ADMINISTRATIVE PROCEDURES

EUROPEAN PERSONNEL SELECTION OFFICE (EPSO)

NOTICE OF OPEN COMPETITIONS

ADMINISTRATORS AND ASSISTANTS IN THE BUILDINGS SECTOR

EPSO/AD/342/17 (AD 6) — Building management engineers (including environmental and services engineers)

EPSO/AST/141/17 (AST 3)

Profile 1. Building construction coordinators/technicians

Profile 2. Building coordinators/technicians in air conditioning and electromechanical and electrical engineering

Profile 3. Occupational safety/building safety assistants

(2017/C 242 A/01)

Deadline for registration: 12 September 2017 at 12.00 (midday), CET

The European Personnel Selection Office (EPSO) is organising open competitions, based on qualifications and tests, to draw up reserve lists from which the institutions of the European Union, mainly the European Commission, European Parliament and Council, may recruit new members of the civil service as '**administrators**' and '**assistants**' (function groups AD and AST, respectively) in Brussels, Luxembourg or Strasbourg.

This notice of competitions and its annexes form the legally binding framework for these selection procedures.

Please see ANNEX III to read the general rules governing open competitions.

Number of successful candidates sought per competition and profile:

EPSO/AD/342/17 — 24

EPSO/AST/141/17: Profile 1. — 22

Profile 2. — 31

Profile 3. — 12

This notice covers two competitions, one of which contains several profiles. **You may only apply to one profile per competition.** You must make your choice when you apply online and you will not be able to change it after you have validated your online application form.

WHAT TASKS CAN I EXPECT TO PERFORM?**EPSO/AD/342/17**

Oversee the management and/or the environmental performance of the European institutions' building stock and building projects in the framework of programmes or projects.

EPSO/AST/141/17

Profile 1: Assist administrators with building project management (construction, renovation of buildings), specialised technology, structural work and finishing.

Profile 2: Assist administrators with building project management in the areas of air conditioning and electromechanical and electrical engineering.

Profile 3: Assist administrators with the implementation of preventive measures for safety and hygiene at work, coordination of health and safety during planning and construction phases, drawing up safety and hygiene instructions, emergency management.

Please see ANNEX I for more information about the typical duties to be performed.

AM I ELIGIBLE TO APPLY?

You must meet ALL of the following conditions when you validate your application:

1) General conditions:

- Enjoy full rights as a citizen of a Member State of the EU
- Meet any obligations under national laws on military service
- Meet the character requirements for the duties concerned

2) Specific conditions — languages:

You must have knowledge of **at least two official EU languages**, one at minimum C1 level (thorough knowledge) and the other at minimum B2 level (satisfactory knowledge).

Please note that the minimum levels required above must apply to each linguistic ability (speaking, writing, reading and listening) requested in the application form. These abilities reflect those of the *Common European Framework of Reference for Languages*: <https://europass.cedefop.europa.eu/en/resources/european-language-levels-cefr>

In this notice of competitions we will refer to the languages as:

- Language 1: language used for the computer-based multiple-choice question tests
- Language 2: language used for the application form, assessment centre and communication between EPSO and the candidates who have submitted a valid application. This must be different from language 1.

Language 2 must be English, French or German.

Newly recruited building administrators, technicians and assistants will be required to liaise on a daily basis with contractors, external firms and local authorities, whether in Brussels, Luxembourg or Strasbourg. The main working languages of these external stakeholders are English and French (in Brussels and Strasbourg) and French and German (in Luxembourg). Therefore, successful candidates must have a satisfactory knowledge (minimum level B2) of at least one of these languages in order to be immediately operational upon recruitment.

3) *Specific conditions — qualifications and work experience*

EPSO/AD/342/17:

- A level of education which corresponds to completed university studies of **at least 3 years** attested by a diploma in engineering or in architecture, **followed by at least 3 years'** relevant professional experience directly linked to the duties concerned

EPSO/AST/141/17:

All profiles:

- A level of education which corresponds to completed post-secondary education attested by a diploma in building security, occupational and building safety, building technology or in another field directly linked to the duties, followed by **at least 3 years'** relevant professional experience directly linked to the duties concerned

or

- A level of education which corresponds to completed secondary education attested by a diploma giving access to post-secondary education, followed by **at least 6 years'** relevant professional experience directly linked to the duties concerned.

Please see ANNEX IV for examples of minimum qualifications

HOW WILL I BE SELECTED?

1) *Application process*

You must fill in your application form in the language you have chosen as your language 2 (see section 'Specific conditions — languages').

When completing your application form, you will be asked to confirm your eligibility for the competition and provide further information **relevant to the profile of the competition** (for example: diplomas, work experience and answers to field-specific questions (Talent Screener)). You will also have to select your language 1 (any of the 24 official EU languages) and your language 2 (English, French or German).

By validating your application form you declare on your honour that you meet all the conditions mentioned under the section 'Am I eligible to apply?' Once you have validated your application form, you will no longer be able to make any changes. It is your responsibility to ensure that you complete and validate your application **within the deadline**.

2) *Computer-based multiple-choice question (MCQ) tests*

If the number of candidates **exceeds a certain threshold**, as defined for **each competition and profile** by the director of EPSO acting as Appointing Authority, all candidates who validated their application form by the deadline will be invited to sit a series of computer-based MCQ tests in one of EPSO's accredited centres.

Unless instructed otherwise, **you must book** an appointment for the MCQ tests following the instructions received from EPSO. Typically you will be offered several dates on which you can sit the tests, in various locations. The booking and testing periods **are limited**.

If the number of candidates **is below the threshold**, these tests will be held at the assessment centre (point 5) instead.

The computer-based MCQ tests will be organised as follows:

<i>Tests</i>	<i>Language</i>	<i>Questions</i>	<i>Duration</i>	<i>Marking</i>	<i>Pass mark</i>
Verbal reasoning	Language 1	20 questions	35 min	Out of 20	10/20
Numerical reasoning	Language 1	10 questions	20 min	Out of 10	Numerical + abstract combined: 10/20
Abstract reasoning	Language 1	10 questions	10 min	Out of 10	

These tests are eliminatory and do not count towards the other tests held at the assessment centre.

3) *Eligibility checks*

The eligibility requirements laid down in the section 'Am I eligible to apply?' above will be checked against the data provided in candidates' online applications. EPSO will check whether you meet the general eligibility conditions while the selection board will check compliance with the specific eligibility conditions.

There are two possible scenarios:

- If the computer-based MCQ tests **are organised upfront**, the files of the candidates who reached all pass marks will be checked for eligibility in descending order of the marks obtained in those tests until the number of eligible candidates reaches a certain threshold for each competition and profile defined before the tests by the director of EPSO acting as Appointing Authority. The other files will not be checked.
- If the computer-based MCQ tests **are not organised upfront**, the files of all candidates who validated their application form by the deadline will be checked for eligibility.

4) *Selection based on qualifications (Talent Screener)*

In order to allow the selection board to carry out an objective assessment of the comparative merits of all candidates in a structured way, all candidates in the same competition and profile must answer the same set of questions in the 'Talent Screener' section of the application form. The selection based on qualifications will be carried out, **only for those candidates deemed eligible** as described above in point 3, using **solely** the information provided in this Talent Screener section. You should therefore include all relevant information in your Talent Screener answers, even if already mentioned in other sections of your application form. The questions are based on the selection criteria included in this notice. Please see ANNEX II for the list of criteria.

To carry out the selection based on qualifications, the selection board will first assign each **selection criterion** a weighting that reflects its relative importance (1 to 3) and each of the candidate's responses will be awarded between 0 and 4 points. The points are multiplied by the weighting for each criterion and added up to identify those candidates whose profiles best match the duties to be performed.

Only the candidates with the highest total marks at the selection based on qualifications will go through to the next stage.

5) *Assessment centre*

A maximum of three times the number of successful candidates sought for each competition and profile will be invited to this phase. If you meet the eligibility requirements according to the data in your online application and if you scored one of the **highest total marks** for the selection based on qualifications, you will be invited to attend an assessment centre for 1 or 2 days, most probably in **Brussels**, where you will take tests held in your **language 2**.

If the computer-based MCQ tests described in point 2 were **not organised upfront**, you will sit them at the assessment centre. These tests are eliminatory and the marks obtained will not be added to the marks of the other assessment centre tests in the calculation of your total score.

Unless instructed otherwise, you will have to bring your supporting documents (originals or certified copies) to your assessment centre. EPSO will scan these during your assessment centre tests and return them to you on the same day.

Seven general competencies for the AST competition and eight general competencies for the AD competition, as well as the specific competencies required for each competition and profile, will be tested at the assessment centre through **four tests** (general and specific competency-based interviews, group exercise and case study) as described in the following matrices:

<i>Competency</i>	<i>Tests</i>	
1. Analysis and problem-solving	Group exercise	Case study
2. Communication	Case study	General competency-based interview
3. Delivering quality and results	Case study	General competency-based interview
4. Learning and development	Group exercise	General competency-based interview
5. Prioritising and organising	Group exercise	Case study
6. Resilience	Group exercise	General competency-based interview
7. Working with others	Group exercise	General competency-based interview
8. Leadership (<i>only evaluated for EPSO/AD/342/17</i>)	Group exercise	General competency-based interview
Pass marks EPSO/AST/141/17	3/10 per competency and 35/70 in total	
Pass marks EPSO/AD/342/17	3/10 per competency and 40/80 in total	
<i>Competency</i>	<i>Test</i>	
Specific competencies	Specific competency-based interview	
Pass mark	50/100	

6) Reserve list

After checking candidates' eligibility against their supporting documents, the selection board will draw up a reserve list for each competition and profile — until the number of successful candidates sought is reached — of those eligible candidates who have obtained all pass marks as well as the highest overall marks following the assessment centre. Names will be listed alphabetically.

The reserve lists and the competency passports, giving qualitative feedback from the selection board, of successful candidates will be made available to the EU institutions for recruitment procedures and future career development. Inclusion on a reserve list **does not confer any right to or guarantee of** recruitment.

WHEN AND WHERE CAN I APPLY?

Apply online on the EPSO website <http://jobs.eu-careers.eu> by:

12 September 2017 at 12.00 (midday), CET.

ANNEX I

DUTIES

EPSO/AD/342/17 — Building management engineers (including environmental and services engineers)

The European Parliament, Council and Commission services in Brussels, Luxembourg and Strasbourg are looking for building engineers to oversee the management and/or the environmental performance of, the European institutions' building stock and building projects in the framework of programmes or projects defined by their hierarchy or by the parliamentary bodies.

Recruited successful candidates will need to perform conceptual work and technical management, and analysis, technical and administrative supervision work related to technical installations.

Among other things, these duties require an aptitude for drafting, analysis, technical supervision, administrative management and a thorough working knowledge of office software, and planning/project management and/or computer-aided design (CAD) software.

Recruited successful candidates will also require a keen sense of diplomacy, fluency in public speaking and ease in nurturing contacts with various political, economic and social interlocutors.

Duties may include:

- planning and managing contracts with external companies/partners,
- preparing and monitoring the planning of activities under the annual work programme,
- providing advice and analysis on complex technical issues and contributing to the simplification of procedures in the relevant area,
- monitoring construction and renovation projects as well as coordinating building works in connection with clients, providers, contractors and other stakeholders (e.g. health and safety coordinators, consultancy firms, authorities, inspection bodies, etc.),
- monitoring and planning building maintenance (computerised maintenance management system (CMMS), service-level agreement, handling of complaints, etc.),
- managing and coordinating specific projects and monitoring the budget, costs and planning framework,
- contributing to the administrative and financial management of the unit in light of the relevant regulatory provisions,
- providing the service with a thorough knowledge in one of the fields of project management (organisation, planning, coordination, resource management, risk management, etc.),
- supervising the follow-up of reports from external technical and/or environmental inspection services,
- designing projects and implementing measures aimed at improving environmental performance of buildings, improving user well-being and comfort and/or compliance or the technical upgrading of buildings and their installations,
- conducting (energy) audits of buildings, analysing and collating performance data and reporting information (internal and/or external),
- drafting technical specifications and participating in public procurement procedures,
- participating in or organising (sustainable) procurements specific to buildings (works, materials, services, equipment),
- liaising with the institution's management system in the implementation of policies and practices,
- ensuring compliance with and keeping up-to-date with relevant changes in legislation in the area of activities;

EPSO/AST/141/17

Profile 1. Building construction coordinators/technicians

The European Parliament, Council and Commission services in Brussels, Luxembourg and Strasbourg are looking for building construction coordinators/technicians to assist with building project management (construction, renovation of buildings), specialised technology, structural work and finishing: structures, façades, internal and external blinds, roofing, external and internal woodwork, floor and wall coverings.

Duties may include:

- tasks connected with the maintenance and fitting-out of buildings,
- tasks connected with computerised maintenance management system (CMMS), centralised technical management, energy management and sustainable use of buildings,
- tasks connected with fire protection and technical safety of buildings,
- analysis of the requirements for multiannual programming of building or technical equipment maintenance,
- monitoring of complete fitting-out/renovation/construction/rebuilding projects related to building management,
- drafting operating procedures and user training,
- assisting with building stock management and/or with the operation of security equipment and installations,
- assisting with the drafting of specifications prior to the publication of call for tenders, participation in procurement procedures, monitoring and coordinating work or services specific to building techniques,
- administrative and technical management (in particular, supervision of performance, monitoring, quality control) of contracts concluded in the buildings sector with outside companies providing services, works, supplies and furniture,
- contract management and contract monitoring in the framework of the maintenance of building works,
- project management, including financial management and/or building and maintenance management,
- participation in selection procedures and negotiations with a view to the acquisition/occupation of buildings,
- drawing up, consulting and updating plans using CAD software,
- contacts with contractors and national administrations for issues relating to the field of work,
- drawing up multidisciplinary security solutions,
- initiating, monitoring, coordinating and participating in interinstitutional projects and discussions,
- drawing up and monitoring files of rules and regulations or files of compliances and any action related thereto (ensuring compliance),
- monitoring technological developments.

These tasks also call for administrative and financial management skills and a good knowledge of computer-based tools (office automation, Excel, Word, MS Project, etc.) and knowledge of management and CAD (computer-aided design) software.

Profile 2. Building coordinators/technicians in air conditioning and electromechanical and electrical engineering

The European Parliament, Council and Commission services in Brussels, Luxembourg and Strasbourg are looking for coordinators/technicians to work in one of the following areas:

Air conditioning: Air conditioning, ventilation, heating, water/sanitary installations, techniques and methods for the sustainable use of office buildings, energy management, centralised technical management, automated control.

Electromechanical and electrical engineering: Electricity (high and low voltage), lifting equipment, automatic equipment, fire detection and protection, centralised technical management, generator set, emergency lighting, EIB, KNX and analogue systems;

Duties within each area may include:

- tasks connected with the maintenance and fitting-out of buildings,
- tasks connected with computerised maintenance management system (CMMS), centralised technical management, energy management and sustainable use of buildings,
- tasks connected with fire protection and technical safety of buildings,
- analysis of the requirements for multiannual programming of building or technical equipment maintenance,
- monitoring of complete fitting-out/renovation/construction/rebuilding projects,
- drafting operating procedures and user training,
- assisting with building stock management and/or with the operation of security equipment and installations,
- assisting with the drafting of specifications prior to the publication of call for tenders, participation in procurement procedures, monitoring and coordinating work or services specific to building techniques,
- administrative and technical management (in particular, supervision of performance, monitoring, quality control) of contracts concluded in the buildings sector with outside companies providing services, works, supplies and furniture,
- contract management and contract monitoring in the framework of the maintenance of building works,
- project management, including financial management,
- participation in selection procedures and negotiations with a view to the acquisition/occupation of buildings,
- drawing up, consulting and updating plans using CAD software,
- contacts with contractors and national administrations for issues relating to the field of work,
- drawing up multidisciplinary security solutions,
- initiating, monitoring, coordinating and participating in interinstitutional projects and discussions,
- drawing up and monitoring files of rules and regulations or files of compliances and any action related thereto (ensuring compliance),
- monitoring technological developments.

These tasks also call for administrative and financial management skills and a good knowledge of computer-based tools (office automation, Excel, Word, MS Project, etc.) and knowledge of management and CAD (computer-aided design) software.

Profile 3. Occupational safety/building safety assistants

The European Commission and Council services in Brussels are looking for occupational and building safety assistants.

Recruited successful candidates will be required to assist administrators with the implementation of preventive measures for safety and hygiene at work, coordination of health and safety during planning and construction phases, drawing up safety and hygiene instructions and emergency management.

Duties may include assisting with:

- tasks connected with fire protection, technical safety of buildings and hygiene or other tasks connected with safety at work,
- drafting operating procedures and staff training,
- assisting with the drafting specifications prior to the publication of call for tenders, participation in procurement procedures, monitoring and coordinating work or services specific to building safety,
- contacts with contractors and national administrations for issues relating to the field of work,
- risk assessment methods related to ergonomics, work places and psychosocial risks and drawing up safety solutions,
- initiating and following up dossiers connected with safety in other fields, such as electricity/cabling, interior works, ergonomics, firefighting, HVAC, etc.,
- drawing up safety standards and specifications; applying and reviewing these standards and specifications or taking part in work groups relating thereto.

These tasks also call for administrative and financial management skills and a good knowledge of computer-based tools (office automation, Excel, Word, MS Project, etc.) as well as IT tools related to the profile (e.g. evacuation simulation tools, computer-aided elaboration of evacuation plans, computer-aided design, risk assessment, etc.)

End of ANNEX I, [click here](#) to return to main text

ANNEX II

SELECTION CRITERIA

The selection board considers the following criteria for the selection based on qualifications:

EPSO/AD/342/17 — Building management engineers (including environmental and services engineers)

1. Professional experience in designing and implementing measures aimed at improving the environmental performance of buildings, in conducting (energy) audits of buildings, or in checking the compliance of the technical installations (according to legal standards) and/or studying the needs of technical upgrading of installations (also according to legal standards).
2. Professional experience in coordinating building work in connection with clients, providers, contractors and other stakeholders (e.g. health and safety coordinators, consultancy firms, authorities, inspection bodies, etc.).
3. Professional experience in (sustainable) procurement specific to buildings (works, materials, services and/or equipment).
4. Professional experience in using specific software in the field of building construction, planning or maintenance.
5. Professional experience in the budget and/or cost management of building projects.
6. Professional experience in management related to human resources, budget, finance, information technology, legal aspects, etc.
7. Professional experience in managing the operation and maintenance of the technical installations of buildings or in ensuring environmental compliance of buildings and their installations.
8. Professional experience in drafting technical specifications relating to building projects with complex technical installations.
9. Professional experience in monitoring and planning building maintenance (CMMS, service-level agreement, handling of complaints, etc.) or with building energy management systems.
10. Professional experience, or post-university diploma (other than the one required to access this competition), in a building specialisation such as special building techniques, occupational safety, building safety, fire engineering or architecture.

EPSO/AST/141/17**Profile 1. Building construction coordinators/technicians**

1. At least 2 years' professional experience, in addition to that required for access to the competition, directly linked to the duties of the profile.
2. At least 6 months' professional experience in using IT specific software in the field of building construction, planning and/or maintenance.
3. Post-secondary diploma(s), in addition to that required for access to the competition, which are directly linked to the duties of the profile.
4. Training, in addition to that mentioned in criterion 3, in the buildings sector or technical certificates related to the profile.
5. Professional experience and/or training in project management.
6. Professional experience in procurement related to building techniques (as drafter and/or assessor and/or tenderer).

7. Professional experience in applying quality control methods to building works.
8. Professional experience in contract management and contract monitoring in the framework of the maintenance of building works.

Profile 2. Building coordinators/technicians in air conditioning and electromechanical and electrical engineering

1. At least 2 years' professional experience, in addition to that required to access the competition, directly relevant to one of the areas within the profile.
2. At least 6 months' professional experience in using IT specific software in the field of building construction, planning and/or maintenance.
3. Diploma(s), in addition to that required for access to the competition, in one of the areas within the profile.
4. Training, in addition to that mentioned in criterion 3, in the buildings sector or technical certificates relating to one of the areas within the profile.
5. Professional experience and/or training in project management.
6. Professional experience in procurement related to building techniques (as drafter and/or assessor and/or tenderer).
7. Professional experience in applying quality control methods to building works.
8. Professional experience in contract management and contract monitoring in the framework of the maintenance of building works.

Profile 3. Occupational safety/building safety assistants

1. At least 2 years' professional experience, in addition to that required for access to the competition, in the field of occupational safety or building safety.
2. Post-secondary diploma, or certificate recognised by an EU Member State, in addition to that required for access to the competition, in the field(s) of occupational safety, building safety, fire safety or civil protection.
3. Training (minimum 20 hours) in the field(s) of occupational safety, building safety, fire safety or civil protection.
4. Professional experience in the application of standards specific to the field of occupational or building safety.
5. Professional experience of at least 1 year in another domain than that used for access to the competition, linked to building techniques.
6. Knowledge of and professional experience in IT tools related to occupational or building safety (e.g. evacuation simulation tools, computer-aided elaboration of evacuation plans, computer-aided design, risk management, etc.)
7. Knowledge of and professional experience in risk assessment methods, related to ergonomics, work places and/or psychosocial risks.
8. Professional experience in procurement related to building safety or risk assessment (as drafter and/or assessor and/or tenderer).

ANNEX III

GENERAL RULES GOVERNING OPEN COMPETITIONS

GENERAL INFORMATION

Any reference, in the framework of selection procedures organised by EPSO, to a person of a specific gender must be deemed also to constitute a reference to a person of any other gender.

Where candidates tie for the last available place at any stage of the competition, they will all go through to the next stage of the competition. Any readmitted candidates following a successful appeal will also be invited to the next stage.

Where candidates tie for the last available place on the reserve list, they will all be included on the reserve list. Any readmitted candidates following a successful appeal at this stage of the procedure will also be added to the reserve list.

1. WHO CAN APPLY?

1.1. General and specific conditions

The general and specific conditions (including knowledge of languages) for each field or profile are indicated in the section 'Am I eligible to apply?'.

Specific conditions regarding qualifications, professional experience and knowledge of languages vary depending on the profile requested. In your application, you should include as much information as possible regarding your qualifications and professional experience (where required) as described in the section 'Am I eligible to apply?' of this notice **that is relevant to the duties**.

- (a) **Diplomas and/or certificates:** Diplomas, whether issued in EU or non-EU countries, should be recognised by an official EU Member State body, e.g. an EU Member State's education ministry. The selection board will allow for differences between education systems.

For post-secondary education and technical, professional or specialist training, indicate the subjects covered, the duration and whether it was full-time, part-time or an evening class.

- (b) **Professional experience** (if required) will be taken into account only if it is relevant to the required duties and:

- constitutes genuine and effective work,
- is remunerated,
- involves a subordinate relationship or the supply of a service, and
- subject to the following conditions:
 - **voluntary work:** if remunerated and involving similar weekly hours and duration to a regular job,
 - **traineeships:** if remunerated,
 - **compulsory military service:** completed before or after the required diploma for a period not exceeding the statutory duration in your Member State,
 - **maternity/paternity/adoption leave:** if covered by an employment contract,
 - **doctorate:** for a maximum of 3 years, provided the doctorate was actually obtained, and whether or not the work was remunerated, and
 - **part-time work:** calculated *pro rata* on the basis of the number of hours worked, e.g. half-time for 6 months would count as 3 months.

1.2. Supporting documents

At different steps of the selection procedure, you will need to provide an official document proving your citizenship (e.g. passport or identity card) which must be valid on the closing date of your application (closing date of the first part of your application in the case of a 2-part application scenario).

All periods of professional activity must be covered by originals or certified photocopies of:

- **documents from former and current employer(s)** stating the nature and level of duties performed, and start and end dates, with the official header and stamp of the company, and the name and signature of the person in charge, or
- **employment contract(s) and first and last pay slips**, with a detailed description of the duties performed,
- (for non-salaried work, e.g. self-employed, liberal professions) **invoices or order forms** detailing the work performed or any other relevant official supporting documents,
- (for conference interpreters where professional experience is required) documents attesting **the number of days**, and **languages interpreted** from and into, relating specifically to conference interpreting.

In general, no supporting documents are required to prove your knowledge of languages, except for some linguist or specialist profiles.

You may be asked for additional information or documents at any stage of the procedure. EPSO will inform you of what supporting documents you need to provide and when.

1.3. Equal opportunities and special adjustments

If you have a disability or a medical condition that may hinder your ability to sit the tests, please indicate this in your application form and let us know the type of special adjustments you need. If a disability or condition develops after the deadline for applications, you must inform EPSO as soon as possible using the information indicated below.

Please note that you will have to send a certificate from your national authority or a medical certificate to EPSO in order for your request to be taken into consideration. Your supporting documents will be examined, so that reasonable accommodation can be made where required.

For more information, please contact the EPSO-accessibility team by:

- email (EPSO-accessibility@ec.europa.eu),
- fax (+32 22998081), or
- post:

European Personnel Selection Office (EPSO)
EPSO accessibility
Avenue de Cortenbergh/Kortenberglaan 25
1049 Bruxelles/Brussel
BELGIQUE/BELGIË

2. BY WHOM WILL I BE ASSESSED?

A selection board is appointed to compare candidates and select the best ones on the basis of their competencies, aptitudes and qualifications in the light of the requirements set out in this notice of competition. Its members also decide on the difficulty of the competition tests and approve their content on the basis of proposals made by EPSO.

To ensure the selection board's independence, it is strictly forbidden for candidates or anyone outside the board to attempt to contact any of its members, except in the context of tests which require direct interaction between the candidates and the board.

Candidates who wish to state their case or assert their rights must do so in writing, addressing their correspondence intended for a selection board to EPSO, which will pass it on to the board. Any direct or indirect intervention by candidates that does not comply with these procedures is forbidden and may result in disqualification from the competition.

The existence of a family relationship or a hierarchical link between a candidate and a selection board member, in particular, gives rise to a conflict of interest. Selection boards are asked to declare any such situations to EPSO immediately when they become aware of them. EPSO will evaluate each case individually and take the appropriate measures. The non-respect of the abovementioned rules could make selection board members liable to disciplinary action and result in disqualification from the competition for candidates (see Section 4.4).

The names of the selection board members are published on the EPSO website (www.eu-careers.eu) before the beginning of the assessment centre/phase.

3. COMMUNICATION

3.1. Communication with EPSO

You should consult your EPSO account **at least twice a week** to keep track of your progress during the competition. If you are prevented from doing so because of a technical problem on EPSO's side, you must notify EPSO immediately

- preferably via the 'contact us' section of the EPSO website (www.eu-careers.eu), or
- by phone via Europe Direct (00 800 67891011), or
- by post:

European Personnel Selection Office (EPSO)
Avenue de Cortenbergh/Kortenberglaan 25
1049 Bruxelles/Brussel
BELGIQUE/BELGIË

EPSO reserves the right not to supply information that is already clearly stated in this notice of competition, its annexes or on the EPSO website, including under 'frequently asked questions'.

In all correspondence relating to an application, please mention your **name** as given in your EPSO account, your **application number** and the **reference number of the selection procedure**.

EPSO applies the principles of the code of good administrative behaviour https://ec.europa.eu/info/about-european-union/principles-and-values/ethics-and-integrity/code-conduct-eu-staff_en (as published in the *Official Journal*). Accordingly, EPSO reserves the right to cease any improper (i.e. repetitive, abusive and/or irrelevant) correspondence.

3.2. Access to information

Candidates have specific rights of access to certain information concerning them individually, granted in the light of the obligation to state reasons, in order to allow for an appeal against rejection decisions.

This obligation to state reasons must be balanced with the confidentiality of the selection board proceedings, which ensures the boards' independence and the objectivity of the selection. Due to confidentiality, attitudes adopted by members of selection boards regarding the individual or comparative assessments of candidates cannot be disclosed.

These access rights are specific to candidates in an open competition and legislation on public access to documents may not confer on them rights broader than those specified in this section.

3.2.1. Automatic disclosure

You will **automatically receive** the following information via your EPSO account after each stage of the selection process organised for a given competition:

- **MCQ tests:** your results and a grid with your answers and the correct answers by reference number/letter. Access to **the text of the questions and answers is explicitly excluded**,
- **eligibility:** whether you were admitted; if not, the eligibility conditions that were not met,

- **Talent Screener:** your results and a grid with the question weightings, the points awarded for your answers and your total score,
- **preliminary tests:** your results,
- **intermediate tests:** your results if you are not amongst the candidates invited to the next phase,
- **assessment centre/phase:** if you are not disqualified, your competency passport showing your overall marks for each competency and the selection board's comment providing quantitative and qualitative feedback on your performance at the assessment centre/phase.

As a rule, EPSO does not communicate to candidates any source texts or test assignments, as these are intended for reuse in future competitions. For certain tests, however, it may exceptionally publish the source texts or assignments on its website if:

- the tests have been completed,
- the results have been established and communicated to candidates, and
- the source texts/assignments are not intended for reuse in future competitions.

3.2.2. Information on request

You may request an **uncorrected** copy of your answers in written tests where the content is **not intended for reuse** in future competitions. This explicitly excludes answers to case studies.

Your corrected answer papers and the details of the marking, in particular, are covered by the secrecy of selection board proceedings and **will not be disclosed**.

EPSO endeavours to make as much information available to candidates as possible, in accordance with the obligation to state reasons, the confidential nature of selection board proceedings and the rules on the protection of personal data. All requests for information will be evaluated in light of these obligations.

Any requests for information should be submitted via the 'contact us' section of the EPSO website (www.eu-careers.eu) within 10 calendar days of the day your results were published in your EPSO account.

4. COMPLAINTS AND ISSUES

4.1. Technical issues

If, at any stage of the selection procedure, you encounter a serious technical or organisational problem, in order to allow us to investigate the issue and take corrective measures, **please inform EPSO immediately:**

- preferably via the 'contact us' section of the EPSO website (www.eu-careers.eu), or
- by post:

European Personnel Selection Office (EPSO)
Avenue de Cortenberg/Kortenberglaan 25
1049 Bruxelles/Brussel
BELGIQUE/BELGIË

In all correspondence, please mention your name (as given in your EPSO account), your application number and the reference number of the selection procedure.

For **problems occurring outside test centres** (e.g. concerning the application or booking process), please contact EPSO (see Section 3.1) with a brief description of the problem.

If the problem occurs at a test centre, please:

- alert the invigilators and ask them to record your complaint in writing, and
- contact EPSO via the 'contact us' section of the EPSO website (www.eu-careers.eu) with a brief description of the problem.

4.2. Internal review procedures

4.2.1. Error in the computer-based multiple choice questions (MCQs)

The MCQ database is subject to permanent in-depth quality control by EPSO and selection boards.

If you believe that an error in one or more of the MCQs affected your ability to answer, you are entitled to ask for the question(s) to be reviewed by the selection board (under the 'neutralisation' procedure).

Under this procedure, the selection board may decide to cancel the question containing the error and to redistribute the points among the remaining questions of the test. Only those candidates who received that question will be affected by the recalculation. The marking of the tests remains as indicated in the relevant sections of this notice of competition.

Arrangements for complaints about the MCQ tests are as follows:

- **procedure:** please contact EPSO (see Section 3.1) **only via the online contact form**,
- **language:** in the language 2 you chose for the competition in question,
- **deadline:** within **10 calendar** days of the date of your computer-based tests,
- **additional information:** describe what the question was about (content) in order to identify the question(s) concerned and explain the nature of the alleged error as clearly as possible.

Requests received after the deadline or that do not clearly describe the contested question(s) and alleged error will not be taken into account.

In particular, complaints merely pointing out alleged issues of translation, and which do not clearly specify the problem, will not be taken into account.

4.2.2. Requests for review

You can request a review of any **decision** taken by the selection board or EPSO that establishes your results and/or determines whether you can proceed to the next stage of the competition or are excluded.

Requests for review may be based on:

- a material irregularity in the competition process, and/or
- non-compliance, by the selection board or EPSO, with the Staff Regulations, the notice of competition, its annexes and/or case-law.

Please note that you are not allowed to challenge the validity of the selection board's assessment of the quality of your performance in a test or the relevance of your qualifications and professional experience. This assessment is a value judgment made by the board and your disagreement with the board's evaluation of your tests, experience and/or qualifications does not prove that it has made an error. Requests for review submitted on this basis will not lead to a positive outcome.

Arrangements for requests for review are as follows:

- **procedure:** please contact EPSO (see Section 3.1),
- **language:** in the language 2 you chose for the competition in question,
- **deadline:** within **10 calendar days** of the date on which the contested decision was published in your EPSO account,
- **additional information:** indicate clearly the decision you wish to contest and on what grounds.

Requests received after the deadline will not be taken into account.

You will receive an acknowledgment of receipt within 15 working days. The body which took the contested decision (either the selection board or EPSO) will analyse and decide on your request and you will receive a reasoned reply as soon as possible.

If the outcome is positive, you will be re-entered in the selection process at the stage at which you were excluded, regardless of how far the competition has progressed in the meantime.

4.3. Other form of contestation

4.3.1. Administrative complaints

As a candidate in an open competition, you have the right to address an administrative complaint to the Director of EPSO acting as the appointing authority.

You may submit a complaint against a decision, or lack thereof, that directly and immediately affects your legal status as a candidate, only if the rules governing the selection procedure have clearly been infringed. **The Director of EPSO cannot overturn a value judgment made by a selection board** (see Section 4.2.2).

Arrangements for administrative complaints are as follows:

- **procedure:** please contact EPSO (see Section 3.1),
- **language:** in the language 2 you chose for the competition in question,
- **deadline:** within **3 months** of notification of the contested decision or of the date by which a decision should have been made,
- **additional information:** indicate clearly the decision you wish to contest and on what grounds.

Requests received after the deadline will not be taken into account.

4.3.2. Judicial appeals

As a candidate in an open competition, you have the right to submit a judicial appeal to the General Court.

If you wish to appeal against a decision taken by EPSO, you must first make an administrative complaint (see Section 4.3.1).

Arrangements for judicial appeals are as follows:

- **procedure:** please consult the website of the General Court (<http://curia.europa.eu/jcms/>).

4.3.3. European Ombudsman

All EU citizens and residents can make a complaint to the European Ombudsman.

Before you submit a complaint to the Ombudsman, you must first make the appropriate administrative approaches to the institutions and bodies concerned (see Sections 4.1-4.3).

Making a complaint to the Ombudsman does not extend the deadlines for lodging administrative complaints or judicial appeals.

Arrangements for complaints to the Ombudsman are as follows:

- **procedure:** please consult the website of the European Ombudsman (<http://www.ombudsman.europa.eu/>).

4.4. Disqualification from the selection procedure

You may be disqualified at any stage in a selection procedure if EPSO finds that you:

- have created more than one EPSO account,
- have applied to incompatible fields or profiles,
- do not meet all the eligibility conditions,
- made false declarations or declarations unsupported by the appropriate documents,
- have failed to book or sit your tests,
- have cheated during the tests,

-
- did not declare in your application form the language, or one of the languages, required as language 2, or did not declare the minimum level required for language 2,
 - attempted to contact a member of the selection board in an unauthorised manner,
 - failed to inform EPSO of a possible conflict of interest with a selection board member,
 - submitted your application in a language other than that/those specified in this notice of competition (allowances may be made regarding the use of another language for proper nouns, official titles and job titles as indicated in the supporting documents or labels/titles of diplomas); and/or
 - signed or wrote a distinctive mark on anonymously marked written or practical tests.

Candidates for recruitment by the EU institutions must show the highest possible integrity. Fraud or attempted fraud may render you liable to penalty and compromise your eligibility for future competitions.
