Draft Council Conclusions on the Development of Sustainable Public Procurement

(2022/C 236/02)

RECALLING the European Council conclusions of 21 July 2020 stating that the plan for European recovery will need massive investment, in particular with the aim of bringing about a sustainable and resilient recovery, while supporting the European Union's green and digital priorities;

EMPHASISING that common effort is necessary not only to support the businesses that are most affected by the health crisis but also to make public investments that foster convergence, resilience, sustainability, innovation and European independence in strategic sectors;

EMPHASISING the crucial role that public procurement can play in the proper implementation of the sustainable development goals and in the incorporation of these goals to serve the public interest;

RECALLING the Council conclusions of 17 December 2020 on 'Making the recovery circular and green' ⁽²⁾, in which the Council expressed its support for the guidance proposed in the Commission communication 'A new Circular Economy Action Plan for a cleaner and more competitive Europe' ⁽³⁾ on green public procurement;

RECALLING the conclusions of the Council of the European Union on public investment through public procurement ⁽⁴⁾, in which the Council supports ambitious environmental considerations in procurement, for example through the introduction of criteria or targets, and taxation as it contributes to sustainability;

RECALLING the Commission Work Programme for 2019 entitled 'Delivering what we promised and preparing for the future' ⁽⁵⁾;

RECALLING the Commission communications 'A clean planet for all' ⁽⁶⁾ and 'The European Green Deal' ⁽⁷⁾;

CALLS on the Commission and the Member States to work in close partnership with the European Parliament, the regional and local authorities, the Economic and Social Committee, and the Committee of the Regions when pursuing these common objectives and, to that end, to work, in particular, towards:

⁽⁷⁾ ST 15051/19 + ADD 1: Communication from the Commission COM (2019) 640 final.

Introducing Sustainable Development Considerations in Public Procurement

1. EMPHASISES the concept of sustainable development as a way to achieve economic and social development and environmental protection while respecting human rights;
2. CONSIDERS that public buyers should be able to use their resources strategically in order to support as well as possible the transition to a green, innovative, circular, and socially responsible economy, in particular by investing in sustainable infrastructure, sustainable and/or circular economy products, and by using processes and technologies that are themselves ambitious with regard to the sustainable development goals pursued, while seeking the best possible value for money, and promoting wide competition in public procurement procedures;
3. CALLS on the Commission to consider, in line with its commitment in the Sustainable Europe Investment Plan ⁽⁸⁾ and in the Circular Economy Action Plan, in the context of future legislative proposals, including those which amend existing EU legislation relating to the various sectors of activity, the possibility of introducing sustainable development considerations into public procurement procedures for sectoral goods or services; UNDERLINES that, depending on the sector, these considerations may range from sustainable development goals, professional abilities or technical specifications related to sustainable development in contracts, to sustainability criteria, in particular for the execution or the awarding of contracts; STRESSES the importance of allowing public buyers to determine the most appropriate way to include such considerations in their procedures; TAKES NOTE of the work already undertaken by the EU institutions and the Member States in this regard, and UNDERLINES the need to accelerate and intensify it;
4. URGES the Commission and the Member States to work together to map, in relation to public procurement, the sectors relevant in terms of their sensitivity to sustainable development considerations and to assess their maturity, taking into account, for example, the ability of economic operators to address these new considerations;
5. HIGHLIGHTS the work completed, in progress and on the way at Member State level to establish the priority nature of certain sectors; EMPHASISES the need to coordinate this work at EU level;
6. STRESSES the importance of the role that the Commission's expert groups can play in this regard by involving and inviting the various stakeholders in order to determine whether or not the various sectors identified are to be prioritised; CONSIDERS that the Council should also be involved in this work;
7. STRESSES the importance of defining a general methodology enabling these bodies to determine whether or not each sector of activity should be deemed as a priority through an in-depth analysis of its maturity;
8. CONSIDERS that a coherent work will make it possible to identify both the sectoral EU texts which may be amended in the years ahead and the extent of the amendments that need to be made with regards to their provisions on public procurement in order to help achieve the environmental and climate objectives set at EU level;
9. BELIEVES that it is necessary to achieve these objectives in accordance with the 2030 and 2050 deadlines, referred to above, and STRESSES the importance of a gradual and harmonised approach; CONSIDERS therefore that the texts covering all sectors identified as priority sectors should be revised by 2030 at the latest; CONSIDERS it necessary, moreover, to amend the texts relating to the remaining sectors by 2050 at the latest, which is the reference year set for achieving EU climate neutrality;
10. DEEMS it essential that this work be integrated within a comprehensive approach; CONSIDERS, as far as appropriate and feasible, that the Commission and the Member States should therefore consider a general framework, intended to introduce the taking into account of sustainable and resilient development considerations into public procurement, irrespective of the sector concerned;
11. STRESSES the importance, when taking measures, of not imposing an excessive administrative burden on public buyers, and especially on sub-central purchasing bodies;
12. CALLS ON the Commission and the Member States to begin all this work without delay.

COMMISSION DECISION

of 7 June 2022

on the participation of the National Regulatory Authority of Ukraine in the Body of European Regulators for Electronic Communications

(2022/C 236/05)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Whereas:

- (1) Article 17(1) of the Treaty on European Union lists the powers of the Commission and provides in particular that the Commission is to promote the general interest of the Union and take appropriate initiatives to that end, exercise coordinating, executive and management functions, as laid down in the Treaties, and ensure the Union's external representation, with the exception of the common foreign and security policy and other cases provided for in the Treaties.
- (2) Pursuant to Article 35(2) of Regulation (EU) 2018/1971 of the European Parliament and of the Council ⁽¹⁾ the Board of Regulators and the working groups of the Body of European Regulators for Electronic Communications ('BEREC') as well as the Management Board of the BEREC Office are open to the participation of regulatory authorities of third countries with primary responsibility in the field of electronic communications, where those third countries have entered into agreements with the Union to that effect. That provision also provides that under the relevant provisions of those agreements working arrangements are to be developed specifying, in particular, the nature, extent and manner in which the regulatory authorities of the third countries concerned will participate without the right to vote in the work of BEREC and of the BEREC Office, including provisions relating to participation in the initiatives carried out by BEREC, financial contributions and staff to the BEREC Office.
- (3) Pursuant to Article 124 of the Association Agreement between the European Union and its Member States, of the one part, and Ukraine, of the other part ⁽²⁾ ('the Association Agreement'), Ukraine has committed to ensure that its current and future laws on electronic communications gradually become compatible with the Union *acquis* featured in Annex XVII to the Association Agreement; that Annex has been updated ⁽³⁾.
- (4) Pursuant to Article 392 of the Association Agreement, the Parties shall cooperate 'with the aim of developing a comprehensive regulatory framework and ensure efficient functioning of (...) the electronic communication markets', while pursuant to Article 394(1) of the Association Agreement, they 'shall promote gradual approximation to the EU law and regulatory framework' in this area. In addition, Article 393 of the Association Agreement provides that 'the Parties shall promote cooperation between Ukraine's national regulator in the field of communications and the national regulators of the EU'.

⁽¹⁾ Regulation (EU) 2018/1971 of the European Parliament and of the Council of 11 December 2018 establishing the Body of European Regulators for Electronic Communications (BEREC) and the Agency for Support for BEREC (BEREC Office), amending Regulation (EU) 2015/2120 and repealing Regulation (EC) No 1211/2009 (OJ L 321, 17.12.2018, p. 1).

⁽²⁾ OJ L 161, 29.5.2014, p. 3.

⁽³⁾ Decision N° 1/2021 of the EU-Ukraine Association Committee in Trade Configuration of 22 November 2021 amending Appendix XVII-3 (Rules applicable to telecommunication services), Appendix XVII-4 (Rules applicable to postal and courier services) and Appendix XVII-5 (Rules applicable to international maritime transport) to Annex XVII to the Association Agreement between the European Union and the European Atomic Energy Community and their Member States, of the one part, and Ukraine, of the other part [2021/2219] (OJ L 447, 14.12.2021, p. 23).

- (5) It is clear from the object and purpose of the provisions of the Association Agreement and its Appendix XVII-3 that the Union and Ukraine commit to regulatory cooperation with the aim of approximation of Ukraine's laws on electronic communications to the Union *acquis*, for which BEREC plays an important role. It is also clear that participation of the national regulatory authority of Ukraine to the work of BEREC and the BEREC Office would further facilitate the process.
- (6) The Union and Ukraine have therefore entered into an agreement within the meaning of Article 35(2) of Regulation (EU) 2018/1971.
- (7) Given the interest of the Union in strengthening cooperation with Ukraine and fostering the adoption by Ukraine of the Union *acquis* in the field of electronic communications, it is appropriate to allow for the participation of the national regulatory authority of Ukraine in the Board of Regulators and working groups of BEREC and the Management Board of the BEREC Office and establish working arrangements to that effect,

HAS DECIDED AS FOLLOWS:

Article 1

The national regulatory authority of Ukraine with primary responsibility for overseeing the day-to-day operation of the markets for electronic communications networks and services may participate, without the right to vote, in the Board of Regulators and working groups of the Body of European Regulators for Electronic Communications ("BEREC") and the Management Board of the BEREC Office.

The Terms of Reference for the participation of the national regulatory authority of Ukraine are set out in the Annex.

Article 2

This Decision shall enter into force on the day of its adoption.

Done at Brussels, 7 June 2022.

For the Commission
Thierry BRETON
Member of the Commission

- (2) This contribution shall be expressed in EUR and paid into a EUR bank account of the BEREC Office.
- (3) The NRA of Ukraine shall pay its contribution according to the call for funds for its own part within 30 days after the call for funds is sent by the BEREC Office.
- (4) Any delay in the payment of the contribution shall give rise to the payment of interest by the NRA on the outstanding amount as from the due date. The interest rate corresponds to the rate applied by the European Central Bank on the due date for its operations in EUR, increased by 1,5 percentage points.

7. Detailed working arrangements

1. The BoR and the MB shall specify the detailed working arrangements for the participation of the NRA of Ukraine, where needed, in accordance with Regulation (EU) 2018/1971 and the present Terms of Reference.
2. The NRA of Ukraine may participate in the work of BEREC, including the BoR and the Working Groups, and in the MB from the day of entry into force of this Decision, irrespectively of the finalisation of the detailed working arrangements of point 7.1.
