans should be granted to Member States where the COVID-19 outbreak has led to a sudden and severe increase, as from 1 February 2020, in actual and possibly also planned public expenditure due to national measures. That date ensures equal treatment for all Member States and allows for coverage of their actual and possibly also planned increases in spending relating to the effects on the labour markets of the Member States, irrespective of when the COVID-19 outbreak occurred in each specific Member State. The national measures, which are understood to be in line with the relevant fundamental rights principles, should be directly related to the creation or extension of short-time work schemes and to similar measures, including measures for self-employed persons, or to some health-related measures. Short-time work schemes are public programmes that in certain circumstances allow businesses experiencing economic difficulties to temporarily reduce the hours worked by their employees, who are provided with public income support for the hours not worked.

Article 5 of Council Regulation (EU) 2020/672 of 19 May 2020 states that the maximum amount of financial assistance shall not exceed EUR 100 000 000 000 for all Member States.

<sup>(1)</sup> Regulation (EU, Euratom) 2018/1046 of the European Parliament and of the Council of 18 July 2018 on the financial rules applicable to the general budget of the Union, amending Regulations (EU) No 1296/2013, (EU) No 1301/2013, (EU) No 1303/2013, (EU) No 1304/2013, (EU) No 1309/2013, (EU) No 1316/2013, (EU) No 223/2014, (EU) No 283/2014, and Decision No 541/2014/EU and repealing Regulation (EU, Euratom) No 966/2012 (OJ L 193, 30.7.2018, p. 1).

## COMMISSION

**BORROWING-AND-LENDING OPERATIONS — BORROWING-AND-LENDING OPERATIONS GUARANTEED BY THE UNION BUDGET  
(BY WAY OF INDICATION)****3. Effect on the budget**

The COVID-19 outbreak has had a massive and disruptive impact on the economic system of each Member State. It therefore calls for collective contributions by Member States in the form of guarantees supporting the loans from the Union budget. Such guarantees are necessary to enable the Union to grant loans of a sufficient order of magnitude to Member States in order to support labour market policies which are under the greatest strain. To ensure that the contingent liability arising from such loans is compatible with the applicable multiannual financial framework and own-resources ceilings, the guarantees provided by the Member States should be irrevocable, unconditional and on demand, while additional safeguards should enhance the robustness of the system. In line with the complementary role of such guarantees, and without prejudice to their irrevocable, unconditional and on-demand nature, the Commission is expected, before calling on the guarantees provided by Member States, to draw on the margin available under the own-resources ceiling for payment appropriations to the extent that it is deemed sustainable by the Commission, having regard, inter alia, to the total contingent liabilities of the Union, including under the balance of payments facility established by Regulation (EC) No 332/2002 <sup>(1)</sup>. In the relevant call on guarantees, the Commission should inform the Member States about the extent to which the available margin has been drawn. The need for guarantees provided by Member States may be reviewed if an agreement on a revised own-resources ceiling is reached.

Since both parts of these borrowing-and-lending operations are carried out on identical terms, they affect the budget only if the guarantee is activated in case of default. As at 31 December 2020 the outstanding capital amount under this instrument is EUR 39 500 000 000.

---

<sup>(1)</sup> Council Regulation (EC) No 332/2002 of 18 February 2002 establishing a facility providing medium-term financial assistance for Member States' balances of payments (OJ L 53, 23.2.2002, p. 1).

(\*) Maturity lengthening operations for Portugal and Ireland are expected for 2021 with EUR 9,75 billion of loans coming due in June (EUR 5 billion) and September (EUR 4,75 billion). The total outstanding amount for EFSM will remain EUR 46 800 million.

(\*\*) The EUR 5 000 000 000 loan raised in 2015 corresponds to the lengthening and refinancing of a loan of 2011 (see 1.4.1. Technical notes on tables).

(\*\*\*) The EUR 4 750 000 000 due from Portugal in April 2016 have been lengthened as requested.

(\*\*\*\*) The EFSM loan to Ireland of EUR 3 400 000 000 disbursed in March 2011 (due on 4 April 2018) was refinanced and extended. Another two EFSM loans of EUR 500 000 000 (Ireland) and EUR 600 000 000 (Portugal) disbursed in October 2011 and due on 4 October 2018 were refinanced and extended.

### Technical notes on tables

Exchange rate: the amounts in column 2 'Equivalent at date of disbursement' are converted at the rate applicable on the date of signature. As regards refinancing operations, Table 1 shows both the initial operation (e.g. in 1979) and the replacement operation (e.g. in 1986), the amount for the latter being converted at the rate of the initial operation. The resulting duplication affects the annual figures but is eliminated in the total.

All other amounts are converted at the rate applicable at 31 December 2020.

Column 3 'Initial amount paid up to 31 December 2020': with reference to 1986, for example, this column shows the cumulative total of all amounts received up to 31 December 2020 under loans signed in 1986 (Table 1), including refinancing (which produces some duplication).

Column 4 'Amount outstanding at 31 December 2020': these are net figures, with no duplication as a result of refinancing operations. They are obtained by subtracting from the column 3 figure the cumulative total of repayments made up to 31 December 2020, including repayments in respect of refinancing operations (total not given in the tables).

Column 7 = column 4 – column 5.

MFA 2011: following the loan agreement signed by Montenegro on 9 February 2010 pursuant to Council Decision 2008/784/EC of 2 October 2008 establishing a separate liability of Montenegro, and reducing proportionally the liability of Serbia with regard to the long-term loans granted by the Community to the State Union of Serbia and Montenegro (formerly the Federal Republic of Yugoslavia) pursuant to Decisions 2001/549/EC and 2002/882/EC (OJ L 269, 10.10.2008, p. 8), the loans initially granted to Serbia and Montenegro in 2001, 2003 and 2005 have been re-initiated with a virtual starting date in 2011 in order to implement the splitting of the countries.

COMMISSION  
NOMENCLATURE CHANGES

### Introduction to the new nomenclature post-2020

The new programmes of the Multiannual Financial Framework (MFF) 2021-2027 as presented by the Commission in the communications of May 2018 <sup>(1)</sup> and 2020 <sup>(2)</sup> have required a substantial change in the way the budget is structured. The Commission has taken this opportunity to make the budget nomenclature clearer, more informative and better aligned with the new MFF headings and programmes.

From 2021, the budget nomenclature is structured by programme cluster (policy area) corresponding to the 'purpose' within the meaning of Article 47 of the Financial Regulation.

The first 15 titles correspond to the programme clusters within MFF headings 1 to 6 as presented in the MFF 2021-2027 proposals of May 2018 and 2020. Title 16 includes expenditure outside the annual ceilings set out in the MFF, mainly special instruments.

Within these first 16 titles, the structure in chapters has been harmonised as follows:

- Chapter 01 groups the support expenditure financed from the envelopes of the programmes included in the title as required by the Financial Regulation.

The support expenditure of each programme is classified in articles (and further broken down to item level where necessary) following the sequence of the operational chapters.

The operating subsidies of executive agencies charged to the envelopes of the programmes delegated to them are presented under standardised items allowing them to be easily identified across the whole nomenclature: XX 01 XX 6X.

- Chapters 02 to 07 (number varying from one title to another) group the operational expenditure of the programmes included in the title, broken down in articles (and items) that correspond to the specific objectives defined in the sectoral legal bases.
- Chapter 10 groups the Union contributions to the decentralised agencies included in the title.
- Chapter 20 groups the following types of expenditure:
  - Article 01 includes the total expenditure of the pilot projects of the title;
  - Article 02 includes the total expenditure of the preparatory actions of the title;
  - Article 03 includes expenditure that is not part of a programme but for which a basic act exists;
  - Article 04 includes the expenditure relating to actions financed under the prerogatives of the Commission and specific powers conferred on the Commission.

Title 20 includes the administrative expenditure of the Commission and Title 21 the pensions (of former staff and members of all Union institutions) and the contributions to the European Schools. These two titles include the expenditure falling under the MFF heading 7 'European Public Administration'.

Finally, Title 30 constitutes the 'provisions' title foreseen in the Article 49 of the Financial Regulation.

#### *Two complementary nomenclatures*

The main nomenclature of the Commission is complemented by two nomenclatures under Annexes 1 and 2 of its section:

- in accordance with Article 65 of the Financial Regulation, Annex 1 set out in further details the expenditure of the six offices (O1 to O6). This annex follows a structure by office similar to Title 20 of the main nomenclature where the total expenditure of each office is entered into specific budget lines (under Chapter 3);

<sup>(1)</sup> 'A Modern Budget for a Union that Protects, Empowers and Defends – The Multiannual Financial Framework 2021-2027' (COM(2018) 321, 2.5.2018, p. 29).

<sup>(2)</sup> 'The EU Budget powering the recovery plan for Europe' (COM(2020) 442, 27.5.2020, p. 19).

COMMISSION  
NOMENCLATURE CHANGES

- Annex 2 presents each individual ongoing pilot project and preparatory action with the following standardised structure:
  - a separate title for the pilot projects 'PP' and for the preparatory actions 'PA';
  - within each of these two titles, chapters corresponding to the programme cluster from which pilot projects and preparatory actions are financed. The total expenditure by chapter in Annex 2 corresponds to the amounts of expenditure presented under Articles XX 20 01 and XX 20 02 of the main nomenclature for pilot projects and preparatory actions, respectively;
  - within each chapter, articles correspond to the budgetary year in which the pilot projects and preparatory actions were adopted.

*Correspondence tables*

The new structure described above has resulted in a complete change of the nomenclature in place for budget 2020.

The tables below present, for each of the three nomenclatures (Main – pilot projects and preparatory actions – Offices), the correspondence at budget line level between the budget 2020 and the draft budget 2021, in both directions.

Appropriations 2021	Appropriations 2020	Outturn 2019
246 000	234 000	246 000,—

*Remarks*

This appropriation is intended to cover expenses of external staff where such work cannot be performed by the institution's staff.

## 1 4 0 6 External services in the linguistic field

Appropriations 2021	Appropriations 2020	Outturn 2019
17 588 000	17 303 500	15 605 447,99

*Remarks*

This appropriation is intended to cover:

- expenditure related to actions decided on by the Interinstitutional Committee for Translation and Interpretation with a view to promoting interinstitutional cooperation in the sphere of languages,
- payment for freelance interpreters from the Commission's Directorate-General for Interpretation,
- payment for conference interpreter agents,

**CHAPTER 1 4 — OTHER STAFF AND EXTERNAL SERVICES** (*cont'd*)**1 4 0** (*cont'd*)**1 4 0 6** (*cont'd*)

- payment for the services of contractual and ad hoc conference staff,
- supplementary services in connection with proofreading, in particular fees and insurance, travel, subsistence and mission costs for freelance proofreaders and ancillary administrative costs,
- expenditure for independent or agency translators or typing and other work done outside the institution for the translation department.

The Court of Justice of the European Union will endeavour to cooperate with the other Union institutions, by means of an interinstitutional understanding, in order to avoid unnecessary duplication of efforts in translating procedural documents, thereby securing further savings for the general budget of the Union.

**1 4 9** **Provisional appropriation**

Appropriations 2021	Appropriations 2020	Outturn 2019
p.m.	p.m.	

*Remarks*

This appropriation is intended to cover the effect of any updates of remuneration in the course of the financial year.

This appropriation is purely provisional and may be used only after its transfer to other articles or items of this chapter in accordance with the Financial Regulation.

*Legal basis*

Staff Regulations of Officials of the European Union, and in particular Articles 65 and 65a thereof and Annex XI thereto.

Regulation (EU, Euratom) 2018/1046 of the European Parliament and of the Council of 18 July 2018 on the financial rules applicable to the general budget of the Union, amending Regulations (EU) No 1296/2013, (EU) No 1301/2013, (EU) No 1303/2013, (EU) No 1304/2013, (EU) No 1309/2013, (EU) No 1316/2013, (EU) No 223/2014, (EU) No 283/2014, and Decision No 541/2014/EU and repealing Regulation (EU, Euratom) No 966/2012 (OJ L 193, 30.7.2018, p. 1).

## COURT OF JUSTICE OF THE EUROPEAN UNION

## CHAPTER 1 6 — OTHER EXPENDITURE RELATING TO PERSONS WORKING WITH THE INSTITUTION

**1 6 1** *Expenditure relating to staff management***1 6 1 0** Miscellaneous expenditure for staff recruitment

Appropriations 2021	Appropriations 2020	Outturn 2019
173 500	170 000	144 507,41

*Remarks*

This appropriation is intended to cover the costs of arranging the staff selection procedures arranged by the Court of Justice of the European Union directly, and the expenditure connected with the candidates' travel and medical examination.

In cases duly justified by operational requirements and after consultation with the European Personnel Selection Office, the appropriation may be used for competitions organised by the institution itself.

Amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation: p.m.

**1 6 1 2** Further training

Appropriations 2021	Appropriations 2020	Outturn 2019
1 780 500	1 745 500	1 528 061,33

*Remarks*

This appropriation is intended to cover further professional training and retraining courses, including language courses, run on an interinstitutional basis.

It also covers expenditure on educational and technical equipment.

Amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation: p.m.

*Legal basis*

Staff Regulations of Officials of the European Union, and in particular Article 24a thereof.

**1 6 2** *Missions*

Appropriations 2021	Appropriations 2020	Outturn 2019
405 000	478 500	498 500,—

**CHAPTER 1 6 — OTHER EXPENDITURE RELATING TO PERSONS WORKING WITH THE INSTITUTION** (*cont'd*)**1 6 2** (*cont'd*)*Remarks*

This appropriation is intended to cover transport costs, payment of daily subsistence allowances on mission and ancillary or special costs connected with missions.

Amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation: p.m.

*Legal basis*

Staff Regulations of Officials of the European Union, and in particular Articles 11, 12 and 13 of Annex VII thereto.

**1 6 3** ***Expenditure on staff of the institution*****1 6 3 0** Social welfare

Appropriations 2021	Appropriations 2020	Outturn 2019
50 000	20 000	20 000,—

*Remarks*

This appropriation is intended to cover assistance to be given to staff in particularly difficult circumstances.

It is also intended for the following categories of persons as part of a policy to assist people with disabilities:

- officials and temporary staff in active employment,
- spouses of officials and temporary staff in active employment,
- all dependent children within the meaning of the Staff Regulations of Officials of the European Union.

It covers reimbursement, to the extent permitted by the budget and after national entitlements in the country of residence or the country of origin have been exhausted, of expenses (other than medical expenses) recognised as necessary, resulting from the disability and supported by documentary evidence.

*Legal basis*

Staff Regulations of Officials of the European Union, and in particular Article 76 thereof.

**1 6 3 2** Social contacts between members of staff and other welfare expenditure

Appropriations 2021	Appropriations 2020	Outturn 2019
358 000	337 000	333 856,93

## COURT OF JUSTICE OF THE EUROPEAN UNION

**CHAPTER 1 6 — OTHER EXPENDITURE RELATING TO PERSONS WORKING WITH THE INSTITUTION** (*cont'd*)**1 6 3** (*cont'd*)1 6 3 2 (*cont'd*)*Remarks*

This appropriation is intended to:

- give financial encouragement and support to any project aimed at encouraging social contacts between staff of different nationalities, such as subsidies to staff clubs, cultural associations and sports associations,
- cover other assistance and subsidies for staff and their families.

Amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation: p.m.

**1 6 5** ***Activities relating to all persons working with the institution***

## 1 6 5 0 Medical service

Appropriations 2021	Appropriations 2020	Outturn 2019
193 000	187 000	120 845,50

*Remarks*

This appropriation is intended to cover the expenses of the annual medical examination of all officials, including tests and further medical examinations requested in connection therewith, the operating costs of the medical centre and expenditure relating to activities for the promotion of well-being at work.

Amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation: p.m.

*Legal basis*

Staff Regulations of Officials of the European Union, and in particular Article 59 thereof and Article 8 of Annex II thereto.

## 1 6 5 2 Restaurants and canteens

Appropriations 2021	Appropriations 2020	Outturn 2019
111 000	192 000	134 978,42

**CHAPTER 1 6 — OTHER EXPENDITURE RELATING TO PERSONS WORKING WITH THE INSTITUTION** (*cont'd*)**1 6 5** (*cont'd*)**1 6 5 2** (*cont'd*)*Remarks*

This appropriation is intended to cover the acquisition and maintenance of equipment in the restaurants and cafeterias, together with part of their operating costs, including in particular hygiene and quality controls.

It also covers the alteration and renewal costs for restaurant and canteen equipment.

Amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation: p.m.

**1 6 5 4** Early Childhood Centre

Appropriations 2021	Appropriations 2020	Outturn 2019
3 280 000	3 141 000	3 226 519,—

*Remarks*

This appropriation is intended to cover the contribution of the Court of Justice of the European Union to the Early Childhood Centre in Luxembourg.

Amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation: p.m.

**1 6 5 5** PMO expenditure for the administration of matters concerning the Court's staff

Appropriations 2021	Appropriations 2020	Outturn 2019
p.m.	113 000	118 000,—

*Remarks*

This appropriation is intended to cover expenditure incurred under service agreements between the Office for the Administration and Payment of Individual Entitlements (PMO) and the Court of Justice of the European Union.

**1 6 5 6** European Schools

Appropriations 2021	Appropriations 2020	Outturn 2019
46 000	45 000	58 500,—

## COURT OF JUSTICE OF THE EUROPEAN UNION

**CHAPTER 1 6 — OTHER EXPENDITURE RELATING TO PERSONS WORKING WITH THE INSTITUTION** (*cont'd*)**1 6 5** (*cont'd*)1 6 5 6 (*cont'd*)*Remarks*

This appropriation is intended to cover the contribution of the Court of Justice of the European Union to Type-II European Schools accredited by the Board of Governors of the European Schools or the reimbursement of the contribution paid by the Commission on behalf of the Court of Justice of the European Union for Type-II European Schools accredited by the Board of Governors of the European Schools, in accordance with the service agreement concluded with the Commission. It covers costs relating to children of staff of the Court of Justice of the European Union falling under the Staff Regulations who are enrolled in such schools.

Bank interest accruing on the institution's account is listed under revenue.

**2 3 2*****Legal expenses and damages***

Appropriations 2021	Appropriations 2020	Outturn 2019
30 000	30 000	7 426,74

*Remarks*

This appropriation is intended to cover, inter alia, lawyers' fees which the institution must pay in consideration for professional services supplied to it or as reimbursement of costs which the institution must bear in implementation of a court order, and damages.

Amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation: p.m.

## COURT OF JUSTICE OF THE EUROPEAN UNION

**CHAPTER 2 3 — CURRENT ADMINISTRATIVE EXPENDITURE** (*cont'd*)**2 3 6** *Postal charges*

Appropriations 2021	Appropriations 2020	Outturn 2019
1 30 000	1 30 000	119 000,—

*Remarks*

Amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation: p.m.

**2 3 8** *Other administrative expenditure*

Appropriations 2021	Appropriations 2020	Outturn 2019
518 000	401 000	1 248 028,43

*Remarks*

This appropriation is intended to cover:

- various kinds of insurance (in particular civil liability, theft, risks connected with word-processing equipment, electrical liability),
- the purchase, maintenance and cleaning of, in particular, judicial robes, uniforms for ushers and drivers, working clothes for staff responsible for the reproduction of documents and maintenance staff,
- miscellaneous expenditure for internal meetings,
- removal and handling costs for equipment, furniture and office supplies,
- operating expenditure incurred by service providers,
- other running costs not specially provided for in the preceding items.

Amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation: p.m.

**CHAPTER 2 5 — EXPENDITURE ON MEETINGS AND CONFERENCES****2 5 2** *Reception and representation expenses*

Appropriations 2021	Appropriations 2020	Outturn 2019

**CHAPTER 2 5 — EXPENDITURE ON MEETINGS AND CONFERENCES** (*cont'd*)**2 5 2** (*cont'd*)*Remarks*

This appropriation is intended to cover expenditure connected with the institution's duties as host and representative, and reception and representation expenses for members of staff.

**2 5 4** *Meetings, congresses, conferences and visits*

Appropriations 2021	Appropriations 2020	Outturn 2019
380 000	380 000	378 995,03

*Remarks*

This appropriation is intended to cover principally the organisation, with the collaboration of the Ministries of Justice, of seminars and other training programmes at the seat of the institution for members of the judiciary and the legal profession from the Member States.

Meetings with members of the national higher courts and with specialists in Union law are necessary in order to facilitate the development of the case-law of the institution concurrently with that of the national courts in matters connected with Union law.

This appropriation is also intended to cover travel and subsistence expenses for participants and other organisation costs.

Finally, this appropriation is intended also to fund visits by groups of visitors who are not law professionals, and especially students.

Amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation: p.m.

## COURT OF JUSTICE OF THE EUROPEAN UNION

**CHAPTER 2 7 — INFORMATION: ACQUISITION, ARCHIVING, PRODUCTION AND DISTRIBUTION** (*cont'd*)**2 7 2** (*cont'd*)*Remarks*

This appropriation is intended to cover:

- the acquisition of books, documents and other publications and updates for existing volumes,
- the entry and purchase of computerised legal data,
- special equipment for the library,
- subscriptions to newspapers, non-specialised periodicals and various bulletins,
- subscriptions to news agencies,
- the binding and upkeep of library books,
- access charges for certain legal databases,
- the contribution of the Court of Justice of the European Union to the costs of retention and protection of the historical archives of the Union at the European University Institute in Florence,
- the work of analysing decisions of the courts and supplying data for databases.

Amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation: p.m.

Amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation: p.m.

**2 3 8 Other administrative expenditure**

Appropriations 2021	Appropriations 2020	Outturn 2019
280 000	248 000	254 711,76

**CHAPTER 2 3 — CURRENT ADMINISTRATIVE EXPENDITURE** (*cont'd*)**2 3 8** (*cont'd*)*Remarks*

This appropriation is intended to cover:

- the cost of luggage insurance for staff travelling on mission,
- the purchase of uniforms for messengers and drivers, and other work clothes,
- the cost of refreshments and occasional snacks served during internal meetings,
- the costs of the removal and handling of equipment and furniture,
- other operating expenditure not specifically provided for in the preceding headings and costs relating to maintenance and repair of equipment,
- petty expenses,
- EMAS activities, including promotion, and the Court of Auditors' carbon offsetting scheme.

Amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation: p.m.

**CHAPTER 2 5 — MEETINGS AND CONFERENCES****2 5 2** *Representation expenses*

Appropriations 2021	Appropriations 2020	Outturn 2019
213 000	213 000	154 639,71

*Remarks*

This appropriation is intended to cover expenditure on the Court of Auditors' obligations in respect of representation.

Amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation: p.m.

**2 5 4** *Meetings, congresses and conferences*

Appropriations 2021	Appropriations 2020	Outturn 2019
141 000	141 000	70 566,93

*Remarks*

This appropriation is intended to cover travel, subsistence and incidental expenses of experts taking part in study groups and working parties, and the cost of organising such meetings in so far as they are not covered by existing infrastructure.

## COURT OF AUDITORS

**CHAPTER 2 5 — MEETINGS AND CONFERENCES** (*cont'd*)**2 5 4** (*cont'd*)

It is also intended to cover the cost of organisation of and participation in conferences, congresses and meetings and the costs of other internal events.

Amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation: p.m.

**2 5 6** *Expenditure on the dissemination of information and on participation in public events*

Appropriations 2021	Appropriations 2020	Outturn 2019
17 000	17 000	16 966,—

*Remarks*

This appropriation is intended to cover the cost of organising study days on the activities of the Court of Auditors, for the benefit of university teachers, editors of specialised journals or other specialist visitors from the Member States. This appropriation is also intended to cover miscellaneous expenditure relating to the Court of Auditors' information and communication policy.

Amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation: p.m.

**2 5 7** *Joint Interpreting and Conference Service*

Appropriations 2021	Appropriations 2020	Outturn 2019
325 000	325 000	245 000,—

*Remarks*

This appropriation is intended to cover payment of interpretation costs.

Amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation: p.m.

**CHAPTER 2 7 — INFORMATION: ACQUISITION, ARCHIVING, PRODUCTION AND DISTRIBUTION****2 7 0** *Limited surveys, studies and consultations; audit of agencies and other bodies of the Union***2 7 0 0** Limited consultations, studies and surveys

Appropriations 2021	Appropriations 2020	Outturn 2019
530 000	513 000	463 772,—

**CHAPTER 2 7 — INFORMATION: ACQUISITION, ARCHIVING, PRODUCTION AND DISTRIBUTION** (*cont'd*)**2 7 0** (*cont'd*)**2 7 0 0** (*cont'd*)*Remarks*

This appropriation is intended to enable studies to be contracted out to qualified experts in the field of auditing and also in the fields of an administrative nature.

Within the framework of its audits, the Court of Auditors needs to contract out studies and technical analyses (for example chemical, physical, statistical analyses) to external experts.

This appropriation is also intended to cover the cost of the auditing of the Court of Auditors by an independent auditor.

Amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation: p.m.

**2 7 0 1** Audit of agencies and other bodies of the Union

Appropriations 2021	Appropriations 2020	Outturn 2019
p.m.	p.m.	

*Remarks*

This appropriation is intended to cover the cost of auditing the agencies and other bodies of the Union under Article 287(1) TFEU and Article 70(6) and (7) of the Financial Regulation.

Amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation: p.m.

**2 7 2** ***Documentation, library and archiving expenditure***

Appropriations 2021	Appropriations 2020	Outturn 2019
440 000	425 000	440 000,—

*Remarks*

This appropriation is intended to cover:

- the acquisition of books, documents and other non-periodic publications and updates for existing volumes,
- special equipment for the library,
- the cost of subscriptions to newspapers, periodicals and various bulletins,

## COURT OF AUDITORS

**CHAPTER 2 7 — INFORMATION: ACQUISITION, ARCHIVING, PRODUCTION AND DISTRIBUTION** (*cont'd*)**2 7 2** (*cont'd*)

- the cost of subscriptions to news agencies or external informative databases,
- access charges for certain external databases,
- the cost of the binding and upkeep of library books,
- the cost of archive services and the acquisition of archive resources on substitute media.

Amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation: p.m.

**2 7 4** ***Production and distribution*****2 7 4 0** Official Journal

Appropriations 2021	Appropriations 2020	Outturn 2019
p.m.	p.m.	18 917,45

*Remarks*

This appropriation is intended to cover the cost of publications by the Court of Auditors in the *Official Journal of the European Union*.

Amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation: p.m.

**2 7 4 1** Publications of a general nature

Appropriations 2021	Appropriations 2020	Outturn 2019
775 000	775 000	525 201,99

*Remarks*

This appropriation is intended to cover:

- the costs of publishing and distributing the reports and opinions adopted by the Court of Auditors pursuant to the second subparagraph of Article 287(4) TFEU, and to Article 325(4) TFEU,
- the costs of communication activities concerning audit work and the activities of the Court of Auditors (in particular website, audiovisual material, documentation), including the costs of relations with the press and other stakeholders.

Amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation: p.m.

## EUROPEAN ECONOMIC AND SOCIAL COMMITTEE

**CHAPTER 1 2 — OFFICIALS AND TEMPORARY STAFF** (*cont'd*)**1 2 9** (*cont'd*)*Remarks*

This appropriation was intended to cover the effects of any salary updates decided by the Council during the financial year and has been included in Items 1 2 0 0, 1 2 0 2 and 1 2 0 4.

It is purely provisional and may be used only after its transfer to other headings in accordance with the Financial Regulation.

*Legal basis*

Staff Regulations of Officials of the European Union, and in particular Article 65 thereof and Annex XI thereto.

**CHAPTER 1 4 — OTHER STAFF AND EXTERNAL SERVICES****1 4 0** ***Other staff and external persons*****1 4 0 0** Other staff

Appropriations 2021	Appropriations 2020	Outturn 2019
2 576 430	2 556 480	2 431 967,53

*Remarks*

This appropriation is principally intended to cover the following expenditure:

- the remuneration of other staff including auxiliary, contract and local staff and special advisers (within the meaning of the Conditions of Employment of Other Servants of the European Union), the employer's contribution to the various social security schemes, and the impact of salary weightings applicable to the remuneration of these staff or the termination of contract allowance,
- fees of medical and paramedical staff paid under the arrangements for the provision of services and, in special cases, the employment of temporary agency staff,
- the remuneration and fees of conference operators and multimedia editors used during times of excessive workload or in special cases,
- flat-rate overtime allowances,
- the payment of overtime in accordance with Article 56 of the Staff Regulations and Annex VI thereto,
- other allowances and grants, including the parental or family leave allowance,
- the payment in respect of the termination by the institution of a staff member's contract,
- effects of updates of remuneration during the year,

**CHAPTER 1 4 — OTHER STAFF AND EXTERNAL SERVICES** (*cont'd*)**1 4 0** (*cont'd*)**1 4 0 0** (*cont'd*)

- the payment of accidental death insurance premiums,
- fees for a special advisor for the Audit Committee under the arrangements for the provision of services.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

*Legal basis*

Staff Regulations of Officials of the European Union.

Conditions of Employment of Other Servants of the European Union.

Appropriations 2021	Appropriations 2020	Outturn 2019
40 661	40 100	24 750,—

*Remarks*

This appropriation is intended to cover:

- expenditure on organising the competitions provided for in Article 3 of Decision 2002/621/EC and travel and subsistence expenses for applicants called for interviews and medical examinations,
- the costs of organising procedures for selecting temporary, contract and local staff,
- the payment of consultant services for the selection of management staff (assessment centres),
- the payment of accidental death insurance premiums.

In cases duly justified by operational needs and after consultation of the European Personnel Selection Office, the institution may use some of these appropriations to organise its own competitions.

**CHAPTER 1 6 — OTHER EXPENDITURE RELATING TO PERSONS WORKING WITH THE INSTITUTION** (*cont'd*)**1 6 1** (*cont'd*)**1 6 1 0** (*cont'd*)

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

*Legal basis*

Staff Regulations of Officials of the European Union, and in particular Articles 27 to 31 and 33 thereof and Annex III thereto.

Decision 2002/620/EC of the European Parliament, the Council, the Commission, the Court of Justice, the Court of Auditors, the Economic and Social Committee, the Committee of the Regions and the European Ombudsman of 25 July 2002 establishing a European Communities Personnel Selection Office (OJ L 197, 26.7.2002, p. 53) and Decision 2002/621/EC of the Secretaries-General of the European Parliament, the Council and the Commission, the Registrar of the Court of Justice, the Secretaries-General of the Court of Auditors, the Economic and Social Committee and the Committee of the Regions, and the Representative of the European Ombudsman of 25 July 2002 on the organisation and operation of the European Communities Personnel Selection Office (OJ L 197, 26.7.2002, p. 56).

**1 6 1 2** Further training

Appropriations 2021	Appropriations 2020	Outturn 2019
554 466	546 811	516 669,71

*Remarks*

This appropriation is intended to cover:

- the organisation of training and retraining courses as well as language courses for staff, on an interinstitutional basis. Some of the appropriations may be used in duly justified cases to cover the organisation of courses within the institution,
- expenditure relating to the purchase or production of teaching materials and to the performance of specific studies by specialists for devising and implementing training programmes,
- professional training courses which raise awareness about matters concerning people with disabilities and training measures in connection with equal opportunities and career advice, with particular reference to skill profiles,
- staff mission costs related to training,
- the costs of services requested from external contractors that are consultants in the field of human resources and finances.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

## 1 6 3 0 Social welfare

Appropriations 2021	Appropriations 2020	Outturn 2019
55 000	50 000	16 600,—

*Remarks*

This appropriation is intended to cover:

- as part of an interinstitutional policy to assist people with disabilities in the following categories:
  - officials and temporary staff in active employment,
  - spouses of officials and temporary staff in active employment,
  - all dependent children within the meaning of the Staff Regulations of Officials of the European Union,

**CHAPTER 1 6 — OTHER EXPENDITURE RELATING TO PERSONS WORKING WITH THE INSTITUTION** (*cont'd*)**1 6 3** (*cont'd*)**1 6 3 0** (*cont'd*)

- the reimbursement, to the extent permitted by the budget and after national entitlements in the country of residence or the country of origin have been exhausted, of expenses (other than medical expenses) recognised as necessary, resulting from the disability, supported by documentary evidence and not covered by the Joint Sickness Insurance Scheme,
- action taken in respect of officials and other servants in particularly difficult situations,
- the provision of services of a medical or social nature (such as home help, care for sick children, psychological counselling or mediation),
- incidental expenditure in the Welfare Service.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

*Legal basis*

Staff Regulations of Officials of the European Union, and in particular the third subparagraph of Article 9(3) and Article 76 thereof.

**1 6 3 2** Social contacts between members of staff and other social measures

Appropriations 2021	Appropriations 2020	Outturn 2019
187 500	175 000	156 516,44

*Remarks*

This appropriation is intended to encourage and provide financial backing for schemes to promote social contact between staff of the institution and to develop a sense of well-being at work.

It also covers the provision of grants to the Staff Committee so that the Staff Committee can participate in the management and supervision of social bodies such as staff clubs, sports associations, cultural activities or hobbies.

This appropriation is also intended to provide financial support for measures of a social nature adopted by the institution in close collaboration with the Staff Committee (Article 1e of the Staff Regulations).

It also covers the European Economic and Social Committee's contribution towards the social, sporting, educational and cultural activities of the European Interinstitutional Centre at Overijse in Belgium.

This appropriation also covers the implementation of a staff transport plan to encourage the use of public transport, cut private car use and reduce the carbon footprint.

This appropriation also includes potential costs for administrative enquiries in the framework of Article 86 of the Staff Regulations and Annex IX thereto.

Appropriations 2021	Appropriations 2020	Outturn 2019
4 925 895	1 121 655	2 132 226,23

*Remarks*

This appropriation is intended to cover the performance of fitting-out work, including renovation (e.g. to reduce energy consumption under the Eco-Management and Audit Scheme (EMAS)) and specific work such as cabling and security and restaurant-related work as well as other expenditure directly connected with that work, in particular architects' or engineers' fees.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

**2 0 0 8** Other expenditure on buildings

Appropriations 2021	Appropriations 2020	Outturn 2019
728 609	336 657	168 219,44

## EUROPEAN ECONOMIC AND SOCIAL COMMITTEE

**CHAPTER 2 0 — BUILDINGS AND ASSOCIATED COSTS** (*cont'd*)**2 0 0** (*cont'd*)2 0 0 8 (*cont'd*)*Remarks*

This appropriation is intended to cover:

- expenditure on buildings not specifically provided for in the other articles in this chapter, in particular engineering and architectural consultancy services in connection with the fitting-out of premises projects and legal fees in connection with the 'option to buy' for buildings,
- EMAS consultancy services,
- other studies for building projects.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

2 0 0 9 Provisional appropriation to cover the institution's property investments

*Figures (Non-differentiated appropriations)*

Appropriations 2021	Appropriations 2020	Outturn 2019
p.m.	p.m.	

*Remarks*

This appropriation is intended to cover any property investments made by the institution.

It is purely provisional and may be used only after its transfer to other headings in accordance with the Financial Regulation.

**2 0 2 Other expenditure on buildings**

2 0 2 2 Cleaning and maintenance

Appropriations 2021	Appropriations 2020	Outturn 2019
3 542 504	3 203 055	3 313 794,50

*Remarks*

This appropriation is intended to cover the cost of cleaning and maintaining premises, lifts, heating and air-conditioning systems and fire doors, as well as rat extermination, repainting and repair work, and maintaining the external appearance of buildings and their environment, including the cost of studies, analyses, authorisations, compliance with EMAS standards and controls.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 5 000.

**CHAPTER 2 0 — BUILDINGS AND ASSOCIATED COSTS** (*cont'd*)**2 0 2** (*cont'd*)**2 0 2 4** Energy consumption

Appropriations 2021	Appropriations 2020	Outturn 2019
745 958	819 184	806 284,—

*Remarks*

This appropriation is intended to cover, in particular, water, gas, electricity and other energy costs.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

**2 0 2 6** Security and surveillance

Appropriations 2021	Appropriations 2020	Outturn 2019
2 419 451	2 374 618	2 249 665,57

*Remarks*

This appropriation is intended to cover essentially the costs of staff carrying out security and surveillance tasks in respect of Members, staff and buildings.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

**2 0 2 8** Insurance

Appropriations 2021	Appropriations 2020	Outturn 2019
91 856	88 400	81 052,60

*Remarks*

This appropriation is intended to cover payments in respect of insurance policy premiums.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

## EUROPEAN ECONOMIC AND SOCIAL COMMITTEE

**CHAPTER 2 1 — DATA-PROCESSING, EQUIPMENT AND FURNITURE: PURCHASE, HIRE AND MAINTENANCE***Remarks*

Whenever the appropriation is intended to cover expenditure relating to the purchase, or the conclusion of a contract for the supply, of equipment, or the provision of services, the institution will consult the other institutions on the conditions which each has obtained.

**2 1 0 Equipment, operating costs and services relating to data-processing and telecommunications****2 1 0 0** Purchase, servicing and maintenance of equipment and software, and related work

Appropriations 2021	Appropriations 2020	Outturn 2019
2 140 600	1 928 943	2 241 643,81

*Remarks*

This appropriation is intended to cover expenditure for the purchase, hire, servicing configuration and maintenance of equipment and software for the institution, and related work.

It also covers costs associated with service level agreements signed with Union institutions (e.g. for the use of information systems) and re-invoicing of other services (notably for IT procurement).

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

**2 1 0 2** Outside assistance for the operation, development and maintenance of software systems

Appropriations 2021	Appropriations 2020	Outturn 2019
3 303 058	2 812 265	2 448 813,64

*Remarks*

This appropriation is intended to cover the cost of outside assistance from service bureaux and data-processing consultants in connection with the operation of the data-processing centre and the network, the production, development and maintenance of information systems, support for users, including Members, the carrying out of studies, and the drawing-up and input of technical documentation.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

**2 1 0 3** Telecommunications

**CHAPTER 2 1 — DATA-PROCESSING, EQUIPMENT AND FURNITURE: PURCHASE, HIRE AND MAINTENANCE** (*cont'd*)**2 1 0** (*cont'd*)**2 1 0 3** (*cont'd*)*Remarks*

This appropriation is intended to cover wired and wireless telecommunication subscriptions and charges (fixed-line and mobile telephony, television), as well as costs incurred in connection with data transmission networks and telematic services. It also covers the co-financing of equipment for Members and delegates enabling them to receive the documents of the European Economic and Social Committee electronically, including any costs associated with terminal equipment.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

**2 1 2** ***Furniture***

Appropriations 2021	Appropriations 2020	Outturn 2019
192 089	147 409	144 134,16

*Remarks*

This appropriation is intended to cover the purchase, hire, maintenance and repair of furniture, including the purchase of ergonomic furniture, the replacement of worn-out and broken furniture.

In connection with works of art, it is also intended to cover both the cost of acquiring and purchasing specific material and the current expenditure relating thereto, including framing, restoration, cleaning, insurance and ad hoc transport costs.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

**2 1 4** ***Technical equipment and installations***

Appropriations 2021	Appropriations 2020	Outturn 2019
1 161 601	1 179 691	968 682,63

*Remarks*

This appropriation is intended to cover the purchase, hire, maintenance and repair of fixed and mobile technical equipment and installations, in particular in the areas of publishing, archiving, security, canteens, buildings, telephone services, conference rooms and the audiovisual sector.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

## EUROPEAN ECONOMIC AND SOCIAL COMMITTEE

**CHAPTER 2 1 — DATA-PROCESSING, EQUIPMENT AND FURNITURE: PURCHASE, HIRE AND MAINTENANCE** (*cont'd*)**2 1 6 Vehicles**

Appropriations 2021	Appropriations 2020	Outturn 2019
69 906	71 806	42 658,72

*Remarks*

This appropriation is intended to cover the purchase, maintenance, use and repair of vehicles (fleet of cars and bicycles) and the hire of cars, taxis, coaches and lorries, with or without drivers, including the necessary insurance cover.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

[illegible]

## EUROPEAN COMMITTEE OF THE REGIONS

## TITLE 1

## PERSONS WORKING WITH THE INSTITUTION

## CHAPTER 1 0 — MEMBERS OF THE INSTITUTION

**1 0 0** *Salaries, allowances and payments***1 0 0 0** Office expenses of Members

Appropriations 2021	Appropriations 2020	Outturn 2019
118 300	134 500	115 000,—

*Remarks*

This appropriation is intended to cover the office expenses of Members called upon to perform duties and assume responsibilities within the European Committee of the Regions or who have acted as rapporteurs. It is also intended to cover the costs of providing sickness and accident insurance and the cost of providing the laissez-passer of Members.

**1 0 0 4** Travel and subsistence allowances, attendance at meetings and associated expenditure

Appropriations 2021	Appropriations 2020	Outturn 2019
8 862 372	8 962 372	8 920 500,—

*Remarks*

This appropriation is intended to cover payments to Members of the European Committee of the Regions and their alternates under the current rules on reimbursement of transport costs and travel and meeting allowances. It may also cover transport costs and travel and meeting allowances of observers or their alternates of applicant countries who participate at the work of the European Committee of the Regions.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 1 000.

**1 0 5** *Courses for Members of the institution*

Appropriations 2021	Appropriations 2020	Outturn 2019
15 000	15 000	15 000,—

*Remarks*

This appropriation is intended to subsidise part of the registration fees for language courses or other vocational training seminars attended by Members and alternate Members of the European Committee of the Regions as well as the purchase of language self-tuition material in accordance with Regulation (European Committee of the Regions) No 0003/2005.

**CHAPTER 1 2 — OFFICIALS AND TEMPORARY STAFF***Remarks*

A standard abatement of 6,0 % has been applied to the appropriations entered in this chapter.

**1 2 0      *Remuneration and other entitlements*****1 2 0 0      Remuneration and allowances**

Appropriations 2021	Appropriations 2020	Outturn 2019
55 617 539	55 721 000	52 072 534,69

*Remarks*

This appropriation is mainly intended to cover, for officials and temporary staff holding a post provided for in the establishment plan:

- salaries, family allowances, expatriation and foreign residence allowances and payments related to salaries,
- the institution's contribution to the Joint Sickness Insurance Scheme (insurance against sickness, accidents and occupational disease),
- flat-rate overtime allowances,
- other miscellaneous allowances and grants,
- payment of travel expenses for officials or temporary staff, their spouses and dependants from their place of employment to their place of origin,
- the impact of salary weightings applicable to remuneration and to the part of emoluments transferred to a country other than the country of employment,
- unemployment insurance for temporary staff and payments by the institution to temporary staff in order to constitute or maintain their pension rights in their countries of origin,
- the severance payment of a probationer dismissed on grounds of manifest incompetence,
- the payment in respect of the termination by the institution of the contract of a temporary staff member.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 3 000.

*Legal basis*

Staff Regulations of Officials of the European Union.

Conditions of Employment of Other Servants of the European Union.

## EUROPEAN COMMITTEE OF THE REGIONS

Appropriations 2021	Appropriations 2020	Outturn 2019
3 232 753	3 215 849	3 058 838,27

*Remarks*

This appropriation is intended to cover the following expenditure:

- the remuneration, including for overtime, of other staff including contract staff, interim agents and special advisers (within the meaning of the Conditions of Employment of Other Servants of the European Union), the employer's contributions to the various social security schemes, family, expatriation and travelling allowances from the place of employment to the country of origin and the impact of salary weightings applicable to the remuneration of these staff or the termination of contract allowance,
- fees of medical and paramedical staff paid under the arrangements for the provision of services and, in special cases, the employment of temporary agency staff.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 13 000.

*Legal basis*

Staff Regulations of Officials of the European Union.

Conditions of Employment of Other Servants of the European Union.

**CHAPTER 1 4 — OTHER STAFF AND EXTERNAL SERVICES** (*cont'd*)**1 4 0** (*cont'd*)**1 4 0 2** Interpreting services

Appropriations 2021	Appropriations 2020	Outturn 2019
3 806 000	3 909 502	3 805 444,—

*Remarks*

This appropriation is intended to cover expenditure on interpreting services.

It covers the cost of interpretation services provided by the Commission's DG Interpretation, the European Parliament and external providers.

**1 4 0 4** Graduate traineeships, grants and exchanges of officials

Appropriations 2021	Appropriations 2020	Outturn 2019
955 734	914 482	788 556,58

*Remarks*

This appropriation is intended to cover:

- payment of traineeship grants, travel expenses for trainees and other expenditure arising from the institution's internship and trainee alumni programme (such as accident and sickness insurance during their stay or specific training actions exclusively for trainees),
- expenditure arising from movements of staff between the European Committee of the Regions and the public sector in the Member States or other countries specified in the rules,
- the contribution, on a limited scale, to the realisation of research projects in the fields of activity of the European Committee of the Regions which are of particular interest for European integration.

**1 4 0 5** Supplementary services for the accounting service*Figures (Non-differentiated appropriations)*

Appropriations 2021	Appropriations 2020	Outturn 2019
p.m.	p.m.	

*Remarks*

This appropriation is intended to cover services regarding development, implementation, advice and consultancy services in accounting and financial IT Systems.

## EUROPEAN COMMITTEE OF THE REGIONS

**CHAPTER 1 4 — OTHER STAFF AND EXTERNAL SERVICES** (*cont'd*)**1 4 0** (*cont'd*)

**1 4 0 8** Entitlements on entering the service, transfer and leaving the service and other expenditure for services to staff during their career

Appropriations 2021	Appropriations 2020	Outturn 2019
53 682	92 090	140 000,—

*Remarks*

This appropriation is intended to cover costs for services relating to the establishment and payment of entitlements for officials and temporary and other staff of the European Committee of the Regions. Such services may include services offered by the Commission's Office for the Administration and Payment of Individual Entitlements, which will enhance interinstitutional cooperation and generate benefits from economies of scale, thus bringing about savings. Such services may include the following:

- transfer of pension rights from and to the country of origin,
- calculation of pension rights,
- establishment and payment of resettlement allowances,
- management of files relating to unemployment benefits and payment of benefits to those who qualify.

It is also intended to cater for expenditure for the provision of other horizontal human resources related services to officials, temporary and other staff of the European Committee of the Regions (and their family members) throughout their career such as opening up access for European Committee of the Regions staff to the activities organised by the Commission's Welcome Office and the handling of expat administrative support files related to Protocol No 7 on the privileges and immunities of the European Union.

In the event that the handling of other non-strategic human resources processes with pecuniary impact (such as the establishment of individual rights pursuant to the provisions of Annex VII to the Staff Regulations) would be outsourced, the related expenditure shall also be covered from this appropriation.

In order to generate further economies of scale, the provision of such services will, as a rule, be operated through enhanced interinstitutional cooperation.

*Legal basis*

Staff Regulations of Officials of the European Union.

Conditions of Employment of Other Servants of the European Union.

**1 4 2** *External services*

**1 4 2 0** Supplementary services for the translation service

Appropriations 2021	Appropriations 2020	Outturn 2019
545 000	730 705	542 000,—

**CHAPTER 1 4 — OTHER STAFF AND EXTERNAL SERVICES** (*cont'd*)**1 4 2** (*cont'd*)**1 4 2 0** (*cont'd*)*Remarks*

This appropriation is intended to cover expenditure on work carried out by external translation contractors: freelance translation into 24 official Union languages and also into non-Union languages is performed by contractors under framework contracts, except in the case of some non-Union languages where there are no similar procedures.

It also covers expenditure on any work entrusted to the Translation Centre for the bodies of the European Union and all interinstitutional cooperation activities in the language area.

**1 4 2 2** Expert assistance relating to consultative work

Appropriations 2021	Appropriations 2020	Outturn 2019
420 000	420 000	420 000,—

*Remarks*

This appropriation is intended to cover payments to experts of rapporteurs as well as speakers in their specific fields who participate in the activities organised or co-organised by the European Committee of the Regions, in implementation of the rules governing these expenses.

**1 4 9** **Provisional appropriation***Figures (Non-differentiated appropriations)*

Appropriations 2021	Appropriations 2020	Outturn 2019
p.m.	p.m.	

*Remarks*

This appropriation is intended to cover the effects of any salary adjustments decided by the Council during the financial year.

This appropriation is purely provisional and may only be used after its transfer to other headings in accordance with the Financial Regulation.

*Legal basis*

Staff Regulations of Officials of the European Union, and in particular Articles 65 and 65a thereof and Annex XI thereto.

Conditions of Employment of Other Servants of the European Union.

## EUROPEAN COMMITTEE OF THE REGIONS

## CHAPTER 1 6 — OTHER EXPENDITURE RELATING TO PERSONS WORKING WITH THE INSTITUTION

1 6 1 *Expenditure relating to staff management*

## 1 6 1 0 Miscellaneous expenditure on recruitment

Appropriations 2021	Appropriations 2020	Outturn 2019
20 000	40 000	17 775,—

*Remarks*

This appropriation is intended to cover miscellaneous costs related to recruitment such as:

- expenditure related to the organisation of open and internal competitions, selection and recruitment procedures for all categories of staff (officials, temporary agents, contract agents, special advisors, seconded national experts), including travel and subsistence expenses for applicants called for oral or written tests and medical examinations,
- expenditure related to the insurance for the abovementioned applicants,
- expenditure related to selection procedures for management positions, including assessment centres,
- publication of vacancy or recruitment notices in the appropriate media.

*Legal basis*

Staff Regulations of Officials of the European Union, and in particular Articles 27 to 31 and 33 thereof and Annex III thereto.

Decision 2002/620/EC of the European Parliament, the Council, the Commission, the Court of Justice, the Court of Auditors, the Economic and Social Committee, the Committee of the Regions and the European Ombudsman of 25 July 2002 establishing a European Communities Personnel Selection Office (OJ L 197, 26.7.2002, p. 53) and Decision 2002/621/EC of the Secretaries-General of the European Parliament, the Council and the Commission, the Registrar of the Court of Justice, the Secretaries-General of the Court of Auditors, the Economic and Social Committee and the Committee of the Regions, and the Representative of the European Ombudsman of 25 July 2002 on the organisation and operation of the European Communities Personnel Selection Office (OJ L 197, 26.7.2002, p. 56).

## 1 6 1 2 Further training, retraining and information for staff

Appropriations 2021	Appropriations 2020	Outturn 2019
330 000	330 000	400 083,06

*Remarks*

This appropriation is intended to cover:

- the organisation of and logistical support for training, including language courses, organised internally, offered on an inter-institutional basis or provided by external stakeholders,
- the organisation of staff or management seminars,

**CHAPTER 1 6 — OTHER EXPENDITURE RELATING TO PERSONS WORKING WITH THE INSTITUTION** (*cont'd*)**1 6 1** (*cont'd*)**1 6 1 2** (*cont'd*)

- acquisition of external expertise in the area of human resources management,
- the development and deployment of personal, professional or organisational development tools for officials, temporary and other staff of the European Committee of the Regions,
- expenditure relating to the purchase or production of teaching materials,
- the organisation of training courses aimed at raising awareness of matters relating to equal opportunities (gender equality, disability, diversity, etc.).

*Legal basis*

Staff Regulations of Officials of the European Union, and in particular Article 24a thereof.

**1 6 2** **Missions**

Appropriations 2021	Appropriations 2020	Outturn 2019
280 315	440 000	440 000,—

*Remarks*

This appropriation is intended to cover transport or accommodation expenses, the payment of daily subsistence allowances and other expenses foreseen by the missions guide of the European Committee of the Regions incurred by staff members in carrying out a mission.

The amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation is estimated at EUR 2 000.

*Legal basis*

Staff Regulations of Officials of the European Union, and in particular Article 71 thereof and Articles 11 to 13 of Annex VII thereto.

Conditions of Employment of Other Servants of the European Union.

Appropriations 2021	Appropriations 2020	Outturn 2019
20 000	20 000	11 475,—

## EUROPEAN COMMITTEE OF THE REGIONS

**CHAPTER 1 6 — OTHER EXPENDITURE RELATING TO PERSONS WORKING WITH THE INSTITUTION** (*cont'd*)**1 6 3** (*cont'd*)**1 6 3 0** (*cont'd*)*Remarks*

This appropriation is intended to cover:

- as part of an interinstitutional policy to assist persons with disabilities in the following categories:
  - officials and temporary or contract staff in active employment,
  - spouses of officials and temporary or contract staff in active employment,
  - dependent children within the meaning of the Staff Regulations,
- the reimbursement, subject to budgetary ceilings and once any national entitlements granted in the country of residence or of origin have been exhausted, of non-medical expenditure that is deemed necessary, results from the disability, is duly substantiated and is not refunded by the Joint Sickness Insurance Scheme,
- action taken in respect of individual members of staff of the Union in particularly difficult situations.

*Legal basis*

Staff Regulations of Officials of the European Union, and in particular Article 76 thereof (including the corresponding provisions of Articles 30 and 98 of the Conditions of Employment of Other Servants of the European Union).

**1 6 3 2** Internal social policy

Appropriations 2021	Appropriations 2020	Outturn 2019
31 000	31 000	33 000,—

*Remarks*

This appropriation is intended to develop collective social actions towards staff members (and their families) and to encourage, and provide financial backing for, schemes to promote social contact between staff of different nationalities (including external contractors' staff members regularly employed on Committee premises), for example subsidies to staff clubs, sports associations and cultural societies.

It also covers the financing of a grant for the Staff Committee, incidental expenditure for social actions towards staff and the contribution of the European Committee of the Regions towards the social, sporting, educational and cultural activities of the European Interinstitutional Centre at Overijse.

This appropriation is also intended to finance actions of the European Committee of the Regions in support of corporate social responsibility, sustainable development or equal opportunities and to cover aid to members of staff other than aid chargeable to other articles in this chapter.

**CHAPTER 1 6 — OTHER EXPENDITURE RELATING TO PERSONS WORKING WITH THE INSTITUTION** (*cont'd*)**1 6 3** (*cont'd*)**1 6 3 2** (*cont'd*)*Legal basis*

Staff Regulations of Officials of the European Union, and in particular Article 9(3) and Articles 10b and 24b thereof.

**1 6 3 3** Sustainable staff commuting

Appropriations 2021	Appropriations 2020	Outturn 2019
61 500	60 000	60 000,—

*Remarks*

This appropriation is intended to cover expenditure for the measures foreseen in the mobility plan to foster staff members' use of sustainable transport modes for commuting purposes (such as support to promote the use of public transport or the acquisition and maintenance of service bicycles).

**1 6 3 4** Medical service

Appropriations 2021	Appropriations 2020	Outturn 2019
124 525	124 525	124 475,96

*Remarks*

This appropriation is intended to cover the operating costs of the medical service at the six places of work, including the purchase of materials and pharmaceutical products, expenditure on preventive medical check-ups (including the expenses for outsourced laboratory fees), expenditure arising from the operation of the Invalidity Committee and expenditure on services provided by outside medical specialists deemed necessary by the medical officers.

It also covers expenditure for the purchase of certain work tools deemed necessary on medical grounds and other expenditure made in the context of the institution's preventive health policy, including the organisation of staff awareness campaigns on socio-medical topics of general interest, as well as focusing on prevention of psychosocial risks at work, prevention and support in respect of burn out, and optimising nutritional intelligence.

This appropriation is also intended to cover the costs of any medical services which cannot be adequately provided in-house and which are outsourced, possibly through enhanced inter-institutional cooperation.

*Legal basis*

Staff Regulations of Officials of the European Union, and in particular Article 59 thereof and Article 8 of Annex II thereto.

## EUROPEAN COMMITTEE OF THE REGIONS

## EUROPEAN COMMITTEE OF THE REGIONS

**CHAPTER 2 3 — ADMINISTRATIVE EXPENDITURE** (*cont'd*)**2 3 8** (*cont'd*)*Remarks*

This appropriation is intended to cover:

- insurance not specifically provided for in another item,
- the purchase and maintenance of uniforms for ushers, drivers and removal personnel, medical services, security services and various technical services,
- all removal and handling expenses and those incurred by using removal firms or interim handling agents,
- miscellaneous operating expenses, such as decorations and donations.

**2 3 9** **EMAS activities, including promotion, and carbon offsetting scheme**

*Figures (Non-differentiated appropriations)*

Appropriations 2021	Appropriations 2020	Outturn 2019
p.m.		

*Remarks*

This appropriation is intended to cover expenditure related to EMAS activities aiming at improving the environmental performance of the European Committee of the Regions, including promotion of these activities, and to the carbon offsetting scheme of the European Committee of the Regions.

**CHAPTER 2 5 — MEETINGS AND CONFERENCES****2 5 4** **Meetings, conferences, congresses, seminars and other events****2 5 4 0** Costs of meetings organised in Brussels

Appropriations 2021	Appropriations 2020	Outturn 2019
155 900	145 000	145 000,—

*Remarks*

This appropriation is intended to cover the cost of water, coffee and tea for interpreters and participants during statutory meetings and other thematic activities organised in the European Committee of the Regions premises as well as during plenary sessions organised in Brussels. Occasionally this appropriation also covers snacks or working meals at internal meetings under the conditions laid down by the Secretary General. Moreover, this appropriation provides a limited budget for the cabinet of the president and the secretariats of the political groups for the purchase of coffee, tea and other drinks to offer to external visitors.

**CHAPTER 2 5 — MEETINGS AND CONFERENCES** (*cont'd*)**2 5 4** (*cont'd*)**2 5 4 1** Third parties

Appropriations 2021	Appropriations 2020	Outturn 2019
304 100	66 926	298 700,—

*Remarks*

This appropriation is intended to cover the payment of travel and flat-rate subsistence allowances per stay for third parties who participate in activities of the European Committee of the Regions. Exceptionally this appropriation is also intended to cover the travel and flat-rate subsistence allowances for ARLEM and CORLEAP third parties participating in activities not organised by the Committee if duly justified and approved by the President.

**2 5 4 2** Organisation of events in partnership with local and regional authorities, associations and other Union institutions

Appropriations 2021	Appropriations 2020	Outturn 2019
438 647	538 647	407 647,—

*Remarks*

This appropriation is intended to cover expenses, including representation and logistical expenses for:

- the organisation by the European Committee of the Regions of events, of general or specific nature, designed to promote its political and consultative works; such events take place either in Brussels or in decentralised locations, usually in partnerships with local and regional authorities, with their associations and with the other Union institutions,
- the programme of Young Elected Politicians, which engages regional and local young leaders under 40 years of age on Union issues,
- the participation of the European Committee of the Regions in congresses, conferences, colloquia, seminars or symposia organised by third parties (other Union institutions, local or regional authorities, their associations, etc.).

**2 5 4 6** Representation expenses

Appropriations 2021	Appropriations 2020	Outturn 2019
109 069	150 000	111 000,—

## EUROPEAN COMMITTEE OF THE REGIONS

**CHAPTER 2 5 — MEETINGS AND CONFERENCES** (*cont'd*)**2 5 4** (*cont'd*)**2 5 4 6** (*cont'd*)*Remarks*

This appropriation is intended to cover expenses related to the obligations of the institution regarding representation.

It also covers representation expenses of certain officials acting on behalf of the institution.

**CHAPTER 2 6 — EXPERTISE AND INFORMATION: ACQUISITION, ARCHIVING, PRODUCTION AND DISTRIBUTION****2 6 0** *Communication and publications***2 6 0 0** Relationship with press and audio-visual support

Appropriations 2021	Appropriations 2020	Outturn 2019
794 854	794 854	794 845,70

*Remarks*

This appropriation is intended to cover the costs of:

- the hosting of local and regional journalists in Brussels during meetings of the European Committee of the Regions and during events organised by it,
- public communications and information initiatives of the European Committee of the Regions for the promotion of events or actions organised by it, including any related audiovisual services and materials,
- media partnerships and media monitoring production supports.

**2 6 0 2** Web and social media and print material

Appropriations 2021	Appropriations 2020	Outturn 2019
900 960	900 960	900 944,80

*Remarks*

This appropriation is intended to cover the costs for the production of web, social media, digital and printed content. Moreover, it will cover costs related to measuring the impact of those communication actions.

This appropriation will cover, inter alia, the further digitisation of publications, improving the impact of content based on social media and web monitoring tools, maintaining and enhancing the website of the European Committee of the Regions as well as a number of innovative actions.

**CHAPTER 2 6 — EXPERTISE AND INFORMATION: ACQUISITION, ARCHIVING, PRODUCTION AND DISTRIBUTION** (*cont'd*)**2 6 0** (*cont'd*)**2 6 0 4** Official Journal

Appropriations 2021	Appropriations 2020	Outturn 2019
p.m.	p.m.	39 731,—

*Remarks*

This appropriation is intended to cover the costs of publication in the *Official Journal of the European Union*.

**2 6 2** *Acquisition of documentation and archiving***2 6 2 0** External expertise and studies

Appropriations 2021	Appropriations 2020	Outturn 2019
450 000	500 000	526 695,50

*Remarks*

This appropriation is intended to cover studies contracted out to experts and research institutes.

**2 6 2 2** Documentation and library expenditure

Appropriations 2021	Appropriations 2020	Outturn 2019
125 198	125 198	125 003,70

*Remarks*

This appropriation is intended to cover:

- the expansion and renewal of the general reference section and the updating of the library's collection,
- subscriptions to newspapers, periodicals, information agencies, their publications and online services, including copyright fees for the copying and distribution in print or electronic form of these publications,
- subscriptions or service contracts for the provision of summaries and analyses of the content of periodicals or the storage on optical media of articles extracted from these periodicals,
- the costs of using external documentary and statistical databases, excluding information technology equipment and telecommunication costs,

## EUROPEAN COMMITTEE OF THE REGIONS

**CHAPTER 2 6 — EXPERTISE AND INFORMATION: ACQUISITION, ARCHIVING, PRODUCTION AND DISTRIBUTION** (*cont'd*)**2 6 2** (*cont'd*)**2 6 2 2** (*cont'd*)

- costs arising from obligations undertaken by the European Committee of the Regions in the framework of international and interinstitutional cooperation,
- the purchase or hire of special equipment, including electric, electronic and IT materials and systems for the library (traditional or hybrid), as well as external services for the acquisition, development, installation, use and maintenance of this equipment and these systems,
- the cost of services connected with the activities of the library, including those provided for its users (searches, analyses), the quality management system, etc.,
- the costs of binding and conservation materials and work for the library, documentation service and multimedia resource centre,
- the purchase of dictionaries, glossaries and other reference works for the Directorate for Translation.

**2 6 2 4** Expenditure on archive resources

Appropriations 2021	Appropriations 2020	Outturn 2019
140 690	140 690	140 667,98

*Remarks*

This appropriation is intended to cover the cost of external archiving services, including sorting, filing and re-filing, the cost of archiving services, the acquisition and use of archive materials on back-up media (microfilm, disk, cassette, etc.), as well as the purchase, hire and maintenance of special materials (electric, electronic, IT) and the cost of publishing on all media (brochures, CD-ROMs, etc.).

**2 6 4** ***Communication activities of the political groups of the European Committee of the Regions***

Appropriations 2021	Appropriations 2020	Outturn 2019
395 049	185 143	356 402,55

**CHAPTER 2 6 — EXPERTISE AND INFORMATION: ACQUISITION, ARCHIVING, PRODUCTION AND DISTRIBUTION** (*cont'd*)**2 6 4** (*cont'd*)*Remarks*

This appropriation is intended to cover expenditure resulting from the political and information activities of Members of the European Committee of the Regions in the exercise of their European mandate:

- promoting and enhancing the role of the Members of the European Committee of the Regions through the activities of their political groups,
- informing citizens on the role of the European Committee of the Regions as the institutional representative of the regional and local authorities of the Union.

*Legal basis*

Regulation (European Committee of the Regions) No 0029/2015 on the financing of the political and information activities of Members of the European Committee of the Regions.

**TITLE 1****EXPENDITURE RELATING TO PERSONS WORKING WITH THE INSTITUTION****CHAPTER 1 0 — MEMBERS OF THE INSTITUTION****1 0 0** *Salaries, allowances and payments related to salaries*

Appropriations 2021	Appropriations 2020	Outturn 2019
436 865	441 847	418 677,42

*Remarks*

This appropriation is intended to cover salaries, allowances and other payments related to the salary of the European Ombudsman, namely the institution's contributions towards insurance against accidents and occupational disease, the institution's contributions towards sickness insurance, birth grants, allowances payable in the event of death, annual medical visits, etc.

*Legal basis*

Regulation No 422/67/EEC, No 5/67/Euratom of the Council of 25 July 1967 determining the emoluments of the President and Members of the Commission, of the President, Judges, Advocates-General and Registrar of the Court of Justice, of the President, Members and Registrar of the General Court and of the President, Members and Registrar of the European Union Civil Service Tribunal (OJ L 187, 8.8.1967, p. 1), and in particular Articles 4a, 11 and 14 thereof.

Decision 94/262/ECSC, EC, Euratom of the European Parliament of 9 March 1994 on the regulations and general conditions governing the performance of the Ombudsman's duties (OJ L 113, 4.5.1994, p. 15).

Council Regulation (EU) 2016/300 of 29 February 2016 determining the emoluments of EU high-level public office holders (OJ L 58, 4.3.2016, p. 1 ).

**1 0 2** *Temporary allowances*

Appropriations 2021	Appropriations 2020	Outturn 2019
p.m.	p.m.	

*Remarks*

This appropriation is intended to cover transitional allowances, family allowances and weighting in respect of countries of residence.

## EUROPEAN OMBUDSMAN

**CHAPTER 1 0 — MEMBERS OF THE INSTITUTION** (*cont'd*)**1 0 2** (*cont'd*)*Legal basis*

Regulation No 422/67/EEC, No 5/67/Euratom of the Council of 25 July 1967 determining the emoluments of the President and Members of the Commission, of the President, Judges, Advocates-General and Registrar of the Court of Justice, of the President, Members and Registrar of the General Court and of the President, Members and Registrar of the European Union Civil Service Tribunal (OJ 187, 8.8.1967, p. 1), and in particular Article 7 thereof.

Decision 94/262/ECSC, EC, Euratom of the European Parliament of 9 March 1994 on the regulations and general conditions governing the performance of the Ombudsman's duties (OJ L 113, 4.5.1994, p. 15).

Council Regulation (EU) 2016/300 of 29 February 2016 determining the emoluments of EU high-level public office holders (OJ L 58, 4.3.2016, p. 1).

**1 0 3** **Pensions**

Appropriations 2021	Appropriations 2020	Outturn 2019
p.m.	6 000	7 489,26

*Remarks*

Retirement pensions of former European Ombudsmen, as well as the survivors' pensions of widows and orphans and the weightings applied in respect of their countries of residence, are borne by the Commission. This appropriation is intended to cover those costs that are not covered by the Commission, notably the European Ombudsman's contribution to the Union's sickness insurance scheme.

*Legal basis*

Regulation No 422/67/EEC, No 5/67/Euratom of the Council of 25 July 1967 determining the emoluments of the President and Members of the Commission, of the President, Judges, Advocates-General and Registrar of the Court of Justice, of the President, Members and Registrar of the General Court and of the President, Members and Registrar of the European Union Civil Service Tribunal (OJ 187, 8.8.1967, p. 1), and in particular Articles 8, 9, 15 and 18 thereof.

Decision 94/262/ECSC, EC, Euratom of the European Parliament of 9 March 1994 on the regulations and general conditions governing the performance of the Ombudsman's duties (OJ L 113, 4.5.1994, p. 15).

Council Regulation (EU) 2016/300 of 29 February 2016 determining the emoluments of EU high-level public office holders (OJ L 58, 4.3.2016, p. 1).

**1 0 4** **Mission expenses**

Appropriations 2021	Appropriations 2020	Outturn 2019
2 000	2 000	670,60

*Remarks*

This appropriation is intended to cover expenses incurred in attending language courses or other professional training seminars.

**1 0 8** *Allowances and expenses on entering and leaving the service*

Appropriations 2021	Appropriations 2020	Outturn 2019
p.m.	p.m.	

*Remarks*

This appropriation is intended to cover travel expenses due to the European Ombudsman (including his or her family) on taking up duty or leaving the institution, installation and resettlement allowances due to the European Ombudsman on taking up duty or leaving the institution and removal expenses due to the European Ombudsman on taking up duty or leaving the institution.

## EUROPEAN OMBUDSMAN

**CHAPTER 1 0 — MEMBERS OF THE INSTITUTION** (*cont'd*)**1 0 8** (*cont'd*)*Legal basis*

Regulation No 422/67/EEC, No 5/67/Euratom of the Council of 25 July 1967 determining the emoluments of the President and Members of the Commission, of the President, Judges, Advocates-General and Registrar of the Court of Justice, of the President, Members and Registrar of the General Court and of the President, Members and Registrar of the European Union Civil Service Tribunal (OJ L 187, 8.8.1967, p. 1), and in particular Article 5 thereof.

Decision 94/262/ECSC, EC, Euratom of the European Parliament of 9 March 1994 on the regulations and general conditions governing the performance of the Ombudsman's duties (OJ L 113, 4.5.1994, p. 15).

Council Regulation (EU) 2016/300 of 29 February 2016 determining the emoluments of EU high-level public office holders (OJ L 58, 4.3.2016, p. 1).

**CHAPTER 1 2 — OFFICIALS AND TEMPORARY STAFF****1 2 0** ***Remuneration and other entitlements*****1 2 0 0** Remuneration and allowances

Appropriations 2021	Appropriations 2020	Outturn 2019
8 501 161	8 443 784	6 916 923,88

*Remarks*

This appropriation is mainly intended to cover, for officials and temporary staff holding a post provided for in the establishment plan:

- salaries, allowances and payments related to salaries,
- insurance against sickness, accidents and occupational disease and other social security charges,
- flat-rate overtime allowances,
- miscellaneous allowances and grants,
- payment of travel expenses for officials or temporary staff, their spouses and dependants from their place of employment to their place of origin,
- the impact of salary weightings applicable to remuneration and to the part of emoluments transferred to a country other than the country of employment,
- unemployment insurance for temporary staff and payments by the institution to temporary staff in order to constitute or maintain their pension rights in their countries of origin.

**CHAPTER 1 2 — OFFICIALS AND TEMPORARY STAFF** (*cont'd*)**1 2 0** (*cont'd*)**1 2 0 0** (*cont'd*)*Legal basis*

Staff Regulations of Officials of the European Union.

Conditions of Employment of Other Servants of the European Union.

**1 2 0 2** Paid overtime

Appropriations 2021	Appropriations 2020	Outturn 2019
3 000	3 000	

*Remarks*

This appropriation is intended to cover the payment of overtime under the conditions set out in the legal basis.

*Legal basis*

Staff Regulations of Officials of the European Union, and in particular Article 56 thereof and Annex VI thereto.

Conditions of Employment of Other Servants of the European Union.

**1 2 0 4** Entitlements on entering the service, transfer and leaving the service

Appropriations 2021	Appropriations 2020	Outturn 2019
30 000	30 000	23 440,94

*Remarks*

This appropriation is intended to cover:

- travel expenses due to officials and temporary staff (including their families) entering or leaving the service or being transferred to another place of employment,
- installation/resettlement allowances and removal expenses due to officials and temporary staff obliged to change their place of residence on taking up duty, on transfer to a new place of employment and on finally leaving the institution and resettling elsewhere,
- daily subsistence allowance for officials and temporary staff who provide evidence that they must change their place of residence on taking up duty or transferring to a new place of employment,

## EUROPEAN OMBUDSMAN

**CHAPTER 1 2 — OFFICIALS AND TEMPORARY STAFF** (*cont'd*)**1 2 0** (*cont'd*)**1 2 0 4** (*cont'd*)

- the compensation for a probationary official who is dismissed because his work is obviously inadequate,
- compensation for a member of the temporary staff whose contract is terminated by the institution.

*Legal basis*

Staff Regulations of Officials of the European Union.

Conditions of Employment of Other Servants of the European Union.

**1 2 2** ***Allowances upon early termination of service*****1 2 2 0** Allowances for staff retired in the interests of the service

Appropriations 2021	Appropriations 2020	Outturn 2019
p.m.	p.m.	

*Remarks*

This appropriation is intended to cover the allowances payable to officials:

- assigned non-active status in connection with action to reduce the number of posts in the institution,
- holding an AD 16 or AD 15 grade post who are retired in the interests of the service.

It also covers the employer's contribution to sickness insurance and the impact of weightings applicable to these allowances.

*Legal basis*

Staff Regulations of Officials of the European Union, and in particular Articles 41 and 50 thereof and Annex IV thereto.

**1 2 2 2** Allowances for staff whose service is terminated and special retirement scheme for officials and temporary staff

Appropriations 2021	Appropriations 2020	Outturn 2019
p.m.	p.m.	

**CHAPTER 1 2 — OFFICIALS AND TEMPORARY STAFF** (*cont'd*)**1 2 2** (*cont'd*)**1 2 2 2** (*cont'd*)*Remarks*

This appropriation is intended to cover:

- the allowances payable under the Staff Regulations, Regulation (ECSC, EEC, Euratom) No 3518/85 or Regulation (EC, Euratom, ECSC) No 2688/95,
- the employer's contributions towards sickness insurance for the persons in receipt of the allowances,
- the impact of the salary weightings applicable to the various allowances.

*Legal basis*

Staff Regulations of Officials of the European Union, and in particular Articles 64 and 72 thereof.

Council Regulation (ECSC, EEC, Euratom) No 3518/85 of 12 December 1985 introducing special measures to terminate the service of officials of the European Communities as a result of the accession of Spain and Portugal (OJ L 335, 13.12.1985, p. 56) and Council Regulation (EC, Euratom, ECSC) No 2688/95 of 17 November 1995 introducing special measures to terminate the service of officials of the European Communities as a result of the accession of Austria, Finland and Sweden (OJ L 280, 23.11.1995, p. 1).

Appropriations 2021	Appropriations 2020	Outturn 2019
321 527	545 000	638 652,64

*Remarks*

This appropriation is mainly intended to cover:

- the remuneration of other staff including contract and local staff and special advisers (within the meaning of the Conditions of Employment of Other Servants of the European Union), employer's contributions to the various social security schemes and the impact of salary weightings applicable to the remuneration of these staff,
- fees of staff paid under the arrangements for the provision of services and, in special cases, the employment of temporary agency staff.

*Legal basis*

Conditions of Employment of Other Servants of the European Union.

## EUROPEAN OMBUDSMAN

**CHAPTER 1 4 — OTHER STAFF AND OUTSIDE SERVICES** (*cont'd*)**1 4 0** (*cont'd*)

## 1 4 0 4 Graduate traineeships, grants and exchanges of officials

Appropriations 2021	Appropriations 2020	Outturn 2019
173 500	173 500	158 142,34

*Remarks*

This appropriation is intended to cover:

- allowances, travel and mission expenses for trainees, and accident and sickness insurance during courses,
- expenditure arising from movements of staff between the European Ombudsman and the public sector in the Member States or other countries specified in the rules.

*Legal basis*

European Ombudsman's decision concerning traineeships and European Ombudsman's decision concerning seconded international, national and regional or local officials to the European Ombudsman's office.

**CHAPTER 1 6 — OTHER EXPENDITURE RELATING TO PERSONS WORKING WITH THE INSTITUTION****1 6 1** *Expenditure relating to staff management*

## 1 6 1 0 Expenditure on recruitment

Appropriations 2021	Appropriations 2020	Outturn 2019
4 000	3 000	3 412,06

*Remarks*

This appropriation is intended to cover:

- expenditure on organising the competitions provided for in Article 3 of Decision 2002/621/EC and travel and subsistence expenses for applicants called for interviews and medical examinations,
- the costs of organising procedures for selecting officials and other staff.

In cases duly justified by operating requirements and after consulting the European Personnel Selection Office, this appropriation may be used for competitions organised by the institution itself.

**CHAPTER 1 6 — OTHER EXPENDITURE RELATING TO PERSONS WORKING WITH THE INSTITUTION** (*cont'd*)**1 6 1** (*cont'd*)**1 6 1 0** (*cont'd*)*Legal basis*

Staff Regulations of Officials of the European Union, and in particular Articles 27 to 31 and 33 thereof and Annex III thereto.

Decision 2002/620/EC of the European Parliament, the Council, the Commission, the Court of Justice, the Court of Auditors, the Economic and Social Committee, the Committee of the Regions and the European Ombudsman of 25 July 2002 establishing a European Communities Personnel Selection Office (OJ L 197, 26.7.2002, p. 53) and Decision 2002/621/EC of the Secretaries-General of the European Parliament, the Council and the Commission, the Registrar of the Court of Justice, the Secretaries-General of the Court of Auditors, the Economic and Social Committee and the Committee of the Regions, and the representative of the European Ombudsman of 25 July 2002 on the organisation and operation of the European Communities Personnel Selection Office (OJ L 197, 26.7.2002, p. 56).

**1 6 1 2** Further training

Appropriations 2021	Appropriations 2020	Outturn 2019
1 30 000	1 30 000	112 777,04

*Remarks*

This appropriation is intended to cover:

- expenditure on training for improving staff skills and the performance and efficiency of the institution,
- expenditure on transport costs, the payment of daily mission allowances and the ancillary or exceptional expenses incurred in the performance of a mission, including ancillary costs relating to tickets and reservations (other than that in Article 3 0 0).

*Legal basis*

Staff Regulations of Officials of the European Union, and in particular Article 24a thereof.

Conditions of Employment of Other Servants of the European Union.

**1 6 3** ***Measures to assist the institution's staff*****1 6 3 0** Social welfare

Appropriations 2021	Appropriations 2020	Outturn 2019

## EUROPEAN OMBUDSMAN

**CHAPTER 1 6 — OTHER EXPENDITURE RELATING TO PERSONS WORKING WITH THE INSTITUTION** (*cont'd*)**1 6 3** (*cont'd*)**1 6 3 0** (*cont'd*)*Remarks*

This appropriation is intended to cover:

— as part of an interinstitutional policy to assist people with disabilities in the following categories:

- officials and temporary staff in active employment,
- spouses of officials and temporary staff in active employment,
- all dependent children within the meaning of the Staff Regulations of Officials of the European Union,

the reimbursement, subject to budgetary ceilings and once any national entitlements granted in the country of residence or of origin have been exhausted, of non-medical expenditure that is recognised as necessary, results from disability, is duly substantiated and is not covered by the Joint Sickness Insurance Scheme,

— action taken in respect of officials and other servants in particularly difficult situations.

*Legal basis*

Staff Regulations of Officials of the European Union, and in particular the third subparagraph of Article 9(3) and Article 76 thereof.

European Ombudsman's decision of 15 January 2004 adopting the rules on social assistance to officials and other staff of the European Ombudsman's office.

**1 6 3 1** **Mobility**

Appropriations 2021	Appropriations 2020	Outturn 2019
6 000	6 000	3 875,80

*Remarks*

This appropriation is intended to finance the scheme supporting the use of public transportation at the various places of work.

**1 6 3 2** **Social contact between members of staff and other social measures**

Appropriations 2021	Appropriations 2020	Outturn 2019
7 000	7 000	5 874,73

**CHAPTER 1 6 — OTHER EXPENDITURE RELATING TO PERSONS WORKING WITH THE INSTITUTION** (*cont'd*)**1 6 3** (*cont'd*)1 6 3 2 (*cont'd*)*Remarks*

This appropriation is intended to encourage and provide financial backing for schemes to promote social contact between staff of different nationalities, for example subsidies to staff clubs, associations and cultural activities, and to make a contribution to the cost of activities organised by the staff committee (cultural, leisure activities, meals, etc.).

It also covers financial participation in interinstitutional social activities.

**1 6 5** *Activities relating to all persons working with the institution*

1 6 5 0 European Schools

Appropriations 2021	Appropriations 2020	Outturn 2019
179 083	210 000	197 425,60

*Remarks*

This appropriation is intended to cover:

- the European Ombudsman's contribution to the Type II European Schools accredited by the Board of Governors of the European Schools, or
- the reimbursement to the Commission of the contribution to the Type II European Schools accredited by the Board of Governors of the European Schools paid by the Commission in the name and on behalf of the European Ombudsman and based on a Mandate and Service agreement signed with the Commission.

It will cover the cost for children of the European Ombudsman's staff enrolled in a Type II European School.

*Legal basis*

Commission Decision C(2013) 4886 of 1 August 2013 on the putting into effect of the EU contribution paid on a pro-rata basis to schools accredited by the Board of Governors of the European Schools according to the number of children of EU staff enrolled, replacing Commission Decision C(2009) 7719 as amended by Commission Decision C(2010) 7993 (OJ C 222, 2.8.2013, p. 8).

**CHAPTER 1 1 — STAFF OF THE INSTITUTION** (*cont'd*)**1 1 2** (*cont'd*)1 1 2 2 (*cont'd*)*Remarks*

This appropriation is intended to cover:

- internal and external staff training and professional development courses, including language courses, organised on an interinstitutional, external or internal basis,
- team building events,
- expenditure on educational and technical equipment.

Amount of assigned revenue in accordance with Article 21(3) of the Financial Regulation: p.m.

*Legal basis*

Staff Regulations of Officials of the European Union, and in particular Article 24a thereof.

## 1 1 2 3 Social service

Appropriations 2021	Appropriations 2020	Outturn 2019
p.m.	p.m.	0,—

*Remarks*

This appropriation is intended, as part of an interinstitutional policy to assist people with disabilities (officials and temporary staff in active employment, their spouses and dependent children within the meaning of the Staff Regulations of Officials of the European Union), to cover the reimbursement, within the limits of the resources available under the budget and after any national entitlements in the country of residence or origin have been exhausted, of duly substantiated non-medical expenditure acknowledged to be necessary as a result of the disability.

*Legal basis*

Staff Regulations of Officials of the European Union, and in particular Article 76 thereof.

## 1 1 2 4 Medical service

Appropriations 2021	Appropriations 2020	Outturn 2019
21 000	14 844	14 844,—

*Remarks*

This appropriation is intended to cover expenses related to the annual medical check-up for officials and other servants entitled to it, including the analyses and medical examinations requested in connection with that check-up.

**CHAPTER 1 1 — STAFF OF THE INSTITUTION** (*cont'd*)**1 1 2** (*cont'd*)**1 1 2 4** (*cont'd*)*Legal basis*

Staff Regulations of Officials of the European Union, and in particular Article 59 thereof and Article 8 of Annex II thereto.

**1 1 2 5** Union nursery centre and other day nurseries and after-school centres

Appropriations 2021	Appropriations 2020	Outturn 2019
83 000	80 000	46 831,—

*Remarks*

This appropriation is intended to cover the European Data Protection Supervisor's share in expenditure relating to the Union nursery centre and other day nurseries and after-school centres.

**1 1 2 6** Relations between staff and other welfare expenditure

Appropriations 2021	Appropriations 2020	Outturn 2019
21 000	8 000	14 000,—

*Remarks*

This appropriation is intended:

- to encourage and provide financial backing for schemes to promote social contact between staff of different nationalities, for example subsidies to staff clubs, sports associations and cultural activities, and to make a contribution to the cost of a permanent leisure centre (cultural and sports activities, etc.),
- to contribute to the cost of activities organised by the staff committee (cultural and sports activities, meals, etc.).

It is also intended to cover the implementation of a staff transport plan to encourage the use of public transport, cut private car use and reduce the carbon footprint.

## TITLE 1

### STAFF AT HEADQUARTERS

#### CHAPTER 1 1 — REMUNERATION AND OTHER ENTITLEMENTS RELATING TO STATUTORY STAFF

##### *Remarks*

The appropriations entered in this chapter are assessed on the basis of the EEAS establishment plan for the financial year.

#### **1 1 0      *Remuneration and other entitlements relating to statutory staff***

##### **1 1 0 0      Basic salaries**

Appropriations 2021	Appropriations 2020	Outturn 2019
117 425 000	111 096 000	100 550 697,70

##### *Remarks*

This appropriation is intended to cover basic salaries for officials and temporary staff holding a post provided for in the establishment plan and compensation provided for under Annex IV of the Staff Regulations.

The appropriation will be used in full compliance with the provisions of the Council Decision 2010/427/EU of 26 July 2010 establishing the organisation and functioning of the European External Action Service (OJ L 201, 3.8.2010, p. 30), and in particular Article 6(9) thereof. The existing imbalances in EEAS staffing in terms of the proportion of Member State diplomats and regular EU staff in certain positions will be addressed in line with the commitments given by the Vice-President / High Representative in her letter of 13 September 2016 to the European Parliament.

Amount of assigned revenue in accordance with Article 21(2) and (3) of the Financial Regulation: p.m.

##### *Legal basis*

Staff Regulations of Officials of the European Union.

Conditions of Employment of Other Servants of the European Union.

##### **1 1 0 1      Entitlements under the Staff Regulations related to the post held**

## EUROPEAN EXTERNAL ACTION SERVICE

**CHAPTER 1 1 — REMUNERATION AND OTHER ENTITLEMENTS RELATING TO STATUTORY STAFF** (*cont'd*)**1 1 0** (*cont'd*)**1 1 0 1** (*cont'd*)*Remarks*

This appropriation is intended to cover primarily, for officials and temporary staff holding a post provided for in the establishment plan:

- secretarial allowances,
- accommodation and transport allowances,
- fixed local travel allowances,
- allowances for shift work or standby duty at the official's place of work or at home,
- other allowances and repayments,
- overtime.

Amount of assigned revenue in accordance with Article 21(2) and (3) of the Financial Regulation: p.m.

*Legal basis*

Staff Regulations of Officials of the European Union.

Conditions of Employment of Other Servants of the European Union.

**1 1 0 2** Entitlements under the Staff Regulations related to the personal circumstances of the staff member

Appropriations 2021	Appropriations 2020	Outturn 2019
30 117 000	28 318 000	25 584 985,—

*Remarks*

This appropriation is intended to cover primarily, for officials and temporary staff holding a post provided for in the establishment plan:

- expatriation and foreign residence allowances,
- household, dependent child and education allowances,
- allowances for parental or family leave,
- payment of travel expenses for officials or temporary staff, their spouses and dependants from their place of employment to their place of origin,

**CHAPTER 1 1 — REMUNERATION AND OTHER ENTITLEMENTS RELATING TO STATUTORY STAFF** (*cont'd*)**1 1 0** (*cont'd*)**1 1 0 2** (*cont'd*)

- in the event of the death of an official or an official's dependent, the costs incurred pursuant to Article 75 of the Staff Regulations for transporting the body,
- miscellaneous allowances and grants.

Amount of assigned revenue in accordance with Article 21(2) and (3) of the Financial Regulation: p.m.

*Legal basis*

Staff Regulations of Officials of the European Union.

Conditions of Employment of Other Servants of the European Union.

**1 1 0 3** Social security cover

Appropriations 2021	Appropriations 2020	Outturn 2019
4 464 000	4 222 000	3 831 520,74

*Remarks*

This appropriation is mainly intended to cover, for officials and temporary staff holding a post provided for in the establishment plan:

- insurance against sickness, accidents and occupational disease and other social security charges,
- unemployment insurance for temporary staff and payments made by the institution to allow temporary staff to constitute or maintain pension rights in their country of origin.

Amount of assigned revenue in accordance with Article 21(2) and (3) of the Financial Regulation: p.m.

*Legal basis*

Staff Regulations of Officials of the European Union.

Conditions of Employment of Other Servants of the European Union.

## EUROPEAN EXTERNAL ACTION SERVICE

**CHAPTER 1 2 — REMUNERATION AND OTHER ENTITLEMENTS RELATING TO EXTERNAL STAFF** (*cont'd*)**1 2 0** (*cont'd*)**1 2 0 2** (*cont'd*)*Remarks*

This appropriation is intended to cover the costs of in-service traineeships intended for graduates and is designed to provide them with an overview of the objectives set and the challenges faced by the Union, an insight into how its institutions work and an opportunity to enhance their knowledge through work experience at the EEAS.

It covers the payment of grants and other related costs (supplement for dependent persons or for trainees, persons with disabilities, accident and sickness insurance, etc., reimbursement of travelling costs arising from the traineeship, particularly at the start and the close of the traineeship, as well as the costs of organising events stemming from the traineeship programme, e.g. visits, hosting and reception costs). It also covers the costs of evaluation in order to optimise the programme of traineeships and communication and information campaigns.

The selection of trainees is based on objective, transparent criteria and reflects a geographical balance.

Amount of assigned revenue in accordance with Article 21(2) and (3) of the Financial Regulation: p.m.

**1 2 0 3** External services*Figures (Non-differentiated appropriations)*

Appropriations 2021	Appropriations 2020	Outturn 2019
p.m.	p.m.	

*Remarks*

This appropriation is intended to cover all services performed by persons not linked to the institution and in particular:

- temporary staff for miscellaneous services,
- supplementary staff for meetings,
- experts in the field of working conditions.

Amount of assigned revenue in accordance with Article 21(2) and (3) of the Financial Regulation: p.m.

- mission expenses and staff duty travel expenses of the officials, temporary and contract staff and special advisers of the EEAS, together with transport costs, payment of daily subsistence allowances on mission and ancillary or special costs connected with missions,

**CHAPTER 1 4 — MISSIONS** (*cont'd*)**1 4 0** (*cont'd*)

- mission expenses incurred under the European Union Military Staff's terms of reference,
- mission expenses of national experts on secondment to the EEAS,
- mission expenses of the High Representative's special advisers and special envoys,
- mission expenses of successful candidates called for training prior to taking up duty,
- mission expenses of the chair of the Military Committee.

The amount of assigned revenue in accordance with Article 21(2) and (3) of the Financial Regulation is estimated at EUR 85 000.

*Legal basis*

Staff Regulations of Officials of the European Union, and in particular Articles 11, 12 and 13 of Annex VII thereto.

Decision of the High Representative of the Union for Foreign Affairs and Security Policy on rules applicable to mission by EEAS staff.

Council Decision 2001/80/CFSP of 22 January 2001 on the establishment of the Military Staff of the European Union (OJ L 27, 30.1.2001, p. 7).

Decision of the High Representative of the Union for Foreign Affairs and Security Policy of 4 February 2014 establishing the rules applicable to National Experts seconded to the European External Action Service.

**CHAPTER 1 5 — MEASURES TO ASSIST STAFF****1 5 0** *Measures to assist staff***1 5 0 0** Social services and assistance to staff

Appropriations 2021	Appropriations 2020	Outturn 2019
438 000	283 000	329 868,20

*Remarks*

This appropriation is intended to cover:

- measures taken to assist officials and other staff in particularly difficult situations,
- costs for social contact between members of staff,
- partial reimbursement to staff of the cost of using public transport to come to work. This measure is intended as an incentive to use public transport,
- expenditure on recognition events for officials, and in particular the cost of medals for 20 years' service and retirement gifts.

## EUROPEAN EXTERNAL ACTION SERVICE

**CHAPTER 1 5 — MEASURES TO ASSIST STAFF** (*cont'd*)**1 5 0** (*cont'd*)**1 5 0 0** (*cont'd*)

This appropriation is intended for the following categories of disabled persons as part of a policy to assist the disabled:

- officials in service,
- spouses of officials in service,
- all dependent children within the meaning of the Staff Regulations of Officials of the European Union.

It enables the reimbursement of non-medical costs that are deemed necessary, result from disablement and are duly substantiated, subject to budgetary ceilings, once any national entitlements granted in the country of residence or of origin have been exhausted.

Amount of assigned revenue in accordance with Article 21(2) and (3) of the Financial Regulation: p.m.

*Legal basis*

Staff Regulations of Officials of the European Union, and in particular Articles 24 and 76 thereof.

**1 5 0 1** Medical service

Appropriations 2021	Appropriations 2020	Outturn 2019
708 699	686 460	673 000,—

*Remarks*

This appropriation is intended to cover in particular:

- the operating costs of the sick bays, the cost of consumables, medical care and medicines at the crèche, expenditure on medical check-ups and expenditure relating to the Invalidity Committees and the cost of spectacles,
- expenditure on the purchase of certain work tools deemed necessary on medical grounds.

Amount of assigned revenue in accordance with Article 21(2) and (3) of the Financial Regulation: p.m.

*Legal basis*

Staff Regulations of Officials of the European Union, and in particular Article 59 thereof and Article 8 of Annex II thereto.

**CHAPTER 1 5 — MEASURES TO ASSIST STAFF** (*cont'd*)**1 5 0** (*cont'd*)**1 5 0 2** Restaurants and canteens*Figures (Non-differentiated appropriations)*

Appropriations 2021	Appropriations 2020	Outturn 2019
p.m.	p.m.	

*Remarks*

This appropriation is intended to cover remuneration for the services provided by the operator of the restaurants and canteens.

Amount of assigned revenue in accordance with Article 21(2) and (3) of the Financial Regulation: p.m.

**1 5 0 3** Crèches and childcare facilities

Appropriations 2021	Appropriations 2020	Outturn 2019
1 190 000	985 000	1 043 520,—

*Remarks*

This appropriation is intended to cover the EEAS contribution to the cost of the Early Childhood Centre and other crèches and childcare facilities (to be paid to the Commission and/or the Council).

Revenue from the parental contribution and from contributions by organisations employing parents gives rise to assigned revenue.

Amount of assigned revenue in accordance with Article 21(2) and (3) of the Financial Regulation: p.m.

**1 5 0 4** Contribution to accredited Type II European Schools

Appropriations 2021	Appropriations 2020	Outturn 2019
17 800	20 320	26 680,—

*Remarks*

This appropriation is intended to cover the EEAS's contribution to the Type II European Schools accredited by the Board of Governors of the European Schools or the reimbursement to the Commission of the contribution to the Type II European Schools accredited by the Board of Governors of the European Schools paid by the Commission in the name and on behalf of the EEAS and based on the Mandate and Service agreement signed with the Commission. It will cover the cost for children of the EEAS's staff enrolled in a Type II European School.

**CHAPTER 3 0 — DELEGATIONS** (*cont'd*)**3 0 0** (*cont'd*)**3 0 0 1** (*cont'd*)*Remarks*

This appropriation is intended to cover the following expenditure incurred in relation to delegations of the European Union outside the Union and delegations to international organisations situated inside the Union:

- the remuneration of local and/or contract staff, and the social security charges and benefits to be met by the employer,
- employer's contributions towards supplementary social security cover for local staff,
- services of agency and freelance staff.

Amount of assigned revenue in accordance with Article 21(2) and (3) of the Financial Regulation: p.m.

*Legal basis*

Conditions of Employment of Other Servants of the European Union.

**3 0 0 2** Other expenditure related to staff

Appropriations 2021	Appropriations 2020	Outturn 2019
32 680 847	33 947 239	30 503 445,40

*Remarks*

This appropriation is intended to cover the following expenditure incurred within delegations of the European Union outside the Union and delegations to international organisations situated inside the Union:

- expenditure related to the posting of Junior Experts (university graduates) and trainees to the delegations of the European Union,
- the cost of seminars organised for young diplomats from the Member States and third countries,
- expenditure relating to the secondment or temporary assignment of officials from the Member States to delegations,
- installation and resettlement allowances due to staff obliged to change their place of residence on taking up duty, on transfer to a new place of employment and on finally leaving the institution and resettling elsewhere,
- travel expenses due to staff (including members of their family) on taking up duty, on transfer to another place of employment, or on leaving the institution,
- removal expenses due to staff obliged to change their place of residence on taking up duty, on transfer to another place of employment and on finally leaving the institution and resettling elsewhere,

**CHAPTER 3 0 — DELEGATIONS** (*cont'd*)**3 0 0** (*cont'd*)**3 0 0 2** (*cont'd*)

- in the event of the death of a member of the EEAS staff or a dependent person, the costs incurred pursuant to Article 75 of the Staff Regulations for transporting the body,
- miscellaneous costs and allowances concerning staff, including legal consultations,
- expenditure arising from recruitment procedures of officials, temporary agents, contract staff and local staff, including publication costs, travel and subsistence costs and accident insurance for candidates called for examinations and interviews, costs connected with the organisation of group recruitment tests and pre-recruitment medical examinations,
- the acquisition, replacement, conversion and maintenance of equipment of a medical nature installed in delegations,
- expenses related to the cost of annual medical examinations of officials, contract staff and local staff, including analyses and tests carried out as part of such examinations, the cost of medical and dental advisers and the costs concerning the policy regarding AIDS at the workplace,
- cultural activities and initiatives for encouraging social contact between expatriate and local staff,
- the fixed allowance granted to officials who regularly incur representation expenses by reason of their duties, and the reimbursement of costs incurred by authorised officials to represent the Commission and/or the EEAS in the interests of the service and by reason of their duties (in the case of delegations within the territory of the Union, part of the accommodation expenses will be covered by the fixed representation allowance),
- expenditure on travel expenses, daily subsistence allowances for missions and incidental or exceptional expenses incurred in connection with missions by officials and other staff,
- expenditure on travel expenses and daily subsistence allowances for successful candidates called for training prior to taking up duty,
- expenditure on travel expenses and daily subsistence allowances for experts invited to meetings by delegations,
- expenditure on travel expenses, daily subsistence allowances and insurance in connection with medical evacuations,
- expenditure arising from crisis situations, including travel, accommodation and daily subsistence allowances,
- expenditure on general and language training designed to improve the skills of the staff and the performance of the institution,
- fees for experts employed to identify training needs, design, develop and deliver courses and to evaluate and monitor results,
- fees for consultants in various fields, in particular organisational methods, planning, management, strategy, quality assurance and personnel management,

## EUROPEAN EXTERNAL ACTION SERVICE

**CHAPTER 3 0 — DELEGATIONS** (*cont'd*)**3 0 0** (*cont'd*)**3 0 0 2** (*cont'd*)

- expenditure incurred in designing, holding and evaluating training organised by the institution in the form of courses, seminars and conferences (course instructors/speakers and their travel and subsistence expenses and teaching materials),
- expenditure related to the practical and logistical aspects of organising courses including premises, transport and equipment hire for training and local and regional seminars as well as miscellaneous connected costs, such as refreshments and food,
- the cost of participation in conferences and symposiums, and subscriptions to professional and scientific associations,
- training expenditure related to publications and information, associated internet sites and the purchase of teaching equipment, subscriptions and licenses for distance teaching, books, press and multimedia products,
- the costs associated with the diplomatic exchange programme, such as travel and installation costs, in accordance with the Staff Regulations.

The amount of assigned revenue in accordance with Article 21(2) and (3) of the Financial Regulation is estimated at EUR 120 000.

**3 0 0 3** Buildings and associated costs

Appropriations 2021	Appropriations 2020	Outturn 2019
166 850 000	162 549 714	170 653 926,79

*Remarks*

This appropriation is intended to cover the following expenditure incurred within delegations of the European Union outside the Union and delegations to international organisations situated inside the Union:

- temporary accommodation allowances and daily allowances for officials, temporary agents and contract agents,
- as regards rent and other charges on buildings for delegations outside the Union:
  - for all the buildings or parts of buildings occupied by the offices of delegations outside the Union or by officials posted outside the Union: rent (including temporary accommodation) and taxes, insurance premiums, refurbishments and major repairs, routine expenditure relating to the security of persons and goods (cipher machines, safes, window bars, etc.),
  - for all the buildings or parts of buildings occupied by the offices of delegations outside the Union and delegates' residences: water, gas, electricity and fuel charges, maintenance and repairs, handling, refurbishment and other routine expenses (local taxes for street maintenance and refuse collection and the purchase of signs and signposts),

**CHAPTER 3 0 — DELEGATIONS** (*cont'd*)**3 0 0** (*cont'd*)**3 0 0 3** (*cont'd*)

- as regards rent and other charges on buildings within Union territory:
  - for all the buildings or parts of buildings occupied by the offices of delegations: rent; water, gas, electricity and heating energy charges; insurance premiums; maintenance and repairs; refurbishment and major repairs; expenditure relating to security, particularly contracts for surveillance and the hiring and refilling of extinguishers; the purchase and maintenance of fire-fighting equipment and the replacement of equipment of voluntary fire-fighting officials; the cost of statutory inspections, etc.,
  - for the buildings or parts of buildings occupied by officials: reimbursement of expenditure relating to the security of housing,
- the acquisition of building land and buildings (purchase or lease-purchase option) or the construction of offices or other accommodation, including the costs of preliminary studies and various related fees,
- administrative arrangements that are related mainly to infrastructure and the provision of accommodation,
- charges generated by loans (principal and interest) contracted under the Financial Regulation for the acquisition of property for delegations.

Regulation (EU, Euratom) 2018/1046 of the European Parliament and of the Council of 18 July 2018 on the financial rules applicable to the general budget of the Union, amending Regulations (EU) No 1296/2013, (EU) No 1301/2013, (EU) No 1303/2013, (EU) No 1304/2013, (EU) No 1309/2013, (EU) No 1316/2013, (EU) No 223/2014, (EU) No 283/2014, and Decision No 541/2014/EU and repealing Regulation (EU, Euratom) No 966/2012 (OJ L 193, 30.7.2018, p. 1) provides in its Article 266 the possibility for institutions to finance the acquisition of property through loans. This item will cover charges generated by such loans (principal and interest) for the acquisition of property for delegations.

The amount of assigned revenue in accordance with Article 21(2) and (3) of the Financial Regulation is estimated at EUR 26 770 000.

**3 0 0 4** Other administrative expenditure

Appropriations 2021	Appropriations 2020	Outturn 2019
45 398 000	46 488 000	51 230 498,56

*Remarks*

This appropriation is intended to cover the following expenditure incurred within delegations of the European Union outside the Union and delegations to international organisations situated inside the Union:

- the purchase, hire, leasing, maintenance and repair of furniture and equipment, in particular audio-visual, archive, printing, library, interpretation and specialised office equipment (photocopiers, reader-printers, fax machines, etc.) as well as the acquisition of documentation and supplies related to this equipment,

## EUROPEAN EXTERNAL ACTION SERVICE

**CHAPTER 3 0 — DELEGATIONS** (*cont'd*)**3 0 0** (*cont'd*)**3 0 0 4** (*cont'd*)

- the purchase, maintenance and repair of technical equipment such as generators, air conditioners, etc., and the installation of equipment for welfare facilities in the delegations,
- the purchase, replacement, hire, leasing, maintenance and repair of vehicles, including tools,
- insurance premiums for vehicles,
- the purchase of books, documents and other non-periodical publications, including updates, and subscriptions to newspapers, periodicals and various publications, and the cost of binding and other costs for the preservation of periodicals,
- subscriptions to news agencies,
- the purchase of paper, envelopes, office supplies and supplies for reproduction, and printing contracted to outside service providers,
- the transport and customs clearance of equipment, the purchase and cleaning of uniforms for floor messengers, drivers, etc., various types of insurance (in particular third-party liability and theft), expenditure on internal meetings (drinks, food served on special occasions),
- the cost of studies, surveys and consultations connected with the administrative operation of delegations and any other operating expenses not specifically covered by the other items in this article,
- postal and delivery charges for mail, reports and publications, and for postal and other packages sent by air, land, sea or rail,
- the cost of the diplomatic bag,
- all expenditure on furniture and fittings for residential accommodation made available to officials,
- the purchase, hire or leasing of data-processing equipment (computers, terminals, mini-computers, peripherals, connection devices) with the requisite software,
- outsourced services, in particular for the development, maintenance and support of information technology systems in the delegations,
- the purchase, hire or leasing of equipment for the reproduction of information on paper, such as printers and scanners,
- the purchase, hire or leasing of telephone exchanges and switchboards and equipment for data transmission with the requisite software,
- subscription charges and fixed costs for cable or radio communications (telephone, telegraph, telex, fax), expenditure on data-transmission networks, telematic services, etc., and the purchase of directories,
- the cost of installation, configuration, maintenance, support, assistance, documentation and supplies related to this equipment,

**CHAPTER 3 0 — DELEGATIONS** (*cont'd*)**3 0 0** (*cont'd*)**3 0 0 4** (*cont'd*)

- any expenditure on active security operations in delegations in emergencies,
- all financial charges, including bank charges,
- for imprest accounts, updates where all appropriate measures have been taken by the authorising officer to deal with the situation and where the updated expenditure cannot be booked to another specific budget line,
- updates in situations where a claim is cancelled in full or in part after it has been booked to the accounts as revenue (in particular in the event of offsetting against a debt),
- updates in cases where VAT has not been recovered and where it is no longer possible to book the amount to the line that covered the principal expenditure,
- for any interest relating to the above cases, where it cannot be booked to another specific budget line.

This item is also intended to accommodate, if necessary, an appropriation to cover any losses resulting from the liquidation or cessation of activities of a bank with which the Commission has accounts for the purposes of imprests.

It may finance costs incurred by delegations in the framework of local cooperation with Member States, notably in the context of a crisis.

The amount of assigned revenue in accordance with Article 21(2) and (3) of the Financial Regulation is estimated at EUR 9 360 000.

*Legal basis*

Council Decision 2010/427/EU of 26 July 2010 establishing the organisation and functioning of the European External Action Service (OJ L 201, 3.8.2010, p. 30), and in particular Article 5(10) thereof.

**3 0 0 5** Commission contribution for delegations*Figures (Non-differentiated appropriations)*

Appropriations 2021	Appropriations 2020	Outturn 2019
p.m.	p.m.	

*Remarks*

Any revenue from the Commission or from the European Development Fund (EDF) contributing to the cost in delegations resulting from the presence of Commission staff in delegations may lead to additional appropriations being made available in accordance with Article 21 of the Financial Regulation.

EUROPEAN EXTERNAL ACTION SERVICE

**CHAPTER 3 0 — DELEGATIONS** (*cont'd*)

**3 0 0** (*cont'd*)

**3 0 0 5** (*cont'd*)

This appropriation is intended to cover the following costs for Commission staff, including Commission staff financed by the EDF posted in the delegations of the European Union outside the Union and delegations to international organisations situated inside the Union:

- salaries and salary related expenditure of local agents (and agency staff),
- the share in the expenditure covered by Items 3 0 0 0 (Remuneration and entitlements of statutory staff), 3 0 0 1 (External staff and outside services), 3 0 0 2 (Other expenditure related to staff), 3 0 0 3 (Buildings and associated costs) and 3 0 0 4 (Other administrative expenditure) for such staff.

In addition, this appropriation may cover other expenditure, such as press and information activities, carried out on the basis of service level agreements concluded with other institutions.

Amount of assigned revenue in accordance with Article 21(2) and (3) of the Financial Regulation: p.m.
