COMMISSION REGULATION (EU) 2021/1881**of 26 October 2021****amending Annexes II and III to Regulation (EC) No 396/2005 of the European Parliament and of the Council as regards maximum residue levels for imidacloprid in or on certain products****(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 396/2005 of the European Parliament and of the Council of 23 February 2005 on maximum residue levels of pesticides in or on food and feed of plant and animal origin and amending Council Directive 91/414/EEC ⁽¹⁾, and in particular Article 14(1)(a) and Article 49(2) thereof,

Whereas:

- (1) Maximum residue levels (MRLs) for imidacloprid were set in Part A of Annex III to Regulation (EC) No 396/2005.
- (2) The European Food Safety Authority ('the Authority') submitted a reasoned opinion on the review of the existing MRLs for imidacloprid in accordance with Article 12(1) of Regulation (EC) No 396/2005 ⁽²⁾. The Authority recommended setting the residue definition as imidacloprid only. It identified a risk for consumers concerning the MRLs for escaroles/broad-leaved endives. It is therefore appropriate to lower this MRL to the specific limit of determination (LOD). The Authority recommended lowering the MRLs for pecans, bananas, tomatoes, sweet peppers/bell peppers, aubergines/eggplants, cucumbers, gherkins, courgettes and products of animal origin. The MRLs for those products should be set in Annex II to Regulation (EC) No 396/2005 at the level identified by the Authority.
- (3) The Authority concluded that concerning the MRLs for citrus fruits, grapes, blueberries, cranberries, okra/lady's fingers, cucurbits with inedible peel, beans (with and without pods), peas (with and without pods), beans, peanuts/groundnuts, coffee beans and hops, some information was not available and that further consideration by risk managers was required. As there is no risk for consumers, the MRLs for those products should also be set in Annex II to Regulation (EC) No 396/2005 at the level identified by the Authority. These MRLs will be reviewed; the review will take into account the information available within one year from the publication of this Regulation.
- (4) Existing Codex maximum residue limits (CXLs) were taken into account in the reasoned opinions of the Authority. Concerning the CXLs, the Authority concluded that they are not compatible with the EU residue definition and recommended not to include the existing CXLs in Annex II to Regulation (EC) No 396/2005. It is therefore appropriate to set those MRLs to the level identified by the Authority.
- (5) As regards products on which the use of the plant protection product concerned is not authorised, and for which no import tolerances or CXLs exist, MRLs should be set at the specific LOD or the default MRL should apply, as provided for in Article 18(1)(b) of Regulation (EC) No 396/2005.

⁽¹⁾ OJ L 070, 16.3.2005, p. 1.

⁽²⁾ European Food Safety Authority; Reasoned opinion on the review of the existing maximum residue levels for imidacloprid according to Article 12 of Regulation (EC) No 396/2005. *EFSA Journal* 2019;17(1):5570.

- (6) The Commission consulted the European Union reference laboratories for residues of pesticides as regards the need to adapt certain limits of determination. Those laboratories concluded that for certain commodities technical development requires the setting of specific LODs.
- (7) Based on the reasoned opinions of the Authority and taking into account the factors relevant to the matter under consideration, the appropriate modifications to the MRLs fulfil the requirements of Article 14(2) of Regulation (EC) No 396/2005.
- (8) Through the World Trade Organisation, the trading partners of the Union were consulted on the new MRLs and their comments have been taken into account.
- (9) Regulation (EC) No 396/2005 should therefore be amended accordingly.
- (10) In order to allow for the normal marketing, processing and consumption of products, this Regulation should provide for a transitional arrangement for products which have been produced before the modification of the MRLs and for which information shows that a high level of consumer protection is maintained.
- (11) A reasonable period should be allowed to elapse before the modified MRLs become applicable in order to permit Member States, third countries and food business operators to prepare themselves to meet the new requirements which will result from the modification of the MRLs.
- (12) The approval of imidacloprid expired on 1 December 2020 ⁽³⁾. Any grace periods that may have been granted by Member States will expire on 1 June 2022. A further review of maximum residue levels is envisaged after that date.
- (13) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

DECISIONS

COUNCIL DECISION (EU) 2021/1882

of 25 October 2021

on the financial contributions to be paid by the parties to the European Development Fund to finance that Fund, as regards the third instalment for 2021

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to the Internal Agreement between the Representatives of the Governments of the Member States of the European Union, meeting within the Council, on the financing of European Union aid under the multiannual financial framework for the period 2014 to 2020, in accordance with the ACP-EU Partnership Agreement, and on the allocation of financial assistance for the Overseas Countries and Territories to which Part Four of the Treaty on the Functioning of the European Union applies ⁽¹⁾, and in particular Article 7(2) in conjunction with Article 14(3) thereof,

Having regard to Council Regulation (EU) 2018/1877 of 26 November 2018 on the financial regulation applicable to the 11th European Development Fund, and repealing Regulation (EU) 2015/323 ⁽²⁾, and in particular Article 19(5) thereof,

Having regard to the proposal from the European Commission,

Whereas:

- (1) In accordance with the procedure laid down in Articles 19 to 22 of Regulation (EU) 2018/1877, the Commission is to present a proposal by 10 October 2021 setting out the amount of the third instalment of the contribution for 2021.
- (2) Pursuant to Article 46 of Regulation (EU) 2018/1877, the European Investment Bank (EIB) is to send to the Commission its updated estimates of commitments and payments under the instruments it manages.
- (3) Pursuant to Article 20(1) of Regulation (EU) 2018/1877, calls for contributions are to first use up the amounts provided for in previous European Development Funds ('EDFs'). A call for funds pursuant to Regulation (EU) 2018/1877 should therefore be made for the Commission and for the EIB.
- (4) Pursuant to Article 152 of the Agreement on the withdrawal of the United Kingdom of Great Britain and Northern Ireland from the European Union and the European Atomic Energy Community ⁽³⁾ ('the Withdrawal Agreement'), the United Kingdom of Great Britain and Northern Ireland (the 'United Kingdom') is to remain party to the EDF until the closure of the 11th EDF and all previous unclosed EDFs. Pursuant to Article 153 of the Withdrawal Agreement, however, the United Kingdom's share in decommitted funds from projects under the 11th EDF, where those funds have been decommitted after 31 December 2020, or previous EDFs is not to be reused.
- (5) Council Decision (EU) 2020/1708 ⁽⁴⁾ sets the annual amount of the contributions to be paid by the parties to the EDF for 2021 at EUR 3 700 000 000 for the Commission and at EUR 300 000 000 for the EIB.
