THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2016/429 of the European Parliament and of the Council of 9 March 2016 on transmissible animal diseases and amending and repealing certain acts in the area of animal health ('Animal Health Law') ⁽¹⁾, and in particular Article 259(1), thereof,

Whereas:

- (1) Sheep pox and goat pox is an infectious viral disease affecting caprine and ovine animals and it can have a severe impact on the concerned animal population and the profitability of farming causing disturbance to movements of consignments of those animals and products thereof within the Union and exports to third countries.
- (2) In the event of an outbreak of sheep pox and goat pox in caprine or ovine animals, there is a serious risk of the spread of that disease to other establishments of caprine or ovine animals.
- (3) Commission Delegated Regulation (EU) 2020/687 ⁽²⁾ supplements the rules for the control of the listed diseases referred to in Article 9(1), points (a), (b) and (c), of Regulation (EU) 2016/429, and defined as category A, B and C diseases in Commission Implementing Regulation (EU) 2018/1882 ⁽³⁾. In particular, Articles 21 and 22 of Delegated Regulation (EU) 2020/687 provide for the establishment of a restricted zone in the event of an outbreak of a category A disease, including sheep pox and goat pox, and for certain measures to be applied therein. Article 21(1) of that Delegated Regulation provides that the restricted zone is to comprise a protection zone, a surveillance zone, and, if necessary, further restricted zones around or adjacent to the protection and surveillance zones.
- (4) In order to address outbreaks of sheep pox and goat pox in Greece, the Commission adopted Implementing Decision (EU) 2024/2207 ⁽⁴⁾ on the basis of Article 259 of Regulation (EU) 2016/429. This Decision lays down certain emergency measures relating to sheep pox and goat pox in Greece. More particularly, Implementing Decision (EU) 2024/2207 provides that the protection, surveillance and further restricted zones to be established by that Member State, in accordance with Delegated Regulation (EU) 2020/687, following outbreaks of that disease are to comprise at least the areas listed in the Annex to that Implementing Decision.

⁽¹⁾ OJ L 84, 31.3.2016, p. 1, ELI: <http://data.europa.eu/eli/reg/2016/429/oj>.

⁽²⁾ Commission Delegated Regulation (EU) 2020/687 of 17 December 2019 supplementing Regulation (EU) 2016/429 of the European Parliament and the Council, as regards rules for the prevention and control of certain listed diseases (OJ L 174, 3.6.2020, p. 64, ELI: http://data.europa.eu/eli/reg_del/2020/687/oj).

⁽³⁾ Commission Implementing Regulation (EU) 2018/1882 of 3 December 2018 on the application of certain disease prevention and control rules to categories of listed diseases and establishing a list of species and groups of species posing a considerable risk for the spread of those listed diseases (OJ L 308, 4.12.2018, p. 21, ELI: http://data.europa.eu/eli/reg_impl/2018/1882/oj).

⁽⁴⁾ Commission Implementing Decision (EU) 2024/2207 of 29 August 2024 concerning certain emergency measures relating to sheep pox and goat pox in Greece (OJ L 2024/2207, 30.8.2024, ELI: http://data.europa.eu/eli/dec_impl/2024/2207/oj).

- (5) After the adoption of Implementing Decision (EU) 2024/2207, Greece notified the Commission of additional outbreaks of sheep pox and goat pox in establishments where ovine and caprine animals were kept. As a result, the Annex to that Implementing Decision was duly amended several times to take account of those additional outbreaks.
- (6) Since the last amendment of Implementing Decision (EU) 2024/2207, Greece has notified the Commission of nineteen new outbreaks of sheep pox and goat pox in establishments where ovine and caprine animals were kept, in the regional units of Evros, Magnesia, Rhodopi, Xanthi, Aetolia-Acarnania, Iraklio and Phocis.
- (7) Therefore, the areas listed as protection, surveillance and further restricted zones for Greece in the Annex to Implementing Decision (EU) 2024/2207 should be further adjusted in order to prevent the further spread of the disease in Greece and to the rest of the Union or to third countries, and the duration of the measures to be applied therein should be adjusted. Accordingly, it is necessary to amend the list of restricted zones and the duration of the measures to be applied therein set out in the Annex to that Implementing Decision.
- (8) The size of the protection, surveillance and further restricted zones and the duration of the measures to apply therein is based on the criteria laid down in Article 64(1) of Regulation (EU) 2016/429 and the rules laid down in Delegated Regulation (EU) 2020/687, including the epidemiological situation as regards sheep pox and goat pox in the areas affected by that disease and the overall epidemiological situation of sheep pox and goat pox in the Member State concerned by that disease as well as the level of risk for the further spread of the disease. The duration of the measures also takes into account the international standards of the Terrestrial Animal Health Code of the World Organisation for Animal Health (WOAH). In the current situation, there is a very high risk of further spread of the disease, in particular due to the fact that, according to the information provided by the competent authority, this is the first time that outbreaks are reported in the island of Samothraki, in the regional unit of Evros, and in the regional unit of Iraklio, in the island of Crete, a fact suggesting that the disease continues to persist and spread, in spite of the measures already in place.
- (9) In addition, in view of the occurrence of numerous new outbreaks of sheep pox and goat pox in Greece during the past two weeks, it is also necessary to prolong the prohibition on the movement of sheep and goats from the entire territory of Greece, to a destination located outside Greece, until 15 February 2025 in order to avoid the spread of the disease to the rest of the Union and to third countries, as well as unjustified trade barriers.
- (10) Taking into account the current epidemiological situation in the Union as regards sheep pox and goat pox, the period during which the measures provided for by Implementing Decision (EU) 2024/2207 need to apply should be prolonged until 31 July 2025.
- (11) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS DECISION:

Article 1
